Apollo's Fount.

From the Treston True American.

ON FRIENDSHIP.

By WILLIAM FOSTER, late of ELIZABETH-TOWN.

YE speak of *Friendship* as a gift bestow'd
To every being by the hand of GOD:
A *natural* flame, which glows in every breast—
A *common* thing, alike by all possess'd.
Whilst fortune *smiles*, and *plenty* fills your board—
Whilst copious draughts your cheering vaults afford—
Whilst rosy *health* supports the human frame—
Whilst *credit* lasts, and whilst exists your fame—
Whilst you've a plenty, and whilst cash to spend,
So long you're known—so long you have a FRIEND!
But change the scene—let fickle fortune *frown*,
You stand forsaken, and, alas, unknown!
Let wretched *poverty* and *hunger* press—
Let *want* hang out the ensign of distress—
Let sore *affliction* sink thy feeble frame—
Let cruel slander wound thy honest fame,
Let neighbors slight thee, and let *credit* fail—
Let sheriffs come, and creditors assail—
Where's then thy *Friends?* Alas, you search in vain.
Self-interest sways—unheeded you complain!
Alas! how oft, in *Friendship's* garb array'd,
Deception triumphs—hapless man's betray'd!
Pretended Friends in every clime abound;
But *real Friends* are "*rare as comets*" found.
Ye who pretend the human heart to know,
Show me a *Friend*, and I'll an *angel* show.

Waterford (N. Y.) 1802.

Literary Fair.

THE book-sellers of Philadelphia are informed, that the LITERARY FAIR will be held in Philadelphia, on Monday, the 18th of October next.

MATHEW CAREY, Secretary.

Easton Academy.

NOTICE is hereby given that the respective departments in this institution are again filled with suitable professors; and that the several schools will be opened on Monday the 13th day of September, when the present vacation will expire.

The Rev. Francis Barclay hath been appointed principal in the institution, and professor of the languages:

Mr. Charles Emory hath been appointed vice-principal therein, and professor of mathematics, geography and history:

And Mr. Edward Markland hath been continued professor of the English language, writing and arithmetic.

The learning, qualifications and character of the different professors entitle them to the greatest share of public respect; and the parents and guardians of the neighboring children may be assured that the utmost attention shall be given to the morals and education of the scholars who may be placed in the seminary.

By order of the Board
NICHOLAS HAMMOND, Sec'ry.

Easton, 31 August, 1802. 6

Notice is hereby given,

THAT I intend to petition the next General Assembly, of Maryland, to open a road from my mills, in Caroline county, to intersect the main road leading from Greensboro' to parson Keene's Cross Roads.

PHILIP HARDCASTLE.

PHILIP CHAPLIN, Sec'ry.

Chestertown, Sept. 14, 1802. 4

Notice.

IN virtue of an order from the Orphans Court of Talbot county, will be sold at public vendue, on Wednesday the 13th day of October next, part of the personal estate of *John Valiant*, deceased, at his late dwelling plantation, on a credit of six months, the terms to be made known on the day of sale, by the subscriber.

JAMES COLSTON, Executor.

September 21, 1802. 3q

For Sale

A LIKELY negro GIRL, between fifteen and sixteen years of age—she will not be sold out of the state. Apply at the Star Office.

Valuable Medicines.

For sale by Dr. John Stevens, jun. Easton, Ferguson & Reid, Cambridge, and James Clayland, Centreville.

The public are respectively informed that LEE & Co. and the agents of their appointments, will in future keep a constant supply of the following Medicines, which are in high esteem and general use throughout the United States—many of them being sold cheaper than the drugs of which they are compounded could be purchased at a retail store.

Hamilton's Elixir;

A sovereign remedy for Colds, obstinate Coughs, Asthmas, Sore Throats, and approaching Consumptions.

To parents who may have children afflicted with the Hooping Cough.

This discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable; the elixir is so perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Mr. Charles Myers, Hempstead Hill, near Baltimore, had been a long time dangerously indisposed, and was reduced to the lowest state of weakness, insomuch that his recovery appeared doubtful. His complaints, which seemed to be affections of the breast and lungs, and general debility occasioned thereby, yielded little, but rather progressed under the treatment of several eminent physicians; when by the use of *Hamilton's Elixir*, his distressing cough was immediately alleviated, and every other symptom rapidly subdued. Four or five bottles entirely removed his complaints, and restored him to an excellent state of health and strength which he has for upwards of two years enjoyed without interruption.

