"Only once, sir, yesterday, I seen two men having an empty sack or two, runnin' across the hill there above."

At this moment the military came up, for he had himself ran forward in advance of them, and he repeated the substance of his conversation with our friend the vidette. Upon examining the stolidity of his countenance, in which there certainly was a woful deficiency of meaning, they agreed among themselves that his appearance justified the truth of the story which he told the gauger, and upon being still further interrogated, they were confirmed that none but a stupid lout like himself would entrust to his keeping any secret worth knowing. They now separated themselves into as many detached parties as there were fires burning on the hills about them, the gauger himself resolving to make for that which Darby Neil had in his keeping, for he could not help thinking that the vidette's story was too natural to be false. They were just in the act of separating themselves to pursue their different routes, when the lad said,

"Look, sir! look, sir! bad scran be from me but there's a still any way. Sure I often seen a still: that's jist like the one that Philip Hogan the tinker, mended in George Steen's barn."

"Hollo, boys," exclaimed Pentland, "stoop! stoop! they are coming this way, and don't see us: no, hang them, no! they have discovered us now, and are off towards Mossfield. By Jove this will be a bitter trick if they succeed; confound them, they are bent for Ballagh, which is my own property; and may I be hanged if we do not intercept them, but it is I myself who will have to pay the fine."

The pursuit instantly commenced with a speed and vigor equal to the ingenuity of this singular act of retaliation on the gauger. Pentland himself being long-winded from much practice in this way, and being further stimulated by the prospective loss which he dreaded, made as beautiful a run of it as any man of his years could do. It was all in vain, however. He merely got far enough to see the still head and worm heaved across the march ditch into his own property, and to reflect after seeing it that he was certain to have the double consolation of being made a standing joke of for life, and of paying heavily for the jest out of his own pocket. In the mean time, he was bound of course to seize the still, and report the caption; and as he himself farmed the townland in question, the fine was levied to the last shilling, upon the very natural principle that if he had been sufficiently active and vigilant, no man would have attempted to set up a still so convenient to his own residence and property.

This manœuvre of keeping in reserve an old or second set of apparatus, for the purpose of acting the lapwing and misleading the gauger, was afterwards often practised with success; but the first discoverer of it was undoubtedly Mickey M'Quade, although the honor of the discovery is attributed to his friend George Steen. The matter, however, did not actually end here, for in a few days afterwards some malicious wag—in other words, George himself—had correct information sent to Pentland touching the locality of the cavern and the secret of its entrance.—On this occasion the latter brought a larger military party than usual along with him, but it was only to make him feel that he stood in a position if possible more ridiculous than the first. He found indeed the marks of recent distillation in the place, but nothing else. Every vessel and implement connected with the process had been removed, with the exception of one bottle of whiskey, to which was attached by a bit of twine the following friendly note:

"Mr. Pentland—Sir: Take this bottle home and drink your own health. You can't do less. It was distilled *under your nose* the first day you came to look for us, and bottled for you while you were speaking to the little boy that made a hare of you. Being distilled then under your nose, let it be drank in the same place, and don't forget while doing so to drink the health of

G. S."

The incident went abroad like wildfire, and time it was the standing topic of the parish; and so sharply was it felt by Pentland that he could never keep his temper if asked. "Mr. Pentland, when did you see little George Steen?" a question to which he was never known to give a civil reply.

WINTER ARRANGEMENT.

GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the second morning after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach Baltimore	2 P.M.
" Baltimore	4 P.M.	" Washington	6 P.M.
" Washington	5 A.M.	" Fredk'sburg	12 M.
" Fred'ksburg	12 M.	" Richmond	5 P.M.
" Richmond	5 P.M.	" Petersburg	7 P.M.
" Petersburg	7 P.M.	" Weldon	1 A.M.
" Weldon	1 A.M.	" Wilmington	1 P.M.
" Wilmington	1 P.M.	" Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, is *sure of a connection through*, and, whilst it is evident that Foul Roads, Weather and Storms must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon; and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

☞ Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground, and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

BALTIMORE CLIPPER.

THURSDAY MORNING, March 18, 1841.

Neutrality. We are surprised that the editor of the Republican should consider it a violation of our neutrality, to express our opinion on the policy of laying duties on articles of luxury, and a distribution of the sales of public lands.—These are great national measures, which are to be regarded not in a party sense, but as affecting the permanent interests of the country; and it would be strange, indeed, if a neutral were to be prohibited from advocating or opposing such measures, under the penalty of being classed with the one or other party. The land bill, it is known, will be supported and opposed by members of both parties—and so with the proposed tariff on articles of luxury; but, because leading politicians have thought proper to arrange themselves on opposite sides on these questions, they are to be considered as sacred, and not to be touched by any one who is not arrayed under a partizan banner. Party clamor is to prohibit fair investigation, and to close the mouth of reason. The neutral editor is to stand as an unconcerned spectator, and see the country sacrificed by faction, without daring to interpose an opinion. Such neutrality we have never avowed, and shall never practice. We claim, and shall exercise, the right to express our sentiments freely upon men and measures, without reference to party classification; for, being citizens of the United States, we will not forego any privilege appertaining to the character. As regards the division of parties, the struggles for supremacy, we are neutral. In respect to public measures, we shall boldly oppose or approve, as a sense of duty may dictate, indifferent whether the sentiments we express conflict with the arbitrary lines drawn by this or that party. We intend to be *freemen* in profession and practice, "well pleased to praise, but [illegible]-aid to blame."

We conscientiously believe that the interests of the country would be promoted by laying duties on articles of luxury, and we have endeavored to impress a like conviction upon others—but the Republican exclaims "hands off, our party means to rally against that measure." We turn to the land bill and express our opinion that it would be a just and salutary act, by which the people of Maryland would be relieved of a considerable portion of their taxes. Again the Republican interposes its authoritative denunciation of our interference, as it is a party measure.—Thus we should be excluded from the discussion of any and every proposition which could be wrested by political tacticians to partizan purposes. We might be permitted to speak of the weather, changes in the fashions, and such like important topics, without incurring the censure of either party—but from the examination of all matters affecting the general welfare we are to be excluded by the omnipotence of party—and thus the neutral press would be schooled into silence and sink into contempt. Does the Republican desire that we shall occupy this position?—We had supposed it to be controlled by more liberal feelings and principles; and that, although harnessed to party itself, it would not regret to find others free and independent. However this may be, the ground we occupy we shall maintain—for we have nothing to disguise; nothing to apologize for in the stand we have taken.

We did not express an opinion on the sub-treasury because it was considered the great bone of contention between the two parties, and because no substitute for it has yet been offered. When the proposition to repeal the sub-treasury act is coupled with a substitute, we shall not hesitate, should we think it necessary, to express our approbation of, or dissent from, the measure—for we will not be restrained in our freedom of thought or action by the discipline of either party.

We do not understand the comments of the Republican to be dictated by an unfriendly feeling towards us. The editor cannot suppose that we would approach him slily to give him "a stab under the fifth rib:" he knows us too well to believe that we can ever become a sneaking opponent. When we design to take ground in the political arena, no one shall be at a loss to find our whereabouts.

Navigation of the Air. By reference to the advertisement of Mr. Patton it will be found, that the saying of the wise man, that "there is nothing new under the sun," is no longer correct; unless, indeed, aerial navigation is but the revival of an antiquated mode of travelling. Should Mr. Patton succeed in his undertaking, the Enchanted Horse in the Arabian tales will be excelled by the modern invention. We are not ambitious to become the first passenger in this new mode of conveyance, as our desires are too terrestrial for so flighty an excursion.

Portrait of General Harrison. We were yesterday presented with an excellent likeness of the President of the United States, just published by Mr. Wakefield, of Boston. The likeness is accurate, and in connexion with the border, makes a very neat and pleasing picture. It is engraved on steel in the best manner, and is entitled to public patronage. We understand they are to be for sale in this city for a few days only.

Stopping the Mail. The transportation of the mail between Charleston and Columbia, S. C. on Sundays, has been stopped by the department. It is the cause of complaint among the papers of the former city.

Divorces. As applications for divorces are not to be referred to the decision of courts of justice, we are glad to see by the following bill, introduced by Mr. Frazier, that an attempt will be made to reduce the testimony to be adduced in such cases, to a regular system. This bill has not yet been acted on, but we hope will be pressed at the extra session by its author, as we think it calculated to promote justice, and, perhaps, to restrain the existing mania for divorces. If husbands and wives find the difficulty of setting aside the marriage contract increased, they will probably be more careful in the selection of partners.

An Act for taking testimony in cases of application for divorce, passed 1823, chapter 202.

Sec. 1. *Be it enacted by the General Assembly of Md.* That it shall be lawful for any person who may intend to apply to Legislature for a divorce, to file a petition, stating the grounds of his application in the court of the county in which the person from whom he desires to be divorced resides, and, upon the filing of such petitions, a subpœna shall issue to the party implicated, to appear and answer the same; and upon such appearance it shall be the duty of the court to issue a commission to a person or persons therein to be named, to take such testimony as the respective parties require to be taken; which testimony, after twenty days notice to the parties, of the time and place of meeting shall be received and reduced to writing, and be returned to the clerk of the court in which such proceedings have been had whose duty it shall be to forward to the Legislature the petition, answer, testimony, and all other proceedings had under said application.

Sec. 2. *And be it enacted*, That the clerk shall receive the sum of two dollars, for receiving, filing, and forwarding, said proceedings; that the Sheriff shall receive one dollar for serving the subpœna on the party, and fifty cents for each subpœna served by him on any witness that shall be summoned by him, and that every commissioner shall receive three dollars for each and every day he shall be employed in receiving and reducing to writing the testimony of the witnesses; all of which costs and charges shall be paid by the party petitioning."

Locomotive Engines. A writer in the London Courier complains that the Birmingham and Gloucester Railway Company have purchased ten Locomotive Engines constructed in the United States. He considers it a reflection cast upon the manufactories of his country. We like this spirit in the English writer—it exhibits an interest in behalf of domestic industry that is worthy of all praise. We wish that a similar feeling were extensively manifested in the United States in favor of our own mechanical skill and industry; it would soon relieve us from dependence upon foreign production and free us from foreign debt. The writer is opposed to the introduction into England of locomotive engines from America, not only because of their taking the place of British articles, but from apprehension that we shall be enabled to enter into competition with Great Britain in other markets, in these and other manufactures. But the alarm of the writer is premature. Instead of giving such encouragement to American manufacturers as will stimulate them to exertion, we seem more disposed to fall back upon the policy once avowed by Jefferson, (but subsequently renounced,) that it would be bettter "to have our workshops in Europe." We even go beyond this—for we forbear to tax foreign articles of luxury, and annually run greatly in debt for the gratification of [illegible] appetites.

Vive Napoleon! Mr. Foster, the living semblance of the great Emperor, and the industrious and persevering producer of the Naiad Queen and other grand spectacles, announces a benefit at the Holliday street theatre *to-night*.—The selection is of the most brilliant order, and there can be no excuse for the absence of the friends of the drama. The close resemblance Mr. Foster bears to Buonaparte has placed him far above all competition in the personation of that particular character—and we expect to see the theatre crowded, not only with enthusiastic Frenchmen, but people of all parts of the globe who are desirous of beholding a *fac simile* of the man who awed the world.

☞In consequence of the immence bill offered this evening, the doors of the theatre will be opened at half past 6 o'clock, and the performances will be commenced at quarter past 7.

Signora De Goni. Though not so fully attended as her great talents merited, yet the concert of Signora de Goni on Tuesday night at the hall of the Musical Institute, Assembly Rooms, drew the attention of a number of the elite of the city, and her performances on the guitar went off with much eclat. The ease and grace with which she fingers the choice instrument of her native land drew forth bursts of applause, and frequent cries of "bravo!" interrupted the performance.—She was peculiarly happy in the "Pot-pourri" and "La Cachuca," the latter being heartily encored. Her efforts to please were ably seconded by Mr. Boucher, and Signors Dannas and De Goni. Towards the conclusion of the concert it was announced that by particular request it would be repeated on Friday evening at the same place.—We are glad of this, and hope to see a general turn out.

The wife of Robinson, now on his trial, was a few days ago detected with a razor on her person when going to the cell to see him. What can be the motives of this woman, whether they were to save the feelings of her husband from a conviction, and its penalty, or from a more sordid one, that of saving herself from a share in his ignominy.

Trial of Robinson. We have made arrangements by which we shall have this trial regularly reported for the Clipper as it progresses. The commencement will be found in to-day's paper.

☞The Hon. Henry Clay and J. T. Morehead, of Kentucky, arrived in this city last evening, and took lodgings at Barnum's City Hotel.

Ex-President Van Buren, accompanied by Mr. Forsyth, arrived in Philadelphia on Tuesday and took lodgings at the Mansion House.

St. Patrick's Day. The anniversary of St. Patrick was celebrated yesterday at St. Patrick's church, on the Point. We did ourself the pleasure of attending the ceremony, and were altogether highly pleased. The church was crowded with a large number of both sexes. The Rt. Rev. Dr. Fenwick, of Boston, officiated pontifically, assisted by the Rev. Mr. Gildea, of this city, sub-deacon, Mr. Blinkensop, and a number of other reverend gentlemen.

A very eloquent sermon was preached by Bishop Hughes, coadjutor to the bishop of New York. His text was taken from the 7th chapter, 16th verse, of the Gospel according to St. Matthew—"Ye shall know them by their fruits; do men gather grapes from thorns, or figs from thistles?" We took notes at large of the reverend doctor's discourse, but find it impossible, at present, to give it more than a passing notice. He reverted to the history of Ireland's saint, and gave, as far as could be gathered from known records, a synopsis of his life, character, and usefulness. He reverted, pathetically and beautifully, to the past and present condition of oppressed Ireland—called to the recollection of her sons and daughters who sat within his hearing, the memory of events though melancholy, still endearing, because of the sacred halo which clings around the thought of home. The church itself presented a most solemn and imposing sight, being hung in mourning, in commemoration of its lately deceased pastor.

The music, upon this occasion, was, in our humble opinion, peculiarly beautiful. We are not a professed scientific judge of that most delightful of all sciences; but suffice it to say, we had no fault to find, but every thing to admire. Mr. Walter, the leader, had all things arranged, and in order. The choir was full and strong, composed of the regular members, together with a number of ameteurs and several professional musicians.

The day was rather unfavorable—such as is generally ushered in by the annual round of Ireland's saint. It was, indeed, "a raw and gusty day." Its enjoyments were, however, come home to many a son of the Emerald Isle.

Lucky. We observe by the Philadelphia Chronicle that all the girls at Dubuque, Wisconsin Territory, owing to the good sleighing, have contrived to get married with the exception of five, who could not succeed on account of their pride. A sleigh, buffalo skin, fleet horses, moonshiny night's and handsome girls, raises the deuce with the beaux, who, ere they are aware, find their hearts gone, which are soon followed by their hands.

The Storm. The storm, on Saturday, raged with great violence at Providence, R. I. It was accompanied with snow and hail, which fell to the depth of about four inches. The Journal says—A remarkable circumstance attended the gale—*there were two full tides in the morning*. The tide came up to within two feet of the wharves at 8 o'clock, sunk three feet and then returned to its former height at 12 o'clock.

Disasters. Letters from Portsmouth state that the ship Brunette is fully bilged, and cannot be got off without discharging her cargo—that a Portland brig is ashore on Rye beach, with a cargo of molasses, (supposed to be the Geo. Turner) and that brig Borodino, Clark, from N. Orleans for Portsmouth, anchored during the gale on Saturday morning, about half a mile from harbor, cut away both masts, and rode it out without further damage.

Destructive Fire in Brooklyn. On Sunday morning a range of new three story houses on Atlantic-st. near the South Ferry, were consumed by fire. It was evidently the work of an incendiary, as the houses were not finished, and have never been tenanted. The buildings were not insured.

General Scott is proceeding to the Canada Frontier to take measures to repress any disturbance which may grow out of McLeod's trial at Lockport. It is said that Mr. Crittenden, the Attorney General, will be present at the trial on behalf of the United States.

Good Sport. Last week two gentlemen of *Burlington, N. J.* left that place for the "Mansion of Health," Long Beach, on a shooting excursion, at which place they remained two days and a half, they bagged fifteen wild geese and twenty-eight ducks; which they shot in the neighboring inlets.

Snow. At Philadelphia on Tuesday they had a regular built snow storm. At Buffalo, last dates, snow had fallen to the depth of twenty inches. At Boston, on Saturday, the snow was about eleven inches; at Calais, over twelve inches.

New church. The members of the Methodist Episcopal Church in Philadelphia, are making arrangements for the erection of a splendid place of worship in that city. The building is to be of a plain, but beautiful design, with family pews, &c.

Bear's meat. A fat saddle of bear's meat was exposed in the Jersey market, Philadelphia, on Tuesday last, for which 75 cents per pound was asked.

Accident. One of the agents of the Pittsburg railroad, in endeavoring to catch the brake, to stop the train at the foot of an inclined plane, fell, and had one leg and arm broken in several places.

Attempted murder. Two Irishmen quarrelled on Tuesday evening last in Philadelphia. One assaulted the other with a knife, and cut his throat, inflicting wounds which were thought to be mortal.

Wolf Killed. A large wolf was killed in Villanovia, N. Y. last week. He had for some time previous committed great depredations and made rare havoc among the farmer's sheep but was caught at last.

[Reported for the Baltimore Clipper.]

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

Court of Over and Terminer, } *Tuesday, March, 16th, 1841.* }

Chief Justice Hornblower, presiding.

Previous to the commencement of the trial, a motion was made to quash the indictment, on the ground of technical informality.

The prisoner's counsel, David L. Graham, Esq. of New York, and E. Wood, Esq., contended, at great length, that there was sufficient ground to quash the indictment.

The Attorney General, Molleson, and John Van Dyke, Esq., on the part of the Commonwealth, argued that the indictment was not defective, that it was drawn up in strict conformity with the rules prescribed, and that it was, therefore, good in law.

Mr. Graham replied. The Court stated that they would hold the matter under advisement until to-morrow morning. The Court then adjourned.

In consequence of the case of Wells vs. The Lehigh Company not having terminated until a late hour in the afternoon, the trial did not commence until four o'clock.

The Court room was crowded to excess, even the bench was filled with spectators anxious to catch a glimpse of the prisoner.

☞The prisoner is a man of middle height, with small features and dark complexion, and has a very repulsive countenance. When first brought into the Court he was deathly pale, and seemed very much alarmed and excited at the crowded state of the Court room. He took his seat by the side of his counsel, and appeared soon to gain his composure. He was well dressed, in a suit of dark clothes, and paid particular attention to the proceedings of the Court.

Anecdote of the Giraffee. The N. Orleans Sun relates a humorous story of a very well-dressed and genteel-looking person, who was curious to see the Giraffee, and who stepped up to the 'man wot' receives the money, with—'Is the Giraffee to be seen here?' 'Yes, sir.' 'I want to see him.' 'Very well, sir.' 'It's fifty cents, isn't it?' 'One dollar, sir. Fifty cents for servants.' 'Well, I'm a servant!' 'You a servant!' 'Yes, sir.' 'The d—l! Whose?' 'Yours, sir—your humble servant.' 'Walk in and take a seat.' The joke is worth the price of admission.

Watch Returns. Eastern District.—March 17. Benjamin Goodhue was imprisoned for beating his better half, and Stephen Hanson and George McCastle for being intoxicated, the latter at 2 a. m.

Middle District.—Four negroes were imprisoned by the Police. George Stevens and Eliza Blake were admitted to lodgings. Catharine Grey and Matilda Joaes were locked up for being drunk and riotous.

Western District.—James Morrow was imprisoned for disturbing the peace of his neighbors, having made too free with the bottle. Negro Joe Seeny was found lying in the street drunk at half past two. Two white men applied for lodgings.

The Shirley Shakers, against whom quite an excitement existed a few weeks since, by reason of an alleged forcible detention of two young girls, who had been placed with the Society by their parents, have come out of the difficulty with clean hands—the forcible detention being all humbug. The girls had no desire to leave, and were at perfect liberty to go if they wished to.

Preparations are making at the west to fight. The Alton, Ill., Telegraph, states that two pieces of ordnance had left that place for Illinois town, opposite St. Louis, where a number of men had assembled for the purpose of resisting any encroachment which may be attempted against the rights and sovereignty of this State or the property of her citizens, by Missouri.

Patent Office. The number of patents during the year 1840, was 473. The amount of fees received for patents and caveats was $38,056 61: the expenses of the office, and deductions for withdrawals, amounted to $31,155 75—leaving a balance for the patent fund, of $6,900 75.

The banks of Maine. A bill has been reported in the Maine legislature to reduce the capital of the Calais, Central, Manufacturers and Traders', and York Banks. A bill was passed to reduce the capital of the Maine Bank, Portland, and the Mercantile Bank, Bangor.

Friends of Ireland. Another meeting of the friends of Ireland, was held in Philadelphia on Monday last, eighty-one members were admitted and a collection of over 300 dollars was made, part of which is to be remitted to Daniel O'Connell immediately.

Accident. An accident occurred on the Andover and Haverhill Rail Road Mass. on Saturday evening by which the conductor of the merchandise train, a Mr. Farnum, was instantly killed.

Travelling Match. The match of $300 a side, to drive a pair of horses before a light wagon to Montauk Point, L. I., 140 miles in 24 hours, was accomplished with ease, by Mr. Willis, and he had one hour and six minutes to spare.

☞29,485 bbls. of Whiskey have been received in New Orleans, within the last six months. The quantity received has had a tendency to decrease the price considerably from the rates of last year.

Scarlet Fever. The Keene (N. H.) Sentinel announces the death of three of Mr. Saben's children from scarlet Fever. This dreadful malady prevails to a great extent in the town of Winchester.

Cayenne pepper. Some of the sharpers have been imposing on the citizens of St. Louis, by selling them baywood saw dust for Cayenne pepper.

Celebration. The firemen of New Orleans had a celebration on the 4th inst., the anniversary of the day they were exempted from militia and jury duty.

Fast Day. Governor Page, of New Hampshire, has appointed the 15th of April to be observed throughout the State as a day of Humiliation, Fasting, and Prayer.

A CARD TO THE LADIES.

☞Ladies—I am a Bachelor, but not entitled to that obnoxious epithet "old." I am moreover young and have a respectable calling, and not of unprepossessing looks. My age is 25, by profession what in vulgar parlance is styled a "Butcher," but which the most fastidious taste cannot object to, of good moral character, temperate habits, and well doing. But to the point. I want to get a companion that will be my light and enlightener through this sublunary sphere—or, in other words, I want to get married, but unfortunately am too diffident to "pop the question." I have adopted this as the last and only alternative. I will receive proposals from respectable young ladies of good character, connexions, and disposition—possessing a moderate share of beauty, (money would be no objection)—from such, communications addressed, through the post office, to J. P. W. will be held strictly confidential and punctually attended to, by J. P. W.

CITY COUNCIL.

FIRST BRANCH, March 17. The Branch met pursuant to adjournment. Present—H. Snyder, president, and all the members except Mr. Dryden.

Mr. Delougbrey presented the petition of the standing committee of the Union Fire Co., asking for a special appropriation. Referred to joint committee on fire companies.

Mr. Peregoy offered a resolution relative to the opening of Amity-st., which was read and concurred in.

An ordinance making appropriations for 1841 was returned from the Second Branch, and will pass with proposed amendments. Concurred in by this Branch.

A resolution authorizing the city commissioners to have fenders placed on the roof of the Middle District Watch House, was returned from the Second Branch, concurred in. Also, the report and resolution of the joint committee on claims, on the petition of Robert Hinkley—dissented from.

Mr. J. T. Brown, of the joint committee on bridges, submitted a favorable report relative to the repairing of Belvidere Bridge, which was concurred in.

A communication was received from the Mayor, accompanied by a letter from the Vestry of the German Reform Church, which signified the unwillingness of those having control of the Church to comply with the ordinance passed by the Councils some time since, making an appropriation of $600 for repairing the steeple. This refusal was made in consequence of certain requisitions made by the Mayor relative to using the steeple. On motion of Mr. Keyser the message was referred to the next annual meeting of the City Council.

Mr. Cole made a motion that a communication be sent to the Second Branch proposing to rescind the resolution authorizing the Councils to adjourn *sine die* on Friday next. The motion was lost.

Mr. Cole, from the joint committee on markets, made a report and supplement to an ordinance relative to the sale of salted meat and cheese at the several markets—proposing a penalty for any violation of ordinance No. 30, 24th section. Read a first and second time.

Mr. Pinkney, of the joint committee on claims, reported on the petition of Frederick Crey for paving, to the amount of $61.70. Read and concurred in.

Mr. Bender, from the committee of ways and means, made a report upon the petition of Jacob Deems, late collector, asking leave to withdraw his petition. Concurred in.

Mr. Keyser, of the committee on fire companies, made an unfavorable report on the petition of the Union Fire Company, which was concurred in.

Mr. Bender, from the committee on bridges, made an unfavorable report upon the resolution relative to the petition of Wm. Lorman. Read and concurred in.

Mr. Dallam called up bill No. 34, being an ordinance relative to the opening of a part of Scott street. Mr. Keyser moved to strike out the enacting clause; the bill, consequently, was lost in the labyrinths of nonentity.

Mr. Fields, of the joint committee on commerce, reported favorably relative to the petition of the president and directors of the Steam Towing Company.

Mr. Dallam, of the joint committee on streets, reported favorably relative to the opening of Amity alley. The accompanying ordinance was passed.

The supplement to an ordinance entitled an ordinance relative to the collecting of taxes, was returned from the Second branch with proposed amendments, which were concurred in. Also, a communication assenting to the message proposing to refer the Mayor's message and accompanying document relative to the German Reform Church in Second street, to the next annual session of the councils. The steeple and church are therefore knocked, by the councils, into the middle of next January.

A message was received from the Second branch being a report of the joint committee on the harbor, relative to the repairing of Wills-st. Also, a report and resolution from the joint committee on police, relative to the communication of the Mayor in reference to the subject of the sale of wood on the public wharves. Concurred in.

Mr. Dallam called up the resolutions of the committee on the harbor, relative to the opening and repairing of Wills street, and the clearing away of timber on said street, which were read and passed.

On motion of Mr. Bender, the branch adjourned until to morrow afternoon at half past three o'clock.

APPOINTMENTS BY THE PRESIDENT.

For the Baltimore Clipper.

MESSRS. EDITORS: By giving the following paragraph a place in your valuable and widely-circulated paper you will confer a great favor on a subscriber and a number of consumers of gas.

The reason the memorial to the City Council praying some action on the subject of Inspecting and Measuring Gas, was not presented to all the consumers of gas in the city, is, that in consequence of it not being started until after it was known the Councils would adjourn on the 20th, it was necessary to have it presented at the earliest opportunity, which only gave a day or two to circulate said memorial. "Up Town" will receive this apology for not having an opportunity to subscribe his name to a petition in his estimation so necessary, and the prayer of which our Councils are bound to grant. Rest assured the same feelings and sentiments prevail throughout the city, and will not subside until we shall in some measure have relieved ourselves from the burthen under which we are groaning, and check in some degree, *that hand*, whose avaricious grasp is laid so heavily upon thousands of our fellow-citizens. DOWN TOWN.

ABSENCE OF MIND. A person employed about the German Bank of Wooster, in Ohio, was a few days since sent to the post office with $1700; but instead of depositing it in Uncle Sam's mail, he put it in his breeches pocket.

RETRENCHMENT. Under the new law, the Postmaster of New York is restricted to $5,000 per annum, over and above expenses.

RIGHT ENOUGH. A man named Christian Devil has petitioned the Legislature of Ohio to change his name.

MORTALITY IN NEW YORK. The New York City Inspector reports 156 interments in the city during the last week, viz: 39 men, 33 women, 50 boys, 34 girls. Of which 38 died of consumption.

MORE PROOF THAT B. OZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. BOOZ. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours *truly*,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for BOOZ'S Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

JAMES BOOZ.

DAILY SOUTHERN MAIL,
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Eaton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the south via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if the refuse a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good night's rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

JNO. C. MOALE,
General Agent Baltimore Steam Packet Company.

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having Slaves, which they wish to dispose of, will do well to apply at this office before selling.

N. B. All letters addressed to this office (post paid) thankfully received and promptly attended to.

GEORGE GELBACH,
General Intelligence and Agency Office,

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry,* which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences.

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

TO M—— L——.

Each ling'ring hour, which o'er me hangs,
Until once more, I gaze on thee,
Conveys with it the deepest pangs,
And steeps my soul in misery.

How oft 'tis said, that while we hold
Possession of an object dear,
Our feelings pall, and e'en grow cold,
To view that object always near.

But when 'tis placed so far away,
As not to meet our eager view,
How then we yearn, both night and day,
Our former union to renew.

Thus when I'm far removed from thee,
And can no more thy features trace,
Oh! how am I constrained to flee,
And former joys, once more, embrace—

S——.

THE LONE WIDOW.

A LAMENT.

She was a lone widow. What words more expressive of utter desolation than these? What more adapted to elicit the *sympathy* of a cold, heartless unpitying world? The oak tree may spare the ivy, and the elm the vine, yet is not their strength diminished, though they have lost the ductile foliage, and the rich and purple grape. But you may not reverse the case, or the fragile plants are shorn of their comeliness; they languish, they droop, they are trodden on the cold earth.

She was a lone widow. Her staff, her support, on whom she had leaned so long and so constantly, in storm and in sunshine, was taken away, and she was left to battle with the world's sorrows, and deceits, and vanities—alone! Her 'gude man' was her elder, by a *score of summers*. He was not made of iron, though some folks might have thought it. He had his own troubles, and he sank beneath them at a good old age. It was a sad scene presented at his death-bed. Not a child looked on to witness the last moments, or to receive the last blessing, of a parent. But she alone, the wife of his bosom, hung over his pillow, convulsed and sobbing. He grasped her hand—he raised his eyes imploringly—his lips moved—they uttered a few words almost inarticulate—and they were burdened with a request —— that she would never be married to another. He essayed yet again to speak. To her he gave all his worldly goods, and they were many; to her his possessions, without division or reserve; and the condition was, that she should never be married to another.

She consented, with a hesitancy occasioned only by choking sobs. For the last time, he looked up inquiringly, and he asked, 'Never?' And she answered, 'NEVER!' So she closed her good man's eyes in peace. And she arrayed herself in the deepest mourning, followed him decently to the grave, and having watered it with a flood of the bitterest tears, returned to her desolate house —— A LONE WIDOW.

It was the winter time; but no more cold is the earthly clod, than the heart bereft of its beloved. She remembered often the words which her good man had spoken, and oh, she thought it was a crying sin, that widows should be prevailed on to depart from widowhood, forgetting who lies cold in the sepulchre, and to whom they had pledged their early love; that they should exchange their weeds for the gorgeous colors and butterfly robes of vanity, and go forth brides—yet not brides—a spectacle to the world. It was unseemly, it was immodest. But she would never, never lay aside HER robes of mourning; she would go down weeping to the grave —— A LONE WIDOW!

Her neighbors felt for her forlorn estate.—They came to console her, and to mingle their tears with hers. Their efforts were well meant, but unavailing. They could not stay the torrent of her grief. They said that time would 'do wonders,' so they let it have full away.—But they spoke of all the good deeds of her good man. Pleasing, yet melancholy reminiscence! She loved to allude to the words which he spake, and to all the dear works of his hands. There he first courted her, beneath the shade of the old elm-tree; there they first walked in the sweet season of youth; there he used to sit when he played on the viol! Oh! how sweet were the tunes which he played on the viol!—But he was gone, the best of men, and she, she was——A LONE WIDOW!

When the man of God spake of the bereaved, in the sacred desk, or when in social intercourse he clasped her hand, and besought her to forget her sorrows; (for he was kind, and affectionate in his nature, middle-aged, and unmarried;) when he told her that HE who fed the ravens, and did not let a sparrow fall to the ground without his knowledge, would take care of the fatherless, and the lone widow, she wept with redoubled violence; and in the midst of quick-coming sobs you might have heard the echo of those words of bitterness—A LONE WIDOW.

She lived in her desolate house, without a friend to fill up the blank which her good man's death had occasioned. It was a pleasant house, and looked upon a pleasant garden. There herbs, and salubrious plants, and flowers, grew in profusion: but what is all the luxury of sweets, to those who mourn for the departed? Who planted the fragrant catnip, and the thyme? Who kept those beds so clean, that not even a weed intruded? Her good man. Now she had only left her ancient cat, which followed her steps when she walked in that pleasant garden. There were those who thought that she needed a protector and friend; and when they cast in their minds the many who could supply her need, they could not forbear at last remarking among themselves, that it was very queer she should remain——A LONE Widow!

She had a heart which was kind and benevolent, and was not unmindful of the poor and friendless, nor did she ever send the needy from her door until they carried with them the mite of a lone widow. She was not parsimonious in any of her ways. Her robes were dark, but of the finest texture; her caps were made of costliest lawn; for caps became her matronly face right well, and were not unbecoming to the peach-like bloom that lingered on the cheeks of that——LONE WIDOW!

Year after year passed away, and time had indeed wrought wonders. But although the rank grass waved over the grave which had been watered with plentiful showers, she had not forgotten 'the vow interrupted only by sobs,' and she still remained——A LONE WIDOW!

Many suitors came to solicit her hand. They made "honorable" offers. They would take care of her property, they would love honor, and cherish her forever. But she drove them all, all into—despair, and told them (they could hardly credit her words) that she should remain——A LONE WIDOW!

But who can forsee the course of events which mock even the art of divining? At last a skilful lawyer aspired to her hand, and wished to make her his fair client. He came, he saw—and he CONQUERED. He came—as soon as he heard that in such a place there lived such a lone widow. He saw—that report had spoken only the truth of her charms; and he conquered her remaining scruples. 'T was in the 'merry month of May, when blithe birds are singing.' They sat together in the fragrant porch, the skilful lawyer and that lone widow. A sweet briar strayed near, with its branches; a honeysuckle mingled its odors. He preferred his suit in soft accents, she listened with an attentive ear. He pleaded eloquently at the bar of her heart. She was his indulgent judge and jury. He waited patiently for a VERDICT. She said—NOTHING. He pressed her hand warmly in his, and with a most wooing look, gazed up into the dark eyes of that lone widow! She sighed. He asked her why heaved her bosom with that sigh? She spake of her good man, of his lands and tenements, which would be forfeit. He told her that he would take care of that, and he was a skilful lawyer. Then the dark clouds were put to flight which hovered over her brow, and the sun shone brighter, and the birds sang sweeter, and the budding spring broke out into blossom. She followed him shortly to God's altar, and with all her worldly goods did him endow. He was unlike her good man; but I throw the veil over her story. For having forgotten the vow which was 'interrupted only by sobs,' she had taken that skilful lawyer, for better, for worse, and was no *more*——A LONE WIDOW!

ROMANCE OF REAL LIFE. The following narrative we take from the N. York Sunday Morning News:

"Married on Tuesday, by the Rev. William Ash, Thomas Mowitt to Charlotte Conroy, both *of this city*."

The above marriage was consummated in this city on last Tuesday week, and thereby hangs a tale which may be worth the attention of the lovers of the marvellous. Mr. Mowitt is a respectable boot shoemaker, who keeps several men employed and among the rest was one named John Pelsing, who had ingratiated himself so much in his favor by his faithfulness, industry and sobriety, that he took him in partnership about three years since, and had no cause to regret his kindness. From that period Mr. Mowitt and Mr. Pelsing were constant friends and companions, and boarded in the same house until about twelve months since, when one day they were subpœned for a coroner's inquest which was about to be held on the body of a man that had been taken out of the Maiden Lane dock. The deceased had all the appearance of having been a regular dock loafer, and it was the opinion of all present that he had fallen into the slip while in a state of intoxication; but the verdict—which was given in a few minutes—was merely "found drowned."

The jury being dismissed, Mr. M. turned round to look for his friend and fellow juror, who had been at his side till that moment, but he was gone; and he thought he saw him running at almost full speed up Maiden Lane. This struck him as being curious; and it also reminded him of another curious fact, (at least curious as taken in connection with his sudden flight,) namely, that when Mr. Pelsing had first glanced at the face of the corpse, he started and turned deadly pale. Mr. M. then proceeded to his boarding house, and thence to his store to look for his partner, but he was to be found at neither; nor did he return that night; nor the next; nor the next; and two months passed away without bringing any intelligence of him, during which time Mr. Mowitt had fully made up his mind that there was some mysterious connection between his friend and the man that was found drowned, and that, in consequence thereof, Mr. Pelsing had in all probability made away with himself.

Well, so matters rested until a certain day in last June, when a lady called at Mr. Mowitt's store, and asked for Mr. Pelsing. She was told the particulars of his story. "And has'nt he been here since," she inquired.—"Not since," replied Mr. Mowitt, "I know he has," said the lady. "He has not, I assure you, at least to my knowledge," answered Mr. Mowitt. "But I am positive," said the lady. "What proof have you of it," inquired the shoemaker. "The best in the world," returned the stranger, for I am here, and I and Mr. Pelsing are one and the same person. And *strange* as it may appear, such was the actual fact.

Well, the question then was, whether Mr. Pelsing was a gentleman, or a lady, and it turned out that she was a lady, and more than that, her name was'nt John Pelsing at all, but Charlotte Conroy, and furthermore, that she was the widow of the man that had been found drowned. She then stated that her husband who was a shoemaker in Philadelphia, and to whom she had been married for about two years, had treated her very badly, the consequence of which was that she picked up his trade by stealth, and when she thought she was sufficiently perfect, equipped herself in men's clothes, and ran off to this city to be the more safely out of the reach of her lord and master. Here, as we have seen, she got into the employment and remained in the confidence of Mr. Mowitt until the time of the coroner's inquest, immediately after which she proceeded to Philadelphia, where she learned that her husband (who had become a wandering loafer) had, on the hint of some friend, set out for New York about a week before, to look for her; but where, instead of an injured wife, he found a watery grave.

The upshot of this romantic affair was, that Mr. Mowitt requested Mrs. C. to make his house her home; that after a while he found that he liked her yet better as Mrs. C. than as Mr. Pelsing; that by virtue thereof, he proposed a renewal of their terms of partnership, which was accepted; and that on last Tuesday week Mr. Mowitt and the late Mr. John Pelsing became husband and wife.

This is the first instance we believe on record wherein a wife performed the office of a coroner's juryman on the body of her own husband, or wherein a young man was married to his own master. The lady, by the way, is very good looking, and still on the safe side of thirty.

For the Baltimore Clipper.

MR. CLIPPER: Permit me to state that "An *Observer*" in your paper of Wednesday is entirely wrong in stating that the "hulls or shells" suspended from the trees in the Eastern City Spring lot, "contain the eggs of a small fly," which has been so destructive to shade trees. It is very evident, as he says of himself, that he is "not much of a botanist," and he might have added that he is nothing at all of a naturalist, or he would not have committed so unpardonable a blunder. He cannot be a close "observer" even, or his conclusions would have been very different. Those "hulls or shells" are nothing more than the cocoon of a comparatively harmless night-moth, which, in its caterpillar state, drags about with it its external covering, and in which it hybernates. If "an observer" will open one of them, he will find the crysalis of the moth snugly ensconced in the cocoon, from which the perfect animal will be disclosed about the beginning of June. The "worm" which does so much *mischief* to our elm trees, and to those only, is the *larva* of a beetle, which never deposits its eggs in such "hulls or shells," but on the under side of the leaf of the tree, when fully developed. The perfect insect hybernates under the bark or stones, and comes out in the spring to commence its devastations. The burning of the "hulls" would contribute about as much to the extermination of the "small fly that has been so destructive to the shade trees," as would the burning of the steamboat Caroline at Schlosser in New York, to the extirpation of the Florida Indians.

ANOTHER OBSERVER.

For the Baltimore Clipper.

GAY STREET BRIDGE. The city council appears to be in an "eirie swither" quandary and bother, to know what to do with this bridge.—Perhaps, as they are pretty nearly divided, it would be as well to let it alone, and wait for another flood. What if fifty or a hundred lowlanders should be drowned?—what odds? They are a sort of amphibious animals, at any rate—tadpoles, bull-frogs, and croakers. Why incur the expense of five or six thousand dollars for their security, when the Chesapeake and Ohio Canal Company wants as many millions, and must have it? Unreasonable dogs, let them take their chance.

NYM.

WATCH RETURNS. Eastern District—March 17. Two Dutchmen were locked up at midnight for indulging in pugilism. Jno. Thompson, charged with disturbing the peace and drinking too much whiskey, was also imprisoned at 12 o'clock. Shortly after three Netherlanders were apprehended and brought in for being drunk and riotous.

Middle District.—Thos. Kelly was brought in at midnight for riotous conduct and disturbing the family of Mr. Torrance. A colored man, named Tom Stevens, was caught strolling the streets at a ¼ past 12, and taken to the lock-up and 'reprimanded.' A loafer solicited lodgings.

Western District.—Smallwood Owings, under the influence of 'evil spirits,' was found disturbing the peace at half past ten, and locked up till morning.—Two individuals applied for lodgings.

A ROMANCER AND THIEF. "The other evening," says a Paris contemporary, "a well-known novelist, a man of great coolness and courage, was met by a stout fellow, who pulled out a poniard and demanded his purse. 'Capital!' the other exclaimed; 'I was just about to make the same demand on you; but come, as I find I have fallen in with one of ourselves, I'll give you a share of a prime job I have got in hand. Come along!' Deceived by this confidence, the real rogue joined the counterfeit, and they stole along together till they were met by a patrol, into whose hands the good natured friend unkindly lodged his associate."

SHIPWRECK AND LOSS OF LIVES. A correspondent of the Advertiser, writing from Plymouth, says that the sloop Belvidere, of Boston, Capt. L. Hersey, from Princeton for Boston, with sand, anchored in the Cow Yard on Friday night.

During the snow storm she filled with water—the anchors were slipped and she drifted upon White Flat. About 2 o'clock, A. M., on Saturday, they got the vessel afloat, and in attempting to make the harbor were carried outside of the beach and grounded on Brown's Island.

As the vessel struck, the Captain was knocked over by the boom, and drowned. The crew, consisting of four men, clung to the shrouds for four hours, the waves dashing over them every few minutes, when, after two unsuccessful attempts, three were rescued from their perilous situation. The fourth, an Irishman, named Jas. Fearing, became exhausted, and just as the other men were taken off, fell into the water.—*Boston Mer. Journal.*

SAD ACCIDENT. Thomas G. Evans, one of the firemen on board the steamboat Utica, running on the North River, while oiling the machinery on Monday last, was struck by the crank, which broke his jaw bone and skull—no hopes are entertained of his recovery.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE!

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach	Baltimore	2 P.M.
" Baltimore	4 P.M.	"	Washington	6 P.M.
" Washington	5 A.M.	"	Fredk'sburg	12 M.
" Fred'ksburg	12 M.	"	Richmond	5 P.M.
" Richmond	5 P.M.	"	Petersburg	7 P.M.
" Petersburg	7 P.M.	"	Weldon	1 A.M.
" Weldon	1 A.M.	"	Wilmington	1 P.M.
" Wilmington	1 P.M.	"	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout*, whilst it is evident that Fogs! Rough WEATHER!! and STORMS!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be *found not only the most* certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

☞ Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

BALTIMORE CLIPPER.

FRIDAY MORNING, March 19, 1841.

Arrivals. It will be seen, on reference to another column, that we have, through the repeated solicitations of numerous merchants, and citizens, generally, commenced, this day, publishing the arrivals at the principal hotels in our city. Although it is attended with considerable expense and trouble, still we have determined to spare no pains which can, in any way, add to the general usefulness of our journal, and enhance the interest of the reader. In a day or two, we shall add some other hotels to our list, and continue, from this time henceforward, publishing the arrivals as we have commenced.

Elections. A memorial to the Legislature is being circulated for signatures, proposing to divide each ward in the city of Baltimore into two election districts, with the view to enable every voter in the city to deposite his ballot without difficulty. Some regulation in regard to this matter is certainly necessary. There should be no obstruction to the exercise of the invaluable right of voting; and we should suppose it to be the interest of both political parties, as well as the duty of every good citizen, to have such an arrangement as will give free access to the polls.—We have witnessed scenes on election days, which were disgraceful to the actors, and injurious to the rights of the citizens; and we do not confine the application of this remark to either party. We desire to protect every man, of whatever party he may be, in the enjoyment of his privileges as a citizen; and we would punish, with the utmost severity, all improper interference. We can see no objection to admitting a member of each party to sit with the judges as objectors. It is the invariable practice in some of the counties, and has had the most salutary effect. In all the mutations of party, this privilege has been extended, and we never knew it to be complained of by any party. It prevents the confusion and quarrelling which usually attend objections made at the window.

We have heretofore suggested another amendment to the election law, which we would have enforced throughout the state. It is known that great frauds are practised by means of certificates of naturalization—one certificate being sometimes used by several persons. To prevent this, the judges should be provided with a stamp, with which they should stamp upon the certificate the day and district or ward when voted at each election, which would prevent imposition. We would cleanse the polls of illegal votes by all and every practicable means, without regard to parties—so that the result of the election should be the voice of those alone who are entitled to express their opinions through the ballot-box. We take American ground upon this subject; for we have no idea of having elections controlled by those who are not citizens. But there is another evil which ought to be remedied; we mean illegal voting by those who are citizens, and by minors. There has been a great outcry about imported voters—fellows transferred from one section of country to another. We know nothing of such transactions beyond what we have seen in the papers, and are not prepared to say that such illegal voting has taken place. But the penalty imposed by the existing law for such misconduct is insignificant and ineffectual. Let every illegal vote subject the offender to the penitentiary; and include in the penalty all who aid and assist in procuring such vote to be given; and we suspect that but few illegal votes will be deposited. Our laws cannot be too rigid in this particular; for, as all our public concerns are controlled by the popular voice, it is incumbent on the legislature to prevent that voice from being vitiated by corrupt practices. The struggle for power should not make us indifferent to the demands of justice.

Insurance. Many persons are negligent in effecting insurance on their property, and we not unfrequently have to record instances of individuals who have been reduced from comparative independence to poverty, by such neglect. Whilst we would impress upon all the importance of keeping their property, whether real or personal, constantly insured, we would suggest the propriety of examining carefully, in every case, the terms of the policy of insurance. If this be omitted, it may be fatal to the insurance. It will be found, as a condition of every policy, that no other insurance is to be effected without making the fact known to the first insurers, and that an omission, in this particular, works a forfeiture of insurance. This is a very proper clause, and was designed to prevent the commission of fraud; and yet many never take the trouble to read their policies, and violate the terms without the slightest disposition to do injustice. A case of this kind was tried, some days since, in Baltimore County Court, in which *Brown & Wilson* were plaintiffs, and the *Firemen's Insurance Company* defendants. Insurance at several offices had been effected by the plaintiffs without giving the required information to the defendants; and, although it was admitted by the Insurance Company, that no fraud was contemplated, and that the loss, as alleged by plaintiffs, was actually sustained, yet, as they had failed to comply literally with the requirements of the policy, they suffered a non-suit.

Nominated. J. Phillips Phœnix, Esq. has been nominated as a candidate for the Mayoralty of New York, by the Whig party.

New Books. We have received from Messrs. Cushing & Son the following-named works:

"*The Artist's Guide and Mechanic's Own Book.*" A very slight examination is sufficient to convince us of the practical utility of this volume, as it embraces information on chemistry, as applicable to the mechanic arts, electricity, galvanism, magnetism, pneumatics, optics, astronomy, and mechanical philosophy. Also, instruction in practical mechanism, dyeing, &c. &c. with various plates illustrative of the several subjects. This work will greatly assist mechanics in almost every branch, and contains matters of interest to other classes of society.

"*The Life of Commodore Perry,*" by Alexander Slidell Mackenzie, U. S. N., 2 vols. The author states that this work was undertaken to sustain the reputation of Commodore Perry against an attempt made in the Naval History by J. F. Cooper, "to diminish that admiration with which the people of the United States have been accustomed to regard the memory of Perry."—These two volumes constitute Nos. 126 and 127 of the Family Library, a work that deserves to be in every family of the country. We have not had time to examine this life of Com. Perry critically, but, as it is derived from public documents and well-authenticated facts, it cannot fail to be interesting to those who would cherish the fame of our naval heroes, among whom Com. Perry held a conspicuous rank.

"*The Quadroone, or St. Michael's Day;*" by J. H. Ingraham, author of "Lafitte," "Captain Kyd," "Burton," &c. We believe that the author's former publications have been extensively read and approved; and, if "practice makes perfect," we presume that there must be an improvement in the present volumes; but, as we have not had time to read them, we can give no opinion of their merits. We may speak of them hereafter.

Insubordination. Had this volume been produced by Box, or any other distinguished foreign writer, it would have been received with rapturous applause, as containing fine moral sentiments and faithful delineations of character; but the author being an humble individual of our own city, he cannot expect for his work that attention to which it is entitled by its merit. This is unjust and unwise; for we should take pride in fostering native talent. Mr. Arthur has given us an interesting tale, in which he has pleasantly and forcibly exhibited the effects of false pride and family insubordination; and has wove a cap which would fit the heads of others than those whom he has introduced to his readers. The Miss Hardamers are not the only young ladies who, spurning the occupation of their fathers, in their "high-reaching ambition" to shine among fashionable people, have had the mortification to be checked in their career, and to be thrown back into their original obscurity; and we only wish that all such may be able to find the same consolation as the daughters of the shoemaker. We recommend this volume to young ladies, particularly to those who are disposed to use Pa's purse whilst they despise the trade by which it is filled.

Early Marriages. Some of the newspapers are publishing an extract from the "Economy of Health," by Doct. James Johnson, in which the Doctor endeavors to convince the ladies that they ought not to think of marriage before the age of *twenty-eight!* The Doctor must have been jilted by some young flirt, or he would not seriously insist upon such an absurdity—and he deserves to have his ears boxed by every lady in her teens who can reach them. Most young ladies are prepared to take upon themselves the conjugal yoke at sixteen, and to keep them in suspense for twelve years longer would be a most barbarous infliction. We have the opinion of a much greater man than this Doctor Johnson in favor of early marriages—we mean Dr. Franklin—an authority upon which young ladies will more willingly rely. All nature exclaims against this new theory, and we are sure that it will be repudiated by every damsel below the prescribed age, who may have the chance to—marry.

A Custom House Quandary. A few days since, the head officer of the Custom House received instructions to have a certain subordinate removed, and Mr. J. G. placed in his stead. It seems that there were no less than four J. G.'s who had been applicants for the anticipated vacancy, and that each of them claimed, by regular nomination, the situation. All four have, as yet, however, been disappointed, in consequence of the principal officer having been put to his trumps to know which *particular* J. G. to designate.

The above shows the necessity of marking out distinctly the nominated individual. John Smith may be appointed minister to Russia, but the question is, what John Smith?

We understand that notwithstanding the gloom and melancholy which now hangs over the Custom House department, this strange coincidence afforded no little fun.

Squatters. The New York correspondent of the National Intelligencer says: "The Heidelberg, or Patroon war, which created so much fuss fifteen months since, is to be renewed, it seems. The young patroon has recovered judgment against his tenants for rent justly due him. Executions have been levied, but an open resistance is threatened by the Heidelbergers, and the sheriffs as yet stand in awe of the "squatters." The affair threatens to become a serious one, and if much blood is not shed, much ink assuredly will be."

Hon. Henry Clay. We sincerely regret to learn that this distinguished orator and patriot has been much indisposed since his arrival in Baltimore. He was somewhat better last evening. We trust that his political and personal friends will permit him to be tranquil until his health is re-established; and particularly that he may not be pestered by applicants for office.

Canada. The St. Albans (Vt.) Messenger publishes an account of a disgraceful and bloody riot that occurred at Henrysville, Canada, during the elections that have lately been pending. It appears that at the close of the polls on the first day of voting, the radical candidate was 84 ahead of his tory opponent. Upon this being stated, the tories made an attack upon the radicals, in the school house where the polls were held, and the radical candidate was compelled to escape from the window, in order to save his life. The radicals retired, and the tories perceiving that they had no arms, went to a hay rack, broke it up, and provided clubs for those of their own party who were destitute, and pursued the radicals, and upon overtaking them, commenced an indiscriminate attack; two men seated in a sleigh were felled with blows from clubs on the back part of the head. Many others were seriously injured. One, in particular, was knocked down by a blow across the back, and he fell out of the road; his assailants passed on, and the man arose on his knees; then others came up; the Canadian begged for mercy, but his assailants immediately knocked him down again with clubs, and beat him afterwards till he was senseless!

The next day, the polls were again opened, and at noon the radical candidate was 120 ahead, notwithstanding the efforts of the tories to browbeat and force the radicals from voting. This number so exasperated the tories, that a severe contest ensued, and the radicals being poorly prepared to defend themselves, were severely injured. One or more of the latter have died, and many are so badly hurt, that there are no hopes of recovery. It is reported that three have been killed.

Found Drowned. The Richmond Star says: "A boy named Smith was found drowned on Sunday, in the race of the Franklin Mill. Upon examination, it was found that his body was much bruised, and strong suspicions of foul play are entertained. It is said that the boy's father has been in the habit of beating him unmercifully, and considerable excitement is felt upon the subject; but, as the circumstances are about to be investigated, we shall wait for the result, before we give more particulars.

A letter has been received at the Philadelphia Exchange, which states that the ship Commerce, from that port for Rio de Janeiro, was struck with a whirlwind on the 28th December last, which carried away the mainmast and foretopmast and all attached, drawing out the bolts of the backstays and parting the forerigging in several places. Capt. J. rigged jurymast, and notwithstanding his misfortune, reached Rio in forty-one days from the Capes.

Attempt to Burn a Ship. A letter from Capt. Griswold, of the whaling ship Audley Clarke, of Newport, to his owners, dated St. Catharines, Jan. 4th, 1841, states, that he had put into that port to put on shore three men, for the Consul to send home for trial, they having attempted to burn up the ship, which fortunately was discovered before it was too late to save the vessel. The only reason given for the act was that they wished to get clear of paying large bills which the ship had against them.

Mr. Foster's Benefit. Last night Holliday street was truly crowded to overflowing. It was the largest house that has been witnessed at that theatre for the last ten years. More than two hundred persons were compelled to return home, being unable to procure seats. We cannot but congratulate Mr. Foster upon his merited success. It is hoped that our citizens will be favored with a repetition of "Young Napoleon."

Artful Thief. A woman named Toker has been arrested in New York for stealing corporation bonds, to the amount of $4000, from a man with whom she lived as housekeeper. She endeavored artfully to fasten the guilt upon others, but a broker to whom she had sold some of them, recognized and identified her and she was accordingly held amenable to the law for her crime.

Signora De Goni's Concert. The beautiful Signora De Goni's Concert will take place at the Assembly Rooms to-night. Those who wish to hear the guitar in its perfection should attend.—She is certainly unequalled. We have heard a great many persons express a wish to hear the performances of the Madame. They should go to-night—it may be the last opportunity.

An Everlasting Case. The case of David Frost, whose wife Eveline married him in joke, and has ever since refused to live with him in earnest, is still before the Legislature of New York. The Tattler thinks that it will be necessary to grant the man's petition to get rid of him.

An Extraordinary Work. A society has been formed at Rome for the publication of a complete and uniform edition of the Fathers, down to the twelfth century. The work, it is supposed, will embrace 500 volumes, and each volume will cost about 14 francs.

A new sect. A new sect of Religionists, so called, has sprung up in Yates county, N. Y. called the 'Sweezyites, or Holy Rollers," an appellation applied on account of their exercises being those of rolling upon the floor.—They practice, it is said, an indiscriminate communion of the sexes.

Detention. The Philadelphia Chronicle of yesterday says:—The passengers from Baltimore to this city, were detained some time yesterday, owing to the low stage of the water in the Susquehanna. The mail bags were taken over in small boats, and reached the city in due time.

Melancholy catastrophe. A small dwelling house was consumed in Amherst village, Lorain county, Ohio, on the morning of the 11th inst. Two young ladies, Miss Bivins and Miss Cunningham, perished in the flames.

Extra session. We give below the proclamation of the President of the United States, summoning an extra session of congress to meet on the 31st of May next. This will render it necessary for the people of Maryland to elect members of congress in advance of the usual period. We shall, of course, have parties marshalling their forces in a few days, and fancy that we can already hear the command to "fall in the ranks." Stump speeches will be "as plenty as blackberries," though not so palateable. Public officers, new and old, we guess, will be quiet on the occasion.

OFFICIAL.

By the President of the U. States of America.

A PROCLAMATION.

Whereas sundry important and weighty matters, principally growing out of the condition of the revenue and finances of the country, appear to me to call for the consideration of Congress at an earlier day than its next annual session, and thus form an extraordinary occasion, such as renders necessary, in my judgment, the convention of the two Houses as soon as may be practicable, I do, therefore, by this my Proclamation, convene the two Houses of Congress, to meet in the Capitol at the city of Washington, on the last Monday, being the thirty-first day, of May next. And I require the respective Senators and Representatives then and there to assemble, in order to receive such information respecting the state of the Union as may be given to them, and to devise and adopt such measures as the good of the country may seem to them, in the exercise of their wisdom and discretion, to require.

In testimony whereof, I have caused the seal of the United States to be hereunto affixed, and signed the same with my hand.

Done at the city of Washington, this seventeenth day of March, in the year of our Lord one thousand eight hundred and forty-one, and of the independence of the United States the sixty-fifth.

[L. s.]

W. H. HARRISON.

By the President:
Daniel Webster,
Secretary of State.

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

Chief Justice Hornblower, presiding.

Wednesday, March 17th. The court, this morning, overruled the motion made by Robinson's counsel yesterday, to quash the indictment.

They however stated, that the first and third counts of the indictment were defective, and must therefore be quashed.

The prisoner then plead, de novo, not guilty, to the second and fourth counts of the indictment. He was then placed upon his trial.

The whole of the day, from nine o'clock in the morning, until a late hour in the evening, was taken up in empannelling the jury.

The panel of 48 jurors being exhausted at one o'clock, the Court adjourned for a short time.

A large number of talismen were then brought into the Court Room.

It is now seven o'clock in the evening, and only ten jurors have been sworn in. The court are about to adjourn.

☞ If I were to send you the arguments of the counsel on both sides, relative to the challenges and the questions which ought or ought not to be put to the jurors, I should fill columns of the Clipper.

The whole of the day has been taken up with discussion of them. The excitement consequent on this trial, instead of decreasing, has increased to-day, the Court room being more crowded than ever. Reporter.

The Boston papers of Tuesday state, that the steamship Britannia was to sail at 3 o'clock, P. M., for Halifax and Liverpool. She carries about seven thousand letters, a large number of newspapers, and fifteen passengers, amongst whom is Mr. A. Rutger of Philadelphia.

Burglary. The store of B. F. Horne, Washington street, Boston, was broken open on Sunday night, and a trunk, containing a counterfeit $10 note on the Marble Manufacturers' Bank, New York, a counterfeit quarter dollar, and a Jackson cent, stolen.

Mr. J. H. Hewitt's Concert. We are requested to state that the long contemplated benefit Concert of Mr. Hewitt will take place in the Saloon of the Assembly Rooms, on Tuesday night next.

Military. The Hibernia Greens, and Montgomery Hibernia Greens turned out in Philadelphia, on the 17th, in honor of the day. The latter company dined on true temperance principles, at Parkinson's.

Hotels in Burlington, N. J. The hotel keepers in Burlington have resolved to close their doors to visiters on Sundays.

The jury in the case of Wells & Co., versus the Lehigh Coal Company, yesterday morning returned a verdict for the plaintiffs, $3410.

Accidents. Two men were badly injured by the explosion of a cannon at Pontiac on the 4th inst., and three at Chicago.

MARRIED,

On Tuesday evening 16th inst, by the Rev. Joseph Shane, Francis Ray to Miss Susan Tipton, all of this city.

DIED,

At Brooklyn, N. Y. on 14th inst. Francis Edward, only son of Francis J. and Miranda E. Cropley, aged 5 years, 9 months, and 14 days.

"Lay him in the earth," for he came from thence—
Too like the sweetest flowers, first to fade;
Weep not! but rather wonder, that his King
Did leave so fair a subject, and thus long,
Upon so comfortless a place as earth. L.

On the 17th inst. Thomas Thorpe.

LOOK OUT!!

"Caution" is the Parent of Safety.

AN ATTACK of the "PILES" may be positively prevented by using (when the premonitory symptoms are felt) the celebrated HAYS' LINIMENT. There are more than one thousand people in this city, and in the United States an immense number, who have suffered beyond endurance by this dreadful complaint, who keep themselves wholly free from attacks by applying this Liniment when they feel any symptoms of its approach—of this there is the most perfect proof.

WRITING

MANNER OF EXECUTION. Off hand Penmanship by the action of the whole arm, as also a swift, finished, business style, by the fore arm and hand, adapted to letters, bills, orders, notes, sales, receipts, and finished journal entry.

Taught with certainty in TEN LESSONS OF ONE HOUR EACH.

Ladies will be attended to exclusively at their respective hours. They write in separate apartments.

*** REMEMBER improvement guaranteed, and additional lessons given free of expense, say, ten, twenty, or thirty, if desired. What can be fairer?

AN APHORISM. Whatever be the opposition which success encounters—whatever be the malevolence which merit awakens, the fact of Goodwane's triumph in his peculiar department, if not unquestioned, is beyond doubt unquestionable.

Malignant rivals may misrepresent, and sectional jealousy wrest and pervert the best and purest intentions, but the professional knowledge and integrity, and consummate ovation of the present system of penmanship, have been too long confessed to require any labored eulogy from friends, or any advocacy against interested opponents.

The hour has been when firemen might avail:
That hour has passed. Triumphant have I been.
Triumphant wish to be; and, whate'er betide,
Still to my own true knowledge true, I'll rest
My cause upon my merit.

SAVE THE FIPS.—(BY SHAPE.)

I met a man the other day,
Who, in his own peculiar way,
Said—"Save the fips, for fips make dollars,
And one *well made*, a hundred fellers."

A pinch of snuff may cost a penny,
That penny spent is gone forever;
Just like lamented Paganini,
Or snow drops falling in the river.

A merchant broke, will lose his credit—
Yes, wiser men than me have said it;
So broken dollars seldom find,
A friend to treat them very kind.

One fip gone, the charm is broken—
Like taking hair from out a locket,
These remaining are no token,
They rest uneasy in the pocket.

Many fips, well stuck together,
Are barriers strong 'gainst wintry weather,
And, as the old folks used to say,
Prepare us for a "rainy day."

A child may break some valued ware,
When man, with all his skill, can't mend it;
So of the fips kind friends take care—
A dollar broke, we're apt to spend it.

CITY COUNCIL.

FIRST BRANCH, March 18. The Branch met pursuant to adjournment. Present, H. Snyder, Esq. President, and all the members except Mr. Dryden.

Mr. Cole presented a memorial and petition from the Gas Light Company of Baltimore, signed Columbus O'Donnell, President, counter to the memorial presented some days since, having upwards of three hundred signers.—The memorial referred to the existing state of the Gas Company—the manner in which it was conducted—the fairness of distributing gas to the consumers, &c. On motion of Mr. Cole, the matter was referred to the joint select committee to which was referred the counter petition of John A. Roach and others, some days since.

A communication was received from the Mayor, including a report from the Trustees of the Baltimore city and county alms-house, making certain statements, propounding certain questions, and answering others. Referred to the joint select committee on the alms-house.

Mr. Fields presented the report of the joint committee on the harbor, accompanied by an ordinance, relative to the licensing of wood hucksters. Laid on the table.

Mr. Hanson presented another report from the joint committee on the harbor, relative to the rooting of a wharf on South street.

Mr. J. S. Brown presented a petition on behalf of the United fire company, signed by the President, relative to a fire-ladder and life-escape purchased by said company, praying for a special appropriation to defray expenses of said ladder and life-escape. Referred to the joint committee on fire companies.

A message was received from the Second Branch, being a report and resolution of the joint committee on the alms-house. Also, on the petition of the President of the Union fire company. Also, relative to the destroying of city certificates. Also, a report and resolution of the committee on the petition of Wm. Lorman. Also, a report and resolution from the joint committee of ways and means relating to the communication of the late city collector. Also, a report and resolution of the committee on claims, relative to the petition of Frederick Crey, all of which were concurred in.

Mr. Fields called up the resolution favorable to the petition of the president and directors of the Baltimore steam-towing company. The yeas and nays being taken, the resolution was lost. Yeas 7, nays 15.

Mr. Cole called up bill No. 35, entitled a supplement to an ordinance to regulate the several markets of the city of Baltimore, which, upon being read, was passed.

Mr. Hanson moved that a message be sent to the Second Branch, proposing to rescind the resolution which requires that the Councils adjourn sine die on to-morrow, Friday, the 19th inst. On motion of Mr. Hanson, the matter was laid on the table.

Mr. Keyser, of the joint committee on fire companies, reported unfavorably on the petition of the United Fire Company. The committee were discharged.

A message was received from the Second Branch, being a report and resolution on the petition of Joseph Jarvis & Son. The resolution authorised the petitioners to withdraw their petition, which was concurred in.

Mr. Dallam presented a report of the joint committee on streets relative to the petition of Samuel Moore and others, which was unfavorable. Also an unfavorable report on the petition of Charles R. Barney and others. Also on the petition of Thomas Horn and others, and on the petition of the city commissioners relative to the repairing of Light street, which were likewise unfavorable.

Mr. Bender, of the joint committee of ways and means, presented a report relative to repairing the two Council chambers, which was in part favorable.

Mr. Holter called up the resolution favorable to repairing the Eastern Fountain, which, upon being read, was passed.

On motion of Mr. J. S. Brown, the Branch adjourned until to-morrow afternoon at half past three o'clock.

The Baltimore Clipper has celebrated the opening of its fourth volume by a new and beautiful head, and other mechanical improvements. It is one of the best of the "penny papers."
Boston Herald.

If the extent of circulation prove any thing, we must admit the above compliment. It may be safely asserted, that we now circulate more papers, daily, than any other establishment south of New York—a truth which the business community has very properly discovered.

PILOTS' NOTICE. The pilots of Boston give notice to all masters of the class of vessels under two hundred tons burthen, that are now exempt by a late act of the Legislature, from paying pilotage fees, that by the letter of the said law, the pilots are also exempt from any obligation of rendering their services to that class of vessels when called on in stress of weather. Consequently, the pilots feel at liberty to state, that they shall charge such a compensation as they may think a remuneration for services rendered at such times.

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.
FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety* or *economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those *desirous* of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no metre to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

F. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.
Yours respectfully, THOMAS RILEY,

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. BOOZ. DEAR SIR—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hearhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,
THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.
JAMES BOOZ.

DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road.

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

JNO C. MOALE,
General Agent Baltimore Steam-Packet Company.

Passage (and fare on board) to Weldon,	$14 00

CONSUMPTION! CONSUMPTION!!
MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences.

Your friend, ABRAHAM SKINNER.
Crawford county, Pa.

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having Slaves, which they wish to dispose of, will do well to apply at this office before selling.

N. B. All letters addressed to this office (post paid) thankfully received and promptly attended to.

LINES

Publicly addressed to Mrs. R*****y, *of Calvert street; and to* Mrs. McD*****d, *of Holliday street—who kindly send me, while sick, the greatest delicacies of the season.*

Oh! Friendship! angel of the earth,
Descended from the realms above;
In Heaven's high hall thou had'st thy birth,
Twin sisters of supernal Love.

Thou com'st with woman's winning grace,
Seen in her dark and dazzling eye;
And in her fascinating face,
We mark thee, yet we know not why.

Oh! Woman, in thy heart is Heaven,
Thy goodness fancy may not sketch;
To thee the virtues all are given,
And, snatch'd from thee, man were a wretch.

Ladies, forgive the Bard, who kneels
To wake the harp at virtue's shrine;
For oh! he has a heart that feels
The gratitude that is divine!

He never bow'd at Woman's feet,
Or sung in vain to woman's ear;
Oh! there is something passing sweet,
In woman's smile, and woman's tear!

God grant that you may never know
The cruel ills that I have known!
But may life's current softly flow,
Where sweetest, fairest flowers are strown.

WATCHING FOR THIEVES, vs. SEARCHING FOR THIEVES; *or a true exemplification of the danger and risk of dependence on circumstantial evidence.* The following facts happened on one of our principal wharves several years since:—An agent of the Rail Road Company having from time to time missed a number of pieces of wrought iron used for connecting the cars together, called couples, and ascertaining that the articles missing were always stolen *at night*, while the cars were in some of the narrow streets between the docks or on the City Block, *where* interruptions were least to be expected, determined to disguise himself, *select* some convenient hiding-place, and *watch* for the thieves. He accordingly procured an old pea-jacket, in the pocket of which he stowed away a long horse-pistol loaded with buckshot; this being sufficiently large, he put on over his usual dress, while he exchanged his hat for an article made water-proof by paint and varnish, commonly called a "south-wester" by sailors, with a broad brim behind, to protect the neck and shoulders from the inconvenience and danger of being constantly wet in rainy weather. Thus accoutred, he sallied down Patterson street below Cable, and being himself an "old salt," imitated the careen-aught swagger of a drunken sailor to the life, having succeeded in eluding recognition, and snugly ensconced himself behind an old door which he found leaning against the wall of a warehouse, within a convenient distance of the cars, he patiently awaited the approach of the thieves till a late hour, without observing the slightest appearance of cause to suspicion any one whom he saw, and becoming impatient, lonesome and chilled, he was gradually coming to a determination to abandon his hiding-place and go home. While musing upon the propriety of this step, his attention was attracted by a slight noise among the cars, and upon looking that way his drooping and disappointed hopes suddenly revived. He discovered a man cautiously advancing towards the place of his concealment and carefully looking in and about the cars, and occasionally jumping from one side of the track to the other, over the conecting couples of the train—this rattled them, and gave our friend under the door renewed hopes of at last detecting the long-wished-for depredator. So anxious was he to make sure of his prisoner, that it was with difficulty he restrained himself from immediately rushing out and securing him. But a little timely consideration prevented him from making any movement until he should actually see *him in the* act of bagging the iron, and then there could not possibly be any mistake. In this, however, he was disappointed; as the man continued the same course of action as when first observed, and having got through his examination of the cars, and duly scrutinized every millstone and corner about the spot, followed up the search by crossing over and looking under the old door where D——r was squatting in anxious expectation of pouncing upon and securing the object of his wishes.—What must have been his astonishment and disappointment, when the door was raised and lifted several feet aside, his person rudely seized upon, and his ears greeted with the following unlooked-for accusation:

"You infarnal scoundrel, I'll larn you better behaviour than to roll off my cargo in the night. You can't escape. I say where's that barrel of oil you just rolled off?"

D——r was convulsed with laughter, and gave full vent to his inclination by indulgence in repeated bursts of the most uproarious description. This to the other was like turning him into ridicule, and by no means diminished his rage. He therefore continued by again asking about the oil, and remarking that he couldn't be "come over" in that sort of way, and if he expected to be released, he had better give up the oil, and go about his business.

D——r at once comprehended the whole affair, and, being inclined to carry out the joke as humorously as possible, replied that it was perfectly useless to attempt to coerce *him* in *that sort o' way*, and demanded to know why *he*, who was himself on the lookout for thieves, should be arrested, without proof, as a thief, when he was really an innocent man, and entirely ignorant of any of the circumstances connected with the *loss* of the oil alluded to. His answer was, "I tell you that you don't come it over *me* in that way. I only want my oil, and I believe you know something about it, or you wouldn't be hid there like a thief;" at the same time, he renewed his grasp on D——'s collar, and attempted to drag him to the watch house. D——r resisted, and explained his situation, at the same time removing his disguise, and displaying his usual dress, accompanying his "expose" with the disclosure of his intentions towards his accuser, and informing him that *he* had made a very narrow escape, as he (D.) was seriously deliberating whether to shoot him or not, at the same time displaying his long pistol, to substantiate what he had asserted. This explanation did not entirely satisfy the other, who still believed that the tale was a "*ruse*," to get off. He demanded further proof, which was readily produced by an appeal to the watchman of the ward, who, having heard their dispute, now came up, and, being well known by D——r, fully satisfied our Yankee captain as to the truth of his statement.

A full explanation then took place on both sides, during which it appeared that the *searcher* was a captain but lately arrived from New Bedford with a cargo of oil, which had been landed, and had remained on the wharf *over* night, a barrel of which he discovered (on his return from the theatre) had recently been rolled off; and, naturally supposing the thief and his booty to be at no great distance, had proceeded, at once, to search for both or either; he was engaged in this way when he discovered D——r, and was in time discovered by the latter, and from the *movements* of the one party, and the *situation* of the other, mutual suspicion was very naturally excited; and though, at certain stages of the affair, each was almost sure of success, yet, had either acted more rashly, or had proceeded to such extremities as the circumstances of the case would seem to have warranted, another evidence of the necessity of exercising the greatest caution before action in cases where positive proof is wanting, would have been added to the numerous instances now recorded of the danger and risk of depending upon circumstantial evidence alone.

BALTIMORE MARKET,
March 19, 1841.

Flour. The last sales of Howard-st. Flour have taken place at $4 37½ for good common brands from stores. We therefore give the above as the quotation price. Transactions, however, have been limited. The wagon price has advanced to $4 25. We note sales of City Mills at $4 50.

Grain. Maryland white wheat 90a95 cts., and red at 85a90 cts. Some choice parcels of wheat for family flour have been disposed of at 98a100 cts. Maryland Rye, 48a50 cts.; do. Corn, yellow, 41a42 cts; white do. 40a41 cts. Sales of Maryland Oats have been made at 25a27 cts., and of Virginia at 23a24 cts. Cloverseed, $5 from stores.

Provisions. This market continues without any material alteration or much animation. Mess Beef, $12.50; No. 1, $10.50; Prime, $8.50a$9. Western Bacon, assorted, 7a7¼ cts. Hams, do. 9 a9¼ cts. Middlings, 7¼ cts. Frederick county cured Bacon, of assorted quality, 7¼ cts. Baltimore cured Hams, 10a10½ cts. Middlings, do. 8a 8½ cts. Western Lard, in kegs, No. 1, 7 cts.—There have been but few transactions in Butter. Glades, No. 1, 18a20 cts.; No. 2, 14a18 cts.; No. 3, 9a14 cts., according to quality. Western, No. 1, 10a11 cts.; No. 2, 8a8½ cts.; No. 3, 7a7¼ cts.

Cattle. There is a fair supply of Beef Cattle. Prices are without much change. We quote last sales at $6a7.75 per 100 lbs. according to quality. Live hogs command from $5.50 to $5.75 per 100 lbs.

