U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15, 1864, with semi-annual interest at the rate of seven and three tenths per cent. per annum.—Principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into 6 per cent. gold bearing bonds, payable not less than 5 nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipts of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the money, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of this Loan.

It is a National Savings Bank, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

Convertable into a Six per cent. Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is no less than ten per cent per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress *exempts all Bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. premium, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Duplicate certificates will be issued for the deposits. The party depositing must endorse upon the *original* certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositories, and by the

First National Bank of Baltimore, Md.,

and by all National Banks which are depositories of public money, and

ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and

AFFORD EVERY FACILITY TO SUSCRIBERS.

MILL NOTICE.

I HEREBY tender my thanks to the public for the liberal patronage heretofore extended—and hope by strict and prompt attention to business to merit a continuance of the same, both with Grist and Saw departments. My mode of grinding is, to weigh all wheat, where as much as 5 bushels is sent, (and Corn also if requested) and send back in writing the weight of both wheat and flour, when persons do not come themselves. Farmers and merchants will find it to their advantage to have their grain ground, instead of shipping all they have to Baltimore, and then send back for their flour, pay freights, commission, storage, &c. "A word or two to the wise is sufficient." For every 54 bush. of good wheat weighing 60 lbs. to the bushel or over, I will not allow to leave the mill with less than a barrel full of flour and packed; and for quality, the Easton Steam Mill stands probably unsurpassed by any mill on the shore.

apr 23 WM. T. KELLY.

FLOUR, MEAL, &c.

Will keep for sale Flour by the barrel and retail, of different grades. Also Meal, corn chopped for feed, and chops mixed, bran, seconds, &c., at the lowest prices. Terms cash.

P.S.—Wanted to purchase 1000 bushels prime white wheat, 1000 bushels corn and twenty tons of Timothy Hay, to be delivered and paid for as wanted. W. T. K.

Poco-Metalic Paint.

THE experience of the past season warrants the conclusion that the above is the cheapest and best Paint for several purposes, and especially for the bottom and decks of Vessels.—It is said to be, by those who have tried it, fully equal, if not superior to the *celebrated Patent Paint*, for the bottoms of vessels, in preventing them from *fouling*, and in its durability it has no superior. Its cost is only about ¼ that of the Patent Paint, and in this particular it should recommend itself to vessel owners. We mention the names of vessel owners and masters below, all of whom have tried it, and who will take pleasure in giving any information with regard to it that may be desired. They all speak of it in the highest terms:
