The Easton Gazette.

Next door to Campbell's Drug Store,
EASTON, MD.

SATURDAY MORNING, JULY 31, 1858.

BUSINESS NOTICES.

☞ Communications, the effect of which is to promote private interest, are charged for at the rate of 50 cents per square.

☞ Obituary Notices exceeding six lines in length, are also subject to a similar charge.

☞ For terms of subscription and advertising; see first page.

☞ Accounts of over six months standing are chargeable with the usual interest.

☞ Books received by mail will be promptly noticed under the editorial head.

ANOTHER EXCITEMENT IN NEW ORLENS—*The Vigilance Committee Opposing Order instead of being Favorable to It.*—We learn from our exchanges that an excitement was created at New Orleans a few days ago, during the trial of a man named Leggett, for rape. A Mr. Beers drew a pistol on a man outside of the Recorder's office, upon which the *Bee* gives the following particulars:

"The police proceeding to arrest him, were for a moment resisted by several gentlemen, known to have taken active hand with the late Vigilance Committee. There were strong indications now of a general disturbance; but the officers were finally permitted to arrest Beers, who we believe, was subsequently admitted to bail. The crowd were assembled around the spot till dark.

And it was estimated by the knowing ones that not less than 500 members of the late Vigilance Committee were upon the ground in arms! This looks very like the beginning of another Vigilance excitement."

These are the law loving people who figured so largely during the late election in that city, for Mayor, with the *pretended* purpose of correcting evil, and see that all should have a fair chance to vote, but we think that circumstances have shown that their intentions were merely to gain the day over the American party, for several years past in power there, for the Democratic As a very great number of foreigners were found in the Committee and now the authorities are opposed in the exercise of their duty, it looks very fishy. Murder will out.

A CHILD LEFT ASLEEP IN THE WOODS.—A few days since a large party of persons left Philadelphia in the Baltimore cars to enjoy a picnic, and while in the woods the mother of a child three months old placed it in the care of an aunt. In the evening when the cars were about to return to the city, and the child was fast asleep in the grove, the aunt started in search of her bonnet; she had just sufficient time to return and get on board the train. Not observing the child in her hurry, she supposed the mother had taken it, but unfortunately the two ladies got into different cars, each supposing the other to have the child, so that it was not ascertained until the arrival of the train at the depot in this city that it had been left behind. The father immediately hired a hack and returned to the grove, and was overjoyed to learn that a servant girl, living in the neighborhood, had had her attention attracted to the sleeping infant by the barking of a dog, and had taken it home to her employer's house.—Here the father found it, and was soon on his return to the distracted mother and aunt.

MOUNT VERNON RECORD.—We have received a very neatly printed monthly, quarto form, published by the "Ladies' Mount Vernon Association." The "Record" will be a medium through which will be conveyed, from time to time, such details in respect to the operations and doings of the Association as may seem to interest the people, and direct their minds to a more earnest solicitude for that great and commendable purpose it seeks to accomplish. As a farther point in their plan, the conductor of the 'Record' will give from month to month, complete lists of contributions and contributors, with such other specialities in the movements of the Association as may give the public clear and concise information as to what is done and being done to obtain the needed funds requisite to place Mount Vernon in the full possession of the people of the United States.

THE SUBMARINE TELEGRAPH.—After the breaking of the Cable the Agamemnon returned to England. It has been determined to make another attempt to lay the cable, and the 17th inst. was the time appointed for the departure of the fleet. This undertaking was looked upon in the first place with great fear as to its success, and every effort lessens the confidence of the people in the enterprise. This undertaking, however, may eventually be accomplished. All great inventions and wonderful discoveries are at first attended with great difficulty and expenditure of money before they can be put into successful operation.

A FEAT.—The Hagerstown Herald learns that Captain M. Cromer, of Mercerburg, cut 12¼ acres of wheat by actual survey, on the 12th of this month. He commenced at sunrise, and 20 minutes before sundown he completed the task.