Whiskey. We quote hhds. at 21 cts., and bbls. 23 cts., as at last quotations. Wagon price exclusive of bbl., 19 cts.

At ALEXANDRIA, on Wednesday, flour was $4; Wheat, red, 85a87c, white 91a95c; Rye 50c; Corn 40a41; Flaxseed 75c; Oats, from wagons, per bushel, 30a33c; from vessels 28a30c.

At BOSTON, on Tuesday, there were further arrivals of Ohio Flour, and sales at $4 50a4 56 per bbl. cash: Howard street $4 75, 4 mos.—common brands, Genessee, $5, and fancy $5.12½ cash. Several parcels of Corn at 50a51 for yellow flat, and white 46a47c, the market closing more firm at these rates. Southern Oats 31c per bushel. Cotton, no sales of importance. Molasses, but little doing; Cuba distilling, 18½c, and Cuba retailing, 20½a21c per gallon.

PUNCTUALITY. It is stated in the Boston papers that Mr. Bancroft, the Collector of the port, has collected more than than ten millions of dollars of revenue, and every bond which has been taken by him and has fallen due, is discharged. There is not a single instance of default on the part of any merchant during his official term.

SHOES AND BOOTS. The females in the town of Stoughton, Mass., noted for ladies' shoes, perform much of the labor, finishing entirely the upper part of the boot. In the year 1837, there were 174,900 pair of boots, and 53,250 pair of shoes manufactured in Stoughton—valued at 487,390 dollars.

MESSRS. EDITORS: Your remarks in this morning's Clipper on the article from the pen of Dr. Johnson, in relation to early marriages, would, I think, have been modified, had you been aware of a mistake that has been committed by some printer in the article in question. Dr. Johnson does *not* "endeavor to convince the ladies that they ought not to think of marriage before the age of twenty-eight." *His* words are, in substance, that ladies ought not to marry before the first year of the *fourth septenniad*, that is till after they are *twenty-one*, not twenty-eight.—*The twenty-second year* is the first of the fourth septenniad. I am sure the ladies will be glad to be relieved from this supposed ban of science. That Dr. Johnson is very nearly right, when properly read and understood, I feel very much inclined to believe, both from moral and physiological considerations. But the main object of these hurried remarks is the reconciliation of popular feeling with true science.

PHILO JOHNSON.

[This is quite une autre chose, and comes nearer the mark. Seven years are a long time for a lady to wait for a husband; and we thought that Doctor Johnson was rather hard on the fair sex in requiring them to refrain from matrimony until they were twenty-eight—but as our correspondent has corrected the mistake by which the Doctor's opinion was misrepresented, and shewn that girls have his permission to marry at the age of twenty-one, we are content, though we doubt whether young ladies would not prefer a still earlier start on the matrimonial journey.] *Ed. Clip.*

GREAT FRESHET AT THE SOUTH. The Charleston papers which we received yesterday morning contain accounts of a great freshet in that neighborhood. We extract the following:

The Charleston Courier says: The effects on the railroad have been of the most disastrous character, and great fears are entertained that Hamburg and Augusta have suffered severely.—At Hamburg, the river was raising at the rate of eighteen inches per hour, and all the inhabitants were moving. Two breaches had been made in the railroad, of several hundred yards. The locomotive 'Ravenel' started on her trip, when the road gave way, and threw her on a bank, where she still remains. It was the impression of those who were experienced in the matter, that the water would continue to rise yet, for a day or two, although the rain had ceased, and at the present time no calculation can be made as to what may be the amount of damage sustained.

TRIAL OF MCLEOD. The Lockport Courier informs us that the trial of McLeod is *not* likely to be removed from Erie county to Albany, his counsel having made an application for a change. The Courier says also that the trial will not take place, probably, at the coming circuit; a commission to examine Captain Drew, now in England, will be asked for, it is presumed, and granted. Chief Justice Nelson is to preside at the trial, and the District Attorney of the State, Mr. Hall, will aid the County Attorney in the prosecution.

WATCH RETURNS. Eastern District.—March 18. Negro Abraham Ellis was brought in at half past ten, charged with fighting and disturbing the peace. In the morning, reprimanded and released.

Middle District.—John Thompson was found asleep in the street, having drank too freely, and brought in for more comfortable lodgings. The store door of Mr. Samuel Ellicott, on Light street, was found open, and closed by watchman Gregory.

Western District.—Clara Williams, colored, was taken out of the Lexington Market-house, at 10 o'clock, intoxicated. Two white men solicited lodgings. All released in the morning.

POLICE. Owen Humphreys, charged with stealing a piece of blue black silk, containing nine and a half yards, was yesterday morning arrested and taken before Justice Penington. Giving security for his appearance, he he was released.

George Kretzer and Frederick Nienhart, charged with rioting and disturbing the peace, were arrested and taken before Justice Barnard. Giving security for their future good behaviour they were released.

THE LATE FIRE AT PORTO RICO. The Norfolk Beacon learns by an arrival there from Mayagues, Porto Rico, that from 6000 to 7000 persons were rendered houseless and homeless, and exposed to suffering and privation, by the late destructive *fire* at that place. A church, a prison, and *one or two houses were standing*, as beacons to point where the city of Mayaguez once stood. The total loss was estimated at about $4,000,000.

ANOTHER FATAL DUEL. Judge Smith, of the Illinois Supreme Court, and Mr. McClernand, late Secretary of the State of Illinois, fought a duel on the 4th inst., at Alton, with rifles, at fifty paces. Judge Smith, who was the challenger, was killed on the spot.

☞The sloop Belvidere, of Boston, Captain L. Hersey, was wrecked during the storm on Friday night, near Plymouth, and Capt. H., and a hand named James Fearing, were lost.

FATAL ACCIDENT. A man named Patrick Morris, a native of Ireland, aged 40 years, fell from the deck of a ship in Peck Slip into the dock, New York, on Wednesday last, and was killed.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE!

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M. reach	Baltimore	2 P.M.
" Baltimore	4 P.M. "	Washington	6 P.M.
" Washington	5 A.M. "	Fredk'sburg	12 M.
" Fred'sburg	12 M. "	Richmond	5 P.M.
" Richmond	5 P.M. "	Petersburg	7 P.M.
" Petersburg	7 P.M. "	Weldon	1 A.M.
" Weldon	1 A.M. "	Wilmington	1 P.M.
" Wilmington	1 P.M. "	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, is *sure of a connection throughout*, whilst it is evident that Foul Roads Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon; and travellers have no expense or trouble with their Baggage.

☞This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞*This is the only Daily Line to Richmond and Petersburg.*

☞Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of

CASH FOR NEGROES. The highest cash prices will in all cases be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

BALTIMORE CLIPPER.

SATURDAY MORNING, March 20, 1841.

☞-The Ocean, containing all the choice and best intelligence of the week, besides a number of original and selected tales, can be obtained at the counter to-day, done up in wrappers or otherwise. Price, per single copy, six cents. Annual subscription, $1.50 in advance.

☞-It will be seen by the proceedings of the City Council, that it adjourned *sine die* last evening. We must congratulate this body of legislators upon their activeness and perseverance. They have done more substantial business during the last session than has been accomplished either in Congress or the State Legislature. This is saying much, but, comparatively speaking, is near the truth.

To Correspondents. During the past week we have received a number of communications in prose and poetry, the following of which shall appear in due time: "The Sabbath and its Worship," by G. W. B. "Maxims," by P. A. B.—"Woman," by W. I. L., M. D. "To C***a," by **. "Evening Musings," by G. W. M.—"Lines," by Emily. "Temperance," by W. I. G., we shall keep on hand until the great temperance procession which is in contemplation.

"To a favorite Boy" will be attended to.—There are some of our poetical correspondents, who are in the habit of rhyming after their story has been told. Such we are compelled to reject. Poetry, like wit, does not consist in quantity, but in quality.

Responsibility. As among the Israelites of old, the "scape-goat" bore the sins of the people, so here, parties make the President the "scape-goat," who is to be responsible for every evil; and this will be the case as long as party violence continues. Let who will be President, he is held up either as the author of all misfortunes, or as the person by whom they should be relieved. If a short crop occur from drought or other cause, the President is taunted with the failure. If a bank break, or a defaulter run off, he did it. A drunken man stumbles and falls into the gutter: he damns the President. In short, the President is held accountable for public misfortune and private woe—not by the people generally, but by the party presses. But then, to counteract this injustice, he is lauded as infallible by his friends, who will hardly admit the agency of the Creator in carrying on the works of nature. Thus we have the ebony and topaz of party. It is this extravagance of abuse and of praise, that destroys the real utility of parties, for it admits of no medium; listens to no reason, and is blind to the dictates of justice. It is right to keep a watchful eye on rulers, and to hold them to a strict accountability for the discharge of their duties; but, when editors "snarl and bite, and play the dog," instead of acting as trusty and faithful sentinels, they become more mischievous than beneficial, and blind the people when they should give them light. With such men, party vigilance degenerates into factious arrogance, and the freedom of the press into the grossest licentiousness. Mildness and moderation will accomplish more than harshness and violence. Men may be persuaded out of error; but call a man a scoundrel, and he will listen to no reasoning in justification of the epithet. If party editors would be just to their own characters, they would have more respect for those of other people.

Unfortunate Circumstance. Some weeks since (says the Delaware Gazette,) an unfortunate misunderstanding occurred between two of our citizens of opposite politics, whose names were Mr. James M. Coxe, and Mr. Alexander Stephens, the former being a warm and ardent democrat, and the latter quite as ardent a whig. The difficulty occurred in the evening at one of our hotels. Stephens dared Mr. Coxe to fight him; Mr. Coxe declined, alleging as a reason that he did not wish to have any thing to do with Stephens, and left the hotel for the purpose of getting rid of him. He was followed by Stephens, and a fight ensued, during which Mr. Coxe's arm was dreadfully lacerated by a knife in the hands of Stephens. They were then parted by the bystanders, and Stephens retired to his office a few steps below the hotel, leaving his coat and hat behind him. Mr. Coxe also returned home, and had his wounds dressed; but, notwithstanding he was attended by the best medical aid which the city affords, he lingered under excruciating pain until Friday night last, when death put an end to his sufferings. Stephens was arrested the next day after the unfortunate circumstance occurred, and gave bail for his appearance at Court—but after Mr. Coxe's death, he was given up to the proper authorities, and committed to the jail at New Castle on Saturday evening, to stand his trial at the ensuing May term of the Court. Mr. Coxe's remains were attended to the grave by a large concourse of citizens on Sunday afternoon, and a general gloom was pictured on every countenance. The deceased was highly esteemed by all with whom he was acquainted, and Mr. Stevens has heretofore borne a respectable character. We refrain from giving a more full statement of this unfortunate affair, as the whole matter will, no doubt, undergo an investigation before our courts, and whatever may be the result, there is every reason to suppose that full justice will be done to the accused.

Temperance. The total number of members of temperance societies in Philadelphia, is about 17,000.

Extraordinary Proposition. When the Thames Tunnel was projected, it was generally believed to be a visionary undertaking, which could never be accomplished. But the work is nearly completed, and a short time will exhibit the surprising spectacle of carriages passing under the river whilst vessels are sailing on its surface. It was probably the success of this work, that suggested one of a more stupendous and extraordinary character; and which, if ever effected, will be emphatically, *the* marvel of the world: the pyramids of Egypt, and the great wall of China will henceforth be considered perfectly insignificant. It is proposed to construct a Bridge or Tunnel from Dover to Calais! A Havre journal gives the following account of this novel project. When Mr. Coppitt shall have finished this labour, we advise him to turn his attion to the construction of a Bridge across the Atlantic, without he should think that a Tunnel can be more expeditiously made. "An Englishman," says the Havre paper, "describing himself to be an engineer recently arrived at Havre, has been to Paris to propose the plan of a passage by land from Dover to Calais. The inventor has given the following account of his gigantic plan to many of the inhabitants of Havre. M. W. Coppitt (the inventor) proposes to place twenty thousand piers of stone across the Straits, which are to be laid at the bottom of the sea. These are intended to form the foundation of a monstrous bridge seven leagues in length. A plan of this has been engraved in London, and will be publicly exhibited in Paris. According to the inventor's account, he gives the soundings of the Straits with great exactness, and the various depths of the sea along this extensive line. The estimated expense of this bridge is *not to exceed* 1,800 millions of francs. Though the plan of cones or piers in imitation of the dike at Cherbourg may appear ridiculous, M. W. Coppitt is an ingenious man, and his determination being that England shall be united with the Continent, he has another project to effect it. His plan, number 2, is this: It is not to travel above the surface of the water, but underneath it, nevertheless on dry and firm ground. In order to accomplish this, M. W. Coppitt proposes to fix a series of tunnels made of cast-iron, three feet in thickness, and 18 feet diameter inside. The first of these tunnels, which is to serve as its entrance, is to be placed at Dover, and the last to terminate at Calais, after following the undulations of the submarine ground. M. W. Coppitt thinks that his metal tunnel from Dover to Calais would not cost more than 1,000 millions of francs; half of which he proposes should be contributed by France and the other half by England."

More of it. We dislike puffing of all things; for which reason we are extremely diffident in becoming our own trumpeter. But when our merits are discovered by others, who take the trouble to sound our praises, we cannot be so impolite as to exclude their kind offerings from our columns. We have submitted many testimonials of this kind, confident that they would gratify our numerous readers, and now add the following highly complimentary notice, for which we are indebted to the editors of the *New Hampshire Patriot*.

The Baltimore Clipper has got a new head. The Clipper is an excellent daily, with the largest circulation in the monumental city. There are, however, "old heads" connected with this paper, whose place could not easily be supplied with new ones. We wish your craft a pleasant voyage, gentlemen."

The compliments which are thus showered upon us daily from all quarters, have destroyed the appetite, and, we fear, crazed the brain, o the genius who indites for the Philadelphia Ledger. We are sorry that he has taken to his bosom the green-eyed monster. He cannot impede the progress of our bark, for *Baltimore Clippers* are famed throughout the world for outsailing every thing. If wise, he will no longer "show fight," but throw us a tow-line, and take his station in our wake. We have enough of headway to carry with us a dozen such small craft.

Regimental Schoolmistresses. Queen Victoria has resolved to appoint a schoolmistress for each regiment, so that the female children of soldiers may be educated. This is an excellent move, and shews that the Queen, since the birth of the young Victoria, has a motherly feeling for her subjects. Provision had been previously made for the instruction of soldiers' sons; but their daughters were left in ignorance. This unjust distinction prevails to a considerable extent in most countries; whether in retaliation of the sin entailed by Mother Eve, or from the notion that ignorance, in females, constitutes bliss, we are unable to say: but we are glad that Queen Victoria has thought them not undeserving of instruction.

☞-The editor of the Republican need not be under any apprehension that the Clipper will run into the stormy sea of party, however closely she may approach it. We keep regular soundings, and mean not to pass from the neutral ground. Our craft answers to her helm admirably, and as she has an experienced crew, there is no danger of her running upon breakers. We thank the editor for his offer to pilot us out of supposed peril, but our vessel moves gallantly along under our own control. With "*National Union*" flying aloft, and *American principles* for stowage, the Clipper will continue to "go ahead" over the middle ground, steering clear alike of Sylla and Charybdes.

The License Bill which has passed the Legislature of Pennsylvania, requires that all applications for licenses, with the names of those who petition for the same, shall be published in the public papers, and increases the tax on licenses considerably. This will be likely to thin off tippling shops very materially. The bill is a good one, and will give the cause of temperance an impetus not easily overcome.

The Fire yesterday morning, about 9 o'clock, proceeded from the burning of a stable in Lombard street, near Marsh Market Space, belonging to, and in the occupancy of, Mr. John Fitzpatrick. The fire originated in the hay-loft, and the whole upper story of the building was in flames before discovered. A number of horses were in the stable at the time, two of which were considerably burnt before they could be extricated from their perilous situation. We saw one of the poor animals rush out of the flames into the street, having a blanket girt upon his back, which was on fire. The beast seemed to be almost mad, from the excruciating torture. The burning blanket, after much difficulty, was taken off, when the affrighted animal made its way down the street. We learn that Mr. Fitzpatrick had no insurance whatever upon the stable. His loss, therefore, must be considerable. Two attempts were made last fall to destroy this stable by fire, one of which was successful. It was rebuilt, and finished but a short time since.—Again it is in ruins, and beyond all question the work of some foul incendiary. The houses adjoining were in great danger, the roof of one of which was considerably burnt, though the flames were fortunately extinguished by the exertions of our energetic firemen, before any material damage was sustained. Two carriages were also nearly burnt up. The strictest investigations should be made to ferret out the incendiary.

Chesapeake and Ohio Canal. The citizens of Baltimore are moving in opposition to any further appropriatos to the Canal under present circumstances; and, in truth, we know not how the money could be raised if the Legislature were to pass a bill for the purpose. The bonds of the state could not be sold without a heavy sacrifice, and the people could not bear the additional tax which would be required to pay the interest.

We hope that every ward in the city will send forth its remonstrance against the contemplated appropriation; for we believe that public sentiment in Baltimore is unanimously opposed to the measure.

Fast day. The governor of Massachusetts has issued his proclamation, appointing Thursday, the 8th day of April next, to be observed as a day of fasting, humiliation, and prayer. In Maryland this practice has become obsolete, as our governors appear to think that we are too good to be improved by fasting and prayer. We wish that they would try it for one year, by way of novelty; and if, upon a strict calculation of debit and credit, it should be found that we lost more than we gained, it need not be repeated.

Seriously, we think that this practice should be revived; for, though not very devout ourselves, we can appreciate religion in others.

A Fine Day. Good weather being somewhat a novelty, we have to record the fact that yesterday was delightful. The ladies, like uncaged canary birds, were sporting and chirping through our streets, affording evidence of the truth of the remark, that Baltimore boasts the handsomest women in the country. As the warm season is rapidly approaching, we hope that they will begin to relieve themselves of some of their cumbrous gear, as rolls of cotton or bran will fatigue them in a sultry day. Nature has given them the faces and shapes of angels, and it is a pity to mar either by paints or patches.

A good article. We have used some of the "Polished Surface Cards" manufactured by Mr. *C. Schmidt*, No. 1 Light street, and pronounce them a very superior article. They have a highly polished surface, and take an excellent impression. Some of those upon which we have printed can be seen at this office. We hope that Mr. Schmidt will be properly encouraged.

Appointments. James Booth, Esq. has been appointed by the governor of Delaware, Chief Justice of the State, vice the Hon. Richard H. Bayard, resigned. Capt. Laban L. Lyons has also been appointed Wreck Master for Sussex county.

SIXTH WARD.

☞-At a large and respectable meeting of the citizens of the Sixth Ward, opposed to a further appropriation to the Chesapeake and Ohio Canal, and who concur in the Resolutions on that subject, recently passed by the City Council held last evening at Sutton's Military Hall, John Wilson, Esq was appointed President, Geo. Brown, Esq Vice President, and James J. S. Donnell requested to act as Secretary.

The meeting being organized, the following memorial was submitted to its consideration:

To the Honorable the Senate and House of Delegates of Maryland.

The Memorial of the undersigned, citizens of Baltimore, respectfully sheweth:

That your memorialists have observed with alarm the effort now making to obtain from your honorable body, a further appropriation to the Chesapeake and Ohio Canal.

Your memorialists respectfully submit that at a moment like the present of unparalleled financial embarrassment to the State, when she is forced to tax her utmost resources to meet the interest of the debt already existing, any increase of that debt, even for object of acknowledged general utility, would be inexpedient, hurtful to the public credit, and highly injurious to the interest of property holders throughout the State and especially in the City of Baltimore.

Your memorialists cannot doubt that the appropriation in question would engage the State irrevocably in the task of completing the Canal to Cumberland, an undertaking greatly exceeding, as they believe, her present means and resources, and which, without looking to the further burden likely to be imposed upon her of filling up the wide gap between that point and the mining districts, would require an expenditure so great as to preclude all reasonable expectation of an adequate return even upon the additional outlay.

Your memorialists cannot view without indignation this attempt to impose exclusively upon the State of Maryland, in her present exhausted condition, a task in which the General Government notwithstanding its heavy interest in the Canal, does not deem it prudent to participate; and in the execution of which no aid whatever can be obtained from the State of Virginia or the District of Columbia, although to them almost exclusively are to accrue all the benefits of the work. The General Government has even declined to further the object in view by the slight and necessary sacrifice of the surrender of its interest to the State of Maryland, although that surrender, as recently urged in Congress, was accompanied with conditions highly advantageous to the United States, and onerous and unjust, under the circumstances, to the State of Maryland. A like refusal, it is understood, has been given by the State of Virginia; and the application made by the Governor of Maryland, in obedience to an order of the Legislature, for the surrender of the stock of the District of Columbia held under hypothecation by the United States, was met in Congress by a Remonstrance from the Corporation of Washington, abounding with acrimony to the State of Maryland, and with evidences of deep seated hostility and jealousy towards the City of Baltimore.—In that Remonstrance the very claim of the State to a cross-cut Canal to her own metropolis was induced as a ground of complaint, and referred to as an evidence of her 'grasping spirit.'

Your memorialists respectfully submit, that, under such circumstances, it is incumbent upon the State of Maryland, before she grants any further aid to the Canal Company, to assert and ascertain her rights, and to secure to herself, either by the foreclosure of her mortgage, or by the voluntary agreement of the various parties interested, the full possession and exclusive control of the work.

Should your honorable body, however, notwithstanding this strong motive for delay, deem it expedient to make an immediate appropriation to the Canal, your memorialists earnestly pray that no bill making such an appropriation be passed which shall not contain a provision for the immediate commencement and completion of a cross-cut Canal from the most favorable point in the District, or above it if possible, to the City of Baltimore, and with the tolls so graduated as to afford to Baltimore a participation in the canal trade upon terms of equality with the cities of the District.

The Chesapeake and Ohio Canal has already, even in its present incomplete state, diverted to the District of Columbia an important trade of which Baltimore is the natural market. The whole management of the Canal seems, indeed, to have been direct exclusively with a view to the aggrandizement of the District, for which purpose, with a total disregard of the rights and interests of the State of Maryland, the tolls have been reduced to so low a rate as effectually to deprive the City of Baltimore of all power of competing for the trade, a proper exercise of the authority of the State of Maryland, but the evil cannot be fully remedied without the repeal, which is therefore imperatively necessary, (and which can only be effected by the concurrent action of Congress and the State of Virginia,) of the onerous clause in the charter of the Canal Company by which limits the maximum of tolls to two cents per ton per mile. Should the Canal be completed to Cumberland without the cross-cut to Baltimore, your memorialists cannot doubt that with such a rate of tolls the whole Potomac trade would necessarily be diverted to the District of Columbia; and they think there is even reason to apprehend that the great western trade which the city of Baltimore is endeavoring, by efforts almost above her strength, to secure to herself by means of the Baltimore and Ohio Rail Road, would, in no inconsiderable degree, be diverted at Cumberland from Baltimore, its natural destination, and forced by means of the Canal to the cities of the District.

Your memorialists respectfully submit that in view of the heavy share of the burden of the public debt which devolves to her, the city of Baltimore is justly entitled to remonstrate against a measure thus fraught with injury to her most important interests, and in reference to which she has before her the alternative of seeing either her means wasted in a profitless experiment, or the cities of the District aggrandized and furnished with the means of commercial rivalry at her own cost.

Your memorialists therefore pray that their case may be taken into favorable consideration by your honors he body, and that such protection may be afforded to the important interests represented by your memorialists as to your honorable body shall appear just and necessary. And your memorialists will ever pray, &c. &c.

The following resolutions were then offered and unanimously adopted:

Resolved, That this meeting approve of and adopt the Memorial which has been submitted to them, and that the President appoint a committee of three persons to obtain the signatures of the citizens of the Sixth Ward to the same.

Resolved, That said committee constitute also a standing committee to co-operate with similar committees from other wards, should such be appointed, in taking such measures in the premises as may be deemed advisable.

Resolved, That this meeting are deeply solicitous for the preservation of the public faith and credit of the State, and that they apprehend that any heavy increase of the public debt in the present financial crisis could not fail greatly to endanger the maintenance of the same.

Resolved, That this meeting cannot perceive the justice of imposing upon the State of Maryland the redemption of the scrip, amounting to upwards of four hundred and fifty thousand dollars, issued within the last eight months by the Canal Company without the authority of the State, and in open defiance of her declared intentions.

Resolved, As the sense of this meeting, that the City of Baltimore is ready, at every cost, to bear her full share of the present burden of the public debt; but that as the contributor of from one half to two thirds of the whole revenue of the State, she has a right to protest against an increase of that debt for a measure, which must either fail of producing the financial results aimed at by the State, or if it do not so fail, can only succeed by diverting to the cities of the District, and especially to the city of Alexandria, some of the most important sources of the trade and prosperity of Baltimore.

Resolved, as the sense of this meeting, that the city of Baltimore entertains no unkind or jealous feeling towards the cities of the District, and would sincerely rejoice at their prosperity; but that she cannot in reason be expected to aid in promoting their aggrandizement at so great a sacrifice to herself.

Resolved, That any equitable system of taxation for meeting the public engagement will be heartily approved by this meeting; but that they apprehend the successful operation of such taxation would be greatly endangered by an increase of the public debt, under present circumstances, for the benefit of a work whose interests are essentially foreign and hostile to those of the State of Maryland.

Resolved, That it is the true interest of the State to protect and foster all the means of growth and advancement to the city of Baltimore, as constituting the most important source of the public revenue, and that to expend her subscription in diverting to cities out of her limits from which she can in no shape derive any return, those sources of commercial prosperity which would otherwise yield a rich harvest in the daily increasing taxable capacity of her own metropolis, would be impolitic, unwise and unjust.

Resolved, That this meeting recommend that meetings be held as soon as practicable in each ward of the city of Baltimore, for the purpose of adopting the memorial which has been approved of by this Meeting.

Resolved, That these proceedings be published in the Daily papers of this city.

The memorial was then read and approved of, and the resolutions having been unanimously adopted, the following gentlemen were appointed the committee under the first resolution: Messrs. F. B. Graff, Edward Kane, and J. A. Henderson.

The meeting then adjourned.

WEBB'S PATENT BURNERS, AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety or economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ ASTRAL LAMPS ALTERED.

N. B. We have appointed JOSHUA ATKINSON Agent, No. 92 Market street, F. P., where all orders will meet with immediate attention.

P. AUGUSTUS BAILEY, Agent

For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, the light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. BOOZ. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for BOOZ'S Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

JAMES BOOZ.

FIRST BRANCH, March 19. The Branch met pursuant to adjournment Present—H. Snyder, Esq. President, and all the members except Mr. Dryden.

A message was received from the Mayor, being a communication signed W. L. Richardson, relating to certain mistakes made in printing the report of the trustees of the Baltimore city and county Alms-House. Referred to committee on alms-house. Also, a communication from Wm. Gwynn, Esq., late city attorney, being a statement of cases tried before the Court during the year 1840. *On motion of Mr. Bender* the report was referred to be printed.

A resolution was offered by Mr. Pinkney, purporting that the city commissioners furnish to this Branch the contract between them and George Milliman, relative to building Pratt-st. Bridge, which was passed.

A communication was received from the city commissioners relative to repairing Necessity alley, which was referred to the joint committee on streets.

Mr. Gorsuch called up the resolution of the joint committee on the harbor, relative to the petition of Gen. William McDonald, which was passed.

Mr. Cole presented the petition of James O'Harra, relative the removal of carts, hacks, &c. which were undergoing repairs in front of his shop. Having been prosecuted for the violation of an ordinance, from the penalty of which he was praying protection. On motion of Mr. Dallam, the matter was referred to the Mayor.

Mr. Cole, of the joint select committee to whom was referred the petition of numerous citizens praying for the appointment of an inspector of gas in the city of Baltimore, reported favorably. Accompanying the report were two resolutions, one authorizing the Mayor to appoint a committee whose duty it shall be to examine the state, condition, &c. of the meters and gas, and report to the members of the City Council the result of their investigations—the other authorizing a memorial to be sent to the Legislature of Maryland at its next session, signed by the Mayor and the presidents of both branches of the City Council, praying for authority to appoint an inspector of gas for the city of Baltimore. On motion of Mr. Bender the whole subject was referred to the next annual session of the Councils.

Mr. Dallam, of the joint committee on streets, to whom was referred the petition of Henry McElderry and others, relative to the opening of certain streets, reported favorably.

Mr. Peregoy, of the joint committee on the alms-house, reported on the previous and present annual reports from the commissioners of the alms-house. The committee were discharged.

A message was received from the Second Branch, being a report and resolution from the joint committee on bridges, relative to the repairing of Belvidere Bridge. Also, a report and resolution of the committee on streets, relative to the petition of R. Barney and others. Also, a report relative to Thos. Horn. Also, a bill relative to Amsty alley. Also, the report of the city counsellor. Also, the report and resolution relative to the United Fire Co. All of which were concurred in.

Bill No. 35, relative to the licensing of woodhucksters, was called up by Mr. Gorsuch, which after being amended, was passed.

Mr. Dallam called up an ordinance providing for the opening of a part of Caroline, Eden, Little McElderry and Jefferson sts. which upon being read was passed.

Mr. Dallam called up the resolution which was offered yesterday proposing to send a message to the Second Branch asking to rescind the resolution authorizing the Councils to adjourn *sine die* this day. Mr. Gorsuch advocated the rescinding resolution upon the grounds, that he as chairman of the committee on police, had an important report to make in reference to defining the duties of the city counsellor, that he was not yet ready for adjournment and moved that the councils should sit the remaining time without pay per diem. Mr. Keyser went for a *sine die* adjournment "tooth and toe nail." The proposition to rescind was lost, yeas 10, nays 11.

A resolution originating in the Second Branch directing the joint committee on the harbor to prepare a memorial to the Legislature during the recess of the councils in relation to the charges made for certain wharfage which was dissented from.

Mr. Dallam of the joint committee on streets reported unfavorably relative to the repairing of Necessity alley.

Mr. Gorsuch of the joint committee on police to whom was referred the petition of R. McElderry, B. H. Richardson and others, relative to the exposing of goods on pavements in front of stores, reported unfavorably. The committee were of opinion that no further legislation was wanting upon the subject.

Mr. Peregoy asked permission to withdraw the petition of Solomon Wilson for claims relating to the Holland st. market, which was granted.

The report of the joint committee on streets relative to the petition of S. Moore was returned from the Second Branch endorsed and concurred in. Also a substitute to the resolution of the joint committee on harbor relative to the leasing of a certain wharf to Gen. W. McDonald. On motion of Mr. Hanson the substitute was non-concurred in.

A communication was received from the city commissioners in answer to an inquiry relative to paying for the building of Pratt st. Bridge. On motion of Mr. Holter the communication was laid on the table.

A resolution was offered by Mr. Hanson to have the portrait of the late Mayor Gen. Sheppard C. Leakin, taken for the purpose of being placed in the First Branch Council Chamber. The resolution was adopted. Messrs. Hanson and Cole were appointed to attend to the procuring of the portrait.

On motion of Mr. Bender the above resolution was amended so as to embrace the portrait of Gen. Smith, and when taken with the amendment was lost.

Mr. Bender, chairman pro tem. being in the chair—

The following resolution was offered by Mr. Keyser, and unanimously adopted:

"*Resolved unanimously*, That the kind acknowledgments of the first branch be, and are hereby tendered to Henry Snyder, Esq., its president, for the correct and impartial manner in which he has discharged the duties of the chair, and for the urbane and gentlemanly deportment which has at all times characterized his conduct towards its members."

To the above, the president made a very brief, but touching reply. He expressed his gratitude to the members for their kind indulgence; stated that if, in the discharge of his duties, he had made errors, they were "errors of the head, and not of the heart." He would, therefore, embrace the present opportunity to tender his most sincere acknowledgments and kindest wishes for their present and future happiness, with the strongest assurances that the many favors extended to him would be remembered with the most enduring gratitude.

Mr. Cole, of the joint committee on education, reported unfavorably relative to the petition of the Patapsco Fire Company.

A communication was received from the second branch, being a concurrence in the report of the committee on police, relative to the petition of B. H. Richardson and others. Also, a report from the joint committee on the almshouse. Also, a report of the joint committee on bridges. Also, a report relative to Necessity alley. Also, a bill relative to opening certain streets.

Bill No. 38 was returned from the second branch, and afterwards sent for by message—was returned again, endorsed, and concurred in.

The following were returned from the second branch:

A report relative to repairing the council chambers; a report relative to D. C. Springer; a report relating to the Patapsco Fire Company, all of which were concurred in.

Mr. Dallam reported unfavorably to the closing of H alley.

The bill relative to taking away Gay-st. bridge was returned from the second branch, endorsed and concurred in.

The joint committee on markets reported unfavorably relative to the petition of George R. Taylor, praying the erection of an additional market house at the Centre market. The petition was referred to the next session of the councils.

Mr. Dallam made an unfavorable report on the petition of George W. Williamson and James Horn; concurred in by second branch.

A committee was appointed, who waited upon the Mayor, to inform him that the councils were about to adjourn *sine die*, and to ask of him if he had any further business to communicate to the councils. His answer was, that he had not.

Mr. Holter offered a resolution, directing that the portrait of Gen. Smith be taken from the gallery, and placed among the portraits of the different mayors, and that Gen. S. C. Leakin be requested to sit for his portrait during the recess of the councils, and that $100 be taken from the city treasury, or so much thereof as will be required to defray the expense, and that said portrait be placed in the hall of the first branch chamber. The resolution was adopted, and dissented from by the second branch.

A resolution was offered by Mr. Bender asking an appropriation of $500 for the Howard Fire Co. The subject was indefinitely postponed.

A committee of conference was appointed upon the subject of the portraits, and dissented from by the Second Branch.

On motion of Mr. Fields, the Branch adjourned *sine die*. Thus the members shook hands, shed tears and parted, with hopes to meet again, if not as City Councillors, as old friends "long tried and true."

GREAT REFORM ON ST. PATRICK'S DAY. The New York Herald says:—Yesterday the Irishmen of this city and Brooklyn celebrated St. Patrick's Day in splendid style.

They marched through the city with banners and music, ate a good dinner, but did not touch a drop of ardent spirit of any sort, except the spirit of reform. They all became disciples of Father Matthew.

Their procession presented a very fine sight. It reached from Chatham square, down, round the Park, up to Niblo's Garden.

☞The Newburyport Herald says that Michael Pearson of that town, has recently invented a very ingenious cannon, capable of being discharged with three times the speed of the common cannon, and by half the number of men usually required. It is his intention to present it to the Department at Washington.

SUICIDE. On the 16th inst., at the village of Tarrytown, George Messinger, a German by birth, a shoemaker by trade, aged about 25 years, in a fit of insanity, occasioned by sickness cut his throat with a razor, and bled to death.

DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road.

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sumon; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 4 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good night's rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To Dr. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences.

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

☞The above Medicine may always be had in Baltimore of RICHARD NORRIS of WILLIAM, No. 224 Market street, who is the Sole Agent for this Medicine in that city. All orders coming to Philadelphia, must be directed to DR. SWAYNE,

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct its establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having Slaves, which they wish to dispose of, will do well to apply at this office before selling.

N. B. All letters addressed to this office (post paid) thankfully received and promptly attended to.

THE SABBATH AND ITS WORSHIP.

The Sabbath morn—the Sabbath morn,
Is breaking into day;
Oh! welcome is its rising dawn,
'Tis now I love to pray.

The Sabbath bells—the Sabbath bells,
Are chiming low and clear,
Oh! they are angels tongues, and tell
Where God is found (with fear.)

The gath'ring throng—the gath'ring throng,
Obey the lengthened peal;
'Tis sweet to see them hurrying on,
To pay their vows and kneel.

The swelling song—the swelling song,
To heaven is lifted high,
They list, above! th' wond'rous throng,
Of whom God is worshipped by.

Those truthful words—those truthful words,
From reverend men of God,
How, sharper than two edged swords,
Their power, as Aaron's rod.

The fervent prayer—the fervent prayer,
In heaven may it have power,
To chase away from us despair,
In the decisive hour. G. M. B.

THE THREE RINGS.

AN EASTERN TALE.

In the reign of the Sultan Sal-ad-Deen, there lived in the city of Damascus a Jew called Nathaniel, who was pre-eminently distinguished among his fellow-citizens for his wisdom, his liberality of mind, the goodness of his disposition, and the urbanity of his manners, so that he acquired the esteem even of those among the Moslemin who were accounted the strictest adherents to the exclusive tenets of the Mahommedan creed. From being generally talked of by the common people, he came gradually to attract the notice of the higher classes, until the sultan himself, hearing so much of the man, became curious to learn how it was that so excellent and intelligent a person could reconcile it with his conscience to live and die in the errors of Judaism.—With the view of satisfying himself on the subject, he at length resolved on condescending to a personal interview with the Jew, and accordingly one day ordered him to be summoned before him.

The Jew, in obedience to the imperial mandate, presented himself at the palace gates, and was forthwith ushered, amid guards and slaves innumerable, into the presence of the august Sal-ad-Deen, Light of the World, Protector of the Universe, and Keeper of the Portals of Paradise; who, however, being graciously determined that the lightning of his glances should not annihilate the Israelite, had caused his face to be covered, on the occasion, with a magnificent veil, through the golden gauze-work of which he could carry on at his ease his own examination of his visitor's features.

"Men talk highly of thee, Nathaniel," said the Sultan, after he had commanded the Jew to seat himself on the carpet; "they praise thy virtue, thy integrity, thy understanding, beyond those of the sons of Adam. Yet thou professed a false religion, and showest no sign of a disposition to embrace the true one. How is this obstinacy of thine reconcilable with the wisdom and moderation for which the true believers give thee credit?"

"If I profess a false religion, your highness," returned the Jew modestly, "it is because I have never been able to distinguish infallibly between false religion and true. I adhere to the faith of my fathers."

"The idolaters do so no less than thou," said Sal-ad-Deen, "but their blindness is willful, and so is thine. Dost thou mean to say that all religions are upon the same level in the sight of the God of Truth?"

"Not so, assuredly," answered Nathaniel; "Truth is but one; and there can be but one true religion. That is a simple and obvious axiom, the correctness of which I have never sought to controvert."

"Spoken like a wise man," cried the sultan—"what is," he added, "if the religion to which thou alludest be Islamism, as it must be of course. Come: I know thou art favorably inclined towards the truth; thou hast an honest countenance; declare openly the conviction at which thou must have long since arrived, that they who believe in the Koran are the sole inheritors of Paradise. Is not that thy unhesitating persuasion?"

"Will your highness pardon me," said the Jew, "if, instead of answering you directly, I narrate to you a parable bearing upon this subject, and leave you to draw from it such inferences as may please you?"

"I am satisfied to hear thee," said the Sultan after a pause; "only let there be no sophistry in the argument of thy narrative. Make the story short also, for I hate long tales about nothing."

The Jew, thus licensed, began:—"May it please your highness," said he, "there lived in Asyria, in one of the ages of old, a certain man who had received from a venerated hand a beautiful and valuable ring, the stone of which was an opal, and sparkled in the sunlight with ever-varying hues. This ring, moreover, was a talisman, and had the secret power of rendering him who wore it with a sincere desire of benefitting by it, acceptable and amiable in the eyes of both God and man. It is not, therefore, to be wondered at, that the owner continually wore it during his lifetime, never taking it off his finger for an instant, or that, when dying, he should adopt precautions to secure it to his lineal descendants forever. He bequeathed it accordingly to the most beloved of his sons, ordaining that by him it should be again bequeathed to the dearest of his offspring, and so down from generation to generation, no one having a claim in right of priority of birth, but preference being given to the favorite son, who, by virtue of the ring, should rule unconstrained as lord of the house and head of the family. Your highness listens?"

"I listen: I understand: proceed," said the Sultan.

The Jew resumed;—"Well: from son to son this ring at length descended to a father who had three sons, all of them alike remarkable for their goodness of disposition, all equally prompt in anticipating his wishes, all equally loving and virtuous, and between whom, therefore, he found it difficult to make any distinction in the paternal affection he bore them. Sometimes he thought the eldest the most deserving; anon his predilections varied in favor of the second; and by and by his heart was drawn towards the youngest:—in short, he could make no choice. What added to his embarrassment was, that, yielding to a good-natured weakness, he had privately promised each of the youths to leave the ring to him, and him only; and how to keep his promise, he did not know. Matters, however, went on smoothly enough for a season; but at last death approached, and the worthy father became painfully perplexed. What was to be done? Loving his sons as he did, all alike, could he inflict so bitter a disappointment upon two of them as the loss of the ring would certainly prove to them? He was unable to bear the reflection.—After long pondering, a plan occurred to him, the anticipated good effects of which would, he trusted, more than compensate for the deceit connected with it. He sent secretly for a clever jeweller, and, showing him the ring, he desired him to make two other rings, on the same model, and to spare neither pains nor cost to render the three exactly alike. The jeweller promised, and kept his promise; the rings were finished, and in so perfect a manner that even the father's eye could not distinguish between them as far as mere external appearance went. Overjoyed beyond expression at this unlooked-for consummation of his wishes, he summoned his three sons in succession into his presence, and from his death-bed bestowed upon each, apart from the other two, his last blessing and one of the rings; after which, being at his own desire left once more alone, he resigned his spirit tranquilly into the hands of its eternal Author. Is your Highness attentive?"

"I am," said Sal-ad-Deen, "but to very little purpose, it would seem. Make an end of thy story quickly, that I may see the drift of it."

"It is soon ended, most powerful sultan," said Nathaniel, "for all that remains to be told is what doubtless your highness already half conjectures—the result, namely, of this good-natured deception. Scarce was the old man laid in his grave, when each of the sons produced his ring, and claimed the right of being sole master and lord of the house. Questions, wranglings, complaints, accusations, succeeded—all to no end, however; for the difficulty of discovering which was the true ring was as great then as that of discovering which is the true faith now."

"How!" interrupted the sultan indignantly, "this to me? Dost thou tell me that the faith of the Moslemin is not acknowledged by all right-thinking persons to be the true one?"

"May it please your highness," said the Jew, calmly, "I am here at your own command, and I answer your questions according to the best of my poor ability. If the allegory I relate be objectionable, it is for the sultan to find fault with it alone, and not with the reflections which it must necessarily suggest."

"And dost thou mean, then, that thy paltry tale shall serve as a full answer to my query?" demanded Sal-ad-Deen.

"No, your highness," said Nathaniel, "but I would have it serve as my apology for not giving such an answer. The father of these youths caused the three rings to be made expressly that no examination might be able to detect any dissimilarity between them; and I will venture to assert, that not even the Sublimest of Mankind, the Sultan Sal-ad-Deen himself, could, unless by accident, have placed his hand on the true one."

"Thou triflest with me, Nathaniel," said the sultan; "a ring is not a religion. There are, it is true, many modes of worship on the earth: but has not Islamism always remained a distinct system of faith from the false creeds? Look at its dogmas, its ceremonies, the modes of prayer, the habits, yea, the very food and raiment of its professors! What sayest thou of these?"

"Simply," returned the Jew, "that none of them are proofs of the truth of Islamism. Nay, be not wroth with me, your highness, for what I say of your religion I say equally of all others.—There is one true religion, as there was one true ring in my parable; but you must have perceived that all men are not alike capable of discovering the truth by their own unassisted efforts, and that a certain degree of trust in the good faith of others as teachers, is therefore essential to the reception of religious belief at all. In whom, then, I would ask, is it most natural for us to place our trust? Surely in our own people—in those of whose blood we are—who have been about us from our childhood, and given us unnumbered proofs of love—and who have never been guilty of intentionally practising deception upon us. How can I ask of you to abandon the prepossessions of your fathers before you, and in which, true or false, you have been nurtured? Or how can you expect, that in order to yield to your teachers the praise belonging solely to the truth, I should virtually declare my ancestors fools or hypocrites?"

"Sophistical declamation!" said the sultan, "which will avail thee little on the Judgment Day. Is thy parable ended?"

"In point of instruction it is," replied Nathaniel, "but I shall briefly relate the conclusion to which the disputes among the brothers conducted. When they found agreement impossible, they mutually cited one another before the tribunal of the law. Each of them solemnly swore that he had received a ring immediately from his father's hand—as was the fact—after having obtained his father's promise to bestow it on him, as was also the fact. Each of them indignantly repudiated the supposition that such a father could have deceived him; and each declared, that, unwilling as he was to think uncharitably of his own brethren, he had no alternative left but that of branding them as imposters, forgers, and swindlers."

"And what said the judge?" demanded Sal-ad-Deen; "I presume the final decision of the question hung upon his arbitration?"

"Your highness is correct: the judge at once pronounced his award, which was definitive. 'You want,' said he, 'a satisfactory adjudication of this question, which you have contested among yourselves so long and so fruitlessly. Summon then your father before me: call him from the dead and let him speak; it is otherwise impracticable for me to come at the knowledge of his intentions. Do you think that I sit here for the purpose of expounding riddles and reconciling contradictions? Or do you, perhaps, expect that the true ring will by some miracle be compelled to bear oral testimony here in court to its own genuineness? But hold: I understand that the ring is endowed with the occult power of rendering its wearer amiable and faultless in the eyes of men. By that test I am willing to try it, and so to pronounce judgment. Which of you three, then, is the greatest object of love to the other two. You are silent. What! does this ring, which should awaken love in all, act with an inward influence only, not an outward? Does each of you love only himself? Oh, go! you are all alike deceivers or deceived: none of your rings is the true one. The true ring is probably lost; and to supply its place your father ordered three spurious ones for common use among you. If you will abide by a piece of advice instead of a formal decision, here is my counsel to you; leave the matter where it stands. If each of you has had a ring presented to him by his father, let each believe his own to be the real ring. Possibly your father might have grown disinclined to tolerate any longer the exclusiveness implied in the possession of a single ring by one member of a family; and, certainly, as he loved you all with the same affection it could not gratify him to appear the oppressor of two by favoring one in particular. Let each of you therefore feel honored by this all-embracing generosity of your parent; let each of you endeavor to outshine his brothers in the cultivation of every virtue which the ring is presumed to confer—assisting the mysterious influence supposed to reside in it by habits of benevolence and mutual tolerance, and by resignation in all things to the will of God; and if the virtues of the ring continue to manifest themselves in your children, and your children's children, and their descendants to the hundreth generation, then, after the lapse of thousands of years, appear again and for the last time before this judgment seat! A Greater than I will then occupy it, and He will decide this controversy for ever.' So spake the upright judge, and broke up the court. Your highness now, I trust, thoroughly comprehends my reason for not answering your question in a direct manner?"

"Is that the end of thy story?" asked Sal-ad-Deen.

"If it please your higness," said the Jew, who had by this time arisen, and was gradually, though respectfully, proceeding to accomplish his retreat.

"By my beard," said the sultan after a considerable pause, "it is an ingenious apologue that of thine, and there may be something in it too; but still it does not persuade me that thou art excusable in thy pertinacious rejection of Islamism. I own I tremble for thee after all. Go thy ways, however, for the present, with this purse of tomaums, by way of premium for thy mother-wit."

APPOINTMENTS BY THE PRESIDENT.

Robert C. Cornell, of New York, to be Receiver General of Public Money at New York, in the place of Stephen Allen, removed.

Samuel Frothingham, of Boston to be Receiver General of Public Money at Boston, in the place of Isaac Hill, removed.

Richard K. Call, of Florida, to be Governor in and for the Territory of Florida, in the place of Robert R. Reid, removed.

Charles B. Penrose, of Pennsylvania, to be Solicitor of the Treasury, in the place of Matthew Burchard, removed.

Elisha Whittlesey, of Ohio, to be Auditor of the Treasury for the Post Office Department, in the place of Charles K. Gardner, removed.

Paul Rossignol, to be Superintendent of the Branch Mint at Dahlonega, in the State of Georgia, in the place of J. J. Singleton.

John Williamson, of Pennsylvania, to be Recorder of the General Land Office, in the place of Hudson M. Garland, removed.

Solomon Van Rensselaer, to be Deputy Postmaster at Albany.

OFFICERS OF THE CUSTOMS. *Collectors.*—Geo. Allen, at Waldoborough, Maine, vice Denny McCobb, removed.

Jeremiah Brooks, at York, Maine, vice Joseph P. Junkins, removed.

Parker Shelden, at Bath, Maine, vice Joseph Sewall, removed.

Naval Officer—Isaac P. Davis, at Boston, Mass. vice Isaac O. Barnes, removed.—*Nat. Intelligencer.*

The Georgetown (Del.) Republican states that James Booth, Esq., of Newcastle county, has been appointed by the Governor, Chief Justice of the State of Delaware, in lieu of the hon. Richard H. Bayard, resigned.

WATCH RETURNS. Eastern District.—March 20. Andrew Martinez, was charged with rioting, and locked up at 10 o'clock. At 11, Tom Higgins applied for lodgings.

Middle District.—Five of the watchmen entered the 'dance house' of a 'colored citizen' in Granby st. and brought out the following named exquisites, in full ball dress, charged with disturbing that particular neighborhood by their noise and riotous conduct:—Charles Harris, Martin Thomas, Isaac Barnes, Clem. Watkins, Hetty Ann Harman, and Mary Blake. The party were escorted to the watch-house, and in the morning suffered to depart, after a *feeling* reprimand. Elisha Young, of the U. S. A., was found off duty at 1 a. m., without hat or cap, and so very drunk, that it was deemed prudent to put him under arrest. Two loafers were admitted as lodgers.

Western District.—Barbara Myers was brought in for lodgings, and Mary Greif for disturbing the peace. Both released in the morning.

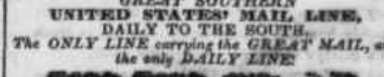
A STINGING CHARGE. An able Judge was once obliged to deliver the following charge to the Grand Jury: "Gentlemen of the Jury, in this case the counsel on both sides are unintelligible, the witnesses on both sides are incredible, and the plaintiff and the defendant are both such bad characters, that to me it is indifferent which way you give your verdict."

OHIO LEGISLATURE. In the House of Representatives on Tuesday, the bill making appropriations for the public works, and repealing the 12 per cent. penalty upon banks suspending specie payments, was finally passed by the close vote of 33 to 32.

FIRE. On Sunday morning, 14th, the Chemical establishment of Martin Kalbfleisch, at Norwich, Ct., was consumed, with some $2000 worth of stock. No insurance.

☞ General Scott arrived at Albany on Tuesday last. He met with a severe accident in crossing the river on the ice, having fallen and severely bruised his face.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE



TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedules:

Leave Philadelphia	8 A.M.	reach	Baltimore	2 P.M.
" Baltimore	4 P.M.	"	Washington	6 P.M.
" Washington	5 A.M.	"	Fred'ksburg	12 M.

" Petersburg	7 P.M.	"	Weldon	1 A.M.
" Weldon	1 A.M.	"	Wilmington	1 P.M.
" Wilmington next day.	1 P.M.	"	Charleston	at 5 the

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout*, whilst it is evident that Poor! Rough WEATHER!! and STORMS!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort, and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

LIME! LIME!! LIME!!!

THE subscribers respectfully inform their friends and the public, that they have on hand, and intend keeping a constant supply of superior Alum and Bottom LIME, (burned in a conical kiln, so highly recommended by our State Geologist, Professor DUCATEL,) and that they are prepared to sell the same at the kiln at 33 1-3 cents for cash, for first quality. As our object is to furnish a first rate article at the lowest possible price, we respectfully solicit a share of public patronage.
We have also on hand, about 5,000 bushels Oyster Shell and Air Slacked ALUM LIME, which we will sell on favorable terms, for farming purposes.

THE GENUINE VEGETABLE PILLS.
AN EFFECTUAL CURE FOR GONORRHŒA, GLEETS, STRICTURES, &c. &c. Of all the remedies yet discovered for the cure of these complaints, the *Vegetable Pills* have been the most effectual, as they have never been known to fail to effect a permanent cure. They are mild and pleasant to take, yet powerful in their action, and may be taken without the knowledge of the most intimate friend. These Pills are put up in square boxes, with full directions accompanying each box. For sale by

BALTIMORE CLIPPER.

MONDAY MORNING, MARCH 22, 1841.

☞We intimated in our paper of Saturday, that we would perform for some of our cotemporaries the same service that is rendered to vessels by the steam tow-boats—that is, tow them along if they would make fast to our stern. No sooner said than done—for we have a black, piratical looking lugger already in our wake, endeavoring to hitch on us to prevent herself from sinking.—From her suspicious appearance we are yet in doubt whether we shall extend the hand of relief, or give her a shot from our stern-chaser, and send her where the Sun will never more shine on her.

BALTIMORE LYCEUM. This father of the literary institutions of Baltimore, maintains its ground with credit. Its meetings are well attended, and are always honored with the presence of a large number of the fair sex. On last Friday evening, the question, whether it would be judicious for Ireland to insist on a repeal of the union at this time, was further and very ably discussed: and, on the question being taken, was decided in the affirmative by a large majority.—Among those who advocated the affirmative side, was a young gentleman, (Mr. Ahern,) who went into a very able and thorough examination of the wrongs perpetrated by the English government upon Ireland, and was extremely eloquent in his denunciations of the oppressions under which his native country labored. He dwelt upon the fraud, violence, and corruption by which the passage of the Union Bill was secured in the Irish parliament, and demonstrated the fatal effects of that measure upon the manufacturing and other interests of Ireland. He is a fluent, energetic, and forcible speaker; and showed that, whilst his heart could feel for the injuries inflicted on the land of his birth, his tongue could defend her from the malevolent vituperation of her enemies. We were much pleased with the interest he took in the subject, and the great animation with which he discussed it. The cause which he espoused has our sympathies and good wishes, though we doubt whether the present be the propitious moment for Ireland to strike for liberty. She is within the grasp of the lion, and until that grasp be relaxed by feebleness, escape is doubtful. Where physical strength is wanting, policy must be adopted—an unavailing effort being worse than no trial. All peaceful measures to dissolve the union should be unremittingly pursued; but the time for the application of force should be judiciously chosen.

MR. CLAY AND MR. KING. We were certain that the intelligence of the happy settlement of the differences between these gentlemen would be received with universal pleasure. No one but a fiend in spirit could have desired a different termination. A duel was not necessary to establish the reputation of either for personal bravery; and the spirit which should animate every gentleman of correct feelings and principles was manifested in the explanations which amicably closed the controversy. Had Mr. Clay pursued another course—had he not exhibited his characteristic frankness and amiability on the occasion, we should have confessed that we had misunderstood his character, and formed an imperfect estimate of his principles. The conduct of Mr. King is also entitled to the highest praise.

We heartily concur in the view taken of this subject by the New York correspondent of the National Intelligencer, who says:

"The news from Washington of the reconciliation between Mr. Clay and Mr. King was received only last evening. It was the best news you could have sent us from Washington, and has endeared Mr. Clay to his many friends in the city, as it must in the country. The reconciliation was one of the worthiest events in the life of the distinguished Senator; and the prompt offer of his hand to Mr. King, in the face of the Senate and an assembled multitude, was an act that his friends will forever be proud of. Mr. King has lost nothing in public estimation by his manly readiness to meet Mr. Clay upon terms honorable to both Senators."

VIVE LA BAGATELLE. Thank Heaven the blue laws of Connecticut which forbade a man to kiss his wife on Sunday, are no longer in force; and yet some of the spirit which caused their enactment still exists, if we judge from a resolution recently passed at a public meeting in Bethlehem, in that state. It seems that General Harrison in exchanging compliments with the ladies of Pittsburg, stated that in his youth he had exchanged locks with a fair damsel of that city. This, and his having meekly received the kisses of some of the ladies of the Monumental City, has given great offence to some fellows, who have no more blood in their veins than a dried eel-skin. Hear their sage resolution:

"Resolved, That in *deep humiliation* we hear of General HARRISON exchanging locks of hair with his ancient female associates at Pittsburg, and kissing the ladies by scores at Baltimore."

What; would they have a soldier who never turned his back on the enemies of his country, fly from the presence of the ladies? We thought that the noblest reward of the warrior was, to exchange hard steel for soft lips; and yet these crusty churls would have General Harrison to put up his hand to ward off the impending salute from a fair mouth. Nonsense: we would not give a fig for a president who would refuse to stand by the hour to be kissed.

MR. J. H. HEWITT'S CONCERT. It will be seen by advertisement that our esteemed friend and late associate editor, J. H. Hewitt, Esq. proposes not only a benefit, but a grand musical treat to the lovers of that delightful science, at the Assembly Rooms to-morrow evening.

If the citizens of Baltimore wish to manifest their willingness to encourage native talent, they will, upon this occasion, have the very best opportunity. Mr. Hewitt has long been known as a popular author, not only of music, but of poetical and prose productions. It is enough to say that he is the "Minstrel returned from the war" himself, as well as a "Knight of the Raven Black Plume." His claims upon public generosity are purely American, and of the very strongest kind—they are composed link by link of patriotism and noble-hearted philanthropy—he has in truth been a martyr in the cause of public good.

One word more—if an Elssler can come among us—one who has never done any thing either directly or indirectly for our city's good—and have lavished upon her thousands, for a few nights' exercise of the heel, how much more willing should we be to bestow still greater favors upon a true son of our native soil for the productions of the head. Let this reflection be pondered well, and our friend cannot but have an overflowing house.

FRONT STREET THEATRE—*Great Attraction.* Mr. Hill has made a selection of appropriate entertainments for his benefit *this evening*, and we doubt not that he will have a full house, as the pieces chosen are so well suited to the times.—The first is "*Breakers ahead;*" and the second "*The Office Hunter.*" This piece is being enacted at Washington on a large scale, but some of the actors neglecting to look out for "breakers ahead," have had their hopes shipwrecked.

We are informed that the play is historical, possessing great interest, and embellished with splendid and beautiful scenery. It has been performed in London with much applause, and will now be produced in the best style. The farce of the "*Office Hunter*" will afford much amusement by its ludicrous incidents. We must see the piece performed that we may be taught how to obtain office.

NAVAL INTELLIGENCE. The U. S. brig Dolphin was at Cape de Verd Islands on the 7th February. She left Sierra Leon on the 14th, with twenty-six cases of African fever on board, which number greatly increased, and nine men died on the passage, viz: H Green, J. Morris, C. Griswold, T. P. Ricaud, J. Downey, W. E. Burns, G. Piles, J. Smith and Stephen Tryon. The two latter jumped overboard in delirium, and the four former are a boatswain's mate, a cooper, armorer, and yeoman, a great hole in the list of petty officers, and which entirely breaks up the cruise. The Grampus had also forty-four cases of fever on board, and lost but three of her company, one of whom was her Master, Mr. Albert Smith Whittier, (a Passed Midshipman, from Maine.) The sick of both vessels were greatly favored by the climate of the Cape de Verds, and were fast recovering. The Grampus will be home about the middle of July, and the Dolphin about the middle of May.

A MAGNIFICENT DIAMOND BREASTPIN. We were shown, on Saturday, a splendid diamond breastpin, set with a large diamond of the "first water." The original cost of the pin was $1,000. It is, we learn, to be disposed of by raffle—$10 per chance, 85 chances. The proprietor of this valuable article is Mr. C. L. Durham. Those desirous of gratifying their curiosity relative to the peculiarities of the pin, can do so by calling at the establishment of Messrs. Canfield & Brothers, corner of South Charles and Baltimore streets.

SUCCESSFUL VILLAINY. On Thursday morning, a lad aged about 14 years entered the counting room of Mr. John Ward, in Wall street, N. Y., and presented an order on that gentleman from Mr. E. Riggs, for 100 doubloons, and a check signed Bolton, Fox & Livingston, for $1,500, for which it was requested, French gold should be furnished by Mr. Ward. Both desires were complied with, and the boy left Mr. Ward's with the specie. It was shortly afterwards discovered that the order and check were forgeries, and nothing further has been heard of the boy.

MELANCHOLY ACCIDENT. On Thursday morning, a boat passing from the foot of Rector street, New York, to the Havre packet, lying in the North River, swamped with eight persons on board, four of whom were drowned. The names of the sufferers were Mr. Haas, lately of Cincinnati; Mr. Zigler, of Louisville; Mr. Bates, second mate of the Packet; and a boatman named Joseph Baird. Mr. Bates formerly belonged to this city, and was an officer of the brig Emma.

POLICE. Nineteen boys were taken up yesterday, and brought to the police office, charged with pitching cents, playing marbles, ball, &c. fifteen of whom were fined one dollar and costs, for violating the Sabbath, by Squire Gorsuch.—Those who couldn't square off the *scores*, were put back to that dark and doleful prison house.—This, boys, verifies the old saying, that "after the sweet, comes the sour." Let it be a warning."

POST OFFICE ROBBERY. We learn by the Richmond Star, that the assistant postmaster of Abingdon, Va., (Joan W. Stevens,) has been detected in plundering the post office at that place. He was caught with several letters thrust up his sleeve. He has been lodged in the county jail.

MELANCHOLY SUICIDE BY A MANIAC. Mrs. Huston, the wife of Mr. Wm. Huston, of N. York, committed suicide in that city on Wednesday, by cutting her throat. She had been laboring for some time under mental derangement, which was greatly aggravated by hearing a sermon at a church she was in the habit of attending.

HOLLIDAY-ST. THEATRE. *Mr. Walton's Benefit.* It will be seen by advertisement, that Mr. Walton, the present persevering manager of the Holliday, proposes his benefit to-night. The bills are peculiarly attractive. His perseverance and great exertions to please the lovers of the drama during the past winter, richly merit a kind and generous reciprocity of favors, which we have no doubt will be extended to him on the present occasion. We would suggest that persons procure their seats early.

ATLANTIC STEAMERS. There are five Atlantic steamers now on the ocean—two bound to England, and three heading towards the United States; the latter being the British Queen, the Caledonia, and the Acadia. The last sailed from Liverpool yesterday, and the Caledonia is now due at Boston. She probably arrived there on Friday or Saturday.

There are six sorts of persons at whose hands you need not expect kindness. The sordid and narrow minded think of nobody but their noble selves. The busy have not time to think of you. The over-grown rich man is above minding any one who needs his assistance. The poor and unhappy have neither spirit nor ability. The good natured fool, however willing, is not capable of serving you.

HARNDEN'S EXPRESS. Harnden & Co. have made arrangements with the Camden and Amboy Line to run a car between Philadelphia and New York, each way, daily, in connection with the Boston Express cars, to commence on Thursday, the 1st of April.

TOWBOAT COMPANY. The Philadelphia & Havre de Grace Steam Towboat Company have purchased the steam towboats John Jay and Salem, which they propose running as a line for towing canal boats to and from Philadelphia and Havre de Grace.

CONGRESS. HON. JAMES CARROLL, a representative from this district in the last Congress, declines becoming a candidate at the coming election. Mr. Carroll is a quiet man, and is no doubt right glad to escape from the bear-garden scenes of the house of representatives.

SNOW STORM. A severe snow storm prevailed at Norfolk for three days last week. Several vessels put into the harbor for shelter. Great irregularity prevailed in the arrival and departure of all the steamboats. We have not heard of any serious accident or disaster.

BEWARE OF THE RED BACKS. Take none of the New York "red back" notes. The Herald says that the actual value of the notes, according to the market rates of the securities, is about 75 cents in the dollar, and if the banks were put in liquidation, they would hardly be worth 50 cents in the dollar.

SHOCKING ACCIDENT. At Portsmouth, N H. on Monday last, a child aged three years, son of Mr. Wm. Gray, was so badly burned, in consequence of his clothes taking fire from a stove with which he came in contract, that he died in consequence a few hours after.

A HOPEFUL SCION. A late English paper says "Among the individuals proclaimed outlaws, on Monday week, in open court, by Hemp, officer to the Sheriff of Middlesex, was the Honorable C. Manners Sutton, son of Viscount Canterbury, ex-Speaker of the House of Commons.

SHIPWRECKS. We learn by the Norfolk Beacon, that the schr. Emily, Capt. Barnard, from Nantucket for Norfolk, went ashore near Willoughby's Point on Tuesday evening last, and bilged in about 30 minutes.

The schr. United States, Capt. Lucas, hence to Norfolk and Petersburg, on the same night having carried away some sails and rigging, became unmanageable, and drifted ashore near the same where the Emily was. The crew of both vessels escaped.

THE SOUTHERN MAIL. There are now due this city nine southern mails. The delay is supposed to be caused by the immense freshets which have lately taken place in the south, inundating the mail routs, &c.

BAD DEBTS. The Fayetteville Observer says: "The bad debts due to the Bank of the State of Alabama and its branches, are officially reported by a committee of the legislature to amount to the very enormous sum of $5,640,761 59!

LEGISLATURE ADJOURNED. The General Court of Massachusetts, after disposing of all the business before that body, was on Thursday prorogued by the Governor to the Tuesday next preceding the first Wednesday in January next.

☞Commodore Downes took command of the Navy Yard at Charlestown, Mass., on Thursday morning, and was received with the customary salute.

☞David Bronson, Esq., the Whig candidate, was on Monday last elected to Congress from the District in Maine, left vacant by the election of Mr. Evans to the U. S. Senate.

The Hartford and New Haven Railroad Company has declared a dividend of three dollars on a share, payable on and after the 15th inst.

The Phenix Bank of Hartford has declared a dividend of three and a half per cent. for the last six months, payable on and after the 4th inst.

The President of the United States has recognised GEORGE CHACON, as Vice Consul of Spain, for the port of Philadelphia.

ELECTIONS IN CANADA. The majority of the candidates chosen at the recent elections in Canada are said to be in favor of the measures of the present government.

LABOR ROBBERY. The brokers' office of Gilbert & Son, Boston, was entered and robbed of specie to the amount of $4,275.

ABINGDON ACADEMY,
HARFORD COUNTY.

THE present term of this Institution—located in one of the healthiest and most convenient villages in the State—will terminate at the close of a Public Examination, that will be held on THURSDAY and FRIDAY, 1st and 2d of April. The Summer Session will commence on MONDAY, 3d of May, and continue five months.

Any communication relative to board, (which can be obtained in highly respectable families,) course of study, terms, or other points connected with the Institution or place, will be immediately noticed if addressed to the principal, who will also receive into his own family four boys—not over 14 years of age. If any prefer a personal interview the subscriber will call upon them on the 5th or 6th of April, if their address be left at the office of the Clipper

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will certify personally to the above facts. Yours truly,
THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and show more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.
JAMES BOOZ.

☞ The above Syrup may be had, wholesale and retail, at No. 9 FLEET STREET, between Market and Bond streets, Fell's Point—at CHARLES INGRAM'S, Pratt street, next door to the corner of South street—at No. 2 N. Howard-st.—and at James Jones, corner of High and Pratt streets. Price 37½ cents per bottle. mh16-d1A

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety* or *economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All these desirous of obtaining a clean, brilliant, and economical light, will find it really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ ASTRAL LAMPS ALTERED.

N. B. We have appointed JOSHUA ATKINSON Agent, No. 92 Market street, F. P., where all orders will meet with immediate attention.
F. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

CHIEF JUSTICE HORNBLOWER, presiding.

Thursday, March 18th. A jury having been empannelled at a late hour last evening, the trial was proceeded with this morning. The following are the names of the jurors:

Timothy Wood,	James M. Ward,
Thomas Ely,	W. Longstreth,
Charles Thomas,	James Herbert,
S. A. Verles,	Ezra Eyres,
James P. De Hart,	John Voorhees,
John T. Van Dusen,	John W. Kempton.

Peter Robinson stood indicted for the wilful murder of Abraham Suydam, on the 3d of December, 1840, *by striking him on the head with an adze.*

Counsel for the prosecution, the Attorney-General, Molleson, and John Van Dyke, Esq.

Counsel for the prisoner, David L. Graham, Esq., of New York, and E. Wood, Esq.

Mr. Van Dyke briefly but eloquently opened the case to the jury, and afterwards called the following witnesses.

Lewis Carman, sworn.—I was acquainted with Mr. Suydam; I last saw him about nine o'clock, on the morning of the 3d of December; I saw him at the Banking House; I am the Cashier of the Bank; he left the bank between nine and ten o'clock that morning; I never saw him after; he left there alive; on the 4th of December there was an alarm and excitement at his absence; he was not heard of from that time until his body was discovered, on the 14th of December, that I know of. [A note of hand was here shown to the witness.]

[COPY OF THE NOTE:]

Four months after date, I promise to pay to the order of WILLIAM ROBINSON, Seventy Five Dollars, at the Farmers' and Mechanics' Bank of New Brunswick, value received. (Signature torn off)

Endorsed—William Robinson.

Beneath—A. Suydam. [In pencil mark.]

Numbered, 1638.

We had such a note as this in the bank; it has undergone some alteration, the drawer of the note, if I recollect right, was Peter Robinson, and it was endorsed by William Robinson; I cannot recollect whose hand-writing the note in the bank was in; I do not know that there ever was more than one note of that description in the bank; the note was due on the 6th or 9th of December; at the time it became due, there was but one note of that description in the bank; it was drawn out by Mr. Suydam, before it came to maturity; this note is in the hand-writing of Mr. Suydam; I should say that this is the note that was in the bank.

Cross examined by Mr. Graham.—I have no recollection independently of this note in whose hand-writing the note in the bank was; I handed the note to Mr. Suydam myself out of the bank; I could not recollect precisely the amount of the note independently of seeing it here; I have a distinct recollection that Peter Robinson was the drawer; I have no distinct recollection who the endorser was; I think I could tell who the payee of the note was if I had not seen this note; I have no distinct recollection as to the date, days to run, or period of maturity of the note, independent of seeing it here; the fact of the disappearance of Mr. Suydam created excitement, and originated on the arrival of the morning cars from N. York on the morning of the 4th of December.

By the Attorney General.—I supposed that Mr. Suydam had gone to New York; after the arrival of the cars from New York on the 4th of December, I concluded that he had gone to Philadelphia.

Elias J. Thompson, sworn.—A note of hand was shown to the witness; I think the note was on the Farmers' and Mechanics' Bank; I was the book-keeper there; the numbers 1638 are in my hand-writing; there was a note in the bank of this amount for $75, drawn by Peter Robinson; I served the notice at the time of payment upon Mr. Robinson; I think it was not over three weeks before the time of maturity; we had no other note drawn by Peter Robinson.

Ephraim F. Randolph, sworn.—I reside in this town; I recollect the circumstance of Mr. Suydam's absence; I think it was on Monday, the 4th of December; I went in company with several others to Peter Robinson's house; five or six of us got into a room by ourselves; I saw a disposition to examine the premises; some three or four of us then placed ourselves at the doors, to prevent the crowd coming in; we proceeded to pick up the floor in the basement front room; this was about dusk; we discovered a spot of dirt that appeared to have been removed; I put down my hand, and pulled out a cabbage stalk about six or eight inches from the root; it evidently had not been there long; Mr. Smith, Mr. Dansbury and myself commenced digging; I think we dug between 3 and 4 feet with a spade; at intervals we had a stick, which we kept running down, and discovered that it was dug underneath, and that excited our curiosity; before we got to the body we were pretty well satisfied that there was a body there; I think I was the last one digging; I run my arm down and felt the hip of the pantaloons; the button-hole; it was quicksand where he laid; quite soft and muddy; I spoke then and remarked that the button-hole was broke out; I then put both arms down, and put my arms under the left arm of the deceased, and drew it out and said, 'gentlemen, here is a white hand;' I refused to take the body out, saying, that the Coroner ought to give his directions; at that moment the Mayor observed that we had better take him out; we proceeded to do so; I then took the dirt carefully from his feet; after taking the dirt principally from *his* feet, several of us took hold and lifted the body out; we rather drew him out heels foremost; I should think that his face laid between three and a half and four feet from the surface of the ground; when I stood upon the body the floor was level with my vest; after he was washed off, and turned over, I recognized him; I was very sick, and went away.

Cross-examined by Mr. Graham.—I discovered a small block of wood in this hole; it might have been sawed off a plank; we also found one or two pieces of cabbage; the length of the hole was about five feet at the base; it was about two feet wide by three feet long at the top; the house had just been opened when we went there to make the search; I entered by the back basement door, and went down into the cellar; I went first into the back room, and saw some persons digging; I moved into the front room, and observed that we had better close the door; the front and back room are connected by a door; I presume my party was the first that entered the front room; there are windows in the front room; I did not see any shutters; I have been there once or twice since; the window is above the surface of the earth; I think the house stands back about ten feet from the street; this house is not yet finished; there was a pencil mark across three or four boards of the door; the feet was towards the street; the door was plain grooved, and laid upon common joints; I went all through the house; I don't know who this house belonged to.

Joseph Dansbury, sworn.—I was present at the time the body of Mr. Suydam was discovered; about 7 o'clock in the evening I went to Peter's house and found a number of people there; the house was closed, every door and window; some individuals from the town came up to the house with candles; they first tried to open the back door; I told them I would try to get a window up; I done so; I then went into the house and opened the back door; there was nobody in the house then; after I opened the door a considerable number of citizens rushed in; there was either one or two planks taken up in the back basement floor when I went in; I found a spade laying in the back basement; I went to digging there; I dug about two feet down, until the crowd was so thick that I could not have the use of my arms; we could not discover anything there, and I got up out of the hole; some gentleman then proposed that twelve persons should be selected to search the house and all the rest withdraw; twelve persons were then selected; we proposed to go into the front basement and take up the floor; I saw an adze and a hatchet laying on the front basement floor; we took up a couple of boards; we split a piece off one of the boards in taking it up, and I ran a piece down and discovered a soft spot; we then took up half a dozen more boards; we then commenced digging and dug down about two feet; Smith then took the spade and run it down and said there was something soft and spongy; then he run his arm down and rose up and said he would let me feel; I put my arm down up to my elbow in the quick sand and water; I went to digging until I uncovered the body and pulled up his shirt and vest; we dug on until we uncovered the body down to his legs; then Randolph dug until he got one of his arms out; then he got up out of the hole and said he should not be taken out until the Coroner came; several persons said there was no impropriety in taking the body out; then I got in the hole and scratched the dirt off his legs; he laid on his left side; we got his right leg out first; we then drew his head and the upper part of his body out of the mud; after we got him out of the hole I went and scraped the mud off his face, and recognized it as Mr. Suydam; I raised his head up and found it bloody; it looked very bad; the legs were not straight out; they laid crooked; the hole was about three feet at the top and five feet at the bottom. It was dug out like an oven; after I discovered that his head was bloody I took the candle and looked to see what was the matter with it.

