A CARD.

DR. MONTARDE, F. R. S., M. P. A., late Professor of Chemistry in the University of Paris, &c., sole discoverer and compounder of Dr Montarde's Miraculous Pain Killer, and great French Rheumatic Remedy, begs to invite the attention of the citizens of the United States to the above extraordinary preparation, which is the result of years of careful chemical research and experiment, and which will be found to possess chemical and medicinal properties and virtues which have already proved, and he fondly trusts will continue to prove, a solace and blessing to mankind. Dr Montarde's Miraculous Pain Killer is an internal and external remedy, and will be found to be an infallible and instantaneous cure for

Rheumatism, Neuralgia, Toothache, Dyspepsy, Nervous Headache, Cholera Morbus, Debility, Catarrh or cold in the Head, Cholic, Fever and Ague, loss of Appetite, Bites or Stings of venomous insects, Flatulency, Piles, Corns, Bunions, Cuts, Bruises, Burns, Scalds, Inflamed Gums of Teething Children, Sprains, &c.

Its effects in all the above complaints are truly miraculous, instantly alleviating pain of every character. Its great European popularity may be inferred from the fact that it is patronized by their imperial majesties, the Emperor and Empress of the French. Also, by H M Queen Victoria, the court and people of Great Britain and Ireland.—Also, by the principal Hospitals and Infirmaries of Europe, thus conceding and establishing its claim to beyond all comparison the greatest Pain Killer and remedy in the world! I now submit it with confidence to the verdict of the American people, satisfied that a single trial will establish for it an American reputation equalling its *European*—and secure for it popularity and sale unparalleled. The price is only 25 cents per bottle! Thus placing this inestimable blessing within the means of all.

I have appointed JAMES McDONNEL, Esq. of the city of Baltimore, my General Agent for the United States, from whom Druggists, etc., can get supplied, and who will furnish all desired information.

A CARD

To the Citizens of Baltimore.

The undersigned in accepting the agency of the above Medicine, and introducing it in this community, believes that he is conferring a great public benefit, as he feels satisfied from his own observation, as well as from the reports and certificates of numbers of respectable citizens who have tested its merits, that it posesses all the rare properties claimed for it by Dr Montarde. He begs to direct attention to the following certificates of well known citizens of Baltimore by whom it has been used with the most gratifying results:

Read the following Certificates.

ALLEN & NEEDLES' NEW FERTILIZER.

THE subscriber begs leave to call the attention of the Farmers of Talbot and adjacent counties to the above celebrated Fertilizer, a sample of which will be here by first boat.

This fertilizer is being rapidly taken into confidence and use in Pennsylvania and New Jersey, and is also in great favor on the Western Shore of this State from whence he has letters speaking in high terms of it.

It is highly Ammoniated, being chiefly of Bones, Hair, Wool, animal matter and Sul. Acid, and is claimed to be superior to any Guano or other Fertilizer in use. It is put up in new and seemless grain bags, which can afterwards be used as such or for other purposes on the farm. In order to introduce it, and to place it within the reach of every farmer, I have succeeded in arranging so as to sell it at the Philadelphia CASH price on a credit of eight months without interest, provided I get a certain amount ordered. The price in Philadelphia is $30 per ton of 2000 lbs. nett cash, but I have, through much exertion, succeeded in being able to offer it at $30 per ton for endorsed note having eight months to run.—This will enable the farmer to pay for it out of the crop it assists in producing. An inspection of it by every Farmer is requested and early orders solicited. THOS. C. NICOLS, JR.,

ECONOMY! DISPATCH!

☞ *"A stitch in time saves nine."* ☜

AS accidents will happen even in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, Crockery, etc.

SPALDING'S PREPARED GLUE meets all such emergencies, and no housekeeper can afford to be without it. It is always ready, and up to the sticking point. There is no longer a necessity for limping chairs, splintered veneers, headless dolls, and broken cradles. It is just the article for conckshell and other ornamental work so popular with ladies of refinement and taste.

This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet maker's glue. It may be used in the place of ordinary mucilage, being vastly more adhesive.

"USEFUL IN EVERY HOUSE."
