I mean the fall before that happened to him. He put up all new pipe.

Q (The Court) Do you know what it cost to build the house ten years ago?

A I couldn't tell you definitely just what it cost us, because we added a lot of improvements as we went along after we moved there. We didn't have the furnace when we moved in, and there was lots of little things done after we moved in there, but we had I'll say $1400 or $1500 at the time it was built, as near as I can tell you, but we have spent I know four or five hundred dollars on it since then.

Q (Mr. Storm) You mean $1400 or $1500 of your own money?

A No, we had $300 to start with. We borrowed twelve hundred and some I think from the Building and Loan.

Q (The Court) Do you know what the lot cost?

A I think we paid $100 for the two lots. It was $50 apiece I think.

Q Are there any pavements out in front of your home?

A Nothing but a stone walk, that's all.

Q Your home is off the highway, is it not?

A Yes.

(Mr. Storm)

Q The street is laid out on the plat but nothing ever done?

A It is to be a street, that is all I can tell you, whenever the street goes through.

(The Court)

Q It is not located on an improved street? A. No.

Q (Mr. Storm) It is on a street that would open up from the Hagerstown Pike, is that right?

A Yes, from the Jefferson to the Hagerstown Pike.

Q Then you have a stone walk there which you walk over to get to your home?

A Yes, stone walk from the streetway into the house. The stone walk goes right in to the front steps.

Q The street is not improved; that would be muddy?
