☞ Accounts of over six months standing are chargeable with the usual interest.

☞ Books received by mail will be promptly noticed under the editorial head.

VICE PRESIDENT BRECKENRIDGE ON THE STUMP.—For a vice President to be making stump speeches, looks quite different from the dignified and quiet manner which others have filled that office. Mr. Breckenridge's first effort was made a few days ago at Florence, Kentucky, where he addressed a democratic county meeting. Well may it be said that the democracy control the country—for they certainly do, and it is likely they will do so while they have the public treasury to finger. Look a minute at the way Jas. Buchanan and his Cabinet flourish. The first year of his Administration cost *Eighty-one millions of Dollars.* And now to commence the sports of another year, Secretary Cobb is off upon a pleasure excursion in the Harriett Lane, Secretary Thomson has gone to Mississippi, Post Master General Brown is on a visit to Tennessee, Attorney General Black is said to be at Bedford Springs, Secretary Floyd has left for Cincinnati, President Buchanan is at Bedford Springs, and vice President Breckenridge is *stump speeching* in Kentucky. That's a picture to look at.

To use the language of a cotemporary, "it must be a desperate condition of affairs indeed—a herd struggle with expiring Democracy—when a high functionary, next in position to the Chief Magistrate himself, sinks into the category of itinerant stump orators and thus labors with pointed partiality to sustain partial measures, when duty requires him to be impartial and free entirely from interference in political matters. If a vice President can so far overreach boundaries of dignity, so also may the President, when by courtesies of Democracy we should have James Buchanan stumping the United States, heralding his peculiar doctrines in eighteen hundred and sixty.

NEGROES CAPTURED.—The negroes that absconded from Dorchester a few days since have been captured and returned to Cambridge, with a white man, who assisted them in getting off. When they arrived at the wharf a large crowd was ready to receive them, and had it not been that the citizens of Dorchester have a love for law and order, they might have used the white man with rough hands.

In the evening of the same day a meeting of the citizens was held in the Court House, and the *Eagle* says: "On motion John R. Keene, Esq., was called to the chair, and Dr. H. G. Grieves appointed Secretary. The object of the meeting having been stated, able and eloquent addresses were delivered by F. W. Thomas, Esq., Dr. Francis P. Phelps, Dr. Alexander H. Bayly, Hon. James A. Stewart, Joseph H. Tarr, Esq., of Caroline county, Elias Griswold, Esq., Daniel M. Henry, Esq., Hon. James Wallace, and Charles F. Goldsborough, Esq., after which the following resolutions were unanimously adopted:

Resolved, That the thanks of the meeting are due, and are hereby tendered to Messrs. Tarr, Knotts, Wicks, and other gentlemen of Caroline county, and to Mr. William H. Grace and Samuel R. Vinton, of this county, for their efficient services in returning to the county the slaves recently escaped from us, together with their white abductor.

Resolved, That a committee to consist of twenty be appointed to prepare subject matter, and frame resolutions to be submitted to the consideration of the people of the county, on Monday next, the 9th inst.

Origin of the Republican Party.

The Providence Journal states that "the New York papers are disputing over the past history of the Republican party, and quarelling whether this man or that is entitled to the credit of its origin."

The same journal asserts that—

"The Republican party owes its origin to none of its friends. It was forced into existence by the sectional course of the Democracy, by the violation of the plain, most solemn compacts, and by persistence in a policy which was hostile to the free States from their equal government, and making them provinces ruled by a faction Democratic authority, 'a nest of fire-eaters in the Gulf States.'"

CHESTER COURT.—The Court of Queen Anne's county, which was to have assembled at Cambridge on Monday last, is further postponed until next Monday, in consequence of the prosecutor of that county, the Clerk and others engaged in the Willson trial.

AMERICAN FARMER.—This old and well known work is on our table. It appears to be determined to keep its old and favorable character.

FREDERICK FEMALE SEMINARY.—In another column will be found an advertisement from H. Winchester, principal of the above Institution. This institution is about to take the lead of any other Institute in this section of country, for the education of young Ladies. Its managers and instructors are gentlemen of fine education, the Institute building and all the other apartments, are, we understand, fitted up in the most tasteful style, and everything that is calculated to impart pleasure and happiness to the pupils, at the same time receiving a thorough education, has been sought for by its managers, and no doubt their labors will be liberally rewarded.

