The Committee of the House of Com... to whom was referred the new Poor Law Bill, have decided, by majority of one, in favour of the scale recommended by the gov... ment, which will subject the trade to fluctuating instead of a fixed scale of duties. The Morning Herald anticipates bad effects from this provision.

We regret to state that it has also been announced to-day that a banking firm in Edinburgh has been compelled, for the present, to suspend their payments in consequence of the defalcations of a party who was dealing on the Stock Exchange on the last settling day. We, however, trust that in the end it will not lead to much individual loss.

THE BUDGET.—On Friday evening the Chancellor of the Exchequer brought in his 'financial statement.' He began by stating that the receipts for the year ending the 5th of July, were.....£46,914,000
The expenditure was.....44,737,000

Leaving a surplus of income over expenditure to the amount of.....£2,177,000

THE NEW MINISTRY.—In the House of Lords, July 26th, the Earl of Winchelsea put some questions to the Noble Lord at the head of the Government, with a view to obtain information as to the course which was intended to be pursued in our foreign and domestic relations.

Viscount Melbourne reminded the Noble Lord that the Government was not new. The principles would be the same which had governed their conduct during the last three years and a half.

The Marquis of Londonderry inquired whether any orders had been issued for the arrest of vessels with men and arms, sailing from this country for Spain?

Lord Melbourn was not aware that there were any such vessels about to sail.

Commercial letters of the 26th ult. from Constantinople, announce that contracts are being entered into for the early setting in motion of the army, and the immediate equipment of the Turkish fleet. In consequence ordinary woollen cloths and leather have experienced a considerable rise.

There is a report in the city that an American ship, with 10,000 stands of arms on board, and also another vessel with warlike stores for Don Carlos, have been prevented from clearing out of the river.

[*London paper.*

DON MIGUEL.—Extract of a letter of the 16th inst. from Genoa:—'Don Miguel, who had hired a country house at some distance from this city, seldom appears in public. Some persons, however, who have his confidence, are admitted to him, and for some days there has been remarked around him a bevy that has given rise to a thousand conjectures and rumours. It appears certain that a felucca, from the coast of Spain, has entered our port, and that communications have taken place between one of the passengers and persons attached to that Prince.'

SPAIN AND BELGIUM.—The Abeja, a Spanish journal, of the 15th inst. announces that the Queen Regent, having acknowledged the new state of Belgium, has appointed Don Pedro Alcantara Argaiz, to be her Charge d' Affairs, at the court of Brussels.

Letters brought from the Levant by the Belona frigate, stated positively that the five French ships of war in those waters had received orders to join the British squadron. The project of a marriage between the Neapolitan prince Leopold and the Princess Marie of Orleans had been relinquished.

The number of persons who have sailed from the port of Liverpool, as emigrants to the United States and the British colonies, during the quarter ending the 30th of June last, is 11,625.

FRANCE.

The Paris papers of July 23d state that the French Chambers will certainly sit for the despatch of business immediately after the preliminary proceedings of the new Chambers of Deputies shall have been gone through. The reasons given for this change of determination are the arrival of Don Carlos in Spain—the substitution of Marshal Gerard for Marshal Soult as President of the Council—and the alterations that have taken place in the British Cabinet. Prince Talleyrand was expected shortly in the French capital.

M. Delpech (banker) arrived in Paris on Monday last, has been set at liberty. The management of the loan advertised by M. Jauge (for Don Carlos) was said to have been undertaken by a respectable London house.

A speculator in Spanish stock, M. Zurarie, shot himself in Paris, July 23d, on his inability to meet his engagements.

The government gave orders several days ago, for all arms, ammunition, and military equipments in the places on the Spanish frontiers, that seemed destined for Don Carlos, to be seized.

M. Bascans, responsible editor of the Tribune, has been set at liberty, after a confinement of 32 months. Sixty-five prosecutions, of which three were capital, 28 months imprisonment resulting from his condemnation, and four months confinement previous to trial, with fines to the amount of 50,000 francs, have signalized the career of M. Bascans as responsible Editor of the above Journal.

The accounts from the wine districts of France are in general very favourable, and in many places the vintage is expected to begin before the middle of September. Grapes have been already carried to the markets of Nerdun and Bar.

Mr. Burton, the Eastern traveller, arrived at Marseilles from Arabia, a few days ago. He was accompanied by his private Secretary, as well as by Mr. Peach, and Mr. A. Wise, and a numerous suite of Arab and Greek attendants.

SPAIN.

July 26, six o'clock, P. M.

LONDON.—We have received the whole of the Paris papers of Thursday, and the Gazette de France, Messenger des Chambres and Journal de Paris dated yesterday, but

... with letters from our correspondents in ...rsons and Paris.

They contain a good deal of matter respecting Spain, but nothing very important. Up to the 20th inst. no engagement had taken place between the armies of the Queen and Don Carlos. According to telegraphic despatch from Bayonne, dated the 22d inst. the head quarters of the Pretender were at Santa Cruz de Campezo. His force was 14 battalions. Only 300 recruits had joined him.—Zumalacarregui was at Lering he occupied also Lodosa and Mendigorrea; reinforcements amounting to 3,000 men had left Pampeluna to join him.