After we got him out of the hole, we put him on a board and carried him out; one of the skirts of his coat had been torn; I was acquainted with Mr. Suydam before; I examined the house next day at noon, and discovered several spots of blood on the wall; this was in the back room on the first floor, and on the wash board inside the door of the back room; the upright casing of the door had been planed down very roughly; it looked as if blood had run under the door; the bloody part of the casing was in the room; I took the casing entirely off; I saw blood on the wall in the back room; three or four different spots, about a foot from the floor, and 18 inches from the door; they were not larger than a pea; I saw one spot of blood on the wall in the entry, near the front door on the right hand side; it looked as though it had been tracked by a finger; after we discovered that spot of blood, there being two or three loads of plank there, we removed it all out of doors; the door of the entry was painted from one end to the other, and about two feet square in the back room floor; the cellar steps and wall on the side of the steps was painted all down; it was painted yellow; the back door was painted about 6 inches high; as far as the plane would not go down there it was painted up. It had been planed after the door had been put up; the paint did not seem dry; I found a piece of carpet in the back room with blood on it; the spot that was bloody, was about the size of a man's head; it was ingrain carpet; the blood had become hard and dry on it; it was laying on the left hand side of the back room; Mr. Smith was one who helped me to take the cases off the door.

Cross-examined by Mr. Graham. I went to the house alone; I heard Mr. Randolph's testimony; I felt no smell before we got to the body; I heard no observation about the smelling of the body; Mr. Randolph was the last person who dug; Mr. Smith was the first who put his arm down, and proclaimed that there was a body there; I was the first who got my hands on the clothes; the spots of blood on the wall were very easily discovered; the blood was on a clear white wall, and conspicious; I judged from the red appearance of it that it was blood; the piece of carpet that I found was in a corner; the room in which it was found was about twelve feet by fourteen. This was discovered on the 14th of December; it did not appear as if it had been used to staunch a wound; the carpet was stiff with blood; I discovered a spot of blood on the wall near the main entry; it was the same kind of a spot that I discovered in the back room; I have been in that house once since; I did not go alone; I showed where Mr. Suydam was found, the paint on the floor, and the blood on the wall; I think I could point out where the spot of blood was; I discovered no mark or spot of blood of any kind in the front room; I discovered no alteration of the premises in the front room; the floor of the cellar was nailed down pretty substantial; there were two to three nails in every joist; there were more nails than are usually put into a floor; I think there were seven or eight joists; I think there were twenty nails to each board; I think the hole was two feet six wide; the earth in the hole was wet and muddy. Mr. Suydam had a black silk or satin vest on; I pulled that up, and pulled his shirt out: blood and water rushed out of his head as soon as he was brought out into the air; the earth caved in as we dug down; we carried the body of Mr. Suydam to the Court house, on the gate of Robinson's house; the paling alongside of this house comes up along the footpath; it is two hundred and fifty yards from this court house; there were three or four spots of blood on the wall near the back door; (an adze and hatchet found in the house of Robinson, were produced;) these are the articles found in the house; the house stands near the corner of New and George streets.

The Court here adjourned for a short time.

BALTIMORE CITY COURT.

Present—Judges Brice and Worthington

Saturday, March 20. Sarah Appert was put upon trial, charged with threatening the life of Elizabeth Bose. The court dismissed the case, the circumstances connected with it being unworthy of notice.

John Jones was brought up, charged with an assault upon William Byrnes. The accused was declared not guilty, and the complainants made to pay the costs.

Caroline Copper, a negress, rather more than *copper color*, was sentenced to pay $10 and costs, for an unprovoked assault on a small negro boy, and for cutting his head with a *drawing knife*.

Wm. U. Stuart, charged with firing a pistol into the house of Mr. Peduzi, on the Point, was released from imprisonment on giving security in the sum of $500 for his appearance at the June term.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

VOLUME IV.] TUESDAY MORNING, MARCH 23, 1841. [NUMBER 12.

ARRIVAL STEAM SHIP CALEDONIA.

12 DAYS LATER FROM EUROPE.

The Caledonia steamship arrived at her moorings in Boston harbor on Saturday, at half past 11 o'clock, A. M. She sailed from Liverpool on the 4th inst., and consequently she has had a passage of 15 days.

The Caledonia left Halifax at half past 11, P. M., on Thursday, and ran to Boston, 396 miles, in 36 hours, making the passage from Liverpool to Boston in 15 days.

The most startling and awful intelligence that the steamer has brought us, is that of the total loss of the American packet ship Governor Fenner, bound for New York, with 124 souls on board, all of whom perished with the exception of the captain and mate.

The McLeod affair and the boundary question had caused much talk in England, the former, at one time, being the all-engrossing topic.

Parliament has been occupied principally with subjects of little interest to the American reader. The trial of the Earl of Cardigan in the House of Lords is the principal topic of conversation. The trial occupied the whole of Tuesday, the 16th ult. The court returned an unanimous verdict of "not guilty," the Duke of Cleveland answering "not guilty, *legally*, upon my honor." The evidence failed to prove the identity of Captain Tuckett, as described in the indictment.

A good deal of discussion took place in the Commons on the 1st inst. the most important point of which was a declaration by Lord Palmerston, that he saw nothing likely to arise which could lead to an interruption of the friendly and pacific relations between France and England.

The total net produce of the post office revenue in Great Britain, up to the year ending Jan. 5, 1841, is officially stated to be £447,664.

The Queen and Prince Albert both remain at Buckingham Palace. Both attended the Haymarket Theatre on the evening of the 27th ult.

The German Opera is announced to commence at Drury Lane, under Bunn's management, on the 8th of this month; and the Italian Opera on the 9th, by Laporte. Theatricals in England appear to be at a very low ebb.

Six hundred and forty-eight thousand passengers were conveyed, during the last six months, upon the Great Western Railway, without a single fatal accident to one of them.

The Thames Tunnel is now 1138 feet 8 inches in length, and the excavation of the shaft has been made to the depth of 23 feet, leaving only about 50 feet more to be completed.

Sir Wm. Colebrooke is to succeed Sir John Harvey, Governor of New Brunswick, who has been recalled.

The Globe (Ministerial paper) announces that her Majesty is again in an "interesting situation," at once exciting the hopes and sympathies of the nation.

The steamer Acadia performed her outward passage in thirteen days and a few hours.

The packet South America reached Liverpool in fifteen days and a half.

The French Colonial Minister has sent orders to the French West India Islands, in consequence of the infamous treatment of the female slave and the acquittal of her owner, that henceforth all private prisons are abolished, and that slaves can only be confined in the public prisons, and that at least one-half of the judges must be sent from France, with some other minor regulations.

The result of the discussion on the secret funds in the French Chambers, was 235 against 145.—The debate on the 27th ult. showed some pretty sharp shooting between Messrs. Thiers and Guizot.

It was rumored in Paris that the French Cabinet was disposed to offer its mediation to arrange the McLeod dispute with the United States.

The report that Charles Kean and Ellen Tree have been privately married, is contradicted by the Court Journal.

FULL PARTICULARS OF THE LOSS OF THE GOVERNOR FENNER.

One of the most dreadful disasters which has taken place for many years occurred on the 20th ult. by the loss of the American ship Gov. Fenner and 122 lives!

The Governor Fenner was a ten year old ship, built at New York, and recently repaired at Liverpool, and strengthened, at an expenditure of $8000, with a number of iron knees. She was about 500 tons burden, and was considered in every respect one of the best and most seaworthy of the vessels of her class. She was the property of Messrs. Andrews & Co., of New York. The commander, Captain S. E. Andrews, was of the firm, and owned a quarter of the vessel.

The following is the account given by Mr. Carter, the mate of the Governor Fenner, of the collision:

"About five minutes past two o'clock, on Saturday morning, we saw the lights of a steamboat. It was my watch on deck, and I immediately called the captain. The steamboat came up about a point and a half on our weather-bow, we having at the time our larboard tacks on board. We thought she was coming on head to us. We had no light but that of the binnacle, on the quarter-deck; and, I believe, it is not considered necessary or prudent for sailing vessels, clear of the land, to carry a light. We waited as much as five or six minutes to find out what way the steamer was really coming, and the captain ordered the man at the wheel to put the helm hard a port, so as to give a clear berth,

If the steamboat had done the same, we should have gone clear of each other a long way—perhaps a mile. The Captain, as soon as he ordered the wheel to be put up, went forward to look out. I then looked over the larboard side, abaft the main rigging, and saw the whole bulk of the steamer. I said to the man at the helm, "She is on board of us! This was about a quarter past two o'clock. The vessels came in contact, notwithstanding our ship paying off. When the crash took place, I heard the Captain call out several times. "For God's sake, save yourselves, the ship is sinking." The jibboom of the ship struck the funnel of the steamer, and her bowsprit afterwards rested on her. On the third surge she gave, I believe, down she went, bow foremost. The taffrail was the last thing we saw of her. She filled very quickly. She had on board a heavy cargo, including a quantity of iron and other heavy goods. The watch on the deck at the time consisted seven men, the captain and myself. All the others on board were asleep below.

The captain also sang out to the man at the helm to relieve the wheel. He was formerly mate of the Belvidere, and came on board to work his passage to America; and we intended to make him second mate of the ship next day. All the men, at first, went forward with me to the captain, who was standing between the night heads, but they afterwards went aft, as the ship sunk, to be, as I suppose, on the higher part of her hull. I stood some time, and attempted to go aft, with a view to save my wife and others, by lowering a boat. She, however, sunk so fast that I was obliged to give up the idea in despair. I left the captain and went to the starboard side.

I stood there a few seconds, till the water was, perhaps, two feet deep, as far aft as the mainmast, and was fast gathering still further aft, her head being then nearly under. I scarcely know what afterwards occurred. I got up, somehow, into the fore rigging, and thence on to the larboard fore-yards, which then crossed the steamer.—When the ship sunk so far that I was from six to eight feet of the steamer's deck. I let go, and dropped down among some sheep. I lay sometime rather confused, and did not attempt to rise, as I thought I might become entangled with a rope which passed over my shoulders, and, as I thought, was part of the bowsprit running rigging of the ship. I then got up.

The cry on board the steamer was that she was sinking; and, I believe, a passenger on board lowered the boat left on the davits, on the larboard side, but she unhooked from the tackles when she touched the water, and, the painter not being fast, she drifted away from the vessel. All the lights they could muster in the steamer were lighted for some time. The engineers and others went below, and found that though she was leaky they could keep her free. She had her fore and aft sails and foretopsail set at the same time. I was on board about three quarters of an hour before I found that the captain of the ship was there. I had seen my wife, who was a little sea-sick, about twenty minutes before in her berth, and gave her a drink.

The captain, when I first saw him in the steamer, was without his hat, and on seeing him (informant) he said, "Good God, is this you! is there any of the crew saved?" I said, *All* do not know; I did *not* know what became of you after I missed you off the ship's bow." Her hull was under water before I got off. The foreyard, from which I dropped, was broken on the steamer as she was going down; and also, I believe, the topsail yard, as our foretopmast studdingsail boom, which was rigged out at the time, (the wind having been for some time fair in the evening,) was left on the steamer's deck. I afterwards looked, but could see nothing of the ship or her masts. The last time I observed the watch on deck, they were on the starboard side of the quarter deck. One man sung out, "For God Almighty's sake save me!" I did not hear the others. I had a quantity of my wife's and my own clothing and other articles on board, worth about £50. All were lost.

FROM THE CONTINENT.

The continental news is not of the slightest interest or importance.

FRANCE is beginning to disarm. Marshal Soult has announced to the Committee on the Budget of the Chamber of Deputies, that the expenditure of 1842 would be reduced by 23 millions of francs, and the effective force of the army by 60,000 men. The Paris journals complain of the financial embarrassments of France, caused by her military operations. A report that the ministry would connive at an alteration of the Fortication Bill in the Chamber of Peers, limiting the fortifications to detached forts, has been contradicted by the Moniteur. A committee appointed to report on the bill relative to the fortifications, had decided in favor of the principle of the measure, by a majority of six against one.

In SPAIN the elections have been the chief topic of interest, which ended entirely in favor of the Liberal party.

The political clubs in Madrid had been closed without opposition.

In PORTUGAL the military preparations have been laid aside, with the settlement of the Douro question which occasioned them. A measure is proposed to retain two bodies of National Militia, which were formed during the late expectation of war.

GERMANY still continues her warlike preparations, and without any apparent cause.

The CIRCASSIANS are stated to have gained several important successes over their oppressors. One of the strongest forts of the Russians had fallen into their hands. The contest is said to have been sanguinary, after a desperate resistance the whole of the Russian garrison was put to the sword.

The SOUTH AUSTRALIAN journals, received in London, to the 28th Sept., contain startling accounts of the outrages by the native wreckers of the country, and the summary vengeance taken upon them by the Government.

TURKEY, EGYPT AND SYRIA.

The dates from Constantinople are to the 8th ult. On the 4th, a conference was held at the Ministry of Foreign Affairs, between the Ambassadors of the four Allied Powers and Redschid Pasha, who had entirely recovered from his late illness. Nothing had transpired respecting the object.

The Sublime Porte announced on the 4th, in a proclamation, the conclusion of the Egyptian question.

The Sultan expressed to Masloum Bey his satisfaction at the manner in which he had conducted the negotiations with Mehemet Ali.

The whole Ottoman fleet had reached the Bay of Marmorice, and on the 5th a portion of it set sail for Constantinople. The rest was to have followed in a day or two.

It was expected that Commodore Napier would shortly repair to Smyrna with one or two ships of the line, and the remainder of the fleet would proceed, partly to Malta and partly to Syracuse.

Advices from Alexandria are to the 7th ult.—Ibrahim Pasha was expected at Alexandria, ar at Damietta, to ascend the Nile on the 8th or 9th ult.

The plague still continues at Alexandria and Rosetta.

LONDON, Wednesday, March 3.

The European intelligence that the Caledonia carries out you will find of little interest or importance; in fact, there has been no political news of consequence during the last two or three weeks.

The excitement here was intense when the news respecting the arrest and imprisonment of McLeod was promulgated, and the funds slightly declined in consequence. That excitement is now over, and the funds have recovered—the public being under the impression that the next advices from the United States, both as regards the case of M' Leod and the Boundary Question, will place these difficulties between the two Governments in a more favorable position.

MONEY MARKETS.

London Stock Exchange.—The news carried out by the Acadia of the forced return of McLeod to confinement, produced a temporary decline in the market, says the Spectator, but it almost immediately recovered.

Saturday, Feb. 27, Twelve o'clock.—Prices are heavier this morning, in consequence of the pressure for money. Consols for Money have been done at 88 3-8, which is 3-8 lower than the highest quotation of yesterday; while the price for the Account is 89. The premium for Exchequer Bills has improved 1s. and is quoted at 6s. to 8s. India Bonds have been done at 19s. In the Foreign Market stock is in great demand; but the only business that occurred has been so low as 23 3-4; the market has, however, since improved, and there are now sellers at 23 7-8 for Money, and buyers at that price for the Account. —*Spectator.*

March 1.—Our last reports from Havre, which are of the 27th ult., state that Cotton, though rather less inquired after, nevertheless fully maintained its value. The sales for the last two days were restricted to 1,233 bales, and consisted of 879 bales Louisiana, at 87f. to 102f.; 47 Floridas, at 87f.; 25 Mobile, at 87f.; 224 Georgia, at 100f.; and 50 bales Jumel, at 160f.—*London Chronicle, March 2.*

London Corn Exchange March 2.—The wheat trade continues exceedingly flat for both English and foreign at Monday's prices. With a large supply of oats, there has been a good demand at the same rates. Other articles are unaltered.

London Tea Sales, March 2.—At the Tea sales to-day, about 6,200 packages passed auction, out of which about 3,700 were sold. A fair proportion sold at better prices than the sales of the 25th ultimo. Congous 1s. 7½d. to 2s. 7d.

LIVERPOOL COTTON MARKET, March 1.

The demand for Cotton throughout the week ending the 20th ult. was extensive, and prices advanced 1-8 per lb. on previous quotations. The sales of the week amounted to 47,750 bales, including 17,300 American on speculation, and 450 for export; 28,590 N. Orleans, to 3½d; 7,460 Mobile, &c. 5¾d to 7¼d.

March 2.—The demand for Cotton to-day has been limited, and the sales amount to 3000 bags at steady prices. The transactions have been chiefly to the trade of American descriptions. In speculation 300 have been taken. In export nothing to report.

WATCH RETURNS. Eastern District, March 21. Jane Heath, Eliza Ann Griffin and Louisa Thomas, blacks, were locked up. 22—Two white females were brought in.

Middle District.—March 21. William Watson, charged with beating Christian Lyburn, was brought in by the Police. A colored man having a bag of sugar in his possession, was arrested, but proving that he became lawfully the owner thereof, he was released. 22d—John A. Kenly was brought in intoxicated—released by Justice King. Mary Gauze was arrested for disturbing the peace of Falls Avenue. A negro was locked up, and in the morning reprimanded, for strolling the streets. Two loafers applied for lodgings.

Western District, March 21. Margaret Curtis and Mary Ann Corsey, col'd. were imprisoned for intoxication and riotous conduct. Jas. Griffin was found at 3½ o'clock, lying in the market-house, drunk, and taken to the watch house.—2 individuals applied for lodgings. 22d—No disturbance of the peace last night, and the only occupant of the lock up was John Goodal, who applied for lodgings.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE!

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M. reach	Baltimore	2 P.M.
" Baltimore	4 P.M. "	Washington	6 P.M.
" Washington	5 A.M. "	Fredk'sburg	12 M.
" Fred'ksburg	12 M. "	Richmond	5 P.M.
" Richmond	5 P.M. "	Petersburg	7 P.M.
" Petersburg	7 P.M. "	Weldon	1 A.M.
" Weldon	1 A.M. "	Wilmington	1 P.M.
" Wilmington	1 P.M. "	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some *extraordinary contingency, is sure of a connection throughout*, whilst it is evident that Foul Roads, Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

☞ Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of

CASH FOR NEGROES. The highest cash prices will at *all times* be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

BALTIMORE CLIPPER.

TUESDAY MORNING, MARCH 23, 1841.

ALL RIGHT. In another column will be found the circular from the Secretary of State, giving the President's instructions in relation to public officers. We are glad that the president has prohibited their improper interference in elections and the contribution of money for electioneering purposes. A public officer is bound to labor for his bread; but he will not now be required to fight for it also. This will cause his duty to be performed with more punctuality and fidelity, and the object for which he was appointed will be better answered. There will be fewer persons to hiss on the political dogs that they may enjoy the fruits of the combat. Officers are left in the enjoyment of all the rights and privileges which they ought to desire, the quiet expression of their political sentiments and the peaceable deposit of their ballots. In these respects the president has fulfilled public expectation, and followed an example which *should* never have been deviated from. His decision on this subject cannot fail to be approved by all parties, and we hope that the practice he reproves will be forever abolished.

But there is another branch of this circular of hardly less importance—we mean that relating to accounting officers. These are strictly enjoined to make prompt and faithful returns of public monies in their hands. The practice of permitting large sums to accumulate in the hands of receiving officers, has led to great abuses and severe losses, and frequent and honest settlements cannot be too *rigidly required of them*. No apology should be admitted for neglect; for the money received ought to be considered as a sacred trust, the slightest intentional violation of which should subject the offender to instant removal and punishment. There is no difficulty in keeping correct accounts, if the officer be honest, intelligent and industrious, and none others should be appointed. Most of the defalcations which have occurred have originated in negligence or dishonesty; and partizan attachments have sometimes been offered in extenuation of such official misconduct. We hope that no such plea will be admitted from henceforward. The Secretary of the Treasury is an intelligent, practical and laborious man, who owes his present eminent distinction more to the proper exertion of his own intellectual energies than to party favor, and he will not be apt to tolerate remissness in duty in his subordinates. Receiving officers may, therefore, make up their minds to be held to a strict responsibility.

DIGNITY. We copy the following paragraph from the Republican of yesterday morning, with the view of returning a little of the advice which the editor kindly administered to us a few days since, and we hope that he will receive admonition with the same good feeling that he gives it.

"*A Palpable Hit.*—A wag, the other day, speaking of the late Inaugural, took occasion to express his surprise that General Harrison in referring to Roman history for examples applicable to the present state of the Union, omitted to cite the fact of a horse being once made Consul, as a case directly in point."

The editor apprehended that we were slipping into politics, but we think that he has palpably got out of them in the above paragraph, and dropped one step below the line. We like wit, but then it must be wit; and for our lives we cannot discover the point (if it have any) in the above article. It compares the President of the United States to a horse. There is neither joke, nor force, nor wit in this. On the contrary it is dull, undignified and disrespectful. Whatever may be the objections to the political sentiments or measures of a President, the fact of his occupying that distiagnished station should secure to him personal respect; and we regret that our courteous neighbor should have forgotten this in his political zeal. *It should always be recollected* by politicians, and particularly by editors, that "harsh words break no bones," whilst "a soft answer turneth away wrath." We love the editorial profession—it is one of great responsibility, and should be of respectability—but its dignity and its usefulness are sacrificed, when abuse is substituted for argument. We suspect that the above article must have been accidentally inserted, for the editor has too discriminating a mind not to see that the shaft is pointless. It *is* better to kill an adversary with the small sword than to hack him to death with a blunt knife—and keen satire is preferable to abortive wit. The latter is like

> "The gun, which aim'd at duck or plover,
> Recoils and kicks its owner over."

We have given our neighbor a "Rowland for his Oliver," at the same time acknowledging our willingness that he shall

> "Check us when we go astray,
> And guide us in the better way."

For he who is too obstinate to take advice, should never presume to give it. We respect the press, and would have the press to make us be respected.

THE SOUTHERN MAIL. Yesterday morning we received New Orleans papers of the 5th inst. There are yet, however, nine mails due from that quarter. From the *Picayune*, we learn that "a white man named E. Samson, who kept a coffee house and cigar shop at the southeast corner of Camp and Girod sts., where he also lived, while in a fit of mental derangement, shot his servant girl, Fanny, a mulatto, and afterwards put an end to his own existence.

MR. J. H. HEWITT'S CONCERT. It is whispered in every quarter that our friend and late associate editor, Mr. Hewitt, will have a full house at the Assembly Rooms to-night. That he will have a splendid Concert is beyond all question. The entire musical profession of our city, together with a great portion of the amateurs, have generously proffered their services upon the occasion. Many of our first citizens have also taken an active interest in the affair. A large number of tickets have already been sold. We have every reason to believe that the saloon will present a most brilliant display of beauty and fashion.

The programme speaks for itself. It presents a cluster of all the choice talent our city can boast. If such attractions, together with the many claims of our native minstrel, poet and patriot, do not draw together a crowded auditory, we can only say that we have over-estimated the generosity and good taste of the citizens of Baltimore.

A friend at our elbow suggests that the Assembly Rooms will hold fifteen hundred persons.—We say, let every seat be taken. Such is the general sentiment of good feeling throughout our city.

THE FIRST TRUMPET. The war cry has gone forth, and the first trumpet has sounded for the political contest. The extra session of congress will give us life and animation in these otherwise dull times; and the clash of tongues and pens will drown the moans over the currency and the groans over the banks. In the ensuing melee, we beg that the champions on both sides will remember that "discretion is the better part of valor;" and we give editors on both sides fair notice that, if they do not conduct the controversy "with a decent respect for the opinions" of the people, we shall rap them over the knuckles. We do not mean to constitute ourselves bottle-holder to the fray, that office having been happily abolished by the temperance societies; but we do mean to see *fair play*, and to close the first mouth that utters foul language. We shall act as *self-appointed chairman* for the time being, and shall certainly "bend the thumb" against the person who may violate the rules of propriety.

THE FRESHET IN THE SOUTH. A letter dated Savannah, March 16th, gives still further particulars of the flood in the South. The whole town of Hamburg has been inundated, and very considerable damage sustained. Some of the streets in Augusta were under water. A stage, in crossing the Ocmulgee in a flat boat, was swept down the stream, the boat snagged, and threw the stage and horses out. The driver and horses were drowned. The passengers, among whom was Gen. Word, of *N. Y.*, swam to an island, and were compelled to climb up trees. The hon. Mr. Holt, on his way home from Washington, was also among the number.

"A Subscriber" complains that the sweepers of the Lexington market house are in the habit of "flirting or throwing dust on ladies as they pass." This is a most ungallant act, and if done designedly, the sweepers should be "brained by ladies' fans" or shoe-heels, for being so unmannerly;—but our correspondent intimates that, if repeated, he will give them rougher treatment. It is hoped that his honor the Mayor, whom we believe to be a man of gallantry and good breeding, will instruct his sweepers to be less free with their brushes, unless they are resolved to "kick up a dust."

CANDIDATES. James W. Williams, Esq. of Harford county, and Dr. James C. Orrick, of Baltimore county, are named as candidates to represent the third Congressional district in the 27th Congress. These gentlemen are both of the Van Buren party, and seem determined not to be "a day after the fair." There will be more "Richmonds in the field," and then the withdrawals will commence. The above named candidates may find the adage verified, "the more haste the less speed."

The New York Express states that the last returns of Mr. Ex-Collector Hoyt's accounts, to which the Naval Officer deemed it his duty not to affix his certificate, exhibited a deficiency of $179,700. This sum is exclusive of the amount for which suit is already commenced by the United States, for the recovery back of fees and emoluments of $30,000. Other amounts swell it up to more than $285,000.

☞The attention of the public is directed to the sale of the handsome and well finished dwelling house, situated in North Liberty street, opposite St. John's Church, by Wever, Cannon, & Co. The sale will positively take place this afternoon, at four o'clock on the premises.

NO SIGN OF BAD TIMES. The boxes at the St. Charles Theatre, N. O., were selling at from 4 to $5 per seat, on the first night of Fanny Elsler's appearance.

FIRE. The alarm of fire yesterday morning about 7 o'clock, originated from the partial burning of the brig Susan Mary, lying at Corner's wharf on Fell's Point. The flames were extinguished without the brig sustaining much injury.

☞A man named Turner Tufts committed suicide in Medford, (Mass.) on the 19th inst., by shooting himself with a rifle. Cause, depressed circumstances.

☞David Hoffman, Esq. will lecture this evening before the Mercantile Library Association, at the Universalist Church. Subject—"Destruction of Jerusalem by an eye witness."

THE HON. HENRY CLAY is yet at Barnum's. His health is improving. Yesterday he was enabled to leave his bed and walk across the chamber.

☞Amicus will confer a favor upon us by calling at the office. We most respectfully solicit an interview.

BOARD OF TRADE.

The following members constitute the Committee on Arbitration for the month of March, 1841:

HUGH BIRCHHEAD, M. S. NORMAN, ENOCH PRATT, JOHN BRADFORD, J. W. PATTERSON.

DEPARTMENT OF STATE, March 20, 1841.

To the Hon. Thomas Ewing,
Secretary of the Treasury:

Sir: The President is of opinion that it is a great abuse to bring the patronage of the General Government into conflict with the freedom of elections; and that this abuse ought to be corrected wherever it may have been permitted to exist, and to be prevented for the future.

He therefore directs that information be given to all officers and agents in your Department of the public service, that partisan interference in popular elections, whether of State officers or officers of this Government, and for whomsoever or against whomsoever it may be exercised, or the payment of any contribution or assessment on salaries or official compensation for party or election purposes, will be regarded by him as cause of removal.

It is not intended that any officer shall be restrained in the free and proper expression and maintenance of his opinions respecting public men or public measures, or in the exercise to the fullest degree, of the constitutional right of suffrage. But persons employed under the Government, and paid for their services out of the public Treasury, are not expected to take an active or officious part in attempts to influence the minds or votes of others; such conduct being deemed inconsistent with the spirit of the Constitution and the duties of public agents acting under it; and the President is resolved, so far as depends upon him, that while the exercise of the elective franchise by the People shall be free from undue influences of official station and authority, opinion shall also be free among the officers and agents of the Government.

The President wishes it further to be announced and distinctly understood, that from all collecting and disbursing officers promptitude in rendering accounts, and entire punctuality in paying balances, will be rigorously exacted. In his opinion it is time to return, in this respect, to the early practice of the Government, and to hold any degree of delinquency on the part of those entrusted with the public money just cause of immediate removal. He deems the severe observance of this rule to be essential to the public service, as every dollar lost to the Treasury by unfaithfulness in office creates a necessity for a new charge upon the People.

I have the honor to be, sir, your obedient servant, DANIEL WEBSTER.

[Similar letters have been addressed to other heads of Departments.]—*Nat. Intel.*

QUERY. We cut from the St. Louis Gazette of the 11th inst., the following paragraph, which appeared in a notice of the Mineral Point Bank, a concern now in trouble:

"We understand that Mr. Jones, the President of the Bank, who had been here for some weeks previous to the flurry, has gone back to Wisconsin. Mr. Knapp, the Cashier, has however been most frequently named to us as the most responsible man in the concern; and if what we hear is true, he must give the public an account of his stewardship."

Is the president of the Baltimore Savings Institution *the man?* If so the bank is inappropriately named. There is too much *mineral* about it.

CAUTION TO PARENTS. Never open letters addressed to your children; unless you have reasons to suspect that they contain something improper. This practice is not only hurtful to that proper pride which should always be encouraged in young people, but it teaches them dishonorable habits; how can children respect the sacredness due to a sealed letter, when they see it violated by their own parents. *Mercish.*

Very good advice in all cases with a few exceptions.

EXTRAS! EXTRAS!! EXTRAS!!!

To Dry Goods, Hardware, China and Queensware, Grocery, Commission Merchants, and others.

THE SUBSCRIBERS offer their services to Wholesale Dealers generally, for the Printing of EXTRA COPIES of the Baltimore Daily Clipper, containing their respective ADVERTISEMENTS conspicuously displayed, so as to cover from a half page to one or two pages of the Paper. This plan has been most successfully adopted by Merchants in all the Eastern cities, as the CHEAPEST and BEST mode of informing their distant customers of the assortment of goods on hand—being subject only to newspaper postage. The facilities possessed by the subscribers for the above description of *NEWSPAPER* and *JOB PRINTING* combined, are not in the possession of any other printers in this city, and the entire satisfaction given to several merchants who have adopted the above plan, induces them to offer their services to all Wholesale Dealers. The papers are furnished in any desired quantity, neatly enveloped for directing and mailing.

The subscribers also publish LOTTERY EXTRAS to the "*Ocean and Weekly Clipper*," one of the most popular and interesting papers of the day.

The great ease with which the subscribers can strike off, on their Double Action Printing Machine, thousands of copies in the shortest notice, allows to merchants power to execute all orders in their business at a GREAT REDUCTION on former prices.

BALTIMORE CLIPPER.

[Reported for the Baltimore Clipper.]

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

CHIEF JUSTICE HORNBLOWER, presiding.

Thursday, March 18—Afternoon Session.

D. W. Vandusen, sworn.—I was examined before the Coroner's Inquest on the body of Mr. Suydam; the head was the only part examined; the body was washed and the head cleansed; there were three wounds discovered on the head; one apparently inflicted with a blunt instrument, and the other two with an edged instrument; the first that we examined was the one inflicted with a blunt instrument, on the posterior part of the head; it was a circular wound; the scalp there appeared to be destroyed for a small space; at this point there was no depression of the bone, nor was there any apparent fracture observable at that time; immediately anterior to this orifice there was a transverse wound, apparently inflicted with a sharp instrument; this wound, or the blow that inflicted this wound, fractured the skull, and depressed it down upon the hair, perhaps half an inch; a third wound was also observed, but this was considered of minor importance, it was at an acute angle with the transverse wound; the third blow did not fracture the skull; after having received the wounds, the scalp was dissected away from the cranium; a fissure was then observed extending from the root of the nose over the whole arch of the head, to the posterior part of the cranium, and into the basis as far as it could be followed up; this wound extended nearly vertical; the effects of the transverse wound were very visible; we discovered, also, upon closer examination, that the *dura mater* was wounded; the wounds were those that an adze or a hatchet would produce; the wounds that I have described might have been inflicted by the instruments produced in Court; I am of opinion that either one or two of the wounds would have produced death; they were likely to produce death instantly.

Cross-examined by Mr. Graham—I examined the body on the same night it was discovered; there was some little evidence of decomposition about the wounds; I think that the first blow that produced the fissure over the arch of the head, would have produced death instantaneously; the transverse wound appeared to be too clearly cut to have been done with a shovel. If sufficient force had been given by the edge of a shovel, it might have produced that wound; the wound on the back part of the head produced no fracture at all; the wound corresponded in size with the hammer part of an adze; if two persons were in conflict, it is possible that one of the persons might have changed his position, so as to have received the blow on the back part of the head; if this wound was one of the causes of his death, he would have bled very copiously; Mr. Suydam was a man of a solid habit.

By the Court—I entertained the opinion that the individual was lying on his side, after he had received the first wound, and then received the other wounds; the blood must have flowed very copiously from the transverse wound.

By Mr. Van Dyke—I consider that Mr. Suydam died of the wounds inflicted on his head.

By the Court.—There was a quanity of extravasated blood issued from the head at the examination of the body; there was no difficulty in recognising the body as that of Mr. Suydam.

Dr. F. R. Smith, sworn.—On the evening of the 14th of December, I was requested by the Coroner to examine the body of Mr. Suydam; I attended at the Court House, and saw the body of a man extended on the table; the head and face were covered with mud, soil, and sand; we had the body carefully washed, and the clothes taken off; I had no difficulty in recognizing the body as that of Mr. Suydam; we found on the head three distinct wounds; the wounds on the back of the head appeared to me to have been given by a blow from behind; it was so far back that we had to turn the body over to see it; that wound appeared to have been given by a blunt instrument about the size of a quarter of a dollar; immediately anterior to this was another wound, which appeared to have been inflicted by a sharp cutting instrument; this wound was about four inches in length; this wound was directly across the top of the skull, and penetrated through the skull deep into the head, depressing the bones very much into the brain; I think it possible that this wound might have been inflicted by a hatchet, but it must have been driven with great force; there was a third wound, of the same length as that which I have described last; this wound did not appear to have penetrated the skull; after examining the wounds a little more closely, we dissected the integuments of the skull.

The impression on my mind was, that two different instruments had been used; probably the blunt instrument had prostrated the victim on his face, and then the cutting instrument had been used; we found, upon dissecting off the integuments, that the bones were loose; we then found that the dura mater was wounded, and that there was a hole in the longitudinal sinus, into which I passed my fingers; such wounds would, in my opinion, have produced death.

Cross-examined by Mr. Graham. I have been acquainted with Mr. Suydam several years; I knew him intimately; I knew Mr. Suydam as a neighbor well, with whom I was in the habit of having daily intercourse; he was about 5 feet 8 inches in height, and rather straight; he was not so tall as the prisoner by 3 or 4 inches; the bruise over the eye was just such a one as might have been inflicted with the fist.

Dr. J. P. B. Skillman, sworn. I was present at the examination of the body of Mr. Suydam before the coroner's inquest; the extent of the wound on the top of the head was 4½ inches in length.

Joseph Danbury recalled. A reward was offered for the discovery of the body of Mr. Suydam; I have made no claim for that reward; I have never expected to get it.

Charles Smith sworn. I was present at the house of Robinson the night the body of Mr. Suydam was discovered; when I first went there, it was some time after dark; when we got there some persons were digging in the back room—I then went into the front room, and found a peck of lime laying on the floor; we secured the doors to keep the people from coming in; we cleared the lime off the floor; when we took up the first plank, a live cat jumped out; after getting up four or five of the planks, we found the ground was softer; I commenced digging right away; I put the spade down, and felt something give way under the spade like the clothes of a man; I was so certain that I had the spade on something, that I run my arm down, and felt one of the legs; I jerked my arm a little, and then I felt all the way round, and then I said I would take my oath there was a man there; Mr. Randolph then felt, and got his finger in the button hole of the pants; Mr. Danbury then dug on until he came to his clothes; Mr. Randolph then pulled up one of the hands; Mr. Van Reine standing there, said he knew the hand of Mr. Suydam; after we got him out, we got aboard and brought the body down to the court-house; the next morning I went digging in the hole and pulled out the skirt of the coat and the pocket; Mr. Robinson works as a carpenter; spots of blood were discovered on the wall in the back room, and on the wall in the entry; we discovered blood also on the casings of the door of the back room; we found a piece of carpet among the things in the back room with blood on it.

James Edmonds sworn. The conversation I had with Robinson, was on the 11th of December; he asked me what time it was; it was at Van Arsdale's hat store in this city; other persons were in there at the same time; he then took from his pocket a gold watch, and asked me what I thought of his establishment; I told him I thought it was extensive for a man in his circumstances, and asked him where he got it; he did not tell me where he had got it, but said he had owned it for two or three years; he likewise said that when he built his house, he was short of money, and pledged it in New York for $25; he said that the year was nearly out, and that he had gone to New York a few days before this conversation; he wished to trade it for lumber with me; I asked him how much he wanted for it; he said it stood him in $72; I told him I did not want it, and would not trade lumber for it; I then told him that a man who carried such a watch ought to pay his debts; he said he was paying his debts, for he had paid Mr. Suydam the bond and mortgage he had on property, and intended to pay the rest of his creditors; he then said he wished Mr. Suydam would come back, for he had not had his mortgage cancelled; he said he was afraid to go to the clerk's office for fear he should be suspected of robbing Mr. Suydam; he asked me how he should proceed to get his mortgage cancelled; I told him I was inexperienced in such matters; I informed my father of the interview with Robinson. (A gold watch was shown to the witness.) I believe this to be the same watch.

Cross-examined by Mr. Graham.—The watch had the same chain and key on it; I opened it, but did not examine the marks in it; I cannot distinguish it any other way than by the chain and key; I did not examine it particularly; I had it in my hand about two minutes; I had no curiosity to look into it; the other persons were in the back part of the store; I do not know what brought Robinson there; he was there some time in conversation with Mr. Van Arsdale; Robinson had traded with my father for lumber, and was indebted to him; the remark that he owned the watch for two or three years was made in an indifferent manner; he told me the story about building his house, and the watch without any question on my part; his conversation about the mortgage was cool and indifferent; soon after the conversation had concluded, he went away; my attention was not particularly directed to his conversation; I had seen Robinson between the 3d and 11th December; I always believed him to be an industrious and hard-working man; I recollect that on the back part of the watch was some chasing, and believe this to be the watch; I think Robinson said he paid Mr. Suydam two or three days before he was missed; I recollect now that I asked Robinson how he paid it; he said he paid $300 in gold and $400 in State Bank bills, at Mr. Suydam's house; he said he had the money about him for eighteen months, and took it without his wife or brother knowing any thing about it, and paid it privately; I have never been examined before in this case; I have told this story to my father, and to Mr. Hatfield; I never told it to any of the officers of the law.

Jacob Edmonds, sworn.—I know the prisoner at the bar; I have known him for twelve years; heard the statement made by the last witness; he made that statement to me on the 12th of December; my son asked me how a man would proceed to take up a bond and mortgage; he made the communication to me on the 12th of December; the conversation with my son made an impression on my mind that Robinson had taken up the bond and mortgage; I went to see Peter Robinson on Monday, the 14th of December; I went to his house, and found him at work making mortar in the front basement room; in the front basement part there was a mason at work; I discovered that a new floor had been laid down, and I asked Robinson when he laid that floor; he said he had laid it down a few days previous; I then asked him where his wife was, and he said his wife had gone to New York and Newark, on a visit; he said he had concluded to finish his house, and he let her go in the meantime; I asked him if he had been to New York recently; he said he had a few days previously; I then said, Peter, there is an unsettled account between you and me, and I want to have it settled; I asked him to make it convenient to settle it that day; he said he would; I then asked him to walk out, that I wanted a little conversation with him; we walked out into the rear of Dr. Howell's house; I came up to the well, and looking down, said, I wonder if this well has been examined for the body of Mr. Suydam. He said, do you think Mr. Suydam is dead? certainly I do, said I; why I think he has run away, said he; the well has been examined, said he; said I, Robinson, my son tells me you are getting along very well with Mr. Suydam; he tells me you have taken up that bond and mortgage; says he, I have, and paid him the money, and if you will walk back to the house I will show it to you; I then stepped up to him and looked him right in the eye, [the prisoner, at this part of the examination, exclaimed in a loud voice, "I wish you would look me right in the eye now;"] said I, Peter, Mr. Suydam is a murdered man, and from the fact of your having this bond and mortgage I charge you with being implicated in the murder; his countenance changed very considerably, and after stammering for some time, he said, "do people suspect me of murdering him?" said I, Peter, I have come to tell you alone what my suspicions are, if you are an innocent man, and have taken up the bond and mortgage honestly, you can tell me where you got the money from; he stated that he had the money out at interest and that he had called it in; I asked who had it.

He told me he could not tell me the person who had it; he did not wish to tell me; I told him he must tell me, or I should have him arrested, and compel him; he then turned the subject, and we proceeded on to my house, about a quarter of a mile distant; as we were going along together, he said, could you suspect me of murdering the man; I said, Peter I suspect you of murdering Mr. Suydam, to get that bond and mortgage, but I hope you have not; I hope that you will satisfy me that you have not; he then bought two window sashes of me, and paid me with a $5 note of the Bank of Rochester; I told him he had not satisfied me about the bond and mortgage; he said he had a mason and carpenter at work, and must hurry back to the house, but that he would come back if I would name a time; he then said he would meet me at the lumber yard at one o'clock; I think about half past 12 o'clock he came to my house; I finished my dinner and went down to the lumber yard with him; we settled our accounts; after we had passed receipts I closed the office door, and said, now Peter I hope you are prepared to tell me where you got the money to take up that bond and mortgage; said he, I have had it by me 18 months; said I, this morning you told me you had it out on interest, and called it in; said he, I told you no such thing; said I, have you had $300 in gold and $500 in notes by you for 18 months?

Yes, he said he had; he said it was a fact that he had the money by him; said I your statements only go to strengthen my suspicions. He then appeared a little irritated and said "if you suspect me of murdering Mr. Suydam have me arrested;" I told him that was what I should do; he then left the office to return to his building and I went to the Mayor of the city and told him my suspicions; myself and the Mayor and two other gentlemen then went to Robinson house; when we got to the house we saw Robinson, and the Mayor said he wanted to talk to him; he readily assented and went up stairs with him; Mr. Mealy, Mr. Cook, the Mayor, and myself then went up stairs; the Mayor then asked Robinson about the bond and mortgage, to see if he had taken it up some four or five weeks previous.

The Mayor then asked in what kind of money; I think he told him $300 in gold, and the rest in State Bank notes; the Mayor then asked him if he had a receipt for it, and wished to see it; Robinson then went out of the room, and brought a policy of insurance; the Mayor told him this was not it, and he then went and brought the mortgage; the Mayor said there is no receipt on his; the Mayor then observed that Mr. Suydam had disappeared in a very mysterious manner; he asked Mr. Robinson if he would have any objection to go before Squire Conover to be examined; Robinson said he had no objections; the Mayor then said he would keep the papers.

The Court adjourned at 8 o'clock in the evening.

DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; and the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15 h of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock,		P. M.	
Arrive at Portsmouth,	at 7	"	A. M.
Leaving Portsmouth,	at 8	"	A. M.
Arrive at Weldon,	at 4	"	P. M.

Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 11 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good night's rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

CONSUMPTION! CONSUMPTION!!—MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your Compound Syrup of Wild Cherry, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having Slaves, which they wish to dispose of, will do well to apply at this office before selling.

WEBB'S PATENT BURNERS, AND CAMPHINE OIL.

FOR SALE AT No. 169 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are sceptical as to its safety or economy, would, I trust be perfectly satisfied by examining the opinion of Professor Locke, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

LINES—(BY EMILY.)

I never stand by a crystal tide,
Reflecting heaven's glorious hue,
But I wish for a Naiad's form, to glide
Down, down thro' its depths of sparkling blue.
Oh! I long to stray o'er the hidden deep,
To view the treasures of the sea,
Where pearls in amber caverns sleep,
And Nature all is mystery.
For I have dream'd a world lies there,
Of loveliness enclosed from view,
Bright grottos laid with sea shells rare,
Where dazzling forms are floating thro'.
The young fair dead who find their graves
So often on the ocean's breast,
Rise to new life beneath the waves,
In robes of spirit beauty drest.
They wake in radiant happy smiles
To dwell bright Peri's 'neath the sea,
And roam those glitt'ring coral isles,
Released from dull mortality.
Thus fancy wends her airy flight,
Thro' clouds and air o'er sea and earth,
And there with wand of magic light,
Weaves scenes too fair for mortal birth.
And oh! beneath her witching spell,
What bliss from worldly thoughts to flee,
In far off fairy realms to dwell,
Revelling in ideality.

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

CHIEF JUSTICE HORNBLOWER, presiding.

Friday, March 19, 1841.

Jacob Edmonds re-called—I heard nothing said about searching the house to the Mayor; several times Robinson asked me to give him work for what he owed me; Mr. Suydam was a regularly doing business man; I have been in the prison to see Mr. Robinson since his confinement; he seemed to be very much engaged reading the bible; I obtained permission from the jailer to see Robinson; I asked him how he did; said he 'had enough; if I had followed the direction of this book, I should not have been here; I shall never blame my brother William for being in this situation;' this conversation was in the presence of the jailer.

Cross-examined, by Mr. Graham.—I visited Robinson three or four times in the prison; and I merely went to see the state of his mind; I did not tell him that what he might tell me, I should feel myself at liberty to disclose; I know of two preachers who have visited Robinson in prison.

By Mr. Van Dyke.—He said his brother William was to raise him the money to take up that note; he said he felt very anxious to take up that note; he said that William told him he need not anticipate any fears about that; that he had the arrangement made and would take up the note; he said he found that he should be disappointed and temptation got hold of him, and that his mind became blinded or darkened; I then said to him you did not pay the note, did you? He answered no.

By Mr. Graham.—I have known the prisoner twelve years; when I first knew him he was making looking glass frames; he has bought lumber from me twice; I always thought him a steady hard working man.

On the morning of the 14th of December, I found him making mortar in a little room partitioned off, in the front basement room of his house; there was a mason at work in the front room, the house was in an unfinished state; upon observing the floor had been newly laid, I asked him when he had laid it; I went there with the intention of taxing him with the murder of Mr. Suydam; he said he had laid the floor a few days previous; during the time I was driving a bargain with him for some window sashes, I believed he was a murderer, and I intended to have him arrested that day; he said he did not think Mr. Suydam was dead, but that he had run away; I should think it impossible for any man to be charged with murder and not change countenance; after a conversation about the bond and mortgage, we proceeded to my house; we got to my house; we had some conversation and he said he wanted to get back as he had some men at work; he said he would return at one o'clock; I made no complaint to any officer about him; it was my agency in the matter that led to his arrest; there was nothing to prevent his escape in any way; he was not watched by me, or by my authority, by any one; he found me at dinner when he returned to my house; we went to my lumber yard; after we had passed receipts, I shut the door, and said, now, I want you to tell me where you got the money to take up the bond and mortgage; my son was in the room the whole of the time.

The conversation with Robinson, myself and the Mayor, at the house of Robinson, I do not pretend to be precise about; I think he knew the Mayor; he readily assented to go up stairs, and he did go up; he manifested no backwardness to show the bond and mortgage; he appeared perfectly willing; after having brought policy and bond, he returned and brought the mortgage; the seal was, I think, cut off; I think the Mayor asked him when he had seen Mr. Suydam; he said he had not seen him for six weeks; the Mayor asked Robinson if he would be willing to go to Squire Conover's; he said, "yes, if you say so;" he readily assented to the Mayor taking the papers; we then went to Squire Conover's; the Mayor, Robinson, myself, and Wm. Robinson, and Mr. Cook and Mr. Neal.

By the Court.—The house was raised and enclosed in the fall of 1839; the floor looked to me to have been finished on Saturday, as I went on Monday morning.

David W. Vail, sworn.—I am the Mayor of the city; on Monday, the 14th December, about 2 o'clock in the afternoon, Mr. Edmonds called on me, and made a communication in relation to the prisoner at the bar; the communication induced me immediately to go with three other gentlemen to the house of Robinson; there were four of us, and it was suggested that two should go round the square to the house, and the other two go direct to the house; Mr. Mealick and myself went together; I inquired if Robinson was in; some person replied that he was, and Robinson appeared; I think he came down stairs; I asked him if he had a private room to take us into; that we wished to see him by himself; he said he had, and immediately went up stairs, and we followed him; he took us into the front room on the second floor; I inquired of him when he had seen Mr. Suydam last; he replied about six weeks ago; I asked him where he saw him; he replied, passing around Alexander Moore's corner, in Church street; "have you not seen him since that time?" he said "no;" I then asked him if he had not paid Mr. Suydam a bond and mortgage since that time; he said "O, no! I paid the bond and mortgage one week after he gave them;" I asked him to let me see them.

At my request he produced the mortgage and deed; I examined the mortgage and found no entry on it for payment of money; I then remarked that probably the entry would be on the bond, and asked him to get that; he then produced the bond and policy of insurance; I examined the bond and found it not receipted; the name was torn off; I then asked him where he got the money from to pay Mr. Suydam; he replied I do not know that I am obliged to answer where I got it from; I replied most of us that get 7 or 8 hundred dollars together can tell where it comes from; he then said he had the money in his house eighteen months; I asked him why he had given Mr. Suydam a bond and mortgage for $780 while in March last, he had the money; he replied I thought I might want it to furnish my house; I then said to him suspicion rests on you as being the murderer of Mr. Suydam, and that we had examined a number of witnesses, he could have no objection to go to Squire Conover's to be examined; he said he should have no objection if I desired it; we then went to Squire Conover's; the examination was commenced there. In consequence of something that occurred during the examination, we were induced to go back to the house; we went back to the house to get more papers and possession of a gold watch; we went in at the basement and into the back room of the basement story; some boards had been removed from the floor, and a hole dug; Robinson remarked that that hole was dug to get some sand for the masons. I asked him how long the floor had been laid, he replied a long time and we have been living here; we then passed into the front basement, the floor of which, appeared to have been recently laid; his brother William was in the front room; I said to Peter, you had better at once submit to have this floor taken up and examined; he replied if you take up the floor, the house will fall down the beams are so constructed; I said to him we all know better than that; his brother William then interposed and said I helped to nail or lay this floor; I then urged him again to have the floor taken up.

He replied, it could not be laid down again as good as it then was, without sustaining some injury; I replied that any damage that was done, if nothing was found, should be remunerated; I asked a carpenter if the floor could be taken up and relaid without damage; he said the damage would not be much; I then pressed him again to submit to the examination of the house. He said we might begin at the roof and take down the house, but we should not take up the basement floor; I asked him soon after we got there for the papers and the gold watch, he told his wife to get the watch; she went and got it; gave it to him; and he gave it to me; we went up stairs with him for the papers; he opened a large tool chest in the front room of the main story, and took out some papers and gave them to me; nothing further occurred, until we got back to the justice's office; I should know those papers again if I saw them; (the bond, mortgage, policy of insurance, and other papers were here shown to the witness.) I believe them to be the papers; (The name and seal were torn off the bond.) I have no doubt they are the same; I sealed all the things up, and put them in the vault of the State Bank; (the note spoken of by the first witness was here produced;) this was not among the papers; a number of receipts for various sums of money received by Robinson from Mr. Suydam, were here read to the Court; the signature, in every instance, was torn off. I cannot say whether those receipts are in the hand-writing of Mr. Suydam; (a gold watch was handed to the witness;) I think this is the watch that was given to me by Robinson.

Cross-examined by Mr. Graham. I went to the house of Robinson next day; I examined it thoroughly; I think the floors were very dirty—large crowds were coming in and going out of the house; I discovered no hesitation in the reply of Robinson to my question of "when he last saw Mr. Suydam;" there was a little hesitation when I asked him where he saw Mr. Suydam; I am not positive that he said he paid Mr. Suydam the bond mortgage a week after they were given; he made no objection to my keeping the papers, he made no objection to go before the squire; there appeared no necessity for taking hold of him; all the papers I received from Robinson were a policy of insurance for $1,000, bond and mortgage for $780, drawn to Abraham Suydam, and several receipts with names torn off, also a note for $75, payable to order of Wm. Robinson, deed of conveyance from Abraham Suydam to Peter Robinson, consideration $350, and one gold watch attached by a chain of hair.

John Brush, sworn.—I know the prisoner at the bar; on the 2d of December last, I met Robinson on board the steamboat Raritan, running between here and New York; Robinson said he had a question to ask me; I asked him what it was; he said he was going to pay the mortgage off, that Mr. Suydam had on his house, and asked me how he should do it; I told him there was but one way to do it—to pay the money, get a receipt, and take it to the clerk's office, and get it cancelled; he then said he thought that was the way to get it done; he said a good many persons said Mr. Suydam would have his house, but he wanted to pay it off, and not let any one know it; I did not see him again until the 10th or 11th of December, when I saw him at Vanderhoof's, in Burnet-st.; when I asked him if he had settled with Mr. Suydam, he said he had, but that Mr. Suydam had not receipted the mortgage; he said he had paid it off in gold and silver.

Cross-examined by Mr. Graham.—I have been examined upon this question before Justice Conover; I think I mentioned the name of Mr. Suydam before the Justice; I took Robinson to be a sober and steady man.

The Court here adjourned for a short time.

AFTERNOON SESSION.

Elias J. Thompson recalled.—[The receipts found in the house of Robinson were shown to the witness.]—I believe these receipts to be in the handwriting of Mr. Suydam.

Cross-examined by Mr. Graham. I did not know Robinson; I believe I employed him once as a carpenter.

Wm. Robinson, sworn. I am the brother of the prisoner. [An agreement between Peter Robinson and Abraham Suydam, relative to the building of Robinson's house, was shown to the witness.]—I signed that paper; there was no duplicate made of it.

Andrew D. Melick, sworn.—I accompanied the Mayor and Mr. Edmonds, and Mr. Cook to the house of Robinson on the 14th of December; I saw Robinson there; he remarked that he had no objection to the taking up of the floor in the back basement, but the front basement floor had been well put down, and he was unwilling to have it removed, he said it would injure his house if that basement floor was removed; he said he had no objections if we commenced taking down the house at the top, but he would not have his property destroyed; Peter stated that he tore the name and seal off the bond after he had paid it; we went to the justice's, and in consequence of what took place, we went back to the house, Robinson handed us a box containing papers, and we selected the papers and receipts shown in court; we obtained the watch at that interview; he did not state the distinct time when he paid the bond and mortgage, but said the papers would show—Mr. Edmonds talked to him sometimes and sometimes the Mayor.

Cross-examined by Mr. Graham.—I conversed with the prisoner in the presence of the Mayor; the attention of all in that room was directed to the conversation of the prisoner; Robinson did not hesitate to go and fetch the papers; there was no hesitation in answering the questions put to him by the Mayor; I think his wife brought the watch; the box contained other papers, and he gave us access to it; he did not hesitate to go before Squire Conover; I have known Robinson about six years.

John W. Cortelgau, sworn.—I knew Mr. Suydam in his lifetime; I am a silversmith and watchmaker; I have frequently seen the watch that Mr. Suydam carried. (A gold watch was shown to the witness.) I was intimate with Mr. Suydam, and saw his watch often; I had it often to repair, and when I have a watch to repair I enter in a book the maker's name and number; I repaired it in October, 1836; I am certain this is Mr. Suydam's watch; it corresponds with the record in my book; I know it, also, by its general appearance; I know the chain and key perfectly well.

Cross-examined by Mr. Graham.—I was in the habit of regulating it; I do not recollect doing any thing to the watch within the last year; I cannot tell how often I have cleaned this watch; I have had it in my possession within a year; I think, within six months.

By the Court.—I believe it to be the watch that Mr. Suydam wore for four years.

Henry Evans, sworn.—I am a silversmith; I reside at Newark; I have seen the prisoner at the bar; I saw him a week after the thanksgiving; he came into my store, and I believe offered a watch to me to be repaired; he began to speak about his watch, and stated that it was very thick. (A gold watch and appendages were shown to the witness.) I believe this to be the watch from its general appearance; I knew that it was jewelled, and had a steel screw balance; I did not take the number of it; he gave me the name of William Brower when he left the watch; I put the name on a piece of paper, which I put in the watch. (A piece of paper was taken out of the watch.)

This is the paper; he was in my store about an hour; he looked in my case and saw several watches there, and I got up from my seat and showed him a number of them; we made an exchange of watches; after that I asked him where he got the watch; he said at New York about 9 months previous; I asked him where he had been to work; he said he had worked for a man out of town putting up a hand railing; I then asked him if he knew several carpenters that I named; he said "no;" he said he had got through his job and was going to New York or Jersey City; he said he had the ague; I prescribed for him to drink a little porter; he said he could not do that as he was a tee-totaller; (another watch was shown to the witness;) this is the watch I exchanged with the prisoner; I put a private mark on this; I gave him this watch; the key he bought and paid me $2 for it; I think he told me he gave $100 at auction, for the watch he exchanged; we exchanged even; the chain on his watch he was going to put on the watch he exchanged, but said he had a sister that was about to be married in New York, and he would like to get some spoons for her; he told me to weigh the chain and guess the value of the key; I then gave him spoons for the chain and key; (the spoons were produced in the Court;) these are the spoons; I have no doubt of it; the next day he came in, took out his watch, and said it was two or three hours out of time; I told him some one perhaps had been trying the key; he said perhaps it was so; I then asked him how his sister liked the spoons; he said she thought them too light; I told him if they were not scratched I would exchange them; he then picked out another set of spoons worth $8 and a shilling; he gave me the initials P. A. R. to put on them; those initials I put on the spoons; he bought a pair of sugar tongs at the same time; (the tongs and spoons were produced in Court;) these are the articles; he never returned for the last set, nor did he bring the first set back.

Cross-examined by Mr. Graham.—This person of whom I have been speaking was twice in my store; I do not recollect how he was dressed; I do not recollect what the color of his hat was; I did not notice his person particularly, or his clothes, or his hat; he was in my store about an hour the second day; I never saw him afterwards until I saw him before the justice; Robinson was brought in before the examination commenced; I do not recollect whether the person had whiskers on.

John W. Cortelgau recalled.—When I examined the watch I found it to correspond with the marks of the one in my book.

Lewis Carman recalled.—(A gold watch was shown to the witness.) This was Mr. Suydam's watch; Mr. Suydam, when he had engagements, generally placed the watch before him; I know it by the keys.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M. reach	Baltimore	2 P.M.
" Baltimore	4 P.M.	" Washington	6 P.M.
" Washington	5 A.M.	" Fredk'sburg	12 M.
" Fred'ksburg	12 M.	" Richmond	5 P.M.

" Petersburg	7 P.M.	" Weldon	1 A.M.
" Weldon	1 A.M.	" Wilmington	1 P.M.
" Wilmington	1 P.M.	" Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, is *sure of a connection through*, whilst it is evident that Foul Roads, Head Winds and Storms!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

BALTIMORE CLIPPER.

WEDNESDAY MORNING, MARCH 24, 1841

"BLESSED ARE THE MEEK." We wish that we could impress the beauties and benefits of meekness upon the minds of politicians, with the same emphasis and eloquence that we heard them enforced on Sunday last, for a different purpose.—We think that we should be able to diminish political acrimony, restore good feeling, and advance the interests of society. If editors of party journals would always bear in mind, that a blessing is promised to the meek in spirit, it might repress their ardent desire for controversy, and enable them when engaged in it to restrain their passions within rational limits. In party warfare there are two objects which should be constantly kept in view by the editor, viz: to animate friends and convert adversaries. To effect the former, abusive and harsh language towards opponent is entirely unnecessary—on the contrary, friends may be alienated by rashness and violence; and will be sure to adhere with greater firmness to the cause they have espoused when they find that it can be sustained with meekness and humility. Conversion (politically as otherwise,) is the result of conviction, and to convince a man of error he must be willing to listen to reason and to hear argument. It is evident then, that if he be approached with threats and denunciations his angry passions will be aroused, and that he will not be susceptible of receiving the desired impression—he will give taunt for taunt, blow for blow. Two opponents, under such feelings and with the use of such means, would be unable to produce the slightest effect upon each other's sentiments were they to continue to wrangle during life. Anger is as unbecoming in political as in other discussions; and, like other passions, increases by indulgence. We once knew a man who had so habituated himself to hard swearing and profane language, that he was unconscious of using them—and so may political writers become so accustomed to the use of harsh terms as at last to deem them indispensable to the elucidation of their arguments. Such men may prize themselves on being keen and severe, but they can never be respected for their principles or their humanity. The poet says,

"The noblest study of mankind is man."

To know man we must study ourselves, and if we would know the feelings of others we must take their situation. What impression is produced upon our minds by the vulgar abuse and angry denunciations of opponents? Do we feel disposed to receive instruction from them? No: we consider their conduct exceedingly low and unbecoming, and, would resentment permit, we should treat them with silent contempt. Let us exchange situations and pour out our wrath upon them, and what will be the result? why, that they must despise us. We are certain from our own experience, that we shall fail to convince or convert them. But, if an opponent approach you in friendly form, and offer with meekness to submit the reasons for his difference of opinion, he will be received with courtesy and listened to with patience; and, if he should not succeed in changing your opinions, you will at least part with him in friendship. And then there is the self-respect which a man maintains by such amiable conduct, to say nothing of higher considerations. Besides, it should not be forgotten by editors, that they assume the responsibility of measurably guiding public sentiment, and are accountable for misleading it.—The vindictive feelings of an editor may be imbibed by his readers; and thus fellow-citizens, animated with equal love of country, and alike disposed to promote the general good, be led, by the indiscretion of editors, to look upon each other with passion, and treat each other as enemies. The man who wilfully excites another, and causes him to fight and lose his life, is morally responsible for his death; and so, editors who wantonly rouse parties into acts of violence, are, if not here, elsewhere, accountable for the consequences. We wish that editors would reflect seriously upon this subject, that a meeker and milder spirit may exist among them. Satire may be a valuable power to possess, but the indiscriminate use of it is fatal to its possessor. We know how difficult it is to suppress a bitter sarcasm, but we should always consider whether, by giving it utterance, we shall not make an enemy. If "the friendship of a dog be better than his enmity," it is surely worth while to take a little pains to preserve the esteem of our fellow men. Editors of ardent temperament and little experience, may be excited by the desire of distinction, and tickled with the idea that they will be extolled for their smartness and severity; but the people can discriminate between talent and principle, and the editor should recollect that he may be caressed for his possession of the former, whilst he is despised for the want of the latter.

THE GALE. The pilot boat Pocahontas arrived at this port yesterday from Cape Henry. On the 16th inst., put a pilot on board schr. General Cobb, of Baltimore, and a short time after, being about 5 o'clock, p. m., a gale commenced blowing from NNE, by which the Pocahontas was blown into the Gulf of Mexico, where, whilst lying of under close reef, she was knocked down on her beam-ends. On cutting away the mainmast, she righted immediately, and stove in the small boat, with other damages. The General Cobb has not been heard from.

LEGISLATURE. The Legislature of this State commences its extra session to-day. As it was called for the purpose of maturing and passing the necessary finance bills, we presume that its attention will be principally confined to that subject. We hope that there will be no disposition to make the taxes greater than the actual necessities of the treasury will require; and that, therefore, no additional appropriation to the Chesapeake and Ohio Canal will be attempted under present circumstances. Against this measure, energetic remonstrances will be forwarded from every ward in this city; and it cannot be the policy of the State to make the taxes so onerous as to depreciate the value of property, and drive citizens into other states for subsistence. The burthen from existing liabilities will fall with a heavy pressure upon Baltimore, and will not only affect large property holders, but will bear with a hard hand upon the laboring classes of society; for landlords will enhance the rent of their property so as to compel tenants to pay a portion of the taxes. This result is inevitable. If, then, some two or three millions of dollars more be added to the state's debt on account of the canal, it must tend to depress industry, or compel many persons to seek relief in removal from the state.

The expenditures of the state should be regulated by the most rigid economy; and, wherever it be possible, salaries should be reduced, and sinecures abolished. Among the latter, we consider the lottery commissioners. One man, with a salary of a thousand or twelve hundred dollars, can perform all the duties required, and for which three commissioners and a clerk have heretofore been paid. We do not press this subject from hostility to the present incumbents, for they no doubt do all that is required of them by law. It is against the system, and the useless expense that we contend, and have protested ever since the establishment of the office; but, if the system be deemed indispensable, it should be conducted at the least possible cost.

THE PENNY PRESS. Our correspondent G. W. W. is right in the estimate which he has formed of the influence of the Penny Press. It is working a moral reformation in the sentiments and feelings of the people. The penny paper circulates every where and is read by every body.—It lashes vice and exalts virtue; informs the mind and improves the heart. Upon all subjects it can speak out with perfect independence, fearless of the frowns of those who may be galled by its censures, and uninfluenced by "good natured friends" who would render it subservient to their interests. But our correspondent has said so many good things of the penny papers, that we shall check our disposition to be loquatious in its praise, only further remarking, that it affords conclusive evidence to our minds of a man's good taste and sound sense to take the Baltimore Clipper; and that we are happy to find that there are so many thousands who possess these excellent qualities.

FRONT STREET THEATER. We witnessed the performance of Pizarro, on Saturday evening, at the above house, and with great satisfaction from the circumstance that a popular and beautiful play has again been performed in our city in a manner not only creditable but worthy as it proved of frequent and liberal bursts of applause, without the adventitious aid of "a star." The performance was exclusively by the stock company, Mr. Penno, as Rolla, a part in which he has added another substantial proof of his superior acquirements. Elvira, by Mrs. Knight, was characterised by those rare qualities accurate reading and distinct enunciation. The part is a heavy one for this lady, but the merits of the representation were an offset against any want of physical power. Pizarro by Mr. Matthews was an admirable relic of the old school; the character has of late partook of the blackguard. Mr. M. restored the gentleman, if such a term can by any possibility be applied to the revengeful Spaniard.

EXCITEMENT IN CANADA. It is alleged that in the county of Grenville, Canada, a number of persons from this side the line, went over to assist Mr. Crane, the liberal candidate.

The Montreal Herald thus speaks of the affair: "It has been enough to sicken the heart of any true subject to witness the proceedings of the present election: our village has been filled with Yankees from the opposite shore, who seemed to take as active a part and feel as much interest for Mr. Crane, as they did at their late Presidential election; it was no unusual occurrence to see them driving through our main street, huzzaing for Crane! and in Ogdensburgh the cry was "Crane and Canadian Independence!" You may judge that under such circumstances, British blood would boil, but up to this time order has been preserved, which I hope may continue."

SHIPWRECK. The schooner Philip Depeyster, Parker, 2 days from New York in ballast, bound to the port of Norfolk, Va., was driven ashore about 6 miles South of Cape Henry, on Wednesday morning last, at 6 o'clock, in the gale and snow storm; her binnacle was swept from her and she started a butt. She is lying well up on the beach, and is full of water. It is presumed she will be gotten off.

Another. We learn from gentlemen from Nott's Island, says the Beacon, that a brig laden with salt, name or destination unknown, went ashore on Sunday night last, 2 miles south of Currituck Inlet, and soon after bilged.

STAMMERING. The German papers mention a discovery of Professor Diefenback, which is exciting general attention at Berlin. He has discovered a method for the cure of stammering, by an incision in the tongue—which is said to have been, in all the instances where he has operated, completely successful. According to the Professor, stammering proceeds from the difficulty of applying the tongue to the roof of the mouth, and his remedy of course consists in the removal of the impediment.

WATCH RETURNS. Eastern District, March 22. The District was remarkably quiet, and the only lodger at the watch house was a white man, admitted at his own request.

Middle District. A man named Peter Lanetz, was brought in at half past nine, charged with being concerned in the murder of the missing wagoner, Jacob Bringman, on the Hookstown Road. The prisoner shortly after he was arrested, was suddenly seized with violent spasms, when Dr. Durkee was called in by the watch, who administered relief. Mary Stevenson, colored, was brought in for riotous conduct in the streets, and disturbing the peace. In the morning reprimanded.

Western District. Henry Adman was arrested at half past nine o'clock, by the Police, for riotous conduct in Broomstick Row. Samuel Maynard and Sarah Jane Dervy, colored, went to the Sharp street meeting, and not relishing the exercises, took it into their heads to disturb the congregation, for which they were taken to the lock up, and reprimanded. Rebecca Johnson and Lucy Peach, colored, were brought out of Guilford alley at ten o'clock, for disturbing the peace of that neighborhood. John Oden and two others came in for lodgings.

THE AMISTAD GIRLS. On Friday, judgment was given at New Haven, on the habeas corpus sued out by Mr. Townsend, against Mr. Pendleton, in favor of the former—that is, transferring the custody of the girls to him, as their guardian, appointed by the Court of Probate. The girls, and also the other Africans, were removed to Farmington, where provision has been made for them.

BUSINESS. The Columbia Spy says: Business upon our canals will be resumed ere this paper reaches most of its readers. The water has been let into the Pennsylvania canal, and the first boat left this port yesterday.

The Tidewater, it is presumed, will be navigable in the course of a few days. This is a 'consummation devoutly wished for.'

☞Twenty-five or thirty prisoners were nearly suffocated in the New Bedford Jail, on one night last week, by the escape of anthracite gas. Col. Baylies, the keeper, succeeded with great difficulty and hazard in getting them out into the yard, and medical assistance being called, they were resuscitated after a great deal of exertion.

THE U. S. BANK BILL. A London correspondent of the N. York Express says:—"The bills drawn upon Morrison & Co. by the U. S. Bank have been cashed without difficulty, and to a certain extent the Bank of England has unexpectedly aided the operation. The only difference is, that the discount charged in the market has been 5¼ per cent."

A BEARER OF DESPATCHES. We understand, says the N. Y. Sun, that Mitchell King, Esq. who came passenger in the Caledonia, from Liverpool, was the bearer of important despatches from our Minister at London, and that he proceeded to Washington immediately after his arrival here.

FIRE. A destructive fire broke out in the village of Montgomery, Orange county, on Friday morning. Six or seven buildings were destroyed. Among them the stores of Mr. Chandler, Mr. Geo. Oakley, Dr. Eager, and others whose names we have not learned. Oakley's loss is said to be six or seven thousand dollars.

A suit has been instituted in a French Court against Fanny Elssler, to answer the complaint of M. Leon Pillet, manager of the Academie Royal de Musique, for having exceeded her leave of absence. M. Pillet laid his damages at 60,000f., (£2,460 British.) The cause was, however, adjourned for eight days.

Considerable interest has been excited in England by the continual toleration of East India superstition by the local government, notwithstanding the orders of the home government. The English abuses in the East are enormous.

We perceive, by a letter of the District Attorney of Niagara county, published in the Rochester Democrat, that in consequence of an error in the Niagara County Clerk in drawing the jury, the court will go over, and that McLeod will not be tried, as been counted upon.

THE NATCHEZ CUTTER. This is the title of a neat new daily pleasure paper published in Natchez, the first number of which is upon our table. It is certainly a very fair cutter and if always manned as at present may sail into the Clipper's port.

GOOD. A lady's dress accidentally caught fire in one of the Philadelphia railway cars the other day, and on being told of it by one of the conductors, she very cooly replied, that "she was quite delighted at the idea of catching a *spark*."

TALLOWS. The editor of the Maine Cultivator has received a pair of "large hens" from Russia—said to be prolific layers and excellent poultry. Chanticler "can stand by the side of a flour barrel, and eat corn, with ease, from the top."

POLICE. Mary Ann Pearce, charged with assaulting and beating her daughter, was committed to prison yesterday morning by Justice Gorsuch. Susan Simes was committed to the alms-house as a vagrant, by Justice Barnard.

NAVAL. The U. S. ship Cyane, from the Mediterranean, and Dolphin and Grampus from the coast, were at the Cape de Verd Islands on the 9th of February.

☞THE ADELPHI THEATRE, in North street, we learn, is shortly to be opened, under the management of Mr. Lennox. It is his intention to produce *vaudeville* entertainments.

LOSS OF A STEAMER. The steamboat Chester, on her trip from St. Louis to New Orleans, was snagged, and sunk in 15 feet water. Boat and cargo, total loss.

BALTIMORE MARKET,
March 22, 1841.

Flour. The market for Howard street Flour still continues dull and without any change in price. The latest sales of which we have been advised were made at $4.37½. This we give as the quotation price. The wagon price continues at $4.25. City Mills $4.50. The stock on hand is limited.

Grain. We continue the quotations of Maryland red wheat at 80a90 cts., agreeably to quality. Corn has advanced a little. We note sales of both yellow and white at 42a42 cts. Maryland Rye will command from 48a50 cts. Oats do. 25a27 cts.; Virginia do. 23a24 cts. Clovereed has declined somewhat in price. Strictly prime we quote at $4.87½, and middling $4.75 from stores. There is, however, not much doing in the article at present. Timothy seed, at retail, $3.50 for prime quality.

Provisions. This market continues without any material alteration or much animation. Mess Beef, $12.50; No. 1, $10.50; Prime, $8.50a89. Western Bacon, assorted, 7a7½ cts. Hams, do. 9 a9½ cts. Middlings, 7½ cts. Frederick county cured Bacon, of assorted quality, 7½ cts. Baltimore cured Hams, 10a10½ cts. Middlings, do. 8a 8½ cts. Western Lard, in kegs, No. 1, 7 cts.—There have been but few transactions in Butter. Glades, No. 1, 18a20 cts.; No. 2, 14a18 cts.; No. 3, 9a14 cts., according to quality. Western, No. 1, 10a11 cts.; No. 2, 8a8½ cts.; No. 3, 7a7½ cts.

Cattle. There is a fair supply of Beef Cattle. Prices are without much change. We quote last sales at $6a7.75 per 100 lbs. according to quality. Live hogs command from $5.50 to $5.75 per 100 lbs.

Whiskey. We quote hhds. at 21 cts., and bbls. 23 cts., as at last quotations. Wagon price exclusive of bbl., 19 cts.

RESIGNATION OF GOV. GILMER, OF VA. We find the following intelligence in the Norfolk Beacon of the 22d inst.

Judge May offered a resolution in the House of Delegates on Friday, setting forth that the Governor of New York had demanded of the Governor of Virginia a fugitive from justice, legally charged with crime in that State, and now confined in this, but that the Governor of Virginia for the purpose of retaliation had declined for the present to surrender the fugitive, but that the fugitive ought to be surrendered forthwith by Gov. Gilmer, which on motion of Gen. Bayly, was laid on the table.

A resolution was then offered by Mr. Taylor, requesting the Governor of Virginia to communicate the late Executive order respecting a demand made by the Governor of New York for the surrender of a fugitive from justice, and his reasons for refusal to comply with the demand, and also a copy of the demand. Gov. Gilmer complied with the request on Friday, and the matter was discussed at length on Friday evening in the House, without coming to a vote.

When on motion of Mr. Bayly, the House adjourned.

The House of Delegates took up the subject again on Saturday, and adopted, as we learn, a resolution condemnatory of the course of Gov. Gilmer, whereupon he immediately resigned his office. The Legislature will probably elect a successor to Gov. G. on to-morrow.

