A Statement to the Citizens of Baltimore By—

THE M. GOLDSEKER COMPANY

We are offering our qualified tenants first preference to take advantage of a wonderful opportunity now available through the FHA to buy their home.

This program makes available the opportunity for people who have little or no savings to become home owners without the usual necessity of a large down payment and large settlement expenses.

★ For those of our tenants who wish to buy, we are allowing them a portion of the rent we receive in order for them to accumulate the minimal money necessary to qualify for the FHA program. In addition — before submitting the house to the FHA, each home is examined by the M. Goldseker property inspectors and repairs and improvements are made.

In light of the current atmosphere promoting home ownership for the citizens of Baltimore and in light of the wonderful opportunity for home ownership now afforded by the FHA for qualified people with little or no savings — we feel that our desire to sell our homes (and only to those people who want to buy them) is a just and moral undertaking as well as a major contribution towards home ownership.

We shall endeavor — as we have in the past — to provide decent housing to those persons desiring to upgrade themselves; and specifically, to offer renters with little or no savings the opportunity to become home owners, so they too may have their stake in the community!
