AMERICAN.
BALTIMORE.
THURSDAY MORNING, MAY 8, 1851.

Published every morning at No. 198, Baltimore st. by DOBBIN, MURPHY & BOSE.

TERMS OF SUBSCRIPTION.

DAILY paper per annum (payable half yearly)	$8.00
TRI-WEEKLY, " do (payable in advance)	5.00
WEEKLY AMERICAN, published every Saturday:	
One copy, per annum,	2.00
Three copies, when directed to one address,	5.00
Six copies, do do do	9.00
Ten copies, do do do	13.00
Twenty copies, do do do	24.00

Payable invariably in advance, and the paper in no case continued beyond the time for which it is paid.

Single copies, in wrappers, ready for mailing, three cents each.

SOUTH CAROLINA.—The latest intelligence from the Convention will be found under the telegraph head.

The *New York Courier*, which for some time past has given indications of abolition tendencies, is now put right; and we are told that the absence of the chief editor gave the occasion for the divergence, on the subject in question, so variant from its usual conservative course. With regard to the Fugitive Act, the editor now pledges himself to "maintain the law as it is, and oppose any attempt to repeal or modify it." The following, however, is added:

"At the same time, we do not hesitate to express the opinion, that it would have been wiser if the power given by the law to the U. S. Commissioners, had been confined to the Circuit and District Judges, or conferred upon persons holding their appointments from the President of the United States with the sanction of the Senate. This in our judgment is the only defect in the law; and this defect were we a Southern member of Congress, we should seek to remedy with the least possible delay. But believing the law as it is, not only Constituional, but clearly in accordance with one of the leading compromises upon which the Constitution is based, we are prepared to enforce in good faith, and oppose all attempts at modification or repeal, except they should come from the South."

The agency by which the law is to be enforced might possibly be improved—although the efficiency of the present system has been pretty well shown. The necessity of having officers for this purpose appointed by the Federal authority was demonstrated by the refusal of State officers in many cases to execute the original law; and in some instances the positive enactments of State Legislatures prohibited all officers holding office under State authority from taking any steps in the enforcement of the act of 1793.

The only complaint that is urged against the existing law arises from the fact that it promises to be efficient—which the law of 1793 was not. To denounce the law, therefore, is to denounce the Constitution which contains the express provision which the law is intended to carry into force.—This issue stands clearly forth. Hence the subterfuge of those who claim to regard a "higher law" than the Constitution.

Steamboat for Savannah.—We understand that Messrs. Jown S. Brown & Co. have contracted with a company in Savannah, Georgia, for the construction of a fine steamboat, designted to ply on the waters of that State. The boat is for parties who have heretofore gone to New York for their boats, but who have now determined to give Baltimore a trial. They could not have contracted with more competent parties, or those more likely to give satisfaction than Messrs. Brown & Co.

Frosts—Fruit.—The late frosts, it is said, have done extensive injury to fruit trees in Delaware.—In Ohio and Kentucky the damage from the same cause has been very great. In the region about Baltimore there is reason to apprehend that the fruit has experienced great injury.

During the week ending on the 3d instant, the Post Master General established eleven new Post Offices, and discontinued two.

The "Merchants' Bank," chartered by the last Virginia Legislature, is about going into operation at Lynchburg.

CUBA.—A letter from Havana, of May 1, published in the New York Express, says—

A Spanish subject, native of the Canary Islands, named Oca, accused of employing Pilots for the Lopez expedition, has been condemned, and suffered death by the "garrotte" on the morning of the 28th ult. It seems that Oca offered one of the Coast pilots a sum of money to join the Expedition. The Pilot applied to a friend of his, a Creole, for advice; the Creole, I wish I knew his name, immediately informed the Captain-General of the fact. Oca was arrested, and confessed that he was in the employ of Lopez, for the purpose of furnishing pilots for the vessels of the Expedition, and had already sent three to New Orleans. He was immediately condemned and executed. His brother was imprisoned in the Cabanos, yesterday. This probably is but the commencement of a series of judicial murders, which will only have the effect of hurrying a people to open rebellion who are already ripe for a revolt. Lopez is hourly expected; and it is stated that rooms have been prepared in the Cabanos Fortress for the family of the Captain-General, he intending to take the field against the invaders. We are informed by one of the editors of the Union, a Spanish paper at New Orleans, and politically opposed to the Americans, "in every way and shape," that on the 13th, the day he sailed from New Orleans, the number of men already engaged for the Expedition was about 1200, and from 300 to 600 men were daily looked for, and their arms consist of 1200 rifles, 4 cannons of 24 lb. calibre, revolvers, &c., and were to sail between the 24th and 30th ult. If this information is correct, and it comes from a responsible source, the expedition may be looked for soon. Every preparation has been made to guard against a surprise.

The formal opening of the Erie Railroad will take place on Wednesday next. The National Intelligencer of yesterday says—

The President of the United States and the Heads of Departments have received from the Directors of the Hudson and Erie Railroad Company an invitation to attend the celebration of the completion of that grand and unequalled work, and the opening it to public use; which ceremony is to take place on Wednesday next, the 14th instant, and will embrace an excursion of the Directors and their guests through the whole length of the road, from its commencement on the Hudson to its terminus on Lake Erie, about four hundred and sixty miles. We understand that the President has accepted the invitation, and will be accompanied by several members of the Cabinet—as many as can make it convenient to leave for a few days their official posts.

MARYLAND HISTORICAL SOCIETY,
Monthly Meeting of May 1st, 1851.

The chair was taken by the President, Gen. J. SPEAR SMITH, at half past 7 o'clock.

The Secretary read his record of the proceedings at the last monthly meeting, after which the following contributions to the collections of the Society were announced:

History of the Boston Athenæum, J. C. Folsom, Librarian, Boston.

Surveys of Harbors, Treasury Department, U. S. Congressional Documents, 107 vols., State Department, U. S.

Chinese Cards, Gazettes, &c., Lieut. E. Donaldson, U. S. N.

Memorial of Harvard College, Jared Sparks, President.

The City of the Silent, W. G. Simms, Esq.

Proceedings of the New Jersey Historical Society, per Society.

Patent Office Report, A. Dickens, Esq.

Meteorology, U. S. Exploring Expedition, Capt. Chas. Wilkes, U. S. N.

Message and Documents, 1850, '51, A. Dickens, Esq.

Death Warrant of Charles I, L. Servary, Esq.

Navy Register, 1851, Com. Geisinger, U. S. N.

Army Register, 1851, Col. T. P. Andrews, U. S. A.

Island of Jamaica—History of, by Dr. W. J. Barry.

Rich specimens of Peruvian silver ore, R. Mickle, Esq., by R. H. Lowry, Esq.

Survey of the Isthmus of Tehuantepec, by Cayetano Moro, for Don J. De Garay, Dr. McSherry, U. S. N.

