The News in Brief.

Memphis belles drink cod-liver oil to induce plumpness.

After the funeral of his father, young Louis Napoleon was saluted with the title of Emperor.

Henry Chaire, sheriff of Anne Arundel Co., died at Annapolis on the 12th instant, of typhoid fever.

Dr. Livingstone was furnished with fresh supplies last August and proceeded on his tour of exploration in the interior of Africa.

During the past two weeks $80,000 have been raised in New York for the rebuilding of the Brooklyn Tabernacle.

From $1,000 to $5,000 is the price paid for a vote for United States Senator in Kansas. Rates do not rule so high in the East.

The surveyors of the ship canal were surveying in Thoroughfare Neck, on Tuesday, towards Collins' Beach.

Smyrna's pork supply fell off 25,283 lbs. last year. The year previous 193,148 pounds were butchered, but in 1872 only 97,865.

The Credit Mobilier scandal involves only one Democrat that we have heard of, the parties who sold their votes being Radicals generally of influence.

The opponents of the re-election of Senator Pomeroy are in a majority in the Kansas Legislature, but his friends think they will fail to unite on any one, and so he will get in again.

At a public reception, on Thursday, at Chislehurst, the ex-Empress and her son allowed their hands to be kissed, and the Imperialists feel encouraged thereby to hope for a speedy restoration of the Empire.

The House Post-Office Committee have agreed to report a bill repealing the franking privilege, except weekly papers in the counties where they are printed.

Mark Twain gives us an additional reason why we should annex the Sandwich Islands. "That we would thereby acquire the mightiest volcano on earth—Kilahea. Barnum could run it, he understands fires now."

The Reading Railroad Company design starting an iron ship yard at Kensington, above Philadelphia, and build a fleet of twenty iron steam coal vessels. They will do their own repairing.

Four convicts, named Andrew Riley, Daniel Bland, John Marion and Charles Wilson, escaped from Sing Sing prison on Friday, crossing the Hudson on the ice. Wilson was recaptured.

A. W. Train, merchant tailor, doing business in Newton, Mass., eloped a few days since with Miss Emma Norris, a girl in his employ, leaving a wife and child and several creditors. He left for New York, and is supposed to be in that city.

In an interview on Thursday, one of the prosecuting counsel in the Stokes case said he thought it would be very difficult to have a stay of proceedings procured, and that there will be even greater difficulty in the prisoner being able to secure a new trial.

A Chicago despatch of Tuesday night reports "the heaviest fall of snow known for years" throughout Central Illinois. At Chicago, and farther west, Tuesday night, there was a severe gale, with snow and "unusual electrical disturbances."

Senator Nye has been defeated for renomination by the Legislature of Nevada. This will rid the Senate of a mere babbler, useless either in council or discussion. If Morton and Conkling are to remain, Nye is to go, and that is some consolation.

A Kansas man dropped a little note to a neighbor's wife, inviting her to meet him under the pale silver moon. The husband got the note first, and kept the appointment.—Two doctors have been at work on the Kansas man, in whom they found a rich lead mine.

A person weighing himself just before going to bed, and again in the morning, will find that he has lost a pound or more during the night. For the most part this refuse of the system has passed off in the room in the form of exhalations from the lungs and skin. This is an appalling thought for the people who sleep with closed windows.

Hugs Sweeney, who, with an excursion party, went from Wilmington, Del., to Bridgeton, N. J., in August last, was on Thursday morning convicted of manslaughter in killing George M. Davis, proprietor of the hotel where the party was dining, during a general fight that occurred. Sweeney was sentenced to five years hard labor in the State prison.

A married man named Sherburne, some weeks ago ran away with Miss Drew, of Fishersville, N. H., and went with her to Jersey City, where she died a few days since under suspicious circumstances. After her death Sherburne was arrested, and he arrived at Concord, N. H., on Thursday, in charge of the police. On leaving the police station for the jail, the father of Miss Drew struck the prisoner violently in the face, and kicked him. Several others then fell upon Sherburne and beat him severely, and it was with great difficulty that the officers rescued him.

