U. S. 7-30 LOAN.

THIRD SERIES.
$230,000,000.

BY authority of the Secretary of the Treasury, the undersigned, the General Subscription Agefont the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7:30 LOAN.

These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 SIX PER CENT.
Gold-Bearing Bonds

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, *from State, County and Municipal taxation, which adds from one to three per cent. per annum to their value*, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7 30 per cent. amounts to

One cent per day on a				$50 note.
Two cents	"	"	"	100 "
Ten	"	"	"	600 "
20	"	"	"	1000 "
$1	"	"	"	5000 "

Notes of all denominations named will be promptly furnished upon receipt of subscriptions.

The notes for the Third Series are precisely similar to form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7 3-10ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st fo June, and will be made promptly and continuously after that date.

The slightest change made in the conditions of this THIRD SERIES effects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully to those made with seven and seven and three-tenths per cent. in currency. This is

THE ONLY LONE IN MARKET

Now offered by the Government, and its superior advantages make it the

Great Popular Loan of the People.

Less than $230,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within sixty days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other loans.

In order that citizens of every town and section of the country may be afforded facilities for the loan, the National Banks, and private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
Subscription Agent, Philadelphia.

May 13, 1865-4m

Subscriptions will be received by the First and Second National Banks, Baltimore, Maryland.

AUCTIONEERING.

THE subscriber having taken out license for the above business, most respectfully informs the public that he will promptly attend to auctioneering in any part of the county that his services may be desired. When it is not convenient for persons to see him in person, a letter addressed to him at Easton, will receive immediate attention.
