Notice.

NOTICE is hereby given, that the Board of School Commissioners for Talbot county will meet at their office, in Easton, on

TUESDAY, 23d of Sept. inst.,

to distribute the fund provided for in Chapter IX, Section 1st, of the Public School Law, passed at the last session of the Legislature. The law provides that "the total amount of taxes paid for school purposes by the colored people of any county, shall be set aside for the maintaining the schools for colored children, which schools shall be conducted under the direction of the Board of School Commissioners." Trustees, officers or others interested in the colored schools of Talbot county, are requested to present their claims in proper form to the School Commissioners on the day aforesaid. By order of the Board,

A. CHAPLAIN,
sept 12-3t Treasurer.

There having been no applications made for the destribution of the above named fund, the time will be extended until the 20th of October.

oct 3 A. CHAPLAIN.

ATTENTION FARMERS.

WM. L. BRADLEY'S PAT. SUPER-PHOSPHATE OF LIME and the SEA FOWL GUANO are not excelled by any fertilizer in the market. For Corn and other Spring crops they are preferable to No. 1 Peruvian.—*Kept constantly on hand, and for sale by the* Agents, Geo. M. Clark, near Hole-in-the-Wall. Letters addressed to the Agent, or Jas. T. Mullikin & Co., at Trappe, Talbot county, will receive prompt attention. Pamphlets to be had at Mullikin & Co.'s, Trappe, or at John W. Cheezum's, Easton.

CERTIFICATES:

MONROVIA, Md., Aug. 5, 1867.

Mr. L. F. Detrick—Dear Sir: At your request, I used one sack Sea Fowl Guano on my corn last spring, dropping 166 pounds to 2400 hills, and the result has been most gratifying.—I consider it one of the *very best Guanos* in the market, and shall continue to use Yours, very respectfully, G. M. SMITH.

FREDERICK, MD., July 27, 1867.

Mr. L. F. Detrick—Dear Sir: I used a few rrels of your Bradley's Boston Phosphate upon my Corn this spring by way of trial, and I must say it far *exceeds anything* I have used in the way of fertilizers, and I have used several different kinds. I left two rows of Corn near the middle of my field that I did not put the fertilizer on, and at this date it is most astonishing I see the difference. The ground is of poor quality, yet the whole field looks splendid at this time, except the two rows, and from present appearance I need not expect much from them.—I also tried a few dozen rows on some rich bottom land, and the fertilized Corn is far ahead. I have made up my mind to use it hereafter, on rich and poor land, until something else is introduced to beat it. As yet I have not found it. Yours, truly,

A. J. DELASHMATE.