We cannot close this notice without a word in reference to H. Winchester, the President of the Institution. He appears to be a man calculated to advance any cause that he may take hold of. He advertises more liberally than the principal of any other similar Institution that we know of.—And this, doubtless, is the principal means of its success. We often receive circulars from other Institutions to be noticed editorially, but with a few exceptions no advertisement. It is impossible for an enterprise of any kind to succeed without publishing their desires and intentions to the world. Let all advertise extensively and and they may soon make some show with the Frederick Institute.

VALLEY FEMALE INSTITUTE.—We have received the fourth annual catalogue of this Institution, located at Winchester, Va.—The examining committee represent it as in a most flourishing condition, adding a number of pupils every year since it first commenced, in 1854, under the superintency of Messrs. York and La Mont.

AMERICAN AGRICULTURIST.—We have received the August number of this valuable Agricultural work. Every number is full of interesting matter to all. Its publishers will please accept our thanks for a package of Turnip seed.

Local Items.

RAIN.—We were visited on Tuesday night last with a copious shower of rain.

BANK ELECTION.—The Stock Holders of the Easton Bank, held an election at the Banking house on Tuesday last for Directors to serve for the ensuing year. The following gentlemen, that were in, were again chosen: Samuel Hambleton, Nicholas Orem, Jas. Parrott, Jos. H. Harrison, H. H. Goldsborough, Isaac L. Adkins, M. M. Dawson, Jas. Dixon, Chas. F. Goldsborough.

The State Directors are—Purnell Toadvine, Jno. H. Harris.

COURT.—The evidence in the case of Solmon T. Willson, which for the last fourteen days has been before our Court, was brought to a close yesterday, and this morning the argument in the case will be opened by the State. If all of the lawyers speak that are engaged in the case, six in number, we presume it will occupy four or five days more.

"SCENE IN THE JERSEYS."—This beautiful picture, drawn by A. P. Jump, of our town, at the last award of premiums of the Cosmopolitan Art Association has arrived. It is a fine oil painting, and calculated to add to the appearance and beautify any parlor.

IMPROVEMENT.—We observe that H. H. Goldsborough, Esq., is thoroughly repairing and building an addition to each end of the old Brick Row, at the extreme southern end of Washington Street, thereby making two comfortable dwellings.

MAIL FAILURE.—As we did not get our Baltimore papers to-day, we are unable to give the latest news. It is the most singular thing and a very great annoyance that these irregularities in the Baltimore mail continue to occur.

NEW WHEAT.—We have received from Mr. Theodore P. Harrison, a sample of wheat called "Pig" wheat. It is a very good grain, and looks remarkably clean.

[Reported for the Easton Gazette.]

PROCEEDINGS OF THE EASTERN SHORE MINISTERIUM OF THE M. P. CHURCH.

This association of ministers assembled in Centreville on Tuesday, the 27th ult.

Rev. D. W. Bates was chosen President and Rev. W. W. Reese, Secretary. The President proceeded to open the exercises by reading the Scriptures, singing a hymn and prayer. Each member proceeded then to read the hymn—and the sketch upon the text of scripture—assigned at the last session of the ministerium. Severe but friendly criticisms were passed upon the reading of the hymns and the manner of treating texts.

An essay was read by Rev. B. F. Brown on "Religion." Very able and interesting.

Rev. D. A. Shermer read an essay on "Pastoral Visitation." By a unanimous vote of the association he was requested to forward his essay to the editor of the Methodist Protestant for publication.

The following subject was discussed—"Should Baptism as performed by Roman Catholic Priests be acknowledged by protestants as valid christian Baptism?" Reverends E. J. Drinkhouse, Benson and Shermer discussed the affirmative and Reverends B. F. Brown, Daniel Bowers, D. W. Bates and H. P. Jordon the negative. Reverends Messrs. Talbot and Thompson of the Philadelphia Conference of the M. E. Church were introduced and invited to participate in the exercises of the ministerium. A committee was appointed consisting of Reverends D. A. Shermer, B. F. Brown and D. Bowers to assign Hymns and texts to be read and sketched at the next session of the body.

The questions for discussion at the next session of the association are as follows:

1st. Is man in the sense absolute totally depraved?

2d. What is the best mode of Juvenile instruction.

The session lasted three days, meetings being held morning and afternoon and were attended by a number of spectators.