GREAT LUCK. By returns of the Maryland Lottery, class No. 20, drawn on the 22d, the Grand Prize of $20,000 was drawn to comb. 4, 26, 56, besides several other handsome prizes, were sold. Luck has crowned the enterprize of our customers as well as ours-if, in a manner seldom if ever equalled. We have sold more prizes than even our most sanguine hopes had anticipated. Scarcely a day but we have had the satisfaction of tendering to some fortunate adventurer the welcome intelligence of his having drawn a handsome prize. Thus have we made glad the hearts of hundreds—thus have we been instrumental in opening the avenues of fortune to those whom fancy had taught us to believe that the star of their future prosperity had set forever.

The Splendid Lottery, to be drawn on SATURDAY NEXT, will be found to be unsurpassed by any that have appeared. Those in want of tickets, are reminded of the importance of calling early.

BALTIMORE CLIPPER.

From the World of Fashion, *Magazine of London and Paris.*

Fashions for March, 1841. *Bonnets.*—Several have recently appeared, composed of black velvet, lined with rose-colored ruche.—Velvet and velour epingle continue their vogue; a great many bonnets of the latter are of light colors, as white, green, and lilac. There is a great variety in trimmings; some are adorned with roses pompons—others with sprigs of lilac or honeysuckles.

Cloaks and Shawls. Cashmere are more in request than they have been for several winters past, their very large size, as well as their uncommon beauty, makes us not wonder at the preference given them.

Morning Dress. Peignoirs have lost nothing of their vogue. The materials for them are cashmere, mouseline de laine, and foulards. The colors always quiet, without being very dark.—Peignoirs are lined and wadded, plaited behind, and without seams in front; they are trimmed in the shawl style, either with velvet, peluche, or gros de Naples. The sleeves are demi-large to the wrist, which is confined by a band; we have seen a few, but indeed very few, with the sleeves quite tight. Peignoirs are always open in *front*, and the under dress, either of muslin or cambric, is trimmed with embroidered flounces.

Evening Dress. Velvet is in the greatest vogue for robes; always fashionable at this season of the year; it is now more so than ever. Among the most elegant, those of azure blue, trimmed with a deep blonde lace flounce, looped in festoons by red roses, forming a demi-wreath above each festoon; the roses are of a small size, and diminish gradually from the centre to the extremities of the half wreath. Other robes, composed of velvet of different colors, are trimmed with 2 deep falls of English point lace, disposed en tablier; they are headed with a twisted rouleau of gold or silver ribbon, according to the style of the jewelry, and terminate at the bottom in a coquille, to which a knot of ribbon is attached.—Several velvet dresses, particularly those of full colors, as the deeper shades of red, are made to open upon apricot-colored satin petticoats; the latter ornamented with a deep flounce of point lace. The corsage of the robe is made a la Chatelaine, and trimmed with a band of ermine divided en V on the front; the round of the robe is encircled with a deeper band of the same costly fur.

Jewelry. The most remarkable articles are pins and bracelets, called Algerines; the pins have large heads, composed of diamonds, gold, or colored stones, and with small cords and tassels, the latter composed of either pearls or small diamonds, suspended under the head of the pin; the bracelets are of gold, and fasten at the side by wands and tassels; these bracelets have a pretty, and, we must add, a coquettish effect, because, from their make, they must, at every movement of the arm, draw attention to it.

Important Decision on the United States Bank Citation Case. The following important decision was given on the 22d inst. We extract it from the Philadelphia Ledger. It is proper to remark however that this is but a condensation. The opinion of the court is given at large in the Inquirer.

This morning, in the Court of Common Pleas, Judge King read a very long opinion on the exceptions taken by the Bank of the United States to the proceedings brought against it under the "Resumption Resolutions" of 1841. These exceptions, as has been previously stated, were that the resolutions were *ex post facto*, impaired the obligation of an existing contract, and were in collision with the constitutions of the State and Union.

The opinion of Judge King travelled over all the points of the issue, and appeared to be pretty well fortified by precedent. In every aspect of the case he maintained that all the exceptions were well founded, and the only remedy that was left the creditor was under the charter of the Bank, which subjects it to the penalty of twelve per cent. interest on every unsatisfied demand for specie, and a forfeiture of charter if the refusal to pay continued over 90 days.

His associates also read opinions, much shorter, but arriving at the same conclusions. The motion to set aside the proceedings was unanimous.

Judge King remarked in his opinion, that there were two other Banks in the State, that, like the Bank of the United States, were exempt from the provisions of the very salutary resolutions of the last session of the Legislature—thus establishing in favor of the Bank a most important advantage, in the present crippled state of all the Banks of the Commonwealth, and one which, while it supports and aids all the exceptions to the law, may in the same proportion oppress all the others. The opinion passes on some very important principles, and should be closely scrutinized.

mh22 GEORGE GELBACH.

AN APPEAL OF THE WASHINGTON TEMPERANCE SOCIETY.

The unexampled success which has crowned the exertions of the *Washington Temperance Society of Baltimore*, the extraordinary increase of members, and the general interest awakened in the cause of *total abstinence* from intoxicating drinks, have induced us to apply for a charter to the Legislature of Maryland, that we might enjoy all the privileges of incorporated associations, and maintain an attitude of becoming dignity before the public.

One cherished object is, the erection of an edifice of suitable dimensions for the accommodation of our own numerous and constantly increasing society, as well as for the convenience of other Temperance, Library, or Musical Associations, which may choose to occupy it.

The ground formerly occupied by Christ church, near Market street bridge, has been secured, and a more appropriate location, for a large public building, could not be desired.

We design to raise the money by stock, in shares of $10 each, for the particulars of which, and plan of the building, &c. we beg leave to refer to the advertisement of the Executive and Building Committees.

It is our earnest wish to dispose of this stock, and we appeal most confidently to the members of Temperance Societies generally, to aid us in this laudable enterprise. We shall furnish them with a most commodious place of meeting, and the very fact of many Societies convening at the same place, will tend greatly to concentrate our energies and redouble our influence.

We appeal to the various Literary Societies of our city, who at present, have but limited or very expensive accommodations. The rooms we design to furnish, will be admirably adapted to the purposes of such associations. We appeal to property holders and capitalists to come to our aid, believing that a safer investment of money could not be made. We appeal to the friends of public improvement, and to men of architectural taste, as we design to erect an edifice which will be an ornament to our city, consecrated as it will be to the cause of humanity, literature and science.

A spacious public building of this kind has long been wanted in our city. It has been with great difficulty that some of our literary associations could procure rooms sufficiently capacious for their lectures, during the present winter, and then only, at an enormous rent. We now propose to furnish halls for the accommodation of such institutions, and we conceive that we have a right to call upon them for encouragement. We invite all who feel interested in the promotion of morality and science in our city, to aid us in this praiseworthy enterprise, believing that incalculable benefits will thereby be conferred on us and our posterity. We further and lastly appeal to the *ladies* of our city, they being so much interested in the cause we have espoused—a cause so fraught with blessings to themselves and the rising generation.

WM. K. MITCHELL, Pres't.

THE BUILDING COMMITTEE OF THE WASHINGTON TEMPERANCE SOCIETY beg leave to report—

That they have selected the seite for the Hall in the lot formerly occupied by Christ Church, adjoining Baltimore street Bridge, it being the most central situation in our city, and on one of the principal thoroughfares. We propose to erect thereon a plain and substantial building, on the most improved plan, suitable for the various societies and public meeting. It is contemplated that the main floor or Hall will be capacious enough to seat comfortably 3500 persons, other rooms for 1000 to 1500 each, leaving one room to be used for a Library and Reading Room, should it be advisable,—also, six stores fronting on Baltimore street, which is calculated will bring a rent of 1500 dollars—in addition to the receipts of the several furnished rooms, which we have every reason to presume one or more will be occupied every day or evening in the year by the various societies, and at a reasonable rent. On the building we purpose erecting a TOWER, with an ILLUMINATED CLOCK, and an ALARM BELL. Your committee are of the opinion that the Hall, after paying the interest of the stock, will leave a surplus in the hands of the society which will not only enable it to redeem the stock at an early period, but give them the means to establish a LIBRARY and READING ROOM, free of charge. All of which is respectfully submitted.

The undersigned, appointed by the *Washington Temperance Society* of the city of Baltimore as an Executive Committee, for the purpose of erecting and disposing of a sufficiency of stock to build a Hall in aid of the Temperance cause, do hereby present the following resolutions as the basis upon which they solicit aid in carrying out the noble and praiseworthy objects of the Society:

First. The stock shall be issued in shares of ten dollars each—one dollar of which to be paid at the time of subscribing, and the balance in instalments of not more than one dollar per month thereafter.

Second. On payment of the last instalment, transferable certificates of stock shall be issued in the name of the Washington Temperance Society of Baltimore, redeemable at her pleasure; bearing an annual interest of the nett proceeds of the Hall, to be divided annually; reserving all the surplus over and above six per cent. for the purpose of redeeming the stock.

Third. All moneys received by the Committee shall be deposited within twenty-four hours thereafter, in some safe chartered Bank in the city—as may from time to time be designated, and when so deposited, shall not be withdrawn, or any part thereof, unless by vote of the Committee; and no draft shall be valid unless signed by the President and Secretary, and endorsed by the Treasurer of this Committee.

DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a thorough overhaul during the past winter, are now in complete order; therefore the daily line to the south via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Port-mouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.

Wait there until 1 o'clock, A. M. for the Petersburg train.

Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.

Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good night's rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To Dr. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your Compound Syrup of Wild Cherry, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

☞ The above Medicine may always be had in Baltimore of RICHARD NORRIS of WILLIAM, No. 254 Market-street, who is the sole Agent for this Medicine in that city. All orders coming to Philadelphia, must be directed to DR. SWAYNE,

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having slaves, which they wish to dispose of, will do well to apply at this office before selling.

N. B. All letters addressed to this office (post paid) thankfully received and promptly attended to.

WEBB'S PATENT BURNERS, AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are sceptical as to its safety or economy, would, I trust be perfectly satisfied by examining the opinion of Professor Locke, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it, really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

P. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 20, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

MORE PROOF THAT BOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will be ready personally to the above facts. Yours truly,

THOMAS DUNABOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

CHIEF JUSTICE HORNBLOWER, presiding.

Monday, March 22, 1841.

Alexander Watson, sworn.—I am acquainted with Peter Robinson; I went to work at his house on the 11th of December; I had a conversation with him at his house; he wanted me to make some doors for him; on the 12th of December I saw him taking some sand out from under the back basement floor; he had a hoe taking the sand out; I observed to him that he had the sand quite handy; he said, "here is where I was going to poke Suydam under;" he observed that he had not time to do it; he went on to say that they came on him, and he had not time to do it; that was all that passed between us; I made no remarks about the conversation.

Cross-examined by Mr. Graham.—I considered it as a joke; I did not consider him serious at the time; he said it laughingly; there was a mason working in the front basement room; I built a large work bench for him on Saturday, the 12th of December; it was about thirteen feet long; it was the usual height and width of a carpenter's work bench; I built this in the back room of the first floor; it extended into the front room; I planed it and fixed it to suit my own taste; I saw no blood upon any part of the material of that work bench; it was not altered or planed while I was there; if there had been any blood on it, or any of the boards that I planed, it could not have escaped my notice; there was no bench on the first floor when I went there.

By Mr. Van Dyke.—The bench might have been taken apart and put together again without much trouble.

By the Attorney General.—I planed one plank and put a new one on the bench.

Richard Wyckoff, colored, sworn.—I knew Mr. Suydam; I saw him on the 3d of Dec.; I was out here on the Court House ground; I saw him coming along the street in front of the Court House, in the direction of Robinson's house; he passed me with one hand under his coat, nodded at me, and went on; I saw him pass on to Robinson's; open the gate; there he met somebody; they came up together as though they were shaking hands; saw nothing of him after that; I went on past the back yard; they were gone away; as near as I can tell you, it was between 10 and 11 o'clock in the morning; I am certain it was on the third of December; he nodded to me, and asked me what made me make such a low fence there.

By the Court.—I have often spoke to him, and he to me; I have known him between 3 and four years.

By the Attorney General.—If Mr. Suydam had not passed me, I should have known him standing in the yard of Robinson's house; I don't know whether the prisoner is the man who was in the yard with him.

Cross-examined by Mr. Graham.—I am 44 years of age; I don't recollect what year I was born in; I don't know how many yards it is from the Court House to Mr. Robinson's house; Mr. Suydam went straight to the house without turning a corner; I saw him shake hands with somebody.

By the Court.—I saw Mr. Suydam go to the house where his body was found; I was there the next day after the body was found; I am sure this is the house.

By Mr. Graham.—I never said any thing about this to any body; the first time I ever mentioned this was to my wife about a month ago; I mentioned it to Jack Neafie about three weeks ago.

John S. Hoagland, sworn.—I am the Marshal of the city of New Brunswick; I found Peter Robinson at the Justice's office on the 14th Dec.; I went to his house with him after some papers and a watch; he went to his chest and got the papers; the Mayor asked him for a watch; his wife went for the watch; while she was gone we proposed taking up the floor; he made some objections to it; about that time his wife came with the watch; we then, I think, came away to the Justice's office and staid there some time until the news came that the body was found, and then the prisoner was committed; I was at his house on the 4th Dec. to serve a summons; I went to the front door and stood there a little time; I then went round to the back door and knocked there; this was between 9 and 10 o'clock in the morning; I went to the back basement door; nobody came; I noticed that there was curtains before the windows; there were boards before the windows of the first room; I went away; I did not notice the front basement windows; I knew that Robinson lived there.

Cross-examined by Mr. Graham.—I heard part of the testimony of the Mayor; I think his statement is correct.

By Mr. Van Dyke.—I had a conversation with the prisoner two or three time in prison; I took him out two or three times, and fetched him back, while the examination was going on before Justice Conover; I went in once to see him with Dr. Perry and another gentleman; I told them they must not speak to him about the murder; they said nothing to him; some time in January I went in with the Sheriff and jailor, and as we were coming out I was the last one, he either spoke to me or beckoned to me.

By Mr. Graham.—I have heard that his wife and child have not been permitted to see him in prison; nor his brothers; I have always understood that no persons but the officers and a clergyman have been allowed to see him; the partition wall between the prisoner's cell and the hall is so thin that an ordinary conversation can be heard in the hall.

By the Court.—When he called me back, he said he had always been in the habit of working, and it came very hard to him to be confined; I told him any body was liable to be taken up on suspicion; he said he was not guilty of the murder, but he knew who was; I told him I didn't want him to say any thing to me that would criminate him; if he said he had done wrong at first in not telling who committed the murder; I told him it was not too late yet; if he knew, he could tell it now. I told him if any one else was concerned, he might tell me, but I did not want to hear any thing about himself; he went on then to say that Suydam came into the house about ten o'clock, and shook hands with him, and told him he, Robinson, was getting along very nice with his house; Robinson told him yes, that he would soon have it finished off. Mr. Suydam sat down, and in a few minutes inquired if a certain man had been there; he told him no, and in a very few minutes afterwards, the man came in; he said the man and Suydam sat down to a table together; he went down stairs to saw some wood, and was down there a little while; his saw was very dull, and he could not get along; after he had some wood sawed, he was going up the basement stairs with an arm full; after he got to the head of the stairs, he saw the body of Suydam, and was so frightened, that he let the wood fall; he said he saw him in the doorway that led out of the back room into the entry; it was at that time that Wm. knocked at the door; he said he would not let him in—he did not want him to get into a scrape; the man he left in the room with Suydam, he said, handed him these papers, and told him there was something valuable to him; he said the papers were laying scattered over the floor; the man handed him the papers and the watch; the man took the other papers and the money; he said he or they took the body down into the front basement floor and buried it; he said he expected the man would be at the prison to see him in the course of a few weeks; he said the man had been twice to the prison, and if he did not come again in two weeks, he would tell me who it was;—I told him if he knew who done it, he ought to tell it; he said he did not know how he could; the papers were probably destroyed; he said had I destroyed more, I would not have been suspected; I think I left him then; he said he would tell me if I called again; I asked him if Mr. Suydam bled much, and he said "no—very little;" I asked him if he did not hear any noise up stairs when he was down in the cellar; he said no, the first he saw was the dead body laying in the entry; about three weeks afterwards, I went in, and he said he had a lawyer engaged at New York, and he did not wish to tell any more about it; he said he had told Mr. Wood and the jailor; I told him I came very near being up at the house at the time with a summons; he said he wished to the Lord I had have come, and then I should have seen the body lying on the floor; I think he said Mr. Suydam had a good deal of money with him, but the other man had taken that.

The Court here adjourned.

AFTERNOON SESSION.

John S. Hoagland recalled.—It was at the sheriff's request that I went into the jail at the time the first conversation took place.

Cross-examined by Mr. Graham.—The last time I went, the prisoner told me he would tell me the man who did the murder; it was a visit of curiosity when I went with Dr. Berry and the other gentleman; the sheriff went up stairs when I had the conversation with the prisoner; no other person was present when I had the interview with the prisoner; he commenced the conversation by saying that he was not guilty of the murder, but that he knew who was; the conversation lasted half an hour; I thought he was very solemn at that time; the story struck me as being a very singular one; the prisoner told me he had mentioned the same story to Mr. Wood and the jailor; at the third interview, I asked him if that man to whom he had referred had been there; he told me he had not; he said in both conversations that he was not guilty of the murder; he said he was sorry he had not told about the murder; there was a street door at Robinson's house; I think the curtains were white muslin; I went to the house on the 15th of December, the day after the discovery of the body; there was a considerable crowd there; I think there was a good deal of dirt on the floors; I knew Robinson before this; I do not think I saw him between the disappearance of Mr. Suydam and the discovery of his body.

By the Court.—The prisoner did not state at any of the conversations the mode or instrument by which the deed was effected.

William Moody, recalled.—On the evening of the 3d of December, when Robinson took out his pocket book to show me the receipts, he took out a roll of notes about the size of three of my fingers; I saw one ten and either one or two fives; he a kind of half unrolled them.

James H. Newell, sworn.—I am the Coroner of the county of Middlesex; I held an inquest on the body of Mr. Suydam, on the evening of the 14th of December.

Jacob P. Brokaw, sworn.—I saw the prisoner on the 3d of December, about 3 o'clock in the afternoon, in Neilson st., in front of Mrs. Plumb's house; I wanted him to work that day and he said he could not do it; I said he had better earn a few shillings; his reply was I have no occasion, I have plenty of money; he then pulled out a wallet containing a roll of bills, about an inch in diameter.

Cross-examined by Mr. Graham.—His manner was the same as usual; I overtook him walking in the street; I have known the prisoner about two years; his reputation was that of a sober, hard working man.

Jacob Edmonds, re-called.—I had some small conversations with him; upon one occasion he said he slept as well as ever he did, and other nights Suydam bothered him, or was before his eyes; upon another occasion he asked me if I thought he was the murderer; I told him I was satisfied in my own mind that he was the murderer of Mr. Suydam; "well," said he, "supposing they can't prove it against me," said I, "the man was found in your possession, and it is for you to prove how he got there;" I told him if he had not killed him, he certainly knowed who had; that, I believe, was the end of that; the time I went into the prison with the two preachers, he said he wished I had pursued a different course; I asked him what different way I could have pursued; he said the morning I charged the murder upon him, and he told me he had the bond and mortgage, and wanted me to go back to the house and look at it; he said if I had went back he would have showed it to me, and if I had not have been satisfied, he would have went before the Magistrate to be examined; and he said he would then have told me who committed the murder; I then left the room, and went up stairs, I went into his cell again, and he requested me to say nothing about what he had told me; he said he expected Mr. Graham up every day, and he wanted to tell him who the murderer was, to have him arrested; if it got out the man would hear of it, and run away, before they could catch him; that is the whole story; I think he said the day before the transaction took place, he had no idea of doing it, and I think he said that the day it was done, at the time the clock struck 10, he had no idea of doing it.

Cross-examined by Mr. Graham.—I think I had four or five conversations with Robinson in the prison; it was not at the request of Robinson that I took the preachers to the prison; he knew them both; he was dissatisfied that his wife was not permitted to see him, and that strangers were allowed to visit him from motives of curiosity.

James Cordray sworn.—I am acquainted with Peter Robinson; I had a conversation with him about the time he raised the foundation of his house, about the bond and mortgage; Mr. Suydam was to advance him money when he got the foundation up, but I don't recollect what particular sum; on the evening of the 3d of December, Peter went home with me and his brother James, and slept with us; he said his family were away that night.

Charles Smith, recalled.—I had a conversation with the prisoner last April about the debt due to Mr. Suydam; he left the shop one afternoon to go to the Clerk's Office to get his deed; I understood him to say he had paid Mr. Suydam for the lot in gold, $350, that he had got the money from Mr. Follet, and that it was his wife's money; I think he said he had given Mr. Suydam a mortgage on the house; I asked him what he owed on the house; he said $350 or $400. He showed the deed at the shop upon his return in about an hour; he said persons said that Mr. Suydam would get his house from him, but he would show them better, that he would fix the old covey off; he said if Mr. Suydam got ahead of him, he would only have one more to get ahead of.

Cross-examined by Mr. Graham.—These conversations were all before last Spring.

James Couenhoven, sworn.—I am the jailor of the county prison; I have treated the prisoner with a great deal of lenity and kindness, and fed him at my own table three times a day; my rule has been to refuse all persons who wished to see him for curiosity; he communicated to me the mode in which Mr. Suydam came to his death; between the 7th and 10th of January he said, I am not guilty of injuring a hair of Mr. Suydam's head; I cautioned him not to criminate himself; he said I am not a going to do it; I know who did it; he told me a person called upon him some week or ten days before the 3d of December, and wished to know the situation of his house, how near it was finished, and about the indebtedness of his house; the gentleman then wanted to know if he could have the use of his room for some short time, not caring what time it might be, but pretty soon.

He said he wanted to have a conversation with another gentleman; that he had no room in his own house; he then asked him if he could not send his wife to see some of her acquaintances, so that they might have the room alone; to which he answered, "he could in a few days, as soon as he got some money to pay her expenses;" as soon as he got the money he went and told the gentleman that he was going to take his wife to New York on Monday; he said that he described his wife's dress, so that he might see that she went to New York; he told him that he (Robinson) would be back in two days; on his return, he went to see this gentleman, to let him know that he might have the room.

He said the gentleman gave him $30 as a present; on the morning of the 3d of Dec. he stated that he cleared up the room, and made a little fire, and about 11 o'clock or a little after, Mr. Suydam came there and inquired if a gentleman had called there to see him; Mr. Suydam walked in and sat down, and in a few moments the gentleman came in and inquired for Mr. Suydam, and he said the gentleman appeared to be in a hurry as if he had run; he came in and took a seat by the side of Mr. Suydam; a few minutes afterwards he, Robinson, went down in the cellar and sawed a stick of wood, but that his saw was dull; he took some of the wood in his arm and brought it up as far as the head of the stairs; on arriving there he found Mr. Suydam lying in the entry, apparently dead; he said he was somewhat frightened and dropped his wood. The gentleman was standing by him with a carpenter's mallet in his hand; at that moment his brother William knocked at the door.

He said the gentleman made some sign to him not to let his brother in; Robinson said he asked who was there, when his brother knocked at the door, and he told him he could not come in, and then his brother went away; he said the gentleman then took Mr. Suydam and dragged him down into the basement—found a spade there, and went to digging a hole to bury him; when the hole was partly dug, Mr Suydam groaned and this man took the spade and struck him on the top of the head and finished his groaning; the hole was then finished; Mr. Suydam was put in; this gentleman with the assistance of Robinson then took a tub of water to the entry and washed up the blood; afterwards they went into the back room.

The gentleman then got Mr. Suydam's papers and examined them, took from them the bond and mortgage and handed them over to Mr. Robinson, stating there are the papers that concern your property, also, a gold watch; he saw this gentleman take a large roll of bills from Mr. Suydam's pocket, he supposed from 100 to $300, but he did not count it; the gentleman took the money and put it in his pocket; I think he said about the time Mr. Suydam was taken down into the cellar, the man told him if he did not help him he would serve him with the same sauce.

The gentleman then went away; Robinson stated that he then picked up the papers and put them carefully away; I think at this time I told him he should have communicated this story to Mr. Wood, and had the person arrested; he gave me some reasons why he did not do it; I asked him who the man was; he did not tell me the name; at this time he did not tell me the name, but gave me such description by his person and his residence, that I knew who it was; that conversation ended then; it is almost impossible for me to tell.

He told me that he had those papers and $300 buried away in a bottle; I told him if he would tell me where it was I would get them, give him the money, and I would keep the papers; he then refused, and said there was no money with the papers; he said this gentleman came to his cell one night and told him not to be alarmed, that he would get him as good a lawyer as could be got.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout*, whilst it is evident that Fogs! Rough Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep as my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

BALTIMORE CLIPPER.

THURSDAY MORNING, March 25, 1841.

Neutrality. Our neighbor of the Republican has again misjudged us. In advocating the principles of what he terms "the proclamation of Mr. Webster," we are not aware that we deviated in the least from our neutral position—for we cannot perceive that the restricting public officers from improper interference in elections will benefit any party. This measure is but a repetition of that adopted by Mr. Jefferson, and which then received the *sanction* of the American people; and was approved by General Jackson on his becoming president. Having invariably sustained the principles of this "proclamation" through all the changes of parties, we cannot see any particular reason why we should renounce them at the present moment. We do consider it "a great national measure" to compel public officers to perform their duties, instead of attempting to dictate to the people in political concerns.

The editor of the Republican gives us more credit than we deserve for our supposed vigilance in watching his footsteps. Perhaps this impression may have arisen from our constant perusal of his editorial articles; but we assure him that we never read them with the desire to find fault, though we do take the liberty to give him wholesome advice when we think it needful. Had we less regard for him we should spare ourselves the trouble of noticing his productions. He seems to think that the "palpable hit" which we noticed a day or two since, in which the president is compared to a horse, must have hit us; but here again he is in error. Were the president "half horse, half alligator," it would "neither pick our pocket nor break our leg," nor in the least disturb our serenity; though we confess that we should prefer him as president, in his present form. The editor says that we were not "so sensitive in matters of this kind when the *late* president of the United States was almost daily compared to 'a *cat*'—'a *fox*'—'a *political grimalkin*,' and such like animals." If the worthy editor will cast his eyes back over the last four years, he will discover that he had no opportunity of judging of our sensitiveness on these points, and therefore cannot say whether we condemned or approved the use of these nick-names: but we will inform him that we have always held them as disreputable, though it is possible that in by-gone times we have been guilty of what we then and now condemn. We have no doubt sometimes "sinned against the light," and if we have repented of and amended the fault, the editor will hardly reproach us with the inconsistency.

We are not conscious that we have been engaged in "lauding the present incumbents and condemning their opponents:" and we think that it will puzzle the editor to give us the examples.—On measures we have spoken, and shall continue to speak, freely, but without reference to party divisions. On subjects of general interest we cannot consent to be tongue-tied: whenever we have occasion to speak of men, we shall endeavor to use decorous language, and to treat of their acts only as they are connected with public matters. With the nick-names of parties we shall have nothing to do; and we have yet to pen the first paragraph in which the party to which the editor belongs has been denominated "loco focos." It is an epithet which we have always cautiously avoided using.

The editor will do us the justice to admit, that if we have given him occasionally a gentle tap, we have hit some of his opponents with more strength; thus exhibiting our rigid impartiality—and he cannot complain that we do not receive his retorts in good humor. Our only cause of complaint at his editorial of yesterday morning is, that he strikes another over our shoulders.

Meeting of Consumers of Gas. It will be seen by reference to our advertising columns, that a meeting of the consumers of gas is to be held *this evening*, at Sutton's Military Hall, to take into consideration the present high price of gas light, and to consult on the propriety of memorializing the Legislature to pass an act authorizing the Corporation of Baltimore to appoint an *Inspector* and *Measurer* of Gas. We presume that the Gas Company can have no objection to the appointment of such an officer; for, if their Meters be correct, an independent Inspector and Measurer cannot decrease the revenue of the Company, whilst his appointment will tend to satisfy the public mind. It is certain that Gas Light has become an expensive article—so much so, as to have induced many persons, (ourselves among the number,) to substitute Webb's Camphine Light, which is cheaper in about the proportion of one to three. If we buy a gallon of oil a stamped measure is used, and the purchaser is assured of having the right quantity—so in regard to all things sold by weight or measure, excepting the single article of gas, and we cannot see any reason for this exemption.

☞ We are requested to state that a person will attend the meeting, who will explain the construction of the meter, and show how it can be regulated so as to defraud either the consumer or the Company.

St. Patrick's day. The celebration of the anniversary of Ireland's patron Saint has been universal. We hardly take up a paper that has not some account of the festival. The sons of Erin will not forget him until the sun of day sheds its last beams upon the green shamrock.

Virginia. The "ancient domision" is rather awkwardly situated. We published yesterday a statement, that, in consequence of the Legislature having censured the refusal of Governor Gilmer to deliver up a fugitive from justice on the requisition of the authorities of New York, the governor had resigned. The National Intelligencer contains the additional information, by which it will be seen that Virginia is now without a Governor: "By last evening's mail we learn that on Monday the resolution proposing to go into an election for a Governor was taken up in the House of Delegates, and after being debated till night, was finally laid upon the table; after which the *General Assembly* adjourned *sine die*."

There has been wrong action by the governors of both states. New York ought to have delivered up the fugitives from justice heretofore demanded by Virginia; but the refusal to do so, cannot justify Virginia in imitating the example. These state collisions are extremely unpleasant, and have a dangerous tendency—for retaliatory measures will continue to be resorted to, until all justice and propriety will be disregarded. Nor do we see how this condition of things is to be avoided, unless an amicable spirit be cultivated, and greater forbearance practised. The constitutional provision on the subject of the existing difference between New York and Virginia is sufficiently explicit, nor can its force be impaired by any state law: we *therefore consider* the *refusal* by the Governor of New York to comply with the demand of Virginia, as a violation of the constitution, and the conduct of Governor Gilmer in following the example, as equally exceptionable, with this difference: that the latter did not deny his obligation to comply with the requisitions of the constitution, but declined to obey them in respect to the claim of New York alone, and in her case only until she should have complied with the prior demand of Virginia.

Those dear little Sun-shades. Yesterday the bright god of day came out in all his brilliancy and beauty. So potent were his beams, that the ladies, dear creatures, were compelled to place between him and them those beautiful little sunshades. We saw, on Market street, numerous bright eyes peeping out from beneath their delicate shading. Cheeks were there bidding defiance almost to the modest tint of the opening rose. The first bloom of spring was manifested upon each countenance in a manner not to be mistaken. A more splendid array of beauty could not be encountered. And then so interesting.—Every feature wore a smile. There was none of that cold, shivering repulsiveness so common to the dominion of stern winter. No, every thing was inviting, courteous, and romantic. Even the *disconsolacy of our own bachelorism* was dispelled. The sunlight of hope, which had long been obscured, shed its genial influence upon our brow, and bade us wish—aye—fondly wish, for the hour that welcomes the consummation of connubial felicity.

Another Railroad Disturbance. We learn that on Monday evening, a meeting was held at the Commissioners' Hall, Kensington, opposed to the railroad being continued along the Frankford road, or in fact along any other in the district of Kensington. Much excitement is said to have prevailed during and after the adjournment of the meeting, and a number of persons immediatly prepared to evince their opposition to all railroads, by tearing up a large portion of the rails along the Frankford road, from Master-st. downwards. A large bonfire was built in an adjoining commons, with a view to attract the remainder of the population of the District. Nothing serious, however, occurred.

The North East Boundary. On the 26th ult., in the House of Commons, Lord Palmerston, in answer to a question from Sir Robert Peel respecting the boundary question, stated that commissioners for obtaining local information has been sent out respectively by England and by the United States, but without concert. It was intended that a joint commission should be constituted, but the details were still under discussion. Sir Robert Peel asked whether the American Government had actually agreed that there should be a joint commission? Lord Palmerston said that both Governments had agreed to that principle, with a proviso for an arbitration in case of difference.

☞ We learn from the N. O. Picayune, that the towboat Prairie, while on her way up from the Balize, with the ship Talleyrand and brigs Africa and Brilliant, was drawn into Oysterman's bayou by the force of the current, where she now remains. The ship got clear with some difficulty, but the two brigs were drawn in along with the boat, and it is feared they are all in a dangerous situation. A towboat has been despatched to their assistance.

Retort. A clergyman in Maine, was accosted in the following manner by an illiterate preacher who despised education; "Sir, you have been to college, I suppose." "Yes sir," was the reply. "I am thankful," rejoined the former, "that the Lord has opened my mouth to preach without any learning." "A similar event," replied the latter, "took place in Balaam's time."

Contentment. A gentleman, it is said, had a board put on a part of his land, on which was written, "I will give this field to any one who is really contented;" and when an applicant came, he always said, "Are you contented?" The general reply was, "I am." "Then," rejoined the gentleman, "why do you want my field?"

☞ An individual named Robuck of N. York attempted to cut his throat on Tuesday, because he hadn't money enough to live.

Why is a plaster like a runaway nigger? Because it is *heel*-ing. Whew!

Match Race for $10,000 aside. We see by the Mobile Advertiser of the 3d inst., that the match race between *Boywood* and *Westwind*, 4 mile heats, for $10,000 aside, has been confirmed. It is to come off over the Bascombe course although the day when the race is to be run is, not specified. The Advertiser says—"The contest will arouse more interest in the sporting circles than has been caused by any match for years, nor will the excitement be confined to this section alone. The entire race-horse region will feel its influence and participate in its enjoyment. All lovers of 'the high-mettled racer' will assemble to this trial of speed and bottom, and the time of *Henry* and *Eclipse* in New York stands fair to be rivalled in Mobile."

Something new under the sun. The New York Sun says: During the present week, we understand, the citizens of New York are invited to attend a series of meetings of a character entirely new, and which cannot fail to be interesting. Five gentlemen, who have been reclaimed from inebriety in the city of Baltimore, have been commissioned to visit New York for the purpose of addressing public meetings by relating their experience, &c. Pursuant to this benevolent object, the New York City Temperance Society have made arrangements which will enable our citizens to hear these apostles of temperance on this important subject.

Foreign Items. The old King of Holland has married the Countess d'Outremond, a Catholic and a Belgian. His property is estimated at fifty millions of dollars!

Bell's Life in London says: "The action by the director of the Opera against Fanny Elsler, for breach of her engagement, which was called on the 12th inst., but postponed, came to a hearing on Friday week. The fair fugitive remained in default, and not having given a sufficient power to her counsel, the court, upon the motion of the advocate for the Opera, declared the engagement to be vacated, but reserved the question of damages, which were laid at 60,000 francs."

Capt. Heaviside had brought a suit in the Consistory Court for a divorce from his wife, and the divorce has been granted. This will be interesting information to the Rev. Dr. Lardner.

The Sovereignty of Mind. This is the title of a poem, consisting of 57 pages, by our friend and townsman, John N. McJilton. It was delivered before the Philomathean Society of Pennsylvania College, February 16th, 1841.

We have read the poem through, and are prepared to speak of it in the highest terms. It is rich in figures, beautiful in language, and highly instructive in its general bearing. To the author it does much credit. We conceive it to be among the best of the productions of our native poet. It is for sale, we believe, at our principal bookstores.

Fires. The paper mill of H. C. Church & Co. near the lower falls at Rochester, was destroyed by fire on the 11th inst.

The Court House in Exeter, N. H., was destroyed by fire on Sunday morning. The whole of the machinery attached to the exhibition of the Conflagration of Moscow, which had been held there for a week past, was destroyed, being a loss to the proprietor of about $6000. The armory, uniforms, &c. of the Exeter Artillery Company were burnt. Whole loss by the fire about $10,000.

The Case of the "Home." We learn from the Troy Budget of the 19th inst., that in the case of James P. Allaire, the owner of the unfortunate steamboat Home, against the American Insurance Company, the jury on the 18th brought in a verdict for the plaintiff, for $11,301 35 damages, and six cents costs. The other contested claims of Mr. Allaire, against sundry insurance companies, will probably abide the issue of this suit.

Florida Troops. The National Intelligencer of yesterday says: "We learn that instructions have been promptly despatched (on the 11th instant,) by the Secretary of War, to discharge the brigade of Florida militia, ("sedentary,") under Gen. Read, authorized to be called into the service of the United States during the past summer."

Pickpockets Arrested. Two English pickpockets were arrested a few days ago in Boston, at one of the fashionable hotels in that city.—About $150 were found upon them, with a gold pencil case, marked with the name of a person whose pocket had been picked a day or two before.

☞ Mr. Hewitt's Concert was very handsomely attended on Tuesday night last. The music was fine and every thing went off in good order. The Grand Inaugural March gave great satisfaction. The glees were highly applauded, as well as every other part of the performance.

The Rivers. The St. Francisville Chronicle of the 27th ult. says—"The Mississippi river, which threatened the low lands with an overflow, commenced falling a few days since, and continues declining at the rate of about six inches in every twenty-four hours. The river planters need not fear any danger now."

☞ We are informed that a meeting of the association for the encouragement of American manufactures, is to be held next week, and that the Rev. Mr. Musgrave has kindly tendered the use of the Session Room of his Church for this purpose.

Police. Felix McCann, Margaret McCann, and Sarah Andrews were arrested and sent to jail yesterday, for rioting in the street on the night previous.

Stabbing. A colored man named James Edwards was arrested on Fell's Point on Tuesday night, charged with stabbing a man. He was examined before Justice Jones, and committed to jail.

BOARD OF TRADE.

The following members constitute the Committee on Arbitration for the month of March, 1841:

Hugh Birckhead,	John Bradford,
M. S. Norman,	J. W. Patterson.
Enoch Pratt,	

Very Mysterious. We extract the following from the *New York Tattler*.—"Yesterday evening a carman was called to 18 Oliver street, with a box, which was put upon his cart. At the above mentioned place the box was taken into the house, and the carman directed to wait outside. In a few moments two men brought out the box, which was now seemingly quite heavy, and placed it on the cart. The driver then proceeded up Oliver street to Chatham square.—When he had reached the corner of Catharine street, suspicion was aroused, and the box was taken off by a couple of gentlemen and taken into a store. The Coroner was sent for, and the box opened. It it was found the body of a beautiful female, about 17 years old, and apparently just dead. The body was sent to the dead house.

The coroner is now engaged (11 o'clock) in holding an inquest. We have not time to wait for the verdict. The following are the facts so *far as we have been able to ascertain them.*

The name of deceased was Mary E. White, and her parents reside in 20th street. The house from whence the corpse was taken, is that of Mrs. *Bird*. The box was in Mr. Cowperthwaite's store when opened.

The whole event, let what will result during the examination of witnesses, is deeply melancholy, from the youth of the deceased—by some accounts her age being stated at 17 only. A great excitement is felt in relation to the subject, by all whose ears it has reached; and the coroner's verdict is waited for with great anxiety.

Enlargement and New Type. The Philadelphia Spirit of the Times comes to us much enlarged, with new type, &c. It is now one of the best political penny papers in the country. May it flourish for ever.

Accident. Two men, one a passenger and the other a deck hand, fell from the steamer Persian on her upward trip from New Orleans, a few days ago, and were drowned. Names not known.

☞ The Ex-President, Mr. Van Buren, arrived in N. York on Tuesday last in good health. He was received by a large number of his friends.

☞ The latest intelligence from Annapolis states that there were not members enough present to form a quorum

MEETING,

FOR THE RELIEF OF JOHN M. FITZPATRICK.

☞ In accordance with public notice, a number of citizens assembled at Reilly's tavern, Lombard street, on Monday evening, the 22d inst. for the purpose of devising ways and means to alleviate the misfortunes of Mr. John M. Fitzpatrick, whose property was recently destroyed by fire. Mr. John Boyd was called to the Chair, and Wm. P. Peterkin appointed Secretary.

Messrs. Charles Soran, John Patrick, C. M. Cole, Simon Kemp, and George Reilly, constituting a committee appointed for that purpose, reported the following:

Whereas, Our worthy fellow-citizen, John M. Fitzpatrick, has again become the prey of misfortune in the destruction of his only means of obtaining a livelihood for his family, by the burning of his stables, being the second time that he has been the victim of an incendiary: And whereas, it is not in human nature to sustain itself alone under such accumulated misfortunes, it becomes the duty of his more favored friends, and a generous public, to shield him by their sympathy and assistance: And whereas, the said John M. Fitzpatrick has ever held and sustained the character of an honest and industrious man, a friend himself to those in need, and a good citizen—therefore, be it unanimously

Resolved, That this meeting heartily sympathise with him in his recent losses, and evince their sympathy by doing all in their power to assist him.

When, on motion of Mr. Elijah Johnson, it was *Resolved*, That a committee of five persons be appointed from each ward, to solicit contributions in furtherance of the proposed objects of the meeting.

The meeting then appointed the following

1st *Ward*—Patrick Cooney, John McWilliams, John A. Robb, Henry S. Sanderson, Robert Milholland.

2d *Ward*—B. Mc Donough, Cornelius Ryan, James Grieves, Ezekiel Dorsey, John E. Stansbury.

3d *Ward*—J. J. Turner, Rich'd B. Varden, Henry Mc Elderry, Andrew McGowan, James Allen.

4th *Ward*—John I. Gross, Thomas Wildey, Robert Gardner, J. B. Seidenstricker, David Stewart.

5th *Ward*—John Boggs, Andrew Flanagan, John Buck, Charles Sutter, John McColgan.

6th *Ward*—J. German, James Kidd, George Reily, Michael Caughy, Thomas C. Dunlevy.

7th *Ward*—James Loughran, Frederick I. Dugan, Simeon Hays, James McCormick, Samuel G. Hyde.

8th *Ward*—Samuel Lucas, Duncan Furguson, Saml. Ready, Thos. McGill, John Fitzpatrick, lime dealer.

9th *Ward*—Edward Boyle, Alexander Smith, Timothy Kelly, Richard C. Murray, John Hays.

10th *Ward*—Henry McCormick, Enoss McFaul, Wm. Barnett, Lewis Klockgether, James Wilson.

11th *Ward*—James Wilks, jr. Wm. Miller, Michael Toner, Goddard Ryborg, Hugh Cunningham.

12th *Ward*—Thomas Lloyd, Washington Booth, Charles Coyle, James Shockmessy, Matthew Clark.

On motion, it was

Resolved, That the first named of each committee be requested to call their colleagues together, and proceed to the performance of their duties without delay; and that they make returns to the Treasurer as speedily as possible of the fruits of their exertions in their respective wards, and that said committee have full power to fill all vacancies that may occur in their respective bodies:

A voluntary subscription was immediately proposed by the parties present, when about one hundred dollars were handed in, giving an earnest of the good feeling existing on the subject.

On motion, Mr. John Boyd was chosen Treasurer.

The following letter from the Manager of the Front Street Theatre was then read:

Mr. Chairman and Gentlemen: If you think a Benefit at the Front Street Theatre would be serviceable to *Mr. Fitzpatrick*, I cheerfully offer him the use of the establishment for any night this week. I shall be happy to meet any gentlemen named as a committee upon the subject, and shall be proud and happy if two or three hundred dollars could be raised here in aid of your benevolent purpose. Yours, most respectfully,

THOMAS J. WARD.

Front street Theatre, March 22.

When, on motion, it was

Resolved, That this meeting express their high gratification at the kind and liberal offer made by Mr. Ward, and that a committee of five be appointed to confer with him upon the subject, with full power to act in the matter according to their best judgment.

Committee appointed. John Boyd, R. Copeland, John Boggs, John I. Gross, Thomas Wildey.

On motion, the Chair appointed the following named gentlemen a Standing Committee, viz:—John Boggs, Wm. S. Peterkin, Charles Soran.

On motion, the proceedings were ordered to be published in all the Baltimore papers.

On motion, adjourned, to meet at this place on Monday evening next, the 29th of March.

JOHN BOYD, Chairman.

Wm. S. Peterkin, Secretary.

The members of the committee of collections will please call on Mr. John Boyd, chairman, for lists for subscription. mh25-1t

FRANKLIN INSTITUTE—FELL'S POINT.

☞ There will be a public meeting of this Institute on THIS (Thursday) EVENING, 25th inst. when John S. Tyson, Esq. will lecture on the subject of the "Fixed Stars;" after which the following question will be debated, "Were the authorities of Great Britain justifiable in ordering the destruction of the Caroline?" The public are respectfully invited to attend

mh25-1t By order, J. A. RAMSAY, Sec'y.

COME UP! COME UP!! COME UP!!!

☞ The CRYSTAL FOUNT Temperance Society have unanimously determined to join the Temperance Procession on the 5th of April proximo; therefore, those brethren who are friendly to the cause of Temperance, who love the "Order," and who desire to rid it of the opprobium of drunkenness, let them NOW come up boldly, freely, and manly, at "Union Hall," EVERY TUESDAY EVENING, at 7 o'clock.

Addresses will be delivered.

"OUR ORDER."

Freed from reproach, still greater good we'll try
To do in future life, and lay our follies by;
Henceforth, the tongue of slander, be thou still.
Washed in the 'Crystal' stream, the Fount's pure rill.

TEMPERANCE NOTICE.

☞ The members of the Jefferson Temperance Society, and those desirous of becoming members, are requested to attend the meeting THIS EVENING, at the Lutheran Church, at half past 6 o'clock. Several addresses will be delivered. The public are invited.

mh25-1t By order, T. J. WOLFE, Sec'y.

Washington Junior Temperance Society.

☞ This society will hold a Public Temperance Meeting on FRIDAY EVENING NEXT, at half past 7 o'clock, in the Hall of the United Fire Company in Liberty street, between Pratt and Sharp streets. Several addresses will be delivered. By order of the

mh25-2t STANDING COMMITTEE.

THE TIDE COMING IN.

☞ Every body will bear in mind that it is flood tide THIS AFTERNOON, at 3½ o'clock, and as there now remains not a doubt that an enormous "school" of big fish will come up to the City Hall at that hour, it is of the first importance that amateurs should be provided with all the necessary tackle to secure a few of the CAPITALS before the ebb tide. It will be folly to stand whimpering on the shore, if you have, by neglect, permitted the sparkling, saucy PRIZES to recede with the waves, when the hour is past. The last bell is ringing, the hour of departure is nigh—all who want tickets for the excursion, will do well to apply immediately on board, to

THOMAS R. SCOTT, Agent,
No. 56½ Baltimore street, near Gay.

☞ Those who were with us in the luck of the last excursion, we find, need no prompting. This notice is therefore for the especial benefit of amateurs.

TO THE MILFORD BARD,

On seeing him take the pledge of the "Washington Temperance Society," and on hearing a friend of the Bard say, that nothing but the anguish of pecuniary distress could ever cause him (the Bard) to forsake the cause of Temperance.

Go on, sweet Bard, to fame aspire,
And climb ambition's glorious steeps;
Thy hand was made to touch the lyre,
Sweet as the harp an angel sweeps.

Thou didst long since renounce the bowl,
No more at Bacchus' shrine to bow;
But now thou dost devote thy soul
To Temperance—we have heard thy vow.

I saw thee to the altar go,
With tears of pleasure, and I said—
Hail! champion of the cause! thy blow
Shall help to lay the demon dead.

Strike for the cause of liberty!
Oh! wake the harp to virtue's praise;
Strike off the chains of slavery,
And walk in Temp'rance' quiet ways!

Thou wilt have friends—let not despair
Still bid thee think thou art alone;
Cheer up, weep not—for oh! there are
Full many friends, in heart, thy own.

Go on, sweet Bard, and wake the wire
To this great cause, the cause divine!
To Temperance touch thy holy lyre,
And many a hand and heart is thine.

Baltimore, March, 1841. A FRIEND.

MAXIMS—(BY F. A. S.)

Always be candid, deception evade,
Set good examples, be last to upbraid;
Deserving of favor, from prejudice free,
Pique not thy neighbor, no infidel be.

Judge, but not harshly, desert not the poor,
Treat all with kindness, drive none from your door;
Neglect not thy duty, discharge every debt,
Look not for beauty, true worth ne'er forget.

Smile at misfortune, think ere you decide,
Be not too sanguine, beware of false pride.
Ne'er waste a moment, in love be sincere,
Scoop not to trifle, thy Maker revere.

GAS LIGHT. For the information of the consumers of Gas, who may attend the meeting this evening, we publish the memorial lately presented to the City Council, together with the report of the committee to whom the subject was referred. The report and accompanying resolutions were referred to the next annual session.

The following is the memorial:

To the honorable the mayor and City Council of Baltimore:

The petition of the undersigned, citizens of Baltimore, merchants, traders, and mechanics, humbly sheweth: That, in consequence of the enormous amount of money demanded for Gas by the Gas Light Company of Baltimore, and of the yearly increase of the amount, and from the information we have severally received, as well as our personal observation, we feel perfectly satisfied that the unwarrantable increase is occasioned by the present system of *measurement of said Gas*—in which we have no reliance or the least confidence. Therefore, having been, for a long time, thus imposed upon without any resistance, we are at length compelled to apply to your honorable bodies for relief. We therefore humbly pray, that your honorable bodies will pass an act to establish a regular standard for the measurement of Gas, in the city generally, as well as the office of *Inspector of Gas and Gas Measures.*

Your petitioners humbly ask the aid of your honorable bodies, and they will, as in duty bound, ever pray, &c., &c.

Which memorial was referred to a joint committee, who brought in the following report:

Mr. Cole, from the joint select committee to whom was referred the memorial on the subject of *Gas*, submitted the following report and resolution, which was read a first time and laid on the table:

The joint select committee, to whom was referred the petition of numerous citizens, praying the appointment of an Inspector and Measurer of Gas, beg leave to submit the following report:

The committee duly impressed with the importance of the subject, have given to it the consideration which its importance demanded. After much reflection on their part and consultation with counsel, they have arrived at the opinion, that the Mayor and City Council have not the power under any or all of the Acts of Assembly, to grant the prayer of the petitioners; they are however of the opinion, that application should be made to the General Assembly of Maryland, for the grant of the required power, and to that end they propose for the consideration of the council, the following preamble and resolution.

WM. H. COLE, Jr.
WM. H. HANSON.
FRANCIS J. DALLAM,
Committee First Branch.
WM. BARNET,
GEO. W. KREBS,
Committee Second Branch.

Whereas, Complaints have existed in this city for some time past, in regard to the high charges made by the Gas company for the supply of gas; and whereas a petition from a large number of the citizens of this city has been presented to the City Councils, setting forth their grievances, and asking the interference of the Mayor and City Council, by appointing an Inspector of Gas: And whereas the Gas company have by their memorial, denied the allegations contained in the petition referred to, and ask of this council to appoint suitable persons to examine into the complaints of the petitioners; and particularly as to the quality of the gas furnished, and as to the correctness of the machine used for the measurement of gas, and such other matters as they may think useful to a full understanding of the subject.

1. *Therefore, be it resolved by the Mayor and City Council of Baltimore*, That two suitable persons be appointed, one an experienced chemist, and the other a machinist, to examine and test the quality of the gas supplied, and the correctness of the machine used for the measurement, and report to the Mayor the result of their examination; also, report to the Mayor whether, under the present arrangement, the citizens are or can be charged with more than they actually consume, and whether any, and what arrangement, can be made, by which the grievances complained of, if they really do exist, can be removed.

2. *Resolved*, That a copy of the above-mentioned memorial and resolution, be signed by the Mayor and the Presidents of the two branches of the City Council of Baltimore, be forwarded to the senator and delegates from Baltimore to the legislature of Maryland, with a request that they will endeavor to procure the passage of the act therein referred to.

3. *Resolved*, That the city councillor be, and he is hereby requested to prepare a memorial asking that an act may be passed, authorizing the Mayor and City Council of Baltimore, to appoint an inspector and measurer of Gas, in the city of Baltimore.

AN APPEAL OF THE WASHINGTON TEMPERANCE SOCIETY.

The unexampled success which has crowned the exertions of the *Washington Temperance Society of Baltimore*, the extraordinary increase of members, and the general interest awakened in the cause of *total abstinence* from intoxicating drinks, have induced us to apply for a charter to the Legislature of Maryland, that we might enjoy all the privileges of incorporated associations, and maintain an attitude of becoming dignity before the public.

One cherished object is, the erection of an edifice of suitable dimensions for the accommodation of our own numerous and constantly increasing society, as well as for the convenience of other Temperance, Library, or Musical Associations, which may choose to occupy it.

The ground formerly occupied by Christ church, near Market street bridge, has been secured, and a more appropriate location, for a large public building, could not be desired.

We design to raise the money by stock, in shares of $10 each, for the particulars of which, and plan of the building, &c. we beg leave to refer to the advertisement of the Executive and Building Committees.

It is our earnest wish to dispose of this stock, and we appeal most confidently to the members of Temperance Societies generally, to aid us in this laudable enterprise. We shall furnish them with a most commodious place of meeting, and the very fact of many Societies convening at the same place, will tend greatly to concentrate our energies and redouble our influence.

We appeal to the various Literary Societies of our city, who at present, have but limited or very expensive accommodations. The rooms we design to furnish, will be admirably adapted to the purposes of such associations. We appeal to property holders and capitalists to come to our aid, believing that a safer investment of money could not be made. We appeal to the friends of public improvement, and to men of architectural taste, as we design to erect an edifice which will be an ornament to our city, consecrated as it will be to the cause of humanity, literature and science.

A spacious public building of this kind has long been wanted in our city. It has been with great difficulty that some of our literary associations could procure rooms sufficiently capacious for their lectures, during the present winter, and then only, at an enormous rent. We now propose to furnish halls for the accommodation of such institutions, and we conceive that we have a right to call upon them for encouragement. We invite all who feel interested in the promotion of morality and science in our city, to aid us in this praiseworthy enterprise, believing that incalculable benefits will thereby be conferred on us and our posterity. We further and lastly appeal to the *Ladies* of our city, they being so much interested in the cause we have espoused—a cause so fraught with blessings to themselves and the rising generation.

WM. K. MITCHELL, Pres't.

THE BUILDING COMMITTEE OF THE WASHINGTON TEMPERANCE SOCIETY beg leave to report—

That they have selected the scite for the Hall in the lot formerly occupied by Christ Church, adjoining Baltimore street Bridge, it being the most central situation in our city, and on one of the principal thoroughfares. We propose to erect thereon a plain and substantial building, on the most improved plan, suitable for the various societies and public meeting. It is contemplated that the *main floor* or Hall will be capacious enough to seat comfortably 3500 persons, other rooms for 1000 to 1500 each, leaving one room to be used for a Library and Reading Room, should it be advisable,—also, six stores fronting on Baltimore street, which is calculated will bring a rent of 1500 dollars—in addition to the receipts of the several furnished rooms, which we have every reason to presume one or more will be occupied every day or evening in the year by the various societies, and at a reasonable rent. On the building we purpose erecting a TOWER, with an ILLUMINATED CLOCK, and an ALARM BELL. Your committee are of the opinion that the Hall, after paying the interest of the stock, will leave a surplus in the hands of the society which will not only enable it to redeem the stock at an early period, but give them the means to establish a LIBRARY and READING ROOM, free of charge. All of which is respectfully submitted.

The undersigned, appointed by the *Washington Temperance Society* of the city of Baltimore as an Executive Committee, for the purpose of erecting and disposing of a sufficiency of stock to build a Hall in aid of the Temperance cause, do hereby present the following resolutions as the basis upon which they solicit aid in carrying out the noble and praiseworthy objects of the Society:

First. The stock shall be issued in shares of ten dollars each—one dollar of which to be paid at the time of subscribing, and the balance in instalments of not more than one dollar per month thereafter.

Second. On payment of the last instalment, transferable certificates of stock shall be issued in the name of the Washington Temperance Society of Baltimore, redeemable at her pleasure; bearing an annual interest of the nett proceeds of the Hall, to be divided annually; reserving all the surplus over and above six per cent. for the purpose of redeeming the stock.

Third. All moneys received by the Committee shall be deposited within twenty-four hours thereafter, in some safe chartered Bank in the city—as may from time to time be designated, and when so deposited, shall not be withdrawn, or any part thereof, unless by vote of the Committee; and no draft shall be valid unless signed by the President and Secretary, and endorsed by the Treasurer of this Committee.

Committee: Major E. Stansbury, David Carson, Wm. Reese, James McCurley, Christian Keener, David E. Thomas, Daniel Bixler, Robert Neilson, Geo. K. Quail, David Martin, Joseph Bonn, Peter Wells.

Books are now opened for receiving subscriptions of stock, at the following places:

DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

JNO C. MOALE,
General Agent Baltimore Steam-Packet Company.

Passage (and fare on board) to Weldon, $14 00
Passage and fare to Richmond, 10 00

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your Compound Syrup of Wild Cherry, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often tend to dangerous consequences

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having Slaves, which they wish to dispose of, will do well to apply at this office before selling.

F. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 25, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, a light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Cough, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. VOLUME IV.] FRIDAY MORNING, MARCH 26, 1841. [NUMBER 15.

[Reported for the Baltimore Clipper.]

TRIAL OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

CHIEF JUSTICE HORNBLOWER, presiding.

[CONCLUDED.]

James Couenhoven's examination of Monday continued.—He told me this story [alluding to the statement of Robinson as given in the concluding part of yesterday's report,] half a dozen different times; he succeeded in inducing me to believe it, and in consequence we set a trap to catch this gentleman, but did not succeed.

The Court here adjourned.

Tuesday morning, March 23.

James Couenhoven, recalled.—The time we had a conversation, Robinson blamed his brother William for the situation he was in; then, said I, did your brother William kill Mr. Suydam; said he, "No;" he told me he had obtained $20 or $25 from his brother William a day or two after the 3d of December; his brother, he said, had found out that he (Robinson) had taken up the note of Mr. Suydam, and asked him why he had taken the money of him; Peter returned him $5 of the money then; we had a repetition of those conversations; the reason the gentleman assigned for asking him (Robinson) to let him have his room to see Mr. Suydam, was that his house was too public; he has since told me that the story was both true and false, that he told me it was false, because he did not want the man's name to be known; since that, he has told me it was true; he wished me to tell Mr. Hoagland that the story was false, and that he did not wish him to say any thing about it; I suggested to him the propriety to let this matter be known to those whose business it was to prosecute the defendant; I advised him when Mr. Graham came from New York to tell him the whole truth and nothing but the truth; he told me on the Wednesday after the 3d of December, he went to Newark.

He stated that the first place he stopped at in New Brunswick after his return from Newark, was at Mr. Voorhees, the watchmaker's; he pulled out a small gold watch, for the purpose of seeing whether it was right; Mr. Voorhees looked at it, said it was a very good one, and asked what he gave for it; Robinson answered $72 or $75; he then priced a small gold ring, and bought it for three shillings; then he went to Mr. Vandervelt's and showed his watch to him, and said he was going to young Mr. Vandervelt's to see whether he would shave him out of his watch; Robinson then said he went there but he was not in; he then went to Vansardale's hat store and showed the watch there; he then offered to trade the watch for lumber with young Mr. Edmonds; he said he left there and went to his brother William's; he said at one time that if it had not been for those silver spoons he got at Newark they would never have found out where it was; he said the [illegible] with the initials of his and his wife's name.

Cross-examined by Mr. Graham.—I am the jailor; it would be as impossible for me to tell how many conversations I have had with Robinson, as it would to count the sand on the floor; he has always told the story the same way; he named the person that I have described as the gentleman in the story; this person is in a respectable establishment, and appears to be respectable; in consequence of this story, I set a trap for this person; the trap was a string leading from Robinson's room to my kitchen; when the person came to the window, Robinson was to pull the string; he never pulled the string; there was a small hole in the partition wall of the cell, for putting in the victuals; he has been hand-cuffed all the time he has been there; I never told the District Attorney the story; his wife and child saw him once or twice, when he was brought to the prison; I never told a citizen that I considered him crazy.

By the Attorney General.—The day that his brother James was examined on this trial, he said, in going from the Court House to the prison, that, if he had been in James' place, he would have taken a false oath; he was very angry at Mr. Edmonds' testimony last night; he would not say whether my testimony was true or false; he said if he was condemned to die, he would not see any one, not even the clergy; it was said in a wild, angry tone; I think he stated he should believe there was no hereafter, in consequence of the witnesses not stating the truth, and that he expected to be condemned; he stated, this morning, that if there was any Heaven, and Mr. Edmonds went there, he did not want to go there.

By Mr. Graham.—I don't know how the Attorney General became acquainted with these facts; I did not tell him.

Mr. Hoagland, recalled.—The silver spoons produced in Court were taken from the trunk found in Robinson's house.

By Mr. Graham.—The trunk was opened at the justice's office.

The evidence on the part of the State here closed. Mr. Wood in behalf of the prisoner then stated the character of the defence which the counsel for the prisoner would offer to the jury.

John Doty sworn.—I have been acquainted with the prisoner at the bar 5 or 6 years; he has worked for me; he is a hard working, industrious man.

Peter Vanderhoof, sworn.—I have known the prisoner ten or twelve years; he is a very industrious and sober man; I do not think the witness, Wyckoff, could have seen the gate of Robinson's house, as he stated in his evidence.

Cross-examined by Mr. Van Dyke.—Robinson worked for me some time.

Cromelin Law, sworn.—I have known the prisoner seven or eight years; he has worked with me; he was considered a sober and industrious man, and a man of integrity and correct principles.

John Graham, sworn.—I reside in this city; I have been acquainted with the prisoner four or five years; his general deportment, so far as I have observed, has been always very correct.

Mr. Vail recalled.—I have known the prisoner six or seven years; he has done some work for me; I think he has been a man of sobriety and industry.

William Ryno, sworn.—I reside in this city; I have been at jail seven times to shave the prisoner; Mr. Couenhoven, the jailor, has remarked that Peter Robinson was strange in his manner; the fourth time, I was there after Peter was shaved; he became very much excited; Mr. Couenhoven turned to me and said, Peter is a little crazy, you must not mind what he says.

The Counsel in behalf of the prisoner here proposed to read the depositions of two of the witnesses taken before the magistrate, at the first examination of the prisoner. The Counsel for the State opposed the reading of the depositions. The Court overruled the objection of the Prosecuting Attorney, upon which Mr. Wood, in behalf of the prisoner, read the depositions of William Moody and James Robinson, two of the witnesses examined on this trial.

William Ryno recalled.—At the time Mr. Couenhoven made the remark in the prison that Robinson was crazy, Robinson said that if they would let him attend to his own affairs, he could go up to his house and get $7000; I made a remark about the freshet to Robinson when he said that he wished to God it had swept all Mr. Edmonds' property away.

James Couenhoven, recalled. I think Robinson said when he had the conversation with Mr. Ryno in the prison, that he wished the freshet had swept all Mr. Edmonds' property and him to h—ll.

Clayton Kent, sworn.—I have known the prisoner ten years; I reside in this city; he has always been considered a sober industrious man; I heard him spoken of as being a passionate man, and angry at trifles at times.

The testimony on the part of the defence here closed, the following witnesses were then called on the part of the State.

William Legget, sworn.—I lived with Mr. Suydam; he was at home on the 3d of December, to breakfast; when he did not come home to dinner the family became alarmed; he never returned alive; he left the house about 9 o'clock in the morning.

John Acker, sworn.—Robinson purchased lumber of me to the amount of $200 to build his house; it was paid by an order on Suydam.

Here the evidence on both sides closed.

AFTERNOON SESSION.

The evidence on both sides being closed, Mr. Van Dyke, on the part of the State, addressed the court and jury at considerable length. He stated the grounds on which the counsel for the prosecution would rely for the conviction of the prisoner. He concluded his speech by calling upon the jury to convict the prisoner.

The Court adjourned at half-past 6 o'clock.

It being understood that the Counsel were to commence their argument this afternoon—the Court room was crowded to suffocation—doors, windows and seats, were all in requisition. A large portion of the Court room was [illegible] for ladies.

[illegible] dressed females, anxiously awaiting the result of the trial. In the front bench, dressed in deep mourning, with a dark veil over her face, sat the wife of the prisoner. Beside her was a little boy, about seven years of age, the prisoner's son. He, totally unconscious of the solemn scene around him, and of the awful situation in which his father was placed, was playing, child like, with some trifles before him.

The bench was also crowded with spectators, amongst whom we noticed the majority of the clergymen in this city. The most breathless attention existed during the whole of the address of the counsel for the State to the jury.

Wednesday, March 24.

The excitement produced by this trial seemed to have attained its highest pitch this morning; the arguments of the counsel for the prisoner having been fixed for to-day, and much curiosity prevailing to know what these arguments would be founded on, upwards of two hundred ladies were present, while several hundred applicants for seats were completely crowded out.

Mr. Wood commenced his argument for the prisoner by stating the following points of law:

1st. That the jury are judges both of the law and the facts.

2d. That although it be conceded, that indictments for murder may be framed in New Jersey according to the common law, yet, as the statute of this State divides the crime into two distinct degrees, a material change has been effected in the mode of proving it by that statute, and that it is not now obligatory on a defendant to prove the absence of express malice, as a common law, but the burden of proof rests entirely upon the State.

3d. That where a murder has been committed in the excitement of passion, although, in a legal sense, with malice prepense, it is but murder in the second degree; and that the testimony in the present case, showing the defendant to be a man of weak intellect and strong passions, is sufficient evidence that the murder, if committed by him, was of the second degree.

The statute defining murder in the first degree to be only such as have been committed by poisoning, by lying in wait, and with wilful, deliberate, and premeditated malice.

These points were fully and ably argued, when Mr. Graham commenced a powerful and searching review of the facts of the case; showing many important errors and discrepancies in the testimony produced by the State, and raising many doubts in the more important features of the case, by exhibiting the conflict between the statements of the witnesses.

At one o'clock the Court adjourned over, as usual, although Mr. Graham had not concluded.

AFTERNOON SESSION.

Mr. Graham resumed his argument, and spoke until half past four o'clock, having been upon the floor five hours. Some applause followed the conclusion of his remarks—but this was quickly suppressed.

George P. Molleson, Attorney General, then commenced his final argument for the prosecution, and spoke for upwards of an hour, when I was obliged to make up my packet for the Express Line. The charge of the Court will probably be delivered this evening.

GEORGETOWN, March 22, 1841.

MESSRS. EDITORS: I have seen of late numerous articles in your paper, relating to Debating Societies. I would take this occasion of informing you, that there is in existence in our town a society of young men, entitled the "Patrick Henry Association," for the purpose of "diffusing useful knowledge." The membership is mostly confined to Mechanics. This Society has been encouraged to a large extent by the citizens of the town, and more especially by the fairer sex. There are some of its members who bear a high character in point of intellectual acquirements; of one of whom I would more particularly speak: Mr. W. H. Craig is the gentleman to whom I allude. I have frequently attended their meetings, and have listened with great pleasure to all speakers; but I must say, that there are none able to cope with him in strong, clear and perspicuous language. He stands the highest in point of knowledge in the Society. There are others of whom I would speak, but I will close by hoping that they may find an insertion in your widely diffused paper.

Yours, respectfully, MUCIUS.

THE FRESHET IN THE SOUTH. The latest intelligence from the South brings still further accounts of destruction by the late freshet.

The Milledgeville Recorder of 16th says—We are in the midst of an inundation, unprecedented in Georgia. The June freshet was extraordinary, but on this occasion greatly more rain has fallen, and the streams of the interior are more swollen than they have ever been within the remembrance of the oldest inhabitants. We have been insulated here. The mails from almost all quarters have been stopped; the river at this place is scarcely on this day to be crossed; the bridges generally have been swept away; mills and dams have gone with the flood; and all of the rail roads have suffered more or less, by the same cause. The amount of damage we cannot calculate, but with the plantations overflowed, the loss of property must be large.

At Macon, the destruction has also been very great.

At Columbus, the suffering has also been very great. The bridge swept away.

At Fort Gaines, the Chatahoochie river had swollen 65 feet above low water. Plantations were inundated. The damages sustained were beyond calculation.

Many parts of Georgia, and in fact the [illegible] southern [illegible]

HOW TO DO A CABMAN. The New York Sun tells the following good one:—"Driva," quoth a dandy to a cabman who had dumped him at the door of Arnold & Hearn, in Canal street, "Driva, hold on while I pop in and buy a pair of white kids." The driver did hold on, and the dandy did pop in and get his white kids; but by some mistake he popped out again through the Howard street door, and left Cabby to take his three hours' fare out in hard swearing against all white kid dandies.

There are two hundred and six distilleries in the State of New York, which annually produce 2,710,110 gallons of liquor.

NOVEL REQUEST. The influx of strangers is so great into Kingston, the new capital of Canada, that a request was about to be made to the owner of the steamboat Great Britain, soliciting the appropriation of that vessel as a "floating hotel."

ANOTHER NEW MODE OF PROPELLING SHIPS. There is exhibiting in New York at the American Institute in the Park a model of a ship to be propelled by means of the air pump. On a small scale it works admirably, and it is not improbable that it may yet be carried to such perfection among the many experiments and inventions of the day as to become greatly useful.

AN AWFUL STORY. A Swiss paper states that a woman was caught up by a hurricane in the canton of Uri, one day last month, and carried through the air a space of two leagues. Her body was found some days after, with all her bones broken.

GERMAN UNIVERSITIES. The University of Berlin contains 1,678 students; Minich 1,371; Leipsic 935; Tubingen 739; Gottingen 704; Halle 682; Breslaw 631; Heidelberg 614; Bonn 594; Giessen 407; Konigsberg 39; Wurtzburgh 343; Erlangen 311; Fribourg 301; Marbourg 285.

The New York Sun says:—"It is rumored that the Cashier of the Towanda Bank appropriated $35,000 of the funds of that institution to the purchase of stocks of the United States Bank while it was selling at fifty dollars per share.

The Bangor Whig of Saturday says that the warm weather of the previous day nearly "used up" the sleighing in that city but that in the interior part of the county the snow lies about four feet deep on a level, so that the sun and rain have yet something of a job in hand.

The new Collector, Naval Officer and Surveyor of New York, entered on their several duties on Monday last.

WINTER ARRANGEMENT.

GREAT SOUTHERN

UNITED STATES' MAIL LINE,

DAILY TO THE SOUTH.

The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach	Baltimore	2 P.M.
" Baltimore	4 P.M.	"	Washington	6 P.M.
" Washington	5 A.M.	"	Fredk'sburg	12 M.
" Fred'ksburg	12 M.	"	Richmond	5 P.M.
" Richmond	5 P.M.	"	Petersburg	7 P.M.
" Petersburg	7 P.M.	"	Weldon	1 A.M.
" Weldon	1 A.M.	"	Wilmington	1 P.M.
" Wilmington	1 P.M.	"	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout*, whilst it is evident that Foul Roads Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

APPOINTMENT. We learn by a gentleman who arrived from Washington in the cars last evening, that NATHANIEL F. WILLIAMS, Esq. was yesterday appointed Collector for the port of Baltimore, vice WILLIAM FRICK, Esq. removed.

☞ Mr. CLAY left this city yesterday morning for Frederick, accompanied by Senator Moorehead, and others.

COMMON SENSE. We have taken another "peep into the Note Book" of our learned townsman, *David Hoffman, Esq.*, and from the article entitled "The Schoolmen," make the following extract:

"I worshipfully bow to the majesty and commanding power of common sense, and wish that all men were mainly guided by it; but, as before said, I fear no little mischief from the ultraism of their devotion to this too often most impudent utilitarian goddess; who, though frequently attired in the habiliments of modesty itself, is generally a radical and daring leveller, and a meddler in things she little understands!"

We should have been better pleased, had the erudite author given his readers the definition of common sense, according to his understanding of the term; for, without it, his opinions are subject to misapprehension. To us, it appears that there can be neither ultraism nor impudence in common sense, as charged by our author, for it is in direct opposition to both. It teaches its possessor not to run into extremes, nor to be impudent; it dictates that which is proper, at all times and in all places; to use appropriate language upon all occasions, and to act, in every matter, with the strictest propriety and honor. So far, it may be termed a "utilitarian goddess;" for it commands that which is useful, and forbids the reverse. It is not necessarily accompanied by learning, but the greatest scholar, if destitute of it, will make but a poor figure. The man of common sense thinks and acts aright, and consequently cannot become "a radical and daring leveller," nor "a meddler in things which he little understands." We have known professional gentlemen of great acquirements, who would use technical terms and make a display of their knowledge to those whom they knew to be incapable of comprehending what was ed professor, perhaps, will not admit this latitude to the signification o' the term; and, from his apparent dread that common sense will seek to overthrow learning, he would seem to place them in opposition to each other; but this is a sad mistake. There can be no danger that the former will apply the torch to consign the latter to "uncompromising destruction." Common sense is a valuable adjunct of learning, but never its opponent, because it cannot become irrational.

In a subsequent paragraph, the author uses this language: "We know that learning, without judgment, characterized the schoolmen; and we apprehend that common sense, without learning, will very soon characterize the utilitarians—and both are extremes, equally to be avoided." It is a novel idea, that, because some learned schoolmen wrote without judgment, men of judgment should now deem learning unnecessary. Common sense, which accurately perceives, and properly applies, cannot be blind to the utility of learning; on the contrary, it stimulates to the acquisition of knowledge, because it comprehends the advantage to be derived from its possession. Learning may be the full-freighted vessel, but common sense is the rudder which guides her with safety. Learning may prepare the intellectual banquet, but common sense should preside over the feast. A learned preacher, destitute of common sense, will make but a feeble sermon. The poet says:

"A little learning is a dangerous thing;
Drink deep, or touch not the Pyerian spring."

Which we construe to mean, that common sense lies at the bottom, and must be reached to render prior acquisitions serviceable; and, perhaps, from this, is derived the saying, that "truth lies at the bottom of the well." However this may be, it is certain that he who goes to the bottom of the spring or well, and returns without common sense, had as well not have descended. Learning garners up, and common sense judiciously distributes.

Notwithstanding our disagreement with the distinguished professor on this particular point, we heartily recommend his volume for its versatility of talent, many beauties, and just sentiments. Our common sense teaches us to do this justice to a learned and meritorious townsman and pleasing writer.

A NEW PAPER. *John H. Pleasants*, Esq., editor of the Richmond Whig, proposes to publish in Washington city, a daily political Journal, to be called the "Observer." It is to be conducted upon independent principles, and "to lean to the states and not to the central authority;" in other words, a states-rights' paper. If sufficient encouragement be offered, the first number will be issued early in June. Mr. Pleasants has had a long experience in editorial life, is a ready writer and possesses fine talents.

