July 28, 1888

Our Washington Letter.

From our regular correspondent
Washington, July 20 1888

Senator Spooner's bill to regulate interstate telegraphy has been favorably reported to the Senate. It places all telegraph business, except such as is formulated within the limits of a state, under the jurisdiction of the Interstate Commerce Commission. In fact the phraseology of the bill closely follows the interstate commerce act.

Thos. J. Brown, special examiner of the Pension Office, formerly of the Signal Service, made an argument before the Senate committee on Agriculture Wednesday, in favor of the transfer of the weather bureau to the Agricultural department. From the best information obtainable, I am under the impression that the committee will decide against the transfer.

Senator Dolom has introduced a resolution instructing the committee on interstate commerce to inquire into the propriety of extending the interstate commerce law, to telegraph and express companies and to railroad companies not now subject to it.

Mr. Randall is slowly recovering from his illness, but is still confined to his bed. His friend are not idle though, by any means; they are sending out thousands of copies of his speech against the Mills tariff bill. The administration people are talking of going into his district, and preventing his nomination for Congress by the democrats. This they may be able to do, though I doubt it, but as to keeping the people of his district from sending Samuel J. Randall to Congress, I do not think any administration is strong enough forthat. If he lives he will be elected to the Fifty First Congress. If the regular democratic convention in his district refuses to nominate him, he will run as an independent candidate, and defeat the man it does nominate.

The Senate has passed the bill to provide for the adjustment of accounts of employes of the Government under the eight hour law. It provides for the payment of all laborers, workmen, [illegible]s employed by the Government [illegible] June 5, 1868, for each eight hours he has been employed, without any reduction of pay an account of the reduction of the hours of labor. It also refers to the court of claims for adjudication of all claims for labor in excess of the eight hours per day, provided such suits are commenced within two years from the passage of the act. This act, even if it should pass the House, and receive the President, [illegible] the labor [illegible] be- [illegible] them have [illegible]aims to a firm [illegible]resents a wealthy [illegible] one of the members of [illegible]. F. Butler.

[illegible]er and harbor bill is still in [illegible]ds of a conference committee [illegible]use conferees refuse to agree to [illegible]al items.

[illegible]her lot of private pension bills [illegible]etoed this week.

[illegible]re will be civil service examinations held in all the classified post offices of the country Tuesday, Aug. 7.

The selection of Calvin S. Brice, the railroad millionaire as chairman of the national democratic campaign committee, is regarded among shrewd politicians here as a mistake. He has money, but experience is of more value sometimes than ready cash. In 1884 [illegible] was filled by Senator Gorman, who positively refused to accept [illegible] this year.

The Senate has passed the bill authorizing the President to nominate and retire John C Fremont with the rank of major general of the army.

The Senate has agreed to withdraw the subsidy amendment to the post-office appropriation bill, to which the House objected.

According to the new police census of the District of Columbia, just finished, the population is 208,157, an increase since 1885 of 14,698.

Senator Pugh spoke for, and Senator Chandler against the fisheries treaty this week.

The Senate has passed a bill appropriating thirty five thousand dollars for the erection of a monument to Gen. George Rogers Clark, at Louisville, Ky.

Most Every Farmer!

Wants to know how to raise large crops cheaply. Mr. W. S. Powell, manufacturer of the celebrated Powell's Fertilizers, 16 Light Street Baltimore, Md., has just had printed a handsome new book, entitled "Points about Fertilizers." Which contains explicit directions specially written by leading agriculturists on the land best adapted, its preparation, fertilization and marketing of Wheat, Corn, Oats, Buckwheat, Irish and Sweet Potatoes, Melons, Grapes, Strawberries; Peanuts, Onions, Tomatoes, Tobacco and Cabbages, with minute directions for each month in the year, for the general work of the Farm, Orchard and Garden. How Plants feed. How the get Nitrogen. "How to treat the Boys," and many other things farmers are interested in; tells all about how to make good Fertilizers at Home, at about $12.00 piston, with Powell's Prepared Chemicals, and the Powell's Red Bag Fertilizer, a high grade Ammoniated fertilizer only $25,00 per ton, with a Map showing where his products are used. If you mention this paper and send two 2-cent (4 cents) stamps to pay postage, he will send you the Book free. Sent to Farmers only.

Snow in July.