Narrative of Alvar Nunez Cabeza De Vaca, translated by Buckingham Smith, G. W. Riggs, Jr., Montgomery Co., Md.

The following gentlemen were elected active members:—Wm. S. Peterkin, Geo. R. Dodge, Rev. Geo. W. Burnap, Stephen S. Lee and Dr. John Fonerdin. The following gentlemen were nominated: Andrew Reid, John H. Wyman, Gilman Meredith, William P. White, Neilson Poe, Henry B. Latrobe, Samuel Owings Hoffman, Hon. W. F. Giles, Dr. J. O. Wharton, Frederick C. Graff, Henry S. Oelrichs, Thomas M. Smith, Samuel Hoffman, Anthony Kennedy and Francis A. Fisher. Joseph C. G. Kennedy, of Washington, was nominated as a candidate for corresponding membership.

Mr. Latrobe, from the Committee on the Gallery, announced that the subscription for the purpose of obtaining from Italy copies of the Peter Martyr of Titian, and the Communion of St. Jerome, had been filled, and an order sent out for the execution of the work. Mr. L. also presented to the Society, in the name of Geo. W. Riggs, Jr., Esq. of Montgomery Co., Md., a copy of Alvar Nunez Cabeza De Vaca's Travels and Explorations in Florida, originally published at Valladolid, in 1555. This translation of a narrative of one of the earliest expeditions for exploration within the territory now known as the United States, has, for the first time, been made in English by Buckingham Smith, Esq., and published in the finest style of typography at the expense of Mr. Riggs.

Mr. Kennedy presented a paper prepared by Dr. WM. MAXWELL WOOD, U. S. N., on "the Historical Incidents and Associations of Erie County, Pa.," which on motion was laid aside to be read at the next meeting.

The Committee on the Annual Address, announced that it will be delivered by BRANTZ MAYER, Esq., on Friday Evening, May 9th, at the Masonic Hall.

The Committee on the Anniversary Dinner, informed the subscribers that it had been fixed for Saturday, May 10th, and would be given at the Eutaw House.

The attention of the members present, was then occupied by S. F. STREETER, who read a series of passages, illustrating "the Life and Colonial Times of William Claiborne, known in history as the Evil Genius of Maryland."

The Society then adjourned.

A valuable and extensive seam of coal has been discovered at Montanau, about forty miles north of Port Cooper, on the east coast of the southern island of New Zealand. The seam is about a mile and a half long, by eighteen to thirty-six inches in thickness. The discovery will be of great value to the colony.

Steam Navigation.—Thirty-five years ago, on the 30th of April, the "crack steamer Richmond," Capt. Bartholomew, ran from New York to Albany in a little less than twenty-three hours. The passengers manifested their gratification by adopting resolutions complimentary to the Captain of his boat. On Wednesday last, the steamer Reindeer traversed the same distance in seven hours and fifty minutes.

Ship Building in Maine.—At Damariscotta, at least eight ships, between 900 and 1200 tons burthen each, will be put forward this season. At Waldoboro', four ships, besides some smaller craft, are already commenced, but it is probable business will not be so brisk as last year. Bath is largely engaged in ship building, as well as Warren, Calais, and other places.

CALIFORNIA INTELLIGENCE.

We have full files of California papers to the 1st of April, brought by the steamer Georgia at New York from Chagres April 25. The telegraphic despatches already published have mainly anticipated their contents. We subjoin, however, various items which will be read with interest.

The Georgia has a freight list of gold dust amounting in value to $1,269,426, besides a large amount in the hands of the passengers. Among the consignees of gold dust we note the following for Baltimore: Messrs. R. Garrett & Sons, $2,000; J. Crosby & Son, $4,000; T. G. Hand & Co., $16,500; Turnbull, Dall & Slade, $6,608; Hooper & Graff, $1,887.

The Sacramento Times is of the opinion that the entire population of California is about 314,000, distributed as follows:

In the northern mines, or that scope of country lying north of San Francisco and Feather river, we give a population of 20,000. The Yuba, 40,000.—Bear river, 4,000. The American Fork, 50,000.—The Southern mines, or all that portion of the mining country of California lying south of the American river, 80,000. The San Joaquin valley, 10,000. The city of San Francisco, with the population scattered in its immediate neighborhood, 25,000. The Sacramento valley, including all above San Francisco, 40,000. The coast, or that portion of the State which lies below San Francisco, bordering upon the ocean, 20,000. Making in all, a population of 314,000, which we believe is as nearly correct as the means at hand will allow us to proximate.

The ship Celestial had made the passage from San Francisco to China in thirty-three days.

A letter from San Jose, the seat of Government, published in the San Francisco Balance, says—

I noticed to-day a memorial to the President in circulation among the members of the Legislature, for the appointment of the Hon. JOHN WETHERED as resident Minister for Chile. It was very generally signed. As California will be interested in the principal trade carried on between Chile and the United States, it seems to be but just that one of her citizens should be selected as the representative of our Government there; and we know of no man in the State more capable or worthy of the honor than the gentleman named in the memorial. I sincerely hope he may be selected by the President.

The Sacramento Transcript characterises the claim at Nevada City, known as the "gold tunnel," as the richest deposit of the metal in California. About fifty thousand dollars have been taken from it, and the claim has been sold for $130,000. The gold is deposited in a kind of decomposed clay, and is found thickly set throughout the whole vein, which appears to be inexhaustible in depth, and from one to four feet in breadth.

The *Placer Times* gives the following important decision of Judge ROBINSON, involving the title of J. A. SUTTER to the land on which the city of Sacramento stands:

"He decides, first, That the title, although incomplete, is good as against a mere trespasser on public lands, and is insufficient to support an action of ejectment.

"Second, That although the boundaries by the terms of concession within which the land granted must be taken, was above the confluence of the Sacramento and Feather rivers, yet parole evidence was admissable to vary these landmarks.

"Third, That the fact that Capt. Sutter first settled here, is evidence that he designed to locate the land here, which must prevail over the landmarks mentioned in the concession.

There had been some correspondence between a Mr. King of Wm. and Mr. Humbert the U. S. Assayer in San Francisco. The object of Mr. King was to ascertain the actual value of the gold coin in circulation which had been coined by private individuals purporting to be of the legal standard of U. S. coins. Mr. Humbert, on assaying them, found them all below the legal standard, some more than others, we herewith annex the result of the assay:

	Grains. weight.	Thous. fine	Value.
Baldwin's, 13 pieces, $20 ea.	516 10-32	871	$19 40
" 10 " 10 "	259¾	872	9.74
" 28 " 5 "	129 11-14	871	4 91
Shultz's, 45 " 5 "	129 14-15	875¼	4.87
Dubosq's, 7 " 10 "	262	880	9.93
" 3 " 5 "	131	880	4.96

From the above assay it would appear that in some of the coins as much as three per cent. difference exists, those furthest from the standard value are Baldwin's, and those nearest Dubosq's. Bills on New York were 2 per cent. premium at the last dates. Money on good security was from 5 to 6 per cent. per month. Money was considered abundant and easily obtained. The Alta California speaking commercially says, "matters are healthy, and in our opinion every business man in California has reason to be satisfied with the soundness of the community." Good clean gold dust commands $17 per ounce, which makes a par remittance to New York if it brings $17 68 when received here. The total amount received for duties from January 15 to February 28, 1851, at the port of San Francisco, was $199,326 31.

