THE EASTON STAR DISSATISFIED.—The Star of last Tuesday appears to be very much dissatisfied at our notice of Governor Hick's message, and thinks we treated it rather coolly, by not giving it a more extensive notice. We did not suppose our article or the Governor's inaugural to suit the taste of the Star, and that paper did not enter our mind when putting the notice of the message in type. Nor shall we make the least endeavor to make our articles agreeable to that paper—if our patrons and the public generally are satisfied with our brief notices, we shall rest satisfied. A message that requires so much notice from the press to give it notoriety, must be a poor concern, and entirely unfit to compare with that of Gov. Hick's.

It is always our intention to be brief in our articles. Not relying upon the importance of our own ideas or science to give our opinion as our neighbor—we had much rather that people should see for themselves. As for the old stereotyped song which the Star loves to sing so well—that Gov. Hick's election is favorable to the abolition party—has about as much weight on the minds of the people as a feather in a whirlwind. Gov. Hicks, in speaking of the repeal of the Missouri Compromise, but speaks the sentiments of thousands—East, West, North and South—that it only agitated the slavery question, a question, the agitation of which, has done more injury to this country than all others combined. And that the true and patriotic statesman of the land who effected that compromise was as capable of judging of its Constitutionality or otherwise, as any of the talent of our day. It is invariably the case of the democracy when all other efforts fail, to stir up an excitement over something, and the slavery question being a good subject, they are constantly adding fuel to its flames by the agitation of the question.

It is impossible for the democratic or any other party to force their measures upon another; it is against all laws governing human nature to be driven into measures—whether right or wrong. There must be a feeling different from hostility and enmity before two parties can come to agreeable measures.—The democratic party is dividing and lessening every day, and may the day be not far distant when American principles shall be spread broadcast over our land, and Maryland, with T. Holliday Hicks as her first American Governor, stand as the first monument of Americanism.

LONG CONFINEMENT.—The wife of Mr. James Hopkins, living at Easton Point, in this county, died a few weeks since, after a confinement, we understand, of some twenty years, to her room, and most of the time to her bed. Who can tell what this lady endured during that time—the anxiety of mind which every mother, rich or poor, with children growing up around them naturally goes through, and with her affections combined, must have borne doubly upon her? Not able to exercise that authority and take that care over her children which is generally the pride of a mother's heart, and whose finger points out the road of virtue and propriety. How few are they who set a proper estimate upon health. How few are they who properly appreciate the great privilege of mingling with the various scenes of life, and enjoying the beauty and grandeur of nature.

MONTGOMERY COUNTY INSURANCE COMPANY.—We see by a statement issued from the Company, shows up to the 1st inst., the Company to be in a flourishing condition. This statement was carefully made from the books of the Company, by a committee appointed for that purpose. The amount of property insured at this time, is $4,148,780. Amount of premium notes, $259,712. Losses by fire during the past year, $8,543.60. The surplus which the Company have on hand to meet liabilities is a sufficient guarantee of its safety. The amount of money in the treasury of the Company to meet its demands, $37,656.75. Mr. Robert Dixon, the agent of the Company for this county, will give all necessary information to those desiring to insure.

A BURGLAR SHOT BY A POLICE.—One morning this week, while officer Elliott, Baltimore, was making his round, saw a suspicious looking character lounging about, and on trying a number of store doors, found that of Messrs. Perry & Bro., unfastened, and on opening it discovered two men inside making extensive preparations for a removal of a large amount of goods. They on seeing the officer, attempted to make their escape, when he shot one of them in the back and another in the leg. Maguire, who was shot in the back, it is thought, cannot recover. The others made good their escape.

THE ANGORA GOATS.—These oriental animals, says the Patriot of Tuesday, selected by Mr. Brown, Consul General at Constantinople, and imported by Col. France and Dr. E. P. Boulden, of that city, and Mr. Brown, of Ohio, arrived in Baltimore on board the steamer Joseph Whitney, from Boston, together with two broad-tailed sheep, for Wm. McDonald, Esq. They are all in fine condition, and certainly very beautiful animals. They are valued at over one thousand dollars a pair, but not for sale, we believe, on any terms.

