The Estimate of the Secretary of the Treasury.—The estimate of the Secretary of the Treasury call for the following sums for the fiscal year commencing on the 30th of June, 1864:—For army and navy, $700,000,000, of which $142,000,000 are for the navy. The civil list, Indian expenses, &c., amount to $102,000,000, making a total of $802,000,000 for the next fiscal year. On the 30th of June 1864, the Treasurer estimates that he will have a surplus from last year's appropriations of about $8,000,000. The estimates have been carefully prepared, and the figures put as low as possible.

Recent Rebel Disasters.—A contemporary sums them up concisely as follws:

1. The failure at Chattanooga to flank and starve out our army.
2. The depreciation of the rebel loan in England to 30 per cent, discount.
3. The refusal of the English Government to permit the rebel rams to sail.
4. The same in France.
5. The Canada plot.
6. Bank's arrival at Brownsville.
7. The success of the Union party in every Northern State.
8. Rebel success nowhere.

## U. S. 5-20'S,

The Secretary of the Treasury has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days' notice is given, the undersigned, as 'GENERAL SUBSCRIPTION AGENT,' will continue to supply the public.

The whole amount of the Loan authorized is Five Hundred Millions of Dollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period absorb the balance. Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Treasury has ample and unfailing resources in the Duties on Imports and Internal Revenues, and in the issue of the interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary, for a long time to come, to seek a market for any other long or permanent Loans, the interest and principle of which are payable in gold.

Prudence and self interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of those who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium; as was the result with the 'Seven Thirty' Loan, when it was all sold and could no longer be subscribed for at par.

It is a Six per Cent Loan, the Interest and Principal payable in Coin; thus yielding over Nine per Cent. per annum at the present rate of premium on coin.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years yet the Government has a right to pay them off in Gold at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are $50, $100, $500 and $1000; or Registered Bonds of some denominations, and in addition, $5,000 and $10,000. For Banking purposes and for investments of Trust monies the Registered Bonds are preferable.

These 5-20's cannot be taxed by State cities, town or counties, and the Government tax on them is only one-and-a-half per cent., on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments, such as income from Mortgages, Railroad Stock and Bonds, ect., must pay from three to five per cent. tax on the income.

Banks and Bankers throughout the Country will continue to dispose of the Bonds; and all orders by mail, or otherwise, promptly attended to.

The inconvenience of a few days' delay in the delivery of the Bonds is unavoidable, the demand being so great; but as interest commences from the day of subscription, no loss is occasioned, and every effort is being made to diminish the delay. JAY COOKE,
*Subscription Agent.*