THE Maryland Court of Appeals, in the case of the Baltimore and Ohio Railroad Company vs Wm. Lamborn, has decided that railroad companies in this State are *not responsible* for injuries done to cattle and stock by their cars, in any case in which such cattle, &c., are on the railway tracks through *any negligence or fault* on the part of the *owners of them*; that the owner of cattle is bound to keep them in an inclosure or in custody at his peril, for every entry by them on another's possession is a trespass, and this law applies as well to the intrusion of cattle and horses upon the land over which a railroad company is entitled to its franchise as to the property of a private owner. Similar decisions have been made in nearly all the States of the Union, where the question has arisen in their Courts.

WILD CAT BANKS.—The public are cautioned against taking the notes of the "Bank of Trade" and the "Ocean County Bank," New Jersey, says an exchange. These are "wild cat" concerns, the former with a circulation of $66,000 and specie basis of exactly $100.

Recently some disclosures were made in reference to the Ocean County Bank not calculated to inspire confidence.

LADIES HOME MAGAZINE.—The Ladies Home Magazine for August is already out. It is a beautiful number, containing several handsome engravings, a number of fine stories besides much other matter very interesting to the ladies. Single copies one year $2.

The election in Kansas, to eetermine upon the acceptance or rejection of the Lecompton constitution, will take place next Monday.

Local Items.

WOODS ON FIRE.—We were spending a few hours with a friend and an old subscriber the other day, when our attention was drawn to a tremendous body of smoke issuing from a woods on the opposite shore.—On inquiry we found that it was on the land formerly owned by Col. K. R. Owen, deceased. We were informed that it had been burning for about two weeks. We know not whether it has been extinguished yet or not. It has, no doubt, done considerable damage.

QUARTERLY CONFERENCE.—The Quarterly Conference of the M. P. Church met at St. Michaels on Saturday last, under the charge of Rev. H. P. Jordon. After transacting the business of the Conference, it adjourned to hold its next quarterly meeting at Bambury.

THE RACES.—The pacing race between "Bates" and "Ned Forest," came off on Wednesday last, according to appointment, with some alteration in distance. The distance was a quarter of a mile and repeat—three best out of five. They paced three rounds—Bates coming off victor by a considerable odds.

DEATH OF THE "OLD ROYAL OAK"—*In the passage of time all things must decay.*—As an evidence of this, the Old Royal Oak, about eight miles from Easton, so extensively known since the Revolution, and more recently since the war of 1812, from being pierced in both conflicts by the balls of some of Britain's "long shooters," and ever since having some of them suspended from its limbs—has from old age and the heat of the summer's sun withered and died. This old tree has a tremendous body, and no one living, we presum can tell its age.

ST. MICHAELS.—The town of St Michaels, we think, has considerably improved in the last three years. It has three very nice churches—an M. P. Church,—lately constructed, of fine size and the inside neatly finished. Protestant Episcopal—the building lately thoroughly repaired and the grounds enclosed with a new, neat, but substantial fence. The M. E. Church's finish inside may not be of so modern a style, but the building is of brick and it is a good substantial house.

St. Michaels is considerable of a business place—the oyster business being a good part of their trade. We have understood that one man frequently makes from three to five dollars per day in that trade.

STOVES, &c.—All persons in want of Stoves, and all kinds of Castings, we would invite to a perusal of the advertisement of Chas. Keilholtz, Esq., in another column, and for further particulars to an examination of his stock of Stoves, Castings, &c., constantly kept by him. Mr. K. has fitted up a new establishment for the accommodation of the public, and we have no doubt, his industry, and a determination to please will not go unrewarded. He has lately constructed a Ware Room where he keeps his ready made work, and all who are in want of plows and castings can there be supplied. In passing around his establishment the other day our eye was particularly struck with the roof of his new ware room. The sheathing is layed very close in the first place, and then covered with a cement in a very hot state, and that is covered with gravel, making a roof that a good size fire might burn on for several hours without injury to it in the least. Give him a call and encourage home industry.

SALE OF FARM STOCK!—We invite attention to the sale of Nicholas Martin, Jr., in another column, of stock, farming utensils, &c.

