Sir We have obtained this Day from the Printer the Paper order of the Assembly respecting Your petition & the Report of the Committee relative to the State House: As the Business is of a very pressing nature, We have at present only to observe in general that We think if the House should be perfected & finished by You agreable to Contract, as soon as possible, & that there is an immediate absolute necessity for securing the Dome & every part of the House from letting in Rain, which We are informed it does to a great degree & must soon if not timely prevented entirely ruin the Building.

We shall be glad to hear from or see You as speedily as possible & have the Sir

Your most Humble Servts.
