Manhood; How Lost, How Restored.

JUST published, a new edition of Dr. Culverwell's Celebrated Essay on the *radical cure* (without medicine) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Loses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance,

BOWER'S COMPLETE MANURE.
This Fertilizer is made of Super Phosphate of Lime, Ammonia and Potash, and warranted free from adulteration. To prove that these are the essential elements towards producing healthy and prolific plants, experiments have been made in sand, which had been burned in order to destroy all the fertilizing power which might be in it, and were continued through the long period of ten years.
The seeds were planted.
1st. In calcined sand alone.
2d. In calcined sand with ammonia.
3d. In calcined sand, phosphate of lime, potash and lime.
4th. In calcined sand, phosphate of lime, potash, lime and ammonia.
On the same day, in each of these mixtures, twenty grainee of the same wheat weighing the same weight were sowed, the soil being kept moist by distilled water, during the whole period of growing; at the harvest the following average results were shown:
In the sand alone the plant was very feeble, the crop dried weighed only ninety-three grains.
In the Ammonia alone the crop still very poor, was however better, it rose to one hundred and forty grains.
In the Super Phosphate of Lime, Potash, and Lime alone it was a little inferior to the preceding, it weighed one hundred and twenty-three grains.
But with the addition of the Super Phosphate of Lime, Ammonia, Potash and Lime, it rose to three hundred and seventy grains.

TO FARMERS.

THE present season being remarkably late, and planting correspondingly so, it will be highly necessary for Farmers and Market Gardners to stimulate, and force their crops, in order to make them sufficiently advanced to stand the hot weather, or, a possible drought in the summer.

FARMERS REMEMBER!!

Wheat is worth now			$3.00	a bushel,
Corn	"	"	1.20	"
Oats are	"	"	90	"
Potatoes	"	"	1.50	"

Look at these prices! and consider how important it is to improve the golden opportunity; the country is bare of produce, and never before had Farmers so good a chance to make money rapidly.
To force and sustain your Crops use BOWER'S COMPLETE MANURE, as it not only maintains fertility of the soil, but produces it in soil which is poor. (may 16

PACIFIC GUANO.
TO FARMERS AND PLANTERS.
THE BEST FERTILIZER AT THE LOWEST PRICE!
Price of Soluble Guano reduced to $56 per Ton.

It is the *object* and *purpose* of the Pacific Guano Company to furnish the very best fertilizer at the lowest possible price.
The Company own and import their deposits of Guano, and make their own Oil Vitriol on a large scale, and have an actual cash capital of $500,000 invested in this business. Hence their present large facilities enable them to put this valuable fertilizer into market at the extremely low price above named.
Two hundred pounds per acre of this Guano have produced as much wheat as three hundred pounds best Super-Phosphate of Lime.—One third of its weight is animal matter, yielding ammonia; one third of all its phosphate is soluble phosphate.
FOR CORN
And other Spring Crops it is unexcelled.
IT RIPENS WHEAT
Five to seven days earlier than either Peruvian Guano or the Super-Phosphates, as will be seen by testimony in our possession.
This Guano, which has never been excelled, if equaled, by any fertilizer used in this State, is placed at the extremely low price of $56 per ton—2,000 lbs. Delivered at our Warehouse, or at any convenient landing:
