## INTRODUCTION

Effort was made to achieve the utmost accuracy in this project, but interpreting the enumerator's hand-written material often posed problems. For example, capital H's and K's in the old style of handwriting look very similar; B's not closed at the bottom appear as R's; S's and T's are similar; lower case u's could be interpreted as n's; an unclosed "a" appears as a "u". In attempting to interpret the entries "Wood's Baltimore City Directory" for 1860 was sometimes consulted. This strategy proved to be useful on a few occasions. However there were wide differences in spelling and in the listed occupations. A man shown as a laborer in the census turned out to be a policeman in the Directory, etc. Because the microfilm copy of the census is extremely faint in numerous sections, this compiler had to consult the original at the National Archives in many instances.

The enumerator took great liberties in the spelling of surnames. Sometimes when an entry for a household carried over from one page to another the enumerator changed the spelling of the surname. We have retained both spellings in this book. Surnames were occasionally spelled phonetically, e.g. the name written as Knobloch in the Baltimore City Directory of 1860 appears as Noblock in the 1860 census. The user is cautioned to check the index for all possible variations.

In some sections it is obvious that the information was transcribed column by column rather than across the page. Thus you find such unlikely entries as Anna appearing to be a stevedore and Henry as a seamstress and children the age of seven having been married within the year.

All information contained in the original census has been recorded here except for dwelling house number which has little or no genealogical value. We have listed the census information in the following format:

First - The number of family in the "order of visitation." This number was generated by census enumerator in numerical sequence within the ward. Occasionally pages have been microfilmed out of order. The families are presented here in the numerical order in which they were recorded and the fact that the microfilmed pages are out of sequence is noted in the text.

Second - The name of one of the members of the household, almost always the head of the household, appears first. The names of every person whose usual abode was in this family on 1 June 1860 is contained in this paragraph.

Third - Age and sex.

Fourth - Color. When no color is given, White is assumed. B signifies Black and M signifies Mulatto.

Fifth - Profession, occupation or trade of each person, male and female, over 15 years of age.

Sixth - Value of Real Estate/Value of Personal Estate.

Seventh - Place of birth. (Sometimes recorded as "at sea.")

Eighth - If married within the year, an "m" is shown.

Ninth - If the individual attended school within the year, "s" is given.

Tenth - Persons over 20 years of age who cannot read or write are indicated by an asterisk (*).

Eleventh - An entry signifying that the person is "deaf and dumb," blind, insane, idiotic, or a convict."

To save space, last names and places of birth were not repeated when they were the same as the preceding. Semicolons separate each individual within a household entry. Commas separate entries pertaining to a specific person.

The index is a COMPLETE index, giving full names of all persons shown in this book.

An explanation of a typical entry, household # 8, follows. The entry reads,

8. Samuel HARRISON 34m, carpenter, Md; Mary C. 39f, 3000/250, m; Edward NEWKIRK 19m, machinist; Francis M. 17m, rolling mill; Mary E. 15f; Sarah I. 11f, s; George W. 13m, s; James L. 9m; Alfred H. 6m.

These are the persons residing within the household #8 surveyed. Samuel Harrison is a white (assumed) 34 year-old male. His occupation is carpenter and he was born in Maryland. Mary C. (also Harrison) is a white (assumed) 34 year-old female. She possesses $3000 in real estate and $250 in her personal estate. She was born in Maryland (same as previous entry showing place of birth) and was married within the past year.

Edward Newkirk also resides in the household. He is a white (assumed) 19 year-old male who follows the profession of machinist. The census shows no real estate or personal estate values. He was born in Maryland (referring back to last listed entry). Francis M. (also Newkirk) is a white (assumed) 17 year-old male who works in a rolling mill; showing no real estate or personal estate value; also born in Maryland. Mary E. (also Newkirk) is a white (assumed) 15 year-old female (also born in Maryland). Sarah I. (also Newkirk) is an 11 year-old female, born in Maryland who has attended school within the year. George W. (also Newkirk) is a 13 year-old male, born in Maryland, who has attended school within the year. James L. (also Newkirk) is a 9 year-old male, born in Maryland, no mention of school attendance.

Alfred H. (also Newkirk) is a 6 year-old male, born in Maryland.

We hope to eventually publish all wards of the Baltimore City Census for the year 1860. Each volume will contain a reproduction of the map appearing on page iv showing division of Wards and each volume will contain Appendix I, a listing of the churches in the city taken from "Wood's Baltimore City Directory" for the year 1860 and showing in which wards they were located as well as Wards closely adjacent. We would also like to see the "Wood's Baltimore City Directory" for 1860 reproduced in volume form for easy cross referencing.

Our thanks to Mr. Wesley L. Wilson of Enoch Pratt Free Library's Maryland Department for the map appearing on page iv and to Mr. Thomas Hollowak, Baltimore City Archivist, who along with his staff was most helpful with the city tax records for the year 1861. Thanks also to Mr. Hollowak for the use of their copy of the 1860 City Directory.

Conclusion of the 2nd Ward - July 6th 1860. A. PINDELL, Ass't. Marshall

## APPENDIX I

Following is a list of churches taken from "Wood's Baltimore City Directory" for the year 1860. In addition to the churches listed in the directory, we have provided the ward in which each church was located, which is the first ward listed. Other wards are listed when churches are within a few blocks of the boundary lines between districts.