THANKS.—H. H. Goldsborough, Esq., of the House of Delegates, will please accept our thanks for a copy of Gov. Hick's Inaugural Address, and other important documents.

Also, Wm. B. Clark, Esq., for a copy of the Report of the Comptroller of the Treasury and other important papers.

Also to Edward Law Rodgers, Esq., of the House, for Legislative proceedings.

AMERICAN FARMER'S MAGAZINE.—We have received the January number of this useful Agricultural work. It is not only devoted to Agriculture, but gives other useful matter. Not only to the farmer, but to all. It is printed on good white paper, and has a bold clear print. It is edited and published by J. A. Nash, No. 7, Beekman street, New York, at $2 a year, in advance, for single copy, $1,50 to clubs of four or more.

TO CORRESPONDENTS.—A letter from "Adele G." will appear in our next. "Oh, would I were but a Laughing Boy again," by "Harry Grenville," and "Lines for the first page of an Album," by "Ion," poems, will also appear next week.

"A Sunset Thought," by "Rose," and a couple of poems by two little girls, will appear in their turn.

A CHALLENGE.—R. Ridgaway, Esq., editor of the Richmond Whig, sent the following challenge to Mr. O. Genuings Wise, on Saturday last. This challenge, we believe, grew out of remarks which the Whig contained, in reference to Gov. Wise, of Va., the father of O. Genuings Wise, causing a difficulty between the editor of the Whig and the last named. The following are the propositions of Mr. Ridgaway:

"I propose that you and I select only one friend each, and with one pair of pistols, we shall all meet in either your office or mine, at an hour to be hereafter designated—that after this meeting and the door being locked, you and I shall be securely blind-folded—that then the seconds shall hand one of the pistols and leave the other unloaded—that they shall next determine by lot the choice of the pistols—that the pistols shall then be handed to us, and that yours shall be placed directly against my breast, and mine against yours—that next and finally, at the giving of the word, we shall both pull trigger, and let the consequences take care of themselves."

Mr. Wise declined, but agreed to fight according to the code of honor. They have both been held to bail in $3,000 each to prevent further personal hostilities.

"SMALL POX IN THE PENITENTIARY."—This virulent disease, says the Baltimore Sun, has found its way in the Penitentiary, in that city, and already about a dozen cases have occurred, two of which proved fatal. One of the fatal cases was a convict from Frederick, who was imprisoned for life, his sentence of death having been commuted. It was introduced by a colored man who was sent there about four weeks ago.

"THE DAILY EXCHANGE."—We have received the prospects of a paper, about to be started in the city of Baltimore, of the above name, which will be devoted to news, commerce, politics, literature and art. Messrs. Chas. G. Kerr, formerly of this town, Thos. W. Hall, Jr., and Chas. E. Phelps, Editors and proprietors. Mailed to subscribers out of the city at $6 per annum.

THE OHIO DEFAULTER.—Breslin, the defaulting State Treasurer of Ohio, says the Cincinnati Gazette, is a great brick in Hamilton, C. W., where he now resides. He has recently purchased a church in that city for $8,000, but whether he intends to devote the remainder of his life to repentance, or intends converting it into a theatre, our informant is uncertain.

SMALL POX IN EASTON.—The small pox, we are glad to say, appears to be at a stopping point in our town. We have had no new cases for several weeks. There have been but three in all. The first has recovered sometime since, and the two last, we believe are doing well—one of them having nearly entirely recovered.

OUR CHAPEL SUBSCRIBERS.—Our Chapel package will hereafter be sent to the post office at Chapel, for distribution. If there be any who have not heretofore had their papers sent in the package, that would like to have it done, will please let us know.

NOMINATED.—At a caucus of the American members of the two Houses of the General Assembly of Maryland, on Monday last, Messrs. John H. Harriss, of this, and Purnell Toadvine of Somerset county, were nominated State Directors of the Easton Bank.