Correspondence of the N. Y. Journal of Commerce.
SAN FRANCISCO, April 1, 1851.

Our market continues in a greatly depressed state, and prices are (if any change) lower than at the departure of the steamer on 15th ult.

The Auction rooms, which have heretofore been thronged with customers who would buy at "some price," are now poorly attended, and in numerous instances sales are stopped for the day—"*no bid.*"

The cargo of Raisins per "bark D. Godfrey," which recently arrived here direct from Malaga, (in a short passage,) was sold a few days since, under the hammer, at rates following. The fruit was in splendid order and condition, each box packed neatly in a sealed paper, and the way it was "put through" will cause the importer to grunt for a long time to come:

500 boxes M R layer raisins $3.62½; 1100 hf. bxs. do. $2; 700 do. do. 1.87½; 1500 bxs. do. bunch 3.12½; 300 hf. bxs. do. 1.87½; 1800 do. do. 1.75; 500 do. do. 1.70; 1800 do. do. 1.62½; 500 do. do. 1.60; 1350 qr. boxes do. $1; 2650 do. do. 90; 100 bxs. Christiana C raisins 3.25; 400 do. do. $3; 225 Bloom L do. 3.37½; 100 do. do. 1 do 3.25; 200 25 lb. kegs Muscatel raisins 3.25; 200 50 lb. kegs do. do. 3.60; 33 bxs. shelled almonds per lb., 42½ cts.; 23 frails soft shelled do. do. 25; 8 kegs Olives, 3 gal. kegs, 4.25 per keg.

We have a liberal supply of Corn Brooms brought here from the Atlantic States, and which are daily forced at auction at $1.50 per dozen. Six months ago they were worth as many dollars per dozen as they now command shillings. I conversed with a person recently arrived from Canton. He told me that when in China he bought good brooms for dunnage of his ship, and paid two cents each for them.

Painted Pails are selling at $3 to $3½ per dozen. The consumption of this article is immense, throughout the whole mining region, as they are used for carrying sand, &c.

Lumber is as dull as ever, and offered at $25 per thousand feet, not ⅓ of the freight!

Coal is doing at a trifle better, good Sydney having been sold at $10a11 per ton. The consumption is large, but losses ditto, and it will be a long time before prices will advance high enough to pay for freight and charges from the Atlantic. There have been sales of Coal here below $5 per ton or about cost price in New York.

All speculation in Flour and Grain has ceased.—Flour (best Chili) can be purchased at $5 per 100 lbs.—or say $10 to $11 per bbl. for Gallego and Haxall. Barley 6 cts.; Oats 5 cts. Pasturage now being good, the consumption of grain has fallen off very considerably.

The price of North River Hay, keeps up about $100 per ton. I am informed by a gentleman who came down from Benicia, last night, that he had just perfected a sale of twelve hundred acres of native grass as it stands upon the field, at ten dollars per acre. Here is a specimen of rich soil, and a paving market not to be found elsewhere.

We have had recently immense importations of segars direct from Havana, (across the Isthmus,) and sold at auction for less than cost. Large arrivals are constantly pouring in here from Manilla of cheroots; besides any quantity from the principal cities on the Atlantic, and sold to no profit.—The latter have in many instances sold as low as $6 per M.

There is no improvement in boots or clothing, all selling for a song;—the only article of the former in request and scarce, is Hungarian boots, made of grained leather, 26 inch leg, and from 8 to 13 in size. The greatest difficulty in the way of advantageous sales of boots, arises from putting them in cases assorted from 7's to 11's. Small sizes are not wanted here. Fine shoes and brogans are scarce and high, and were they here in quantities, would sell well; cow hide boots, or waxed leather, are quite out of fashion here. The demand runs entirely on grained leather, as better calculated to turn the water, and more soft and agreeable to the wearer. Grained Hungarian boots sell at private sale readily at $15 to $60 per dozen, according to size and length of leg.

A large oyster bed has been discovered between Cape St. Lucas and San Diego, but the exact locality we were unable to learn, as the discoverers wish to reap all the benefit possible, before its position is made public. The Mary Phœbe brought up eighty thousand oysters put up in jars, from the newly discovered bed.

The great facility experienced in getting cheap sugars here, from Manilla, Mexico, and ports on the Pacific, has induced some of our capitalists to turn their attention to the erection of a sugar refinery on an extensive scale. Good Manilla sugar can now be purchased at about 4 to 4½c. per pound, while molasses has been sold as low as 25c. per gallon. Panocha, a cheap brown sugar from Mexico, has been sold as low as 3c. per pound. We have had several small establishments here for the manufacture of Sugar Candy, but this is the first step taken towards a wholesale establishment on a "big" figure.

The Coal mine recently discovered at Benicia closely resembles the variety called Liverpool Cannel Coal.

The present owner bought 160 acres of land of the innocent holder before he was aware of the existence of the mine, and paid $6 per acre for it.—The original owner has since offered a large sum to be released, while Gen. Vallego has, it is said, offered to give the half of a rancho belonging to him at the future Capitol of the State, and which he now values at $100,000.

The steamer "Ohio," on her last trip from "San Diego," brought into port an importation of Cats, ninety-six in number. They cost at the place of embarkation about fifty cents a head, and sell here from ten to twenty dollars each, according to size, sex and general condition. A "fellow passenger" on the steamer told me they had *a very musical time* of it. This is truly a novel article of traffic, but one of the fruits of the coast trade, just opening on the Pacific by our numerous little steamers, which run regularly every week up and down the coast.

In a recent communication, reference was made to a new warehouse in process of erection, intended to be leased to the Government for bonded goods, built of brick. The building is one hundred and thirty-seven and a half feet square, and has been entirely constructed in less than a month; roof and doors of sheet iron. It is now finished and ready for occupancy.

We have been favored with frequent heavy showers of rain since the sailing of the last mail steamer, dispelling all anxiety as to an expected drought during the approaching summer, and which has tended to impart new life to all agriculturists, and quicken the demand for all goods appertaining to the business of farming. I inclose herein communications upon the subject of the new and recent wonderful discoveries by Professor Shepherd, of the "*Geyser fountains,*" situated about 100 miles from this city, where can be seen trees of immense size standing, but the trunk and limbs all in a state of perfect petrifaction. I have seen and examined specimens of the sulphurate rock, petrified wood, &c. &c., which are to be sent to the World's Fair in London, and will go forward by this steamer.