The ministerium adjourned to meet in Easton in October next.

D. W. BATES, Pres't.
W. W. REESE, Sec'y.

"The last Legislature squandered $50,000 of the people's money to enlarge the State capitol, when there was not the least necessity for it; and some fifteen or twenty members are now receiving four dollars a day, and will in all probability continue that game till the next Legislature. Every day since the adjournment, these gentlemen have been drawing the people's money from the State Treasury at the rate of $60 or $80 a day."—*Maryland Union.*

All is not Gold that Glitters.

As the above has been extensively published by Democratic papers, we think it proper to copy a few remarks from a letter which we find in the *Cecil Whig*, nailing it to the counter as a falsehood. The *Cecil Democrat* and others of its kind put it forth as most reliable, when the *Whig* correspondent challenges the *Union* for proof:

"The State House at Annapolis was built before the Revolution and the Halls of the two Houses of the Legislature are exactly the same size. The Senate Chamber has ample accommodations for its twenty-two members; but it has been a well known fact, for many years, (and no man knows it better than the editor of the Md. *Union*,) that the Hall of the House of Delegates is entirely too small to accommodate its seventy-four members, and numerous employees. About eighty men are cooped up in a little narrow room, so close together that a member wishing to change his seat, incommodes half a dozen others. This miserable want of room was so evident that two years ago Ex-Senator Merrick—then the Democratic leader in the House—introduced a Bill providing for the enlargement of the State House, the building of Fire Proof Record offices, Committee Rooms, &c. That Bill failed, but at the last Session an act was passed providing for the building of Fire Proof Record offices, seperate from the State House, (of which the Md. *Union* is singular oblivious,) the enlarging of the Hall of the House of Delegates, the State Library.

The House was composed of 44 Americans and 30 Democrats. Compare the strength of parties and any man can see how the Bill was passed. Let the editor of the Md. *Union* "*look at home*," and see his chosen friend and ally, Edward W. Belt, the great gun of the Western Maryland Locofocos, voting for this unnecessary expenditure," and let *The Cecil Democrat* man take a glance at the name of Milton Y. Kidd among the men who "squandered $50,000" of the people's money. No blame is given to these gentlemen by the writer of this article, but if there was money squandered, Messrs. Kidd and Belt and two thirds of the locofoco members of the House with them, were among the squanderers. By the testimony of the Maryland *Union* they are "squanderers of the peoples money." Let these locofoco editors "*look at home!*"

But the latter part of the extract quoted from the Maryland *Union* is by far the most entertaining and refreshing. Mr. Johnson gives his readers the pleasant piece of information that fifteen or twenty members of the late Legislature are men drawing their $4.00 per day regularly from the Treasury; that the people's money is now flying into their pockets at the rate of $80 per day.—The editor of the Maryland *Union* is a lawyer; some of his readers are probably well-informed men, and how he can possibly expect to make them believe such an arrant falsehood as this, is the perplexing thing. Had the statement come, originally, from *The Cecil Democrat*, it would have surprised no one and probably elicited no reply; but Mr. Bradley T. Johnson is of respectable standing and was late a candidate for a high office in the State—Comptroller of the Treasury—and *he* would be supposed to know the meaning of the following clause of Act. 3. Sec. 20, of the Constitution:

"No money shall be drawn from the Treasury of the State except in accordance with provision, made by law, and every such law shall distinctly specify the sum appropriated and the object to which it shall be applied."

Can the editor of the Maryland *Union* show any record of an appropriation made to pay "fifteen or twenty members $4 00 a day," after the adjournment? If not, why make such an assertion? The members of both Houses are paid by drafts on the Treasury, signed by the Chairman of the House Committee on Claims and countersigned by the Clerk. If a Committee on claims of the late House, is still in existence, these editors are the only parties in the State who know it; certainly no information would more surprise the late Chairman, Major Dail of "Old Dorset," than this startling revelation that $80,000 are now flying through his hands into the palms of twenty members of the late Legislature."

These assertions of the Maryland *Union* are being copied extensively in the Democratic papers as an instance of 'Know Nothing folly" and misrule. They forget the *one hundred millions* expended by the General Government during the past year and stoops to notice a little sum appropriated by the Legislature of Maryland for a work of necessity. They stoop to falsehood and charge the late Legislature with giving 20 men four dollars a day for two years. Of this last assertion, where are the proofs?—These editors are dared to show any act appropriating $4.00 a day to fifteen or twenty men," and the writer of this article dares them to publish the vote upon any Bill appropriating money for the benefit of any member of the late Legislature.