CLEVELAND, O, July 23.—Specials from Sandusky, O., report that a severe storm struck that place about 3 o'clock this afternoon.

The wind blew a gale, and rain and hail fell in torrents. Trees were uprooted, corn and other crops damaged while fruit was literally stripped from the trees.

The damage in Huron county is estimated at $100,000.

LOCALS AND GENERAL NEWS

CULLED FROM THE COUNTY AND ELSEWHERE.

The extra wire for the use of the Fruit Exchange on the Delaware and Chespeake railway has been completed.

Mr. James H. Straughn, of Centreville has rented the hotel in Denton of Mr. Van Gessel and will take possession January 1st 1889;

The Democratic flag pole was raised Tuesday afternoon in front of the postoffice, and now the bandanna floats upon the breeze.—*Caroline Democrat.*

The Republican Senators who have prevented the confirmation of Mr. Melville W. Fuller are beginning to realize what a lot of assess they have made of themselves.

The annual pony penning on Chincoteague Island will take place about the 12th of August. The occasion this season is expected to be the most interesting and numerously attended for many years.

The early varieties of peaches have been quite plentiful where farmers were fortunate enough to have them in their orchards, but have rotted so badly that there has not been much profit in the crop.

The new game law for Caroline county reduces the license fee for non-resident sportsmen from $20 to $5. Non resident real estate owners are not required to take out license. It also prohibits the shipment of partridges, woodcock and rabbits out of the county.

Columbus Elliott, of the firm of Elliott & Rathell, shoe manufacturers and dealers, died in Easton on Thursday night last, aged 75. He was a native of Queen Anne's county, but removed to Talbot county when a boy, and was one of the oldest business men of Easton.

The Chester River Steamboat Company have chartered, in addition to their three steamers, the Emma A. Ford, B. S. Ford and Corsica, the steamer Westover, of the Norfolk line, and the Conoho and Hamilton, of the Baltimore and North Carolina line. The carrying capacity of these boats will be about 45,000 baskets per day.

Messrs Troy & Colley, the leaders in fair prices in drugs in this county appear before our readers in this issue in a half-column advertisement. The people of this county are indebted to these gentlemen for a reform in the tariff on the actual necessaries of life, in advance of the Democratic party and they should be voted a large patronage.

The county levy list for 1888 will soon be ready for statement. There will be an increase of five cents on the $100 in the county tax rate over last year. This is occasioned by a very general improving of roads which has been conducted through the past year, and from the increased appropriation to Chestertown, under enactment by the last Assembly. The county tax rate will be for this year, 91 cents on the $100.—*Chestertown Transcript.*

Gen J. B. Seth, President of the Baltimore and Eastern Shore R. R., authorizes the *Democrat* to state that the work will be commenced on the B. & E. S. R. R., immediately at Salisbury, and also at Easton and the road will be completed and in running order throughout its entire length within a year. All necessary arrangements have been made for carrying on the work to its finish.—*Easton Democrat.*

On Sunday night a number of persons in Queenstown, watched the phenomenon of the moon being eclipsed by the earth's shadow across the sattelite's disk. At 11:30 its eastern side slightly began to grow dim as it entered the penumbra and continued to diminish in brightness until it assumed a dark reddish color, and the total eclipse began. It remained in this state for over an hour and a half, when a light rim began to leave umbra gradually growing larger as it approached the penumbra, leaving the latter at 3:28 and the eclipse was over.

The New York Daily Graphic has started a new feature, "Our Poet's Corner," and, as *The Graphic* announces, "the department is expressly designed for the profit and celebration of our poetic contributors," in which it is intended to publish all the verses sent that paper. This is, we believe, the first attempt of any metropolitan daily to encourage the development of American poetical genius and will certainly "fill a long felt want" as well as increasing the already exceedingly great popularity of *The Graphic.*

Here is an opportunity for our local poets to become celebrated by sending their effusions written on one side of the sheet to the Poetry Editor of *The Graphic*, New York.

On Saturday last, Henry Davenport a mullato living on Paca's Island came to town and filled himself full of whisky. When he returned to the Island in the evening he crossed a field in which was a vicious bull. Davenport concluded to have some sport with the bull, he got down on his hands and knees and began throwing up dirt with his hands and bellowing like a bull, the bull soon spied him and went for him at a lively pace, he picked the negro up on his horns and tossed him high in the air when he landed he fell in a deep furrow and a gentleman who saw him hallowed to him to lay still. The bull made several mad rushes at him and the only thing that saved his life was the deep furrow as the bull could not get at him. Davenport is now in bed under the care of a physician and he says he wont play bull anymore.