A commission house in this city have received an invoice from New York, (by one of the clipper ships now on the way to this port,) of 500 boxes tea, costing 55c. per pound, which price is at least one-third above its value in this market. Surely this is sending "coals to Newcastle." It is astonishing to see the blindness of many Eastern shippers of goods to this country. They do not stop for a moment's reflection, but ship the goods, and when they hear that the returns are but a "total loss," turn round and abuse California, and call her merchants "swindlers," &c., when, in fact, they themselves should *alone* bear the blame, and pocket their losses in silence.

Our citizens have been *lionizing* the "*Japanese,*" who were recently brought here by the "Auckland," Capt. Jennings. They are 15 in number, aged from 16 to 60 years, and are said to be quite intelligent.

It will be remembered that these unfortunates were picked up at sea some time since, six hundred miles from the Japanese Islands, by the barque Auckland, Capt. Jennings. They had started from Niphon, in a junk, for one of the Northern Japanese ports, but encountered a gale. When picked up their vessel was dismasted and nearly full of water. Their skill in managing boats was made very evident, in the fact that they launched their own clumsy yawl, and boarded the Auckland in a gale, while an attempt by the crew of the latter vessel to return to the junk was ineffectual. The junk was laden with flannels, silks, rice, and ingots of silver. The crew have been treated very kindly by Captain Jennings, who brought them into this port, and has taken charge of and protected them since their arrival.

From the San Francisco Herald.
Export of Gold Dust from California for 1851.

We gave an estimate, at the close of the year 1850, of the production of gold in California from the 1st of April, 1849, to the 31st of December, 1850, from which it appeared that the amount reached the sum of $68,587,691. We propose to continue this subject by giving a statement of the value of gold produced by the mines within the past quarter, commencing at the 1st of January and terminating the 31st of March, 1851.

The facts which are given are derived from official records and may be relied upon as correct.—The estimates are matters of opinion, but are founded upon reliable information gathered from authentic sources.

STATEMENT NO. 1.

Showing the amount of gold dust shipped from San Francisco for the months of January, February and March, 1851. Passengers are at an average of $400 each.

	Passengers.	GOLD DUST. By Passengers.	Consigned.
January	2,605	$1,042,000	$2,929,883
February	1,767	706,800	2,278,923
March	1,757	702,800	3,028,631
Total	6,129	$2,451,600	$8,237,542
Amount by passengers			2,451,600
Total amount			$10,689,142

Of the above sum of $8,237,542, the Pacific Mail Steamship Company carried $4,528,941; Law's line, $2,511,000; the New Orleans of the Empire City line, $1,108,105—all running to Panama;—the remainder, $79,496 was carried by sailing vessels to Valparaiso.

The above sum of $10,689,142 comprises two items of export, namely, the amount of gold appearing on the books of the various steamship companies, and that estimated to have been carried by passengers. To this of course must be added many other items, to arrive at the actual production of gold by the mines.

Large amounts have been coined by our various coining establishments, now numbering six. Our jewelers have worked up a considerable sum.—Miners from Mexico, Chili, Oregon, and other places, have carried off large amounts. Many of our merchants have sent off considerable sums to China, the Sandwich Islands, Mexico, and various countries in South America on the Pacific, and to the numerous Islands, with which to pay for return cargoes. These sums do not appear on the Custom House books. Large amounts remain in the hands of miners, merchants and others.

We have carefully collected all the reliable data upon which estimates of these sums may be founded, and subjoin a statement.

STATEMENT NO. II.

Stamped Bullion, by	
Baldwin & Co.	$590,000
Moffat & Co., up to January 27th, when they ceased coining	89,000
United States Assay Office	530,000
Shultz & Co.	98,000
Dubosq & Co.	150,000
Jewelry Manufactured, by	
Jacks & Brothers	10,000
Holmes and others	25,000
All other Jewelry Establishment to	25,000
Total	$1,517,000

STATEMENT NO. III.

To these amounts may be added the following estimates, which are made up from the best information that can be obtained from well-informed persons:

Gold dust carried overland and coastwise by miners from Mexico, Chili, Oregon, etc.	$1,000,000
Shipped by merchants, of which there is no manifest entry	450,000
In the possession of miners, merchants, brokers and others, over and above the amount estimated in December last	1,000,000
	$2,450,000

RECAPITULATION.

Gold dust shipped by steamers for the quarter ending March 31st	$8,237,542
Estimated to have been taken by passengers	2,451,600
As per statement No. 2	1,517,000
As per statement No. 3	2,450,000
	$14,656,142
In the above estimates, the value of gold dust has been computed at $16 the ounce troy. If we add $1 per ounce to this, we will have the present California value	$916.009
	$15,572,151
Add to this 60 cents per oz more, and we get the mint value	$458,004
	$16,030,155

This, then, is the amount of gold dust that has been produced by the mines of California for the first quarter of 1851.

Bust of Archbishop Eccleston.—The Washington Telegraph of yesterday afternoon says:

We have to-day seen a bust of the late Archbishop of Baltimore, executed in plaster by Mr. Schmidt, of this city, who has been successful in taking the busts of the Hon. Dixon H. Lewis, Gov. Cass, and other distinguished persons. This is the most perfect we have seen, and exhibits a likeness of that distinguished prelate which almost speaks to us as we behold its, and beautifully portrays his characteristics of meekness, benignity and kindness. Mr. Schmidt has prepared a number of casts for sale, and is about visiting Baltimore to dispose of them. We bespeak for him in advance an extensive patronage in a city in which the Archbishop was so universally beloved.

The Winchester and Potomac Railroad Company has declared a half yearly dividend of six per cent.

THE FOURTH CONGRESSIONAL DISTRICT.

MESSRS. EDITORS:—The time is fast approaching when we shall be called upon to select a gentleman to represent the interests of that portion of the city of Baltimore, comprised in the Fourth Congressional District, in the Congress of the United States, and in doing so it is incumbent upon us to cast about and ascertain, if we can, who possesses in the greatest degree those qualifications requisite, together with the popularity which would tend to insure his success. Allow me to name in this connection Dr. JOHN HANSON THOMAS, as one eminently qualified by his varied learning, his public spirit, his ready ability as a debater, and his general knowledge of the wants of the constituency. Dr. THOMAS is well known as a gentleman of the most engaging manners, winning upon the regard of all with whom he comes in contact. The mechanics and workingmen of the city have had many opportunities of witnessing his public spirit, in improvements of the city, and I venture the assertion that not one with whom he ever had any dealings left him with any other feeling than a high appreciation of his character.

