CAUGHT HIM AT LAST,

JUST as he was leaving the store of Thos. H. A. Hardester, a well dressed man of fine appearance and smiling features, having a large bundle of goods under his arm. He was immediately apprehended by the citizens of the town and his bundle thoroughly unpacked and contents examined when it was found to contain a large quantity of Ladies' Goods, Gents' wearing apparel, also a quantity of childrens' clothing, as well as a variety of hosiery, gloves cambrics, Handkerchiefs, Edgings, Inserting and many other articles too numerous to mention; when upon further examination it was found that he had purchased the above articles at the very lowest figure from Hardester's cheap store and was wending his way home to his family. He was after a few minutes detention released and allowed to go on his way rejoicing, promising to return and bring his friends where they can be supplied in all the articles of dry goods, as well as groceries, Hardware, Queensware, Tinware, Woodware, &c., at the very lowest figure. His stock is latge, new and complete, and respectfully invites his friends to call and examine for themselves. Ayer's Cathartic Pills.

ARE the most perfect purgative we are able to produce and, as we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel diseases. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purly vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth Many eminent clergymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men

The Agent below named is pleased to furnish gratis our American Almanac containing directions for the use of these medicines and certificates of the cures of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache, arising from foul stomach, Nauseau, Indigestion, Morbid inaction of the bowels and pain arising therefrom, Flatulency, Loss of appetite, all diseases which require an evacuant medicine. They also by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred disorders arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipaled dealers with other preparations on which they make more profit. Demand Ayer's and take no others. The sick want the best and there is for them, and they should have it.

Prepared by Dr. J. C Ayer & Co., Lowell, Mass., and sold by all Druggists and dealers in Medicine everywhere. [ju 1-2m

NOTICE

A COMPANY is now being formed here for the purpose of purchasing a tract of nearly 13,000 acres of heavy yellow pine timber land in the South, on navigable water, ten miles from the ocean; and purchasing and running a saw mill, to manufacture the lumber. The cost of manufacturing and shipping the lumber to New York will not be over $15 per thousand ft., and the price in New York is from $40 to $60 per thousand, according to quality. The land can be purchased for $2 per acre—and it is proposed to set up a mill to saw 50,000 ft. a day.

If the company saws but 10,000 ft. a day, the profit will be at least 25 per cent. every three months, and if they saw 50,000 feet a day the timber would not be exhausted in 10 years This is not a speculation to make or lose all but, a bona fide investment in Real Estate at much less than its value, and as near a certainty of large profits as Bank stock if not a little nearer.

Capital stock $50,000—$31,00 already subscribed.