BASE BALL AT RIDGELY.

PLENTY OF KICKING—PICKED NINE FROM TWO COUNTIES—A HOME RUN FOR KALINE WITH THREE MEN ON BASES.

The Queenstown club went to Ridgely on Wednesday and played a picked nine of Caroline and Talbot counties. The Ridgely nine played here on the 4th and while they b at our boys 22 to 11 they found they had their hands full when they met our boys. Ridgely had determined to win the return game on Wednesday right or wrong, as their actions from first to last plainly showed. They picked their nine from the Denton, Greensborough, Easton, Hillsborough and Ridgely nines. At the ending of the 4th inning when they found our boys could win easily, they began kicking against every decision the umpire made against them—not only the captain of their nine, but the players and spectators, until the ninth inning, when they had a man put out in attempting to slide to third base, which put their side out and tied the score; they refused to play and aft r waiting the time required by the rules and they refusing to play, the umpire declared the game in favor of Queenstown 9 to 0.

Home run—Kaline. Double catch—Lane and Hardcastle.

KENT ISLAND ITEMS.

Our farmers with a few exceptions are through with their wheat threshing.

Some of our young men who anticipate riding on the tournament at Queenstown. are busily engaged practicing for the same.

The Stevensville Cornet Brass Band is open for engagements and wishes to be remembered by the managers of the tournament.

Very hot at this writing, but notwithstanding the heat, our Island is overrun with phosphate agents, each ones goods better than the other.

One day last week we were paid a visit by an old friend from off the Island, who brought with him a resident of Winchester, who had never been on Kent Island before in his life, and had an idea that he could walk all over it in half an hour, when to his mistake upon strolling around got in to a corn field—which happened to be one of the largest fields of corn on our Island containing 75 acres. He therefore got lost. Peped out of the corn suddenly on the main road and struck out for home, a distance about 12 or 14 miles, which he reached in safety ten minutes a head of a pair of horses and carriage that his friend was endeavoring to overtake him with. How is this for high. MEZEPPA.

Sweet Potatoes and Onions.

The reason why sweet potatoes are so hard to keep is that they are so rich in sugar, containing as compared with the common potato nearly seven per cent of soluble sugar, in place of a similar amount of starch, and whenever the cuticle is broken the omnipresent spores of fungi take root and rapidly produce discloration and dry or wet rot. The best place for storing is a cool, dry, well-ventilated room where the temperature may be kept between forty and fifty degrees Fahrenheit.

Last year, having one sweet potato ridge, about six hundred feet long, left after setting the last plants, I opened a drill along the top and sowed carrot seeds in it. When harvest time came I plowed down one side of the ridge and threw out the carrots easily with the fork, instead of searching for them deep down in the bowels of the earth. The long, smooth, well-shaped roots obtained determined me to try the same method for the entire crop this year, and present indications are that I shall not be disappointed at the result.

In gathering the onion crop, unless the stand is much evener than most people secure, there will be a quantity of bulbs too small for market and too large, apparently, for sets. It is sometimes a question as to what disposition shall be made of these latter. Having a quantity of them on hand last spring I used them for planting my earliest onion bed, and almost as soon as the new growth commenced, they were ready for marketing as green onions. They came in very much sooner than those grown from the smaller sets, and consequently brought the best prices. A neighbor came over as we were gathing the last from the bed of five square rods, and suggested that "he guessed in the long run hogs and corn would pay better than onions." So taking out my note book, I investigated the facts, and found that the five rods had yielded six hundred and eighty bunches, worth net $27.20, or at the rate of $670.40 per acre. This was as much as my neighbor could reasonably hope to secure from his sixty acres devoted to corn and hogs, and I think the cost of production was rather in my favor.—*American Agricultural for August.*

Weak Bridges

The county commissioners of this and Kent counties at a point meeting held last week, concluded that the bridge across Chester River at Crumpton was unsafe for carrying traction engines or machinery or wagon loads weighing more than 4000 pounds and notice is given to that effect. The same notice is also giving in regard to Island Creek Bridge.