I, therefore, submit his name to the consideration of the Whigs of the District, with the belief that they could not select a better man, or a better Whig. SIXTH WARD.

American Seamen's Friend Society.—The twenty-third anniversary of this society was held at the Broadway Tabernacle, New York, on Monday night, Mr. P. Perit in the chair. Prayer was offered by the Rev. J. Spaulding, after which the annual report was read. This report gave an interesting account of the operations in China, the Sandwich Islands, and various parts of the world. In this city the Sailors' Home has had in it at various times throughout the past year ending on May 1st, 2,525 boarders, and in the last nine years, 30,500. The receipts of the society for the year ending 1st May, were (including $1,147.30 for hymn books, sailor's magazines and library) $20,399.91, and the expenditures $20,446.57. This does not embrace the several amounts raised by its auxiliaries, nor a considerable amount raised directly or indirectly through its agency, and disbursed from other treasuries. Within the past year, the superintendent of the Sailors' Home deposited, for eighty-two of his boarders, $5,247; and the reverend gentleman then related several instances of the great improvement among seamen, and the decrease of drunkeness.

When the reading of the above report was concluded, Rev. Mr. Parsons addressed the meeting. In the course of his remarks he said, that during the past year twelve thousand American seamen entered Havana, and that the authorities there seized a number of Bibles which had been sent by the society for the benefit of the sailors in that port. The speaker referred to the increase of piety among sailors in that port, which he said was generally attributed to the distribution of tracts, and the Scriptures among them.

The President next made some remarks. He contrasted the moral condition and character of seamen at the present time, with their former condition and character. He perfectly recollected the time when the ships were in the stream ready to go to sea—that the crew were obliged to be carried on board in a state of intoxication, totally unfit to perform any of the duties required of them. As a proof of the increase of steadiness and providence among seamen, he mentioned the fact of there being $100,000 in the Merchant Seamen's Bank in Wall street.

After a brief speech from Rev. Mr. Rockwell, late Chaplain in the Navy, Charles Tracy, Esq., read a resolution to be incorporated in the address to Congress, praying for the abolition of the grog rations in the Navy. He then proceeded to show the good effects that would result from the spread of temperance among seamen generally.

He was followed by Lieut. Jones, who also enforced the necessity of abolishing the grog rations. The President said that petitions from all parts of the United States would be presented to Congress, praying for the abolition of the custom of serving out ardent liquors on board vessels. The meeting then adjourned.—*N. Y. Post.*

CITY COUNCIL.
Proceedings of the First Branch, May 7.

On motion of Mr. Blandford, the fines of $2, imposed upon Messrs. Blakeney, Ferguson, Brooks and Willson, for absenting themselves on Tuesday evening from the Branch, without first obtaining the leave of the President, thereby leaving the Branch without a quorum, were remitted.

The President presented the petition of Andrew Flannigan, for the opening of a street, commencing at Wilk street, and extending along the west side of Union Dock to the Basin. Referred.

Mr. Beale presented the petition of Dr. Robt. T. Spence, late Marine Hospital Physician, asking compensation for extra services performed. Referred.

The resolution reported by the Committee on the Harbor, providing for the driving of piles along the city wharf at Calvert street, was passed.

Mr. Connolly presented the petition of James F. Purvis, for the opening of Biddle street from Caroline street to the Harford avenue. Referred.

Mr. Blakeney, from the Committee on Highways and Bridges, reported an ordinance accepting from Noah Walker the deed of the bed of a street to be called Walker street. Also, an ordinance accepting from Richard Lilly and others a deed of Ashland Square, to be held in trust for the purpose of erecting thereon a monument to Wells and McComas.

Mr. Connolly called up the ordinance to provide for the closing of Somerset alley. Passed.

Second Branch.

Mr. Cohen called up the ordinances providing for the levying of taxes for the support of the Public Schools, of the City Court, and of the city poor in the Almshouse, all of which were passed.

Mr. Norris called up an ordinance providing for the re-organization of the Board of Health, which was rejected; ayes 2, nays 8.

The U. S. mail steamer Humboldt sailed from New York on Tuesday for Southampton and Havre. She took out $542,000 in specie, half of which was American gold, and the balance about equally divided between Five Francs, American half dollars, and Mexican silver, and the following passengers:

Mr. and Mrs. Pendergrass, N. York; Mr. and Mrs. E. Gillendes, child and nurse, do.; Mrs. George Lovett, do.; Mrs F. M. Hazlehurst, Philadelphia; Mrs. Hazlehurst, do.; Mr. Jacobs, do.; Mrs. Jacobs, do.; Mr. and Mrs. S. P. Holmes, N. York; Mrs. G. W. Blunt, do.; Miss Blunt, do.; Mr. G. W. Blunt, do.; H. Vergne and lady, Cuba; C. Dardarro; Mrs. Dardarro and 2 children; J. D. Robbins, N. York; F. B. Cottonett, Brooklyn; Mr. Bluns; Messrs. Pourellegue and serv't, France; Bourboulon, do.; Mrs. Bourboulon, do.; Mr. Beecher, Detroit; W. A. Gasquet, N. O.; Mrs. Gasquet and daughter, Master Gasquet, Mrs. Matthew Morgan, Miss Fanny Stevens, New York; Gabrielle Martello, D. Bauche, Mr. Morgan, M. Rivera, Paris; J. W. Kester, Philadelphia; R. Vapeur, New Orleans; Lieutenant Gatesby A. R. Jones, U. S. N.; Lieut. Boudinot, U. S. N.; Mr. G. C. Gindi, Philadelphia; C. Ernest, N. York; V. Peralat, Mrs. Peralat, nurse and 2 children, Mme. Blane, New Orleans; Clinton G. Bird, Mrs. Bird, New York; Mr. Lippmann, J. Walker, N. Y.; A. S. Guerber, do.; Dr. J. McDowall, Mrs. McDowall, St. Louis; J. J. Fontasior, Chas. Morlot, New York; Mr. and Mrs. Morlot, Miss Morlot, do.; M. Guinand, Leon Pierre, New Orleans; H. C. Allein, New York; Mr. Damulet, New Orleans; N. B. Graham, New York; Mr. Strozeneges, A. Eules, New Orleans; Mr. Dubois, W. Giulmot, New York; Mr. Clanlet, Jules Bouselcguer, New Orleans; D. G. Willis, Edward Wissner, Esq., Mrs. Wissner, Milwaukie; Edward Dros; Lieutenant Silas Bent, U. S. A., St. Louis; Ernest Morphy, New Orleans; Dr. A. Bandry, Augusta, Ga.; D. Veau, New Orleans; George F. Jones; Mrs. Jones, servant and children; Antonio Choicis, Havre; Bartolo Fierro, do.; Peirre Vezrez, Spain.