COURT.—The case of S. T. Willson, removed from Dorchester, still occupeis the attention of our Circuit Court. Witnesses on other cases and all other business not connected with Willson's trial, have been discharged until next Friday. As to the time when Willson's case will be concluded, it is beyond our judgment. There are a large number of witnesses summoned—over an hundred we have understood—and only about a dozen have yet been examined. The counsel on both sides, gives every point, upon which a debate may arise, the strictest scrutiny—neither side willing to yield an inch.

It cannot be said, let the case terminate as it may, that the counsel for the State or defence, did not do their duty.

The Dorchester County Court adjourned on Monday last to next Monday, in order to give a large number from that county a chance to attend our Court, and should not Judge Spence further postpone his Court, Messrs. Goldsborough and Griswold, two of Willson's counsel, will have to be in attendance of their own Court—especially Mr. Goldsborough, as he is Prosecutor of that county.

UNPATENTED LANDS.—We have received and placed in our column last week, a list of the unpatented certificates from the Land Commissioner, at Annapolis, for Talbot County. A great many citizens in this county are interested in this list. It contains the names of lands, for whom and when surveyed, and the number of acres.

ROAD SALES.—The contract, to make a new road, leading from a point on the Centreville road to Wootenaux Bridge, was struck off by A. J. Loveday, Auctioneer, on Tuesday last, to Solomon Pipin, Esq., for the sum of $345.

The contract for Bridging the old Tan Yard Branch, and making a small piece of road, was struck off by the same, to Jas. Love, Esq., for $489.

WESLEYAN FEMALE COLLEGE.—This Institution for the education of Young Ladies, at Wilmington, Del., is said to be a very fine one. It is said to have ample libraries, the building of fine size and well ventilated. For further particulars see advertisement in another column.

NEVASSA GUANO.—In another column will be found an advertisement from Messers. Thompson & Kersey, offering for sale this highly recommended fertilizer. It is said to contain, by analysis, 84 per cent. of bone phos. of lime, and its productive qualities are very highly rated.

GOV. HICKS.—Governor Thos. H. Hicks has been stopping at the Easton Hotel for several days past—having been summoned as a witness in the case of Willson.

A FINE SHOWER.—We were blessed on last evening with a fine shower of rain.—We have had but little rain during the last ten weeks. Our corn crop, we are afraid, is past recovery, to make any thing like a full yield.

GEN. QUITMAN.—The telegraph last week briefly announced the death of this distinguished soldier and statesman, of the disease contracted by him at the National Hotel, in March, 1857. Gen. Q. was about sixty years of age and a native of New York. He migrated at an early age to Mississippi, where he became a planter and in political life one of the most distinguished men of the State. In 1846–7, he volunteered for the Mexican War, and was appointed by President Polk a Major General. In this capacity he was prominently engaged in most all of the sanguinary actions which immediately preceded the capture of the Mexican capital, of which, on its surrender, he was made Governor. He was sent to Congress in 1855, and re-elected in 1857. Though a devoted follower of Calhoun during the life-time of that distinguished statesman, and in Congress regarded as belonging to the most ultra division of Southern political feeling, his personal characteristics won for him from all parties an estimation perhaps not equally shared by any other member of the House. Even the *Tribune*, the bitterest of his political opposers, speaking in view of his probable death ungrudgingly admits that 'he was a brave, frank, honest, high-minded statesman, in whom, though as strong-headed as could be, the country loses a noble and true man."

AN AGGRAVATED CASE OF RAPE—*The Villain Hung by the Excited Populace.*—One day last week, a rape was committed near Enterprise, Miss., upon the person of Miss Walker, a young lady 17 years old, of that place, by a negro belonging to Dr. Miller, of Waynesboro, Miss.

Miss Walker and a younger sister were out walking, and when about half a mile from home, they were met by the negro, who immediately proceeded to commit his fiendish deed, remarking to the younger sister that if she told on him he would kill her.