From Luther Martin, esq. attorney-general of the state of Maryland.

GENTLEMEN,

I comply with your request in stating my opinion of Hamilton's Elixir—It has been used in my family for two or three years past, with uniform success, whenever colds, coughs, or similar complaints have rendered medicine necessary—I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend Hamilton's Elixir, as a valuable medicine, and deserving public attention. LUTHER MARTIN.

Mr. Abijah Henly, Bridge-street, Baltimore, was cured by one bottle of Hamilton's Elixir, of a very complicated disorder, occasioned by a severe cold, caught several months ago—He breathed with the greatest difficulty, and was often thrown into weaking sweats when he attempted to walk any distance, and his voice would frequently fail in such a degree that he could only attempt to whisper; he has been upwards of six weeks without a return of his complaint, and desires to give his public testimony in favor of this invaluable medicine.

Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures; juvenile indiscretions; residence in climates unfavorable to the constitution; the immoderate use of tea, frequent intoxication, or any other destructive intemperance; the unskilful or excessive use of mercury; the diseases peculiar to females at a certain period of life; bad lyings in, &c.

And is proved by long and extensive experience, to be absolutely unparelleled in the cure of nervous disorders, consumptions, lowness of spirits, loss of appetite, impurity of blood, hysterical affections, inward weaknesses, seminal weaknesses, Fluoralbus (or whites) barrenness, violent cramps in the stomach and back, indigestion, melancholy, gout in the stomach, pains in the limbs, relaxations, involuntary emissions, obstinate gleets, impotency, &c. &c.

The principal operation of this remedy is in the stomach, restoring the digestive powers, and sending forth from that organ new health and vigor into every part of the system; it enriches and purifies the blood without inflaming its braces, without stimulating too violently the nervous system; strengthens the secretary vessels and the general habit, brings back the muscular fibres to their natural and healthy tone, and restores that nutrition which immoderate evacuations have destroyed, and whose loss had thrown the whole frame into languor and debility.

The Restorative is absolutely above all recommendation in moving those weaknesses and infirmities with which many females were afflicted, the consequences of difficult and painful labors, or of injudicious treatment therein.

The most obstinate seminal gleets, and the most distressing cases of fluoralbus in females, fall particularly under the province of this restorative; speedily yield to its benign operation, and are radically cured, by correcting and purifying the acrimonious humors, restoring a proper degree of tension to the relaxed fibres, and strengthening the weakened organs.

In cases of extremity, where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh which no nourishment nor cordial could repair, a perseverance in this medicine has produced the most astonishing cures.

HAMILTON's

Worm Destroying Lozenges,

Which have within four years past, cured upwards of *one hundred and twenty thousand* persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from *worms*, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution, contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. They are particularly efficacious in carrying off all gross humors and eruptions; feverish and billious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms,

And the symptoms by which they are known.

Worms which infest the human body, are chiefly of four kinds, viz. the Teres, or large round worm, the Ascarides, or small maw worm, the Cucurbitina, or short flat white worm, and lastly, the Tænea, or tape worm, so called from its resemblance to tape—this is often many yards long, and is full of joints—it is the most hurtful and most difficult to cure.

Among the symptoms attending worms are, disagreeable breath, especially in the morning—bad and corrupted gums—itching in the nose and about the seat—convulsions and epileptic fits, and sometimes privation of speech—starting and grinding of the teeth in sleep—irregular appetite; sometimes loathing food, and sometimes voracious—purging, with slimy and fœtid stools—vomiting—large and hard belly—pains and sickness at the stomach—pains in the head and thighs with lowness of spirits—slow fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have recourse to Hamilton's Worm Destroying Lozenges which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "vomiting and purging of children," a dreadful disorder which annually destroys thousands of the infant part of our cities. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint—particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness, having a pleasing appearance, and an agreeable taste.

CASES OF CURES.

(Selected from thousands) the authenticity of which any person may ascertain either by letter or personal application; not being performed in Europe, no body knows where—but at home.

Tape Worm.

Mr. Samuel Fuller, Inn-keeper, on the Hartford road, ten miles from Baltimore, began about twenty months ago to be grievously afflicted with a tape worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be conceived but by one in a similar situation; his appetite wasted rapidly, and with that his strength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm Destroying Lozenges; he took a large dose, which brought away about FOUR YARDS of the worm *(now in the possession of Lee & Co.)* but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigor—application was made to Lee & Co. for more of their medicine, with their advice; from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be SIX or EIGHT YARDS more. A few months have since elapsed, and Mr. Fuller is now in perfect health.