Mr. Wise stated in the course of his speech in the Virginia Convention, on Monday last, that a single firm in Baltimore had amassed during the last ten years, a fortune of $250,000 by simply transporting oysters to the Western States—all of which were obtained at the oyster banks of the Eastern Shore of Virginia, and transported over the Baltimore and Ohio Railroad to Cumberland, and thence to the Ohio river in stages. This firm paid to the Railroad Company in one year, for transporting oysters alone, $35,000.

Small Pox among the Indians.—It is reported by Major Barrow, United States Indian Agent, who has recently reached St. Louis from St. Joseph, that on the Upper Missouri, in the neighborhood of Fort Pierrie and Medicine Creek, the small pox was raging with destructive violence among the Sioux Indians. Several hundred are said to have fallen a prey to the disease. The contagion was spreading down the river and had appeared among the Iowas, and the Sacs and Foxes. How the disease was communicated is not known.—*Phila. Amer.*

MARYLAND REFORM CONVENTION.
Correspondence of the American.
ANNAPOLIS, May 7.

Mr. Brown submitted an order, to apply the order limiting the debate on the Judiciary bill to all the business hereafter to be transacted by the Convention. Adopted.

Mr. Sollers gave notice of a reconsideration.

Mr. Harbine presented the petition of sundry citizens of Washington county, remonstrating against the formation of a new county, by the name of Lee, out of parts of Frederick and Washington counties.

Mr. Wells, chairman of the Committee on Accounts, stated, that the aggregate expenses of the Convention so far, were $104,095.92, subject to a reduction in consequence of the determination of some of the members not to receive per diem during the recess.

The additional section offered by Mr. Lee to the Legislative report, requiring the Legislature, at its second session, to exempt from sale any real estate to satisfy payments where the clear yearly rents or profits are sufficient, in seven years, to pay off such judgment, was taken up and rejected—yeas 27, nays 41.

Mr. Sollers moved an additional section, that no Bank charter be hereafter granted or renewed, without making the Stockholders and Directors individually responsible, and that no Director or other officer shall borrow from, be accommodated at, or otherwise deal with such Bank, except as to salaries; and upon conviction thereof, to be confined in the penitentiary, as shall be prescribed by the Legislature, and the charter of said Bank forfeited.

Mr. Gwinn moved to amend, so as to make the individual responsibility go only to the extent of the shares of the Stock owned by such officers in said Bank, which Mr. Sollers accepted.

Mr. Stephenson moved to amend, by requiring the liabilities to be paid in specie, and never to exceed double the capital actually paid in—to take from the Legislature power to sanction a suspension of specie payment, an stockholders at pleasure to inspect books, &c., thereof. Rejected—yeas 24, nays 51.

Mr. Constable moved to strike out "be accommodated at or otherwise deal with," also "except as to salaries," and insert "from." Mr. Sollers accepted this.

Mr. Donaldson moved to apply it to all corporations for banking, trading, mining, manufacturing or navigation, nor shall any such existing charter be renewed. Rejected.

The amendment of Mr. Sollers, as amended by Messrs. Gwinn and Constable, was then adopted, except as to the penal clause against officers, and forfeiture of charter of bank was rejected.

On motion of Mr. Brent, of Baltimore, subsequently reconsidered, the penalty of an officer, upon conviction, was made fine and imprisonment in the discretion of the Courts, and adopted.

On motion of Mr. McHenry, a section was adopted to create corporations, except for municipal and such other purposes as cannot be thus obtained, by general laws only, but not to impair preceding article relative to Banks.

On motion of Mr. Stephenson, a section was adopted that all bank books shall be open to inspection under regulations by law.

On motion of Mr. Miller, a section was adopted, to prevent the passage of any law to take private property for public use, before the payment, or tender of payment, of first compensation to the owner.

On motion of Mr. Constable, a section was added, that the trial by jury in all civil cases exceeding $5, be inviolably preserved.

Mr. Spencer offered a section that in criminal cases the jury shall be judges of the law as well as facts, and in such trial there shall be a bill of exceptions and appeal to the ruling of the Court, as to the admissibility of evidence, the same as in civil cases. First part adopted, making jury judges of law and facts, the rest rejected.

On motion of Mr. Bowie, the rate of interest was fixed at 6 per cent., all above to be usury.

Mr. Randall reported certain alterations by the revising committee to said report, which were disposed of.

On motion of Mr. Grason, $6 was inserted as the per diem of the presiding officers of the two branches of the Legislature.

Mr. Bowie gave notice of a motion to reconsider the 3d section of the Bill of Rights, and the 37th section of the Legislative report. Adjourned.

Anne Arundel County Court is still in session. Yesterday it was engaged all day in the trial of the case of the State vs. John T. Taylor, indicted for setting fire to the carpenter shop of Thomas N. Pindle. After an examination of the testimony, the case was submitted to the jury without argument, which rendered a verdict of acquittal without leaving the Court Room. H. M. Murray, Deputy Attorney General, and O. Miller for the State; A. B. Hagner and D. M. Thomas for the accused.

A motion for a new trial has been made, and is now being argued, in the will case—Townsend vs. Townsend.

Thomas H. O'Neal, Esq., Secretary of State, having been absent for several days, which will be extended for eight or ten days longer, the duties are being performed by Edward W. Wise.

Wilmington Election.—Our Whig friends in Wilmington have elected a Whig Mayor—Columbus P. Evans, Esq., of the Delaware Republican—a Whig City Treasurer, and a majority of three Whigs out of five on the Council ticket. Well done Wilmington.

We must add to the notice of a Whig victory in Wilmington, Del., the recognition of another in the town of New Castle, where a Whig Town Commissioner has been elected—the first Whig success there for many years.—*Phila. Amer.*

HARP, PIANO FORTE, ORGAN, THOROUGH BASS and COMPOSITION.

PROFESSOR DE CONIEL,
(Principal Harpist at Mrs. Phelps' Patapsco Institute)

BEGS TO APPRISE THE MUSICAL PUBLIC of Baltimore and its vicinity, that he is come to reside permanently, and will give instructions in the above branches of the most delightful of all accomplishments—MUSIC. The peculiar and happy method which he adopts guarantees to the student, in a short time, to acquire a masterly, pleasing and most brilliant style of performance; not neglecting, as is of necessity done by unqualified teachers, to impart a thorough knowledge of the theory of Music, without which the pupil cannot become an accomplished musician.

Prof. De Coniel can produce satisfactory testimonials of merit, if required, and hopes, by his assiduity for the improvement of those placed under his care, to share in the good feeling and support of public patronage.

Prof De Coniel receives musical compositions, (of merit,) and arranges them in the most simple, effective, yet scientific principle, Sacred or Profane, Vocal or Instrumental, or in any other way to suit the choirs of different churches, or for publication.