The aroused and indignant feelings of the people were, however, unappeased, and it was determined to visit a summary and terrible punishment upon the offender.—Accordingly, at night he was taken from his place of confinement and hung by the neck to the limb of an adjacent tree. The efforts of one or two persons to allay the excitement and prevail upon the people to defer to the slow process of the law were utterly unavailing.

For two days the negro was dangling from the tree of his execution, a terrible warning against such villainies.

The young woman thus cruelly outraged is said to be virtuous and respectable, and her mental sufferings are represented as being intense and heartrending. It is reported that since the atrocity she has made no less than three attempts upon her own life, which were discovered in time to prevent success.

BURNING OF THE "LOG CABIN" OF "OLD TIPPECANOE."—The "old North Bend Mansion House," the "log cabin" of "Old Tip," made famous in song and story during the presidential election of 1840, was burned to the ground on Saturday night. It was occupied by the family of Col. Wm. H. H. Taylor, son-in-law of President Harrison, who barely escaped with their lives, saving only their night clothes.

A National Disgrace.

We have understood that the heavy contract for the large amount of iron pipes needed to supply the city of Washington with water, has been given out, and will be manufactured in Scotland. It was let without restriction and was taken by a person in Philadelphia. Is it not a burning shame that an Administration under the son of Pennsylvania should give out one of the heaviest contracts under its control to be taken to a foreign country, in the wants of the world? Is it not an outrage that the furnaces along the Lehigh Valley must languish and lie idle, while James Buchanan and his Democratic friends are importing cast iron pipes to supply the National capitol with water? Is our own State to be thus scourged and cursed for the sin of having elected an imbecile old man as President? Truly our sin is great, but our punishment is almost greater than we can bear. Thousands of hands might find profitable employment in the manufacture of this pipe; but no, the subjects of the Queen of England must first be cared for. Easton business men and capitalists are prepared to manufacture the best iron for this kind of work and had the contract been limited to the productions of our country as it should have been many of our furnaces would be kept in active operation. Does any person need a better illustration of Mr Buchanan's idea of protection to American labor and capital? If a person were to go among the thousands of workmen employed on our National Capitol, he would hear every language under Heaven spoken, and see every nation represented, with scarcely an American representation. Yet this is the great Democratic dynasty of James Buchanan.—*Easton (Pa.) Free Press.*

THE QUEEN OF THE RIVER PIRATES ARRESTED.—The notorious Maria Keys, alias Faulkner, was arrested Saturday by Marshall Gallagher and his aids, on a charge of stealing some $700 worth of extra gin from the warehouse of Mix & Morris, River street, a few months since. She was ordered to give bail in the sum of $1,500, which she promptly did. This Maria Keys is the queen of a gang of about twenty dock pirates. Her hovel, on the West Side, near the Old Exchange, is their rendezvous.—There the dock pirates secrete their 'swag;' there Maria gives orders, plans, thieving expeditions, and is queen. Frequently, the police tell us, she heads the banditti in person, dressing herself up in men's clothes. She has an extensive wardrobe, and can appear in any character that she deems necessary for the successful consummation of her plans. She has been known to rig herself up in the character of a sailor, a canal boatman, a verdant young man from the country, an old, gray-haired and decrepid man, &c. All alone she has "cracked" many a warehouse along the docks in the night. She is, in short, a regular female Jack Sheppard, and would make a splendid heroine for one of Ainsworth's novels.—*Cleveland Plaindealer 19th.*

STORM AND FLOOD IN KANSAS—*Houses Afloat.*—Leavenworth, Kansas, was visited with a terrible rain and flood on the 15th instant. Soon after 9 the rain began to fall, and it fell as if the heavens were made of water. The effect upon Three Mile Creek was instantaneous. It overflowed its banks, and by midnight it was higher than ever known to be by the oldest inhabitant. The Villa House, Wing's grocery, and all the buildings in the neighborhood at the crossing of the government road were under water—some four, some three, and some one foot. At or near midnight, houses from Cincinnati (a suburb of Leavenworth,) came floating down the creek, three of which were borne away on the bosom of the waters. One evidently had a family in it. Near Wing's grocery their cry for help was heard Some few men breasted the storm, took out from the floating a mother, who had been confined to a sick bed for some four weeks, and four children and cared for them.