LOST TIME. If a Roman emperor could lament over one day lost, how should members of the late congress grieve for the months spent by them in doing nothing. It is stated in the speech of Mr. Underwood, at the last session, that, at the previous session two months were lost in the discussion of preliminary motions and points of order. He also states, that some persons (among them females) who had claims against government, admitted by the committee to be correct, were almost reduced to starvation from not having their claims acted on by congress. This is a state of things that calls loudly for redress. The truth is, there are too many speakers, and too few working men in the house; and the time is therefore spent in useless harangues or contemptible squabbles about points of order, which should be devoted to the real business before the house. Mr. Underwood speaks of this abuse of time in terms of just severity, and observes, "we must reform this course of procedure. If we do not, the government will break to pieces from its utter incapacity to legislate. It will sink under the disgust and contempt of an abused and tantalized people." The remedy he suggests, is a reduction in the number of representatives. We are convinced that fewer members would do more business; for there would not be the eteraal repetition of the same thing. But if the present or a greater number of members must be sent, it will be found absolutely necessary to restrict them in some way, if we would prevent this branch of government from becoming entirely worthless.—The House of Representatives is in session not exceeding an average of four hours in the day; the balance of their time is spent, the Lord knows how. With the exception of those business members on committees who are engaged in and out of the house in the discharge of their duties, the members of the house receive about two dollars per hour for doing the next thing to nothing.

The violence of party spirit has greatly contributed to produce this state of things; and so long as vindictive, brawling partizans are elected it will be continued.

MEETING OF THE CONSUMERS OF GAS. A large number of the consumers of Gas met last evening at Sutton's Military Hall for the purpose as was previously noticed, of taking into consideration some means by which to prevent imposition by the company upon the consumers.

The meeting was called to order by appointing W. Cole, senior, Esq. president and Mr. Hager secretary.

A motion was made by Mr. David Reddrick, that all persons interested as stockholders in the Gas Company, should be requested to withdraw from the room. Marcus Dennison, Esq., arose, and stated that he presumed that shaft was aimed at him, but that he (although a stockholder) had come there as a consumer, and claimed the right to remain. The motion was, however, unanimously carried. Mr. D. still persisted in his right and determination to stay—got pretty warm, &c. The motion was subsequently rescinded.

On motion, the following Committee was appointed to memorialize the Legislature for authority to have a gas inspector appointed for the city of Baltimore: C. M. Cole, D. M. Donnal, G. W. Bull, James Ackland, Daniel Coonan.

If we had have given a full account of all that was said, the public would be somewhat astonished; but we have neither room nor time at present.

NATIONAL BANK. A citizen of Indiana has given in the National Intelligencer, the project of a National Bank, of which the following is the outline: "Capital $15,000,000, owned by citizens of the United States; one-half the stock to be paid at the organization, and the residue in one, two, and three years; to have not less than ten nor more than twenty branches; to be the agent of the Government, and receive the deposites on paying an equivalent; to be expressly prohibited from lending money, trading in stocks, or dealing in any thing but money and exchange, and this only at fixed moderate rates, according to distance; and the Directors to be personally responsible for correct management. The Government to appoint agents to examine the bank and each branch at least once a year; monthly statements of the condition of the bank to be published; and such other regulations to be made as experience has shown to be proper."

He thinks that such a bank would answer all desirable purposes, without being liable to the objections heretofore urged against the establishment of a National Bank. We submit his project for the consideration of those who feel an interest in the subject.

LOSS OF THE BRIG MONTAGUE, OF BALTIMORE. We learn from the crew, who have arrived here, says the Norfolk Herald of the 23d inst., that the brig reported in yesterday's Herald, as having gone ashore to the south of Currituck Inlet, was the Montague, Harvey, master, of and for Baltimore, from Kingston, Jamaica, via Salt Key.—The vessel is a total loss—sails, rigging, &c. to be sold on the beach on Friday next. She had in about 4,000 bushels of salt.

LEGISLATURE. No quorum appeared in either house on Wednesday last. We hope members did better yesterday, as time is precious. We hope that they will not have an attack of the spring fever before they get through with the necessary business.

A harmless Irishman was eating an apple pie with some quinces in it—"arrah, dear honey," says he, "if a few of these quinces give such flavor, how would an *apple pie* taste made of *all quinces*?"

ESEKIL PRATT,	

SHOP-LIFTING. *Stolen Goods recovered—a fat Dish for the Lawyers, and probably welcome intelligence for some who have been unfortunate.* Yesterday morning, officers Potee and Wilcox repaired with a search warrant issued by Squire Schaeffer, upon the oath of John G. Smith, to the house of Mrs. Sarah Kunsman, in York street, 3 doors from Charles street, and there succeeded in discovering a large amount of stolen goods and articles supposed to have been stolen. They arrested the proprietress of the house, Mrs. Sarah Kunsman, a middle-aged woman, together with a young girl, named Eliza Christopher, and brought them, with the property supposed to have been stolen, to the office of Squire Schaeffer, where the trunks and bundles were opened and examined. The property consisted of silks, laces, linens, table-cloths, shawls, handkerchiefs, stockings, ribbons, calicoes, silver spoons, penknives, scissors, shears, and, in fact, almost every thing requisite to establish a complete variety store, except Brandreth's Pills, and Pease's candy.—Besides the above, was a little mahogany box, containing money, as follows: Four $50 notes on the Farmers' Bank of Virginia, Nos. 1,055, 2,806, 150, and 3,292—four $50 notes on the Bank of [illegible]. In silver, 11 Mexican dollars, and 93 half dollars—making, in all, $512 50. In a small box in the interior of this mahogany one, was a little private box, containing some valuable lace, which was recognized to have been stolen.

Mr. John G. Smith, who keeps a store in South Charles-st., stated, on oath, that the accused were in the frequent habit of dealing with him; that he was acting as agent for Mr. John Hives, of New York, and that a large amount of the articles found in possession of the accused, was the property of his employer—as near as he could guess, $200 worth; only about $10 worth of the whole amount had been purchased from him by the prisoners; that he had mistrusted their honesty from the fact of his having missed articles frequently after they had visited his store; that it was upon this ground of suspicion, that he had the search warrant issued.

Mr. Furlong, auctioneer, recognized, among the articles, two cases of penknives and two cases of scissors, property which had been left at his auction room for sale. He did not know the prisoners—never saw them; but testified to the property as being that which was left in his charge.

Mr. Docra testified that he had seen Mrs. Kunsman go into the store of Mr. Hines frequently, &c.

The articles yet remaining at the Squire's office, are numerous—worth, probably, 400 or $500; all, or the greater part of which, may have been filched in the same manner that were those of Mr. Hives, from the possession of his agent, Mr. Smith, witness in the above case.

Persons who have recently missed articles from their stores, would do well to call and examine.

Justice Schaeffer, after hearing all the testimony in this case, was compelled to commit the accused to prison, to await their trial at the June term of court. The accused were well dressed, and had rather a genteel appearance. In to-day's paper, will be found a list of the various articles yet remaining in possession of the officers.

Messrs. Potee and Wilcox deserve much credit for their perseverance in ferreting out these shoplifters. According to the statement of the accused, they had lately came from New York, and purposed opening a dry goods store in this city.

MELANCHOLY ACCIDENT. Lieut. Hill, U. S. A., with 78 recrits for service in Florida, arrived on the 19th inst. at Savannah, in the brig Ariel, from Baltimore.

Two soldiers and one woman, had permission to come ashore. On returning after night in a canoe, with two negroes, the boat upset and the woman was drowned, as she had not been discovered. The foremen were picked up by enterprising seamen from vessels in the vicinity. One of the men reached the bottom of the boat, and was floating down with the current.

CITY OF BALTIMORE.

ORDINANCE No. 18.

BILLIARD ESTABLISHMENT,

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, adjoining the Lottery office, and the other in North-st. No 94, and has two entrances—one in Baltimore-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious, and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cases; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champaigne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

BALTIMORE CLIPPER.

REVOLUTION IN VERA CRUZ. The following letter is extracted from a Yucatan paper:

"CARMEN, Feb. 9, 1841.

I beg to inform you of the arrival last night of the Texian war schooner St. Bernard, which left Galveston on the 24th of last month, bound for Vera Cruz, for the purpose of delivering to the commander of the first British man of war he might fall in with, the despatches for Mr. Packenham, from the cabinet of St. James, respecting the recognition of the independence of Texas.

The St. Bernard appeared off Vera Cruz on the 27th of the said month, and its commander has informed us that on that day, about 6 P. M., he heard loud cannonading between the castle of San Juan de Ulloa and the city of Vera Cruz, and that there were also heavy discharges of musketry; that the firing lasted about two hours, and that there remained no doubt but that the firing from the city was made with balls, as some of them fell within half a mile of where the St. Bernard lay. After nightfall the St. Bernard left for this island for the purpose of replacing a mast she had carried away.

Her commander assures us she will return again to Vera Cruz for the purpose of accomplishing the object above stated. It is also stated that the Texan steam ship of war Zavalla, will arrive at this port in a few days. The preceding information was given by the commander of the St. Bernard to the military commandant of this island, through the British vice Consul, Mr. George Shiels."

LATEST FROM MEXICO. *Important to Texas.* By the New Orleans Picayune of the 12th inst., we have the following intelligence.

"By the arrival of the schooner Emblem, Capt. Kenny, we learn the following interesting items from some of her passengers—amongst whom was Maj. Trimble, late of the Texan federal army.—This gentleman informs us that the Federal party in the North of Mexico is annihilated; Yucatan is tacitly acknowledged—the leading Mexican journals owning the inability of the Central party to re-conquer that portion of their *soi-disant* territory. We think this information may be relied on as correct.

"The candidates for the next presidential term of chief magistracy of Mexico, are Gomez Farias and the notorious Santa Anna. These men severally build their hopes of success upon the chance of enlisting the interference of Texas in their behalf by offering to recognize her independence—both parties having made arrangements for overtures to that effect—thus placing Texas in a position to rule the destinies of Mexico. But the Young Republic is independent; she asks no favors of Mexico, and will spurn the proposition to espouse either cause whenever it is made."

APPOINTMENTS BY THE PRESIDENT,
By and with the advice and consent of the Senate.

OFFICERS OF THE CUSTOMS. *Collectors.* Wm. Coad, St. Mary's, Maryland, vice James W. Roach, removed.

Robert W. Alston, St. Mark's, Florida, vice John F. Kackler, removed.

Arnold Naudain, Delaware, vice Henry Whitely, removed.

LAND OFFICE RECEIVER. Daniel G. Garnsey, Dixon, Illinois, vice John Dement, removed.

POSTMASTERS. John C. Montgomery, at Philadelphia, in the place of James Page, removed.

James Rees, at Geneva, New York, in the place of G. J. Grosvenor, removed.

A NEST ROUTED. On Wednesday evening the following named gentlemen of color were routed from the house of one William Sneets, corner of Hanover and Camden streets, where they had been engaged in gambling, and brought to the police office: Wm. Sneets, landlord and president, Francis Scott, George Reed, Lloyd Mabury, Joseph Smith, Ephraim Brown, Wm. Johnson, John Thompson, James Thomas, Rezin Williams, Samuel Stacey, Horace Young, Barney Williams, and James Brown. Yesterday morning they severally underwent examination, and after pledging themselves to dissolve the association, and abandon their vicious habits, were set at liberty.

MORE OF "THE MYSTERY." The dead body of the beautiful young lady, which was found in the box on a car in New York on Thursday, has been examined, and all the attending circumstances sifted out. It is the common story. A young lady named Maria E. Shaw, had been deceived by a Mr. Rodgers, the consequences of which becoming apparent, she went to board with a Mrs. Bird, until every thing should be over.—She died, after accouchment, of hemorrhage. Poor thing! How must the wretch feel who occasioned all this suffering?

HEAVY DAMAGES. A libel suit, Nash vs. Benedict, was tried in the Circuit Court of New York, on the 23d inst., in which the plaintiff, a Police Marshal, recovered $1500 damages. The alleged libel was published by the defendant, in the "Anti-Slavery Almanac," charging the plaintiff and others with being kidnappers; asserting that they had on a Sunday in Nov., 1836, stolen a colored man away from his family in N. Y. and hurried him into slavery.

THE CALEDONIA brought 25,000 letters, being near 5000 more than any former packet brought. The postage on the letters for New York city amounted to one thousand nine hundred and ninety-two dollars.

NORFOLK, March 23d, 9 P. m. Commodore Morris, recently appointed to the command of the U. S. Ship Delaware, arrived here this morning.

A man by the name of Samuel Snyder, belonging to the smack William Clark, of New York, committed suicide this morning by cutting his throat, with a razor, from ear to ear, and died in a few minutes.

STEAMER ALEX. PORTER SUNK. On Tuesday the 11th inst., while this boat was coming up the Bayou Plaquemine, and when about 11 miles below the mouth, she met with an accident which caused her to sink. The boat, we learn, will probably be a total loss.

THE DEATH DEALER. The new and dreadful engine of destruction, invented in Great Britain, was lately tried near London, in presence of many scientific men. A boat made solid with cross timbers and clamped with iron spikes, 23 feet long and 7 broad, was placed in a pond, and when the parties had taken up a safe position, was in an instant struck and shattered into fragments. The manner in which this tremendous effect was produced, and which can be realized at sea, on any scale, was of course not disclosed. The strongest fortress, and the largest ship could be instantly demolished by an enemy, with the aid of this new projectile. The boat weighed two tons, the timber in her five and a half tons, the water displaced was equal to fifteen tons, and yet the engine that produced this destruction only weighed *eighteen pounds* and was so safe, that when charged it could be kicked about a room with perfect impunity. This is really the age of invention.

MELANCHOLY DISASTER. By a letter from Pensacola, dated 9th inst. we learn with regret that the body of GEORGE R. MOSHER, Esq. of the house of Reynolds & Mosher, of Baltimore, was found on the shore, nearly opposite Pensacola.

It appears by the letter that he had taken passage in a small vessel at Apalachicola for New Orleans, which vessel foundered in a gale, and it is supposed all on board perished. On Mr. M's person were found a gold watch, considerable money and several valuable papers; and his body was to be interred the next day at Pensacola.—*Patriot.*

EXTRAS EXTRAS!! EXTRAS!!
To Dry Goods, Hardware, China and Queensware, Grocery, Commission Merchants, and others.

THE SUBSCRIBERS offer their services to Wholesale Dealers generally, for the Printing of EXTRA COPIES of the Baltimore Daily Clipper, containing their respective ADVERTISEMENTS conspicuously displayed, so as to cover from a half page to one or two pages of the Paper. This plan has been most successfully adopted by Merchants in all the Eastern cities, as the CHEAPEST and BEST mode of informing their distant customers of the assortment of goods on hand—being subject only to newspaper postage. The facilities possessed by the subscribers for the above description of *NEWSPAPER* and *JOB PRINTING* combined, are not in the possession of any other printers in this city, and the entire satisfaction given to several merchants who have adopted the above plan, induces them to offer their services to all Wholesale Dealers. The papers are furnished in any desired quantity, neatly enveloped for directing and mailing.

The subscribers also publish LOTTERY EXTRAS in the "*Ocean and Weekly Clipper*," one of the most popular and interesting papers of the day.

The great ease with which the subscribers can strike off, on their Double Action Printing Machine, thousands of copies at the shortest notice, places it in their power to execute all orders in their business at a GREAT REDUCTION on former prices.

LOOK OUT!!
"Caution" is the Parent of Safety.

AN ATTACK of the "PILES" may be positively prevented by using (when the premonitory symptoms are felt) the celebrated HAYS' LINIMENT. There are more than one thousand people in this city, and in the United States an immense number, who have suffered beyond endurance by this dreadful complaint, who keep themselves wholly free from attacks by applying this Liniment when they feel any symptoms of its approach—of this there is the most perfect proof.

DAILY SOUTHERN MAIL,
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Colley; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and luggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, steep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences.

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having Slaves, which they wish to dispose of, will do well to apply at this office before selling.

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety or economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ASTRAL LAMPS ALTERED.

N. B. We have appointed JOSIAH ATKINSON Agent, No. 92 Market street, F. P., where all orders will meet with immediate attention.

F. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 20, 1840.

Dear Sir—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's *burners* than I had *in the same room with* eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. BOOZ. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and *return the money to any person it does not relieve.* Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

CHARLES ELLISTON.

"I must leave this place to-night; I can bear their marked neglect and open taunts no longer," said Charles Elliston, and he left the richly furnished parlor, where, with some fashionable guests, sat Mrs. Merton and her eldest daughter, and went forth into the garden. "Yes, I must go," he continued, "no one cares for me; and why should they for the poor, penniless being whose very origin is unknown. Alas, how hard it is to be thus cast upon the world friendless, and beloved by none—none, none!" and he buried his face in his hands, overcome with the intensity of his feelings.

"Nose, Charles!" said a clear silvery voice behind him, and a hand was gently laid on his shoulder. He started, and, turning round, said—

"Yes, yes, Helen, pardon me, I spoke unthinkingly. You still love me?" he added inquiringly.

"I do, Charles, and my father—"

"Yes, your father, my noble benefactor, Helen, he still loves me."

"Then why leave us, Charles?" she said in a tender tone.

"Because, Helen, you know I have been already the cause of much dissention in your family—God forbid that I should be so any longer!—And, besides, Helen, you know what treatment I have received from your mother and sisters. I have borne it long, out of respect to your father and love to you; but I can bear it no more; I will go forth into the world in hopes of building up a fortune, and say, Helen, if I should be successful, and return, will you—"

"I will love you still," she said, interrupting him. "Oh, I will always love you, Charles."

"Farewell!" said he, and, imprinting a kiss upon her rosy lips, he tore himself away. In another hour, he had quitted that house where he had spent so many happy days with Helen.

Charles Elliston was a dependant on the bounty of Mr. Merton. He had found him one day when about four years old, wandering about the streets of the city a lost child. He kindly took him home, and used every endeavor to discover his parents—but all to no purpose. At last, finding his inquiries were useless, he raised and educated him as his own. Unlike her husband, Mrs. Merton was of a proud, aristocratic spirit, and could not bear one whose birth was so uncertain as that of young Elliston. She had diffused some of this spirit into her eldest daughters, but Helen, the youngest, like her father, possessed a noble and kind heart, and looked only with compassion and love upon the poor noble youth. He was now about 17 years of age, and the insults that were heaped upon him were felt severely. It is true, when Mr. Merton was present, none dare show the least disrespect towards him; but this only served to make him feel it more acutely in his absence. It was on this very mentioned evening that a new insult had been offered to *him*, and he determined not to live another day where he was exposed to them. Nor would it have caused him a feeling of regret, had it not been for Mr. Merton and Helen; but, however dear they were, he resolved to leave them. He left, too, without informing Mr. Merton, for he well knew he would insist on his staying—and he would not be the author of discord in that family, where dwelt the only two on earth that he could call his friends.

It was near the close of a summer day, that a steamboat touched the wharf of one of our southern cities, and from its crowded decks poured a stream of weary travellers, eager once again to set foot upon the land. Among the last who stepped on shore was a tall youth, with a valise in his hand, who, walking slowly from the landing, bent his way towards the shipping warehouses along the wharves. He was in search of employment; but alas, he was a stranger, and had no recommendations. With a dejected mien and sorrowful step, he was about giving up all hopes when he came to a large warehouse which he had not before entered. He walked into the counting house, where sat a gentleman apparently about forty years of age. To the youth's inquiry, whether he was the head of the establishment, he replied in the affirmative.

"What do you wish, my lad?" he inquired.

"Do you want a lad to assist in your store? I have no recommendations to offer you," he continued modestly. "I have just arrived in the steamboat from the north, and have neither friends nor money. I cannot even buy a lodging for the night;" and, seeing that the merchant looked incredulously at him, he could contain himself no longer, but said imploringly, "Oh, *sir*, do not refuse," and the tears trickled down his cheeks.

The merchant, touched by his grief, and convinced by the openness of his manner, hesitated for a moment, and finally took him to his home. A few days proved the truth of the youth's story, and he was employed at once by his benefactor. In the course of time he rose by degrees until he became head clerk in the establishment of Mr. Thompson. He also by his amiableness, became the favorite of the wealthy families of the employers, with whom he still resided. All loved him, and he loved them in return, as father, mother and sister. For although Charles, (for it was Charles Elliston) thought that Emma Thompson was almost as beautiful as his own Helen, yet he remained faithful to the latter, and could but think of the former as a sister.

Five years had rolled by, and he had now become proprietor of the large establishment which he had entered as an errand boy—Mr. Thompson having retired from business. One evening he was sitting in familiar conversation with the family, when Mrs. Thompson, after looking steadfastly at Charles for some time, remarked how much Emma and he resembled each other.

"Yes," said her husband, "I have often observed it; they look as much alike as though they were really brother and sister. Our lost Charles, poor little fellow! could not have been more like Emma."

"Your Charles! I never knew you had any child besides Emma," said he. "When did he die?"

"Would to God he had died!" exclaimed Mrs. Thompson, "then would I have known he was in heaven; but now, perhaps, if he is still alive, he may be buffeted about by strangers, whose hard hearts can seldom feel like a parent's;" then she gave vent to her feelings in tears.

"He was lost, then?" inquired Charles.

"Yes," said Mr. Thompson, "above seventeen years ago, I and Mary, journeying north for the benefit of our health, and to visit some friends in New York city, took with us our little Charles who was scarcely four years old, and then our only child. We arrived there in safety, and after staying with our friends some time, set out on our return home. Anxious to prosecute our journey, we immediately on our arrival in Philadelphia, took the steamboat to proceed directly on. I went to see to the safety of the baggage, thinking that my Mary and Charles were in the cabin; but what was my surprise, when on going into the cabin sometime after the boat had left the wharf, to find Mary there alone? She thought I had Charles with me, and she swooned away when I informed her I had not. We searched the boat over, but no Charles could be found—and then it struck us that he must have wandered on shore before the boat left the wharf, and consequently was left behind. How harrowing were our thoughts to think that the distance was increasing between us and our dearly beloved child. But there was a thought still more distressing—perhaps he had fallen overboard unseen and had been drowned. However, I determined, on arriving at New Orleans, and leaving Mary with her friends and relatives, to return again to Philadelphia, and spare no pains nor expense in trying to discover his fate; but the great mental excitement, and bodily excitement, and bodily fatigue I had undergone, threw me into a fever on the way, and it was several months before I recovered. When I did, and arrived in Philadelphia, no trace could be discovered of our child, and never since have we heard any thing concerning him—but God be praised, Charles, he has given us a son in you."

"But was there no mark by which he could have been known, if he had been left behind as you supposed?" asked Charles, eagerly.

"Yes; there were scars of a dog's teeth on his left wrist, and besides he wore a locket—a birth day present from his father—around his neck, with 'Charles' engraved on it," said Mrs. Thompson, with tears in her eyes.

"Then father, mother," said Charles, baring his arm and drawing from his pocket a locket which he threw into Mrs. Thompson's lap, "behold your long lost son!"

For an instant they stood amazed—the next they were locked in each other's arms; then turning to Emma, he for the first time pressed to his bosom a sister.

How different was his situation now from the day on which he first set foot in the city of New Orleans! Then he was poor and friendless, with scarce a place to rest his head; now he was wealthy, surrounded by friends, and blessed with a father's, mother's and sister's love. He could claim now what her noble father would not have refused to the poor youth, had he asked it, Helen's hand, and even her proud mother would not object to receiving for her son-in-law the heir to the richest merchant in New Orleans.

Mirth and music resounded throughout, and gladness reigned predominant in the splendid mansion of Mr. Merton. It was the birthnight ball of his lovely and accomplished daughter, Helen, given in honor of her nineteenth birth-day, and the magnificent saloons were thronged by youth and beauty, and the elite of the metropolis. All paid willing homage to her fascinating charms. Nor beneath their fervent congratulations did there lurk aught of malice or envy, for the sweet disposition and gentle manners of Helen Merton had the good will of all who knew her. And now as she replied to their warm-hearted wishes, she looked more beautiful than ever. She was attired in a plain white dress, looped with roses, and fitted finely to her exquisitely moulded form; her shining chesnut curls were confined by a costly diamond head-band, that sparkled on her forehead, rivalling the transparent beauty and clearness of her complexion. At times when she would mingle in the giddy whirl of the dance, a smile would play upon her lovely features; but whenever a melancholy expression would steal into her laughing eye, telling of something yet wanting to complete her happiness, she was thinking, perhaps, how he who many years ago had won her maiden love, might, whilst she was surrounded with wealth and luxury, be dragging out the prime of his life in poverty and distress. Yes, she still remembered the companion of her childhood. Such is woman's constancy and love. Alas! that it should so often be abused!

The evening was somewhat advanced, when Mr. Merton approached Helen, locked arm-in-arm with a young man, whose dark countenance, raven hair and eyes, and tall, straight form, indicated a native of the South.

"Mr. Thompson, of New Orleans, my dear," said Mr. Merton, introducing him to Helen; and then, after conversing a few moments, sauntered to the opposite side of the saloon.

"Who is that handsome young man you just now introduced to Helen?" asked Mrs. Merton of her husband.

"That is Mr. Thompson, of New Orleans; the richest merchant in that city, and his father was before him. He arrived here but the day before yesterday. I was introduced to him yesterday, and invited him here to-night; and if the impression of his features is not left on Helen's little heart, which has hitherto been so callous, none ever will be."

"And if they are, I suppose you will not regret the disappearance of your protege, Charles Elliston?" said his wife, sarcastically.

Mr. Merton did not answer her; he only turned away.

At first when the stranger was introduced to Helen, there appeared to be an air of embarrassment, but it gradually wore off, and he entered into conversation with unusual vivacity—in the course of which she asked him if he had ever been in the city before. He replied that he had been when he was about seventeen years of age, and that he had then become acquainted with several of his own age, whose acquaintance he highly prized. Among these he mentioned was that of Charles Elliston, in particular. As he mentioned the name, he beat his dark eye full upon her, and perceived that she started, while for a moment agitation was visibly depicted in her countenance. After a minute's pause he continued, "but I have made inquiries since my arrival respecting him, and hear that he has returned the kindness of his benefactor, your father, with ingratitude, by leaving his house, and going no one knew whither."

"Oh, no, sir, do not believe that; it is an idle report. He had reason for leaving my father's house," and her voice trembled and a tear stood in her eye.

Just then a gentleman advanced to claim her hand for the next cotillion, and the conversation was abruptly terminated. Charles resigned her silently; but his heart was full.

It is strange how the lapse of a few years between youth and manhood will change the face and disguse the form; the slight stripling that a little while ago clambered on our knee, we can scarcely recognise in the full stately form, and staid demeanor, of the man. So it was with Charles Thompson, and no wonder Helen and her father could not see, in the rich merchant of the south, the poor lad who six years before had left them with scarcely a dollar in his pocket.

It was the morning following the ball—and Mr. and Mrs. Merton and Helen were sitting in the parlor—the former two engaged in discussing some private affairs, the latter with her head resting upon her hand, apparently in deep thought. The servant entered and handed Mr. Merton a letter.—He opened it and having perused it for a few moments, he uttered an exclamation of joy. Both his companions looked up, seemingly overcome with the excitement of some unusually pleasant news, he approached his daughter, and gently patting her on the cheek, said,

"Come, come, Helen dear, cheer up, Charles, our own dear Charles, has returned, is in the city, and will be here in half an hour—cheer up my dear!" and he began to pace the floor.

"See here," he continued, as a splendid equipage, with servants in livery, drove up to the door, from which a young gentleman alighted, "here is Mr. Thompson too; how glad I shall be to introduce them to one another."

"I don't see why you should be," said his wife, "though perhaps Charles, as you call him, may be as rich as Mr. Thompson. You know he left word that he was going to seek his fortune," and she pronounced the last word with a sneer.

"And he hopes he has found it, madam!" exclaimed Charles, who entered just at that moment, "thanks to an all wise Providence that directed me to my father's house. It is Charles that stands before you!"

With a shriek of delight, Helen threw herself into his outstretched arms, and wept tears of joy upon his bosom; while the old man stood motionless, but his eyes were wet and his lips quivered though not with grief.

When they had become somewhat composed, Charles related to them what had occurred since he left them. The joy that beamed in the swimming eyes of the delighted girl, as she hung fondly on her lover's arm, was only equalled by the tenderness with which he returned her look of affection. How deep was the bliss of that moment, making amends by its delight for the long years of doubt and absence. It was not long before Charles renewed his boyish vows he had pledged to Helen, and the blushing girl listened, smiling and weeping by turns. Need it be added that in a short time Helen and Charles were united at the altar, and that even the aristocratic mother smiled upon the union of her daughter with the *ci devant* Charles Elliston.

CONVICTION OF PETER ROBINSON,

At New Brunswick, N. J. for the murder of Abraham Suydam.

New Brunswick, March 25, 1841.

About an hour after the close of my letter of last evening, Attorney General Malleson concluded his remarks to the Jury, and Chief Justice Hornblower delivered his charge. This was quite an able and comprehensive review of the whole trial, and occupied more than two hours in its delivery. At half-past 8 o'clock the Jury retired, and returned again into Court at fifteen minutes before 10 o'clock, with a verdict of GUILTY OF MURDER IN THE FIRST DEGREE.

Neither of the prisoner's counsel were present, but in compliance with a request from one of them, Mr. Graham, the Jury were "polled," when each again gave the verdict previously returned by all.

Robinson received the verdict with composure, exhibiting the same callousness of feeling which has marked his conduct throughout the trial.—His sentence was postponed until this morning, at half past 11 o'clock, of which I will transmit you a report to-night. Yours, K.

ROBINSON'S SENTENCE.

New Brunswick, March 25, 1841.
Six o'clock in the evening.

Robinson was brought into Court this morning, shortly after 11 o'clock, and received his sentence. He is to be executed, according to the laws of the State, in the County Jail, between the hours of 10 o'clock, A. M. and 2 o'clock, P. M., on Friday the 16th day of April next. He stood up as composedly as usual while this judgment was pronounced, and appeared to be little affected by the impressive and solemn ceremony. The Chief Justice exhibited a great deal of feeling, and seemed completely overwhelmed by his emotions when he pronounced the concluding words of the sentence.

It is said that Robinson offered to assist in erecting his scaffold this morning, and asked the sheriff if he did not intend to give him half the fees, as he would have to perform the hardest duty at the execution. He is a hardened wretch, and it is quite likely that this report is true. Yours.

New Discovery in Lithography. A report has reached us of an extraordinary discovery, by Mr. Hullmandel, who had already done much to improve lithography, of a new mode of producing pictorial effects on the lithographic stone, by tints washed with a brush, like sepia drawing, which yield impressions so perfectly resembling original sketches, that the difference is not discernible. The painters, we are told, will now have at their command a means of multiplying their own works, which their habitual practice renders available without altering their style of handling; for this new mode of lithography, or rather painting on stone, is just as if the sketch were made on stone instead of on paper. The variety and delicacy of the tints, the freedom and facility with which they are produced, and modified as well, and their durability under the printing process, are among the advantages attributed to this discovery.

At Alexandria, on Thursday, Flour was $4 from wagons; Maryland Tobacco $4a7; Wheat, red 85a87c, white 91a95c; Rye 50c; Corn 40a41c; Flaxseed 75; Oats, from wagons, per bushel, 30a33c, from vessels 28a30c; Corn Meal, per bushel, 56c; Butter, roll, per lb. 16a18, firkin 12a14; Lard 8c; Cloverseed $5.75a$6; White Beans $1.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE!

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M. reach	Baltimore	2 P.M.
" Baltimore	4 P.M. "	Washington	6 P.M.
" Washington	5 A.M. "	Fredk'sburg	12 M.

" Petersburg	7 P.M. "	Weldon	1 A.M.
" Weldon	1 A.M. "	Wilmington	1 P.M.
" Wilmington	1 P.M. "	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout, whilst it is evident that Foul Roads Bogus Weather!! and Storms!!!* must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

Robinson's Trial. It will be seen by our paper of to-day, that this interesting trial has closed, and that the jury has pronounced the prisoner "Guilty of murder in the first degree."

The hardened wretch, upon hearing his doom, did not evince the least feeling of surprise or relentlessness, but proposed to the sheriff to divide the profits which would accrue from erecting the scaffold and hanging him, giving, as a reason, that he would "have the hardest time of it," and therefore deserved a "portion" of the "spoils."

Missionaries—temperance. Great zeal has been properly manifested by different denominations of Christians, in furnishing missionaries for the conversion of the heathen; and the islands of the Pacific bear evidence of the successful labors of those engaged in the good work. The savage practices which have degraded the human character, have been abandoned; and the abhorred Cannibal has been induced to adopt the mild and humane doctrines of the Christian religion. These are fruits over which the philanthropist may rejoice in sincerity and thankfulnes. Whilst we are thus extending the regenerating and consoling principles of christianity over Heathen lands, it is equally satisfactory to find that a moral reformation is in progress at home. It would afford but poor evidence of the sincerity of our motives in offering instruction to the distant savage, to neglect to cultivate among ourselves, the principles which we endeavor to enforce upon them. Religion to be useful, must be practical; and as practical religion requires the abandonment of vicious courses, and the adoption of those of an opposite character, it is evident that the cause of genuine piety must be measurably promoted by the reform of intemperate habits. The drunkard cannot appreciate the beauties of religion or morality, and the correction of his habit is therefore essential to constitute him a worthy and useful member of society. And in this particular the moral reformation, of which we have spoken above, has been effected to a great extent by the various temperance societies of Baltimore. A meeting on this subject was held on Thursday evening last in the Rev. Mr. Breckenridge's Church, (which was crowded,) at which several persons gave in their experience, and addresses were made.

But the temperance societies of Baltimore do not confine their benevolent exertions to this city alone, tho ugh they have an ample field in which to labor, but have sent deputies to New York, who are said to have produced great impressions. We marvel as much that an intemperate person should persist in his destructive habits, as that a man falling from a precipice should decline to seize a twig that would save him.

Heels vs. Heads. One pair of nimble heels is worth a dozen philosophic heads. The philosopher thinks, writes and starves:—the *Danseuse* capers, twirls on her toe, exposes her fine shape, and makes a fortune. We cannot "correct the procedure," and it is, therefore, useless to lament it. The man who would not give a straw for all the philosophy in the world, will borrow a dollar from his neighbor to see Fanny Elssler shake her foot. In New Orleans her presence has caused a perfect mania. Young and old; married and single, are showering their favors on the "Divine Fanny." Empty heads will give her full pockets; and it is but right that those who throw away their wits should let their money follow. By and by we shall again have her along in these parts, when the hard times, as well as the hard cash, will speedily vanish. Should we go to see her, we shall leave our stock of cash at home, lest the mania should prove contagious and induce us to empty our pockets in her lap; which would be a sad misgo. We must nerve ourselves for the trial, or "flee from temptation."

The Republican. Our neighbor, we fear, is incorrigible. As we can neither persuade him into a neutral course, nor he force us out of it, we are not likely to agree. The difference between us is about this—that we see with both eyes, he with but one. Having removed the beam from our own, we would cleanse his eye of the mote, but he will not consent; and so we must leave him to follow blindly in the track of party.

Southern mails. We received yesterday morning six southern mails, due from New Orleans, Mobile, Vicksburg, &c. The latest dates are New Orleans 14, and Mobile 15th inst. We waded through the whole batch with great diligence and considerable vexation, but found no important news.

Arrested. A man and woman named Chas. Moore and Mrs. Neil, have been recently taken up for examination in Kane county, on suspicion of poisoning Mr. Neil, the husband of the woman, who died suddenly on the 2d February, at his residence about six miles west of Elgin.

The Ladies. We hope that we shall not have our ears boxed for presuming to advise the ladies; but our admiration of the fair sex approaches so near to adoration, that we cannot bear that they should have a single defect, and especially one which endangers their safety. We can smile at the *bustle*, and other little vagaries; but, when we see a lady's waist squeezed into the compass of a Chinese foot, we perspire with agony, and long to cut asunder the lace. Our junior is casting about for a partner, but is anxious to obtain one who can acknowledge her love without gasping for breath. Others would also willingly become Benedicts, but shrink from skeleton waists and disfigured bodies. All men, we believe, prefer natural to artificial bodies—flesh and blood to waxen dolls; we would, therefore, most respectfully whisper in the ears of single ladies, that tight-lacing makes old maids; and, if that knowledge will not make them relax their stays, we shall despair of producing any effect by lectures. We submit the following, from higher authority than ourselves, and hope that ladies will read and take it to heart:

Tight Lacing. The higher mortality of English women by consumption, may be ascribed partly to the in-door life which they lead, and partly to the compression preventing the expansion of the chest by costume. In both ways, the lungs are deprived of a free draught of vital air, and the altered blood deposites tuberculous matter with a fatal facility. Thirty-one thousand and ninety Englishwomen died in one year (the year ending June 30, 1839) of the incurable malady. Will not this impressive fact induce persons of rank and influence to set their countrywomen right in the article of dress, and lead them to abandon a practice which disfigures the body, strangles the chest, produces nervous or other disorders, and has an unquestionable tendency to implant an incurable hectic malady in the frame? Girls have no more need of artificial bones and bandages than boys.—*Appendix to the Second Annual Report of the Registrar-General of Births, Deaths, and Marriages.*

The body of another Baltimorean found. The following we take from the Mobile Journal of the 15th inst. It is possible, however, that it may have arisen from the circumstance of Mr. Mosher's body having been found in the same place, and that there was a mistake made in giving the name, or that Mr. Woodward was unfortunately a passenger in the same vessel with Mr. Mosher. We give it, however, as we find it, hoping that further developements may bring more welcome intelligence to the friends of both parties.

"Shipwreck. We learn from a passenger from Pensacola, that a schooner (name unknown) was discovered a day or two since, bottom upwards, near that port; and the body of a gentleman washed ashore, on whose person was found $1,500 in cash, a credit on a house in New Orleans for $11,000, and a gold watch. It appears from his pocket book that the name of the deceased was Woodward, and that he was from Baltimore.

"These are the only particulars we have been able to gather from our informant."

Daring robbery. By an extra from the Boston Times, we learn that a most daring and extensive robbery was committed in that city on the evening of the 23d inst., between seven and half past nine o'clock. The store of Messrs. Davis, Palmer & Co. was entered, within that time, and robbed of nearly all its valuable contents, consisting of watches, jewelry, &c., and valued at about *ten thousand dollars*.

The discovery was made by the clerk at about half past nine o'clock, on returning to the store, where he was accustomed to sleep. About ten o'clock on the same night, a man was traced to one of the wharves, having with him several trunks, which were put on board a boat and carried away. Two schooners cleared the same night for New Brunswick, and it is strongly suspected that one of them has on board the stolen goods. There was some talk of sending a revenue cutter after the vessels, and it is probable it was done.

Married—On the 3d ult., in Fayette, Wisconsin Territory, Mr. Joseph Beem, to Miss Susan Moat.

This is another illustration of the fitness of *things*. Mr. Beem got a *Moat* in his eye, and Miss Moat got a *Beem* in *her* eye. Mr. Beem couldn't pluck the *Moat* out of his eye—Miss Moat couldn't take the *Beem* out of her eye.—Here was a difficulty—the case was urgent—something must be done—Mr. Beem felt bad—Miss Moat felt bad—and at last, like wise folks, they called in the parson, who expounded the whole matter in a manner at once the most conclusive and satisfactory.

Fire and Loss of Life. We learn by a slip from the office of the St. John (N. B.) Courier, that a disastrous fire broke out in that city, on Wednesday morning last, which destroyed eight fine stores, and several buildings in the rear of them, among which were the Observer and Morning News printing offices.

A woman and two children perished in the flames, and Mr. Matthew Holdsworth, of the firm of Holdsworth & Daniel, accidentally fell through a hatchway from the third story, and was so much injured that he survived but a few minutes.

Midshipmen. Two young midshipmen were taken to the watch house in Philadelphia, on Wednesday night, for drunkenness, disorderly conduct, and breach of the peace, and next morning were fined by the Recorder for profane swearing, and bound over in the sum of $100 each to keep the peace. We would advise the temperance men to give them a call.

Explanation. The N. Y. Tattle says: the girl who died "mysteriously" at Mrs. T.'s boarding house, in Broadway, died, it appears, of the erysipelas. A post mortem examination was held, and that accounts for "the horrid cutting up" of which report has spoken. She was not "ordered to quit," but had been taken into the house by Mrs. T. from motives of charity.

BALTIMORE MARKET,
March 26, 1841.

Flour. We have heard of some sales of good common brands at $4.44. Dealers in Howard street generally refuse $4.37½, though it may yet be given as the quotation price. The receipt price still continues at $4.25. Holders of City Mills Flour are more firm, and there has been a slight advance in the article. We quote at $4.56 a$4.62½. The stock on hand is not heavy.

Grain. We have been informed of sales of Maryland white wheat at 90a100 cts., and reds at 87a93 cents. Last sales of Maryland Rye 50 cts. Corn has advanced a little. We quote Md. white at 43a44 cts., and yellow do. 44a45 cts. Oats do. 25a27 cts.; Virginia do. 23a24 cents.—Cloverseed from stores, $4.75a$4.87½, Timothy seed, from do. $2.75a3.

Provisions. This market continues without any material alteration or much animation. Mess Beef, $12.50; No. 1, $10.50; Prime, $8.50a$9. Western Bacon, assorted, 7a7½ cts. Hams, do. 9 a9½ cts. Middlings, 7¼ cts. Frederick county cured Bacon, of assorted quality, 7½ cts. Baltimore cured Hams, 10a10½ cts. Middlings, do. 8a 8¼ cts. Western Lard, in kegs, No. 1, 7 cts.—There have been but few transactions in Butter. Glades, No. 1, 18a20 cts.; No. 2, 14a18 cts.; No. 3, 9a14 cts., according to quality. Western, No. 1, 10a11 cts.; No. 2, 8a8½ cts.; No. 3, 7a7½ cts.

Cattle. There is a fair supply of Beef Cattle. Prices are without much change. We quote last sales at $6a7.75 per 100 lbs. according to quality. Live hogs command from $5.50 to $5.75 per 100 lbs.

Whiskey. We quote hhds. at 21 cts., and bbls. 23 cts., as at last quotations. Wagon price exclusive of bbl., 19 cts.

BOARD OF TRADE.

The following members constitute the Committee on Arbitration for the month of March, 1841:

Hugh Birchhead,	John Bradford,
M. S. Norman,	J. W. Patterson.
Enoch Pratt,	

Arrivals at hotels. We were induced to commence publishing the names of persons arriving each day at the principal hotels in Baltimore, at the suggestion of several respectable merchants, and have continued it at considerable trouble and some expense. These we are willing to incur, as we find that the list of arrivals is gratifying to our readers—but some of the hotel keepers object to the publication as it is said to be disliked by some of their customers, and the names are consequently withheld from us. We have thought this explanation necessary to account for the omission of hotels heretofore published.

What a Hoax it would be! We glean the following from the *Courrier des Etats Unis*, a French journal published in New York:

"At a recent ball during the carnival in Paris, a character in mask asserted that the remains of Napoleon had been spirited away from the custody of the French and those of an English corporal substituted in their place. He offered, indeed, to prove by indubitable evidence that the body of the 'martyr of St. Helena' was now in fact at Westminster, while the corporal aforesaid was reposing in state at the Invalides."

New Movement. The Philadelphia Spirit of the Times says, that it was decided at a democratic meeting in North ward, that none of the primary meetings of the party should hereafter be held at a tavern! This is an excellent resolve, and deserves to be adopted by both parties in Philadelphia and elsewhere. Parties can then put spirit into their resolutions, instead of into their mouths.

Mysterious disappearance. We learn from Kensington, N. H., that great excitement exists in that place, in consequence of the sudden and unaccountable absence of a wealthy, respectable citizen, and a State Senator, from his home, he having been absent upwards of five weeks, and no intelligence whatever obtained from him, although the most unremitted exertions to that effect have been made by his friends.

Accident. Yesterday morning, as a boy named Loman, said to be from Piney Woods, Anne Arundel county, was riding in West Pratt-st., he was thrown from his horse against a fire-plug, and dangerously injured. He was immediately conveyed to the infirmary.

Thieves. A family living in Aisquith-st., hearing a noise in the house about four o'clock yesterday morning, proceeded to call the watch, when the thief retreated, and made his escape, notwithstanding he was seized by the coat by one of the domestics.

Intemperance. James Kirkpatrick nearly lost his life on Thursday evening last, in a fit of intemperance. He had fallen into a pond of water in the western part of the city, where he was discovered in time to save him. He was conveyed to the watch house.

Negligence. The keeper of a lottery office in Exchange Place having left his door open on Thursday night, it was closed and secured by watchman Burke. The owner was certainly very remiss, but he probably thought that no one would be so foolish as to steal lottery tickets, as it would be labor lost.

APPOINTMENT BY THE PRESIDENT.

Nathaniel F. Williams, Collector of the Customs at Baltimore, Md. vice Wm. Frick, removed.

MEETING OF GAS CONSUMERS.

☞ Pursuant to public notice, a meeting of the Gas Consumers of the city of Baltimore was held at Sutton's Military Hall on Thurday, 25th March, when, on motion, it was unanimously

Resolved, That Wm. H. Cole, sen'r, be called to the Chair, and that Alexander Agee be appointed Sec'y.

After the meeting was organized, on motion of C. M. Cole, it was

Resolved, That a committee of five be appointed to draft a memorial to request the Legislature to empower the Councils of this city to appoint an Inspector and Measurer of Gas, when, on motion, the following gentlemen were appointed the said committee:

C. M. COLE,
JAMES ACKLAND,
GEORGE W. BULL,
DANIEL COONAN,
DANIEL McDONELL.

Resolved, That a committee of fifteen be appointed to obtain signatures to the above memorial, and that said committee be instructed to proceed forthwith to the discharge of their duties, and they are hereby requested to wait upon every consumer of Gas in this city, and endeavor to obtain his signature to the following

MEMORIAL:

To the Honorable
The General Assembly of Maryland:

The memorial of the undersigned consumers of Gas of the city of Baltimore, respectfully shew th, That in consequence of the enormous amount of money demanded for Gas, by the Gas Light Company of Baltimore, and of the yearly increase of the amount, and from the information we have severally received, as well as our personal observation, we feel perfectly satisfied that the unwarrantable increase is occasioned by the present system of measurement of said Gas, in which we have no reliance or the least confidence.

Your memorialists will briefly state some of the reasons which induce the undersigned citizens of Baltimore to make this application, and which prompt your memorialists to invoke the aid of the state. It is well known that there is in existence in the city of Baltimore a large Company engaged in the manufacture of Gas, and that the Gas is used to a great extent by persons engaged in business. The fixtures and pipe leading from the body of the main pipe (which is laid at the expense of the company) is uniformly paid for by the consumers. Some years ago the company adopted an entirely new plan for the sale of the Gas—at first a light was furnished for a stipulated price per annum, regulated, according to the size of the burners used by the consumers but now the price depends upon or is designed to be governed by the quantity consumed. To ascertain the quantity, the company have set up machines which they call meters, by which they contend the quantity can be ascertained. The consumers, with great unanimity, say that not the slightest dependence is to be placed upon these meters, and refer to the fact that they frequently show that a large quantity has been consumed, when, in point of fact, none of all, or but a very small quantity, has been used. So thoroughly satisfied are the citizens that they are imposed upon by said mode of measurement, that they are charged for Gas which they never use, that, in most cases, there are disputes. According to this regulation, the whole matter is within the control of the company—it is they, and they only, who determine what is due—the citizen being bound to conform to their estimate, or be deprived of the use of the Gas until he does.

It certainly never was the design of the Legislature, in incorporating this company, to place the citizens entirely under its will and control—the company was professedly established for the good of the people, to furnish them with a good and cheap light. This intention the people are willing and anxious to conform to; they ask not that the company be compelled to sell the Gas at certain rates, but that they be not permitted to enforce payment for more than they dispose of; all the people ask for is, that in this as in all other matters of trade, that there be some certain and positive mode of determining the quantity consumed—and that the company, as well as the consumer, be compelled to submit to the decision of an uninterested and sworn measurer. So satisfied are the consumers that they are grossly imposed upon by the present system of measurement, that your memorialists believe that there are but few among them who are not of the opinion that they have paid and are paying for what they have not and are not receiving.

That justice may be done alike to the company, to the Public, and your Memorialists:

Resolved, That a copy of the above mentioned memorial and resolutions, after the signatures are procured to the same, be forwarded forthwith to the Senator and Delegates from Baltimore, with a request that they will endeavor to procure the passage of the act therein referred to. mh27-1t

BILLIARD ESTABLISHMENT.

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No. 94½, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious, and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cases; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champaigne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

WATCH RETURNS. Eastern District, March 24. Sands Brow was imprisoned for rioting.—25th. No disturbance of the peace; two stragglers applied for lodgings. 26th—Geo. Williams, Henry Harris, Henry Williams, and Rachael Harris, bl'ks, were found fighting in Happy-ally. John Riley, was also imprisoned for fighting.

Middle Dstrict. March 24. A negro, Tom Smith, alias Joshua Young, was found with a whiskey barrel on his head, supposed by the watch to be stolen, as he could give no satisfactory account of the manner which it came into his possession—was 'reprimanded' in the morning and released. Three white rioters were also imprisoned. Wesley Purviance, col'd, was reprimanded for strolling the streets. 25th—A bevy of colored sportsmen were brought in and left for the police. Margaret Carl, with a small basket of dry goods, was wandering the streets, intoxicated. Mary Stevenson, colored, was locked up for riotous conduct, and in the morning reprimanded. 26th—Wm. Barnes and negro Ann Benson, were imprisoned for rioting and drunkenness. Two loafers applied for lodgings.

Western District. March 24. John Shaw was arrested for disturbing the peace, and four loafers admitted to lodgings. 25th—Charles Sterling, was imprisoned for beating his wife, and negro John Walker for drunken and riotous conduct.—Negro Horace Downs charged with brick-batting Ann Richardson, was locked up, and in the morning committed to jail by Justice Steuart. 26th—A white man, nearly drowned, was brought in by several citizens. Five others were admitted to lodgings.

DEATH OF A DESPERADO. The notorious Sol. Mitchell, of Montgomery co., Ala., was recently shot dead at Mount Meigs, by the Deputy Sheriff, who was attempting to arrest him. The Alabama Times, from which the above particulars are taken, says he was shot while in the act of presenting his gun to shoot the officer.

SPECIAL ELECTION. It will be seen that the Governor has ordered a special election of members of Congress, to be held on the 17th of MAY next. This will afford time for parties to organize for the fray, and for industrious farmers to finish corn-planting. Talking will be at a premium, and good feeling and common sense below par.

THE BALTIMORE PHŒNIX AND BUDGET. The first number of a new monthly magazine bearing the above title, published by Messrs. Jones, Sherwood & Co., is upon our table. The subscription price is only $1 50 per annum.

WITHDRAWAL. The Hon. Francis Thomas has declined becoming a candidate for Congress, from the upper district, at the election in May next. Some three or four persons are announced as candidates for the situation.

PENNSYLVANIA BANKS. The bill from the senate, providing for the issue of small notes, &c. with some amendments, passed through the first reading on Wednesday last in the house.

DOCUMENTS. We are indebted to J. J. GRAVES, Esq., for a copy of the report of the joint committee to examine and burn the bonds of the state, &c.

☞A mail bag was lately found near New Orleans on a vacant lot, rifled of all its contents.—Letters were found broken open. They were principally from Mississippi and Tennessee.

☞Madame Restell was brought up on the 24th inst. for examination before the public magistrates, but under advice of her counsel, declined to answer any questions.

CITY OF BALTIMORE.

ORDINANCE No. 18.

AN ORDINANCE for the division of the City of Baltimore into fourteen Wards.

DAILY SOUTHERN MAIL,
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a though overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 1 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good night rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was induced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences.

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having slaves, which they wish to dispose of, will do well to apply at this office before selling.

N. B. All letters addressed to this office (post paid) thankfully received and promptly attended to.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety or economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no *meters* to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

P. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 29 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. *In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas.* I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

MORE PROOF THAT B. OZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. BOOZ. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. *Thus*, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

WOMAN.

BY J. W. LCORNBREEL, M. D.

'Twas said by one who knew life's sorrows well,
That Eden's rosy bower was all a wild;
That joy and happiness could never dwell
Within man's breast, till lovely woman smiled.

Although kind Nature had bestowed on him
The richest blessings from her bounteous store:
Yet still there was an aching void within—
He sighed that Nature had bestowed no more.

Nor was it till the God of Nature said
It is not good for man to be alone,
That the dark clouds which o'er the garden spread,
Dispersed, and light around man's pathway shone.

And not e'en now can earthly wealth bestow
That bliss for which we toil and pant and moan—
Man's happiness is incomplete below,
If left to roam through this wide world alone.

In vain we climb the rugged steeps of fame,
In hope that we may find contentment there:
'Tis nought though thousands swell with joy our name,
If we have none with us that name to share.

I envy not the man who seeks to find,
Away from woman's calm, bewitching smile,
Some other charm on which to fix his mind,
And all his fond affections to beguile.

Though others glory in their pomp and show,
Though they in luxury and splendour bask;
No other earthly bliss I wish to know,
Than woman's love—no other boon I ask.

GEORGETOWN, D. C.

THE FANNY-STRUCK FRENCHMAN.

The following from the N. O. Picayune is too good to be kept from the numerous acquaintance of Miss Fanny in this city:

Julien Dumurier, a native of la belle France, was brought before the Recorder at the instance of the lady with whom he boards, Mrs. Janson, on the charge of disturbing the peace of her house, and annoying her other boarders. Julien is rather an outre-looking character, the component parts of which seem to be one-half of the military gentleman, whose laurels, if he ever won any, are fast fading away; one-fourth of a gentleman doing nothing and living on slender means, and one-fourth of a circus pantaloon or French posture master. Nature seemed to have destined his nose for a snuff-box, and he, not to defeat her design, kept cramming it with the pungent powder every other minute. His face was as brown as a sycamore leaf in autumn; he puckered up and extended his mouth as if it was acted on by an invisible running string, and his shoulders went up and down like those of a toy sawyer. He sported a very fanciful [illegible] wore a dilapidated military frock and an old opera hat, and was, in fact, "the observed of all observers" in the court.

Mrs. Janson, the complainant, was a woman of much *en bon point*, and had an eye "like Mars to threaten or command;" and although she assumed a passive air, it was evident she had a large quantity of that article on hand—to be disposed of on the first occasion—which Byron calls silent thunder, and which makes a woman look

"——like a porcupine,
Not to be rashly touched."——

"Mrs. Janson!" said the Recorder.

"Yes, sir," said Mrs. Janson in an affected, faint tone.

"What have you to say?" inquired the Recorder.

"O, I would never say nothing, if I was let alone," said Mrs. Jansan; "I'm the most quietest woman as ever your honor knew, but I can't stand this man's carrying on, no how! My boarders is all leaving me."

"What for?" inquired the Recorder.

"Lor bless your honor!" says Mrs. Janson, "he cuts up such shines since Fanny Elssler, the dancer, came to the city. Why, he makes more noise than a steam sawmill, or all the people in Louisiana! O, he'll ruin me and my business!—And between you and me, your honor, I thinks he ought to be sent to the hospital; for I verily believes, from all he has to say about the *crack-o-vain*, that it has actually cracked his brain, and that the turning of Fanny's legs has turned his head. I believes he is *dancibus madibus*, or as my poor, dear, deceased man used to call it, when he spoke of the effects which the great learning had on our boy Tommy, I actually believes he's *non compas mentibus*. Did your honor ever hear what a bright boy my eldest son Tommy was before he took the consumption?"—[And here she put her handkerchief to her eyes and wiped away a maternal tear, which the memory of her son Tommy's virtues brought from the hiding-place of her heart.]

"I never have heard of your son's talent," said the Recorder, "nor can I listen to the recital of instances of it now. What is the actual charge which you have to make against this man?" pointing to Monsieur Dumurier.

"Why, nothing in the world but this here," said Mrs. Janson, "that when he comes in at night he goes dancing about the rooms, making all kinds of a noise, and the other boarders says as how they won't stand it. There's Mr. Brown what gets up every morning at six o'clock, and Monsieur Dumb-er-car makes so much noise that he don't let him sleep till four. I wants him to leave, sir, and I won't charge him nothin' for last week."

"That's a very fair proposition," says the Recorder. "What have you to say to it, Monsieur Dumurier? Will you leave?"

"Certainement," said the defendant, who, during the long dialogue between the Recorder and the complainant, kept taking snuff, shrugging his shoulders, and at every assertion of Mrs. Janson, ejaculating "Mon Dieu! Mon Dieu!" "Certainement," he added, "me has no objection to stop—to leave the house. You see I goes to see de divine Fanny—ah, she be beauty woman. Well, de grande dance she give get—what you call easy walk—it creep all de way up here to my head," and here Monsieur Dumurier tipped the centre of his forehead with the fore-finger of his dexter hand—"and by gar I can't sleep none not at all for dancing the Cracovienne and the Cachucha.—Ah, sare, dat Fanny be one beauty woman!"

"Yes, but your admiration of her," said the Recorder, "should not cause you to annoy the lady's house."

"I don't annoy no house," said Monsieur, taking a monstrous large pinch of snuff; "I dance in my own room, I sing in my own room, I whistle in my own room, notin' no more dan dat. O, dat Fanny, she be beauty woman!"

"O, I pledge your honor my word, as I'm a widow," said Mrs. Janson, "that he dances to the breakfast and dinner table and back again—and it was no later than yesterday, that he upset a tureen of soup which the servant was bringing to the table. He was making one of his pirouettes, as he calls them, at the time, and I wouldn't care so much for the loss of the soup, but it fell on a silk gown of mine, and I was obliged to send it to the scourer's."

"Is this a fact?" said the Recorder, addressing the defendant.

"Ah! Fanny be beauty woman!" said Dumurier, replying, but seeming unconscious of the purport of the question put to him.

"It is a fact!" said Mrs. Janson, astonished that the Recorder should doubt her veracity.—"Is it not a fact that in dancing round his room last night, he spilt the water pitcher, and that its contents ran down on the head of Mr. Appleton, who slept in the room underneath him, and wet it in such a manner that he was obliged to leave?"

"You must leave this woman's house right away," said the Recorder, speaking to the defendant: "Will you remove instantly if I discharge you?"

"*Oui*, Monsieur," said the Frenchman, turning to leave the office and ejaculating as he went, "Ah, Mamselle Fanny be one grand danseuse—she be beauty woman!"

MUSICAL SLURS—AD LIBITUM.

BY A PUNDIT.

"Let us sing the *Barker-ole*," as Boucher said when he selected from the opera of Massaniello.

"Apollo strikes the *lyre*," as the musician said when he pummelled the lawyer.

"Gentle *Shepperd* blow thy pipe," as Spies said to the leader of the cotillion band.

"Why does Casalani *string up* his double base?" asked one of the dilitanti in the orchestra box the other night. "Because it is continually committing the capital offence of *uttering base notes*," was the ready reply.

"*De'il, man*," said a Scotchman to a celebrated violinist of this city, "can ye na gie us a Scotch stratsphy?" "No," said the professor, "I do not play on the *Scotch fiddle*."

Why is Ambroise's bow like the opera of Tancredi? Because it's *Rosiny* (Rossini.)

"I'm link'd sweetness long drawn out," says the accordeon to the trumpet." "Blow me if you are," says the trumpet. "I get along by hook or by crook," says the horn. "And I can manage well on a stretch," replied the trombone. "And I can never *swell* until I *raise the wind*," says the [illegible]

"What *infernal* music!" exclaimed he, when the three trombones struck up in the Naiad Queen. "It's perfectly in character," replied H., "the harpies are blowing conch shells and executing 'Handel's water music.'"

"Sir," said a leader of an orchestra to the flute player, "you do not play your part. You must go up to G in that solo." "I shall do no such thing," was the reply, "my sallary is *low* enough, and I'm not engaged to play higher than D."

MUSICAL CROTCHETS—*Group iv.*

BY REKRAB.

"Why are all music dealers not like Carusi," says the lute.

"Because they are not all gentlemen," says the piano.

"You are a downright *natural*," says B to C.

"I know it," says C; but you will have to become one half *sharper*, before you get into my family."

"If you don't come out as I wish, I will put the screws on you," says the key to the kettle drum.

"I will *blow* you," says kindle.

"If you do, you will astonish the natives," says the bugle.

"You had better try a pipe, than attempt to play on me," says Hamlet.

"Maestoso," says Laertes, "I can only be foiled."

"Where did you come from?" says the bagpipes.

"Pandemonian," says the serpent, "and I am sure I have both seen and *heard* you there."

"War to the knife"—it is dinner time, says the gang.

"Which is your favorite instrument," says the dry-necked filer.

"The *sack-but*," says the blue-nosed drummer.

"I have *hooked* you," says the puncher to the *note*.

MARYLAND LEGISLATURE.

ANNAPOLIS, March 26, 1841.

HOUSE OF DELEGATES. Mr. E. A. Lynch presented a petition from Gen. Duff Green and others, praying certain alterations in their charter, and to extend the navigation of the Potomac River beyond Cumberland. Referred to the committee on corporations.

Mr. E. A. Lynch offered an order that the Tax Bill be made the standing order of the day from 11 o'clock A. M. until disposed of, and that the bill for the completion of the Chesapeake and Ohio Canal to Cumberland be the next order of the day, and that no other business shall be transacted after the hour of eleven o'clock until these bills shall be finally disposed of. The order was adopted.

On motion of Mr. Bowie, leave was granted the Committee on Ways and Means to bring in a bill to tax Notaries public.

On motion of Mr. Gallagher, the House took up the bill reported from the Committee on Corporations entitled an act to incorporate the Marion Total Abstinence Society of Baltimore, which was read the second time and passed.

On motion of Mr. Nichols, the house took up the bill to diminish the expenses of Government. This bill was under consideration for the balance of the morning. The bill reduces the salary of the Chief Judge of the City Court of Baltimore to eighteen hundred dollars. The salaries of several of the public officers have also been reduced. That section of the bill which proposed to reduce the pay of the members of the Legislature was rejected. The bill was passed by a vote of 41 to 22. The House have taken a recess until 4 o'clock.

SENATE. There was no session of the Senate to-day. Many of the Senators when they left here, I am informed, were under the impression that scarcely any other business but the tax bill and the appropriation to the Canal would be acted upon. They disposed, I believe, of all the business before them previous to their adjournment.

WATCH RETURNS. Eastern District, March 27. Negroes Alfred Patterson, Henry Mays, and John Whittington, were imprisoned for rioting in the streets at 11½ o'clock, and in the morning reprimanded. A white man was admitted to lodgings.

Middle District. Mary Violet Notcame is for lodgings, and left for the police. Wm. Barnes was brought in on a wheelbarrow, too intoxicated to walk. Phetis Devlin was also imprisoned for intoxication, being too blind to find his way home. Several loafers solicited lodgings.

Western District. James Griffith was locked up for beating his wife, and in the morning committed to jail by Justice Stuart. Mary Walsh was brought in at half past 12, found wandering the streets, and knocking at people's doors. Jacob Wisher and James Lloyd, negroes, were imprisoned for noisy behaviour.

WILLIAM H. CONKLING VS. THE CHARLESTON INSURANCE AND TRUST COMPANY. The County Court has been for several days engaged in the trial of the above cause, which involves a most important and interesting question on the subject of maritime insurance—and that is, what rule or principle shall be adopted here for the adjustment of a *particular average* on a partial loss sustained—it being contended by the plaintiff that the deduction for such a case must be, *one-third new for old* from the *nett*, and not from the *gross*, amount of repairs; and on the other hand insisted by the defendants that, according to the *custom* and usage proved to have prevailed here for forty years, the deduction must be made from the *gross* amount of repairs. This question not having been before presented for judicial decision in this State, is now settled for the first time. The Court, we understand, refused the instructions asked by the plaintiff, and established the rule of adjustment as contended for by the defendants' counsel.

The case was very elaborately and ably argued by J. Meredith and E. D. Kemp, Esqs. for the plaintiff, and by J. Nelson and Z. C. Lee, Esqs. for the defendants.—*Patriot.*

SOLITARY CONFINEMENT. A philanthropist, by way of illustrating the horrors of solitary confinement, stated "that out of one hundred persons sentenenced to endure this punishment for life in an American prison" only fifteen survived!"

INDIAN ELOQUENCE. The following specimen of elegiac pathos was delivered by an Indian woman, over the contiguous graves of her husband and infant. "The Father of life and light has taken from me the apple of my eye and the core of my heart, and hid them in these two graves. I will moisten the one with my tears, and the other with the milk of my breast, till I meet them again in that country where the sun never sets!"

CITY COURT. Wm. Sneets, col'd, was brought before the Court on Saturday morning, charged with selling liquor, at the corner of Hanover and Camden-sts., without license. On being arraigned, he presented a license which he alleged had been taken out for him, but refused to name the individual who procured the same; whereupon he was sentenced to pay a fine of $50, and be imprisoned thirty days. His license was then suppressed.

Horace Downs, col'd, was charged with assaulting a colored woman named Ann Richardson, by knocking her down with a brickbat. As it was pretty evident that the blow had been inflicted in revenge for the loss of his money, defendant was found guilty, and sentenced to pay a fine of $1 and costs; in default of which he was committed to prison.

John Edwards, mulatto, charged with assaulting Emanuel Hill, colored, solicited permission to settle the difficulty by compromise—a nominal fine only of $1 and costs, was then imposed by the Court.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE.

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M. reach	Baltimore	2 P.M.
" Baltimore	4 P.M. "	Washington	6 P.M.
" Washington	5 A.M. "	Fredk'sburg	12 M.
" Fred'ksburg	12 M. "	Richmond	5 P.M.
" Richmond	5 P.M. "	Petersburg	7 P.M.
" Petersburg	7 P.M. "	Weldon	1 A.M.
" Weldon	1 A.M. "	Wilmington	1 P.M.
" Wilmington	1 P.M. "	Charleston at 5 the next day.	

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection through*, whilst it is evident that Foul Roads Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines [illegible] each of from Raleigh Rail Road to the old Piedmont Line, to Salem, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

☞ Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of
STOCKTON, FALLS & CO.

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep all my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

BALTIMORE CLIPPER.

MONDAY MORNING, March 29, 1841.

"Industry must prosper." We remember to have once purchased a hat whose manufacturer had adopted the foregoing as a motto. We thought it appropriate; for there is nothing more certain than that indefatigable industry, combined with prudence, must result in prosperity. There are too many who expect to prosper in this life without pursuing the requisite means. This is contrary to all experience. Industry is necessary in all stations, if we would move successfully through life. Men who are too indolent to exert themselves, and sit idle under the hope that Providence will provide for them, are like the wagoner in the fable, who called upon Hercules to extricate his wagon from the rut, without putting his own shoulder to the wheel; and are likely to have the same response. And yet, notwithstanding the misery which is daily experienced by those who are either too proud or too lazy to put their hands to honest labor, the disposition generally prevails to raise children in idleness. Parents in this not only "sin against the light," but inflict the most serious injury upon their offspring, by throwing them in the way of temptations which they find it impossible to resist. Man was created to be active and industrious, and not to go yawning and lounging through existence. Exertion improves the individual physically and mentally, whilst inactivity enervates the body and weakens the mind, and leads to destructive habits. We would not be understood as insisting upon manual labor to the exclusion of intellectual culture—they are not incompatible; on the contrary, energy of mind is increased by physical vigor. The man who has labored throughout the day finds study a relaxation at night: he has no *ennui*, no listlessness. All his faculties are in full play and susceptible of improvement. There is no industrious and frugal man who cannot earn sufficient for his support, and spare time to improve his mind; and such a man should never admit the impossibility of accomplishing any thing within the compass of the human intellect. We have an evidence of what can be effected in the blacksmith, who, whilst laboring at his trade, has acquired a knowledge of fifty-two languages. It is by a systematic division of time that this has been accomplished—and to be successful system will be found as essential as industry. Not only the hours, but the moments must be appropriated; for it is by the neglect of the latter that the former are rendered useless. Suppose that all the time that is unnecessarily, if not viciously spent by young men in taverns, oyster-cellars and such places, were devoted to mechanical or mental [illegible] that it would be productive of great and beneficial results? But then it will be said that men must have amusements. This is true; but these recreations should be rational, and might be so regulated as not to interpose an obstacle to more important pursuits. Ten minutes spent at a game of dominoes in an oyster-cellar to-day, will produce double the consumption of time to-morrow; and the progressive loss will be so rapid, as in a short time to substitute play for work. The sinner asked of the Saviour, "what shall I *do* to be saved?" and the new testament abounds in injunctions *to do the work*—not at intervals, admitting times for trifling and unconcern—*but to labor incessantly*. And this is equally required in temporal as in spiritual concerns, if we would attain the desired reward. We are taught that "industry must prosper" by Holy writ and by daily experience—and he who regards the one or the other, will not bring up his child in idleness, under the erroneous and ruinous notion, that labor is discreditable. But do we not see *hundreds* of young men sauntering through our streets, who have been, by this misjudged policy of their parents, cast into the world with pride in their hearts, folly in their heads, and nothing in their pockets! who cannot stoop to work, and yet are almost compelled to beg? Were they industrious mechanics, they might become serviceable to themselves and respectable members of the community, instead of being excrescences which hang upon but to disfigure society. It is lamentable that this folly is so prevalent. Is it incurable? To apply an effectual remedy there must be a change in the conventional rules of society, and fashion, idleness and folly, cease to be considered synonimous in meaning. It is in the power of the industrious to effect this alteration, by invariably preferring for public office and private companionship, those who apply themselves to some profession or trade. Make it unfashionable to be idle, and industry will be promoted—and above all let the ridiculous idea be relinquished that it is impossible for a mechanic to be a gentleman.—This absurd notion has produced great injury by crowding the various professions with individuals, who might have occupied another sphere with usefulness and credit, but are now destined to move in obscurity, or to render their unfitness and disqualification for the station they have assumed more conspicuous. "Pride goes before and destruction followeth." It is false pride that produces such a general disposition in parents to thrust their sons into professions instead of binding them to trades—or to prefer that they should be *idle gentlemen* to industrious mechanics. This aspiration after what is supposed to be gentility, has given rise to another classification of society, and we have now "*genteel loafers*" as a distinct cast. It was the same description of pride which Goldsmith so admirably ridicules when he makes a poor mother explain to her child, "Anna Maria Juliana Wilhelmina Skeggs, come out of the gutter you d—d b—h." High sounding names beget no correspondent polish—neither will a learned profession confer distinction upon an ignorant pretender. It is unceasing industry alone, whether in the professor's office or the mechanic's shop, that can insure success. It is therefore incumbent on parents to discipline their children properly from their earliest age, so that their minds may be indelibly impressed with the great truth, applicable alike to spiritual and temporal affairs, that high perfection is only to be attained by industry and application. "Ask, and ye shall receive; seek, and ye shall find; knock, and it shall be opened unto you." In every case self-application is required, and the expectation would be fruitless that the benefit could be achieved through the agency of another. "Whatever thy hand undertaketh to do, that do with all thy might." Let every man, then, who would pass through life happily, creditably and prosperously, adopt the motto with which we have commenced this article, and he will be sure to succeed.

Native American Society. In the formation of political associations we should be careful not to get into extremes. The "Native American Society," although it no doubt originated in pure and patriotic views, yet seems to us to be too exclusive in its character, because it does not admit to membership those naturalized citizens who are as ardently and sincerely attached to the principles of our government and devoted to the *interests* of the country, as the most patriotic native. We should be glad to see more of national feeling inculcated, and would unite with an American party who had that object in view—but to such a party the naturalized, equally with the native citizen, should have access. We are not opposed to the naturalization of foreigners; and when they become amalgamated with us—subject to all the duties of citizens—we do not see the propriety of discriminating between them and natives. We condemn partizan appeals to the naturalized citizens as a distinct class, because when they become citizens they should have no feelings separate from those of the great American family. Attachment to the land of their nativity is not incompatible with their duty to the land of their adoption. It is therefore unnecessary and improper, to call upon them to rally for party purposes, not as American citizens simply, but as emigrants from this or that country. And yet this is done at almost every election, and no doubt first suggested the propriety of establishing a *native* American Society, with the view of counteracting this supposed foreign influence.

We have been led to make these remarks from paragraphs on the subject in the St. Louis Pennant and Native American, which we think to be illiberal. We are natives of this country, but are free to extend the hand of fellowship to those foreigners who seek our soil as a refuge from oppression, or from attachment to the principles of liberty, and who come to mingle their fortunes "for weal or for woe" with the natives [illegible]

Baltimore Lyceum. A lecture on the brain, phrenology, &c. was delivered at the Lyceum on Friday evening last by Mr. Crowley, who exhibited a perfect knowledge of his subject, and expressed his entire confidence in the accuracy of the science of phrenology. He concluded by examining the heads of three gentlemen, and was supposed to have hit the characteristics of some of them very happily. He is very superior to other phrenologists whom we have heard, both in fluency of speech and scientific knowledge; and he explained the principles of the science more satisfactorily by reference to various casts and engravings which he exhibited.—We cannot say how other sceptics were affected, but for ourselves we came as we went, unbelievers in the phrenological science.

The question whether *reason* and *experience* warrant the belief in ghosts, was argued with ability and ingenuity by Mr. J. M. Robinson in the affirmative, and by Mr. N. Cox in the negative—and decided against ghosts by an almost unanimous vote.

To Correspondents. We acknowledge the receipt of a number of communications both prose and poetical, some of which are good, others pretty good, and others again poor, very poor indeed. Our correspondents must excuse us for dealing candidly with them, or rather their productions. It is our prerogative, and we are bound to exercise it. We should be happy in an acquaintance with the real names of our poetical writers especially.

Lines to Miss E. J. of Fell's Point are faulty. The author should try again. Let him invoke the inspiration of Cupid.

"A Mother's Lament" is very prettily written. The piece however is too prolix for our columns.

"Why Covet Life," by H. L. shall have a place.

"To Miss A— K**g, of Baltimore," has some faults which will prevent its publication. The young lady whom he addresses is prettier than the poetry.

Atkinson can have a place in time, though we should like to see the author.

We have Emily's last production on hand—we are desirous of seeing her.

"We'll meet again," shall be attended to in time.

"Two Willing Hearts," a tale by J. H., has been carefully perused—we are pleased with it, and will give it publication.

"E. M." can't travel—nor the pencillings.

☞The New York Express says.—"J. S. Jones, manager, has discharged Mr. Andrews, a favourite of thirteen years on the Boston stage, because he declined to play on Saturday afternoon, Mr. A. considering "such day exhibitions derogatory to the character of the drama, and the respectability of the performers."

Arrest of Rail Road Robbers. Some robbers, who had been preying for some time past upon the *Syracuse & Auburn* Rail Road, N. Y., have at length been arrested. On the cars reaching Albany, one day last week, it was discovered that three packages had been stolen. One containing money from Col. Wilkie's valise, another from the trunk of Wm. K. Strong, of Geneva, of $412, and the third from Freeman Clark, Cashier of the Orleans Bank, which contained $4,100. These three gentlemen's suspicions fell so strongly upon Richard Graves, Collector on the S. & A. R. R., and George Wall, porter to the S. & A. R. R., that they were both arrested. Wall made a full confession of the robbery, and the money was all recovered, together with 1500 out of a package of $1700, belonging to Messrs. White & Williams, of Buffalo, which had been stolen from E. Norton, Esq., last fall. They are now both in confinement.

