AYER'S CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give *Directions* for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is sometimes the cause of *Costiveness*, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the *heartburn, bodyburn*, and *sourburn* of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

For a FOUL STOMACH, or *Morbid Inaction of the Bowels*, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

FOR NERVOUSNESS, SICK HEADACHE, NAUSEA, *Pain in the Stomach, Back, or Side*, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

FOR SCROFULA, ERYSIPELAS, *and all Diseases of the Skin*, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

To PURIFY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making every where.

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections*, arise from some derangement—either torpidity, congestion, or obstruction of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhœa, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhœa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Fevers*, are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principal of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

AS A DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

CAMPBELL'S PURE ESSENCE OF JAMAICA GINGER.—Ginger is a grateful stimulant and carminative, and is often given in gout, Rheumatism, Dyspepsia, Cramp, Cholera Morbus, Cholic, Cholera, &c. &c. In Nervous and sick headache, sea sickness, nausea, imperfect digestion, or from nausea induced by riding in a carriage, &c. it will be found most agreeable to the stomach and palatable to the taste, and affording at the same time almost in all cases immediate relief.

To the Inebriate it is particularly serviceable; a very small quantity used instead of the usual stimulant, will give tone and vigor to the digestive organs, and impart strength to resist the temptation, and may therefore be considered an invaluable agent in reclaiming the drunkard.

The traveling public will also find it very efficacious in correcting the bad results arising from a change of water and diet, a few drops of which will give a glow and vigor to the stomach, equal to a wine glassfull of Brandy or other stimulant, without producing any of the injurious and overrating effects which are sure to result from the use of stimuli of any kind. It is also a superior article for flavoring jellies, preserves, cakes, and for other culinary uses, besides making a good beverage in hot weather. Prepared and for sale at the Drug and Chemical Store of

BROWN'S ESSENCE OF JAMAICA GINGER.—The *true, original* and *genuine* article; possessing in a concentrated form all the valuable properties of the Jamaica Ginger.

It is most beneficially used in cases of *debility, nausea, indigestion, ordinary diarrhœa, incipient cholera, dyspepsia*, and all cases of prostration of the digestive functions, whether from indulgence or disease. Price 50 cents per bottle, to be had of

"Pale and thin and full of misery,
Bearing all her pains in meekness,"

MISS MARY A. SCOFIELD,

AN INTERESTING WEDDING!

"Truth strange! strange! that fiction!"

LET THE AFFLICTED HEAR THE TESTIMONY OF A LADY.

TO those who have the pleasure of knowing Miss Scofield, the above will be a remark that a desire to benefit the suffering prompted her thus to speak. None can appreciate her joy and gratitude in being relieved from many years of suffering, almost unparalleled, but those (if there be any) who have suffered like her.

Miss S. has been a resident of this city for the last two years has been successfully conducting a school at No. 630 Baltimore Street. The happy change in her health is a subject of congratulation and joy to her numerous friends. We, all those interested to call on her. She will tell them most of her cure by *Hampton's Tincture*, I have before the world written. This it is this female seeks to do, giving relief to the sick. We refer the public to unsolicited testimony. From more distant places we also hear of the same happy result. These facts, with the concurrent testimony of thousands, should cause scepticism and prejudice to hide their heads and concede that Hampton's Tincture is in truth a wonderful discovery.

BALTIMORE, Oct. 18, 1853.

MESSRS. MORTIMER & MOWBRAY, Gentlemen—I have delayed entirely too long in writing to you in relation to the virtues of Hampton's Tincture. I fear, even now, that I cannot give the afflicted world a just idea of the good I have derived from its use, the benefits have been so great that I feel inadequate to the task. I was attacked with the chronic rheumatism in its most malignant form, at the early age of fourteen, a half years, and continued to be so afflicted until I crossed the Atlantic Ocean on my way to America, at which time it changed its form into a gathering. I had at this time attained my growth, and never expected to be well again, as the disease came, in the first place, of my being VACCINATED from a child who had the white swelling. When my gathering first broke it did not discharge less than one quart, and so continued to trouble me every time I took a cold or was in the least fatigued, my bodily strength was reduced to the weakness of infancy. I was several times very near to the grave, my hip joint had been out of place ever since I had the first attack. At the age of thirteen my hands became dislocated. These sufferings, and the general debility I felt from the constant discharge of my gatherings, caused me often to think that I should never be permitted to know how it felt to be free from pain and suffering, even for one hour, until my poor body should be changed, and become like unto "Christ's glorious body," at least, until "this mortal have put on immortality."