The expenses of the late Legislature were less, by several hundred dollars, than either of the two which preceded it, in spite of the calumny and abuse heaped upon it by men who had justice done them at its hands. Its members were a hard working, honest set of men and falsehood is but a poor resort wherewith to blacken their character for honesty. Let the facts and figures show for themselves. We have given them and challenge a denial. CECIL.

The yellow fever is reported to be raging to an unprecedented extent in Havana.

From the Balti. Patriot.

Old Land marks—Patriotic in 1819—Treason Now.

Old Records are Sometimes Exceedingly Unpleasant, Particularly when the Course of those Named has been very Tortuous.

In 1819, a public meeting was held in Lancaster, the home of James Buchanan.—The meeting was held on the 24th day of December, 1819. James Buchanan was chairman of the committee to draft resolutions, and is the author of the following:

Resolved, That the Representatives in Congress from this district be and they are hereby requested to use their utmost endeavors, as members of the National Legislature, *to prevent the existence of Slavery in any of the Territories or State which may be erected by Congress.*

Resolved, As the opinion of this meeting, that as the Legislature of this State will shortly be in session, it will be highly deserving their wisdom and patriotism to take into their early and most serious consideration the propriety of instructing our Representatives in the National Legislature to use the most zealous and strenuous exertions to *inhabit the existence of Slavery in any of the Territories or States which may hereafter be created by Congress;* and that the members of Assembly from this county be requested to embrace the earliest opportunity of bringing the subject before the House of the Legislature.

Resolved, That in the opinion of this meeting the members of Congress who, at last session, sustained the cause of *justice, humanity and patriotism, in opposing the introduction of Slavery into the State then endeavored to be formed out of Missouri Territory, are entitled to the warmest thanks of every friend of humanity.*

Resolved, That the proceedings of this meeting be published in the newspapers of this city.

JAMES BUCHANAN,
JAMES HOPKINS,
WILLIAM JENKINS.

The foregoing resolutions being read, were unanimously adopted; after which the meeting adjourned.

WALTER FRANKLIN, Chairman.
Attest: WM. JENKINS, Secretary.

Wonder if this is the same James Buchanan, President of the United States, who so strenuously urged the passage of the Lecompton swindle. We guess it is the same. Consistency is a Jewel, and no mistake.

A PRINTER AND HIS WIFE ON A TRAMP. An old man named William Wright, a printer, passed through the city a few days since in company with his wife, an old lady bound for Chicago, having walked the whole distance from Buffalo to Detroit. He is sixty-three and his wife is fifty-nine.—They have a son in Chicago, who sent them money with which to come to that city. Immediately after the receipt of the money, one of the aged couple was taken sick and the money was nearly all expended for doctor's fees before a recovery ensued sufficient to enable them to make the contemplated trip. They then started on foot from Buffalo, and walked through Canada, being aided once in a great while by a wagon ride. The old lady was as brisk as a cricket and very talkative. She said they only stopped to rest one day, and then she washed all day to pay for their lodging. Some folks would not call that rest. The old man said that he commenced his apprenticeship in 1800 and saw the first composition roller used in England. As they were unequal to the task of walking to Chicago, which they intended to do, a liberal contribution was made by the printers of the city, and a sum donated to them which sent them on their way rejoicing by railroad.—*Detroit Free Press.*

SMOTHERED IN A TRUNK.—A boy 10 years old, named George Prickner, the son of a German widow, residing on Dodworth street, near Broadway suddenly disappeared on Friday last, and missing until yesterday morning, when his dead body was found in a large trunk or chest in the house of his mother. Coroner Redding was called to hold an inquest, and from the testimony taken, it appears that on Friday, while the mother was absent the deceased was at play with a companion, and evidently got into the trunk to conceal himself when a self adjusting lock closed the lid upon him and he was smothered. During Saturday and Sunday the friends and neighbors looked in every direction to find the boy but without success. Yesterday morning the mother was induced to open the chest by a strong smell which seemed to emanate from it, expecting to find the body of a rat, but to her astonishment she found the body of her missing son. The Jury rendered a verdict of death from accidental suffocation.—*New York Times.*