Latest from Rio Janeiro. By an arrival at New Orleans, we have dates to the 4th Jan. There had been no change in the political affairs of the country of late. The rebels in the district of Rio Grande still held out against that government, and there was no hope of their immediate subjection.

Information from the south represented their neighbor as being still convulsed with civil commotions. In Buenos Ayres, Rosas and Lavalle were each struggling for the mastery. In the Banda Oriental there were also intestine troubles, all which interfered with agriculture and consequently lessened commerce.

Latest from Havana. By a letter from Cienfuegos under date of the 18th ultimo, it appears that a very unusual spell of cold weather was experienced in that place, by which considerable damage was done to the sugar cane, plantins, maize and other fruits. The dates from Vera Cruz are not so late as those we have received direct. On the 10th February, the peaceable inhabitants of that city were particularly annoyed by the appearance off the Sacrificios of two of the Yucatan squadron. They lay at anchor for three days at the Isle Verde, probably awaiting an answer to some despatches they had sent the city authorities.

A Mutiny Frustrated. There was like to be a mutiny on board the steamboat Wilmington, Capt. Marshall, while on her way from Wilmington to Charleston, S. C., on the 21st inst.—The plot was developed by the refusal of the chief engineer and firemen to do their duty, and when ordered by the captain persisted in their refusal. The ring leader, Minor, is lodged in jail to await his trial.

Another Robbery in Boston. The house of Mr. Andrews, a sexton, was entered while the family were at church, ransacked from cellar to garret, and a small trunk, which was locked up in a larger one and placed under a bed in the chamber, taken. It contained four hundred dollars in gold and silver, which the robbers carried off as their booty.

The Lady's Book. The April No. of this deservedly popular monthly has been handed us by W. N. Harrison, agent. As usual, it is replete with interest. It contains the conclusion of "Mr. and Mrs. Woodbridge," a story of domestic life, by Miss Leslie. All who have commenced the perusal of this most excellent tale, will, no doubt, feel anxious to receive the present number of the Lady's Book. We recommend it to every tasteful reader.

Canadian Commerce. The number of vessels cleared from the ports of Montreal and Quebec to Great Britain, during the year 1840, was 1079—tonnage 399,449, giving employment to 15,227 men. The principal articles of export were pot and pearl ash, 24,107 prls.; flour, 295,761 bls.; wheat 141,931 minots, and lumber in great quantities.

New Music. A new song, called "I've torn thee from my Heart," written and composed by J. H. Hewitt, Esq., and published by Mr. George Willig, has been handed us. We have heard it performed by the author. Our own judgment pronounces it highly pleasing. We recommend it to the ladies.

A Query. Tacitus says, "In the early ages man lived a life of innocence and simplicity."—Upon this, a critic remarks: "When was this period of innocence? The first man who was born into the world killed the second. When did the times of simplicity begin?"

Fine Sport. N. K. Hynson and D. Townsman, Esqs., shot, at Miller's Island, on Saturday last, sixteen swans, four geese, and a number of fine ducks. One of them was taken alive, and may be seen at the dwelling of Mr. Hynson, North Frederick street. It is a beautiful bird.

Another. The alarm of fire yesterday morning, about three o'clock, proceeded from the burning of a smoke house at the corner of Hillen and East streets, belonging to G. Cassard & Sons.—There was a considerable quantity of bacon in the building, which was destroyed. The damages, we learn, were covered by insurance.

Among the passengers in the steamboat Alabama which arrived at Norfolk on the 23d, was Com. Morris, recently appointed to the command of the U. S. ship Delaware, now fitting for sea at that station.

Shipwreck. We learn by the Norfolk Beacon, that the schr. Emily, Capt. Barnard, from Nantucket for Norfolk, went ashore near Willoughtly's Point on Tuesday evening last, and bilged in about 30 minutes.

The Bank Bill passed a second reading in the House on Thursday. The Harrisburg Telegraph says it is now well understood that Gov. Porter has declared that he will not sign any bill relative to banks.

For the Baltimore Clipper.

FIFTH OF APRIL, 1841.

Messrs. Editors: As the above day, the 5th of April, has been set apart by the total abstinence men of this city to celebrate the anniversary of the Washington Temperance Society, I would suggest the propriety of all citizens, friendly to the cause of temperance, to close their shops, stores, and places of business generally, to give persons in their employment an opportunity of turning out in the great procession. To judge from the preparations that are making, it will be one of the most imposing sights that has occurred since the time of the entrance of Lafayette; as no person can object to it but those who are engaged in the traffic and those that are drinking it, I think it would be nothing more than just and proper for all employers to give their clerks, apprentices, journeymen and all that are in their employment, a chance to participate in the celebration of a cause, which cause is no more or less than the cause of liberty, virtue and religion.

Total Abstinence.

N. B. All papers friendly will please give this a passing notice.

From Florida. Extract of a private letter, dated Tampa Bay, Flo., March 7, 1841. * * * "The General's (Armistead's) operations are paralyzed by a want of funds. He has received notices of remittances, ($25,000 only,) but nothing has arrived, not even warrants or Treasury notes, which will have to be controverted into specie before being paid to the Indians. If 2,000 dollars would close the war this day, it could not be raised here in all the departments. Nothing prevents the shipment of the Indians now in, but a want of money to fulfil the promise made to them by the General, without which it would be in the highest degree unjust and impolitic to coerce them into emigration.

The news from this region of country is peculiarly strange. One day we receive intelligence which speaks positively of the war having come to an end. The next brings the account of bloodshed, murder, fights, &c.

$100,000 were appropriated by the last Congress to facilitate the negotiations of Gen. Armistead with the Indians. Why was not the whole sum been remitted? Every day brings fresh proof of the necessity of bringing matters to a close.

From the Western Frontier. A letter to the St. Louis Republican, from Fort Leavenworth, gives an account of a most cowardly and bloody massacre, committed by some Kanzas upon some Pawnees. The dastardly Kanzas, sixty-five in number, took advantage of the Pawnee warriors from their encampment, and massacred all but eleven of the women and children found in it.

More of the Boston Robbery. The Boston Transcript says:—"We understand that a hand cart, loaded with trunks, has been traced to the T. Wharf, and that an English vessel sailed about 12 o'clock on Tuesday night, for St. John, N. B., and there is some suspicion that these trunks might have contained the stolen property, and been shipped on board this vessel.

Poison. A very interesting little girl, the daughter of Mrs. E. Swearingen, died a few days since in Grand Gulf, from eating sugar plums prepared by a confectioner there. Dr. Wharton, who analysed the candy, found white lead to [illegible] that this unfortunate event may induce a greater degree of caution in parents generally.

Fire. The fire on Saturday morning, between three and four o'clock, was in a rear building attached to the dwelling of Charles F. Mayer, in Franklin street. Our firemen, with their accustomed alertness, were on the spot, and checked the progress of the flames before any very serious damage had been sustained.

An Explosion took place among the fireworks prepared for the pantomime of "Dame Trot," at the Tremont Theatre, Boston, on Monday last, by which the face of Mr. Jeffries was severely scorched, and his eyes rendered almost sightless.

Rumor. It is said that Dr. Lardner and Mrs. Heaviside will be married in the course of a week, and that there are circumstances which greatly mitigate the elopement of that lady from her husband with her lover.

Gudgeons. Four gentlemen went to Herring Run on Friday last, fished all day and caught one gudgeon! After they returned home, they had it cooked and made a supper on it. This is what may be called good luck.

Robberies. There seems to be a perfect mania for robbing jewelry establishments. The latest intelligence from New Orleans states that the jewelry store of Mr. Mayer was robbed of $7,000 worth, and that of Messrs. Taylor & Jacks of about $15,000 worth.

Early Vegetation. As genuine and well concocted a mint julap as one could desire to sip on a summer's day, says the Norfolk Herald, was "laid on our table" yesterday.

We are of opinion that it did not remain long on the table.

Ex-Recorder Morris has been duly and unanimously nominated as the next candidate for the Mayoralty, by the Van Buren party in New York.

Appropriate. A broker in New York has two sons—one named *Count* and the other *Discount*. He must call the third *Sharer*.

Reward. $2,000 have been offered for the detection of the persons who committed the late extensive robbery in Boston. Perhaps they may be along this way.

WHIGS TO THE RESCUE.

☞Of whom? Of one who seems to be forgotten. Humble in his station, yet vigilant and active in the performance of his duty. While the distribution of offices is going forward, is the maimed and suffering police officer, William Batchelor, to be utterly overlooked? Disabled in the execution of his duty, and now thrown out of the office in which he received injuries, fatal in fact, if he is not provided for, surely he has claims to consideration of no little moment. The writer of this brief article can point to no particular reward, as he is himself unacquainted with the variety of offices in gift, being entirely disinterested therein; but he can scarcely believe that the substantial claims of the humble and unassuming are to be entirely overwhelmed by the clamors of the multitude, perhaps less worthy and deserving. There shall be at least one voice raised against such a palpable want of GRATITUDE.

GREAT LUCK. By returns of the Maryland Lottery, class No. 20, drawn on the 22d, the Grand Prize of $20,000 was drawn to comb. 4, 38, 50, besides several other handsome prizes, were sold. Luck has crowned the enterprize of our customers as well as ourself, in a manner seldom if ever equalled. We have sold more prizes than even our most sanguine hopes had anticipated. Scarcely a day but we have had the satisfaction of tendering to some fortunate adventurer the welcome intelligence of his having drawn a handsome prize. Thus have we made glad the hearts of hundreds—thus have we been instrumental in opening the avenues of fortune to those whom fancy had taught us to believe that the star of their future destiny had set forever.

BILLIARD ESTABLISHMENT,

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No 94½, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious, and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cases; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champagne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

Dr. Wayland, of Providence, is gathering stores for his fertile mind. The Rev. Dr. Woods, of Brunswick, is examining all the literary institutions, and attending the public lectures. Professor Sparks is ransacking all the old revolutionary documents. Professor Brooks is devoting himself with great success to the science of Natural History. Mrs. Sigourney is attracting much attention, and intends to publish a complete edition of her works in London. Mr. Espy is also at London, and the "Institute" think well of his theory. They will present a report on his storm philosophy.

There is now among the archives of the District Court a greater curiosity than the bones of the Missourium, Death on the Pale Horse, or the elephant Columbus. It is a lawyer's bill, measuring ten feet seven inches long, and amounting to some $9,000 for some two and a half years' professional service. We always knew that lawyers were famous for spinning long yarns, but we were not before aware that they were such adepts in the Italian system of book-keeping.—*Pic.*

DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and ran in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston *next morning* to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 4 o'clock, A. M. whereas they uniformly arrive *before* dark—*if therefore* a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave *Norfolk every night* at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different. I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. *Persons having Slaves, which they wish to dispose of*, will do well to apply at this office before selling.

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical as to its safety or economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

P. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 25, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. *I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months.* I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, a light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

MORE PROOF THAT BOOZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. *Dear Sir*—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

Forgotten thee! Amidst the ceaseless tide
Of life unnumbered rushing o'er my soul;
Without one ray of cheering hope to guide,
When clouds of darkness o'er my spirit stole—
Still, still 'midst all no suff'ring has been mine,
From such keen pangs my bosom has been free,
As those inflicted by those words of thine,
Those cruel words of thine—"*forgotten me.*"

Forgotten thee! When ruddy morning beams,
At dewy evening's quiet peaceful reign;
Through every wakeful hour—in midnight dreams,
In fancy thou art with me once again:
I shed no tear—I never breathe a prayer,
But that the tear—the prayer is still for thee:
Oh! tell me then, how can my spirit bear
Those cruel words of thine—"*forgotten me.*"

Forgotten thee! In happy golden youth,
When first we met, when all seemed bright & fair;
One joyous eve I pledged to thee my truth,
And vowed none other o'er my heart should share.
I've kept the vow—my truth is still thine own,
As they are now still must they ever be;
Then oh! retract—those cruel words disown,
Those cruel words of thine—"*forgotten me.*"

WASHINGTON, March 29, 1841.

The love of the muses and of learned associations which are already characteristic of our happy country, methinks will not be without effect upon the literary world; and that ere long we shall vie with our parent country in the nursery of the arts and sciences. The appearance of some of the greatest men in the world before large assemblies, in the character of lecturers, has elicited the preceding remarks—I hope that their example may not be lost.

The "National Institution for the Promotion of Science" was lectured before, at the Unitarian Church in this city, on the 22d inst., by a gentleman of your city. The subject he descanted on, was "Society:" he traced this to its origin, and brought it up to its present pitch of refinement. —In this particular, I think society may not unaptly be compared to a rivulet, which, when at its formation was a very little stream, proceeding from the rugged hills and country around, but which gradually received power as it marched onwards, until it became a river, and then to more fully develope itself into the ocean. So with society: for at its origin it was feeble, but every age added more and more to its refinement, until it has reached the present exalted state.

The lecturer spoke of the fictitious lines drawn in society as it at present exists, between what are called *working* classes and professional, and said that *working* was not an epithet to be applied to any class in contradistinction to professional men; that our work was manual labor and the other's the work of the mind—that all were working classes. I could not pretend to even epitomise his discourse, as it would be tedious and wanting on my part. I will, however, mention that in speaking of the different degrees of influence swayed over the mechanical portion of the community, none exercised a greater power than the females, he said: and in doing this, he expatiated very beautifully on those virtues which adorn the female character, and in doing so, was awarded with suppressed laughter from the ladies that sat near me.

As offering encouragement to the lowly, he cited the case of a Worcester, Mass., blacksmith, who had, by devoting eight hours of the day to study, acquired the mastery of fifty languages.—And compared this humble son of Vulcan to one of the most celebrated linguists in Europe, the latter of whom had received encomium from a Byron: and showed that the former had overleaped him in the acquisition of languages.

The Hon. J. Q. Adams delivered a lecture before a crowded audience at Parson Laurie's Church, on Wednesday evening last, on the Christian Faith. The learned and justly panegyrized lecturer said, that he was aware of the unpopularity of this subject, as it would not be of literary cast enough to suit the minds of some, yet he could not doubt the appropriateness and beauty of such a topic. I can only relate one single fact set forth in this dissertation: it was the institution of a comparison between the Christian's faith and that of faith enjoyed in the virtue and integrity of our fellows, and thro' faith we rely upon our fellow man be forfeited: the Christian's faith in God never will "nor indeed can be." He said one of the most sublime instances of faith recorded in the annals of the world, was to be discovered in the conduct of Alexander the Great, with his physician Philip: who, being written to by his favorite Parmenio to beware of the dose that Philip was going to administer to him, (it was upon the occasion of Alexander's bathing in one of the rivers of Upper Asia,) placed such implicit faith in his physician, that, upon his presenting him with the draught he had prepared him, he gave him the letter, and drank off the cup. This he alluded to as being one of the most sublime instances of faith ever recorded.

The weather has been very fine for the last week.

Pleasing anticipations are enjoyed here as to the extra session of Congress, at least by our merchants and boarding house keepers.

Yours, &c., DOMESTICUS.

APPOINTMENTS BY THE PRESIDENT.

DEPARTMENT OF STATE, March 27, 1841.

To M. St. Clair Clarke, William S. Murphy, and Hudson M. Garland, Esqs.

Gentlemen: It is the desire of the President to be fully acquainted with the state of progress in which the public works in this city now are, and with the degree of skill, fidelity, and economy with which those works are carried on.

For this purpose, he has appointed you a commission of examination and inquiry, and he wishes you to direct your attention to the following points:

1. What is the number of persons employed on the public buildings now in progress in the city, exclusive of laborers? This is the more necessary as many of these persons hold offices not created by specific provisions of law.

2. What is the respective duty of each of these persons?

3. What prices are paid to them for their services; and whether, in any case, the compensation is unreasonably large?

4. Whether there has been, or is, any just ground of complaint against those persons, or any of them, either in regard to their own diligence and skill, or in regard to their treatment of laborers employed by them?

If you have any reason to suppose that any one has been guilty of misconduct, you will state the charge to him, and give him an opportunity to answer it; and will report no evidence of which the party shall not have had notice.

You will inquire into no man's political opinions or preferences; but, if it be alleged that any person, having the power of employing and dismissing laborers, has used that power, either in employing or dismissing, with any reference to the political opinions of those who may have been employed or dismissed, or for any political or party object whatever, or in any other way violated his duty for party or election purposes, you will inquire into the truth of such suggestion; and, if you find reason to think it well-founded, in any case, you will state the particular facts and circumstances on which your opinion is formed.

It is not intended that this commission shall be of long continuance, nor be attended with any considerable expense. You will use as much despatch, therefore, as the nature of the case may allow, and make report to this department. A reasonable sum will be allowed to you for your time and service out of the appropriate fund.

By the President's order:

D. WEBSTER;
Secretary of State.

In pursuance of instructions from the Secretary of the Treasury, the following Circular has been forwarded to all the disbursing officers and agents of the War, Navy, and Indian Departments, whose accounts are subject to the revision of the Second Comptroller.

CIRCULAR.

TREASURY DEPARTMENT.
Second Comptroller's Office,
March 22, 1841.

SIR: You are hereby required to render your account of disbursements for the current quarter as soon after its close as practicable, and in so doing you will present with and refer to in your account current two abstracts, one referring to vouchers for payments made for demands which accrued prior to the 4th inst., the other to those subsequent thereto, unless your disbursements since that day have not exceeded in amount the funds then on hand. Should that be the fact, your account may be rendered as heretofore.

You will, however, in all cases, report the amount of funds in your hands on the 4th inst.

Subsequent quarterly accounts are to be rendered as required above, should they embrace payments for demands which accrued prior to the 4th instant.

By direction of the Secretary of the Treasury.
ALBION K. PARRIS, Comptroller.

MARYLAND LEGISLATURE.

ANNAPOLIS, March 27, 1841.

HOUSE OF DELEGATES. When the House met yesterday afternoon at 4 o'clock, the Tax Bill was taken up for consideration and after having adopted the first section, the House adjourned.

To-day Mr. Edes presented the memorial of the Grand Jury of Kent County, praying the passage of an act making it a penitentiary offence for any body of men to conspire together to issue paper purporting to be money. Referred to the Committee on Grievances and Courts of Justice.

Mr. Legrand obtained leave to bring in a bill to change the name of Benedict Arnold of Baltimore to George W. Arnold. A bill was subsequently reported, passed and sent to the Senate.

On motion of Mr. Prestman, leave was granted the committee on corporations to bring in a bill supplementary to an act to incorporate the Patapsco Insurance Company.

On motion of Mr. Prestman, leave was granted the Committee on Grievances and Courts of Justice to bring in a bill relating to transferred judgments in the City Court of Baltimore.

Mr. Matthews obtained leave to bring in a bill supplementary to an act entitled an act to regulate the Inspection of Tobacco. Referred to Messrs. Matthews, Brent and Bowling.

Mr. Gallagher reported a bill entitled an act to incorporate the Mount Clair Total Abstinence Beneficial Society of Baltimore, which was read and ordered to lie on the table.

Mr. Graves moved to suspend the rule to take up the bill entitled an act to prohibit any corporation or individual or association of individuals from issuing any paper intended to circulate as money or currency, for the purpose of making it the order of the day for Tuesday next at ten o'clock. The House agreed to suspend the rules and the bill was made the order of the day for Tuesday next the 30th.

The bill reported by Mr. Holmes, to divorce Mary Ann Fowler of Baltimore from her husband Benj'a. Fowler, a vinculo matrimonii, was taken up, passed and sent to the Senate.

The House then took up for consideration the tax bill. They have advanced to the 25th section of the bill.

☞The following we have no doubt is a *hoax*, but as news is scarce we shall give it, and let the reader digest it at leisure. It is from the Buffalo Times of the 22d inst:

WAR!! WAR!!!

"*Toronto, Upper Canada,* March 19, 1841.

Mr. Editor: Sir—I wish to inform you that an express has just arrived in town from Mr. Fox, authorising the Militia of Canada to be called out immediately; their destination is to be for Niagara. The express says that Mr. Fox says that he shall make a demand for the release of Mr. McLeod when the British fleet arrives off New York—the fleet that was rumored to be bound for Halifax. In case of the refusal of the release of Mr. McLeod are to march over and release him at all hazards. The militia have been drilling for the last two months, as you well know, and are well prepared and waiting for orders from Mr. Fox. I have taken this opportunity of informing you of the true position of Her Majesty's Government. I am a friend of the United States although called out in Her Majesty's service. I send this by Mr. J———n, he having business in Boston, Erie county.

Mr. J———n, not wishing to be known, I have not written his whole name—it will not do for me to sign my name on account of my business. If you publish this send a paper and direct it to the Mansion House, Toronto. Yours," M. H. T.

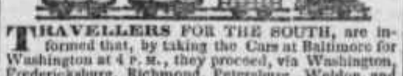
WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE



TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach Baltimore	2 P.M.
" Baltimore	4 P.M.	" Washington	6 P.M.
" Washington	5 A.M.	" Fredk'sburg	12 M.
" Fred'ksburg	12 M.	" Richmond	5 P.M.
" Richmond	5 P.M.	" Petersburg	7 P.M.
" Petersburg	7 P.M.	" Weldon	1 A.M.
" Weldon	1 A.M.	" Wilmington	1 P.M.
" Wilmington	1 P.M.	" Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout,* whilst it is evident that Foul Roads Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞*This is the only Daily Line to Richmond and Petersburg.*

☞Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 169 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety* or *economy,* would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clear, brilliant, and economical light, will find it really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ASTRAL LAMPS ALTERED.

F. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

BALTIMORE CLIPPER.

TUESDAY MORNING, March 30, 1841.

The measure of intellect. In conversation with a gentleman a few days ago, he objected to the penny papers, that the smallness of their size would prevent their having influence with the people. We replied to this, that the intellect of the writer—the justness and propriety of his views—were to be considered and not the size of the sheet; and that we could not admit that the mind of an editor was expanded by writing for a large paper, or contracted in editing a small one. He assented to what we said; but insisted that the public formed a different judgment, and that size had a great deal to do in giving a paper weight and influence. If he be right then ought size to predominate in the selection of public officers, and in all other matters requiring the exertion of intellect—for if a large paper must necessarily confer brains upon its conductor in public estimation, then the giant should be possessed of superior intellect. This distinction has not been recognized in other departments of literature, and we are not disposed to tolerate it when applied to the editorial corps. We know that some attorneys think it necessary to proportion the length of their speeches to the magnitude of the fees, and that some people judge of the goodness of a speech by its duration: but we apprehend that the brightest ornaments of the bar are not always to be found amongst the Fallstaffs of the profession. It appears to us to be perfectly ridiculous to attempt to measure intellect in this way. There was more excellent advice and sound sense in Poor Richard's Almanacs than is contained in some folio volumes; and yet by the rule attempted to be applied to newspapers, the bulky, but empty folio, should be preferred to the well-stored Almanac. We think our friend must be mistaken, and that the public estimate intellect, not by the place where it is exhibited, but by its intrinsic merit. Penny papers are extensively circulated, and the fair presumption is, that they are read—and if read, what is to prevent them from having a just influence? Their size? This would be to measure mind by the compass; which would be more absurd than phrenological measurement. By this rule the mammoth sheets in New York and Boston must monopolize a large share of mind, and should have a proportionate sway in all affairs. But as the largest head does not always carry the most brains, neither does the mammoth paper always exhibit the greatest intellect.

The Weather. Yesterday was a drizzling, dull day—just such weather as to give men an inclination to try how a rope would feel around their necks. The great Doctor Johnson, though horribly subject to what are called the blues, denied that the weather had any influence on the intellectual faculties, and maintained that he could write with the same facility at all seasons. He was certainly an extraordinary man, and a giant in literature and knowledge, as well as in person; but we doubt whether he possessed the control of his mind which he boasted. Indeed, we know that he was much afflicted with lowness of spirits, which were doubtless, in some instances, the effect of atmospheric action upon his system. If the theory be correct, that mental activity is enfeebled by physical debility, as changes in weather unquestionably affect the system, they must necessarily exert an influence, also, on the mind. Every man accustomed to writing, is familiar with the fact, that there are times when his intellect appears to have become inert, and incapable of exertion; and the weather yesterday was precisely such as to produce this state of feeling. We venture to say, that more editorial heads were scratched yesterday, than for the previous week. Even politicians, with all their zeal, must have felt loth to engage with their adversaries, so enervating was the moist atmosphere; and duellists, if on the ground, would scarcely have had the spirit to pull a trigger.—And yet the weather was excellent for bringing forth the fruits of the earth, which are of rather more importance than the inditing of paragraphs for a newspaper, either of the mammoth or penny order.

Temperance Cause. We are glad to hear that the Baltimore temperance missionaries are working miracles in New York. They are lecturing with great effect, and have succeeded in reclaiming numbers from intemperance. As auxiliary to the great temperance cause, there should be established anti-tobacco chewing societies, because the chewing of tobacco disposes the person using it to drink. We do not mean to be understood as intimating that every tobacco chewer is fond of liquor, as we know to the contrary; but we venture to say that there are few intemperate men who do not use tobacco. We have taken some pains to observe in this matter, and are convinced that, if the use of tobacco were discontinued, there would be comparatively few drunkards.

They have commenced forming temperance societies in New York; and reformation will probably progress as rapidly there as it has in Baltimore. May it be as wide spread as the cholera, and as enduring as time.

The Female Eye. A modern writer gives the following enumeration of the expressions of the female eye: The glare, the stare, the saucer, the glance of love, the flash of rage, the sparkling of hope, the languishing of softness, the squint of suspicion, the fire of jealousy, and the lustre of leisure.

Insanity. We understood Mr. Crowley, in his phrenological lecture on Friday evening, to say that insanity was usually preceded by physical disability or derangement of the system, from sickness or other cause; and, consequently, that corporeal exertion promotes health and preserves the mind. Aside from the science of phrenology, we think that experience will prove the correctness of the lecturer's position. But it is not our intention to examine the connection between mind and matter, as it is too abstruse a subject for newspaper discussion, and we do not pretend to be able to solve a mystery which has baffled the investigations of more learned heads. Without attempting to trace cause and effect, it should be sufficient for us to know that a vigorous condition of the body has a healthful influence upon the mind. It is not, it is true, always within our power to prevent the incursion of disease, but it is our duty to make the effort; but there is one kind of insanity entirely within our control—we mean that which results from intemperance.—How often do we hear it offered as an apology for crime, that it was committed in a state of intoxication; thus making one offence an apology for another. The opinion has generally prevailed, that the phrenzied drunkard is not responsible for his actions; and, if we mistake not, decisions in court have somewhat sanctioned the idea; but, from the following decision, it seems that such plea should not be admitted in justification:

Delirium Tremens no Excuse. In an action brought in the Common Pleas, N. Y., by James Butterly vs. Robert Darling, for an outrageous assault and battery by which the plaintiff was wounded and permanently injured, the defence set up was insanity; which, upon investigation, proved to be *delirium tremens*. Judge Inglis held that that species of insanity did not exonerate the trespasser, and the jury rendered a verdict for $500 damages.

McLeod. A letter from Lockport, (N. Y.) dated on the 23d instant, states, that McLeod was arraigned on the preceding day before the Circuit Judge, and pleaded not guilty. Leave was granted to his counsel to apply to the Supreme Court for rule to change the venue to another county. A commission was also granted to take testimony in Canada and elsewhere. It is supposed that the trial will be removed to Albany, and that Chief Justice Nelson will preside. The attorney general, it is thought, will prosecute in person. It is now evident that the trial cannot take place for probably a year—and as this postponement is claimed by the prisoner with the expectation that he will be enabled to prove his absence at the affair of the Caroline, it is right to grant it. We do not believe that any American desires his conviction, if innocent, and justice demands that he shall have all means afforded for his exculpation. We shall rejoice if he be acquitted; but we should regret the interference of the general government to rescue him from the power of the law—nor do we believe that the attempt will be made, whatever may be the disposition of Great Britain as to the matter.

Ward Meetings. The Van Buren party will hold ward meetings this evening, for the purpose of appointing five delegates from each ward, to meet in convention at the Republican Reading Rooms, on Thursday, the 1st of April, to nominate two candidates for Congress, and to organize the party, &c. Napoleon never commanded a better disciplined corps; and they deserve credit for their great unanimity of movement. If their opponents be not on the alert, they will be floored before they have properly squared themselves for fight. We shall keep an eye on both sides, and report progress as occasion may require. We would advise the candidates to publish their intended speeches in the Clipper instead of making them from the stump; so will much breath be saved, and farmers be permitted to attend to getting in their crops.

Disaster. We learn from Philadelphia that the schooner Spy, of New Hardy, from New Orleans for the port of Philadelphia, and now lying at Race-st. wharf, encountered a heavy gale of wind about the 20th inst., when she was almost wrecked, and much of her cargo lost overboard. The crew were forced to seek safety below, as their limbs were endangered by the violent rolling of the vessel and the casks. On the following day, she met the wreck of a ship off Cape Hatteras, around which were floating barrels of flour, bales of goods, pieces of the wreck, with evident marks of fire on them and the hull. The boat was lowered, it being calm at the time, and the crew succeeded in picking up thirty-five barrels of flour, which having the brand of Philadelphia inspection, led to the belief that the ship was from that port, but nothing positive has been ascertained in regard to this surmise.

Naval. The Rio correspondent of the Exchange, under date of the 4th Feb., says: In port U. S. ships Potomac, Capt. Storer, bearing the broad pennant of Com. Ridgely; Constitution, bearing the broad pennant of Com. Kearney; Boston, Capt. Long; Decatur, Capt. Ogden; Marion, Capt. Belt; and U. S. schr. Enterprize, Capt. Goldsborough. The U. S. ships Yorktown, Dall, and Relief, sailed for their separate destinations on the 5th inst.

☞We learn that the Secretary of State left the city of Washington on Sunday morning, for New York, in consequence of having heard of the dangerous illness of Mrs. Webster's father, Herman Le Roy, Esq., a gentleman of advanced age, and long known as an eminent merchant in that city.

Mr. Webster will, we understand, return to the seat of Government at the earliest moment in his power.

☞We learn that Mrs. Sarah Kunsman and Miss Eliza Christopher, who were recently imprisoned for shop-lifting, were released yesterday by Justice Schaeffer, upon giving security, in the sum of $500, to appear at the June term of court.

Clock Case. A case was brought before Squire Schaeffer yesterday, by Amazia Sherman vs. W. H. Ridgely, for the recovery of five metallic clocks, valued at $25.

It appeared on trial, that Jacob Sherman, a minor, had become indebted to Mr. Ridgely for dry goods to the amount of ten or twelve dollars for which Mr. Ridgely had obtained a judgment at some previous period, and had the plaintiff under execution. It further appeared that young Sherman, son of the plaintiff, had, during his father's absence at New York, deposited the clocks with Mr. Ridgely as security for his indebtedness.

Evidence was adduced by the father, which satisfied the justice that he had never authorized the son to dispose of clocks in any way excepting at the store, and that for cash; and further, that the son was a minor, and that the property had been extorted from him. Judgment for the value of the clocks, together with the costs, though by consent of plaintiff, defendant is to return the property, which will secure a release of judgment.

Mr. Ridgely also threatened young Sherman with a criminal prosecution.

Another case was brought before Squire Schaeffer yesterday for the recovery of 62½ cts. damages, being an estimated equivalent for the taking of a cart load of manure. The parties were John Graham vs. Samuel Benjamin. The notorious Mrs. Barry was a witness for defendant. Her testimony was not sufficient. Judgment was given in favor of plaintiff.

Supposed Steamboat Disaster. We learned yesterday by the Arkansas, says the Mobile Journal of the 18th inst., that the steamboat Wm. Robinson had met some serious disaster on her downward trip—the nature of which is not fully ascertained. It is stated by persons who were on board the Arkansas, that the Robinson was seen to run into the woods, being then ahead of their boat; and that after passing some ten or fifteen miles, the A. lay to for a few hours, during which time detached parts of a boat, believed to be the Robinson, floated past. The supposition is, that she must have broken up by running against trees, while under a full pressure of steam. She possessed, we believe, a double power, having two engines, and would on that account be likely to sustain more damage than a boat of ordinary power.

Power of Eloquence. A striking illustration occurred at Mr. Vandenhoff's last lecture in New York. Mr. V. was reciting a scene in Byron's "Cain," and picturing the frightful remorse of the murderer, when the dreadful truth of Abel's death flashed upon his mind, and in an agony of soul he summoned around him his father, mother, and wife, and with the thrilling exclamation—"Father! mother! Ada! Zillah! come hither!—*Death* is in the world!!" This passage was given with an energy of truth so fearful as to send a thrill of horror to the very soul: and one young man who had been gazing intently and kindling to a pitch of uncontrollable excitement, as the last clause—"Death is in the world!"—was uttered, fell senseless to the floor!

German Literary Appointment. The King of Prussia has recently appointed the celebrated Philosopher Schelling, to the chair of Transcendental Philosophy in Berlin—an appointment which will excite much interest among the literati of Germany. Professor Schelling was formerly attached to the University of Munich, from which post many of his writings have been issued. Hegel was the predecessor of Schelling, and a fiery disputant with the latter, their metaphysical opinions being entirely opposed.

Distressing Accident. John C. Frear, a hatter by trade, was burnt to death at Ellenville, Kingston County, N. York, whilst mixing a preparation for his business, of which alchohol was a component part; the bottle it appears fell from his hand on the stove and broke, setting fire to his clothes. He survived about an hour and a half, though parts of his body were literally black and crisped to a coal.

Another Excitement. A little girl named Rosanna McElroy, residing in New York, died a few days ago rather suddenly. The neighbors took it into their heads that some foul play had been practised, but nothing was elicited by the medical men called in, other than she died a natural death.

Fire and loss of life. The Elyria (Ohio) Advertiser states that the house of Dr. Greenwood, of Amherst, was consumed, and Marian Birins and Anna Cunningham, two young ladies who were boarding with him perished in the flames.

Numerous relatives. There is a child in Boston who has six grand-mothers, as follows: 1st. her mother's mother, aged 42; 2d, her mother's mother's mother, aged 73; 3d, her mother's mother's mother's mother, 96; 4th he father's mother, 48; 5th, her father's mother's mother, 75; 6th, her father's father's mother, 80.

Resignation. We are informed that Hugh W. Evans, Esq., resigned his office of President of the Union Bank of Maryland yesterday.—We have not heard the reasons which led to this resignation.

Still Another Robbery in Boston. The dry goods store of Messrs. Green & Wainright, No. 233 Washington street, was entered and robbed of property to the amount of $400.

Shameful. The mutilated remains of three bodies, which had evidently been dissected, were found in the cellar of an unfinished house, in New York, packed in champaigne baskets.

Brazilian Introduction. The warmest manner in which one Brazilian can introduce another to a family is: "This is my friend, *if he steal any thing, I am accountable for it.*"

A MEETING OF THE FRIENDS OF AMERICAN INDUSTRY.

☞The association for the encouragement of Domestic manufactures, will meet in the session room of the Third Presbyterian Church, in Eutaw street, on FRIDAY, the 2d April, at 7½ o'clock, at which time the committee will make their report.

Several distinguished gentlemen friendly to the cause of American manufactures will address the meeting. Those of our fellow citizens who feel disposed to sustain domestic industry in preference to foreign labor are respectfully invited to attend. The subject is one purely American, divested of all party views or individual interests, and with this avowal and disavowal, they present the cause as one eminently entitled to individual and social patronage. mh30-1t

WARD COMMITTEES.

☞The members of the Ward Committees who have charge of Memorials in relation to the Chesapeake and Ohio Canal, are requested to meet at Sutton's Military Hall, Gay street, THIS EVENING, the 30th inst. at 8 o'clock. It will be important to have all the Memorials to which signatures have been attached at this meeting. As important business will be transacted at this meeting, it is hoped that every member of the different committees will be in attendance mh30-1t

GRAND RALLY.

☞A Grand Rally of the "Washington Junior Temperance Society" will take plac at Monument Square on SUNDAY AFTERNOON, 4th April, at 3 o'clock. The meeting will be addressed by several distinguished friends of Temperance of the New York and other delegations. Youths between 12 and 21 years of age, wishing to join, and the public generally, are requested to attend. By order,

TO THE PUBLIC.—The price of HATS again lowered. TOWSON is now selling in Eutaw street, one door north of Lexington street, his superior Hats at the following low prices—fine short Nap Mole Skin Hats at $2 50, fine Brush Hats $2 50; Fur Hats from $1 50 upwards. It may be asked how such Hats can be sold (if as represented) at such very low prices; I answer in the first place, I manufacture very extensively, and am able to purchase materials by the quantity much lower than if I bought by the small; and secondly, I sell for cash, and do not have to charge those who pay a high price, to make up for those who do not pay, as the natural result of the credit system. I think my Hats the best as now offered ever sold in this market for the price. Persons will please call and look at my hats before purchasing elsewhere. Remember TOWSON, one door from Lexington street.

LECTURES ON PHRENOLOGY,
AT UNION HALL,
Corner of Market street and Tripolett's Alley.

MR. J. M. CROWLEY will give three Lectures on the above Science, to the Ladies and gentlemen of the city of Baltimore, at the above named place, commencing precisely at 7½ o'clock.

First Lecture THIS (Tuesday) EVENING, 30th inst.
Second Lecture on WEDNESDAY Evening, 31st.
Third Lecture on THURSDAY Evening, 1st April.

Subject of the Lectures, the fundamental principles of the Science, and the application of Phrenology in the examination of heads, the difference between the male and female head and character, and the benefits of the science in our social and business relations.

Mr. C. will present the subject in a plain, familiar, and practical manner, and consequently make it interesting and instructive to those who feel any disposition to become practically acquainted with this most important and useful science. He will demonstrate the positions with a great variety of different National Heads, Skulls, Busts, Casts and Drawings.

Also, at the close of each Lecture, he will examine the heads of several ladies and gentlemen, who shall be selected by the audience. He will occupy the same Room on TUESDAY, WEDNESDAY, & THURSDAY, through the day, to accommodate those who may wish examinations with charts.

☞Admittance to Lecture 25 cents—to be paid at the door. mh30 2t

NOTICE TO THE PUBLIC. In an advertisement in the Clipper and Sun of Friday and Saturday last, headed "dissolution of copartnership," it was stated that Joseph Krager alone was authorized to close the business of the late firm of J. & F. Krager. Such however is not the case. The copartnership was mutually dissolved, but the business of the late firm cannot be legally settled without consulting the undersigned. FRANCIS KRAGER.

N. B. My acknowledgments are respectfully tendered to the public for past favors, hoping that its liberality will be extended to me in future in my usual business of Brickla ing. I can be found at all times in Pierce st. 4 doors west of Pine st. Respectfully,

mh29 2t* [s*] FRANCIS KRAGER.

TO THE FRIENDS OF TEMPERANCE.

☞ We, the undersigned, have been appointed a Committee by the Washington Temperance Society of Baltimore, to make arrangements to celebrate the First Anniversary of said Society, to take place in Baltimore on MONDAY, the 5th April ensuing.

We expect on that day to give the death blow to Intemperance in the city of Baltimore, and we cordially invite all Temperance Societies and Temperance men throughout the United States, to participate with us on that occasion.

Then we say, come one, come all, and assist us to raise high the Banner of Temperance, and wipe the foul blot of Intemperance from our beloved country.

COME UP! COME UP!! COME UP!!!

☞ The CRYSTAL FOUNT Temperance Society have unanimously determined to join the Temperance Procession on the 5th of April proximo; therefore, those brethren who are friendly to the cause of Temperance, who love the "Order," and who desire to aid in the overthrow of Intemperance, let them NOW come up boldly, freely, and manly, at "Union Hall," EVERY TUESDAY EVENING, at 7 o'clock.

Addresses will be delivered.

"OUR ORDER."

Freed from reproach, still greater good we'll try
To do in future life, and lay our follies by;
Washed in the 'Crystal' stream, the Fount's pure rill,
Henceforth, the tongue of slander, be thou still.

GREAT LUCK. By returns of the Maryland Lottery, class No. 29, drawn on the 29th, the Grand Prize of $20,000 was drawn to comb. 4, 38, 59, besides several other handsome prizes, were sold. Luck has crowned the enterprize of our customers as well as ourself, in a manner seldom if ever equalled. We have sold more prizes than even our most sanguine hopes had anticipated. Scarcely a day but we have had the satisfaction of tendering to some fortunate adventurer the welcome intelligence of his having drawn a hand-some prize. Thus have we made glad the hearts of hundreds—thus have we been instrumental in opening the avenues of fortune to those whom fancy had taught us to believe that the star of their future prosperity had set forever.

Splendid Lotteries for the week:

On TO-DAY, Maryland State Lottery, class 29. Capitals $20,000, 10 of 1000, &c. Tickets $5.

TUESDAY, the Alexandria Lottery will be drawn Capital $7,000. Tickets $21—shares in proportion.

On WEDNESDAY, the Maryland State Lottery will be drawn in Baltimore. Capitals 1 of $20,000, &c. Tickets $5—shares in proportion.

THURSDAY, Alexandria Lottery will be drawn—capital $8,000, &c. Tickets only $2.00.

FRIDAY, 2d April, in Baltimore, Consolidated Lottery of Maryland, class 10, 66 Numbers and 10 Ballots. Capitals, $20,000, 3000, 10 of 2000, &c. Tickets $5.00, shares in proportion.

SATURDAY, 3d, Virginia State Lottery, class D, to be drawn at Alexandria, Va. Capitals of $50,000, 10,000, 20 prizes of 1000 &c.

BOARD OF TRADE.

The following members constitute the Committee on Arbitration for the month of *March*, 1841:

HUGH BIRCKHEAD,	JOHN BRADFORD,
M. S. NORMAN,	J. W. PATTERSON.
ENOCH PRATT,	

PROPOSED REGATHERING OF THE JEWS. We find the following extract of a letter from a gentleman of high standing in the literary and diplomatic circles of Berlin, to the New York Commercial Advertiser, dated Feb. 15th. The writer says:

"The allies, having obtained their end [in Syria] are somewhat at a loss how to dispose of their conquest. They are seriously thinking of setting up, or reviving, a Christian kingdom at Jerusalem—a project which seems to be received with favor at Vienna. But then what are they to do with the other Christian population of Syria? This is one of the questions which France has asked them.—They are now very anxious to draw her from the isolated position in which they have forced her; as they find, after all, that they cannot permanently and satisfactorily settle the East without her concurrence.

"To those who have an opportunity of reading the diplomatic papers, it is curious and amusing to see the game that is going on between those faithful, confiding, and loving allies, England and Russia, in attempting to entice France to favor their respective projects in the Levant. Under the pretext of preserving peace among the different members of the great Mohammedian family, they have put at immediate hazard the peace of Christendom; and now affect to be very much surprised that the French should think of fortifying their capital. Their real opinion is in favor of that project, as a means of giving France additional strength, not merely for defensive but for offensive war. Such is the opinion of the best military authorities here.

"We are here unanimously gay during the Carnival—weekly balls at court, and nearly every night parties. These are the severest of diplomatic duties.

TWENTY DAYS LATER FROM THE ARGENTINE REPUBLIC. By a slip from the New York Herald, we learn that the Arethusa, Captain Baxter, arrived last Saturday from Buenos Ayres.—Whence she sailed on the 23d of January, to which date we have received the "British Packet" and "La Gacetta Mercantil."

The latest intelligence from the interior was to the 5th of January. Lavalle and La Madrid were endeavoring to fall back upon the Provinces of the North, but were exposed to the greatest difficulties in the attempt, besides being daily abandoned by their followers. The Confederate army was in their pursuit, and had strong flying divisions in advance, which harrassed them to such a degree as to lead to the belief that the remaining force would be entirely dissolved before they were overtaken.

General Rosas has been made grand marshal of the Confederation, had his pay increased, and was compared to Cincinnatus, Cato, Aristides, Washington and Franklin.

There were 193 merchant vessels at Buenos Ayres on the 15th of January. Of these, 32 were American. No American man-of-war was there.

The schooner-of-war Enterprise sailed on the 13th for Montevideo.

DOG EAT DOG. Mr. Winchester, of the "New World," was conducted to the Police by Officer Welsh, charged by Mr Day, of the "Brother Jonathan," with having purloined, or caused to be purloined from his office, a Jonathan newspaper containing an article from a London magazine which the Brother Johnathan people had procured exclusively for their journal, at great expense.—The matter is not yet finally settled. Mr. W. was permitted to go at large on his own recognizance.

MESSRS. EDITORS:—I find it stated in several arithmetics, that "40 feet of *round* timber, or 50 feet of *hewn* timber make one ton or load." I am puzzled to understand it; and would be obliged if you or one of your arithmetical correspondents would inform me if the numbers are correct, and if so, the reason for such a statement. TYRO.

ARRIVAL OF THE BRITISH QUEEN. We learn by a gentlemen who arrived in the cars yesterday afternoon, that the British Queen was in sight and coming into New York on Sunday last at 2 o'clock P. M. The intelligence will be six or seven days later than that brought by the Caledonia. We shall give full particulars in our paper of to-morrow.

ICE. An English paper mentions that one of the American ships at Calcutta, recently landed 400 tons ice, which sold at the wholesale rate of one penny per pound, netting a profit, exclusive of port duties, of upwards of $18,000.

WONDERFUL EXEMPTION FROM FIRES. The Mayor of Salem, in his address to the City Council, last week, stated that the last fire which occurred in that city was in October, 1830.

☞Pride is a hard master. Dr. Franklin observed that it is as hard a beggar as want, and a great deal more saucy. Pope says it steps in where wit fails, and rules weak heads with strongest bias.

LAKE ERIE. The Dunkirk Beacon of March 17th, says, the ice between this and Buffalo was never in a sounder state, nor even so much as an air hole is to be seen.

CITY OF BALTIMORE.

ORDINANCE No. 18.

AN ORDINANCE for the division of the City of Baltimore into fourteen Wards.

Be it enacted and ordained by the Mayor and City Council of Baltimore, That from and after the passage of this Ordinance the City of Baltimore shall be divided into fourteen Wards, bounded and described as follows, that is to say:

The FIRST WARD to comprise all that part of the city contained within the following bounds—beginning on the centre lines of Market st. DAILY SOUTHERN MAIL,

Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Simon; GEORGIA, Captain Colley; and JEWESS, Captain Holmes, having undergone a thorough overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15 h of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good night's rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To Dr. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

MORE PROOF THAT B. OZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and shew more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

JAMES BOOZ.

☞The above Syrup may be had, wholesale and retail, at No. 9 FLEET STREET, between Market and Bond streets, Fell's Point—at CHARLES INGRAM'S, Pratt street, next door to the corner of South street—at No. 2 N. Howard-st.—and at James Jones, corner of High and Pratt streets. Price 37½ cents per bottle. mh16-tIA

BILLIARD ESTABLISHMENT,

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No 94½, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Chairs; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champagne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

EYES.

Oh, give me the blue ones!
The hazel and black
May be just as true ones,
I know not, alack!
But none shall persuade me
The favorite hue
In the heav'n that made me
Is other than blue!

I love them! I love them!
I've made up my mind—
The azure above them
Less pure do I find!
Less radiant its brightness,
Transparent its dew,
Than smiles wrapt in lightness,
Eyes moisten'd in blue.

Cast down in confusion,
Half fear, half delight,
With love's own suffusion
To brighten the bright.
Oh, blue eyes, and true eyes,
And blushes and blisses—
Begone sense—hail nonsense—
What this is—a kiss is! PERSONNE.

PERILOUS EXPLOIT. *A child carried off by an Eagle.* An infant, in the care of Charley Stewart, a boy ten years old, has been carried off by an eagle to his nest in the mountains. The distracted mother, with the boy and a feeble old man, follow it. Having reached the summit of the crag by a circuitous path, they could now descry the two eagles to which the nest belonged, soaring aloft to a great distance. They looked over the cliff as far as they could stretch with safety; but although old Peter was so well acquainted with the place where the nest was built as at once to fix on the very spot whence the descent ought to be made, the verge of the rock there projected itself so far over the ledge where the nest rested, as to render it quite invisible from above. They could only perceive the thick sea of pine foliage that rose up the slope below, and clustered closely against the base of the precipice. A few small stunted fir trees grew scattered upon the otherwise bare summit where they stood.—Old Peter sat himself behind one of these, and placed a leg on each side of it, so as to secure himself from all chance of being pulled over the precipice by any sudden jerk, whilst Charley's little fingers were actively employed in undoing the great bundle of hair line, and in tying one end of it round his body and under his arm-pits. The unhappy mother was now busily assisting the boy, and now moving restlessly about, in doubtful hesitation whether she should yet allow him to go down. When all was ready, Charley Stewart slipt the skian dhu into his hose, and went boldly, but cautiously over the edge of the cliff. He was no sooner fairly swung in air, than the hair rope stretched to a degree so alarming, that Bessy McDermot stood upon the giddy verge, gnawing her very fingers, from the horrible dread that possessed her, that she was to see it give way and divide. Peter sat astride against the root of the tree, carefully eyeing every inch of the line ere he allowed it to pass through his hands, and every now and then pausing, hesitating, shaking his head most ominously, as certain portions of it, here and there, appeared to him of doubtful strength.—Meanwhile, Charley felt himself gradually descending, and turning round at the end of the rope, by his own weight, his brave little heart beating, and his brain whirling, from the novelty and danger of his daring attempt—the screams of the young eagles sounded harshly in his ears, and growing louder and louder as he slowly neared them.

He reached the slanting surface of the ledge, and found the child between two eaglets. Being at once satisfied that it would be worse than hazardous to trust their hair line with the weight of the child, in addition to his own, he undid it from his body. Approaching the nest, he gently lifted the crying infant from between its two screeching and somewhat pugnacious companions. The moment he had done so, the little innocent became quiet, and instantly recognising him, she held out her hands, and smiled and chuckled to him, at once oblivious of all her miseries. Charles kissed his little favorite over and over again, and then he proceeded to tie the rope carefully around and across her, so as to guard against all possibility of its slipping. Having accomplished this, he shouted to Peter to pull away—kissed the little Rosa once more, and then committed her to the vacant air. Nothing could equal the anxiety he endured whilst he beheld her slowly rising upwards. And when he beheld the mother's hands appear over the edge of the rock, and snatch her from his sight, nothing could match the shout of delight which he gave. The maternal screams of joy which followed, and which came faintly down to his ears, were a full reward for all the terrors of his desperate enterprise. For that instant he forgot the perilous situation in which he then stood, and the risk he had yet to run ere he could hope to be extricated from it.—*Sir Thomas Dick Lauder's Tales of the Highlands.*

MARYLAND LEGISLATURE.

ANNAPOLIS, March 29, 1841.

HOUSE OF DELEGATES. Mr. Presstman presented the memorial of sundry Merchants, Factors, and Auctioneers, residing in the City of Baltimore, in relation to licenses and taxation of all goods, wares and merchandise, produce and property which they may sell as factors.

Mr. Presstman also presented the proceedings of a meeting of merchants of the city of Baltimore on the 9th of March, in relation to a tax on merchandise sold on commission; which were severally read and laid on the table.

Mr. Dorsey submitted an order that the Committee on Internal Improvements be directed forthwith to inquire of the President and Directors of the Baltimore and Ohio Rail Road Company, at what price per ton they will be willing to contract for the transportation of Coal from Cumberland in Allegany county to Dam No. 6, on the Chesapeake and Ohio Canal, after the Baltimore and Ohio Rail Road is finished to the town of Cumberland.

Mr. Tuck moved to amend said order by adding the following—"And also at what rate the said Company will contract to transport coal on the Rail Road from the Point of Rocks to Baltimore.

Mr. E. A. Lynch moved further to amend said amendment, by adding at the end thereof the following "and to inquire further into the sums heretofore expended, and the works already constructed between Dam No. six and Cumberland, and to ascertain whether a Rail Road from Washington City to Baltimore cannot transport Coal between those two Cities upon as favorable terms as it can be transported from Cumberland to Dam No. 6. And further, to inquire and report what amount of taxation and loss would accrue to the State of Maryland by the postponement of the completion of the line of transportation from Dam No. 6 to Cumberland until the main stem of the Rail Road shall have been completed to Cumberland, and the additional road connecting with the Canal at Dam No. 6 shall be constructed:

And further to inquire what would be the cost of a Rail road capable of transporting a quantity of coal equal to the capacity of the Chesapeake and Ohio Canal; and if the Railroad can transport coal as cheap as the Canal, to report to this House whether the present rate of charges on the Rail road cannot be reduced to the rates now charged upon the said Canal." The said order was then adopted as amended.

The House took up for consideration the Tax bill, and had advanced to the 32d section when I closed.

SENATE. A bill was reported and passed to alter the Constitution of the State, so far as it relates to election districts in the city of Baltimore, and repealing an act relating to election districts in said city.

The bill relating to the Banking Institutions of the State was passed yeas 11, nays 3.

In the Senate on Saturday, the following business was transacted:

The bill to incorporate the Marion Total Abstinence Society of Baltimore was passed.

Mr. Goldsborough presented a memorial of sundry citizens of Baltimore for a division of the wards of said city into election districts.

Mr. Potts reported a bill for the relief of sundry insolvent debtors.

"The steam packet ship Savannah, Captain Wade, arrived yesterday in 40 hours from Galveston, by which we receive dates from that city to the 14th, and from Houston to the 13th inst.

"In our files, we do not discover a single item of importance. The steamer Allegheny, which lately left this port for Galveston, was wrecked on that coast on the 7th inst., about 12 miles from Galveston.

"Two companies of volunteers were to rendezvous at Austin on the 16th inst., to go against the Camanches.

"Gen. Thomas J. Rusk, it is thought, will be a candidate for the Presidency, in opposition to Gen. Samuel Houston.

"A paper called the 'Houstonian,' has been started at Houston, edited by Joseph Baker.

"It was reported that the honorable George H. Flood, American Charge d'Affaires at Austin, was seriously indisposed at the latest accounts."

The Houston Morning Star, of the 16th, gives the following paragraph, which information the editor gets from Gen. M. Hunt, directly from the West:

"The trade at San Antonio is now principally derived from rather a new source; heretofore the Mexicans from Laredo and thereabouts, upon the lower part of the Rio Grande, have been the only traders to that city, but bands of federalists have for some months past obstructed by violence and robbery almost all communication between San Antonio and the lower country. Now, we learn, that Mexicans from Lampasos and other towns higher up the river come directly to San Antonio for merchandise. A large amount of this valuable trade has lately come in, and lots of hard dollars have been left by the traders. The idea of war appears to be given up, and the only apprehension entertained of danger is from the roving bands of disappointed federalists, who, enraged because the stipulated payment of their claims for services is delayed, have determined to take up for themselves the management of the matter and exact payment from every Mexican who is so unfortunate as to fall into their hands. The most intelligent of our enemies seemed to think that the friendly interference of Great Britain in our quarrel, would have the happy effect of soon establishing peace upon a firm basis—a consummation devoutly wished by them, as their interests, living as they do upon our border, would be vastly promoted by such an event."

PENNSYLVANIA BANK BILL. The following condensed view of the provisions of this bill is from the American of yesterday morning. Having passed both houses of the Legislature, it only awaits the signature of the Governor to become a law. It is considered doubtful whether he will approve it:

SECTION 1. Provides that the Banks of the Commonwealth shall be liable for the payment of their debts as individuals are now by law liable, and that the extraordinary penalties shall be repealed.

Sec. 2. Gives the Banks the privilege of issuing small notes to the amount of fifteen per cent on their capital stocks, for a period of five years.

Sec. 3. The total amount of debts and liabilities, exclusive of deposits, not to exceed double the amount of the capital stock.

Sect. 4. The stocks owned by the Banks, (except of this Commonwealth) not to exceed 10 per cent. of the amount of their capitals respectively; provided, that no investments already made shall be compelled to be reduced more rapidly than 12½ per cent. every ninety days.

Sect. 5. No President, Cashier, or other officer of a Bank to be permitted to loan its funds. Also, fixes a limit to the loans of directors, proportioned to the capitals of the Banks.

Sect. 6. No loan to be made to the cashiers, tellers, clerks, &c., of the banks respectively.

Sect. 7. Abolishes the proxy system of voting for officers.

Sect. 8. Persons to be eligible as directors to own amounts of stock proportioned to the capital of the banks respectively. No persons to be a director in more than one bank at the same time.

Sect. 9. Frauds by directors and officers provided against.

Sect. 10. No dividend allowed greater than seven per cent., and the excess to form a contingent fund, one half of which is to be paid into the treasury.

Sect. 12. Dividend of five per cent. allowed during a suspension.

Sect. 13. Returns of the condition of the banks provided for.

Sect. 14. Provides penalties in case said reports be not properly made.

Sect. 15. Makes it the duty of the secretary to forward a copy of the act to the banks for their acceptance, and the Governor to issue a proclamation upon receiving their answers.

Sect. 16. Repeals former acts inconsistent with this one.

Sect. 17. Authorizes the capital of the United States Bank, if the stockholders desire it, to be reduced to 14 millions, and the bank to be released from part of her bonus.

THE DIFFERENCE BETWEEN COURTSHIP AND MARRIAGE. "What made you get married if you don't like it?"

"Why, I was deluded into it—fairly deluded. I had nothing to do of evenings, so I went a courting. Now, courting's fun enough—I have not got a word to say agin courting. It's about as good a way of killing an evening as I know of. Wash your face, put on a clean dickey, and go and talk as sweet as sugey or 'lasses candy for an hour or two—to say nothing of a few kisses behind the door, as your sweetheart goes to the stoop with you.

"When I was a single man, the world wagged on well enough. It was just like an omnibus. I was a passenger, paid my levy, and hadn't nothing more to do with it but sit down, and not care a button for any thing. Suppose the omnibus got upset—well, I walks off and leaves the man to pick up the pieces. But then I must take a wife and behang to me. It's all very well for a while, but afterwards it's plaguy like owning an upset omnibus."—*Charcoal Sketches.*

SANTA ANNA A COUNTERFEITER. The Houstonian says that one of the first acts of Santa Anna, which served to render him conspicuous, was a forgery committed by him while a lieutenant under General Arredondo, in San Antonio, during the Mexican revolution. The instrument forged was a note against the general for a considerable amount; and so well was it executed, that Arredondo was not able at the time to detect the fraud, but paid the amount. Circumstances, however, afterwards revealed the facts, but Santa Anna being a favorite, escaped the punishment due his crime.

☞ The supposed wreck of the steamboat Wm. Robinson, which we mentioned yesterday upon the authority of the Mobile Journal, turns out to be not so bad as anticipated. The boat became entangled among floating timber, but was extricated without sustaining any very serious injury.—This information is received from the Journal of the following day.

A REVIVAL. The Presbyterians and Methodists of Chicago, Ill., have of late been experiencing a great revival of religion under the ministry of the Rev. Mr. Gallaher, an itinerant revivalist.

POSTPONED. The bill before the Legislature of Michigan to loan $300,000 of State stock to the bank of Michigan, and to authorise the bank to suspend specie payments until 60 days after the banks of Ohio, Indiana and Illinois resume, has been indefinitely postponed in the house by a vote of 27 to 22.

THE PENNSYLVANIA CANAL AND RAILWAY. We learn from the Columbia Spy that the former is open for navigation the whole distance to Hollidaysburg, save one interruption—the Aqueduct at or about Huntingdon, but this it is presumed will be completed in a day or two. The Eastern division under the superintendence of that indefatigable officer, J. B. Lyons, Esq. has been ready for navigation for the last ten days. The Railway is in better state of repair than is usually expected at this season.

The same paper also states that the Tide Water Canal was opened for navigation yesterday.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and *one day* in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M. reach	Baltimore	2 P.M.
" Baltimore	4 P.M. "	Washington	6 P.M.
" Washington	5 A.M. "	Fredk'sburg	12 M.
" Fred'ksburg	12 M. "	Richmond	5 P.M.
" Richmond	5 P.M. "	Petersburg	7 P.M.
" Petersburg	7 P.M. "	Weldon	1 A.M.
" Weldon	1 A.M. "	Wilmington	1 P.M.
" Wilmington	1 P.M. "	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, is *sure of a connection throughout*, whilst it is evident that Foos! HORRID WEATHER!! and STORMS!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

THE MARYLAND ARCADE
Against the WORLD for CHEAP HATS!

THE Subscriber takes this method of informing his friends and the public generally, that he has now on hand a large and general assortment of HATS of his own make, which he is determined to sell low for cash. His prices are uncommonly low for the quality of the Hat: Splendid Russia Hats at $3.25; fine Short Nap Silk Hats, made on Russia bodies, warranted water-proof, for only $2.50; Fur Hats, from 1.50 to $3 00; Clipt Nutre Hats $4; Clipt Beaver Hats 4.50; White Russia Hats, at from 2.50 to $3.50. He would invite the public to call and examine his Hats, for he is confident there is no Hats in the city to compare to his at the above prices. All Hats purchased of me will be Ironed over and put in shape free of charge.

TO THE PUBLIC.—The price of HATS again lowered TOWSON is now selling in Eutaw street, one door north of Lexington street, his superior Hats at the following low prices—fine short Nap Mole Skin Hats at $2 50, fine Brush Hats $2 50; Fur Hats from $1.50 upwards. It may be asked how such Hats can be sold (if as represented) at such very low prices; I answer in the first place, I manufacture very extensively, and am able to purchase materials by the quantity much lower than if I bought by the small; and secondly, I sell for cash, and do not have to charge those who pay a high price, to make us for those who do not pay, as the natural result of the credit system. I think my Hats the best as now offered ever sold in this market for the price. Persons will please call and look at my hats before purchasing elsewhere. Remember TOWSON, one door from Lexington street.

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety* or *economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it ; really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

GREAT LUCK. By returns of the Maryland Lottery, class No. 20, drawn on the 22d, the Grand Prize of $20,000 was drawn to comb. 4, 38, 56, besides several other handsome prizes, were sold. Luck has crowned the enterprize of our customers as well as *ourself*, in a manner seldom if ever equalled. We have sold more prizes than even our most sanguine hopes had anticipated. Scarcely a day but we have had the satisfaction of tendering to some fortunate adventurer the welcome intelligence of his having drawn a handsome prize. Thus have we made glad the hearts of hundreds—thus have we been instrumental in opening the avenues of fortune to those whom fancy had taught us to believe that the *star* of their future prosperity had set forever.

BALTIMORE CLIPPER.

WEDNESDAY MORNING, March 31 1841.

The Banks. We felt confident that, in the refusal of the banks to receive the rail road notes on deposite and in payment, there was an ulterior object to be attained: and that they were influenced by other motives than an apprehension of the goodness of the notes or the inconvenience which would arise from their reception. The conduct of these institutions is now explained—they want the privilege of issuing small notes of their own, and the Senate of Maryland has acceded to their request by passing a bill releasing them from the penalties of suspension, and authorizing them to issue notes below the denomination of $5. Should the House of Delegates prove equally compliant, the state will be flooded with bank shinplasters, and the rail road notes will be driven out of circulation, and the taxes of the citizens of Baltimore be heavily increased to meet the interest upon the stock which will thus be created. The interests of the few will thus be made to triumph over the welfare of the many. This condition of things will prove conclusively that the banking institutions of the state have the mastery of the people, and can dictate the laws to be passed. If the small notes to be issued by the banks were made redeemable in specie on demand, there would be some justice in their issue; but it is a shameful mockery for the Legislature to pretend to furnish a small currency by sending forth irredeemable bank notes, by which a small portion of the community alone can be benefited, whilst other notes are thereby expelled which are of advantage to the whole people. But the banks must be gratified: they possess the power and will not fail to exercise it, though the people be ground into the dust by the operation. They can not only violate their charters with impunity and be released from all penalties for such violation, but be rewarded by additional grants for their misconduct. This state of things cannot last—a change must take place, when banks will be compelled to move in a subordinate sphere. We justified the recent suspension, because we did not believe that the banks could withstand the shock caused by the suspension in Philadelphia. But we did not, nor did the people, suppose that the suspension was to be permanent. We believed that the banks would act with the prudence of individuals who are compelled to suspend payment; collect in their debts and prepare to recommence on a more solid foundation. But, instead of adopting this judicious and safe course, they wish to expand their circulation by the issue of small notes, and thus increase the injury they have inflicted; and the Senate of Maryland, a body of men chosen as the conservators of the rights and interests of the people, yields to their suggestion, and assents to their wishes. We are the friends of a mixed currency and of what is termed the credit system—but if the question be between a currency exclusively of irredeemable paper or of specie, we go in favor of the latter. We are opposed to all humbugs, and we consider the existing banking system of Maryland as among the greatest. As banks multiply, money decreases; and the Legislature, instead of authorizing every two-penny institution to issue more notes, would do a great public service by compelling two-thirds of them to wind up their concerns. We are confident that four banks in this city, with liberal capitals, would be amply sufficient for the wants of the community; and would be able to resume specie payments. Indeed, it is our impression that, with so limited a number, there would have been no suspension, because they would have had the entire confidence of the community. It was the weak banks which dragged the stronger into the measure of suspension, and they now prevent resumption.

The extra session of the legislature was called for a specific purpose, and the subject of banks might, with great propriety, have been postponed to the annual session, when the people will have the opportunity of electing delegates in reference to the matter.

Morals. We live in the age of lyceums, lectures, and literature; and, consequently, should improve in manners, morals, and modesty; but, instead of that a love of novelty, notions, and nonsense prevails. New doctrines distract and divide; and nothing is so absurd as not to be countenanced, caressed, and concurred in.

In some of the Northern States, white females insist upon the privilege of being united to colored gentlemen, and philanthropy is made the plea for bestiality. In New York, atheistical lectures are listened to with delight; and in Pennsylvania the legislature is memorialized to abolish the laws against blasphemy and Sabbath-breaking.—Verily, if the schoolmaster has been abroad, these folk appear to have made but little improvement. One would suppose it to be almost impossible, that, with the facility of receiving correct instruction, which is afforded by cheap publications, literary institutions, the gratuitous distribution of the Scriptures, and the active exertions of the various tract societies, there should still be persons so lost to a sense of propriety, or a proper feeling of responsibility, as to be guilty of any of the above-enumerated offences against morality and decency. But man is a strange animal—forever dissatisfied, restless, and ambitious; he voluntarily exchanges the bed of roses for one of thorns, and exclaims against the Deity for his sufferings, or denies his existence. Such is his folly—such his inconsistency.

The Object. The object of all labor is to obtain rest. We labor throughout the day that we may rest at night—we labor in youth and manhood, that we may rest in old age—and we labor during life, that we may obtain rest hereafter. Man must always have a motive beyond present gratification. He walks through life lured forward by bright anticipations; and when he arrives at that stage of existence when transitory things lose their attraction, he casts his vision into the mysterious future, and hopes for rest and happiness in the life to come. The "tender leaves of hope" always give the promise of blossoms; and his path is scarcely ever so rugged that he does not see flowers in the perspective. Well has the poet expressed our condition:

"Man never is, but always to be, blest."

From infancy to old age is but a span; and yet in that brief space what changes and vicissitudes he encounters. Like a bladder on the water he is buoyed along, now striking against the rock, and then mounting the summit of the wave, until at last thrown on the shore beyond the further reach of the troubled waters. If in the transitions of life and the mutations of fortune, he preserve his rectitude, he can approach the termination of his journey with confident hope of final rest. What folly then, to hazard such sweet consolation for momentary gratification.

When we observe the tricks and chicanery, not to mention the grosser crimes which are daily practised, to gain a little temporary advantage—the pride with which some appear to spurn the earth upon which they tread—the levity and folly in which others indulge—and witness the wanton destruction of human intellect by the beastly inebriate—we marvel that men should so misapply the talent which has been given to them, by acting as if they had a lease of their lives, and feared no responsibility beyond that of human law. And yet all look forward to the day of rest. The crime of to-day is to be repented of to-morrow; and thus procrastination puts off until "to-morrow, and to-morrow, and to-morrow;" promising and deferring, until old age surprises us in our unrepented course—and then, we cast "a longing, lingering look behind," and turn to make preparation for our eternal rest. If we would expect to attain it, we must "be just and fear not;" and "let all the ends we aim at, be our God's our country's and truth's."

Disgraceful Conduct in Church. On Sunday evening, says a Philadelphia paper, a scene of a most disgraceful and outrageous character took place in the Methodist church, in Catharine street, above Sixth, in which several young men figured largely in the character of blackguards. They commenced the outrage by calling out in a loud tone to the preacher, with interrogatories of an idle and unbecoming kind, and continued their atrocities until a general melee took place, and the worship of the evening entirely suspended. Two of the gang were yesterday taken before Alderman Campbell, and committed to jail in default of giving bail in the sum of $500. It is to be regretted that the names of these two "gallows birds" could not be ascertained; the publication of them would do good to themselves as well as restrain others.

Mr. John M. Fitzpatrick's Benefit. To-night has been appointed by the committee for the benefit of Mr. Fitzpatrick, at the Front-st. Theatre. The citizens of Baltimore are perfectly aware that Mr. Fitzpatrick has been peculiarly unfortunate in having met with very severe losses by fire. Recently his property and his all were lost by that devouring element—the hard hand of fate has been against him. Now his claims are laid before a philanthropic public. Nothing can call louder for assistance. Justice, sympathy and every thing connected with nobleness and generosity, say lend the helping hand.

The entertainments for the evening will be of an interesting character. The first inducement though is paramount to all others. Let us see Front street crowded to-night.

A Terrible Murder. A man named Howard, near Prarie du Chien, Canada, entered on the 17th Feb. the house of a Mrs. Curtis, and after taking some coals from the fire, and placing them under the gridiron, requested Mrs. Curtis to take five minutes time in preparing herself to see her heart jumping and roasting, and then sat down to sharpening a large knife. Mrs. C. and her six children fled to a Mrs. Wansley's. Howard pursued. A contest between him and Mr. W. ensued, in which H. stabbed W. with a large Indian knife, which entered at the back, and came out of the abdomen, the blade breaking in his body. He bled to death directly, while the murderer escaped.

A Smash. Yesterday about 12 o'clock, while a cartman, colored man, was driving up Baltimore street, with a load of scaffolding poles, which projected some twenty or thirty feet from the rear of the cart, when at the corner of Charles street, the horse became stubborn, turned short round, causing the ends of the poles to come in contact with the elegant bow window of Messrs. Canfield & Brother's store. One general smash was made of the whole window.—It was in reality "stirred up with a long pole." The damage sustained, we learn, amounted to between thirty and forty dollars.

The Bank Bill. We have advice, says the Philadelphia Chronicle, from Harrisburg, based on good authority, by which we learn that Governor Porter will not take any part in the Bank Bill, which passed both houses of the Legislature on Saturday last. Should the Governor positively act in this manner, at the expiration of ten days—the Legislature remaining in session—the Bill will become a law.

The impression among the friends of the Governor here, is, that he will either veto the bill, or return it to the Legislature, recommending certain alterations.

An Ex-President of a Bank in trouble.—Alonzo F. Weed, ex-president of the Millington Bank of Maryland, a concern that defrauded the people out of their money, has been arrested in New York on a charge of having embezzled funds of that institution to the amount of $10,000 and upwards. The two Weeds were recently arrested in New Orleans on the same charge, but were released before a requisition from the Governor reached that city.

Any thing for a home. One of the members of the New York Police, in pursuit of a runaway, discovered three boys, between the ages of 12 and 14, in a hog-pen, which it appeared they had adopted as their residence. They all stated that they were destitute of home or education, having never been to school. They had often before slept in the hog-pen, and thought it quite hard that they should have been disturbed in their rest. They were adjudged vagrants and sent to the House of Refuge.

Question of Inhabitancy. The Justices of the Supreme Court of Massachusetts have declared to the Legislature in answer to an application thereof, that persons residing on lands ceded to the United States for navy yards, forts, arsenals, &c., are liable to be taxed in the towns wherein such lands lie; but are not entitled to support under the poor laws, to the exercise of the elective franchise, nor to the benefits of the common schools.

A Mail Robbed. A letter from New Orleans under date of the 13th says,—"The letter bag of the Covington mail, containing all the letters from Nashville and the intermediate places to this city, was abstracted from the front of the Post Office where it had been thrown on Thursday night—(the carrier finding it impossible to effect an entrance into the post office) ripped open, and robbed of its contents. No trace of the robber has yet been discovered.

Dreadful Calamity. Two young men, sons of Mr. Geo. Geer, were burnt to death in North Stonington on Friday night. They were sent out at about 10 o'clock at night to watch a coal pit, and were expected to remain all night, but not returning in the morning at the usual time, a small brother was despatched to the coal pit for them. In a short time he returned with the melancholy intelligence that they were burnt to death. Their ages were 19 and 13.

Fire. The fire yesterday morning proceeded from the burning of a large wooden building on Market Alley at the western end of the Lexington market house. It is stated that a quantity of fish, remaining unsold on Saturday night last, and which had become spoiled, were thrown into this building, the effluvia from which, it would seem, served as an inducement for the incendiary to set it on fire.

Attempted Suicide. A young female named Margaret Rogiet, says the Phila. Chronicle of the 30th, attempted to destroy herself yesterday by cutting her throat with a case-knife. She lived with a family by the name of Johnson, who reside in Fifth street above Tammany, and who are her relations. The rash attempt upon herself is attributed to domestic trouble. She was still alive last evening, and hopes were entertained of her recovery.

Bentley's Miscellany. The February number has been received from Mr. N. Hickman. It contains the continuation of Guy Fawkes and Stanley Thorn, besides a variety of other articles, among which are some of very inferior merit, some good, and others passable. "A Tough Yarn;" "Septimus Jeffs;" "The Three Ravens;" and the "Pop Visit," could have been omitted with advantage.

A Quaker's Letter. Friend John, I desire thee to be so kind as to go to one of these sinful men in the flesh, called attorneys, and let him take out an instrument with a seal thereunto, by means whereof he may seize the outward tabernacle of George Green, and bring him before the lamb skin men at Westminster, and teach him to do as he would be done by.

Slander—*the Press and the City Watch.* F. J. Grund, editor and publisher of the "Daily Standard," Philadelphia, has instituted a prosecution against Robert Miller, of the City Watch, for slander. The affidavit filed by the plaintiff, charges the defendant with having asserted to a third person, that he (the plaintiff) was a thief, and that he (the defendant) could prove it.

The British Queen. The report by the passengers who left New York on Sunday afternoon, relative to the British Queen having been telegraphed, was without foundation. She has now been out twenty days, and nothing has been heard from her. Great anxiety is felt for her arrival in New York.

Still in Prison. Madame Restell is still in prison in New York; persons disposed to enter bail being deterred by some of the newspapers threatening to publish their names.