N. B.—Any commands addressed to Prof. De Coniel, and left at Mr. Willig's Music Stores, will meet attention. th,sat-2t ma 8

CHEAP PUBLICATIONS.—The Countess of Rudolstadt; by George Sand. Sequel to Consuelo. 1851, or the Adventures of Mr. and Mrs. Sandboys, who came up to London to enjoy themselves and to see the Great Exhibition; by Henry Mayhew. A man made of Money; by D. Jerrold. Pope Joan, or the Female Pontiff. The Mysteries of the People; by Eugene Sue.—Knight of Gwynne; Gambler's Wife; Monk; Ned Buntline's Life Yarn; B'hoys of N. York; Mrs. Caudle's Curtain Lectures; Self Control; David Copperfield; Jane Eyre; The Last of the Barons; Mother's Recompense; Mary Moreton, or the Broken Promise; Cruising in the Last War, by C. J. Peterson; Vanity Fair; The Convict, 2 vols., by Ned Buntline; Valentine Box; Now and Then, by Warren; Ivanhoe; The Count of Morion, or Woman's Revenge.

WEEKLY PAPERS.—School and Blank Books, Writing Paper, Bonnet Boards, Tissue Paper, Fancy Envelopes, Gold Pens, &c., &c., for sale at

H. MOORE'S Book and Variety Store,
158 Pratt st., 5 doors above the American Hotel.

CANDIDATE
FOR SHERIFF.
Election 1851.
ma 3 tf MICHAEL CONNOLLY.

FOR SALE—A Beautiful SITUATION FOR A HOUSE, for sale, with sixty acres of GROUND, six and a half miles from Baltimore, near Towsontown, and within half a mile of the York Turnpike. The land is in good order, is in view, and near to several beautiful dwellings recently erected by gentlemen of the city for summer residences, and the prospect of the Bay and surrounding country seldom surpassed. There are convenient to it several Churches, Post Office and School House, and it possesses many advantages. It may be seen, and the terms (which will be made easy) made know by application to BENJAMIN N. PAYNE, ma 8-2t* Post Master, Towson's Town.

FOR SALE—A desirable three story Brick DWELLING, on the north side of Barnet street, a few doors from Charles street. The lot fronts 24 feet, by a depth of 100 feet, and is subject to a ground rent of $120 per annum. Will be sold a bargain. T. SCOTT & SON, ma 8 1aw4t corner of North and Fayette sts.

FOR SALE,

A FURNACE, at Dresden, Muskingum County, Ohio, 14 miles from Zanesville, in fine running order, with superior Steam Engine, capable of running out 7 tons of Pig Iron per day. There is an abundant supply of Ore in its immediate vicinity. It is connected by a short canal with the Muskingum river, which is navigable for steamboats the greater part of the year, thereby affording facilities for shipping to Zanesville, or any point on the Ohio River, at low rates of freight. The Iron heretofore manufactured at this Furnace has been consumed in Zanesville. For terms apply to GEORGE JAMES, Zanesville, Ohio, or to RIELY & PENDLETON, ma 7 Baltimore.

To be inserted in Pittsburgh Gazette 3taw4w.

199 BALTIMORE STREET, ma 8 PS West of Light.

THE BALTIMORE ORPHAN ASYLUM FOR BOYS AND GIRLS OF ALL DENOMINATIONS.

THE BOARD OF MANAGERS of the "BALTIMORE ORPHAN ASYLUM," deem it expedient to come before the public at the present time to state their need of a larger building for the increased applications for shelter, for almost infant Orphans, which they are compelled now to refuse. Their number at present is 102; 39 boys who are under nine years of age, and 63 girls with few exceptions under ten. It has been currently reported that this Institution is wealthy, which is not the case. It is true, that by the good management of the Managers and Trustees they have been enabled to invest their few legacies and donations, so as to enlarge their income; but without the assistance of subscriptions they would not be able to support the establishment; and now that a larger House is so much needed, both for the health and comfort of the children, they will be compelled to use their funds to purchase a few acres of ground and erect a Building altogether suitable for the increased application of Orphans. Is there not some benevolent individual in the city who has ground to spare for this Asylum? So that the Board could husband their funds for the support and education of the children, and enlarge its usefulness, and as its number and consequent expenses are increasing, its support will be inadequate to meet any additional demands either permanent or contingent.

Will not the citizens come forward and aid by subscription or other means, this noble and praise worthy charity.

The Orphans' House which they now occupy in Mulberry street is offered for sale. Apply to JOS. KING, Sen'r, ma 8 eod4t No. 41 N. Charles st.

MAILS TO THE SOUTH WEST COAST OF SOUTH AMERICA.

NOTICE TO THE PUBLIC AND INSTRUCTIONS TO POSTMASTERS—1. Notice is hereby given that correspondence to Buenaventura and to Bogota, in New Granada; to Guayaquil and to Quito in Ecuador; to Payta, Lambayeque, Huanchaco, Casma, Huacho, Callao, Lima, Pisco, Islay, Arica, and Iquique, in Peru; to Cobija and La Paz, in Bolivia; to Copiapo, Huasco, Coquimbo, Valparaiso and St. Iago, in Chili, can be sent through the Post Offices of the United States on prepayment of the United States postage, and also that of the Panama Steamers plying between Panama and Valparaiso on the Pacific.

2. The United States letter postage, single rate, is twenty-five cents; and the South Pacific Steamship postage is one shilling sterling, the equivalent of which on said coast is twenty-five cents. This amount of fifty cents must in each case be pre-paid in the United States.

3. The United States newspaper postage is four cents per newspaper, and the South Pacific Steamship postage four cents—making eight cents per newspaper, which must also be pre-paid in the United States.

4. The Post Offices of New York, Charleston, Savannah, New Orleans, San Francisco, Monterey and San Diego will make up mails to "United States Consul at Panama," to contain all pre-paid matter for the South West Coast of South America. Other offices, receiving any such pre-paid matter, will mail for distribution to the nearest of the above named despatch offices.

5. All letters written in the South American States aforesaid, to any place in the United States, will be conveyed by steamship to Panama, and thence to the Pacific or Atlantic ports of the United States, when the postage will be collected, provided that the South Pacific Steamship postage is pre-paid in the South American States. When, postage of a letter is left unpaid or half an ounce, and 25 cents per newspaper, be pre-paid in said South American States. The United States postage will in that case remain to be collected on delivery.

N. K. HALL, Postmaster General.
P. O. Department, May 1, 1851. 1aw3w ma 8

CLOSING REPUBLICAN STREET, south of PRATT STREET, and between PRATT ST. and the inner line of the CIRCULAR ST.

OFFICE OF THE COMMISSIONERS FOR OPENING STREETS, Baltimore, May 7th, 1851.