The National Woman Suffrage Association began its session at Washington on Thursday. Susan B. Anthony presided, and said she "stood there by the kindness of the Marshal of the Auburn." Prison to vindicate the rights of woman." Mrs. Elizabeth Cady Stanton followed with a long speech on the rights and wrongs of the female sex. She denounced the outrage committed on Miss Anthony; thought that only by the aid of woman could the Republican party preserve its renown, and believed that President Grant was in favor of the cause.

DETENTION OF THE DELAWARE TRAIN.—The pressure of the floating ice in the Christiana this morning, was so great as to somewhat damage the railroad bridge over the Christiana, near the Delaware Junction.—Several of the piles were carried away and the bridge forced from its position so much as to displace the track about a foot out of line. It was therefore deemed unsafe to run the train across. The train south, from this city, did not leave here until 10.40 o'clock, and then only proceeded as far as the bridge, on the other side of which the north bound train was stopping. An exchange of passengers, mail and baggage was then effected; the train on the other side of the bridge made the down trip and the other returned to this city, and afterwards proceeded to Philadelphia. A construction train was sent out about eleven o'clock, with a force of men and materials to make the necessary repairs.—*Del. Gazette of Friday.*

A MYSTERIOUS DONATION.—A Washington despatch states that on Tuesday last, when Mr. Oakes Ames received his mail in the House of Representatives, among other envelopes was one containing four hundred dollars in greenbacks, but without a line of writing to indicate the sender. Mr. Ames remarked that he supposed somebody had become conscience stricken, and he pocketed the funds. Mr. Ames' connection with the Credit Mobilier makes this item of some interest just now, and it will probably start the inquiry, "What was the object of this anonymous donation?"

THE MISSOURI DEMOCRATIC SENATORIAL CANDIDATE.—Mr. L. V. Bogy, who has received the nomination of the democratic caucus of the Legislature of Missouri for the Senate of the United States, is a prominent citizen of St. Louis, an able and incorruptible man, of liberal ideas and tendencies. He has been mayor of the city of St. Louis, and is identified with most of the great industrial and commercial enterprises of the southwest.

EFFECTS OF THE GREAT STORMS IN THE NORTHWEST.—The accounts coming in of the effects of the recent storms and cold weather in the Northwest are fearful to contemplate. At Morris, in Minnesota, eight persons are know to have been frozen to death. Two men were found near St. Peter, sitting upright in a sleigh, frozen stiff, and wrapped in Buffalo robes. Two teamsters were found frozen to death in another locality in the same State. Near Sioux City three others shared the same fate. In the vicinity of Lake Hinsby thirteen dead bodies were found, and between Fort Ridgway and Beaver Falls six children, on their way to school, were frozen to death. A dispatch from Fargus Falls states that seven more bodies were found there, and estimate the number of victims within a radius of twenty-five miles at fifty. Among the most terrible incidents is that of a man who went for a doctor to attend his wife, and was frozen to death on his way home. The next day, when the doctor reached the house he found that the woman had given birth to a child and both were frozen to death.

THE MASON RELIEF BILL.—The bill passed by the Senate for the relief of Jno Thompson Mason, collector of the port of Baltimore under President Buchanan, relieves him from responsibility for the sum of $3,000 alleged to have been embezzled by one of his clerks in the depository department. The bill was reported adversely by the Senate finance committee last winter, but on re-examination it was found to involve precisely the same principle as contained in the bills to relieve Messrs. E. H. Webster and John L. Thomas, who succeeded Judge Magruder as collector at Baltimore, from responsibilities for defalcations of their subordinates, both of which were passed without serious objection.

