Court returns Ala. bar case

MONTGOMERY, Ala. — The U.S. Court of Appeals has returned a ruling for the commissioners of the Alabama State Bar Association to the U.S. District Court because it ruled the district judge hearing the case failed to carry out his proper function.

District Judge Robert E. Varner had refused to excuse himself from hearing the case brought against the bar by black lawyers because he "believed it was his duty to decide the issue as to whether or not he was actually biased," the appeals court found.

His only function, the court said, should have been to determine whether arguments for his withdrawal gave "fair support to the charge of a bent mind that may prevent or impede impartiality of judgment."

PUBLIC NOTICE

PROPOSED TRANSPORTATION PROJECT

INTERSTATE ROUTE 83 BALTIMORE CITY, MARYLAND

COMBINED LOCATION-DESIGN PUBLIC HEARING

AND

PUBLIC INFORMATION MEETING-NATIONAL HISTORIC PRESERVATION ACT

I-83 FROM GAY STREET TO I-95

MARYLAND STATE HIGHWAY ADMINISTRATION, INTERSTATE DIVISION FOR BALTIMORE CITY

A combined Location-Design Public Hearing and Historic Preservation Public Information Meeting will be held by representatives of the Maryland State HIGHWAY Administration, Interstate Division for Baltimore City, at Hampstead Hill Junior High School (School #43), located at Ellwood Avenue and Pratt Street, Baltimore, Maryland on January 28, 1975, beginning at 9 a.m. The hearing will continue to 12 midnight with breaks from 12 noon to 1 p.m. for lunch and 6 p.m. to 7 p.m. for dinner. Additional sessions of this hearing will be held on consecutive days, if necessary.

Corridor Location Public Hearings were held under Federal Aid procedures for this project on January 30, 1962 & February 14, 1967, at which time alternatives including the "No Road" Alternative were presented to the public.

The Federal Highway Administration and the State Highway Administration have determined that a new Corridor Location Hearing is desirable and may be combined with the Design Hearing in accordance with Title 23, Code of Federal Regulations, Section 790.5(g).

The purpose of this combined Corridor-Location-Design Public Hearing is to present to the public, additional alternatives and the social, economic, and environmental impact of this segment of I-83. The additional alternatives and additional social, economic, and environmental information were developed in response to public comments received at the aforementioned Corridor Location Hearings.

In addition, as required under Section 106 of the National Historic Preservation Act, the Federal Highway Administration of the U.S. Department of Transportation, in cooperation with the Advisory Council on Historic Preservation, is holding this Public Hearing to ascertain the views of representatives of National, State, and Local units of government, public and private organizations, and interested citizens regarding the proposed Interstate Route 83 highway project in the vicinity of the Fells Point Historic District, the Saint Vincent DePaul Roman Catholic Church, Shot Tower, Caton-Carroll Mansion, the Star Spangled Banner Flag House, and several other sites in the project area.

All interested parties are urged to attend and give the State Highway Administration the benefit of their comments and suggestions relative to the need for and the location and design of I-83 from Gay Street to I-95 in the vicinity of O'Donnell Street.

In addition, all parties are encouraged to attend and express their views on the proposed project, its effects on historic and cultural properties, and alternative courses of action. All comments, suggestions, and stated or written questions received at this Hearing will be made part of the records and given proper consideration in the review, analysis, and evaluation of the Public Hearing records, the Environmental Impact/Section 4(f) Statements, and the Section 106 Historic Review Process Case Reports.

Under discussion will be several alternatives, including the "No Highway" alternative. In addition, any alternative offered by the Public will also be open for discussion and consideration by the State Highway Administration. Alternatives previously studied and rejected will also be available for inspection.

In an effort to afford all interested citizens an opportunity to review the proposed project, more detailed information on each of the alternatives, including maps, drawings, Draft Environmental Section 4(f) Statements, Section 106 Historic Review Process Case Reports and other pertinent information, is available upon request for public inspection and copying on normal working days between 9 a.m. and 4 p.m., at the Interstate Division for Baltimore City, 1001 Cathedral Street, Baltimore, Maryland 21201. In addition, this detailed information will be present and available for inspection at both the Public Hearing and the Pre-Hearing Informational sessions.