MARYLAND LEGISLATURE.—This body appears to be losing no time, and no doubt will be a profitable session to the people. There are several bills of great importance which the people on this side of the Bay are anxious to know the termination of.

THE MESSENGER.—We have received the first number of a paper bearing this title, published in Georgetown, Del., by D. Dodd. We are in hopes he may succeed in his enterprise.

CONGRESS.—Nothing of interest to our readers is transpiring in Congress. The most of the time being taken up in the case of Com. Paulding, the Kansas question, &c.

DR. C. S. BURNETT.—Mr. Chas. E. Carey, from New York, who has for some time past been under the treatment of Dr. Burnett, for Scrofula, is making a Southern tour. He arrived in Easton a few days since, and will, if applied to, give all necessary information in regard to the usage of the medicine, &c. This medicine, from what we can learn is doing great good for suffering humanity, in the cure of consumption, asthma bronchitis, &c. We should judge from the marks upon Mr. Carey that this medicine has performed wonders for him in the cure of Scrofula. See his card in another column.

FORT LEAVENWORTH, K. T.
January 13th, 1858.

MR. EDITOR:—In the absence of your Leavenworth city correspondent, and presuming that many of your readers feel more or less interested in the affairs of "Bleeding Kansas," I take the liberty of making a faint attempt to fill the above worthy's place, who is now probably not far from the neighborhood of the Gazette office, enjoying all the luxuries of home society. A happy time to him, I can but envy him.

The election for state officers went off quietly throughout the Territory, no doubt through the influence of Uncle Sam's gentlemen of livery, who were stationed everywhere that a difficulty was most likely to occur. In Leavenworth city a "big row" was anticipated, and they were consequently honored by the presence of a battery at the upper end of Main street, on a hill that commanded the entire street, besides several companies stationed at the polls and in different parts of the town. I anticipated that the next act in the farce of "Bleeding Kansas" will be the calling upon the neighboring savages to quell the turbulent spirits of civilization. After the calling in of the troops from Leavenworth and Kickapoo, a sensation was gotten up immediately, from the following cause. Shortly after the closing of the polls in the former town, news came in that Kickapoo precinct, which contains some 500 voters had given a democratic majority of about 1000, and upon the news being confirmed on the following morning, a party of those very benevolent sons of "Faderland" who came over here to enlighten this ignorant people and make laws to govern them, started for the scene of the fraud, intending to take the ballot-box by force, and scatter its contents to the winds, but finding that small but loud speaking piece of mechanism well taken care off, they heroically charged upon a defenceless cannon, that formerly figured so conspicuously with the Kickapoo Rangers during the "war," took it by storm and marched it in triumph into Leavenworth, where they were met by a few of Sam's minions, who congratulated and rejoiced with them upon the great success. About this time Jim Lane himself arrived in town, who, with all the ardor of a Major General of Kansas Militia, organized a company (to put down the rising mob? No!) to protect the cannon against the Kickapoo Rangers, whom they were hourly expecting to come to its rescue. Guards and Picket Guards were placed all around the town, and as soon as night set in, the cannon was secretly taken off and hid. And now I will relate a circumstance which will give you an idea of the state of feeling here. Two gentlemen, residing in the country, started, a little after night fall, from town to go home in a buggy. In passing the line, they were hailed by two of the Picket Guard, who demanded the countersign, which was very politely given in the words "go to h—ll," upon the communication of which, one of the guards fired his piece, which was no sooner done, than the Colt's of the two gentlemen were relieved of some ten or twelve balls in quick succession, which so frightened the valorous Picket Guards, that they run with all speed, first to the camp of the 3d Artillery, when they told that they were fired upon by a large body of Missourians who were coming down to take the town, but the commanding officer paying no attention to their story, they started for town, spreading the news that seven thousand Missourians were coming, and that they had been fired upon by a detachment from the main body. This had the desired effect. The Catholic bell commenced tolling and continued all night. Hotel Gongs sounded. Dinner bells rung, Guns were fired, Women run about the streets from neighbor to neighbor, frightened half to death. Jim Lane got a crowd together in Market Hall where he used up the vocabulary of American curses upon every one that was not an abolitionist, after which he formed a company of some five hundred men to meet the Missourians. In the meantime a man was mortally stabbed with a bowie knife, which increased the excitement and more intense alarm you could not easily conceive of. And what made the scene the more appalling was the dense darkness that pervaded it, which together with the dozen shots fired at, and the imagination of the Picket Guard, first gave rise to it. Thus you see how small oaks from little acorns grow," in this great territory. The Missourians were in the meantime sleeping soundly perhaps on their own side of the River. The excitement has been kept up, however, and there is no telling when it will go down.