I had taken so many medicines, and received so little benefit, that I had confidence in none. I had used of very nearly all the CELEBRATED LINIMENTS, and other external remedies I had heard of. I had been placed by my friends under some of the best physicians in England, and all the relief I ever obtained was but of transitory duration.

When I first heard of Hampton's tincture I had not the slightest confidence in its efficacy, but I had a friend who had known Mr. Jarrett Plumner when his sufferings were at the worst, and had witnessed the cure wrought upon him. To please her I consented to try the Tincture, and I had not taken one bottle before I began to feel its beneficial effects—my strength returned—my appetite became good—my complexion was clear—I felt like another person.—Through the influence of this friend you became acquainted with my case, and requested to see me; you told me my case was such a peculiar one that you would like to see the effects of the Tincture fully developed in it, and if I desired to take it, you would present it to me, if it was for the space of five years—but only eighteen months have elapsed, and I HAVE LOST EVERY SYMPTOM OF MY DISEASE; I have become strong and hearty—I can stand as much if not more fatigue than most of my lady acquaintances. I have a beautiful complexion, and all my friends say I am getting quite FLESHY—one thing is certain, MY LAME LIMB is quite as large again as it was before, and I can trip about house without a crutch.

I often wish my parents had known of this remedy when I was a child, as I believe I should have been saved the excruciating pain I have been subjected to, as well as the deformity of body I must carry to the grave, and my parents would not have been under such heavy expenses from doctors' bills and in sending me, as they did, to the celebrated springs in England in search of health. I wish all the afflicted world could see me, and hear the benefits I have derived from this Tincture of Hampton's. I try to make all acquainted with its virtues with whom I come in contact.

Gentlemen I am a thousand times obliged to you, and you are at liberty to use my name and case to all. I remain yours, in gratitude,

SASHES, DOORS, & BLINDS.

SOMETHING THAT ALL SHOULD KNOW.

BUILDERS *should know* that by procuring from the subscribers their *Doors, Sashes and Blinds*, they will save about *fifty per cent.* on these articles, which are no inconsiderable items in building.

CARPENTERS *should know*, that by buying their *Doors, Sashes and Blinds*, they can save the price of the lumber at least, and avoid the delays and inconvenience attendant on making them.

CONTRACTORS *should know* where can be procured at all times, and in any quantity, all kinds of *Doors, Sashes and Blinds*, and *Glazed Sash*, of the best manufacture, from sound and well seasoned timber, and at the lowest rates.—By purchasing from us, they can take contracts on terms defying competition, and make a *heavy per centage* besides.

FARMERS *should know*, and do know, that a *"Dollar saved is as good as a Dollar earned,"* and those contemplating building can do so at a *great saving* by procuring their *Doors, Sashes and Blinds* from the subscribers, who intend to give their customers the benefit of their facilities and advantages for manufacturing these articles.

Orders from all sections solicited and *promptly* filled.

We think we can safely say that *our Stock is the largest, and our assortment the best to be found throughout the South.* We pack our *Glazed Sash* in so careful a manner as to insure its safe transportation to any section, and for any distance.

Baltimore Commercial College

Nos. 99 AND 101 BALTIMORE STREET.

O. K. CHAMBERLIN—President and Lecturer on Commercial Science.
E. K. LOSIER—is charge of Writing Department.
G. W. KEMP—in special charge of Mercantile Calculations, and associate in Bookkeeping.
J. M. PHILLIPS—Instructor in Bookkeeping Department.
S. T. WILLIAMS, Esq.—Lecturer on Commercial Law.

Three years have not yet elapsed since the establishment of this Institution, during which time upward of eight hundred students have been in attendance, (representing nearly every State in the Union,) among whom are numbers in Baltimore, and elsewhere, occupying prominent positions as business men and accountants.

COURSE OF STUDY.

BOOK-KEEPING—The Principal has the utmost confidence in assuring the public, after an experience of fourteen years in qualifying young men for the Counting Room and other important stations, and an extensive acquaintance with the management of business books of every description, (assisted as he is by two scientific accountants,) that the course of training in this department is eminently practical, and well adapted to the various pursuits of Commerce and Trade, including individual Partnership, Mercantile, Manufacturing, Commission, Exchange, Banking, Shipping, Steamboating, Compound, Company operations, &c.

PENMANSHIP.—The exercises under this head are free, easy and graceful, combining rapidity of execution with beauty of construction, thus enabling the student to write an elegant business hand on completion of the course.