DANGEROUS CLASSES.—The Chicago Tribune includes architects and builders who do not understand their business among those known as the dangerous classes. It says that we make laws to protect the community against burglars and garroters, we require the physicians to obtain diplomas "before they take human life," and druggists to acquire sufficient knowledge to tell prussic acid from jalap before they are allowed to deal out medicines while incompetent architects and builders enjoy unrestricted privileges. It attributes to them the great loss of life and destruction of property that occurs every year by fires and the falling of buildings.

THE WHARTON TRIAL.—A singular fatality seems to attend this case. On the former trial, it will be remembered, the wife of one of the jurors died; and since the commencement of the present trial, the sheriff of the county has died, one of his deputies—who was a brother to one of the jurors—was drowned, and the mother in law of Attorney General Syster has also died. The case, however, is proceeding, a full jury having been obtained on Monday last. The examination of the State's witnesses is now being had, and the evidence thus far developed, is damaging to the accused; but the testimony for the defence may scatter it to the winds.

SAVED BY A BLIND MAN.—Mr. Robt. Robinson, living with Mr. Stanfield, near Royal Oak, was taken with a fit a few days ago, and fell into the fire. Mr. Stanfield, a blind man, was in the house with him, and supposing he smelt something burning like hair, felt towards the fire, discovered the situation of the unfortunate man, and extricated him from death. He was badly burned about the face, and it is feared will lose one of his eyes by the accident.—*Easton (Md.)*

FATAL ACCIDENT—*A Woman and three Children killed.*—On Saturday last a fatal accident occurred at Fairport, on Chautauqua Lake, Pa. The Titusville Courier says that Mr. Crane, whilst riding with his wife and three children in a sleigh, stopped near a tree which some men were cutting down, when the tree fell, crushing Mrs. Crane and the three children to death. Mr. Crane saved his life by jumping aside as the tree came down.

THE GALLOWS IN MARYLAND.—The negro, Bill Craig, convicted a short time since of committing a rape on a white woman, 75 years of age, on the 25th of last August, was hung at Cumberland on Friday of last week.

Labor! Labor!! LABOR!

It has become necessary for our farmers to resort to other means of labor in order to cultivate and carry on their farms to advantage. Many of them appreciating this important fact have repeatedly requested the undersigned to establish a "German Employment Agency," which he has done, and is now prepared to fill orders for families or for Men, Women, Boys, Girls, singly, also Men to work at any particular kind of trade. The Germans as a class, are a good, honest, upright set of people, and as farm Hands, Mechanics, Cooks, &c., they have no superior, the only difficulty being the language, which is easily overcome. A number of our Farmers have them already, and express themselves as being highly pleased. The cost of transportation in getting them into be deducted from their wages. Cash in all cases in advance. HALL'S HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Buckingham's Dye.
FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in *one preparation*; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

Ayer's Cathartic Pills.

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use, and every family should have them on hand for their protection and relief when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* which this market affords. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when enjoyed on the cheap and multitudinous only it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable.

Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhea,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be sometimes taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

ROSADALIS

THE GREAT SOUTHERN remedy for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling, Gout, Goitre, Consumption, Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.

The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this medicine among their stock of family necessities.

Certificates can be presented from many leading Physicians, Ministers, and leaders of families throughout the South, endorsing in the highest terms *The Fluid Extract of Rosadalis.*

Dr R. Wilson Carr of Baltimore says "he has used the Fluid Extract of Scrofulak and other diseases with much satisfaction.

Dr. T. C. Pugh of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.

Rev Dabney Ball of the Baltimore M. E. Conference South says he has been so much benefitted by its use that he **cheerfully recommends** it to all his friends and acquaintances.

Green & Co., Druggists, at Gordonsville, Va., say it never has failed to give satisfaction.

Sam'l G. McFadden, Murfreesboro, Tennessee, says it cured him of Rheumatism when all else failed.

Rosadalis is not a secret quack preparation. Its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent Blood Purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.