The above facts are well known to a numerous circle of his neighbors, and himself will gratify any who may wish to make further inquiries on the subject. Although Hamilton's Worm Destroying Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even taken in large doses, as Mr. Fuller will testify; their peculiar mildness is abundantly evident in innumerable cures of infants.

Communicated by Doctor John Spangler, Yorktown, Pennsylvania.

Letter from the reverend Mr. John Molther, minister of the Moravian Church, in Yorktown.

Yorktown, January 4th, 1802.

Dear Sir,

Doctor Hamilton's Lozenges having been recommended to me as a very adequate means for the cure of children afflicted with worms, I procured a box, for the use of my family, to try whether by means of this medicine, I might be enabled to gain a point, which to accomplish, different other means had proved abortive. My eldest boy had a very sickly appearance, was very restless at night, grew leaner from time to time; in short he seemed to be in a precarious state of health, *which would yield to no medicines administered* until I gave him two doses of Lozenges agreeably to the directions, which carried out a substance to all appearance a mermucus, but upon close inspection quite replete with very small living animals. Not one of that sort of worms, which usually afflict children, came from him. Since that period he grew remarkably better in health, and though lean, has got a fresh and lively complexion.—Upon different occasions I have used this medicine as a purging substitute, and found it to answer exceedingly well, without bringing on belly ache, or any of those disagreeable sensations, so often occasioned by purging medicines. Upon the whole I judge this medicine to be, besides its main object, one of the most salutary means for restoring lost appetite, and promoting a proper state of digestion, by carrying off that bilious substance, which engenders so much indisposition both among children and adults.

I am, sir, your obedient servant.

JOHN MOLTHER.

This is to give notice,

THAT the subscriber of Dorchester county, has obtained from the orphan's court of the said county, in Maryland, letters of administration de bonis non with a copy of the will annexed, on the personal estate of John Manning, late of the said county, deceased—All persons having claims against the said deceased, are hereby warned to exhibit the same, with the vouchers thereof to the subscriber, at or before the first day of December next—they may otherwise by law be excluded from all benefit of the said estate. Given under my hand this 19th day of May, 1802. 6m

THOMAS MANNING.

To the Public.

THE subscriber begs leave to inform his friends and the public in general, that he has commenced business in this city, for the sale of all kinds of produce on commission; He pledges himself, that no consideration will induce him either directly or indirectly, to become the purchaser in any one instance; and that no exertions shall be wanting on his part, for the interest of those who may think proper to intrust their property to his care. RICHARD NICOLS.

N. B. He is now supplied with, and intends to keep, a general assortment of GROCERIES.

Baltimore, August 10, 1802. 2m

For Sale.

THE subscriber will sell at private sale, that very valuable tract of land Broad Creek, on Kent Island, together with the Ferry, and one large Boat; there is about one hundred acres excellent land in the aforesaid tract, with three good dwelling houses, and convenient out buildings on the same. This place being so generally known renders it unnecessary to particularize the publicity of the situation or valuableness of the Ferry. The terms will be made easy to the purchaser, and can be known by applying to the subscriber, Belle View, Kent Island.

KITTY E. HUTCHINGS.

Kent Island, August 24, 1802. tf

Wanted to Purchase,

AN honest sober Cook Wench with or without a family, for which a liberal price will be given. Apply to

SAMUEL NICOLS.

Easton, June 15, 1802. 3tf.

To be Sold

FOUR very fine thorough bred MARES from two to eight years old; two of them are own sisters to Mr. Dimond's Nappertandy; and the other two are very nearly allied to him. For terms apply to the subscriber.

EDWARD COURSEY.

Easton, September 14, 1802. 3

TO be rented for the ensuing year, the following property on Washington street, *to wit*: the house where the subscriber now lives, the house which Mr. P. Willis, now occupies, also the house and lot which W. Thomas, esq. at present occupies, also one occupied by T. Harper, and one also occupied by I. Atkinson; also I will sell one lot on the same street, adjoining Mr. Prince's tavern; two also on Dover street, one on Harrison street; for terms apply to

SAMUEL BALDWIN.

September 14, 1802. tf