FROM UTAH.—The latest intelligence from Utah leaves little doubt as to the settlement, at least for the present, of the difficulties with the Mormons. Despatches received in St. Louis, state that news from Salt Lake City to the 3d inst. has been received. Brigham Young and the heads of the Mormon Church had returned to the city, and had been followed by the people, who were returning to their homes in all parts of the Territory. No troops were in the city, General Johnston having passed through and encamped with the Army in Cedar Valley, 30 miles beyond. The Government officers had been duly installed, and everything was quiet in the Valley. It was stated that Brigham Young was anxious to be tried on the charge of treason, though he insisted that the jury should consist of Mormons only—which, of course, would insure his acquittal.

ELECTIONS IN AUGUST.—During the month of August elections will take place in the following States: In Missouri on the first Monday for members of the Legislature and members of Congress; in Kentucky on the same day for Clerk to the Court of Appeals, district judges and county officers. On the first Thursday North Carolina votes for Governor and members of the Legislature; upon the latter will devolve the choice of U. S. Senator to succeed Mr. Biggs, deceased; Alabama, Texas, Arkansas and Tennessee also hold elections during the month, but do not this year choose either State officers or members of Congress.

ARRIVAL OF THE JOSEPH WHITNEY.—The steamer Joseph Whitney, Capt. Howes, reached Baltimore from Boston on Tuesday morning, with the following list of passengers; Mrs. H. E. Bacon, daughter and two children, Washington; Mrs. C. D. Slingluff and daughter, Mr. Slingluff, Mrs. Freeman and two daughters, George W. Tinges, Capt. Douglas, Mrs. F. N. Hancock, Dr. R. Denny, J. T. Brown, and Mrs. Long, Baltimore; George Lawrence, F. H. Worland, Boston; R. H. Spencer, Talbot county, Md., and Charles Foster.

SELF POSSRSSION.—A correspondent of the Lynchburg (Va.) Virginian, writing from Newmarket, Tennessee, relates the following. A lady near this place was bitten the other day by a rattlesnake, after which she undid her apron string and tied it over the bite. She killed the snake, cut off a piece and applied it to the wound, and drank a quart of whiskey. At last accounts she was doing well. This was some spunk.

Dorchester Affairs.

MIRACULOUS ESCAPE.—A negro man belonging to William C. Huffington, Esq., near Cambridge, was caught by the rods of a threshing machine, and whirled over some forty-five or fifty times, within fifteen inches of the ground, striking it every turn, before the horses could be stopped.

He was caught by his clothes, which were torn from him into shreds. To look at the machine it appears wonderful, that he could have been taken from it alive; but he has no bones broken, no internal injury that his physician, Doctor Bayly has discovered, and we learn that the Doctor thinks him in a fair way of recovery.—*Cambridge Eagle.*

NEGRO STAMPEDE.—On last Wednesday week a negro man of Dr. Tubman's, and on last Saturday night a negro woman and two boys, the property of Mrs. Dixon of this place, and a negro man and woman belonging to E. Phillips of Town Point, ran away. There is a reward of a thousaud dollars offered for their capture.—*Democrat.*

MARYLAND STATE AGRICULTURAL SOCIETY'S CATTLE SHOW.—It so happened that the United States Society had at the same time fixed upon the same week for their exhibition. The Executive Committee of the Maryland Society have consequently reconsidered the subject, and have now fixed the period one week earlier, viz: to commence on the 19th of October and to be continued four deys, as usual. The United States Society holds it Show on the 26th of October, at Richmond, Va., and the Virginia State Society the week following, commencing on the 2d of November at Petersburg. Thus exhibitors and visitors can be present at all three of the exhibitions—first at Baltimore, the next week at Richmond, and the following at Petersburg.