The Free State party, which is nine tenths of the people of the Territory, are a compact body, and as they say, ready for any emergency and determined to have justice. The *villainous* part of their work is done by the dutch, who boast of their intentions to Germanize Kansas. That there were frauds of the grossest nature committed by the Democratic party there can be no doubt, and until such frauds are prevented, there will be no peace to the Territory, whether the Lecompton Constitution be admitted or not. Several arrests have been made for encouraging fraudulent voting, among which Gen. Calhoun and Hendrickson, former editor of the Journal, are said to figure. The reports that have come in favor a Democratic majority in the Territory. If you would like it, I will report the official vote, as soon as it comes in.

BAY HUNDRED.

WASHINGTON ITEMS.—Official and other intelligence received by the President and the War Department proves Brigham Young's purposes to be hostile. It is believed that he can muster 8,000 men.—Extensive ramifications of organized Mormonism have been discovered in Texas and California, embracing men holding responsible position. No apprehension is felt here, however, as the result of the conflict.

A strong opposition, it is said will be developed in the Senate to the confirmation of Governor Wright, of Indiana, as Minister to Berlin. The ostensible ground of opposition will be his unfitness for office, but the real ground will be because he is understood to be a friend of Senator Douglas.

Up to Saturday there had been issued from the Treasury Department 218 Treasury notes, of the denomination of $1 000, and 119 notes, of the denomination of $500 have been issued to satisfy land warrants. We also learn that 288 of the $1,000 notes and 123 of $500 notes, have been taken up on exchange of private individuals. Army and Navy warrants to the amount of $2,500,000 are now on the Treasurer's table, to satisfy which Treasury notes will have to be employed. It is estimated that by the end of this week, notes to the amount of $3 000,000 will have been issued.

The Government of Peru has paid $40,000 to the Government for the benefit of the sufferers by the outrage at the Chincha Islands, when several American Captains were pushed with bayonets over the side of a Peruvian frigate into the sea.

The Washington correspondent of the Philadelphia Press says:

In the case of Brooks against Davis, the Election Committee were divided as to whether the contestant was included in the law of 1851, and should proceed to take testimony in this contest with the sitting members at his own expense, having disclaimed any claim to the seat, and avowed his aim to be the purity of the ballot-box in the district of which he was a voter. The House will be called upon to decide on the course to be pursed by the Committee in this peculiar case.

"FUGITIVE SLAVES" AT THE NORTH."—The northern people seem, at last, to be arriving at the conclusion that they have too frequently been made the dupes of pretended 'fugitive slaves.' Hear the New York Tribune, which has so long been eagerly swallowing every ridiculous story set afloat by fugitive slaves. It says:

"The trade or profession of a fugitive from slavery has proved so lucrative that quite a number of black and copper colored scoundrels are prosecuting it on speculation, some of them (we think in partnership with white villains, who corroborate their lies and share their gains. We very often receive letters narrating the arrival in this or that northern neighborhood of an alleged fugitive, who tells long and startling yarns about his escape from bondage in some heroic or wonderful way, his arrival in this city, what was said to and done for him here by so and so, &c.—much of which we happen to know to be utterly false.—One of these black vagabonds has pretended in various places to have been the slave of the Hon. John B. Thompson, U. S. Senator from Kentucky, and has sometimes added that he was a left-handed son or nephew of that Senator.