THE NIAGARA AND THE AGAMEMNON—THEN AND NOW.—The London Times, while the Atlantic telegraph cable was being shipped on board the Niagara and the Agamemnon, ridiculed, with some asperity, the shape and sailing qualities of the Niagara. The storm they both met in mid-Atlantic, which the Niagara rode out so easily and the Agamemnon with so much difficulty and danger, settled the question of their respective merits. In reviewing the results of the recent expedition, the Times makes the following *amenne honorable* for its unjust depreciation of the Niagara:

"On the whole, we are of opinion that there never will be a fair trial till it is made with a ship as carefully adapted to the purpose as the cable itself. It is mere child's play to use such ships as the Agamemnon and we feel it somewhat derogatory to the national credit that we should have permitted the Amesicans, out of their small navy, to contribute a vessel 2,000 tons larger than ours, and evidently much better fitted for the work.

ORDER IN NEW ORLEANS.—New Orleans papers speak very encouragingly of the improved condition of the city government. The Picayune of the 22d inst., says:

Eighteen days have elapsed since the new police force, as organized under the present Chief, has been in charge of the peace and order of the city. The result is quite encouraging to the public. Of late, no outrage has been committed without the arrest of the perpetrators, and petty offenders have rarely escaped.

In those quarters of the city where the terbulent, in former times, congregated at night, comparative order and quiet prevails.

A WESTERN CITY.—Not four years since according to the Leavenworth Times, the first house was built in that place. Yet at this time they have nearly 1300 houses within their bounds, and a large number in process of building, or yet to be erected ere the season closes. It is a little over three years since the population was estimated at one hundred! Now, it is at least eight thousand! It has nine hotels, thirty-two grocery stores, eleven banking houses, twenty-two dry goods do., twenty-three clothing stores and thirteen tailoring establishments, besides other stores for every variety of goods, to the number of about one hundred and twenty five, four daily and four weekly papers, twenty-two real estate offices, seventy-nine lawyers, thirty-eight doctors. &c., &c.

"A Henry Clay Whig," in the Richmond Whig, proposes J. J. Crittenden, of Kentucky, for President, and Robert C. Winthrop, of Massachusetts, for Vice President, and says he believes that such a ticket would commend itself to all conservative minds, and by its political wisdom, statesmanship, and patriotism rally to its support the Union-loving men from Maine to California, and that it would sweep the field, in spite of Abolition-Republicanism, and Republican Locofocoism.

DEATH OF GEN. GAITHER.—A dispatch from Berkley (Va.) Spring, announces the death in that place, on Monday morning last, of General William Lingan Gaither, late of Montgomery county, Maryland.—General Gaither was well known in this State as a prominent politician. He represented his county for several years in the House of Delegates, and at present was a member of the State Senate. The deceased was distinguished for his high-toned gentlemanly qualities and eminent talents.

THE MORMONS IN NEW YORK.—The Mormons in the city of New York had a glorification meeting over the peace news, Sunday afternoon and evening, it being their first public assembly since last October.—Hymns were sung, Colonel Kane was eulogized, Brigham Young glorified as a saint and the Mormons in Utah held up as exemplars. They also passed a resolution declaring their confidence in Gov. Cumming.

A WORLD'S CONGRESS.—A Congress, having for its object the discussion of questions relating to literature and art, will meet at Brussels on the 27th September next, and remain in session four or five days. Delegates from the United States and from all parts of the world are invited to unite in the deliberations, the results of which will be looked with great interest.

A WEALTHY BRIDE.—Miss Jane Lloyd, the wealthiest of English heiresses, is to be married to Col. Lindsey, the "hero of the Alma," who was lucky enough to get nine Russian balls fired into the colors which he carried, without receiving one into his body. The fortune of Miss Lloyd is stated by the London Illustrated News to be from twenty-five to thirty million dollars.

AN EDITOR IN IOWA has been fined two hundred dollars for hugging a young girl in church.—*Daily Argus.*

Cheap enough! We once hugged a girl in church, some ten years ago, and the scrape has cost us a thousand a year ever since.—*Chicago American.*

CROPS IN IRELAND.—The last harvest reports from the extreme west of Ireland are said to be as favorable as could be desired. Grain and green crops are in admirable condition. The potatoe, too, is looking well, and the rumours of blight are not credited.