THE steamer Moses Taylor arrived at New York on Tuesday, bringing the California mails to the 5th inst., and nearly a million and a quarter in gold. The Frazier river excitement had reached a great height, and California was being deserted for the new nuriferous regions. Fourteen vessels had left San Francisco for New Caledonia. The Indians had already given trouble and it was feared would attempt to massacre the emigrants The news from California is not otherwise important.—Business at San Francisco was active in consequence of the demand for goods for Frazer's river.

CUSTOM HOUSE APPOINTMENTS.—The following appointments have recently been made in the Baltimore Custom House: John H. Magruder, of Prince George's county, inspector; Mr. J. Buchanan, of Baltimore, deputy weigher; Jas. Hyland, of Somerset, deputy measurer. The general government have reduced the wages of the appointees twenty-five per cent. in order to reduce expenses, but, we learn, that additional appointments have been made, whereby the outlay will equal if not exceed that of previous years.—*Clipper.*

INFLUX OF NEGROES.—A Washington correspondent complains of a great influx or free blacks into that city, and says that it composed about one fifth of its population. Their number too is steadily increasing by daily additions from Maryland and Virginia.

DEATH FROM DRINKING WHISKEY.—At Mercerville, Va., on the Chesapeake and Ohio Canal, last week, a man named Jacob Barks drank a quart of whiskey, and laid down in the public road, where he died in the course of half an hour.

SNOW IN JULY.—The wife of George Snow, in Arkansas, gave birth to three children last Monday week. We suppose this might be called a "small sprinkling" of snow.

Died of Delirium Tremens, in Appoquiminink Hundred, on Monday evening last, Jas. Roberts, who was implicated seven or eight years since in the Cosden murder.

Health of New Orleans—Yellow Fever.

NEW ORLEANS, July 27.—The mortality in this city for the past week shows an increase over the previous week. The number of deaths was 187, including 25 from yellow fever and 19 from consumption.—Notwithstanding the number of yellow fever victims, the health of the city is considered good, as it is believed that the season is too far advanced for the disease to become epidemic.

HOLLOWAY'S PILLS—A WORD TO FAMILIES.—It should be understood that the operation of these famous Pills is not limited to the cure of those violent internal distempers for which they are successfully administered in this country and all others.—They act also as an immediate corrective in the minor ailments incident to both sexes. We commend them most unreservedly as the very best family medicine in existence. If given to children suffering from colic, constipation, worms, or any disorder of the stomach or bowels, they invariably afford immediate relief. In fact, they ought to be considered everywhere a domestic staple, for sickness, whether of a slight or serious character, cannot long retain its hold in any household where they are always at hand.

Prices Current.

BALTIMORE, July 28, 1858

WHEAT—About 6,800 bushels offered. Sales as follows:

FRESH FRUIT.

AS the season for Preserving Peaches, Tomatoes, &c., is now approaching the subscriber has now provided a large stock of all the various and most approved Jars for the purpose—which he offers at the lowest prices.

He is also the Agent for the county for Darton's Patent for "*Exhausting the Air*" from Fruit Cans. This Exhauster can be used to advantage on most of the fruit Cans now in use, the only alteration necessary being the punching of a small hole in the centre of the lid. Persons generally are invited to view this curious and useful invention which exhausts the air from the fruit can and seals it at the same time.
jy 31 JNO. GOLDSBOROUGH.

Wesleyan Female College,
Wilmington, Delaware,

CHARTERED with full Collegiate powers, furnished with extensive Apparatus, Libraries, &c., and having a full Board of experienced Professors and Teachers, offers to Young Ladies superior facilities for acquiring a complete education.

The Buildings are well ventilated, lighted with gas, and have rooms for bathing on each floor. The domestic arrangements and the general discipline are such as to secure, as far as possible, to all the boarding students, the comforts of home and the refining influences of a cultivated and Christian family circle.

EXPENSES for Board, Room, Light, Fuel, and Tuition in studies of the regular course, $101 per year. Drawing, Painting, Music and the Modern Languages extra.

The next Session will commence *WEDNESDAY*, the *FIRST OF SEPTEMBER.*
jy 31-2m JOHN WILSON, President

PUBLIC SALE.