News Items.

SUICIDAL ACCIDENT.—On Saturday last, two men stopped at the house of James M. Insley, near Millord, and while sitting in the house, Solomon Wright, a lad thirteen years old, who lived with Mr. Insley, got hold of a jug containing whiskey, which the visitors had left in the yard, and drank so much of it that he died in two hours.—After staying in the house about half an hour the men arose to depart, when they found the boy on the ground vomiting severely and nearly speechless. He only spoke once, and this was a negative answer to the question, "Did you drink the whiskey?" It was estimated that he drank three pints.—*News.*

DIFFICULTY AT EMMITTSBURG.—The students of Mount St. Mary's College, at Emmittsburg, Md., had some difficulty with the officers and managers of the institution a few days since, which could not be settled to the satisfaction of "Young America," and between sixty and seventy of the oldest students signed a "declaration" and left for their various homes in Maryland, Pennsylvania, Texas, Cuba and other distant points.

EXHIBITION OF THE DEAF, DUMB AND BLIND.—The first exhibition of the deaf, dumb and blind, which took place at Washington on the 21st, was attended by an immense concourse of citizens. It was held in the old Hall of Representatives, the Hon. Amos Kendall, president of the institution presiding. A very feeling and interesting address was delivered by Mr. Galladet, the intelligent superintendent. The pupils were conducted by the clerk to the desk, where various exercises in writing, composition and instrumental and vocal music were performed, in which they were exceedingly proficient. Readings by the blind were very accurate—of course done by the touch.

A little daughter of Mr. L. Coursey, near Boonsboro, Caroline county, Md., was burned to death on the 22d ult., by her clothes taking fire.

THE CASE OF THOMAS W. SMITH.—The application of Miss Smith for the possession of her brother, Thomas Washington Smith, recently cleared, in Philadelphia, of the charge of murder on the ground of insanity, was argued before the court this morning. Medical testimony was adduced showing that his confinement in a lunatic asylum would result in his speedy death, while the careful attention of his friends would restore him to health. The court decided to give him to his sister, meanwhile placing him under bonds to the amount of $5,000. He will be taken to New Castle county, Del.

LYNCH LAW IN INDIANA.—Two men, who had attempted the robbery of a store at Legamer, Indiana, were caught in the act and the mob that assembled hung them up. They, were, however, cut down before life was extinct, and the people, by a small majority, decided to deliver them up to the authorities for trial. They have been taken to Indianapolis.

☞The Catholic Mirror—a paper published in Baltimore, and which is exclusively devoted to the interests of the Catholic church—contains a calm, well-written review of the late annual Message of His Honor Mayor Swann. The writer appears to have taken an unprejudiced view of that able document, and concludes by stating that "The Message is temperate in tone and remarkably well written, showing a vast improvement on His Honor's earlier efforts of the kind, and exhibiting an official style which might be advantageously imitated at Washington." The opinion expressed by the editor of the Mirror appears to be the one entertained by every citizen who has read the document.

DEALING WITH NEGROES.—The citizens of Queen Anne's and Prince George's county, have taken strong ground against illegal traffick with negroes. A series of public meetings have been held, appropriate resolutions passed; and a formidable committee of vigilance formed for the better protection of themselves and surrounding communities.

PRIVATE SECRETARY TO THE GOVERNOR.—The Annapolis Gazette says it is understood that Richard D. Sellman, Esq., of that county, will be appointed private secretary to Gov. Hicks.

EXECUTION OF JOHN GOINGS.—The execution of John Goings, free negro, for the murder of Mrs. Stewart, took place on Friday week last, about a mile from Princess Anne, Md.

ROBBERY OF THE NATIONAL BANK.—The National Bank, in New York, has been robbed of a package containing $26,000, which was taken off the counter. Two men have been arrested on suspicion, and a small amount in the bills of the bank was found in their possession.