The whole number of Indians in Washington and Oregon territories, as shown by the official reports, is 39,712.

Kentucky Election.

LOUISVILLE, August 3.—The State election yesterday passed off generally speaking quietly. In the city proper, the American candidate for Judge of the Court of Appeals, received 228 majority. George R. McKee, the American candidate for clerk of the Court of Appeals, received 307 majority.

The Ameridan county ticket is all probably elected by a small majority.

During the election Dr. Standiford shot Capt. Rousseau dangerously. The act was prompted by a personal grudge and partly from political feeling

Yellow Fever at New Orleans.

NEW ORLEANS, August 3.—The total number of deaths in this city during the past week, ending Saturday evening last, was 193, of which 70 were of yellow fever, 5 of whom were Americans; and the remaining 120 of other diseases, 87 of whom were Americans.

HOLLOWAY'S OINTMENT AND PILLS.—The skin diseases to which the bon vivant and man of indolent habits are peculiarly subject, as well as those scorbutic affections caused by a superabundance of salt diet and the hardships and privations of a seaman's life, are readily removed by Holloway's Ointment. The disfiguring blotches, pustules, pimples, etc., arising from suppressed perspirations or obstructions in the secretive organs, are also immediately obliterated by this purifying and beautifying agent. It has no equal as a means of clearing the complexion and relieving the skin of discolorations and excrescences.—The Pills, as they carry off all inward impurities, are an important auxiliary to the Ointment in such cases.

THE PILL TRADE.—Who could dream of the magnitude such an undertaking as the manufacture of a Purgative Pill assumes when it comes into general use. And how palpfully do the following numbers speak of the amount of human sickness and suffering, that little morcel of a remedy goes forth to combat and subdue. Dr. J. C. AYER of Lowell, manufactures in his laboratory forty gross per diem of his CATHARTIC PILLS, through all the year. This is eight boxes a minute or one dose a second. We thus find over 43,000 persons swallow this pill every day, or 1,296,000 a month! Physicians, think of that!—43,000 patients a day who seek relief from the medical skill of one man. Surely that man should be, as he is in this case one of the first intelligence and of the highest character. His occupation entails upon him a fearful responsibility for the weal or woe of his fellow man.—Painsville Courier.

Prices Current.

BALTIMORE, August 4, 1858.

aug 7 J. RAMS.

FOR SALE.

THE subscriber offers for sale the Farm called "Solomons," situated in Miles River Neck and adjoining "Fairview," the property of Mr. Oliver. It contains

125 ACRES,

a hundred of which is arable land. The improvements are a small frame dwelling house, with kitchen; a good barn in perfect order, comprising granary, corn house, and stable. The soil is good and easily improved. The situation is very healthy, and one of great beauty, being well known as one of the most beautiful on the Eastern Shore. All the luxuries usual to a salt water situation abound in a peculiar degree in the waters adjacent to it. There will also be sold with the farm 12 or 15 acres of water, being part of Solomons cove, which is well adapted to the bedding of oysters.

The subscriber also offers for sale 100 ACRES of Wood Land, it is heavily timbered with the best white oak and yellow heart pine; is situated within a short distance of navigable water, and near a safe harbor, where wood or timber can at all times be shipped. For further particulars apply to the undersigned.
jy 3-6t ROBERT LITTLEJOHN

Frederick Female Seminary,

FREDERICK CITY, MD.

The Scholastic exercises of this Institution will be resumed on Monday, the 6th of September next.

Neither pains nor expense has been spared to make this in all respects a Seminary of the highest order, where the daughters of Maryland and other Southern States can receive an education adapted to the advanced refinement and intelligence of the people and to the institutions of those States.—a School highly moral and religious in its character, but not sectarian.

The extensive and superb buildings, the spacious halls and professors rooms,—the commodious lodging rooms elegantly furnished and well ventilated,—baths of the purest mountain water—extensive Chemical and Philosophical Apparatus, excellent Musical Instruments, extensive Library; and all other desirable educational conveniences—a Faculty well known at home and abroad for refinement, professional skill and learned ability, are some of the inducements which this Institution offers to the public.

For Board and Tuition, including furnished Rooms, Lights, Fuel, Washing, etc., 200 per. Scholastic year, payable half yearly in advance.

For Circulars, enquire at this office.

For other particulars, address
H. WINCHESTER.