THE NEW SPANISH CORTES.—A correspondent of the Morning Herald thus classifies the members elect of the Spanish Cortes, filling 18 places for which the returns had not been received.

OBITUARY.

Departed this life on the 31st ult. at Belle-Air near this city, JAMES MACKUBIN, Esquire, in the 75th year of his age. During the first years of his manhood he was engaged in mercantile pursuits, in which he steadily maintained the character of an honest and upright man—after acquiring a competency he retired to the country and devoted his declining years to agriculture. He possessed the respect and affections of all his neighbours. He was many years Chief Judge of the Orphans Court, the duties of which he discharged with diligence and ability, and his valuable services in that station are gratefully remembered by the public.

His afflicted daughter and family have sustained a severe bereavement, and derive their consolation from a resigned acquiescence to the will of God.

IN CHANCERY,

26th August, 1834.

Horace Roby, and Mary his Wife, administrators of Francis Murdock
vs.
Peter Griffin, Adm'r. of Precious Griffin.

THE bill in this case states, that the complainants as administrators of Francis Murdock, are entitled to one half of certain negroes bequeathed by a certain John Griffin, by a will bearing date the 21st of October, 1806, to his two daughters Mary Griffin and Precious Griffin, to be equally divided between them by his executor—It further states that the negroes were paid over to Mary Griffin and Precious Griffin, by the executor, without his dividing them—That Precious Griffin is dead, and died intestate and unmarried—That subsequently to her death Mary Griffin intermarried with Francis Murdock, and at the time of her intermarriage with Francis Murdock she had in her possession three negroes being one of the negroes mentioned in said John Griffin's will as bequeathed to Mary Griffin and Precious Griffin, and the other two were the increase of the other negroes mentioned in said will—That Mary Murdock is dead, and that Francis Murdock her husband, survived her, and died in the year 1833—That Peter Griffin has administered on the estate of Precious Griffin, and claims one-half of said negroes. The object of the bill is to have a sale of the negroes decreed, and the money arising from the sale to be equally divided between the complainants and the said Peter Griffin, as administrator of Precious Griffin. The bill further states, that Peter Griffin, the administrator of Precious Griffin, resides in the District of Columbia, and beyond the jurisdiction of this court.

Whereupon it is Ordered, That the complainants, by causing a copy of this order to be published in some newspaper once a week for three successive weeks before the 30th day of September next, give notice to the said absent defendant of the filing of complainants bill, and warning him to appear either in person, or by solicitor, in this court, on or before the 26th day of January next, to shew cause, if any he hath, why a decree should not be passed as prayed.

MR. & MRS. HAMILTON'S

BOARDING SCHOOL
FOR YOUNG LADIES.

THIS Institution is situated in the most healthful and pleasant part of the city, corner of Saratoga and Courtland sts. Baltimore.

After having conducted an extensive Boarding School for young ladies, for several years in North Carolina, and Virginia, Mr. and Mrs. Hamilton removed to this city in 1831, and opened a Seminary for young Ladies, upon a scientific plan, which has received an almost unprecedented patronage.

Mr. & Mrs. H have liberally provided their school with every apparatus necessary to illustrate their instruction. Their philosophical apparatus is equal to any other that can be found in private Seminaries in this country, and their chemical is sufficiently extensive to illustrate any subject treated upon in the text books of the school. Their Cabinet of minerals though small yet contains upwards of 700 specimens. Their Seminary is also furnished with an Armulary Sphere, Cary's, Wilson's and Gardner's Globes, several Pianos and a Harp. Mr. & Mrs. H. beg leave to remark, that the instruments they possess, are the best they could procure in this country or in England.

The Library contains upwards of 1500 volumes of the best authors, as connected with the studies pursued in the school, to which the young ladies have general access.

In all the departments the most competent teachers have been engaged, whose instructions are given under the immediate eye of the principals.

The course of instruction in this institution, is carried on in a regular and continued system of academic studies embracing all the scientific and ornamental branches necessary to a complete course of female education.

Parents and guardians who wish for more particular information, can obtain a prospectus of the seminary by applying to the editor.

NOTICE.

THE Commissioners of Primary Schools will meet, as usual, on the second day of the October Term of A. A. County Court. It is important that the commissioners in their annual report to the Legislature, should give a full and satisfactory statement of the condition of the Schools, and of the operation of the Primary School system in this county; and to enable them to do this, it is necessary that the Trustees of the several districts should make full and uniform reports of the condition of their schools. In order that such satisfactory information may be obtained, printed reports are provided, which the trustees, who are not already supplied, may procure on application to the secretary. The trustees are requested to return these reports to the subscriber, at as early a day, after the 1st October, as practicable. Much unnecessary trouble and delay may thus be avoided. If sent by mail the postage must be paid.