COMMUTATION OF SENTENCE OF DEATH.—Governor King has commuted the sentence of death upon the lad Cummings, convicted of the murder of Stumpf, a German, in conformity with the unanimous desire of the citizens of Albany.

GREAT SALE OF SLAVES.—Probably the largest sale of slaves ever made in Virginia lately took place in Brunswick county.—Ninety-six, of all ages, sizes and conditions, were sold at the unprecedented aggregate of about $75,000.

☞The banks at Savannah, Ga., are said to be taking measures for an immediate resumption of specie payments.

THE special committee of the Senate appointed to contract for and procure a painting for the use of the Senate Chamber, illustrating the Surrender of George Washington of his Commission as Commander-in-Chief of the Army of the American Revolution, makes the following report:

"After having visited the studios of a number of artists and examined their works, and after having given the subject the most mature consideration, they employed Mr. Edwin White, of the city of New York, and entered into a contract with him to execute and deliver the work to your committee on or about the 1st of January, 1859, upon the following terms, to wit:

"We agreed to pay him the sum of one thousand dollars upon the signing of the contract, the further sum of one thousand dollars on the first day of January, 1858, and the further sum of one thousand dollars when the said painting shall be finished and delivered. And in accordance with our contract, we have paid him the sum of two thousand dollars, and have still on hand in the Treasury the sum of one thousand dollars awaiting our order. We have also taken from Mr. White a guaranty of W. W. DeForest & Co., of the city of New York, that in the event of any circumstance occurring to prevent a delivery to the committee of the said painting, fully finished, by the first of January, eighteen hundred and fifty-nine, they will reinburse the committee the amount advanced.

"Your committee found it difficult to obtain the work from an artist of reputation and established fame for the sum heretofore appropriated for that purpose; and although we have contracted as above with Mr. White to execute and deliver to us the work, we pledged him, at the same time, to request of the General Assembly of Maryland the appropriation of an additional sum of three thousand dollars, as full compensation, and without which pledge he would not undertake the work; and in accordance with the pledge which we made, we now request your honorable body to appropriate the further sum of three thousand dollars, to be paid to the said White, in the event of his executing such a work as shall give entire satisfaction to your committee.

"JAS. WALLACE,
"S. OWINGS HOFFMAN."

TWO YANKEE LUXURIES.—An American traveler, writing from London to the Boston Transcript, says he misses two luxuries he had at home, viz: ice and hand-some women. As for beauty, he says London is the place to look for it.

"I have not seen since my arrival here one lady who would pass for a handsome woman in New York. I spent an hour or two the other afternoon in Hyde Park, where the fashionables 'most do congregate,' to drive and promenade, and was much disappointed in seeing such a common-looking assemblage. The horses and carriages were very fine."

In regard to ice he writes:

"American travellers suffer here for the want of ice, as it is not often to be had for love or money. The Wenham Lake ice is imported, not enough, however, to supply a hundredth part of the population, and to those who buy it use it to a very limited extent. The native ice is so dirty, that it is only used for freezing ice cream, &c., and it is seldom more than two inches thick."

INFLUENZA, AND COMMON COLD.—Like thieves in the silence of the night, have carried many to the silent grave.—They are caused by a sudden check of perspiration, by which the stomach is rendered inactive, and the lungs become loaded with corrupted matter, which enters the blood, and disease is the result. For all colds, coughs and chills, succeeded by heat, and for all fevers of every form, hoarseness and rawness of the throat, lungs and stomach, and for all weakness and sickness of every kind from three to five of these Pills on going to bed, for a few days, will be all that you require to restore you to perfect health. It has been admitted and claimed all over Europe, that there never "was a medicine, that will extripate all manner of disease from the system, equal to Dr. Morse's Indian Root Pills," that the more you take them, the stronger you grow. They are founded upon the principle that the human body is subject to, but one disease, namely corrupt humors. These Pills not only clease the bowels, but also follow the blood through every vein and artery, and so purify it from all morbid and corrupt humors, that disease of every name is driven from the body.