CARMICHAEL ITEMS.

Wednesday, July 18th., 1888.

Harvest passed, threshing commenced and wheat turning out remarkably well.

Mr. Hiram Bishop is visting his parents after his long trip in the south for his health. We gladly welcome him among his many friends.

The Mite Society of Wye M. P. church will be held at Mrs. Albert Groves, Wye Hall, the third Thursday of July, the 19th. The exercises bid fair to be very interesting as Miss Belle Pippin of Chestertown will be present and no doubt all will appreciate her sweet voice. Also will be assisted by Mrs. Jennie Campbell of Philadelphia, who is now visiting Wye Hall.

The Fourth of July was duly celebrated and many enjoyed the great festivities provided for that day, others quietude of home, which your humble "Blizzard" turned his attention to.

Mr. Chew Pace, is visiting Centreville for awhile.

Mr. Frank Bartlett is enjoying his home after hard study at school.

Wednesday, July 26th., 1888.

It is not the fault of your correspondent that the voice of the terribie "blizzard" has been silent. We most assuredly wrote to your valuable paper and sent to mail in time for printing, but have not seen our items published. We cannot say where the fault lies. Nevertheless we write again.

Threshing wheat is the main words among farmers now. Yield very good.

A good number are breaking fallow, some finished.

Quite a good many visitors are arriving from the city to visit and enjoy the hospitality of our Wye farmers.

Miss Mamie Bishop of Baltimore, and Miss Laura Bishop of Wilmington are guests of Mr. John Bishop.

Mr. Hiram Bishop is now at home recruiting his health. We hope he may speedily recover.

Mrs. Wm. Sheffer accompanied by son and daughter of Baltimore, are visiting with Mrs. Wm. Campbell of Philadelphia at Mrs. Lulu Groves.

Mr. Albert Groves has been quite sick but being better entertained the Mite Society of M. P. church, Wye Neck, last Thursday afternoon. A very pleasant time was enjoyed. The next meeting will be held at the church where a little "Mite pic nic," will take place, each family carrying his own supper and enjoying the church green. All members are earnestly requested to attend and new members solicited. A programme will be provided for the afternoon.

A son of Mr. Wolfe has been quite sick, is now improving.

Henry Davenport, colored, came near being killed by a bull last week, is now better.

Mrs. A. F. Rockwell, is visiting friends in Easton.

Mrs. Moore and Mrs. Beacham, of Baltimore are guests of Mrs. Thomas Vansant.

Mrs. Covey has been quite sick is improving. BLIZZARD.

Wages and Taxation.

If high tariff makes high wages in this country it ought to do the same in other countries. Mexico has a higher tariff than this country has. Therefore, according to our thimblerig logicians, wages should be higher in Mexico as here. Germany has a tariff for protection and England has not. Therefore, according to these logicians, wages should be higher in Germany than in England. But what is the fact? Let us learn from high tariff authority. The Commissioner of Labor Statistics for the State of Maine, which is the State of Blaine, is a zealous defender of the 47 per cent. war tariff. In his last report this official gives the following tabulated statement of wages in certain trades in England and Germany:

WAGES PER WEEK.

	England.	Germany.
Bricklayers	$7.56	$4.21
Masons	7.68	4.09
Plaser	7.80	4.43
Carpenters	7.66	4.11
Blacksmiths	7.37	4.00
Cabinetmakers	7.68	4.25
Cigarmakers	6.07	3.68
Coopers	7.50	3.97
Laborers	4.70	3.11
Saddle & harness makers	6.63	3.96
Tinsmiths	6.56	3.55

According to the theory that high wages, workmen should get a good deal more in Germany than in England. But according in this table they get almost exactly 77 per cent more in England than in Germany.

PRESIDENT CLEVEDAND AND WIFE IN QUEENSTOWN.

S.E. Kirby, has for sale photographs of the President and wife 14x18 in heavy gilt frames for a small sum of money. Also large stock of GROCERIES, MEATS, FLOUR and COFFEE a speciality. CIGARS, TOBACCO, PICKLES, CANNED GOODS, WOOD, CHINA, GLASS, WILLOW and HARDWARE and HATS and a very large stock of MEN'S SHOES. Fine veal CALF SHOES for $1.50, HOSIERY, GENTS FURNISHING GOODS, DRESS GOODS, MUSLINS, CHEVIOTS, COTTONADES, BLUE and WHITE FLANNELS, OVERALLS, JUMPERS, GINGHAMS and TURKISH TOWELS.