New President. We learn that John M. Gordon, Esq., has been elected President of the Union Bank of Maryland, in place of H. W. Evans, resigned. We live to learn.

☞ There are fourteen Catholic Bishops in the United States, and 501 Priests. The first Catholic Bishop in the United States, John Carroll, of Baltimore, was consecrated in 1790.

The Madisonian of yesterday morning says: We are happy to learn that the President, after suffering a slight indisposition on Saturday and Sunday, was in better health on Monday.

☞ The Annual Conference of the Methodist Episcopal Church, will commence its session in Philadelphia on Wednesday next, the 7th inst.

☞ Various reports have been put in circulation relative to the Postmaster at Columbia, Pa. They are, however, said to be unfounded.

TO THE PUBLIC.

☞ In the report of the proceedings of the City Court, which appeared in the Sun of March the 29th, it is there made to appear that I have been the cause, and that too, maliciously, in getting up a prosecution against John Zell and others, constables, for malfeasence in office; or in other words, for bribery in receiving fifty dollars from an individual arrested by me, but subsequently received into their custody, as the price of his release.—Now for the purpose of coming to a right understanding in relation to this matter, it is necessary that all the facts should be gone into; and so far as I am concerned, shall state nothing but what is strictly true and ready to make oath to whenever called in question.

And here let me say in the outset, that I should not have even noticed this matter for one moment, did I not see an apparent disposition displayed in the report of the case, intending evidently to direct the public eye towards me, as having gotten up a malicious prosecution, when the attention of that paper should have been so directed as to ferret out by the most strict inquiry, the facts in the case, so far at least, as regards the receipt of the ten dollars by Bowersox from Zell at that particular time. That there was ten dollars received can any body doubt? and that their memory should be so treacherous as for one of the parties not to recollect what it was paid for, and the other not to known what he received it for, is two preposterous and the idea cannot be entertained for one moment—*they do know;* and for the purpose of bearing me out, I shall state nothing but facts, let the consequences fall on whom it may.

On the 4th of May last at the meeting of the Whig Convention, I was appointed the chief officer on the ground by that body. My attention was called by an outcry proceeding from a number of persons that an individual had been caught in the act of depriving some gentleman of his pocket book. I immediately proceeded to make the arrest, and after having succeeded in doing so, directed two officers to lodge the prisoner in the Fell's Point watch house, to leave him there until the convention adjourned and then convey him to the City Police office, where I intended to have him legally examined by the proper officer.—Finding, however, that he was not taken to the place I directed, I very naturally enquired what disposition was made of the prisoner. I was told by one of the parties, I think Mr. Barnard, that he was discharged for want of evidence. Things went on so for some time, when I was informed by an individual, and I here take occasion to say upon whom I could not rely, that the prisoner was complaining of having his money extorted from him as the price of his release. I said nothing, for the reasons just stated, but to my surprise, some two or three months after, Levi *Bowersox* came to me voluntarily, and without the least intimation on my part that I wished to elicit any thing from him in relation to the affair, and told me the following as matters of fact.

That he and another officer had taken the prisoner to the office kept by Cook, Zell, and Co.; that, when they arrived there, a proposition was made, that he should be taken into the back room of said office, and that he, Bowersox, was entirely excluded; that he never saw or heard any thing of the prisoner, until he received $10 from Zell as his part of his release. Now, that there was money divided, can any one doubt for one moment, if Bowersox is to be believed on his oath? He has sworn before the Court, that he did receive $10. His veracity has never been called into question by Zell or any body else; consequently, they are, for the purpose of explaining this part of the case, bound to tell the public what these $10 were paid for.

Let us go a little further into this matter, and see whether Mr. Zell has used all his exertions in explaining this dark transaction. It is a principle, I believe, not to be doubted, that there is no officer who has the power to discharge an individual charged with the commission of crime, except he be a judicial one; that being the case, would it not have been a very easy matter for Zell to have summoned the Justice before their Honors, and there to testify as to the legal examination and release of this prisoner; that he was discharged in consequence of the absence of any evidence tending to his guilt; for, if he was discharged without a hearing, the proceeding was wrong; if he had a hearing, they are bound to show what the nature of that hearing was. NO: they would have the whole matter covered up, by leading the public to believe that the prosecution was the result of a malicious feeling upon my part.

Now, Mr. Bowersox, I shall address myself more particularly to you; and, for the sake of truth, let me ask you a few questions. Did you, or did you not, complain, in the presence of Squire John Wright, of your not getting a fair dividend in that affair? Did you, or did you not, say, in his hearing, that $50 were gotten from behind a crevice in the Fell's Point Watch House, where the prisoner had hidden it—as also that they got 100 instead of $50? And lastly, did you, or did you not, tell the Grand Jury the same thing in substance? DENY it if you can. You cannot—you dare not.

Mr. Editor, I did not intend, when I sat down to write this article, to make it so lengthy, or to do any thing more than merely to show that this prosecution was not the result of a malicious feeling upon my part; but, the facts of the case having been so differently colored, as to prevent the public from coming to the proper understanding about the matter, has induced me to give them as actually represented to me.

And, in conclusion, suffer me to say that this prosecution was not gotten up by me, nor did I voluntarily go before the Grand Jury, nor did I know what I was summoned for until I got before them; that I told their honors at the time, the relations which had existed for a long time, and which then existed, were of so antagonistical a nature, that I did not wish any importance attached to any thing that I should say; that all my information was received from a source at first, upon which I could not rely, but subsequently from Bowersox; that he could, I supposed, give them facts.

And I now appeal to that body for the truth of the above statement, and whether it was not upon Bowersox' testimony that the indictment was found. mh31-1t M. JEFFERS.

The line will be formed at ¾ o'clock, in Baltimore st. with the right resting on Paca street, and extending east; the procession will move at 9 o'clock precisely.

Societies & Delegations from the different States.

Rev. Clergy, Judges and Members of the Bar, Medical Faculty, officers of the Army and Navy, Members of Congress and State Legislature, will meet in Monument Square, at 7½ o'clock, when they will be escorted into the line, by one of the Aids of the Chief Marshal.

The different Societies will meet at their respective places of meeting, at 7 o'clock, preparatory to forming the line of procession.

On the firing of the six guns from Federal Hill, at 8 o'clock, in honor of the six original members of the Washington Temperance Society, the different Societies will move to their respective places in line.

The Society Marshals will form their respective Societies right abreast, in which order they will march them to the ground selected for the formation of the procession.

The Committee of Arrangements appointed by the Washington Temperance Society, have selected Mount Vernon Place, as best adapted for the ceremonies of the day; suitable arrangements will be there made to receive the procession.

The procession will march for Mount Vernon Place at 9 o'clock precisely, by the following route: Countermarch from the right—down Baltimore st. to Caroline, down Caroline to Bank, down Bank, to Bond, down Bond to Thames, down Thames to Market, up Market to Pratt, up Pratt to High, up High to Gay, up Gay to Ensor, up Ensor to Forrest, up Forrest to Monument, down Monument to North, up North to Madison, up Madison to Charles, down Charles to Mount Vernon Place, where the procession will be halted and formed in column of Society, in front of and faced to the Orator's Stand, when those in the Barouches, the Rev. Clergy, Presidents and Vice Presidents of the different Societies and Committee of Arrangements, will take their seats on the stand.

The ceremonies of the day will commence by an Ode, from the Band, after which an opening Prayer, by the Rev. Mr. Monnis, then an Ode, then Oration, then a National Air, then an Ode; the ceremonies will then be closed by a Prayer, by the Rev. Mr. Webster.

The procession will then be formed and march down Park street to Franklin, up Franklin to Green, down Green to Baltimore, where the respective Marshals will take charge of their Societies.

The Washington and the Societies from the eastern part of the city, will continue down Green street to Pratt, down Pratt to Hanover, where the Washington Society will be dismissed.

The Marshals of the different Societies are charged with carrying out the several orders herein contained; their assistants will take station on the left flank of the procession, along which they will pass often as may be necessary; they will confer with the Chief Marshal and from him receive such further orders as may be required. JNO. F. HOSS, Chief Marshal

BALTIMORE CLIPPER.

BALTIMORE MARKET,
March 30, 1841.

Flour. There has been some improvement in this article since our last quotations. Sales of Howard-st. have been made to some extent at $4.50. The market to-day was firm at the above quotation. Holders were not anxious to sell even at that. We quote the wagon price at $4.25.—City Mills is held at $4.62½ for good quality.

Grain. We have been informed of sales of Maryland white wheat at 95a100 cts., and reds at 87a95 cents. We quote Maryland Rye at 50 cts. Corn has advanced a little. We quote Md. white at 43a45 cts., and yellow do. 45a46 cts. Oats are in demand. We quote at 25a27 cents; Virginia do. 23a25 cents. *Cloverseed*, prime quality, $4.50a$4.75.

Provisions. This market continues without any material alteration or much animation. Mess Beef, $12.50; No. 1, $10.50; Prime, $8.50a$9. Western Bacon, assorted, 7a7¼ cts. Hams, do. 9 a9½ cts. Middlings, 7¼ cts. Frederick county cured Bacon, of assorted quality, 7¼ cts. Baltimore cured Hams, 10a10½ cts. Middlings, do. 8a 8½ cts. Western Lard, in kegs, No. 1, 7 cts.—There have been but few transactions in Butter. Glades, No. 1, 18a20 cts.; No. 2, 14a18 cts.; No. 3, 9a14 cts., according to quality. Western, No. 1, 10a11 cts.; No. 2, 8a8½ cts.; No. 3, 7a7¼ cts.

Cattle. There is a large supply of Beef Cattle on hand. Speculators and drovers continue to ask from $8 to $8.25 per 100 lbs. for good.—The last sales heard of were made at from $6.50 to $8 per 100 lbs. Live Hogs $5.75 per 100 lbs.

Whiskey. We quote hhds. at 21 cts., and bbls. 23 cts., as at last quotations. Wagon price exclusive of bbl., 19 cts.

WATCH RETURNS. In the Eastern District, on Monday night, nothing occurred to disturb the peace. In the Middle District, negroes Henry Cant, Hester Cant, and Charlotte Griffith, were brought in and reprimanded for rioting in Forrest street. James Duncan was also imprisoned for rioting and abuse of the watchman. Negro Dan White was locked up for strolling the streets.—In the Western District, two negroes were locked up.

DEATH OF CAPTAIN MOORE. We announce, with regret, the death of Captain Stephen H. Moore, who expired on Monday night after a long and painful illness. Capt. M. was one of those gallant men who bared his bosom in the late war, in defence of our rights and liberties.—He was present at the storming of York, now Toronto, in Upper Canada, and was at the side of the brave General Pike when he fell, Captain Moore losing one of his legs in the onslaught.—The deceased has filled many offices of trust, and at the time of his death, was clerk to the First Branch of the City Council of Baltimore, and also clerk to the Insolvent Commissioners. That old and honorable Company, the "Independent Blues," it will be seen, will parade this afternoon, to pay the last sad office of respect, by entombing the remains of a former gallant member.

INFLAMMATORY RHEUMATISM—SIMPLE REMEDY. To all those who are unfortunate enough to be afflicted by this painful disease we would offer for trial a very simple and efficacious remedy, which upon proof has been found to give immediate and effectual relief. It is merely *potatoes*, boiled soft, and applied as a poultice to the part affected; when it becomes dry and hard renew the application.

The above is from the Philadelphia Daily Chronicle. If the remedy is as effectual as it is simple the general publication of it may be of great advantage to the afflicted.

ANOTHER FLARE-UP. The Schoharie Republican of Tuesday says:—"A meeting of 300 of the tenants on Livingston patent in this county, assembled at Livingstonville on Saturday last, and unanimously resolved not to pay any more rent. We believe it is contended by the tenants that there is some defect in the landlord's title."

We have a curiosity to know how a man feels who has more money than he knows what to do with.—*Vicksburg Sentinel.*

Have you? Well, he feels perfectly independent.—*Picayune.*

And perfectly contented, provided, &c.

☞There is a report in town this morning, says the Vicksburg Sentinel of the 19th inst. of the loss of the steamboat Chester at Tywapita, on the upper Mississippi, but we cannot learn any particulars—also of the Lady, of Arkansas.

MURDERER ARRESTED. C. W. Burns, who murdered W. E. Jones in Arkansas, was arrested in New Orleans on the 18th inst.

The Lancaster Intelligencer remarks: our canals are now open and boats are running briskly, and that the spring business is good.

SPLENDID NEW LOOKING-GLASS PLATES, PORTRAIT, PICTURE, & LOOKING-GLASS FRAMES, &c. &c.

JUST RECEIVED, by the subscriber, per the *Clementine* and *Europe*, from Bremen, the most extensive & superior assortment of GERMAN LOOKING GLASS PLATES ever offered in this market—embracing all the sizes in demand. He has also as good an assortment of FRENCH PLATES as can be found in the city. The public may rest assured that the above are of THE VERY BEST ORDER OF GLASSES, and that they will be sold, wholesale or retail, as cheap as the same quality can be purchased at any other establishment in the United States.

He is extensively prepared to manufacture every variety of Looking glass, Portrait, and Picture FRAMES (gilt or mahogany) in a style, combining every desirable excellence, which defies competition.

☞Country merchants and others, in want of any thing in his line, will find it for their interest to call upon him before purchasing elsewhere.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To Dr. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

☞The above Medicine may always be had in Baltimore of RICHARD NORRIS of WILLIAM, No. 254 Market street, who is the Sole Agent for this Medicine in that city. All orders coming to Philadelphia, must be directed to DR. SWAYNE,

MORE PROOF THAT B. OZ'S COMPOUND SYRUP OF HOARHOUND & BONESET is the best and surest remedy for Coughs, Colds, Whooping Coughs, Croup, Spitting of Blood, Night Sweats, Consumption, Asthma, &c.

Baltimore, March 15, 1841.

Mr. Booz. Dear Sir—A child of mine having a dreadful croup, I called in medical aid—in spite of which my child was fast expiring, when your compound Syrup of Hoarhound and Boneset was recommended to me by a friend—the child has taken two bottles and is now perfectly recovered. Thus, by your valuable Syrup has my child been snatched from the hand of death. Should any person be desirous of seeing me, let them call at the corner of Fleet and Market streets, Fell's Point, and I will testify personally to the above facts. Yours truly,

THOMAS DUNAHOE.

The above I received from a respectable gentleman resident of Fell's Point.

P. S. I can give more references and show more certificates of persons, establishing the reputation of my Syrup, than can be shown in favor of any similar medicine. Remember—I warrant every case, and return the money to any person it does not relieve. Be sure and ask for Booz's Compound Syrup of Hoarhound and Boneset. Wholesale and retail at No. 9 FLEET STREET. Orders promptly attended to.

JAMES BOOZ.

☞The above Syrup may be had, wholesale and retail, at No. 9 FLEET STREET, between Market and Bond streets, Fell's Point—at CHARLES INGRAM'S, Pratt street, next door to the corner of South street—at No. 2 N. BILLIARD ESTABLISHMENT.

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the Whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No 94½, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cases; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champaigne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

JOSHUA VANSANT, P. M.

TO THE PUBLIC.

IT must be obvious to every one, that an Intelligence Office, when conducted under proper principles, and regulated upon an honest and equitable course, is of great convenience and utility to the citizens of a populous and thriving city like this. The subscriber, being aware of this fact, and with the knowledge that a degree of dissatisfaction has existed from the manner in which other offices of the kind have been heretofore conducted, he has therefore taken great pains to conduct his establishment in such a manner as to deserve public confidence, and be worthy of the public patronage.

PERSONS making application at this office for servants, or help of any other kind, will deposit, in advance, 50 cents each, for which they will have access to the records, properly kept for that purpose, and on which they find the names, residences, references, &c. of the servants or other help—in case that neither of them answers the desired purpose, the money will be returned. Yearly subscriptions received at $1.50 each.

AGENCY. HOUSES, FARMS, VACANT LOTS, GROUND RENTS, LANDS, &c. bought and sold on commission. SLAVES, for life or a term of years, bought or sold on commission, and the highest prices obtained. Persons having slaves, which they wish to dispose of, will do well to apply at this office before selling.

N. B. All letters addressed to this office (post paid) thankfully received and promptly attended to.

GEORGE GELBACH,
General Intelligence and Agency Office,
Corner Baltimore and Frederick-sts.

ELIJAH McDOWELL'S CITY INTELLIGENCE AND GENERAL AGENCY OFFICE,

No. 2 Fayette street, Basement story of Barnum's City Hotel, (formerly occupied by Lewis F. Scott,) where is wanted daily, Clerks; Overseers; Porters; Gardeners; Teachers; Barkeepers; Apprentices; Waiters; Coachmen; Agents; Mechanics; Laborers; Farm Hands; Outlets; Housekeepers; Chambermaids; Nurses; Seamstresses; Cooks, &c. &c.—who must come well recommended to insure situations. Slaves for life or term of years bought and sold; Stores, Taverns, Bar-rooms, and Business Establishments, disposed of at private sale; Tenants procured for Houses, Warehouses, Stores, Farms, &c. Persons at a distance, wishing to be informed of the state of the market, of any article bought or sold, can be accommodated without charge; but all communications on business must come, post-paid, to insure attention. Insolvent Papers prepared at a low rate; all kinds of writing correctly executed; Books posted at moderate charges and kept out of view of spectators. The subscriber, intending to devote his whole attention to the above business, begs the patronage of a generous public. Satisfactory references by

CASH FOR NEGROES. The highest cash prices will at all times be given for Negroes of both sexes, that are slaves for life, and good titles. My office is in Pratt street, between Sharp and Howard streets, and opposite to the Repository—where I or my agent can be seen at all times. All persons, having Negroes to sell, would do well to see me before they dispose of them, as I am always buying and forwarding to the New Orleans market. I will also receive and keep Negroes at twenty-five cents each, per day, and forward them to any Southern port, at the request of the owner. My establishment is large, comfortable and airy, and all above ground; and kept in complete order, with a large yard for exercise; and is the strongest and most splendid building of the kind in the United States. And as the character of my house and yard is so completely established, for strength, comfort and cleanliness, and it being a place where I keep as my own, I will not be accountable, for the future, for any escapes of any kind from my establishment.

WINTER ARRANGEMENT.

GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE.

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach	Baltimore	2 P.M.
" Baltimore	4 P.M.	"	Washington	6 P.M.
" Washington	5 A.M.	"	Fredk'sburg	12 M.
" Fred'ksburg	12 M.	"	Richmond	5 P.M.
" Richmond	5 P.M.	"	Petersburg	7 P.M.
" Petersburg	7 P.M.	"	Weldon	1 A.M.
" Weldon	1 A.M.	"	Wilmington	1 P.M.
" Wilmington next day.	1 P.M.	"	Charleston	at 5 the

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout*, whilst it is evident that Foes! Rocks! Weathers! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT INLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

☞ Passengers for the Raleigh and Gaston Rail Road pay through to Petersburg, Va. For further information and Through Tickets, apply at the office of

THE MARYLAND ARCADE

Against the WORLD for CHEAP HATS!

THE Subscriber takes this method of informing his friends and the public generally, that he has now on hand a large and general assortment of HATS of his own make, which he is determined to sell low for cash. His prices are uncommonly low for the quality of the Hat: Splendid Russia Hats at $3.25; fine Short Nap Silk Hats, made on Russia bodies, warranted water-proof, for only $2.50; Fur Hats, from 1.50 to $3.00; Clipt Nutre Hats $4; Clipt Beaver Hats 4.50; White Russia Hats, at from 2.50 to $3.50. He would invite the public to call and examine his Hats, for he is confident there is no Hats in the city to compare to his at the above prices. All Hats purchased of me will be ironed over and put in shape free of charge.

fe4-3m* POLYDORE E. RILEY.

TO THE PUBLIC.—The price of HATS again lowered TOWSON is now selling in Eutaw street, one door south of Lexington street, his superior Hats at the following low prices—fine short Nap Mole Skin Hats at $2.50, fine Brush Hats $2.50; Fur Hats from $1.50 upwards. It may be asked how such Hats can be sold (if as represented) at such very low prices; I answer in the first place, I manufacture very extensively, and am able to purchase materials by the quantity much lower than if I bought by the small; and secondly, I sell for cash, and do not have to charge those who pay a high price, to make up for those who do not pay, as the natural result of the credit system. I think my Hats the best as now offered or ever sold in this market for the price. Persons will please call and look at my hats before purchasing elsewhere. Remember TOWSON, one door from Lexington street.

N. B. The trade supplied with HATS in the rough of all qualities. mh20-3m

BALTIMORE CLIPPER.

THURSDAY MORNING, APRIL 1, 1841.

THE BANKS. It is stated in the American, that the bill which has passed the Senate, authorizing the banks to issue small notes, makes such notes payable on demand in specie. If this be so, it may be thought that our gun of yesterday went off at half-cock. No matter; we can hardly fire amiss in aiming at the present banking system.—If the bill were passed and acted upon in good faith, it might be deemed a just and expedient measure; but we are distrustful. The banks could issue a large amount of small notes, and then refuse the specie for them, as they do for those of a larger denomination. To this it may be objected, that they would be liable to prosecution and the payment of twenty per cent. interest. Are they not now responsible in the same way, and for an interest of twelve per cent. on their larger notes? And yet they go untouched, and the legislature is about to relieve them from the penalty. And so may the succeeding legislature relieve them from the penalty on the small issue. The banks see an advantage in the measure, or they would not solicit it. Is it their interest, then, to issue notes under five dollars, payable in specie? We do not believe that they think so.—If they wish that the people shall have a small specie currency, why not pay out at once the fractional parts of a dollar? They are aware that their small notes would instantly return to their counters for the specie, so as to leave no profit upon their issue by destruction. What, then, is the motive for desiring the passage of the bill now before the legislature? We will venture a guess upon the subject. The principal part of the small circulating medium of the city of Baltimore at the present moment is, the notes of the Baltimore and Ohio Rail Road Company. If these can be forced out of circulation, they will be converted into stock. This done, the banks have the field clear to themselves; they issue a large amount of their small notes, and then suspend.—Having nothing to substitute, the people will be compelled to receive them in change; and, as they will be receivable in bank payments, the legislature could no doubt be induced to legalize the suspension: and the public would only make an exchange of the notes of the Rail Road Company for those of the banks, with this difference—that, on the former, they would be paying an interest of six per cent. If this could be effected, the banks would make an excellent operation by the passage of the bill, whilst the citizens of Baltimore would lose the interest upon the city's subscription to the rail road. We are not disposed to try this experiment, unless the legislature will attach a clause to the bill, providing that any bank which refuses or neglects to pay such notes on demand, in specie, shall be declared to have forfeited its charter, and be put immediately into a state of liquidation. With this supplementary clause, let the bill be passed, and we shall soon be able to ascertain the sincerity with which the measure has been asked.

But we think that the legislature would do wrong to adopt half measures with the banking institutions. There is something either radically wrong in their organization, or in their practical operation—and remedial measures to be effective, must be thorough. There should be an entire overhauling. Greater safeguards should be interposed to protect stock and note-holders, and greater responsibility imposed upon directors.—The money of the banks should not be used as the private property of the officers and directors, but be considered as a sacred trust to be administered with honesty and fidelity. It cannot be disguised that public confidence in these institutions is lost, and never can be regained until a reorganization which will afford greater security, shall take place. We again repeat that there are too many banks, and that the diseased ones affect those which are sound. It would be better policy to pull down a decayed house at once, than to let its falling timbers jar a substantial edifice.

LECTURES. These are of different kinds—scientific, literary, moral, political, and matrimonial. The last are the most expensive to the man who has had the misfortune to marry a fashionable wife; but, as we have no disposition to pry into family secrets, we shall leave this matter to be settled by the parties. Our business is with public lectures. And here we will express our gratification that gentlemen of talents have voluntarily devoted their time and attention for the instruction of the community. During the past winter, numerous lectures have been delivered, and generally to large and respectable audiences. But, among the variety of subjects selected for these occasions, there is one which we deem of importance, and which we do not believe has formed the subject of a lecture; we mean the extravagance of the present age, as compared with past time. The examination should be confined to our own country. Here would be a wide field, not for the indulgence of fancy, but for a faithful narrative of facts; and, judiciously handled, it would be useful and instructive. Will some of our learned lecturers think of this matter, and give the young ladies and gentlemen an opportunity of hearing the contrast, before the heat of the dog days shall prevent their attendance? It might render domestic duties more fashionable with the ladies, and honest labor reputable with the men.

The alarm of fire yesterday morning, was caused by the burning of a chimney in Asquith street.

MILITARY. Some years since, our beautiful city was almost every week enlivened by a military parade. The spirit of patriotism was alive in every breast. Our young men delighted in being called to arms. The cheerful and soul-stirring music of the drum and fife, the gorgeous display of plumes and banners, the glittering of bright swords and bayonets, the full uniform, the marching, counter-marching, &c. of companies, all proud to emulate, were delightful to have and to behold. But now how is it? Days, weeks, months, and we may say years, roll round without bringing to us any general display of our soldiery. Occasionally, one, two or three companies may be seen, in the langage of the poet, "scarce half made up" showing that the latent spirit of by-gone days, yet burns upon a few willing altars. But why this negligence? Has ambition become enervated? Has the fountain of military enterprize in the city of monuments been congealed? Has it been agreed upon that we shall rest secure in our weakness? Have the arms which were once proudly borne by thousands been laid by to rest? Has the requium been sung over our departed glory? Have we long since witnessed the last spirited turnout in Baltimore? Is the *phoenix* dead for ever, and its ashes scattered to the four winds? In fine—have we been partially asleep?

Let the military spirit of our city arouse from its lethargy. Let there be a general, a unanimous reorganization, otherwise the moth and rust will gather upon our uniforms, deface their beauty, and steal them from us piecemeal as a thief in the night.

TEMPERANCE MISSIONARIES. The New York Trumpet sounds a loud blast against the Baltimore missionaries who are lecturing in that city for the good of its inhabitants—and reproaches them with having been heretofore of the reprobate order. Who is more competent to preach against sin than the repentant sinner—and who can better pourtray the injurious effects of intemperance than he who has experienced them? We think the Trumpet over harsh in its note of condemnation. We hope that the New Yorkers will not shut their eyes to the light because the candle which emits it is not made of wax—though this seems to be a great objection with the Trumpet. A ruffled shirt cannot make the wearer eloquent, or assist him to enforce truth; so that, whether the missionaries be in the guise of humble citizens or of fashionable courtiers, can be of no consequence to the matter in hand; and it is illiberal to denounce them as more fit for the penitentiary than for the lecturer's stand, because some of them have heretofore debased themselves by a course of intemperance. We hope the Trumpet will not blow another adverse note.

AN OUTLAW. There is living about thirty-five miles west of Shreveport, in Texas, a man named Rose, who has made himself famous in that region, by the number and audacity of his outrages. His house is built on a bluff overlooking Silver Lake. He is one of those who ran away from Mississippi with his negroes, leaving his creditors in the lurch for many thousands. It is said he has lately killed several men, and among the rest a deputy sheriff of the county in which he lives, and has openly bid defiance to the civil authorities. But he has made his house a castle, having a cannon mounted so as to command any approach to it—has a large supply of arms and ammunition, and has regular guards stationed to give him instant warning of the approach of any one who might be disposed to drive him from his eyre.

GRAND TEMPERANCE PROCESSION. On Monday next, there will be a grand procession of the several temperance associations of this city, which we hope, will have the effect of making cold water a fashionable beverage. Let tipplers be sure to view the sight, and contrast the healthful countenances of the reformed and their elastic step, with their own bloated visages and tottering pace; and then turn to the bottle again, if they can. It will be a novel and pleasing spectacle.

WITHDRAWAL. Colonel Solomon Hillen, late representative in congress from Baltimore, publishes a card in this morning's Clipper, in which he declines being a candidate at the approaching election. Col. H. had the confidence of his party, and the esteem of his opponents; and we believe, never lost an opportunity of being serviceable to his constituents. We hope that the party may be able to nominate a successor to whom as little exception can be taken.

NEW COIN. *A Curiosity.* A gentleman of our acquaintance, from Philadelphia, called at our office yesterday, and left some specimens of new coin just fresh from the mint, and, what is most singular, *three* of which make *one dollar*. They are really beautiful specimens of the rarest workmanship and most finished stamp. They have been left at our office for a few days only. The curious can be gratified by calling.

FUNERAL. The remains of our townsman, Col. *Stephen H. Moore*, were yesterday afternoon, consigned to the grave with military honors.—Col. Moore was chosen captain of the Baltimore Volunteer Company which marched to the Lakes in 1812, and received the wound which caused the loss of his leg in an engagement near York, in Upper Canada. He was brave and patriotic, and was among the first to volunteer his services to his country in the last war with Great Britain.

OLD GUNS. It is stated in the Providence (R. I.) Journal, that, in digging up the foundation of an old building in that town, the workmen discovered two cannon of the form used about the time of Charles II. They are supposed to have belonged to the Marine Artillery, (a company still existing, at a meeting of which a committee was appointed to ascertain the facts and take the guns into possession. They may be preserved for their antiquity, but will be unserviceable, we presume, otherwise.

FRESHET IN THE SUSQUEHANNA. The Harrisburg Telegraph of Tuesday, says, "The Susquehanna is rapidly on the rise, and, from appearances, it will be unprecedentedly high. Much floating timber, plank and boards are now rushing past our borough, showing that the work of destruction had begun above us. We have every reason to apprehend a most disastrous freshet, as a large quantity of rain has fallen within the last twenty-four hours. Since writing the above, we learn that all the small bridges between here and York Haven have been carried away by the rapid rise of the streams tributary to the Susquehanna." The river was upwards of fifteen feet above low water mark, being higher than it has been since the remarkably high freshet in 1786, with the single exception of 1833, when it was about a foot higher than at present.

ANOTHER OUTRAGE BY A BRITISH CRUISER. We learn, says the Salem Register, that letters have been received from the brig Richmond, Bates, of this port, which states that this vessel had been overhauled by a British cruizer The Richmond was on her passage from Salem to St. Helena, and thence to Mozambique; and a few weeks before her arrival at St. Helena, when off the Island of St Thomas on the Coast of Africa, she was brought to by a British brig of war, (the Persian, four informant thinks) her invoices and other papers were demanded and examined, and she was finally suffered to proceed on her voyage, nothing being found to justify a seizure. This is the *fifth* Salem vessel that has been searched by English cruizers within a few months.

A PEDLAR HUNG HIMSELF. We were informed by a passenger, that a pedlar, whose name we did not learn, was found suspended by the neck to the branch of a tree a few rods from the Baltimore and Susquehanna Rail Road, about twenty miles from this city, on Tuesday last. Near him was found a small box, containing goods, such as are generally sold by these itinerants. The body was taken down, and disposed of according to the coroner's orders.

From the description, it is probable that the deceased was an individual who has long been in the habit of pedling goods in this city.

TEMPERANCE IN WASHINTON CITY. While so many cheering accounts continue to reach us, says the Intelligencer, of the astounding progress of the Temperance Cause in New York and other large cities of the Union, it is gratifying to hear of the astounding progress of the same great cause at home. We are much pleased to learn that, on Sunday night, after an eloquent and effective sermon preached by the Rev. S. P Donelan, at St. Peter's Church, in the eastern part of the city, on the evils of intemperance, no less than one hundred and eighty persons, male and female, came forward and took the total obstinence pledge.

A CHEERFUL WIFE. A good writer has remarked that a woman may be of great assistance to her husband by wearing a cheerful smile continually upon her countenance. A man's perplexities and gloominess are increased a hundred fold when his better half moves about with a continued scowl upon her brow. A pleasant, cheerful wife is as a rainbow set in the sky, when her husband's mind is tossed with storms and tempests; but a dissatisfied and fretful wife, in the hour of trouble, is like one of those fiends who are appointed to torment him.

THE PRESIDENT'S HEALTH. The National Intelligencer of yesterday states that the President was attacked on Saturday last, by a severe Pneumonia, which, we are gratified to learn, had, at a late hour last evening, been in a great measure subdued. His attending Physician considered him, last evening, decidedly better, and we entertain little doubt of being able, very soon, to relieve the public mind entirely from apprehension of the consequences of this attack.

DOUBLE TOES. The American of yesterday contains an account of a girl about twelve years of age, who has a supernumerary great toe on each foot, which is considered by the medical faculty as a rare deformity. The father or mother probably had *corns* from wearing tight shoes. We have no doubt that many of our dandies can present double toes also; and we advise them to try the successful operator in the present case; though it would be wrong, perhaps, to relieve them from a torment of their own infliction.

PHRENOLOGY. Mr. Crowley lectures again *this evening*, at Union Hall, *corner of* Tripolett's alley and Baltimore street; and we advise those who wish to obtain information on the subject of phrenology, or to test the truth of the science by an examination of their own heads, to be present.

INSULTING A LADY. Some unprincipled scoundrel, apparently a stranger, rather dignified in his outward appearance, stepped up to a young lady in Baltimore street, near the Centre Market, yesterday, and accosted her in a very ungentlemanly manner. Such *men-monkeys* should be cowhided *instanter*. Their bold impertinence is insufferable.

SHIPWRECK. The schr. Leander, of and for Baltimore, capt. Gifford, with a cargo of pitch, turpentine and lumber, from Newbern, N. C., was cast away on Monday night last, about three quarters of a mile north of Smith's Island light—cargo saved, vessel lost.

U. S. SEAMEN. A detachment of 60 seamen, under command of lt. Mattison, for the U. S. ship Delaware, arrived at Norfolk on Saturday last.

VESSEL MISSING. The schr. Pilot Marshall, which sailed from Norfolk on the 10th Feb. for Boston with a cargo of timber, has not since been heard from.

THE BRITISH QUEEN had not reached New York on Tuesday. The Sun states that great anxiety was felt for her arrival. She has now been out 21 days.

FROM FLORIDA. The following extract of a letter from an officer of the Army in Florida to a gentleman in Norfolk, taken in connexion with the intelligence of a like character recently received, would seem to present a gratifying prospect of an early termination of the Florida war:

Fort Armistead, March 3, 1841.

"I suppose you would like to hear how we are getting along, and I am happy to tell you we are now doing 'first rate.' The Indians are all coming in as far as we can learn. We have about thirty here now. *Hospitaki* is on his way in; he sent in a runner two days ago with a stick notched with the number of his people (fifty) and requesting that some horses might be sent to assist him on his way. We expect him in about ten days. We have very favorable accounts from the *Big Cypress*. Some Indians start for that place to-morrow; and the band that is there, perhaps two or three hundred, may be in by the first of April.

'JA talk has been sent to Sam Jones, and another is to be sent to-morrow; and it supposed he will come in here. Coosa Tuskenuggee is in, and all his band is coming. I have just seen a letter from Captain Page, who is in fine spirits. He writes that Coosa and Alek Tuskenuggee say that Sam Jones *must come in*, and they have sent to him to that effect. Coacoochee is somewhere on the St. John's; he has sent in to see Tiger, one of the delegation who was here at the time. The General sent down immediately for him, in order that he might go out and talk with Coacoochee, and it is supposed he will bring him in. I don't know where Tigertail is, and, in fact, it is not of much consequence, if all the others come in that are spoken of. Captain Page thinks that all the Indians this way will be in by the 10th of April, and that there will be no necessity for the regiment to remain here after that time. The prospect is certainly quite flattering just now, and it is possible the Indians have really determined to give up. But we have been deceived by them so often that I cannot say I rely very much upon their promises. There are now three hundred or thereabouts at Tampa, and I understand they are to be shipped to New Orleans this week. They are now very strictly guarded. I really hope the Florida war is over, but it is best not to be too sanguine."

For the Baltimore Clipper.

MESSRS. EDITORS: I had the pleasure of attending the Patrick Henry Association on last evening, at which time was discussed the following query: "Which is most entitled to the respect and admiration of the American people—France or England?"

The debate was opened by Mr. W. H. Craig, in his usual style; his sonorous voice was again heard to reverberate in the hall of the Patrick Henry Association, and he but added another laurel to those which he had already gained in the political struggle; and he proved, conclusively to my own mind, that France ought to be entitled to our greatest respect and highest admiration.

He was followed in the negative by Mr. W. C. Harper, who made a very eloquent and able speech for the cause of England.

Mr. W. H. Craig made a few remarks in reply.

Mr. T. A. Newman being entitled to the floor, made a very fine and excellent speech. He indulged his own poetic imagination, and chained and captivated his hearers by the breathings of his eloquence. He portrayed, in living colors, the wealth, the power, and extent of the dominion of our mother country. Every thing went off in perfect harmony, and every one was satisfied.

Georgetown, March 30, 1841. MUCIUS.

SPIRIT VS. SPIRITS. A young married woman in New York a day or two ago attempted to destroy her life by swallowing laudanum. By the aid of powerful emetics she was restored; and the only reason she gave for the rash act, was that her husband came home beastly drunk, and she had rather die than live with a drunken husband. He at the same time was lying on the floor almost as insensible as a dead man, from the effects of liquor.

A COMPLIMENTARY BENEFIT. The N. York Herald says that a notice is stuck up in the Marine Court, which sets forth that, by virtue of a landlord's warrant, the undersigned will expose for sale on the premises of the National Theatre, in that city, all and singular the mirrors, looking glasses, sofas, Champaigne glasses, punch bowls, and other articles. This singular playbill is signed, "Alfred Roach, Constable."

ACCIDENT. Three ladies on Sunday last, when attempting to cross the Schuylkill river above the dam at Norristown in a boat, were precipitated over the dam, which was about 18 feet in height. One of them, named Mrs. Flinn was very severely injured by the fall. Through the prompt exertion of a young man on shore, all of them were rescued, although with great difficulty, and after having approached a state of unconsciousness. Mrs. Flinn still remains very ill from the effect of the accident.

THE EX PRESIDENT. The New York Planet states that Mr. Van Buren left the Carlton House, on Monday last, and went as a visitor, to the residence of Mr. B. F. Butler. He remains in the city about two weeks longer, and then goes up the river. Mr. V. B. has not taken a house in that city, or does he intend so to do, as has been reported.

DEATH OF JAMES RONALDSON, ESQ. We regret to announce, says the Philadelphia Gazette, the death of one of our most useful and estimable citizens—James Ronaldson. He expired on Monday night, at the age of 73 years. He had not long been returned from an extended tour in Europe.

THE ENLARGEMENT OF THE MORRIS CANAL, between Jersey City and Easton, it is expected, will be completed by the 1st of next July. The cost of the work is to be paid for in the post notes of the Morris Bank, receivable at the counter of that institution and for coal transported through the Canal.

THE TAVERN LICENSE BILL was returned to the Legislature of Pennsylvania on Monday without the Governor's signature, having become a law by the expiration of the ten days allowed to sign bills in.

TO THE VOTERS

Of the 4th Congressional District of Maryland.

☞ FELLOW CITIZENS! In a few weeks, you will be called upon to elect your Representatives for the 27th Congress. From the numerous flattering inquiries of friends, as to my disposition to be a candidate for re-election, it becomes my duty, publicly, to announce, that my name will not be presented to the nominating Convention. This determination was repeatedly avowed, immediately after the close of the last Congressional contest; and I hope it will not be considered presumptuous, respectfully to decline the honor of a nomination, by anticipating a renewal of that kindness which I have already experienced. My object is to withdraw my name from public consideration, the result of which will be the selection of some other more deserving of your favor, but with whom I shall claim, at least, an equality in gratitude for the unmerited distinction of having occupied, by virtue of your suffrages, a seat in the councils of the nation.

Respectfully, SOL. HILLEN, Jr.

BALTIMORE, March 29th, 1841. ap1-1t

CHOOSE YE!

☞ Such citizens as intend trying their luck TO-DAY, are invited to compare the SCHEME of the Grand Town Hall Lottery, with the one brought out in opposition to it, that is to be drawn in Wilmington, Del., and on comparison, it will at once be perceived that the TOWN HALL LOTTERY, is a magnificent affair, embracing 230 Capitol Prizes, amounting in the aggregate to the full scheme amount of $20,5?4, while the Scheme presented by the opposition lacks no less than $16,812 25 of being a *full* scheme. Citizens of Baltimore, choose ye between buying of lucky

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety or economy*, would, I trust be perfectly satisfied by examining the opinion of Professor Lock, of Ohio, on "Webb's Camphine," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clear, brilliant, and economical light, will find it ,really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ASTRAL LAMPS ALTERED.

N.B. We have appointed Joshua Atkinson Agent, No. 92 Market street, P. F , where all orders will meet with immediate attention.

P. AUGUSTUS BAILEY, Agent

For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

LECTURES ON PHRENOLOGY,
AT UNION HALL,
Corner of Market street and Tripolett's alley.

MR. J. M. CROWLEY will give three Lectures on the above Science, to the Ladies and gentlemen of the city of Baltimore, at the above named place, commencing precisely at 7½ o'clock.

First Lecture THIS (Tuesday) EVENING, 30th inst.

Second Lecture on WEDNESDAY Evening, 31st

Third Lecture on THURSDAY Evening, 1st April.

Subject of the Lectures, the fundamental principles of the Science, and the application of Phrenology in the examination of heads, the difference between the male and female head and character, and the benefits of the science in our social and business relations.

Mr. C. will present the subject in a plain, familiar, and practical manner, and consequently make it interesting and instructive to those who feel any disposition to become practically acquainted with this most important and useful science. He will demonstrate his positions with a great variety of different National Heads, Skulls, Busts, Casts and Drawings.

Also, at the close of each Lecture, he will examine the heads of several ladies and gentlemen, who shall be selected by the audience. He will occupy the same Room on TUESDAY, WEDNESDAY, & THURSDAY, through the day, to accommodate those who may wish examinations with charts.

☞Admittance to Lecture 25 cents—to be paid at the door. mh30 3t*

PROCLAMATION.

WHEREAS, by an Act of Assembly of this State, passed at December session 1839, it is provided, "that if a special or extra session of Congress should be called to commence at such period as to make it necessary in the opinion of the Governor and council, that the representatives in Congress from this State should be chosen before the time fixed by law for such election, then it shall be the duty of the governor, by proclamation," to appoint a day for the election of said representatives in Congress: AND WHEREAS the President of the United States has, by his proclamation of the 17th instant, an official copy of which has been received, convened the two Houses of Congress to meet on the 31st day of May next, I do therefore appoint Monday, the 17th day of May next, as the day for the election of Representatives from this State to serve in the Congress of the United States.

Given under my hand and the Great Seal of the State of Maryland, this twenty-sixth day of March, in the year one thousand eight hundred and forty-one.

BILLIARD ESTABLISHMENT,

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No. 241, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious, and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied at the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time more lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cues; Rubbers; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 30 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champagne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

MARYLAND LEGISLATURE.

ANNAPOLIS, March 30, 1841.

HOUSE OF DELEGATES. Mr. Hooper obtained leave to bring in a bill entitled an act to encourage the removal of free negroes from this State—referred to Messrs. Hooper, Caldell Graves, Brent and Coad.

Mr. Jones of Somerset, obtained leave to report a bill to be entitled an act to alter and amend the Constitution and form of Government of this State in reference to the power of taxation by the General Assembly—referred to Messrs. Jones of Somerset, Causin, Brent, Tuck and Martin.

Mr. Bowie, Chairman of the Committee on Ways and Means, reported a bill entitled an act imposing a tax on protested bills of Exchange and promissory notes—which was read and laid on the table.

Mr. Pace reported a bill entitled an act to amend the Constitution and form of Government of this State.

Mr. Matthews reported a bill supplementary to an act to regulate the inspection of Tobacco.

The hour of ten o'clock having arrived, on motion of Mr. Graves, the House proceeded to consider the order of the day, being the bill to prohibit any corporation or individual, or association of individuals, from issuing any paper intended to circulate as money or currency. On motion of Mr. Causin the bill was laid on the table and made the order of the day for Thursday next.

The bill reported by Mr. Tuck, entitled a further supplement to the act enlarging the powers of the High Court of Chancery, was taken up for consideration, read, passed and sent to the Senate.

A bill was received from the Senate relative to the Banking Institutions of the State of Maryland, which was read and referred to the Committee on Corporations. The House then proceeded to the consideration of the tax bill.

The Tax Bill has just passed—Yeas, 53—Nays 22.

MARCH OF MIND. An honest farmer in the State of Pennsylvania married a Miss from a fashionable boarding school for his second wife. He was struck dumb with her eloquence, and gaped with wonder at his wife's learning.

"You may, said he, bore a hole through the solid airth and chuck in a mill stone, and she'll tell you to a shavin how long the stone will be goin clean threw. She has learnt kimistry and cockneyology, and talks a heap about ox hides and comical infinities. I used for to think that it was sir that I sucked in every time that I expired: howsomedever, she telled me, that she knowed better—she telled me that I had been sucking in two kinds of gin! ox gin and high gin! My stars! I'm a tumble down tee towtal temperance man, and yet have been drinking ox gin and high gin all my life."

STEAMBOAT FOR THE CONESTOGO. The genius of Robert Fulton is about to enliven the placid waters of his native county, and the great conquest of the master-mind, who started from Lancaster county, a poor boy, unnoticed and unknown, to brave the sneers and contumely of "the vile world"—has returned, in his works, to the place of his nativity. What a theme for the poet!—What a beacon-light to the lonely student, struggling for bread, and bearing up against a host of humbugs and quacks, whose impudence blinds the public to their ignorance. The boat is now complete. It was built in Philadelphia, and is intended to unite the Navigation with the Chesapeake, and the Tide Water Canal—another evidence of the princely public spirit of Mr. Coleman. Due notice will be given of the time when the boat will commence running. Some little delay will occur on account of the damage occasioned by the late freshet to the dam, at the mouth.

WATCH RETURNS. In the Eastern District a Dutchman, too drunk to tell his name, was locked up last night, and in the morning released.

Middle District. A drunken negro was brought in on a hand barrow. Sal Clayton, colored, was imprisoned for disturbing the peace, and in the morning reprimanded. P. Young and John Brought applied for lodgings. Thos. Riley was locked up for disturbing the peace. Harriet Russel was brought in for street walking, and reprimanded.

Western District. negro Moses Folk, was found in Cross-st. at 10 o'clock, intoxicated, and 'cursing the citizens.' Sophia Rapine and Margaret Stuart, colored, were also disturbing the peace. Mary Welsh was imprisoned for strolling the streets, at 1 o'clock.

THE RIGHT OF FOREIGNERS TO VOTE. It has been decided by the Supreme Court of the State of Illinois that, under their peculiar laws, foreigners, though unnaturalized, have the right to vote in their state elections.

One of the Judges carried the doctrine so far as to determine that they could exercise the elective franchise, as well in the selection of officers of the General Government as those of the state. As however, it was not necessary to decide that point, the other three judges gave no opinion upon it.

QUEER ESTATE FOR A PREACHER TO LEAVE. A preacher, who recently died up in the Red River county, is said to have left the following singular effects:—a bible, two collars, a Bowie knife, a psalm book, a deck of cards somewhat used, Bunyan's Pilgrim's Progress, nearly new, a pocket flask or 'tickler,' a collection of sacred music, a quarter nag, with saddle and bridle, a pair of pistols, and a copy of Hoyle's Games. Queer fellows some of these preachers of the far south west. A Western Paper.

LOOK OUT!!

"Caution" is the Parent of Safety.

AN ATTACK of the "FILES" may be positively prevented by using (when the premonitory symptoms are felt) the celebrated HAYS' LINIMENT. There are more than one thousand people in this city, and in the United States an immense number, who have suffered beyond endurance by this dreadful complaint, who keep themselves wholly free from attacks by applying this Liniment when they feel any symptoms of its approach—of this there is the most perfect proof.

100 DOLLARS REWARD.

DR. STORM'S SPECIFIC COMPOUND For the cure of Gonorrhœa, Gleets, Strictures Diabetes or difficulty in making water, and all other unnatural discharges from the urethra of either sex.

In no case has this medicine been known to fail, to effect a permanent cure, and too, in the shortest possible time. Should this medicine fail to effect a cure where it has been taken according to directions, return the empty vial and get back the money. Why then spend both time and money with such quack nostrums as cannot be depended upon; when, for $1, you can purchase a pleasant, sure, and speedy cure, composed solely of vegetable substance? One hundred dollars will be paid to any one who will produce a medicine to equal this compound, or who will prove that it contains any mineral substance whatever.

N. B. This Medicine can be had of JAMES P. WILLIAMSON, corner of High and Green street, (O. T.) of T. J. PITT, Market Space, Fell's Point, and by J. W. W. GORDON, cor. of Pratt & Howard-sts. MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your Compound Syrup of Wild Cherry, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,
Crawford county, Pa.

WHY COVET LIFE!

Why covet life! what is it but, at best,
A dull routine of never ending care!
For purest joys how soon we lose the zest!
How quickly pleasure merges in despair!

Why covet life! to-day we gaily smile,
The morrow finds us overcast with gloom,
Religion only can our cares beguile,
And gild our pathway to the silent tomb.

Why covet life! when all we know must die!
Why wish to linger in probation here;
To brightest smiles how quick succeeds the sigh!
Man claims no other birthright but a tear!

Then dread not death. Th' immortal soul will rise,
Freed from all shackles, to its home above;
"Death gives the passport to our native skies,
Death is our friend thro' Christ's redeeming love!"

Then welcome death—thou harbinger of peace,
Hope's only anchor to us mortals giv'n,
Life's anodyne to bid all troubles cease!
The only portal which can open Heav'n! H. L.

A TALE OF THE IMAGINATION.

It was on one of those still evenings in the latter part of October, when not a *breeze* rustled the decaying foliage, but all nature had sunk into the silence of repose, that a solitary stranger, mounted on a noble charger, that seemed to spurn the very ground on which he trod, wended his way silently along over one of that range of mountains which rise so majestically throughout the whole extent of Douglas county. His destination was the abode of Mr. Lyttleton, where, after a long and tedious journey, he at length arrived. This residence was not so remarkable for its architectural beauty, as for the air of decency and comfort which was every where visible, and the admirable taste displayed in the arrangement of the garden in front. The surrounding scenery was in the highest degree picturesque and romantic.—On the north and west sides, were stupendous mountains; on the south and east, were fields in a high stage of cultivation. On arriving at Mr. Lyttleton's, he was hospitably welcomed by that gentleman, to whom he presented the following letter of introduction:

"My Dear Friend: Allow me to introduce to you my son Richard, who has accepted your polite invitation to visit you during his vacation.—My memory frequently reverts to the early intimacy which existed between us with fond emotion, and I feel assured that he will be hospitably received by one in whose society I have passed some of the happiest hours of my existence.

"Very truly, yours,
"James Grahame."

But, before we proceed further, it would not be amiss to give a slight description of Richard Grahame. He was of a wealthy family in South Carolina, about 21 years of age, of brilliant intellectual attainments, in stature, tall and [illegible] ing—fine black eyes, from which shot the fire of intelligence, and possessing, withal, that open-hearted frankness which characterizes the inhabitants of the native State of Marion, Sumpter, and others. He had been a student of the University of Virginia, and had now gone to Mr. Lyttleton's to spend his vacation. Shortly after he had been ushered into the parlor, a lady (young, of course,) of eighteen, of surpassing loveliness, entered, and was introduced as Caroline Lyttleton. To give an adequate description of Caroline's personal charms, is a thing which I shall not attempt.—Her's was a beauty which Richard Grahame, in his wildest imaginings, had never dreamt of—a form faultless—a step as free as the wild gazelle's. In fact, she was one of those

"If to whose share some female errors fall,
Look in her face, and you'll forget them all."

The evening he spent in her society, and it passed off pleasantly enough, as you may readily suppose. At length, he was led to the room where he was to pass the night; and, having lain his weary body down, was soon in the blissful arms of Somnus.

"Tired nature's sweet restorer, balmy sleep,"

came on him. In this state of incipient somnolency, a vision floated through his confused imagination, of which the following is an outline.

He dreamed that he was transported to a happy land, where perfumes sweeter than those of "Araby the blest," were wafted on every breeze—where nothing save the voice of lovers, breathing their "memnon music," was heard, when presently a being of angelic form stood before him. As soon as she "oped her rosy mouth," to welcome him, a "concord of sweet sounds" issued forth such as was never before heard by mortal ears.

As he knelt down before her, in devout gratitude and humble adoration, a demoniac figure caught her up, and hurried her from his view.—About this time, Aurora having arisen from her couch of downy repose, emitted some coruscant beams full into his face, and, as a necessary consequence, awoke him. Richard Grahame was not a little disconcerted at this ominous dream; but, descending into the breakfast room, the unpleasant feelings were speedily removed by the scene which then presented itself. The table was set out according to true old Virginia style; and there he sat, waiting, with an expression of countenance, which even the eye of a casual observer might construe into a remarkable capacity to officiate as the dispenser of the edibles provided, when the time for their consumption should arrive. This time did arrive shortly, and his appetite, whetted by his abstinence the previous day, was satisfied.

A week passed off in the most agreeable manner—Miss Caroline's manners were engaging, her conversation truly captivating, and Richard did not know which the more to admire, her beauty or intelligence. Thus time flitted by, when one day a young man of haughty mien and forbidding countenance arrived at Mr. Lyttleton's, and was introduced as Charles Reynolds. Reynolds had been an unencouraged admirer of Caroline, and therefore from the moment he saw the manly, prepossessing appearance of Grahame, he disliked him, and jealousy, hatred and revenge were enkindled in his bosom. He staid but one day, and the family rejoiced at his departure.—By some means or other the visit of Grahame was prolonged beyond the time he had intended. He was always in the company of Caroline. He passed his time in this manner until the vacation had glided imperceptibly away, and he must part from her he loved best, and to whom he had become so ardently attached, collegiate duties imperatively demanding his attention. After having avowed his warm attachment to her and received hers in return, he bade them a reluctant adieu, and returned to the university. After reaching college, he addressed her a letter in a pure and classic style, to which an answer was shortly received; he wrote her another, but received no answer; he wrote again and again, but still obtained nothing in return—he was astonished, and concluded after a long time that she had forgotten him. He was restless and uneasy, and gradually declined in health, until he determined to visit Mr. Lyttleton's again, and to inquire into the causes which so long had kept him from hearing from Caroline. Just as he came to this conclusion, a messenger arrived, bringing him a letter which caused his immediate departure for Mr. Lyttleton's.

But let us notice the circumstances which had transpired at Mr. Lyttleton's since his return to college. Caroline had not received but one letter from Grahame during this whole time. A short period elapsed, and Reynolds made his proposals of marriage, which were rejected.—This fired him with revenge:—by a train of unforseen circumstances, he involved her father in debt to him for a large amount, and then informed him, that unless he consented to give his daughter in marriage, he would sell his land and have him conveyed to prison. How agonizing the feelings of that father when he told his daughter that his all depended on her; that unless she married Charles Reynolds, he would be torn from his paternal mansion and incarcerated within the walls of a prison, thus to end his existence in misery.

She in love and reverence for her father, agreed, but wanted a month to consider it. Every day she was plagued with the odious company of Reynolds, who considered her as bought property. Two weeks of the allotted time already glided by and the fearful day was fast approaching, when her destiny was to be fixed for ever. She with the fruitful imagination of her sex, had revolved a thousand schemes to rid herself of her present engagement—and at length adopted the following, which was to communicate to Graham her own and her father's situation, and the circumstances attending them, and send the letter by a *private messenger*. It was this letter that accelerated his return, and he arrived in the midst of the sad family just two days before the celebration of the unhappy nuptials were to take place, imparting by his very presence, joy to the whole family circle. Great was his astonishment at hearing that Caroline had never received but one letter from him—he knew there had been foul play somewhere, but he was perfectly willing to renew his engagement and free his father-in-law from every debt. This he did in a short period, and then wished the nuptials immediately to be solemnized. The day was appointed and the neighbors flocked in to see them united, by

"The minister to make them
Two willing hearts in one."

The couple stood before the altar with joyous anticipation—but alas! poor short sighted man! just as the divine was about to make the "twain one flesh," the report of a pistol is heard, and the intended bridegroom fell lifeless on the floor. At the same time a man closely muffled burst from the room and on a horse which vied in swiftness with the wind, was borne from their sight. Immediately chase was given, but all in vain. The remains of Grahame were interred in the family burial place of the Lyttletons. From that night Charles Reynolds was seen and heard no more, but the intercepted correspondence of the lovers was found in his private *escritoire*. After this, no smile ever illumined the beautiful face of Caroline Lyttleton, the roses left her cheek one by one, until at length she sank into that grave she so much desired, and was buried by the side of Richard Grahame. CIRCULAR

To Disbursing Agents whose accounts are rendered to the First and Fifth Auditors.

Treasury Department,
Comptroller's Office, March 30, 1841.

Sir: You are hereby required to render your account of disbursements for the current quarter as soon after its close as practicable; and, in so doing, you will present with and refer to in your account current two abstracts, one referring to vouchers for payments made for demands which accrued prior to the 4th inst., the other to those subsequent thereto. You will, in all cases, report the amount of funds in your hands on the 4th instant.

Subsequent quarterly accounts are to be rendered as required by law, should they embrace payments for demands which accrued prior to the 4th instant.

You will be governed by the above, in lieu of the Circular of the 22d instant.

Very respectfully, your obedient servant,
J. N. BARKER, Comptroller.

Notice to purchasers of Reservations under 19th Article and Supplement of Choctaw Treaty of 1830.

The office (at Columbus, Mississippi) of Commissioner to examine and report on the above class of claims has been discontinued by direction of the Secretary of War. Deeds, or other papers connected with them, which require the action of the Executive, will be transmitted to the Secretary of War, or to the office of the Commissioner of Indian Affairs.

MARYLAND LEGISLATURE.

Annapolis, March 31, 1841.

House of Delegates. In the House to-day, Mr. Jones of Kent, presented the petition of sundry citizens of Kent County, praying the passage of a law to impose a tax on dogs in this State, and for other purposes—referred to the Committee on Ways and Means.

Mr. Seidenstricker presented the petition of Wm. Caldwell praying for an alteration of his name to Wm. Quarll Caldwell—referred to Messrs. Seidenstricker, Legrand, Graves, Gallagher and Presstman.

Mr. Seidenstricker also presented the petition of John W. Stump and others, merchants of Baltimore City, praying for an alteration in the laws relating to the inspection of Fish,—referred to the Committee on inspections.

Mr. Presstman presented the petition of Anthony Nagle of Baltimore County, praying for relief therein mentioned—referred to the Committee on Grievances and Courts of Justice.

Mr. England obtained leave to bring in a bill, "for the relief of counter securities of Executors and Administrators"—referred to Messrs. England, Tuck and Presstman.

Mr. Nesbitt offered a resolution "requesting the Governor to cause the act, regulating the licenses to Hawkers and Pedlars and for other purposes, passed Dec. Session 1840, ch. 154, to be published in such newspapers of the State as publish the laws thereof." The resolution was read, passed and sent to the Senate.

A communication was received from the Governor in which he declined forwarding the report and resolutions relative to the distribution of the public lands. On the reception of the communication there was an exciting debate. The communication, which is very lengthy was laid on the table.

Senate. The bill to diminish the expences of Government was reported unfavorably on.

The tax bill was reported favorably on.

THE BANKS.

Messrs. Editors:—It was a wise maxim of the Romans never to suffer the finger of arbitrary power to touch them with *impunity*, least the body might follow and crush them. If our citizens are equally watchful and tenacious of their rights and interests, they will not slumber over the petition now before the Legislature, from our *would be masters*, the "Banks," for the privilege of issuing notes under *five dollars*, the *object* of which is to force from circulation the Baltimore and Ohio Rail Road notes, which justly have a credit beyond the reach of doubt; and substitute in the place of them their own hateful, worthless and contemptible shinplasters; and that too, Baltimoreans, at the expense of a very serious addition to our *taxes*, if they succeed in their petition. Sirs, you were not mistaken in your remarks on this business, in your paper of the 31st ult.—you did not go off "half-cocked." You have been the faithful sentinels on the watch tower to warn our citizens against "the *few*," who seem disposed to increase our taxes, for their own selfish ends, the "few" to whom our mechanics and middle classes of society owe nothing on the score of Bank favors; and whilst they are basking in the vivifying imagination of their own banking powers and importance, should they be determined upon increasing our taxes, by forcing from circulation the rail road notes—let them remember that the physical strength resides in the governed, and that physical strength will be legally exerted, to put in force the penalties of their suspension of specie payments. Appelles was reckoned a wise man when he altered the shoe in his picture at the suggestion of the "cobler," and perhaps our Banks may be deemed equally wise if they refrain from issuing notes under five dollars, at the suggestion

The People.

Comfortable. Going to Washington and an office, remaining there a week or two, sleeping at night on a sofa or on the floor, wrapped up in a horse blanket, spending a cool hundred or two, and then coming home with a large flea in your ear.

The Senate of Ohio has struck out the whole of Mr. Nye's Bank Bill but the enacting clause, and inserted Mr. Farran's bill in its stead. The House has passed a bill which extends the charters of banks of that state which expire in 1843 and 1844, for the term of three years, for the purpose of "winding up," with a restriction against the issue of any notes by them after the times at which their original charters will severally expire.

Texas Bankrupt Law. The main features of the bankrupt law, says the Houston Star, are these: That the bankrupt shall surrender to trustees for the benefit of his creditors all his property, and all his right, or share or color of title to property, or to the use or benefit of property, with the exception of such as he is therein specially allowed to retain; this allowance, if the bankrupt be a married man, consists in a homestead and fifty acres of land, to be selected by him, one year's provisions; three cows, two horses, miles and stock sufficient to work the reserved premises, furniture in proportion to his family, at the allotment of the Chief Justice; professional books and implements of art or trade (always reserving the family Bible,) and giving the wife or "feme sole," in separate property, her musical instruments: if a single man, he is allowed to reserve only one year's occupation of his homestead, but the remaining reservations for a married man are secured to him.

The Origin of the Order of Odd Fellows is of great antiquity. It was first established by the Roman soldiers in the camp, during the reign of Nero in the year 55. At that time they were called Fellow Citizens. The name was given by Titus Cæsar, in the year 79, from the singularity of their actions, and from their knowing each other by night or by day; and for their fidelity to him and their country, he not only gave them the name of Odd Fellows, but at the same time, as a pledge of friendship, presented them with a dispensation, engraved on a plate of gold, bearing different emblems, such as the sun, moon, stars, the lamb, the lion, the dove, and the emblems of mortality. The first account of the Order being spread in other countries, is in the fifth century, when it was established in the Spanish dominions, and in the *sixth century by King Henry of Portugal*, and in the twelfth century it was established in France, and afterwards by De Neville, in England, attended by five knights from France, who formed a Loyal Grand Lodge of Honor, London, which Order remained until the eighteenth century (in the reign of George the Third,) when a part of them began to form themselves into a union, and a portion of them remains to this day. The Lodges which now remain are very numerous throughout the world, and call themselves the Loyal Ancient Odd Fellows, being a portion of the original body.—*English paper.*

DAILY SOUTHERN MAIL,
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock,	P. M.		
Arrive at Portsmouth, at 7	"	A. M.	
Leaving Portsmouth, at 8	"	A. M.	
Arrive at Weldon, at 4	"	P. M.	

Wait there until 1 o'clock, A. M. for the Petersburg train.

Leave Weldon at 1 o'clock,	A. M.		
Arrive at Wilmington at 1 o'clock,	P. M.		
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.			

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 11 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, steep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

WEBB'S PATENT BURNERS,
AND CAMPHINE OIL.

FOR SALE AT No. 109 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety or economy*, would, I trust be perfectly satisfied by examining the opinion of Professor Locke, of Ohio, on "Webb's Camphine," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ ASTRAL LAMPS ALTERED.

N. B. We have appointed Joshua Atkinson Agent, No. 92 Market street, F. P., where all orders will meet with immediate attention.

P. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

Dear Sir—I received your favor of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 29 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,

BILLIARD ESTABLISHMENT,

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the Fixtures appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No 94, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cases; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champaigne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE!

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach	Baltimore	2 P.M.	
" Baltimore	4 P.M.	"	Washington	6 P.M.	
" Washington	5 A.M.	"	Fredk'sburg	12 M.

" Petersburg	7 P.M.	"	Weldon	1 A.M.	
" Weldon	1 A.M.	"	Wilmington	1 P.M.	
" Wilmington	1 P.M.	"	Charleston	at 5 the next day.	

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, *is sure of a connection throughout*, whilst it is evident that Foul Roads Weather!! and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

THE MARYLAND ARCADE
Against the WORLD for CHEAP HATS!

THE Subscriber takes this method of informing his friends and the public generally, that he has now on hand a large and general assortment of HATS of his own make, which he is determined to sell low for cash. His prices are uncommonly low for the quality of the Hat: Splendid Russia Hats at $3.50; fine Short Nap Mole Skin Hats at $2.50, fine Brush Hats $2.50; Fur Hats from $1.50 upwards. It may be asked how such Hats can be sold (if as represented) at such very low prices? I answer in the first place, I manufacture very extensively, and am able to purchase materials by the quantity much lower than if I bought by the small; and secondly, I sell for cash, and do not have to charge those who pay a high price, to make up for those who do not pay, as the natural result of the credit system. I think my Hats the best as low offered ever sold in this market, for the price. Persons will please call and look at my hats before purchasing elsewhere. Remember TOWSON, one door from Lexington street.

BALTIMORE CLIPPER.

FRIDAY MORNING, April 2, 1841.

Reproof. We are as willing to receive as to give advice; and where reproof is administered in sincerity we shall take it with all humility. We have no pretensions to infallibility, and are not unwilling to correct the errors of which we may be guilty. But then conviction must precede correction. In offering opinions upon any subject, we speak our honest sentiments, but with no expectation that they will receive the approbation of all others. We are too well aware of the variety of circumstances, conditions and interests, which produce conflicting opinions, to entertain the foolish belief, that we can set up for "Sir Oracle," and dictate to mankind. All we claim is, the free exercise of the right possessed by all others, that of expressing our sentiments upon measures whenever we may deem it expedient.

In our comments on the banking system we have never arrogated to ourselves superior knowledge of the art and mystery of banking—and, if it will gratify "A Friend and Constant Reader," who has honored us with private admonition, we will even plead guilty to the charge of being "profoundly ignorant" of the subject. The misfortune is, that nineteen-twentieths of the people are in the same predicament; and it would seem, that even those to whom it more peculiarly belongs to be conversant in such matters, are either as ignorant as ourselves, or most injudiciously apply the knowledge they possess. Banking, in these days, appears to belong to the order of abstruse sciences—in former times it was more plain and intelligible—more easily comprehended and more faithfully adhered to. It should be no marvel with "A Friend and Constant Reader" that we should become bewildered in endeavoring to trace the banking system through its sinuosities and mystifications. We confess our ignorance without reserve—for we had supposed that directors were appointed as guardians of the interests of stockholders, and that the officers of banks could not use the moneys entrusted to their charge, without the knowledge of, and responsibility to, these guardians. We are ignorant in supposing that the joint funds should be loaned out on *bona fide* security, and not given to irresponsible speculators and monopolists. We know how a prudent individual should conduct his own concerns, and believed that those of a bank should be managed with like care and discretion. Our old fashioned honesty induced us to believe that it would be dishonorable to apply to our own uses the money which had been deposited in our care with entire confidence in our integrity. If we believed that banking should be conducted with like regard to the principles of honor and justice, it would seem that we were mistaken, for "A Friend and Constant Reader" asserts that we are "profoundly ignorant" of the banking system, and we are willing to yield to his superior knowledge, acquired no doubt by practical familiarity with the system. It is a pity that the public at large cannot be equally enlightened; and we know many stockholders who are extremely solicitous to withdraw the mysterious veil behind which our correspondent has no doubt been permitted to penetrate. We are in search of knowledge, and are not too proud to receive instruction—we therefore ask, as a favor of "A Friend and Constant Reader" to initiate us into the art and mystery of banking, so that one more may be added to our wrinkles of wisdom. As he may do a public service by his exposition, his philanthropy should prompt compliance with our request. If he will become our teacher we shall be docile under the rod; and be content to bear the infliction that others may profit.

The President. We regret to learn that the President of the United States was yesterday dangerously ill, and that his recovery was considered doubtful. We hope that the accounts we have heard are more unfavorable than his actual situation will justify. He has been in the enjoyment of good health, is of robust constitution, and, although advanced in years, had a fair promise of prolonged life. It is true, he has undergone much fatigue and excitement within the last few months, and the sudden reaction has no doubt produced debility; but we entertain the hope that his system still possesses sufficient recuperative power to restore him to health.

☞ Since the above was in type, we have been informed by passengers who arrived in the cars from Washington last evening at half-past six o'clock, that the President was so dangerously ill as not to be expected to live till morning. The latest possible intelligence that could be obtained previous to the cars starting, was, that his disease had changed to the typhus, and that he was as low as he well could be to live. Great anxiety is felt in Washington. In the language of our informant, a gloom was thrown over the city.

It is to be hoped that the report is somewhat exaggerated, as in all probability it may be.—Our information, however, was of a direct character.

☞ A counterfeiter named John Bartin was lately arrested in St. Louis, upon a charge of passing counterfeit money. To elude suspicion he put several notes into his mouth and swallowed them. "It is not that which goeth into the mouth that defileth the man," but that which cometh out, said the adroit scoundrel, after he had been choaked and made to disgorge them.

Employment. It is essential to the health of body and mind, that a man shall have some employment; some occupation. Idleness leads to discontent; and discontent to dissipation—for where a man has no useful employment, he will resort to any mode of banishing *ennui*, though it terminate in destruction. Industry and activity, confer physical vigor and mental happiness. The busy man may be contented and cheerful; whilst he who rises in the morning without an object, and lounges through the day without other purpose than to kill time, will always be dissatisfied and wretched. To lead what is foolishly supposed to be the life of a gentleman, is to spend existence in vain. It is alike our interest and our duty to have some definite object of pursuit—something towards which we may always be progressing. It is true that, in old age, the ardor of this pursuit may be relaxed, but even then, the object cannot be totally relinquished without danger. But in youth occupation is the nutriment by which life is sustained and made agreeable. No matter what may be the pecuniary circumstances of the individual—whether he luxuriate in the wealth of Crœsus, or be clad in the garments of Lazarus; he must have employment if he would be happy. There is no pleasure superior to that which arises from a consciousness of a well-spent life—in the conviction that we have discharged our duties to our Creator, our fellow-citizens and ourselves; and no man can possess this consolation who is not engaged in some active duties. Some young men seem to take a delight in reversing the natural order of things—in despising labor mentally or physically, and converting day into night. Are they happy? are they respected? No—their existence is a misery to themselves, and they are the scoff of their acquaintances. They feel that they are not only useless but contemptible.—With intellects and indolence which unfit them for professions, and pride which forbids their engagement in other occupations, they stand stationary for a short period—then retrograde—and at last sink to their proper level among the most debased of mankind.

We have heard young men express astonishment that wealthy merchants and others should continue actively engaged in business, when they had the means of retirement and ease; and their conduct has been attributed to a grasping disposition. But it is to be traced to a different motive. Employment is interwoven with their happiness; and to relinquish the one, would be to sacrifice the other. If it be almost impossible for the person who has been raised in idleness from his infancy, to be contented or happy, how much more difficult is it for the man of business to relinquish his occupation and be satisfied with an idle life! It may flatter the vanity of some, who have more pride than good sense, to have it said that they can live without labor, but the life of the active scavenger is preferable, as to respectability and usefulness; and we have no doubt, is much more pleasing in the sight of Him who has taught us that labor is honorable.

Candidates. The list of candidates for Congress is on the increase: and both parties will have an ample supply of names from which to make pick and choice. When snug offices are to be bestowed, or vacant seats in Congress to be filled, willing patriots spring up like mushrooms. We hope that both parties will be judicious in their selection of candidates, so that the State may be faithfully represented, let which will succeed. We want to see a goodly portion of *working men* sent to Congress—men who will go straight forward with the business, and not turn to combat every gnat which may buz at their ear.

In the Baltimore district, some six or more candidates have been named on each side; and, as the time for selection is rapidly approaching, the people ought to consider the pretensions of those who have, or may be presented, so that the party conventions may make their nominations in accordance with public sentiment.

Breach in the Canal. The Harrisburg Republican of Wednesday says: "The Harrisburg and Lancaster rail road, at three miles below us, has the river running over it to the depth of a foot, and the stream has entered the canal a short distance above the same point. The Paxton creek has submerged all the ground between the canal on the eastern borders of the town, over to the hill, and every thing that will float is upon the surface. Much damage has been done to the brick yards, shops, fences, &c. in the way of the rise. A part of the stone bridge at the foot of Second street has given way, and houses at the same point have been vacated.

"P. S. We have just learned that the canal has given way 3 miles below this town, at the Black Bear—the canal and river being united.—The breaches are supposed to be of serious extent."

Progress of the Mormons. The disciples of Jo Smith have recently obtained three charters from the Legislature of Illinois; one incorporating the city of Nauvoo; another, a great university, and a third a Nauvoo Military Legion. They do not intend to be driven out of Illinois as they were from Missouri. They have commenced operations under their city charter Dr. Dennett, Quarter Master General of Illinois, through the appointment of Gov. Carlin, being their Mayor.

Pretty cute. Wood, the vocalist, left the packet ship Washington, when off Wales, and landed at Milford, whence he posted to London, with his shares of the United States Bank in his pocket, all of which he sold at 60. The Washington reached Portsmouth two days afterwards with the news of the stoppage of that institution. This is "coming Yorkshire" with a vengeance.

A Robbery. Dr. John G. Lambright was robbed at Fall River a few nights since, while putting up at the Pocasset House, of $528 in money and two watches.

Financial condition of New York. Mr. Gulian C. Verplanck made lately an able report to the New York Senate on the finances of that state. He estimates the income, from the public works and other sources, for the current year, at $1,875,000, of which will be required for repairs and superintendance of canals, etc. $550,000; interest in full, $687,900; State expenditures, $200,000; total, $1,437,000; leaving a clear excess of $438,000 to be applied to the prosecution of works or the payment of debt. He estimates the canal revenue of the next six years at $13,595,165, or an average of $2,265,860 per annum, and that of 1847 at $2,600,000—provided the Erie Canal Enlargement is completed before that time. Probably this report will go far to allay the panic which has been systematically produced through the past winter.

The Ladies' Companion. The April number of this highly interesting periodical has been handed us by Wm. N. Harrison, agent, No. 28 N. Gay-st. It is unusually interesting, embellished with a splendid steel engraving, called "the Child Saved." The mechanical department is of the most finished order.

We also acknowledge the receipt of the American Repertory, from the same gentleman, which we commend to the reader. Also, No. 2 of Merry's Museum for March, which is both instructive and amusing.

