# The Teachers Union keeps fighting for you; The teacher The student The community

In recent months the U.S. Office of Economic Opportunity has been fostering two "experiments" in education.
One called "performance contracting" is designed to turn public education over to private profit making corporations despite Big Business' record of;
depleting our minerals,
spoiling our forests,
polluting our air and rivers.

The other "experiment" is called the "voucher system."
It will promote "elitism."
It will foster fly-by-night schools.
It will destroy cooperation and will bring on cut-throat competition among private and parochial and public schools.

The Teachers' Union knows our schools are not good enough.
But destroying them will not help.

The Teachers' Union will continue to fight for you.
