All sorts of electrical machines to hire or for sale: price from 5 to 70 dollars

To whom it may concern.—I hereby certify, that Mr. Samuel Taylor has been in the frequent practice for several years past, of exhibiting the electric fluid with a medical intention, under my direction; and from the great success resulting from his judicious management of that prescription, added to a knowledge of him, as an electrician. I can with confidence, recommend him as a suitable person to be employed for the purposes of applying medical electricity. RICHARD W. HALL, M. D.
January, 1824.

This is to certify that Mr. Samuel Taylor, has been in the practice of electrifying patients for nit, for at least 10 or 12 years back; many of whom were greatly benefited by his judicious application of electricity. And from my knowledge of his skill and ability in the management of it, I can with great confidence, recommend him as a proper person, to be employed, for that purpose. W. H. CLENDINEN, M. D.

BALTIMORE,

**PRINTED AND PUBLISHED BY R. J. MATCHETT, CORNER OF
GAY AND WATER STREETS.**

—
1824.

To our Subscribers and the Public.

We assure you that in the compilation of this Directory every attention has been paid to have it correct; in the attainment of this important object we believe we have succeeded as well as could be reasonably expected in a publication of this kind. We have not attempted to give the removals, or changes, which may have taken place since the **FIRST OF FEBRUARY**, as this would be a task not easily accomplished. Were the public fully aware of the great difficulties attending the issuing of a Directory, we are conscious we should have large allowances made for us. The incorrect information given by servants and illiterate persons, relative to spelling the names; the orthography of many names, sounding alike, being quite different; and the many houses, especially houses of business, shut up, &c. &c. we might justly use as an apology for any error which our book may contain.

Should we clear the expences of our undertaking, it is as much as we expect to do. We have not met with that support which we thought at first the book would command. We have bestowed *immense labor* and considerable expense, but, upon the whole, we must in justice return our unfeigned thanks for the liberal disposition manifested on various occasions, and the friendship and politeness we have received.