The undersigned, Commissioners for Opening Streets in the city of Baltimore, hereby give notice, that they have deposited with the Register of the city for examination a statement of the Damages, Expenses and Benefits estimated by them for closing Republican street, south of Pratt street, and between Pratt street and the inner line of the Circular street, and also two explanatory maps of said street, and that said assessment will extend on both sides of Republican street, as contemplated to be closed, south of Pratt street, and between Pratt street and the inner line of the Circular street.

They hereby further give notice that they will meet at the City Hall on the 15th day of May next, at 10 o'clock, A. M., to review any of the several matters set forth in said statement, to which any person claiming to be interested therein shall on that day make objection.

JAMES S. WATERS, 214 BALTIMORE STREET, HAS JUST RECEIVED

A NEW AND CHARMING VOLUME OF NATURAL HISTORY.

Episodes of Insect Life, by Acheta Domestica, beautifully illustrated, in three series, 1 vol. each.

First Series—Insects of Spring, now ready; price $2.
Second Series—Insects of Summer, in press.
Third Series—Insects of Autumn, do

Notices of the English Press.

Professor Nichol has done much to make astronomy a lightsome science; Mr. Miller, of Edinburgh has thrown the influence of eloquent and powerful writing around the fishes and fossils of the old red sandstone. Neither, however, has produced a work equal in the peculiar excellence of the "Episodes of Insect Life."—*Tait's Edin. Mag.*

We have seldom been in company with so entertaining a guide to the Insect World.—*Athenæum.*

The book includes solid instruction as well as genial and captivating mirth. The scientific knowledge of the writer is thoroughly reliable.—*Examiner.*

REFRIGERATORS AND SHOWER BATHS.

WE WOULD ASK ATTENTION of persons wishing either of the above articles to those we have for sale.

SCOTT'S REFRIGERATORS.

For this article we bespeak a close examination to each and every part, feeling assured that every one will readily distinguish the great difference and vast superiority of them over all other style Refrigerators.

CORTLAN'S COMBINATION SHOWER BATH. The superiority of this article was fully attested at the Fair of the Maryland Institute, in 1849, by Gentlemen well skilled upon this subject; and confirmed at the Fair of the subsequent year—1850—by another Committee; for which Bath was awarded a SILVER MEDAL as being superior to other Baths there exhibited.

The above articles are not to be found in every shop about town but are to be had of the subscribers only. CORTLAN & CO., No. 203 Baltimore street. JAMES CORTLAN & SON, ap 26 PRC No. 8 Baltimore street.

ICE, ICE, ICE.

THE subscriber begs to express his thanks for past favors, and to inform his customers and the public at large, that he has contracted for an unlimited supply of NORTHERN ICE, which he will furnish throughout the Season, and pledges himself to give full satisfaction to all who may favor him with a call.

N. B.—Ice can be had by the ton or hundred tons upon easy terms.

Orders left at No. 3 North street, 3 doors from Baltimore, or Box 5? P st office, will be promptly attended to. ap 8 d1m* MICHAEL HURLEY.

TO THE POOR.

THE BALTIMORE GENERAL DISPENSARY was established for the relief of those persons who cannot afford the expense of Medicine, and the advice and attendance of Physicians. The Managers of this Institution are very desirous that all such persons call at the Dispensary, at the N. E. CORNER OF LIBERTY AND FAYETTE STS., where the Physicians of the Institution attend from 9 to 11 o'clock in the morning every day, except Sundays; and on Sundays from 9 to 10 o'clock. The best of GENUINE Medicines are administered, and advice given by able Physicians without charge. The Physicians will diligently give advice, and prescribe at the Dispensary, for all such as shall be able to go abroad, and visit, at their places of abode, all those who may be too unwell to leave home.

The Dispensary is open every week day from 8 to 1 o'clock, and from 3 o'clock to sunset; and on Sundays it is closed from 11 o'clock.

It is requested that LOST CHILDREN be taken to the Dispensary, where they will be kindly provided for agreeably to act of City Council.

VACCINATION performed at all hours that the Dispensary is open. 3tawlm ma 3

EDUCATION.

BROOKEVILLE ACADEMY, MONTGOMERY COUNTY, MARYLAND.

THIS long established Institution, being situated in the Country, remote from the fascinating and seductive scenes of vice, offers unusual advantages for the education of Boys. The Principal respectfully submits the following testimonials, touching his qualifications as a teacher.—Extract from a letter of Gen. D. M. Barringer, of N. Carolina, now American Minister to Spain, to the Hon. John M. Clayton, dated March 1849: "Mr. J. J. Sandford, is a fine scholar, a classical and elegant writer, is connected with one of the most distinguished families in New York and has educated some of the most distinguished men of our State." Extract of a letter from J. B. Burleigh, Esq., of Baltimore, to E. R. Price, Esq. of Philadelphia: "The bearer, J. J. Sandford, is a distinguished teacher and superior disciplinarian."

By a law of the Legislature, expressly enacted for the benefit of this Institution, and in which respect it stands *alone* in the State, the sale of all spirituous liquors is prohibited within two miles of the Village.

TERMS.—For Board, Washing and Tuition $65, per session of 23 weeks; one half in advance.

E. LARRABEE'S PATENT PREMIUM NIAGARA JET SHOWER-BATH, FOR COLD AND WARM WATER, Patented Jan. 2, 1849.

THIS BATH was awarded the PREMIUM, at the FAIR of the FRANKLIN INSTITUTE, Philadelphia, Oct. 1848, the only bath that ever took a premium at that Institution. And was also awarded the FIRST PREMIUM at the FAIR of the Maryland Institute, Baltimore, November, 1848. In addition to the above, this Bath has received the sanction of some of the most scientific Patentees both in Washington and other parts of the United States, as being the most perfect Bath ever offered to the public. The perforated tubes or jets are of Galvanized Iron, also the guide rods, which is proof against rust, and each Bath has a Zinc Bottom; this renders the Bath durable, having no machinery to get out of order, yet being perfect in all its parts, as pronounced by the committee of Inspection at the Franklin Institute Philadelphia. It is the only moveable Jet Bath patented, and the only Shower Bath that is adapted to Warm and Cold Bathing.

A great and important improvement is made in this Shower Bath over all others, by throwing the water immediately on the body without wetting the head, unless at the will or pleasure of the bather, by which the ladies can have the advantage of bathing without wetting the head or covering the same.

The arrangements are simple and complete, and not liable to get out of order and the bath can be adjusted to suit any height, from a small child to the tallest person. When the door is closed the fixtures are hid, and the outside appearance is that of a neat piece of furniture.

Before purchasing, please call and examine the most perfect arrangement for Shower Bathing ever offered to the public. E. LARRABEE, 24 S. Calvert street, Baltimore.

Also, Upright and Horizontal REFRIGERATORS, Ventilated, with or without Filters attached; Water Coolers and Filters of a superior make. d3mif ap 14
