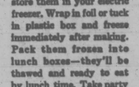
BRIGHT IDEAS

...by Penny Power

Someone wise wrote this! 'The beauty of the house is order ... the blessing of the house is contentment ... the glory of the house is hospitality.



You can make party or lunch-box sandwiches up to two weeks ahead of use and store them in your electric freezer. Wrap in foil or tuck in plastic box and freeze immediately after making. Pack them frozen into lunch boxes—they'll be thawed and ready to eat by lunch time. Take party sandwiches out of freezer three hours before you plan to use them. Best fillings for freezing: peanut butter, American cheese, sliced or ground meat, fish, chicken, turkey. Skip mayonnaise, lettuce, tomatoes, celery, carrots, egg salad.

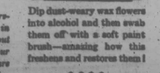
* * *

Your electric company, serving just about everybody in town, is owned by just about everybody you know! Your friends and neighbors are investors—either directly because they've invested their savings in the company or indirectly because their insurance companies and banks invest in the electric company. It is not owned by the city, or the state, or the federal government!

* * *

When making a mix-in-one-bowl main dish, stir it up in the greased casserole you'll cook it in. Use a piece of bread to spread butter, margarine or salad oil on a casserole, then cube the bread and add to casserole.

Cooking at the table is grand for informal entertaining. Just be sure to have all ingredients ready and measured on a tray so they're ready for your electric frypan, chafing dish or griddle when the cooking fun starts.



Dip dust-weary wax flowers into alcohol and then swish them off with a soft paint brush—amazing how this freshens and restores them!

* * *

Price is what you pay for what you get—value is what you get for what you pay. Dollar for dollar, you get more electric service today than did twenty-five years ago!
