A BIT OF ADVICE

First Don't Delay Second Don't Experiment

If you suffer from backache, headaches or dizzy spells if you rest poorly and are languid in the morning if the kidney secretions are irregular and unnatural in appearance. Don't delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble they are recommended by thousands. Can residents desire more convincing proof than the statement of a citizen of this locality.

C. K. Evans, Sixth St., Denton, Md., says: "For two years I have seldom been without Doan's Kidney Pills and I use them every time in awhile. I feel the effect instantly. It tends to weaken the kidneys and as a result my back became lame and painful. Sometimes it was hard for me to stoop. During the two years I have been using Doan's Kidney Pills they have kept my kidneys regular and have never had a return of the backache."

Price, at all dealers. Don't ask for a kidney remedy get Doan's Kidney Pills the same that Mr. Evans had. Foster-Milburn Co., Buffalo, N. Y.

Farmers Are Advised to Establish Small Flocks in the Fall

(Prepared by United States Department of Agriculture.)

Farmers will do well, according to the United States department of agriculture, to establish a small flock of sheep on their farms in the fall. Twenty-five or thirty ewes put back in the fall at the beginning of the breeding season can be maintained through the winter with proper care and attention at comparatively little expense. In return they will do much to keep the farm free from weeds, will furnish a some food for the family, will [illegible] their manure on the land, will [illegible] up to the [illegible] states [illegible] garded [illegible] sorting [illegible] next expense [illegible]

VALUE OF ALFALFA

Upon the growing of alfalfa depend the things that lead to a better agricultural system, which in turn leads to living on the farm and making the farm a real home. We choose alfalfa because it is the most profitable crop. It excels other crops in yield per acre in feeding value, as a drought resister and soil enricher. It increases farm values and leads to live stock farming. To grow alfalfa successfully a man has to put his head and his body into the work. It will almost surely make of him a live stock farmer. And the people who have live stock upon their farms have good homes and good schools and they are good citizens. Professor P. G. Holden.