MERCANTILE CALCULATIONS, in all their various bearings, are taught by the most accurate and expeditious method.

Daily Lectures delivered upon the Science of Accounts, Mercantile Customs, &c.—these, in connection with a series of lectures on Commercial Law, are of the highest importance to all aspiring to occupy honorable positions in the business world. It is generally conceded that the plan of instruction here carried out is more thorough and practical than at any similar institution, combining as it does all the facilities for a complete business education. For terms, &c., write and receive a circular by mail. sep 22-1y

EASE AND COMFORT.

HOLLINGSWORTH'S PATENT HUNDRED PLEATED KNUCKLE WASHING MACHINE, will wash one dozen pieces of clothes in two minutes without injury to the most delicate material.

This Washing Machine has taken the premium at all the Fairs where exhibited. It is pronounced by all who have seen it the wonder of the age. It is so simple in its construction as not to get out of order.

The Machine is so easy to work that small children can take part in it; any half-grown girl of ordinary strength, however little used to labor, can do a regular week's washing, and derive great benefit from the exercise, it being of the very best kind for strengthening the arms, chest and loins.

BANK NOTES.—It will wash bank notes without tearing or injuring them. Therefore not only is great labor saved, but the clothes are not injured as by other machines and rubbing boards. This will be apparent to all who see it in operation as it is not a rubbing machine. No boiling of clothes required. We invite the public to call and see it, also ask the Ladies (who wish to purchase) to send their servants with soiled clothing to No. 240 Baltimore street, (up stairs) where we wash them so quickly as to convince the most sceptical. To meet the circumstances of all we put it at $12. We give the testimony of a few of the hundreds who are using them.

THIS GENTLEMAN is well known throughout our own and other States as a chemist:

SYKESVILLE, Md., March 6th, 1856.

MESSRS. MORTIMER & MOWBRAY,

Gentlemen—In reply to your inquiries in regard to Hollingsworth's Floating Balls Washing Machine, I have to say the principle is certainly the best I have ever seen or used for the saving of labor, clothes, time and soap. Those in my family say they can wash six pieces by this machine to one on the old plan, and not feel the labor; the clothes being better washed. We are perfectly satisfied with the machine, and recommend it to all our friends.

Yours, with respect, WM. BAER.

BALTIMORE, June 19, 1855.

This is to certify that the undersigned has in use one of the PATENT KNUCKLE WASHING MACHINES, and finds it to be everything claimed for it. The labor is greatly lessened, and the expedition with which a heavy washing is accomplished is surprising. A wash-day is accompanied by many inconveniences to well-regulated households, and any improvement by way of speed should be hailed with pleasure; and in this machine that is certainly obtained. The undersigned believes that the KNUCKLE WASHER must be generally adopted, as much time and labor are both saved, and the work better done, while the articles are not injured by the usual friction of rubbing in the old way of washing.

JOHN F. MCJILTON, "Baltimore Patriot."

I fully endorse the above recommendation of Mr. McJilton. F. D. BENTZEN,

Baltimore street, near Light.

I have the KNUCKLE WASHING MACHINE in use in my family, and cheerfully concur in the above recommendation. JOHN L. REESE, JR.,

No. 82 Camden street.

[From J. Wills, Esq., one of the proprietors of the Baltimore Patriot.]

I have had in use in my family for some time one of HOLLINGSWORTH'S PATENT KNUCKLE WASHING MACHINES, and feel no hesitancy in pronouncing it one of the very best instruments of the kind now in use. I make this assertion from having such its operations, and upon the unreserved recommendation of washerwomen who worked it.—The principle on which this washer operates is thoroughly scientific, and at once indicative of its utility. My impression is that the Knuckle Washer must gradually find its way into general use. Some of the many advantages possessed by it are expedition, thoroughness in cleansing garments, and the ability to wash goods of the finest texture without causing the slightest wear or injury. Every family who can conveniently, should have this most excellent Washer. J. WILLS, Baltimore, Md.

"Having had the KNUCKLE WASHING MACHINE in my family, I cheerfully concur in the above recommendation. E. Y. REESE,

Editor of Methodist Protestant.

PHILEMON FLOYD takes this method of informing his customers and the public generally, that he can be found at the old stand, where he still continues to carry on everything in the line of a Barber. Having been at some additional expense, and the high price of provisions, has caused him to raise the price of Hair Cutting to 18¾ cents—Shaving at the old price, 6¼; Shampooning 25, Boot Blacking 6.