Pool Room.

The pool room over the NEWS office is open at all hours. The public who are fond of the sport are invited to call when in town.

TROY & COLLEY'S
DRUG ROOMS.

The drug trade in this county is having a boom. Prices are just now in a very unsettled state, however, have you heard of the

Devil Among Drugs?

If you have not, then you do not hear noises. A troop of forty cackling hens makes divine music compared with the noise we have created among the druggists by selling goods at reasonable figures. We go serenely along however, with cotton in our ears, selling the best the market affords at prices before unheard of.

Our Paint Room

is filled with the best selected and largest stock of Paints and Oils in the county, among which we find copper paint for painting vessels, Gloss Stains for staining and varnishing furniture at one application. Top Dressing for carriages, &c.

Our one cost carriage paint requires no varnish and makes an old carriage look as good as new for only 65 cents. We have Ready Mixed Paint in all colors by the pint barrel or gallon. We have all colors in pound cans ready for painting at 10 cents per can.

All Patent Medicine at Reduced Rates.

Warner's Kidney Cure....85c.
August Flower.....55c.
Pond's Extract.....40c.
Brown's Iron Bitters....85c.
&c. &c. &c. &c. &c. &c. &c. &c.

Extract Lemon 4c. per ounce, Vanilla 5 c., Landanum 8 c., Paregoric 5 c., Sewing Machine Oil 3 c., &c., &c.

Our Business has Grown so Rapidly

as to necessitate larger quarters and in the next few days. We expect to occupy and fill the largest and finest Drug Store in Queen Anne's county.

Troy & Colley's
DRUG ROOMS,
Harman Building,
CENTREVILLE, MD.

An Opportunity for the People of Queenstown.

In Baltimore one of the most rapidly growing enterprises of the last few years, and one of the most appreciated as well has been the Instalment Business. Its great advantage and benefits especially to the medium and poorer classes, cannot be overestimated. Formerly people in ordinary circumstances were compelled to do without a great many necessary comforts of life; that is, their houses were scantily furnished, and only because they could not at anytime raise sufficient cash money to properly furnish them. What little furniture they had, was of the poorest and cheapest class and never made a respectable appearance, or gave any satisfaction. Now on the Installment Plan any honest person, no matter what his or her circumstances are, no matter how poor or how rich, can get anything in the way of Furniture, Carpets, Stoves, Crockery, Refrigerators, Baby Carriages, Parlor Organs, etc., in fact any or everything necessary to furnish the Home complete from cellar to attic,—they can get all these by simple paying a small amount cash down and the balance on small monthly payments, which are made to suit their circumstances and are always made so low that the money will hardly be missed. This plan has become so popular in all the larger cities that over two-thirds of all the people now purchase their household goods that way;—in fact all excepting the extreme wealthy classes. Now the People of Queenstown never have had this opportunity offered them, so the Peoples' Instalment Company 119 and 119½ N. Howard Street, between Fayette and Lexington Sts., Baltimore, the largest and best conducted and most reliable Installment house in Baltimore, have resident of Queenstown or immediate vicinity, the same advantage as the people of Baltimore now enjoy;—that is to sell them anything which they may desire to have on the Installment Plan at lowest cash prices and make terms of payments low enough to suit any one's convenience. This House not only sells everything in the way of Furniture, Carpets, Stoves, Refrigerators, Baby Carriages, Crockery, Cultery, House Furnishing Goods, Parlor Organs, etc., but also carries a complete stock of Silks, Veivets, Foreign and Domestic Dress Goods, Ladies Clocks and Wraps, Millinery, Gents', Youths', Boys' and Childrens', Shoes, Hats, Watches, Jewelry, etc.;—In fact they are general outfitters and are the only House in Baltimore where wearing apparel as well as furniture too, can be bought on the Installment Plan at Cash Prices and very easy terms of payment. This House will always be glad to have the people of Queenstown call on them whether they intend purchasing or not, will be glad to have them look through their immense Warehouse and get full particulars regarding Terms etc. Any information desired by mail will be promptly furnished.

DR. REINHARD, 1308 VINE ST., Phila., Pa. Hours, 9 to 9.