GREAT FEMALE MEDICINE.—Females who value health should never be without these Pills. It has been admitted by a number of physicians, that females cannot too highly value them. They have given health and spirits to hundreds of females who without them would have been in their graves. They purify the blood, remove obstructions, and give the skin a beautiful, clear, healthy, and interesting appearance. A box of these Pills is a great medical companion at certain periods. From one to three should be taken every day until relief is obtained. A few doses occasionally, when well, will keep the system in a healthy condition.

DISCHARGE OF ECKEL.—John C. Eckel, who was indicted in conjunction with Mrs. Cunningham, for the murder of Harvey Burdell, has been discharged. His counsel stated that all the circumstances attendant on that trial had tended to brighten the innocence of Mr. Eckel. He hoped that the order of this Court would restore Mr. E. to the confidence of the community, or place him in the same condition—as far as possible—as he stood before the murder had been committed. The order was then entered for a NOL. PROS. and for the discharge of the recognizances.

NOTICE.

ALL persons who gave notes at the sale of the late Ephraim McQuay's property, in May, are hereby reminded that they became due on the 15th November last, and as yet not enough on all the indebtedness to pay the preferred debts has been paid in.

Disliking suits, or even to menace with a suit, it is to be hoped that those indebted will come up and settle at once, whether mere note of open account, for it may, in self defence, be necessary, in default thereof, to have a talk with the man in the "White House" before May court.

Selling Out to Close.

HAVING bought the store where I now am more on speculation than with a view to its continuance, and finding it inconvenient to attend properly to my farming interests in connexion therewith, I have made arrangements to sell out and close business on the first day of April next.

AND NOW FOR BARGAINS.

Any thing I may have in store I will sell very low for the next 60 days, and many things at cost.

MONEY SAVED IS MONEY MADE.

If you believe in the doctrine come up and be an active energetic believer. I have about $1500 worth of Boots and Shoes to dispose of by retail, package or case.

All down in price to suit the stringent times—
Call in and bring along the Ready Dimes;
Young Cattle, corn or wheat will either do,
Or if a paying man, it would afford
Me much pleasure to credit you.

Also about 400 dollars worth of choice Liquors, by the bbl., and many other things too tedious to enumerate.

THE REV. C. S. BURNETT, while labouring as a Missionary in Southern Asia, discovered a simple and certain Cure for *Consumption, Asthma, Bronchitis, Coughs, Colds, Nervous Debility*, and all impurities of the *Blood*; also an easy and effectual mode of Inhaling the *Remedy*. Actuated by a desire to benefit his suffering fellows, he will cheerfully send the Recipe (free) to such as desire it, with full and explicit directions for preparing and successfully using the Medicine. A CARD.

THE REV. C. S. BURNETT, of 831 Broadway, New York, would respectfully announce to the citizens of this place and vicinity, and especially those afflicted with any Disease of the Throat or Lungs, Scrofula, Nervous Debility, &c., that Mr. Chas. E. Carey, a patient now under his treatment, who is about taking a short Southern tour, has kindly consented to carry with him a small supply of the Syrup of Cannabis Sativa, Inhalers, Inhaling Mixture, &c., (by which he has himself been cured,) for the benefit of Mr. Burnett's Southern friends, who find it difficult and expensive to send to New York for the same.

Mr. Carey will remain at the Union Hotel in this place 7 days, where he will be happy to see and converse with any and all that may be pleased to give him a call, and will present them with my Receipe for the cure of Scrofula, Consumption, Asthma, Bronchitis, Nervous Debility, &c., (*free*) with full instructions for use; also to supply such as may desire it, with the Medicine as prepared by myself, with the Inhaler, Inhaling Mixture, and all the necessaries for successful treatment.

Persons afflicted with any of the diseases as above, are earnestly requested to call and see Mr. Carey while in town. It will cost nothing. He will cheerfully present them with a Recipe, &c., free; give some useful instructions in the use of the Inhaler, &c., and the visit may prove a blessing.

Very Respectfully, C. S. BURNETT.
