FOR SALE.

THE subscriber, about to relinquish housekeeping, offers at private sale the House and Grounds, on Aurora street, in the town of Easton, Maryland, constituting his present residence. Well known as the dwelling, for many years, of the late Hon. J. Leeds Kerr, it is justly esteemed one of the most beautiful and desirable homes on the Peninsula, or in the State. The house, of brick, is large and commodious, containing suites of Parlours, Office, Library Room, high pitched and well ventilated chambers, all constructed in he most substantial manner, with strict regard to taste and convenience. The external improvements consist of the usual outbuildings, including very extensive Stables, Ice house, Flower and Vegetable Gardens (each embracing an acre of land,) enclosed Park laid out with gravel walks, and three large town lots adjacent, on one of which is located a small dwelling. The water is excellent and abundant.

To a private or professial gentleman no more eligible residence can be presented; while for the purposes of a first class Female Seminary for Young Ladies (now greatly needed in this section) both the enlarged house accommodations, the variety, beauty and extent of the surrounding grounds, and its position in the midst of a highly cultivated and refined community, render it an unusually attractive and desirable location.

County Commissioner's Sale.

THE Commissioners of Talbot county will offer at public sale, in front of the Court House in Easton, on
Tuesday, the 27th day of October inst.,
to the lowest responsible bidder, the contract for making the piece of new road in Oxford Neck, Trappe District, running from the main road near the old Methodist Church to Dr. Wm G. G. Willson's gate, as recently laid down by A. C. Mullikin, Samuel Emerson and John T. Stevenson, Esqrs, commissioners, and Samuel Chamberlaine, Esq., surveyor. The new road is mainly upon the old private road with slight variations. The report of the Commissioners appointed to lay down said road, states

"That portion of the road running not far from where Dr. Willson's gate now stands, but from a point this side, at the corner of his wood field, near Jesse Delehay's turn off, to Nathaniel Leonard's road or turn off, we found in good condition, and thirty feet wide, as required by law, and perfectly straight; requiring nothing more to make it a first rate road than the cleaning out of the old ditches, the dirt to be spread in the road. But that portion of the road from Nathaniel Leonard's turn off, to the point on the public road leading from Hole-in the Wall to Oxford, we found in bad condition, and not thirty feet wide as required by law, and having one or two turns or bends in it," which the commissioners deemed it advisable to straighten as will be seen by the plat which will be exhibited on the day of sale.

The contractor will be required to make the said road thirty feet wide, as surveyed, and clear it of all trees, stumps and other obstructions, and to ditch and bridge the same wherever necessary—the bridges to be of white Oak plank, not less than two inches thick; and will be required to complete the said road in six months from the day of sale, and to enter into bond with the County Commissioners for the faithful fulfilment of the contract within the time specified. By order of the commissioners for Talbot county.

RETIRED PHYSICIAN
75 YEARS OF AGE,

WHOSE sands of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthman, Bronchitis, Coughs, Colds, and General Debility. He studied hard and succeeded in realizing his wishes.—His child was cured, and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow-beings as request it, this recipe, with full and explicit directions for making it up, and successfully using it. LIME.

To the Editor of the Annapolis Gazette:

WE feel it due to Mr. COULTER, of your place, to invite public attention to the very superior article of LIME now furnished by him. In doing so we feel that we are rendering a service to the Farmers, and especially to those of Anne Arundel county. We say without hesitation that, in our opinion, Mr. COULTER furnishes an article greatly superior to any thing of the kind we have ever used or seen. The Lime furnished by him is burnt with the best spruce pine and light wood, the ashes of which every Farmer knows the value of, in improving land. These mix with the Lime and add greatly to its fertilizing properties. Whereas the Lime obtained from Baltimore and elsewhere is burnt with the filthy coal offal, procured from yards, and of course inferior in quality and of much less value as a fertilizer than that furnished by Mr. COULTER.

Mr. Coulter must certainly possess some secret in manufacturing his Lime, for we have never seen any Lime where all the shells were so thoroughly burnt. He burns ten thousand bushels in ten days, and every shell is converted into Lime of the finest quality and as white as the driven snow.

Dr. James Higgins, State Agricultural Chemist, in Company with Col. Walton, visited Mr. Coulter's place of business a short time since, and pronounced his Lime the most beautiful article of the kind he had ever seen.

Mr. Coulter furnishes his Lime at Baltimore prices; and the Farmers of Anne Arundel county and others would do well to give him a call, if they wish to procure an article of superior quality