First Fruits. Dr. Sweezey, "the head and front" of the new sect out west, called "Sweezeyites," alias "Holy Rollers," who have recently made their appearance in the western part of this state, has been arrested, and is now in prison in Bath, Steuben county, on a charge of an unpardonable offence upon an unprotected lady.—It is to be hoped that this "Holy Roller" will be put into a hogshead, and *rolled* down hill until he gets his full satisfaction of *rolling*. O, ye hypocritical, *holy rollerited*, uncompromisable humbug! you should be *rolled into* a "cocked hat."

Our Cotton crop and British Manufactures. A letter from Liverpool, under date of the 3d inst., says:—"As respects business in the manufacturing districts of England, there is no complaint at present, and of course the people are well employed. Cotton at Liverpool is 1¼d lb. higher than it was last season with the heavy crop of that year, and if America produces this year 1,700,000 bales, it probably will afford as good a return as if the growth had equalled that of last year.

Fire. The fire yesterday morning originated in the garret of the three story brick building occupied by the Firemen's Insurance Company, corner of South and Second streets. Much credit is due to Mr. Tucker, who rushed into the smoke and flames and threw the burning materials into the street, thereby checking the progress of the fire. The fire companies as usual were promptly on the spot.

The Wheeling Times of Saturday morning says: We learn from a responsible source that the Baltimore and Ohio Rail Road is now nearly all graded to Cumberland, and iron enough to lay the same has been ordered from England. No doubt, therefore, exists but the road will be completed to that point by one year from this time. This is a consumation devoutly to be wished, as one days staging will then only be required to pass from this point and Baltimore.

Destruction of the West Liberty Academy by Fire. By a letter from West Liberty, says the Wheeling Gazette of the 29th ult. we learn that the Academy at that place was destroyed by fire on the night of the 24th inst., and the building which has cost the neighborhood upwards of $3,000 will prove near a total loss; in addition to this the loss of the Principal will be $600 in books, maps and stationary. The trustees met on the next day, and determined to rebuild the house as early as possible.

A Long Yarn. A Leeds (English) paper states that the longest rope on record, in one unspliced piece, has just been finished in Sunderland. It is upwards of four thousand yards long, and is seven inches in circumference, and twelve tons in weight, and will cost about £400. It is for the use of the London and Birmingham Railway.

Front-st. Theatre. Mr. Booth appears at this establishment to-night in the character of Othello. The entertainments will conclude with a piece called "A Seaman's Log," taken from the splendid spectacle of the Chinese Seas. If the house is full as the bill, we can speak for Mr. Ward jr.'s handsome benefit.

British Queen. We understand, says the Philadelphia Chronicle, by a letter received in this city by the Caledonia, that in consequence of some alterations which the British Queen was undergoing, she would not be ready to sail on the 10th ult., her regular day of sailing.

This then, if true, accounts for the delay of that vessel and will perhaps allay anxiety.

A Breach of Promise Case. In the breach of promise case of Ruth H. Eldridge vs. Samuel Phillips, tried in the Supreme Court of Rhode Island, last week, the jury assessed the damage for the plaintiff in the sum of $5,000. There are many who would be glad to marry a clever girl for a less sum than that. What fools there are in this world.

It is mentioned as a subject worthy of special remark, that Bancroft, the distinguished collector of the Port of Boston, found not a single default on the part of any merchant during his stay in office, although during that time he took and collected bonds to the amount of $10,000,000.

Difficulties are apprehended among the Indians on our Western frontier in consequence of the suspension of the Bank of the United States of Pennsylvania, nearly all the funds in their possession being notes of that Bank.

The New Coin. Yesterday a large number of persons called to examine the new American coin which we spoke of as having been left at our office on the day previous for special inspection.

This is emphatically a world of inventions, and we may add of curiosity.

In pops Mr. C. I hear you have got hold of something new under the sun.

We have, was the reply.

They tell me three pieces make a dollar—I guess then, they must be 33 1-3 cts. each; they can't be any thing else of course.

Even so, just as you have it.

Well, well I'm in a hurry—let's see.

There are the documents sir. For a moment an eager curiosity flashed across the eye—then came a kind of unmeaning quisicalness—then a little flushing in the cheek—then a moment's confused reflection—then a kind o' don't know what to say—and then finally, and as quick as thought, the exclamation—"O this is the first of April and I am fool'd certain."

Well but you'll not tell any one, nor divulge the mystery.

No, misery loves company—there's no danger, I've been too nicely "sucked in" myself.

Off goes Mr. C. half angry that he didn't think sooner, and half pleased at the new discovery

During the day we had numerous visitors, some put on their spectacles for a critical examination, and when they had examined to their satisfaction, threw down the "filthy lucre," as soon as April crossed the path of memory, quicker than if it had been red hot.

I'm satisfied—shan't tell—I've been too nicely tricked; but I'll send Mr. W., he shall see and learn something, even if it be *all fool's* day.

The joke passed off well, we had many hearty reciprocal laughs.

Three pieces make a dollar—well so they do—two quarters and a half. If not, then we are "April fools."

☞ The Philadelphia Inquirer thus eloquently discourses upon the condition of the currency in that beloved city. It reminds us of the by-gone days of Baltimore shinplasterism:

"The citizens of Philadelphia are still as badly off as ever, in relation to an available currency. Specie is at a premium—small notes are difficult to be obtained, while many of those in circulation are so filthy, torn, and defaced, as to render it almost impossible to decide whether they are counterfeit or genuine. Thus, our community have been compelled, for the last three months, to make use, at a premium, of the wretched paper currency of neighboring States, while our State Legislature has been in session the whole time, but has provided no measures of relief. We are compelled, by the force of circumstances, to use such paper as we have described, and yet with the power to afford a better currency in twenty-four hours, the authorities at Harrisburg continue to play the tyrant, and turn a deaf ear to our complaints."

Rose leaves dried in the shade, cloves beat to a powder, with a small quantity of scraped mace, all mixed together and placed in a silk bag, is a choice article for a lady's toilet.

If you want to get a horse out of a stable on fire, throw the saddle on him.

If you would cure a dog of the distemper, give him a ball of good fresh butter and chapped grass, mixed, the size of a walnut, three times a day, and you'll soon find a change.

Persons troubled with dyspepsia, should drink pure water, the temperature of the human body.

If you want your house taken care of get a dog that is a biter, in preference to one that is a barker.

"Keep it before the people;" what has become of the Manual Labor School. Jor.

An attempt was lately made to enable McLeod to escape from jail. After the exit of a visiter, there were found concealed in the prisoner's bed, a small saw, two small files, two chisels, a watch main spring straightened and teeth filed in it like a saw, and fitted in a spring or bow, in order to enable the prisoner to cut the bars at his window without making a noise.

United States Bank notes were selling in Philadelphia on Wednesday last, at 14a15 per ct. discount. It is reported that the committee appointed to examine into the condition of the Bank have estimated the value of the stock at $40 per share. We doubt the report, however; it smells strongly of the *bonus*.

A Whale taken. A correspondent of the Boston Post at Edgartown states that a whale, thirty-five feet long, was captured on the south side of the Vineyard, on the 26th ult. and taken into Edgartown. To give the inhabitants an opportunity to see him he was hauled up on the railway. He is expected to yield thirty barrels of oil.

Police. Julia Stephenson, col'd, charged with stealing two gold set rings, valued at $16, the property of a mulatto woman named Harriet Ford, was yesterday morning arrested and taken before Justice Pennington, and after undergoing an examination, held to bail for her appearance before Baltimore City Court.

Painful Report. It is supposed that Mr. George Johnson, formerly a merchant in Alexandria, and lately appointed navy agent at Pensacola, and his wife, and her unmarried sister, perished by the late wreck of a vessel on the coast of Florida.

Modest. An inventer of a patent medicine to cure frosted feet, advertises the public that he is a greater man than Gen. Jackson, as the latter re-toed the nation, but the inventor re-toed it.

Suicide. J. D. Adams, formerly Cashier of the Fulton Bank of Boston, committed suicide at St. Louis on the 6th inst., by drowning himself.

English Newspapers. The entire number of newspapers printed in the kingdom of Great Britain is set down in the recent report at 519.

The steamer Homer was snagged on her way from New Orleans to St. Louis on the 22d ult. She was, with her cargo, rendered a total loss.

☞ FIELDING LUCAS, Jr. has just published a small book, entitled "HOURS OF THE PASSION," by Saint Alphonsus Signori, composed of considerations on the various circumstances of our Saviour's passion and death. The matter is admirably adapted to the present and following weeks, and well calculated to enliven the devotion of the pious Christian, whilst meditating on the sufferings of the Redeemer. The name of the venerated author is its best recommendation, and its moderate price places it within the reach of every individual ap2-1t

BALTIMORE CLIPPER.

INTERESTING FROM THE SANDWICH ISLANDS. Papers and letters to October 10th have been received from Honolulu, by an arrival at New Bedford. The Mercury of yesterday furnishes a variety of interesting extracts concerning the progress of civilization and the introduction of salutary regulations of social organization among the native islanders.

The 4th of July was celebrated at Honolulu by a large number of American residents, who gave a dinner at the house of Haalilio, in the valley of Manoa. The King and his suite, with many invited guests, were present.

The ship Yard at Honolulu is highly commended in the Polynesian as a place where vessels of all descriptions can be hove out and faithfully repaired, and at charges which are probably not greater than would be made in Boston or New York for the same kind of work.

A sum had been raised for the benefit of Oahu Charity School by the sale at auction of donations received from Europe and the U. S. The proceeds of the donations received from England amounted to $470.

Through the liberality of some of the residents at Honolulu, the Chapel has been presented with an instrument called the "Seraphina." It is made on the principle of an accordion, but its sound resembling an organ. The editor says it adds much to the interest of the religious exercises, and has already given a spur to the dormant musical powers of many. Meetings twice a week for practice, are now held at the chapel, by the votaries of harmony, and the only fear is that the zeal of the choir will finally overpower the lighter strains of the seraphina.

The Art of Engraving appears to be practised with success at the High School of Mr. Andrews at Laboinaluna. Several views of Hawaiian scenery executed on copperplate by pupils of the Seminary, are spoken of as manifesting strong native talent for the art.

The bark Flora sailed from Honolulu, Aug. 3d, for N. York, with a cargo of upwards of 200 tons of sugar and molasses of Sandwich Island produce; some of which was raised and shipped on account of the natives. 16,000 goat skins, and the first shipment of raw silk, from the plantation of Peck & Co. Koloa, were also freighted in the same vessel.

The new iron Sugar Mill imported from the U. States for the King, has been set up at Wailuku, Maui, and is about to be put in operation.

Intemperance appears to have made fearful progress since the French broke through the restraints raised against it. The Polynesian says, thieves and topers are becoming as plentiful in Honolulu, as swine in the srteets. A law has been enacted imposing penalties against the use and manufacture of intoxicating drinks.—*N. Y. Commer. Adv.*

SINGULAR EXCITEMENT. A great degree of excitement has for a week past prevailed in Lyme, Waterford, and Montville, Mass., in consequence of the sudden appearance of a man, apparently a sailor, who presented himself recently at the City Hotel at New London, and claimed to be George W. Warren, son of E. R. Warren, of Lyme. In 1831 a schooner commanded by Captain Loomis, sailed from New London for Mobile, and on board of her were a number of passengers belonging at New London and its vicinity—and among them was George W. Warren. This vessel is supposed to have been lost on her voyage, as she never reached Mobile, and nothing has since been heard of her, or of a soul on board of her. The father and mother of young Warren deny that this new comer is their son, and have published an affidavit in which they protest that he has not the slightest resemblance to their lost boy. On the other hand, many allege that he is the veritable George W. Warren, and profess to know him by scars and marks which they know Warren carried in his boyhood; and the question whether he is or is not that individual has excited the community in that vicinity to a feverish degree, forming the topic of all conversation, disputation and numerous bets.—He has, himself, confessed that he is not young Warren, and that his name is Seth W. Chase; but his disclaimer gains no credit with a large portion of the community, who insist, will he nill he, that he is and must be George W. Warren, and no one else. And so the exciting matter stands at present.

A RELIC. The Patriot of yesterday, contains the following relic of the olden time, which as a matter of local curiosity, we deem worth of an insertion in our columns:

"One of the most ancient houses, perhaps, in the city, was that known as the 'mud house,' situated on East Lombard street, near Albemarle. The date of its erection cannot, probably, be ascertained, but some ideas may be formed of its antiquity from the circumstance of its being tenanted, more than sixty years ago, by an old ferryman, who lived by carrying passengers from that vicinity across the river, which, in those days, reached as high up as Baltimore street. It was subsequently inhabited for a long time by an aged man, known by the sobriquet of "Mad Jim," which was given him in respect to the character of the material of which his dwelling was constructed. After breasting the storms of more than three-score winters, this rudely constructed mansion has at last been compelled to yield to the 'spirit of improvement,' and was yesterday removed to make way for the erection of another more in accordance with the genius and luxurious habits of the present day.

RECEDING OF THE SEA. The *Phare de Rochelle* states that the sea is receding so rapidly from the bay of Bourg Neuf, that the remains of an English ship of war, mounting 64 guns, which was lost on an oyster bank called Bestraiter des Œuvres, whilst in pursuit of a French ship, in 1752, is now to be found in the midst of a cultivated plain. In calculating the depth of the water where this vessel struck, with its present level, it will be found that the depth of the sea has diminished at least fifteen feet.

The New York Herald states that Mr. Webster's father was expected to survive but a very short time on Tuesday night.

CITY OF BALTIMORE.

ORDINANCE No. 18.

AN ORDINANCE for the division of the City of Baltimore into fourteen Wards.

Be it enacted and ordained by the Mayor and City Council of Baltimore, That from and after the passage of this Ordinance the City of Baltimore shall be divided into fourteen Wards, bounded and described as follows, that is to say:

The FIRST WARD to comprise all that part of the city contained within the following bounds—Beginning on the centre lines of Market st. Fell's Point, with the water of the harbor; and thence along the line of said street to the centre line of Fleet street; and thence westwardly on said line to the centre line of Bond st.; thence on said street, northwardly to the centre line of E. Baltimore street; and thence eastwardly with said line and the Philadelphia road to the east line of the city; and thence with said line southwardly to the water of the harbor; and thence with said water to the place of beginning.

The SECOND WARD to comprise all that part of the city contained within the following bounds—Beginning on the centre line of Market street, Fell's Point, and the water of the harbor; and thence northwardly binding on said line to the centre line of Fleet street; and thence westwardly with said line to the centre line of Bond street; and thence northwardly with said line to the centre line of East Baltimore street; and thence westwardly on said line to the centre line of Canal-st.; and thence southwardly on said line to the city dock; and thence with the line of said water to the place of beginning.

The THIRD WARD to comprise all that part of the city contained within the following bounds—Beginning on the centre line of East Baltimore and Canal streets; thence northwardly on the centre line of Canal street to Pitt street, thence on the centre line of said street westwardly to Asquith street; thence northwardly on the said line to the centre line of the Harford Turnpike road, thence eastwardly on said line to the north line of the city; and thence on the north and east boundary line to the centre line of the Philadelphia road; and thence westwardly on said road and East Baltimore street, to the place of beginning.

The FOURTH WARD to comprise all that part of the city contained within the following bounds—Beginning on the centre lines of Pitt street and Jones' Falls; and thence on the centre line of Pitt street eastwardly to the centre line of Canal street; and thence on said line southwardly to the water of the city dock; and thence on said water westwardly to the centre line of Jones' Falls; and thence northwardly on said line to the place of beginning.

The FIFTH WARD to comprise all that part of the city contained within the following bounds—Beginning on the centre line of Pitt street and Jones' Falls; and thence northwardly on said line to the centre line of Hillen street; and thence eastwardly on said line to the centre line of Monument street; and thence eastwardly on said line to Aisquith street; and thence southwardly on said line to the centre line of Pitt street; and thence westwardly on said line to the place of beginning.

The SIXTH WARD to comprise all that part of the city contained within the following bounds—Beginning at the intersection of Hillen street and Jones' Falls; and thence on Jones' Falls northwardly to the limits of the city; and thence on said line eastwardly to the Harford road; and thence on said line south to the centre line of Aisquith street; and thence on said line to the centre line of Monument street; and thence on said line westwardly to the centre line of Hillen street; and thence westwardly to the place of beginning.

The SEVENTH WARD to comprise all that part of the city contained within the following bounds—Beginning at the Belvidere bridge over Jones' Falls; thence along the centre of Jones' Falls to the mouth thereof at the north side of the basin; thence westwardly along the north side of the basin to Gay street; thence along Gay street to East Baltimore street thence westwardly on said street to North street; thence northwardly along said street to the place of beginning.

The EIGHTH WARD to comprise all that part of the city which is contained within the following bounds—Beginning at the Belvidere bridge over Jones' Falls; thence southwardly along the centre of North street to Baltimore street; thence eastwardly along the centre of Baltimore street to Gay street; thence southwardly on the centre line of said street to the water; thence westwardly running and binding on the water until the same intersects the south intersection of Bowly's wharf and Pratt street; thence west along the centre of Pratt street to Hanover street; thence north along Hanover street to Baltimore street; thence west along Baltimore to Liberty street; thence north along Liberty street to Saratoga street; thence west to the centre of College alley; thence along the centre of said alley to the centre line of Mulberry street; thence along Mulberry street eastwardly to Cathedral street; and thence northwardly along Cathedral's rest to the city limits; thence eastwardly to Jones' Falls; thence along Jones' Falls to the place of beginning.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To Dr. Swayne.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences.

Your friend, ABRAHAM SKINNER,

For the Baltimore Clipper.

"MA CHERE AMIE."

Lovely daylight's last sweet gleaming
Glitters o'er the rich smooth sea;
Memory, full of gentle dreaming,
Turns to thee, 'Ma Chere Amie.'

'Neath thy own blue Southern Heaven,
Blest with friends so dear to thee,
Does one thought of me at even,
Fill thy mind, 'Ma chere Amie?'

Dost thou think, now we are parted,
Of the hours so light and free,
When we roved in joy light hearted,
Thou and I, 'Ma chere Amie?'

When the young Moon's glad effulgence,
Lights up mountain rill and lea,
Fancy then with sweet indulgence,
Seeks thee far, 'Ma chere Amie.'

Childhood's frolics rise before me,
Girlhood's bounding hopes so free,
Days of 'auld lang syne' come o'er me,
Past with thee, 'Ma chere Amie.'

When the night's soft winds are sighing,
Mellow echoes o'er the plain,
And the vesper hymn is dying
Mourn'fully along the main

Then my spirit holds communion
With thee, o'er the wild deep sea,
And a prayer for our union,
Sails across, 'Ma chere Amie.'

THE WALTZ AND THE WAGER.

(By Frances S. Osgood.)

CHAPTER I.

"We are quite ready, papa," said Georgiana Melton, as she entered her father's library, with her sister Caroline. "Do let us go this very minute—I am so impatient!"

"I see you are, my love, and therefore you will be good enough to sit quietly down, 'till I have finished my paper."

Georgiana bit her beautiful lips, and threw herself on a sofa opposite a large mirror, while Caroline smilingly stooped to caress an Italian greyhound, which had sprung from the hearth when she entered.

While the three are thus occupied—Georgy with herself, Carry with her dog, and their fond father ever and anon feeding his paternal vanity, by a shy peep over the edges of his paper, we, my dear reader, will, with your permission, take the same liberty, with the sincere, but scarcely reasonable hope, that you may experience as much pleasure in the survey as did Sir Richard Melton.

No wonder the frown gradually cleared away from the polished brow of Georgiana! No wonder her superb, hazel eyes are so proudly lighted up, as she gazes at the reflection in the mirror, of her brilliant and aristocratic beauty. She cannot be more than nineteen years of age; yet there is perfect majesty in her mien, and in the noble contour of her form and features, as she lies with her small head thrown haughtily back, her white throat curved, and her fair round arms folded gracefully before her. Her dress is of rich white satin, fitting closely to her beautiful bust, and reaching nearly to the throat, where it is terminated by a row of swan's down. The satin falls, which drape her dimpled elbow, are trimmed in the same chaste and simple manner: but look! as she moves, the sudden flash of diamonds from amid the rich softness of the down betrays, that simplicity alone cannot satisfy the regal taste of the wearer. She is evidently fond of those "stars of the darkling mine." They girdle her waist; they are wreathed on her snowy arm; they gleam like chain lightning amid the braids of dark brown hair, which is parted smoothly from her white veined temples, and plaited behind. Her head is exquisitely formed, her forehead is fair and broad, her eyes are eloquent with the beauty of a proud and generous soul.—The bloom on her cheek is the richest hue of health and youth and hope, and the expression of her arched and glowing mouth is inimitably spirited, yet sweet as a new-born rose. Altogether, Georgiana Melton is about as radiant a creature as ever thought fit to illumine this sad, cold world of ours. And now for the fairy Caroline. Poor Carry! by the side of her brilliant and stately sister she is like the lily of the valley in the shade of a magnificent magnolia. Her form—what there is of it—is pretty and light; but her hands and feet are so small, that people wonder what they are good for. Nevertheless, she is very lovely, and very graceful, and though her timid beauty, overspread as it is, by the more striking charms of Georgiana, is seldom noticed, yet the extreme delicacy of her complexion—the profusion of her silken ringlets, that fall in a shower of light on her shoulders—her dimpled cheek, rosy mouth, and melting blue eyes, looking so bewitchingly bashful beneath those drooping lashes—all these, combined with an air of the most perfect child-like innocence and purity, may well render the little petted Carry, what a friend of mine emphatically called her, "a charm!" She, too, is dressed in white; but her dress is muslin, of the simplest fashion, and wholly unadorned. Carry is just sixteen, and just "coming out."

But see! they are preparing to go. Sir George is putting down his paper, Georgiana is wrapping a magnificent shawl around her queenly form, and Carry is tying her cloak. They pass through a line of liveried servants—they enter the carriage—they are gone to an evening party at Lady C——'s. Let us go too, dear reader. We have no invitation it is true—n' *importe*—Lady C—— is, by far, too luxuriously indolent to trouble her graceful head about us. She will only raise, in languid wonder, her large, soft, dreamy eyes, and be glad of an excuse to arch still more her already beautifully curved eyebrows. So then, here we are, and just in time to hear the announcement of Sir George and the Misses Melton, and to see the eager gaze of admiration which follows the first appearance, this season, of the beautiful heiress, Georgiana. "Remember, love, no waltzing!" whispered Sir George, as he led them forward. "Remember, love, no waltzing!" was echoed in a low playful tone, on the other side, and, turning, Georgiana met the dark and earnest eyes of her bethrothed lover, Vincent Lorraine. She had deemed him far distant, and could not wholly repress the smile and blush of delighted surprise, that stole to her cheek at the sound. But she averted her face to conceal them, for she was provoked at his presumption, as she haughtily deemed it, in daring thus to dictate to her. "He knows," she said to herself, "that I have never waltzed, even with him; indeed, he never presumed to ask it; but he shall learn that his commands are not law; and papa, too! what could induce them both to force me into an alternative so very disagreeable? not that I see any great harm in waltzing, except that a man's arm round one's waist must be a bore."

During these very reasonable cogitations of his docile daughter, Sir George led the ladies to a sofa, and left them in charge of Lorraine. "I could never," said the latter to Carry, as he took his seat beside them, wholly unconscious of the wayward mood into which Georgiana had wrought herself, "I am sure I could never respect a woman who would submit to the familiarity necessary in that voluptuous dance."

"Miss Melton," said the young and graceful Duke of B——, bowing low to Georgiana, "I hardly dare ask the honor of your hand for the next waltz." Georgiana smiled encouragingly. "Will you indeed be so gracious?" offering his arm. Georgiana rose and accepted it. The Duke looked surprized and vexed, while Caroline raised her eyes imploringly to her sister's face.

"*Georgy!*" she whispered, "you *will* not waltz after what papa and Vincent have said?"

"Papa and Mr. Lorraine do not know me!" and she cast a glance of playful, but slightly scornful defiance at her lover. She was rather startled, and very much provoked at the look he gave her in return. It haunted her through the waltz, and, though she had never looked so brilliantly beautiful, and never danced with such bewitching grace, the smile on her lip was a falsehood, for her heart was ill at ease.

We must now explain the evident disappointment betrayed by the Duke of B——, when Georgiana accepted his proposal to waltz. On his way to the mansion of Lady C——, with a band of gay companions, he had rashly laid a wager of considerable amount, that only one unmarried woman in the room would refuse to waltz with him, and that to that woman, whoever she might be, he would propose before the end of the season. Georgiana Melton was in his mind's, or rather his heart's eye, when he made the bet. A passionate admirer of beauty in all its forms, he had borne her radiant image away from many a festive scene, and worshipped it in solitude and silence. He had heard, with a species of exultation, a few evenings previous, her dignified refusal to waltz with the most distinguished individual in the room, and he had thought how well the ducal coronet would grace a brow so noble and so pure. Gay, profuse, and seemingly thoughtless as he was, he had nursed in secret a noble refinement of soul, which rendered him fastidious, even in trifles, and he could not forgive Miss Melton her evident eagerness to join in a dance he disapproved, although her favored partner was himself. He was vexed with her for failing to reach the standard of perfection he had raised in his own mind, and when the dance was done, he turned away with a sigh that told of blighted hope.

Georgiana mistook that sigh for one of love; for she had often marked his earnest gaze of admiration, and, in spite of her long cherished affection for Lorraine, her young heart fluttered at the thought of the brilliant conquest she had made.

As the Duke left her, her cousin approached.—Her eyes fell beneath his, and her very temples flushed with the agitation of her heart. He seemed about to speak as he took her trembling hand; but suddenly letting it fall again, without a word, he hurried by, and left the room. Georgiana smiled as her fancy pictured an interesting reconciliation, which she intended should take place in her boudoir, the next morning, at farthest.

CHAPTER II.

"I have lost my wager," whispered the young Duke to his friend, Lord N——, "and, what is worse, I have lost the loveliest woman in England."

"Pardon me, my friend," said Lord N——. "You have lost neither your bet nor your bride."

"How! Have I not waltzed with every unmarried woman in the room? (Thank Heaven, there are not many!) and is not Miss Melton the star of the season?"

"Do you see that delicate creature at her side?" replied his friend.

"Who can see any thing where *she* is, but herself? Ha! but she *is* beautiful! who is she? do you know her? I hope she don't waltz. I dread to ask her, lest those sweet lips should simper 'yes.' I shall detest that word in future." And ere Lord N—— could reply, the Duke was requesting from Georgiana an introduction to her sister.

Caroline's eyelids drooped, and a soft blush warmed her delicate cheek, when he hesitatingly requested her to join the waltzers. He almost trembled for her answer. It was simply, "No your grace!" and the young nobleman thought he had never heard a voice so thrillingly sweet before. "Will you not indeed?" he involuntarily exclaimed. "I am so happy to hear it." Caroline opened her blue eyes wide with wonder, and Georgiana grew stately; but they soon forgot the seeming rudeness of the remark, in the delight which his eloquent conversation inspired, and the generous heart of our heroine exulted at the impression which her "fairy pet," (as she fondly called her sister,) had evidently made.

"I am sure you have bewitched him, sweet!" said Miss Melton to Caroline, the next day, while talking over the ball, "and what a charming little Duchess you will be!" she continued, fondly twining her jewelled fingers in the ringlets of her sister, as the latter closed her tell-tale eyes on her shoulder. "But haste! that was Vincent's knock—I am sure it was!" and she stooped and kissed Carry's fair brow; to conceal the emotion which glowed in her eloquent face.

"What an enchanting picture!" exclaimed the Duke of G——, as he entered the room at the moment.

Georgiana started in disappointment, and Caroline in blushing delight, at the voice. And where was Vincent Lorraine?

The servant answered her heart's unuttered question, by handing her a letter, with which, making a scarcely audible excuse, she hurried from the room.

CHAPTER III.

One bright afternoon in September, about four years subsequent to the date of the incidents related in the preceding chapter, a luxurious boudoir in Belgrave Square, was occupied by two ladies, both young, and one almost child-like in her appearance. The form of the latter was of fairy-like proportions, with the roundness and grace of a Hebe. She might have personated that goddess in face as well as figure; for her deep blue eyes were full of joy and love; her mouth had the fresh and dewy red of a ripe, but unplucked cherry—her cheek was bright with tender bloom, and countless curls of a rich, golden hue, clustered softly round its dimpled beauty, and enhanced the bewitching sweetness of its expression. Young as she was, she was evidently a mother, for a lovely, sportive infant lay in her arms, and a miniature of herself, a tiny girl, between two and three years of age, stood at the knee of the other lady, turning over the gilded leaves of an annual.

It would be difficult to describe the singular beauty of the face, which was bent towards the child; the large hazel eyes were filled with a wild and passionate melancholy. The cheek was perfectly colorless, yet so transparent, that any unusul emotion would instantly reveal itself there, illumining that spiritual paleness with a brilliant glow, momentary indeed, but exquisitely delicate. The hair was glossy, and intensely black, lying in rich masses on either side of the face, and braided loosely behind. The eyelashes were long, of the same jettish hue, contrasting strangely with the tintless purity of her complexion. The grace and majesty of her form were finely developed by her rich but simple dress. It was a black velvet, sweeping in ample folds below her feet, and wholly without ornament, excepting a frill of black lace at the throat. She was seated in a deep crimson chair, over the arm of which hung a superb Indian shawl, bright with the gorgeous colors of the eastern loom.

"Oh! isn't that a pretty picture, aunt?" exclaimed the little prattler at her knee, and the lady stooped still lower, until her pale cheek touched the round and rosy one of the child.

The door opened, and two young men entered the room, one of them saying, as he did so, "I have brought you an old friend, Caroline, whom I am sure you will be happy to see, and you also, Georgiana."

While the youthful Duchess sprang eagerly forward to welcome the stranger, the dark-haired lady languidly raised her eyes; but they fell again instantly, and the color mounted to her brow, when she met the earnest and admiring gaze of the Duke's companion.

"Miss Melton," said the deep and musical voice of Vincent Lorraine, while his lip quivered with emotion, "this is indeed a happiness I did not dare to hope; but after a four years' absence from all I love best upon earth, you will not surely refuse to welcome me home again."

Georgiana threw back her stately head; but she could not repress the glowing smile of joy, which lighted up her beautiful face, as she replied, "*My* welcome can be of but little importance to Mr. Lorraine; but it is freely given nevertheless."—And she frankly held out her hand.

"I wish you success, most heartily, my dear fellow," said the Duke, as he and Lorraine were riding through Hyde Park a few days afterwards, "but I must candidly tell you that you have but little chance with 'the statue,' as she is called by all her male acquaintances. She has refused all who ever overcame their awe of her, sufficiently to propose—and seems determined to keep herself to herself, with all her beauty of mind and person. To tell you the truth, I was quite astonished at her condescending to shake hands with you the other day. It is a liberty which no one else would presume to take with her. In truth, she has odd ideas about some things, which I cannot account for. In my opinion, she is over-fastidious, if a woman can be so. No, no, though she is the light of our household, she will never grace another, I fear; I 'should say, I hope, for what would Carry and the children—what should *I* do without her? With the exception of my own little wife, she is the purest minded, and most disinterested woman I ever knew."

The reader may account, although the Duke could not, for the smile which grew brighter and brighter on the countenance of Lorraine during the foregoing speech, and for the exulting tone in which, at its close, he exclaimed, "She is mine if there be truth in woman!"

"What *can* you mean, and where *are* you going, Lorraine?"

But the youth was out of sight ere the sentence was finished, and the wondering Duke pursued his way alone.

"Will you never, never, forbid me to waltz again?" asked Georgiana, playfully, as her restored lover implored her consent to their immediate union.

"Never, never, my precious!"

"And will you never run away again for four long years at a time, truant?"

"Death only shall part us, my own!"

"And may I waltz when I choose?"

"Yes, love."

"And with whom I choose?"

"Yes, yes, yes!"

"There, then!" (and she gave him her hand,) "this day twelvemonth, it is yours forever.'

Poor Lorraine pleaded, but in vain, for an earlier day.

"No, dear Vincent," said Georgiana seriously, "if you are going to repent a *second* time, I choose it should be before our marriage; it would be rather inconvenient afterwards."

"What has animated our statue?" asked her sister entering at the moment. "I have not seen such a smile, nor such a blush on her face these four years."

PRETTY NEAR THE TRUTH. The editor of the New York Sun has received a letter which which speaks in relation to Texas as follows:—"If you come across any fools who have the Texas fever on them strong, just ask them what they want to lose? for if they have anything to lose, Texas is just the place for them. * * * All we carried to Texas, or made there, has been sacrificed to get away again. * * * You know nothing of sickness at the north; here one day's fever will do more toward killing a man, than a month's sickness would with you."

HARRISBURG. A letter from Harrisburg says, an impression prevails there that Gov. Porter will allow the Bank bill to become a law, by withholding his signature for ten days.

DAILY SOUTHERN MAIL,
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detention should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at *any point north of Wilmington. RETURNING*, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of a good fare as could be provided in the very best Hotels in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 5 or 6 o'clock, P. M.

WEBB'S PATENT BURNERS,
FOR CAMPHINE OIL.

FOR SALE AT No. 102 E. BALTIMORE STREET, between South and Calvert streets, where Burners of every description can be obtained. Those who are *sceptical* as to its *safety* or *economy*, would, I trust be perfectly satisfied by examining the opinion of Professor LOCK, of Ohio, on "WEBB'S CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All those desirous of obtaining a clean, brilliant, and economical light, will find it greatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

☞ ASTRAL LAMPS ALTERED.

N. B. We have appointed JOSHUA ATKINSON Agent, No. 92 Market street, F. P., where all orders will meet with immediate attention.

P. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,
mh 6-tf Fifth Ward Hotel.

BILLIARD ESTABLISHMENT.

FOR SALE. The subscriber having determined to make a change in his present business, offers for sale his BILLIARD TABLE, with the FIXTURES appertaining, together with the FURNITURE of the whole establishment. The Table is from the well known firm of Penn & Moore, New York, and considered one of the best of their manufacture. The Saloon is situated in Baltimore street, on the north side, No. 94½, and has two entrances—one in Baltimore-st. adjoining the Lottery office, and the other in North-st. next door to the office of the Baltimore Patriot, and directly opposite the Franklin Bank. The Room is very airy and spacious and exceedingly well lighted, having 3 large windows fronting on Baltimore street, also well supplied in the rear. It has been fitted up in a handsome tasty manner, and is more advantageously located than any other in Baltimore, being situated in the most central and at the same time most lively and pleasant part of the city. The Furniture consists in part of Mahogany Tables; Cases; Sideboard; Venetian Blinds; Settees; Cane Seat Chairs, &c., with Mirrors, and about 50 Pictures, a portion of which are very fine Engravings. There is also a Bar well filled with Cut Glass, Decanters, Tumblers, Wine, Champaigne, and a variety of other glasses. Also, a small stock of the best LIQUORS, and a few dozen of very fine old Sherry WINE. This establishment is now doing a fair business, and a person who would devote his whole attention to it, would, in a short time, realize a handsome return for his labor. Possession given immediately. For terms, and further particulars, apply to the proprietor, on the premises.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some *extraordinary contingency, is sure of a connection throughout*, whilst it is evident that Foul Roads, Head Winds and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon: and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of Virginia, North and South Carolina—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

THE MARYLAND ARCADE
Against the WORLD for CHEAP HATS!

THE Subscriber takes this method of informing his friends and the public generally, that he has now on hand a large and general assortment of HATS of his own make, which he is determined to sell low for cash. His prices are uncommonly low for the quality of the Hat: Splendid Russia Hats at $3.50; fine Short Nap Silk Hats, made on Russia bodies, warranted water-proof, for only $2.50; Fur Hats, from 1.50 to $3 00; Clipt Nutre Hats $4; Clipt Beaver Hats 4.50; White Russia Hats, at from 2.50 to $3.50. He would invite the public to call and examine his Hats, for he is confident there is no Hats in the city to compare to his at the above prices. All Hats purchased of me will be ironed over and put in shape free of charge.

6t4-3m* POLYDORE E. RILEY.

TO THE PUBLIC.—The price of HATS again lowered. TOWSON is now selling in Eutaw street, one door north of Lexington street, his superior Hats at the following low prices—fine short Nap Mole Skin Hats at $2 50, fine Brush Hats $2 50; Fur Hats from $1.50 upwards. It may be asked how such Hats can be sold (if as represented) at such very low prices; I answer in the first place, I manufacture very extensively, and am able to purchase materials by the quantity much lower than it ought to be sold; and secondly, I sell for cash, and do not have to charge those who pay a high price, to make up for those who do not pay, as the natural result of the credit system. I think my Hats the best as now offered ever sold in this market for the price. Persons will please call and look at my hats before purchasing elsewhere. Remember TOWSON, one door from Lexington street.

BALTIMORE CLIPPER.

SATURDAY MORNING, April 3, 1841.

The Ocean for this week, containing all the choice matter of the daily, latest intelligence from every quarter, tales, poetry, editorials, &c. can be had at the counter this morning, or any time during next week, done up in wrappers, or otherwise. Price 6¼ cts. per single copy; $1.50 in advance per annum.

☞In another column, will be found a very interesting report, together with the decision of the Court upon a *small note case*, which was argued at the January term of the County Court.

We heard the trial, and had taken notes of it in full, but concluded to withhold the publication of the matter until the Court had rendered its decision.

Complaints. The editor who attempts to please every one will be about as successful as the man with the ass in the fable: the effort will be vain, and it would be useless to make it. As no two persons resemble each other precisely in features, so it is impossible to find men who do not differ in opinion about some matter. An editor being a public man, each subscriber thinks he has a claim to regulate, in some degree, the course of the press, and hence the editor is always liable to censure. This he must be prepared to bear with meekness; and, like the chastised Chinese, humbly kiss the hand that has inflicted the flagellation. Now we have a wonderful stock of humility, and take the advice of friends very kindly, but find a great difficulty in following it. For instance, when we touch on the conduct of the banks, we have some good friends who advise that we shall desist, whilst others, with no less sincerity, condemn the lukewarmness of our comments, and urge us to greater severity. In the multitude of counsellors there is said to be wisdom; but we prefer steering our own craft to letting landsmen take the helm, who might plunge her ashore. We have a never-failing compass, and an excellent chart, and can lay our course without apprehension of running against a snag.

In what we have said about bank management we have indulged in no *malice prepense* against those institutions—on the contrary, it would give us great satisfaction to see them managed with ability, and with advantage to the stockholders and people. But, believing that this has not been, and cannot be the case, whilst there are so many in existence and such a conflict of interests, we have spoken our sentiments without reserve; and, so long as the evil continues, shall adhere to them without deviation. We are duly sensible of the kindness intended by those friends who offer us advice, but find it difficult to adopt it, whilst it is so contradictory. If we can find nothing to extenuate, we shall not "set down aught in malice" against the banks. They are useful or injurious to the interests of the community, as they are faithfully or injudiciously conducted.

We know that public opinion is adverse to the continuance of the present number of banks. We have not conversed with a single individual who did not express the conviction that a reduction of the number to one half or less, would be productive of great benefit. It might annihilate the consequence of some of our little great men, who are acting the frog in the fable by serving as directors; but whether they burst from inflated vanity, or decay from mortified pride, is an object of minor consideration. It is not for the fate of such beings that we are to lament, whilst there is suffering in the great mass of the people. We want to see the banking system efficient—and to make it so, there must be such co-operation among the institutions as to inspire the public with confidence in their safety, and in the impartiality, integrity and propriety of their management.

To Correspondents. A number of communications have been received during the last week. O. P. C. has written us an article upon "Tattling." One who has a theoretical and practical knowledge of this subject, might perhaps spin a useful yarn. The thread before us is not so well spun as it might be. We *infer*, therefore, that the author is not an adept in the practice he repudiates. He must be more careful in puntuation.—His document needs dressing up a little, which we shall do at our leisure and publish it.

The answer to "Tyro" is not sufficiently explicite to throw any light upon the subject of inquiry. "No Chicaner" is therefore rejected.

The "Pirate's Serenade" is on hand, approved and will find a place.

Emily's productions are upon file. Dear creature she is always welcome.

Stanzas by G. W. M. has our approbation.

"Tara" breathes a melting strain—welcome to "Tara."

A communication signed "Three Subscribers" has been received. We concur with them relative to the "Musical Crotchets" of "Rekrab."—He can't *crab* any more in "these diggins." Our musical *organ*, we must confess, is not sufficiently acute to discover the *harmony* of his attempted puns. He has been refused on former occasions, and to tell the truth, the latter gained admission through a little inadvertency upon our part, which may happen in the best regulated families. It is to be hoped "Rekrab" will not be flattered by any thing we have said upon the present occasion.

Fort Niagara. The Lockport Courier says, that orders have been received to put Fort Niagara in complete condition of defence.

Chesapeake and Ohio Canal. We think it unjust and impolitic to connect the proposed appropriation to this work with party considerations. In the present condition of the finances of the state, and in view of the heavy taxes which must, of necessity, be imposed, an additional appropriation to the canal cannot be made without doing serious injustice to the people of Maryland, and the members of both parties have an equal interest in resisting the passage of a bill for that purpose. It is, therefore, unwise to turn aside from the main object to discuss whether this or that party has heretofore been indiscreet on the subject of internal improvements. And such discussion can result in nothing satisfactory, inasmuch as the great appropriation bill was supported by both parties, and each is alike responsible for the debt of eight millions of dollars which was thereby created. It is within the recollection of the citizens of Baltimore that no measure was ever supported with greater unanimity in this city than this very appropriation; and that an extra session of the legislature to procure the passage of the bill, was demanded by acclamation. We have a perfect recollection of the proceedings which then took place at the Exchange, and of the urgency with which the measure was pressed, and of the unanimity with which a slight opposition was put down. We have lived to see the folly of the course then pursued, and to regret that we were hurried beyond the limits of prudence. But it is not too late to retrieve, in part, the error then committed, or at least be too careful not to fall into a like one at the present time. Why then, should there be any reference to party in relation to the present question? or why produce an irritable state of feeling, when all should be harmony.—Can any one desire to have the question of a further appropriation to the canal tested upon party grounds? No one who wishes to see the measure defeated can entertain the idea. We dislike this eternal babble about parties without reference to the appropriateness of the occasion, or the object to be attained. If we would succeed in preventing an addition to our taxes for the canal, we must divest the subject of party considerations, and forbear crimination and recrimination.

Magazines, &c. *Graham's Lady's and Gentleman's Magazine*, for April, an excellent number, with a plate of the fashions, and a beautiful steel engraving, representing the lover returned. From *W. N. Harrison*, 28, North Gay street.

Ladies' Companion, for April, from *N. Hickman*. We have favorably noticed the preceding numbers of this work, and there *is* no falling off in the present. It is an agreeable companion for the ladies.

The Standard Library, No. 1 to 6, inclusive, from *Mr. Taylor*, No. 12, North street. The whole of these numbers are occupied with "Stories of Waterloo," written in a lively style, and possessing interest. It is published weekly, at $3 per annum, in advance.

The Magnolia, or Southern Monthly, from *Mr. Taylor*. The tales of "The Knights of the Golden Horse-shoe," and the "Ghost Seer" are continued from previous numbers, besides other tales, poetry, &c., the entire work being original. The work ought to be encouraged.

The Evergreen, from *Mr. Taylor*. The reputation of this monthly is so well established, as to make it hardly necessary to say a word in commendation. It contains "The Shaker Lovers," (original,) the continuation of "Stanly Thorn," "Master Humphrey's Clock," "George St. Geo. Julian," and a historical romance, called "Old St. Paul's," by Wm. H. Ainsworth.

Turner's Dramatic Library of Acting Plays, from *Mr. Turner*, North-st. This is No. 60, vol. 9, new series, and is Bulwer's comedy of "Money; or Duplicity Exposed." We have not perused the play, but it should be of the best, from the author's celebrity as a writer. It has been performed in London, New York, and Philadelphia.

Journal of the American Silk Society and Rural Economist, edited by *Gideon B. Smith*. Although the morus multicaulis fever has been succeeded by an ague, yet we see no reason why the production of silk should not be encouraged, and this Journal extensively circulated. It is published in furtherance of an important branch of domestic industry, and we hope will revive the temperate cultivation of the mulberry.

Ward Meetings. The Whig Central Committee has recommended that ward meetings be held on Tuesday evening next, to elect by ballot, five persons from each ward, to compose a general convention, for the superintendence of the concerns of the party, during the present year, nominate candidates, &c.

Thus from each party "the busy note of preparation" is heard, and we may anticipate a hot campaign in pleasant weather.

The President's Health. We were informed by the passengers who left Washington yesterday afternoon at 4 o'clock, that the health of the President had improved considerably, and that the most cheering hopes were entertained of his recovery. This is, indeed, welcome intelligence, which it is sincerely hoped may prove true.

Tax Bill. The tax bill has passed both houses of the Legislature, and will go into immediate operation. Much as we regret the necessity of this measure, yet, as it is indispensible to preserve the credit of the state, we rejoice that it has passed.

The Weather. For some days past, the weather has been as changeable as a lady's love. At one time clear and delightful, and then chilling and disagreeable. Rheumatic persons have predicted rain or snow, and have longed for the one or the other, that their twitchings might cease.

VERY IMPORTANT DECISION.

In Baltimore County Court—Jan. Term.

Peter Sauerwein vs. Henry Baker and John W. Clark, for certificates of deposite issued by an association, denominated "The Baltimore Real Estate Savings Institution." Also, Herman Wigman vs. N. U. Chafee; Joseph Farrow vs. N. U. Chafee; R. McEldowney & Co. vs. N. U. Chafee; and Simeon Alden vs. N. U. Chafee; also, Peter Sauerwein vs. N. U. Chafee; also, B. Blake vs. Wm. P. Rayfield, signers of sundry certificates of deposite in a concern denominated "The City Trust Savings Institution," endorsed "real estate pledged to the amount of $20,000."

All of the above cases were tried before Wm. A. Schaeffer, Esq., in December last. A. B. Wolfe, Esq., appeared as counsel for the plaintiff, Mr. Sauerwein, and Wm. P. Preston, Esq., for the Real Estate Savings Institution. It was understood that the judgment in all the cases should be governed by the result of that between Sauerwein and the Real Estate Savings Institution.

Cases involving the same principle as the above had been previously instituted before several other justices of the peace in the city of Baltimore, but it was uniformly decided by them that the plaintiffs were not entitled to recover, on the grounds of the enactment of the act of 1831, and particularly its last section, the penalties attached thereto, and for other reasons then publicly stated.

The cases involved not only questions of great legal interest, but large amounts of money, which, from its character, in the absence of specie, and its extensive circulation among all classes of society, produced great distress, especially with those who were least able to bear it. The subject was ably and elaborately argued by the counsel upon both sides.

Justice Schaeffer, after hearing the arguments, gave to the subject all the attention which its importance demanded. Having the opinions of justices of the peace publicly announced, as well as the opinions of a number of the members of the bar, coinciding with the decision of justices who had decided previously, had a delicate and difficult task, and gave to his duty much labor and great care. After thus deliberating, he decided that the plaintiffs were entitled to recover, from which judgment the defendants appealed.

The case was then argued in Baltimore County Court, by Messrs. Preston and Giles for the appellants, and A. B. Wolfe, Esq., for the appellee. It was admitted that the signatures to the notes were those of Messrs. Clark and Baker. It was also shown that the notes on file, and which formed the cause of action, had been received by the plaintiff in the course of business.

The first point established, or contended for by Mr. Wolfe, the appellee's counsel, was, that a valuable consideration was given for the notes by Mr. Sauerwein, and that the same had been received by Messrs. Clark & Baker; therefore the plaintiff had a right to recover.

2d. That the civil right to recover was not merged by the penal enactments of the act of 1831.

3d. That the Act of Assembly of 1831, declaring notes issued and circulated as currency void, was unconstitutional and impaired the obligation of contracts which competent parties had power to make in accordance with the rights secured to them by the Constitution of the United States.

4th. That the defendants were *original wrong doers*, and could not legally take advantage of *their own wrong*.

Mr. Wolfe ably and eloquently defended the above four points.

Wm. P. Preston and W. F. Giles, Esqrs. counsel for the appellants raised several points of defence.

1st. That this was an action of debt, founded upon a presumed contract between two parties, and that the contract was set forth upon the face of the notes filed. 2d. That the note was only a certificate issued by officers of an institution, as an evidence that a certain D. Morse had deposited in said institution the sum of one dollar. 3d. That there was no evidence before the court to show that P. Sauerwein had a right to recover on a certificate in behalf of D. Morse, nor was there any evidence showing that the former had received P. Sauerwein's certificate from D. Morse. 4th. That though P. Sauerwein had, or might have given a valuable consideration for the thing in question, no evidence could be adduced to show that Clark & Baker had entered into any contract with Mr. Sauerwein. 5th. That Clark & Baker could not be responsible for the notes of an institution in an *individual character*. 6th. That no evidence could be produced to show the copartnership of Clark & Baker, or that they were members of a firm known as the Baltimore Real Estate Savings Institution, and that they had not been proceeded against as such. 7th. That there was ample proof before the court to show that the *questionable* notes had been received by the appellee as currency, and that such reception was unlawful—the notes being under the denomination of five dollars, were, in the language of the Act of 1831 "*null and void*," to all intents and purposes—that the appellee, if permitted to recover, could be made amenable to the penalties of the same law or Act of 1831, for his own *wrong* in receiving such *illegal* currency, as that Act imposed a penalty upon the receiver as well as the issuer.

The counsel for the appellants seemed to have given the subject a full and thorough investigation. The case was then closed by A. B. Wolf, Esq., in a most able and eloquent manner. He exhibited a rich fund of legal information as well as classical erudition, together with keen satire and pungent wit. Upon this case, it may be remarked, depended all the others—it being agreed upon by the Court to stand as a *test case*. The other cases were subsequently ably argued by Messrs. Collins and Poe for the appellees, and Mr. Walsh for the appellants.

The subject being one of great importance, one involving the interests of thousands, was held over by the Court for advisement until Thursday last, when its decision was given, affirming that recently given by Wm. A. Schaeffer, Esq. Much credit is due to that gentleman for the care and attention which he gave to the consideration of the subject, and the correctness of his opinions sustained by the decision of the Court after full and mature deliberation.

The great importance of this decision to the whole community will be duly appreciated when we take into consideration the numbers, extensive circulation, and large amount of notes under $5, being in fact the only circulating medium, in the absence of specie as small change, now in existence, and held by every class of society in the city and county.

Had the decision of Mr. S. been reversed, every note of that denomination might have been struck dead in the hands of the holder, as the act of 1831 not only declared them null and void, but imposed a penalty of fifty dollars on any individual paying or even receiving them in payment.

BALTIMORE MARKET,
April 2, 1841.

Flour. There has been some improvement in this article since our last quotations. Sales of Howard-st have been made, common brand, at 4½, $4.56 extra. The market to-day was firm at the above quotation. Holders were not anxious to sell even at that. We quote the wagon price at $4.-31½. City Mills is held at $4.62½ for good quality.

Grain. We have been informed of sales of Maryland white wheat at 95a105 cts., and reds at 85a95 cents. We quote Maryland Rye at 50 cts. Corn has advanced a little. We quote Md. white at 45 cts., and yellow do. 46a47 cents. Oats are in demand. We quote at 26a29 cents; Virginia do. 24a25 cents. Timothy Seed, 2.75 a$3.

Provisions. This market continues without any material alteration or much animation. Mess Beef, $12.50; No. 1, $10.50; Prime, $8.50a$9. Western Bacon, assorted, 7a7¼ cts. Hams, do. 9 a9¼ cts. Middlings, 7¼ cts. Frederick county cured Bacon, of assorted quality, 7¼ cts. Baltimore cured Hams, 10a10¼ cts. Middlings, do. 8a 8¼ cts. Western Lard, in kegs, No. 1, 7 cts.—There have been but few transactions in Butter. Glades, No. 1, 18a20 cts.; No. 2, 14a18 cts.; No. 3, 9a14 cts., according to quality. Western, No. 1, 10a11 cts.; No. 2, 8a8½ cts.; No. 3, 7a7½ cts.

Whiskey. We quote hhds. at 20 cts., and bbls. 22 cts., as at last quotations. Wagon price exclusive of bbl., 19 cts.

Working classes of England. The population of Manchester *is* 250,000. A paper there says, that in Manchester and Salford, there are 18,294 persons living in cellars. An examination of 3000 families at Bury gave these results:—In 1778 houses they slept from 3 to 4 in a bed; in 307, 4 to 5; in 78, 4 to 6.

This verifies the saying most truly, that one half of the world don't know how the other half lives.

Mr. Webster's Father-in-Law Dead. We learn, with much regret, says the N. York Signal of the 1st inst., that the venerable Herman Le Roy died last evening in this city, at the ripe age of 84 years. Mr. Le Roy was one of our oldest and most respectable merchants; and, as our readers are aware, was the father-in-law of the Hon. Daniel Webster, whose recent visit to New York was occasioned by the alarming character of Mr. Le Roy's illness.

Naval. The sloop-of-war Falmouth, will be launched in a few days from the Brooklyn Navy Yard, having been fully repaired. The Steamer Fulton will also be ready for service shortly, having been repaired and fitted with Dimpiol's Smoke consumer. She will resume her place at Sandy Hook to practice with Paixhan guns, as formerly

More of the Pensacola Disaster. The N. York Sun, upon information received in that city, states that no doubt remains that Mr. William H. Brace, clerk with Robinson, Pratt & Co. of that city, and son of Thomas K. Brace, Esq., Mayor of Hartford, and Mr. Edward Hook, with Hook & Townsend, of Maiden lane, were on board the schooner. No advices have been received from them for more than four weeks past.

A Turn Out. The girls employed at the factories in Saco, Maine, have had a turn out owing to some new "regulation" which they regard as an infringement of their rights. About three hundred marched through the streets with banners. Between the music and the band they had a delightful time.

Mr. Booth's Benefit. It will be seen by the advertisement, that Mr. Booth will take a benefit at Front street Theatre this evening, in the character of Shylock, in the Merchant of Venice. The grand drama of "A Seaman's Log" will also be repeated for the last time.

State Convention of Business Men.—It is strongly recommended by several Journals of the State of Pennsylvania that a convention of business men be called on the 25th of May, at Harrisburg, to take into consideration the situation of State affairs of that State.

☞The number of temperance pledges which have been taken in Ireland amount to four millions six hundred thousand. We hope soon to be able to record double the number as having taken the pledge in the United States.

Fire. The fire yesterday morning proceeded from the partial burning of a house on the corner of Bath and Davis streets, belonging to Archibald McKewen. Supposed to have been set on fire.

Antonio, the only individual on board the Amistead, we believe, who, by universal consent, was a slave, has recently made his escape from New Haven. How far his abolitionist friends have had a hand in this affair is yet to be learned.

PUBLIC TEMPERANCE MEETINGS.

☞The several Temperance Societies will assemble at Monument Square, on MONDAY AFTERNOON NEXT, 5th April, at half past 3 o'clock, when several addresses will be delivered by distinguished friends of the cause.

A GRAND RALLY will be made the same evening at half past 7 o'clock, at the following places, in the following order: Washington and Junior Washington Societies, Light-st. Church; the W. Franklin, Mount Vernon, and W. Baltimore Societies, at Fayette street Church; the Wesley Chapel, Jefferson, and William-st. Societies, at Wesley Chapel, Sharp-st. The several Societies in Old Town, at Monument st. Church, and the several Societies on Fell's Point, at Wilk-st. Church. The Societies will occupy the centre of the churches, the ladies the gallery. The Secretaries of the respective Societies will be present to receive the names of those who may wish to unite in the great cause of Temperance.

N. B. The Committee of Arrangements would respectfully request of the citizens to close their stores, and offer to those in their employ, as far as it may be practicable, the opportunity of uniting in the celebration. They would also be much gratified if masters of vessels and others will display their flags in honor of the occasion. By order,

ap3-1t J. L. McPHAIL, Sec. Com. Ar.

RELIGIOUS NOTICE.

☞The Rev. CHARLES G. McLEAN, late of Gettysburg, will preach in the Saloon of the Law Buildings, (entrance on Lexington-st.) TO MORROW, at 11, A. M. and 4 P. M. and on each succeeding Sabbath, at the same hours. The public are respectfully invited to attend. ap3-1t*

UNIVERSALIST CHURCH.

☞Mr. SHRIGLY will preach TO-MORROW (and every Sabbath henceforth,) at 11 A. M., and 7½ P. M. The Sunday School connected with the Church meets every Sabbath at 10 A. M., in the basement of the Church. Parents and guardians, who are members of the Congregation, and all others friendly to the School, are affectionately requested to send their children. a3 3t*

LOOK HERE!

☞The "Union Total Abstinence Temperance Society," will hold their next meeting THIS (Saturday) EVENING, 3d inst. at half past 7 o'clk. at Mr. Foz's School Room, (formerly McKim's old Free School,) corner of Canal and York streets. Punctual attendance is required, as there is some very important business before the Society.

The young and old men are very respectfully invited to come and join us in this great and glorious cause.

ap3-1t* By order, JOHN H. NANTZ, Sec.

TEMPERANCE CELEBRATION.

☞The members of the "Baltimore City Temperance Society" will assemble at the corner of Baltimore and South-sts on MONDAY MORNING, April 5th, at 8 o'clock, for the purpose of joining the Procession on that morning. It is most earnestly hoped that the old members of the Society will unite with us, in their full strength, on that occasion

Members are requested to call at J. C. Keener's Store, corner of Baltimore and South streets, for their Badges. By order,

ap3-2t* ABEL S. DUNGAN, Sec'y.

NOTICE.

☞YOUNG MEN'S CENTERAL TOTAL ABSTINENCE SOCIETY. The members of this Society will meet on MONDAY MORNING, 5th inst. at 7 o'clock, in front of the CITY SPRING, Calvert-st. and will move from thence to their post in the Procession. The members are requested to be punctual in their attendance.

N. B. All persons, young men especially, disposed to join the Society and participate in the Procession, are cordiately invited to attend.

Come to the crystal spring, oh! noble band,
And in the ranks of Temperance take your stand;
'Tis yours full many a noble youth to save
From utter ruin, and a wretched grave.
Come, join the cause—crush the demon's reign,
Break his proud yoke, and spurn his galling chain.

JAMES A. AULD,

a3-1t* Chief Marshal Y. M. C. T. A. S.

NOTICE.

☞The members of the Western Franklin, auxiliary No. 1 to the Washington Temperance Society, are notified that a meeting will be held in Schroder's Woods on SUNDAY AFTERNOON, at 3 o'clock. All who feel disposed to join, and are friendly to the cause, are respectfully invited to attend. The members are also requested to be punctual in their attendance on Monday morning, 5th inst. at half past 6 o'clk, in front of Emory Chapel, Biddle street.

THOS GAMBRILL, Fin. Sec.

ap3-1t JNO. M. WALKER, Rec. Sec.

NOTICE.

☞The members and all youths wishing to become members of the Junior Marion Total Abstinence Society, are earnestly requested to attend the meeting to be held THIS (Saturday) EVENING, at half past 7 o'clock, at the Marion Temperance Hall in Ensor st., two doors above the Independent Engine House, O. T.

As the arrangements for the procession, and other business important to the Society, must be attended to at this meeting, we want every member to favor us with his presence. By order,

WM. A. BAKER, Pres't.

J. G. C. Allbaugh, Sec'y. ap3-1t*

NOTICE.

☞The members of the Mount Vernon Temperance Society, auxiliary No. 3 to the Washington Temperance Society of Baltimore, will meet for parade on MONDAY MORNING NEXT, 5th April, at half past 6 o'clock, in front of the Howard street Chapel.

By order of the Chief Marshal,

ap3-1t* FRANCIS M. BAUGHMAN, F. Sec.

☞The members of the "CRYSTAL FOUNT TEMPERANCE SOCIETY" are requested to meet in Exchange Place on MONDAY MORNING, at 7 o'clock, without fail. All Brothers of the "Order," who have not yet joined, are requested to come up and celebrate the day with us. By order,

ap3 1t* NICHOLAS SPEAKS, Marshal.

☞The JEFFERSON TEMPERANCE SOCIETY will hold a Public Meeting at the Lexington Market House TO-MORROW (Sunday) AFTERNOON, at half past 4 o'clock. Come and join us in time for the Procession on the 5th. By order,

ap3-1t T. J. WOLFE, Sec'y.

SIX CENTS REWARD.

RANAWAY from the subscriber, in Georgetown, D. C., on Sunday morning, March 28th, THOMAS HILTON, an indented apprentice to the Dyeing Business—he is about 17 years old, well grown in height, is slender and very forward and pert. Had on when he left, a blue round jacket and pants, and fur cap. The above reward will be given for his apprehension and delivery to me, but no charges paid. GENERAL AGENCY OFFICE,

BY GEORGE GELBACH,

N. W. Corner of Baltimore and Frederick-sts.

ALL PERSONS wanting HELP of any kind, either male or female, will find it to their advantage and convenience to apply at this office, where they will be supplied with the particular aid they may require with the utmost promptitude.

There has been a prevailing impression among some persons, that those who apply at an office of this kind are worthless and incompetent, and cannot obtain employment by any other means. This is a great misconstruction of the true merits of the case, altogether a wrong impression. Why censure them for obtaining employment by this convenient and speedy mode—which should be obviously more proper than advertising, thereby spending their money upon uncertainty, or to solicit employment from door to door. Nay, there is more certainty of obtaining worthy industrious persons through this office, than by any other possible means. No charge is made at this office, unless the object of their call is realized

WANTED. Gardeners; Farm hands; Overseers and Managers; Coachmen; Waiters; Hostlers; Mechanics and Apprentices to various trades; Laborers; Barkeepers, Clerks, &c. to fill situations now vacant.

BOUGHT OR SOLD ON COMMISSION.

At Private Sale—Stores, Taverns, Bar Rooms, and all kinds of Business Establishments. SLAVES for life or a term of years, disposed of, and the very highest prices obtained. Those having Slaves they wish to sell, will find it greatly to their advantage to apply at this office.

TO THE INSOLVENT.

Applicants can have their Papers on the lowest terms and all other arrangements accomplished.

JAMES A HENDERSON, Begs leave to inform his friends and the public generally, that he has made such arrangements as will put him in possession of a constant supply of French, English, and American LEATHER, of the finest quality, which he would be pleased to manufacture in BOOTS, SHOES, or PUMPS, for those who may favor him with their orders. He takes pleasure in stating that he has secured the services of Mr. DAMERSON, (formerly in the employ of Mr. Ackland) who will attend especially to the Cutting Department. With those facilities, the subscriber promises to present his BOOTS, SHOES, and PUMPS, and all other articles in his line, with a neatness of workmanship that cannot fail to please those who may favor him with a trial. He would take this opportunity to return his sincere thanks to his customers for their liberal patronage for past years, and hopes, by a strict attention to business, a continuation of the same. GREAT LUCK. By returns of the Maryland Lottery, class No. 26, drawn on the 29th, the Grand Prize of $20,000 was drawn to comb. 4, 28, 50, besides several other handsome prizes, were sold. Luck has crowned the enterprize of our customers as well as ourself, in a manner seldom if ever equalled. We have sold more prizes than even our most sanguine hopes had anticipated. Scarcely a day but we have had the satisfaction of tendering to some fortunate adventurer the welcome intelligence of his having drawn a handsome prize. Thus have we made glad the hearts of hundreds—thus have we been instrumental in opening the avenues of fortune to those whom fancy had taught us to believe that the star of their future prosperity had set forever.

SATURDAY, 3d, Virginia State Lottery, class D, to be drawn at Alexandria, Va. Capitals of $30,000, 10,000, 30 prizes of 1000 &c.

MARYLAND LEGISLATURE.

ANNAPOLIS, April 1, 1841.

HOUSE OF DELEGATES. The House again met yesterday afternoon at five o'clock, when the following business was transacted.

Mr. Bowie, from the Committee on Ways and Means, submitted a resolution authorising and directing the Commissioner of Loans to borrow on the credit and for the use of this State, at a rate of interest not exceeding six per cent. per annum, and at such times and in such sums as the treasurer of the Western Shore shall advise, not exceeding five hundred thousand dollars, to be made payable twelve months after the date of each loan out of the proceeds of the tax directed to be levied by the act of the present session, entitled an act for the general valuation and assessment of property in this State, and to provide a tax to pay the debts of the State, and the revenue thence to be derived as well as the faith of the State, is hereby appropriated to and pledged for the punctual payment of the said loans, both principal and interest.

And further, that if any Bank in this State, whereof the State is a Stockholder, shall purchase of the Commissioner of Loans the stock thereof belonging to the State upon such terms as the Treasurer of the Western Shore shall approve, and shall comply with the said terms, the right of the State to appoint Directors in said Bank, shall thenceforth cease.

The resolutions were assented to.

On motion of Mr. E. A. Lynch, the House proceeded to the consideration of the order of the day, being the bill for the completion of the Canal to Cumberland. The House adjourned without disposing of the bill. It will be taken up to-day.

This morning Mr. Legrand presented the memorial of merchants and others of the City of Baltimore, praying some action in relation to the scrip of the Chesapeake and Ohio Canal Company. Referred.

Mr. Seidenstricker presented the memorial of David Grieves and Cornelius Ryan of Baltimore, praying to be exempted from the operation of the Law relating to huckstering of fire wood in Baltimore—passed Dec. session, 1840.

Mr. Seidenstricker also presented the petition of a majority of the members of the City Council of Baltimore, praying that the property of David Grieves and Cornelius Ryan may be exempted from the operation of the act of Assembly of Dec'r. Session, 1840, relating to huckstering fire wood in Baltimore. He also presented the petition of David Robb, and others of Baltimore in relation to a bill authorising the Mayor and City Council of Baltimore to license Wood Hucksters in said City.

Mr. Presstman presented the memorial of sundry citizens of Baltimore opposed to a further appropriation at this time to the Chesapeake and Ohio Canal, which was read and ordered to lie on the table.

Mr. Tuck, from the Committee on Grievances and Courts of Justice, to whom was referred so much of the Governor's message as relates to the Constitutional rights of slaveholders, and the case of Bemis and others pending in the Supreme Court of the U. States, delivered a report with resolutions. The report and resolutions were concurred in and 666 copies ordered to be printed.

The bill from the Senate, authorising the Tide Water Canal Company to issue Toll notes to a limited amount, on the pledge by mortgage of its works and property, was reported favorably on from the committee on internal improvement, and passed.

On motion of Mr. E. A. Lynch, the House resumed the consideration of the order of the day, being the bill entitled an act for the completion of the Canal to Cumberland.

SENATE. The Tax Bill passed to-day, yeas 13, nays 6.

A bill was reported and passed to make valid a deed from Charles R. Bland of Baltimore county to Helena Stewart of Baltimore city.

Mr. Howard of Baltimore city, had leave to report a bill for the relief of Alexander Nisbet and wife.

The resolution authorising the Commissioner of Loans to borrow money, &c. was passed.

MORE PROOFS of the efficacy of Doctor SWAYNE'S COMPOUND SYRUP OF WILD CHERRY.

To DR. SWAYNE.

Dear Sir—The time has been, when I would not recommend a medicine advertised in the public prints over my own signature; I now feel different—I feel it my duty to inform the afflicted where they may find relief. I was reduced, by a protracted COUGH for six months, to a mere skeleton; no rest at night; soreness and pain in my breast, side, &c. Suffice it to say, I used your *Compound Syrup of Wild Cherry*, which in a few weeks relieved me effectually. I am certain that, had it not been for your medicine, I should now be in the silent grave. Let no person delay, but procure your Syrup and be relieved of their COUGHS and COLDS, as they are dangerous companions, and often lead to dangerous consequences

Your friend, ABRAHAM SKINNER,

THE TRIUMPH OF TEMPERANCE.

(INSCRIBED TO THE W. T. S.)

AIR—"Look out upon the stars, my love."

The orb of Temp'rance, beaming bright,
Pours forth a brilliant flood;
Dispelling darkness, chasing night,
And scatt'ring peace abroad.
Our spotless flag is high unfurl'd,
To dust Intemp'rance shall be hurl'd;
And joy shall reign throughout the world,
For Temp'rance shall prevail.

We'll raise our snowy banners high,
And rally 'neath its folds;
Our shouts shall roll along the sky,
While raptur'd earth beholds
The glowing vict'ries of the free;
She'll strike the swelling jubilee;
And chaunt the tyrant's elegy;
And give the praise to God.

Then men shall drink the cooling rills,
That brightly, sweetly flow,
From mountain heights, and verdant hills,
And flow'ry vales below.
Then peace shall reign without alloy,
Intemperance shall no more annoy;
Unmingled bliss shall all enjoy,
For earth shall be redeem'd.

Let mountains, hills, and valleys join,
To swell the glorious strain;
Let rivers, streams, and brooks combine,
And e'en the mighty main;
In thunder-tones let all proclaim,
We've blotted out the tyrant's name,
We'll give the glory and the fame
To God, who all hath wrought. G. W. M.

SHALL I SUCCEED?

A Leaf from Life.

"Hope ever gets the better of distrust."

"We must part then," said Rosalie—"is it so? Ah! Eugene, I confess I tremble for you. Thrown out under such circumstances, at this time of life, to push your way into the world, what toils, what disappointments and sufferings may await you. What chance can there be for the young, poor, and friendless, where prosperity laughs at misfortune, power tramples on weakness, and temptation preys upon inexperience!"

"A dreadful picture is that you have drawn of the great world, my dear Rosalie," said Eugene smiling. "Suppose we view it in another light. Let us consider it as one vast and glorious amphitheatre, upon whose arena, genius and industry, exertion and talent, are striving for the rewards which await the meritorious."

"And how many hearts," rejoined Rosalie sadly, "are broken in the conflict! How many are trodden down beneath the feet of the aspirants! If one succeeds, yet how many are foiled. Besides, others have friends to help them—you have none. None but one, and she can only aid you by her prayers. Others have wealth—you are poor. Your path is solitary before you—neither influence nor fortune smiles upon it."

"It is then under the most favorable circumstances that the greatest and most successful characters are formed," replied Eugene proudly.—"The oak of the mountain or the forest is not matured in a hot-house, but strikes its roots, rears its branches, amid the winds and storms of its native skies. Look around you, Rosalie. Is it the nursling of wealth, of fortune, who has dandled into manhood on the lap of prosperity, who carries away this world's honors, or wins its mightiest influence? Or, is it not rather the man whose earlier years, like mine, were scarcely cheered by a single proffer of aid, or smile of approbation, and who has drawn from adversity the elements of greatness? You take it for granted, that I shall be weak, unsuccessful, and unfortunate. I have the confidence to believe that I shall be neither."

"You know not the future, my dear Eugene—how many misfortunes may be in store for you—and at the best, how much toil, how many anxieties, how many sorrows, may cluster around your desolate path, and must inevitably attend upon the duties and difficulties of the most arduous professions!"

"Out upon thee, for a bird of ill-omen!" said Eugene laughing. "Do you not know that fortune ever flees the faint heart! And as to difficulties, the greater the conquest—the greater the glory. You speak of sorrows—they are in degree the common lot of all."

"But most have friends or other blessings to aid in bearing them."

"True."

"But you, if you fail—if your favorable objects elude your grasp—if your vision of ambition flees before you, or vanishes away—if treachery betrays and wounds you—what have you then for consolation?"

"Hope, Rosalie, hope, and your sweet self."

"Nonsense—this is nonsense, Eugene."

"By your leave no: and so says that sweet smile, which, pardon me—demands return.—There! I've done the deed—and now suffer *me* to tell you, Rosalie, there is nothing which industry will not achieve, when combined with perseverance, and directed with an undivided aim, to one great object. Think you that poverty is a sure prelude of failure. Do you recollect what Napoleon, the counsellor of Josephine, told her on the eve of her marriage with Napoleon? "You are about to do a foolish thing, Madame: you are going to marry a man who has not a second shirt to his back!"

"But you are not exactly a Bonaparte, I apprehend," said Rosalie smiling.

"Humph! Well, never mind, I like splendid examples."

"Bonaparte was a soldier, and not a lawyer. He was aided by a concurrence of accidental circumstances," continued Rosalie.

"Well, we will talk of lawyers, then. A wealthy Englishman once asked Lord Kenyon what he thought of the prospects of his son, in the legal profession. Your son does not want talents, was his reply, but he must *first* spend his own fortune, marry and spend his wife's fortune—and then there will be some hopes of his succeeding at the law." Now luckily, my dear, I have not the preliminary of spending—two fortunes to go through, before I may succeed at the law.

"That's very true, but not very comfortable, Lord Kenyon to the contrary, notwithstanding," said Rosalie.

"What think you, Rosalie? There was a young shoemaker out here in Connecticut, once on a time, who took it into his head to be a lawyer."

"A shoemaker!"

"And why not? he was two-and-twenty years of age when the idea, or fancy first struck him—entirely uneducated, except in a common school—poor and not only dependant but having others dependant on him. Was not this folly?"

"What then?"

"Why he took his book and placed it before him thus, and with his last upon his knees, and his hammer in his hands, he read and hammered, and hammered and read, from morning till night."

"And what was the result?"

"He became a lawyer."

"I suspected as much," said Rosalie.

"And a member of Congress," continued Eugene, "and Chief Justice of the State! in fine—"

"In fine!"

"In fine, Roger Sherman."

"Roger Sherman!" exclaimed Rosalie.

"The same. Shall I speak of Franklin?"

"Oh, ha! no," said Rosalie, "his story is worn out already."

"I could tell you a tale of English lawyers, for variety."

"What is it?"

"All in good time. There dwelt, during the last century, in the town of Berwick upon Tweed, (which, by the way, my Lord Coke says is no part of England)—no, I'm wrong—in Newcastle upon Tyne, a coal merchant, or corn merchant, just as you please, by the name of Scott. Owing to his embarrassed circumstances, he was unable to afford his children the advantage of university education, and could only send them to a grammar school in their native town, where they accordingly began and completed their classical education. Was not this an auspicious beginning?"

"Go on—go on," said Rosalie.

"Nay, remember these youths were intended for the bar in—England, too—where the friendless and untitled are obliged to contend with ten times the difficulties which oppose them here. What would Rosalie have said, suppose this John or William were a lover of her's and he were about to leave his home for the metropolis—the great London—to commence the study of his profession in the Inn's of Court?"

"No matter—go on."

"Well, John and William occupied the same chambers together, and pursued the same studies. Poor, friendless and unaided, twelve long tedious years, (these English lawyers, by the by, have to undergo something of a quarantine,) twelve years they devoted themselves to their solitary pursuits. At the end of that time, the elder was admitted to the bar."

"And how did he succeed?"

"Why, badly at first. His awkwardness and imidity stood in his way; few expected any thing of him, and some even ridiculed his attempts to succeed. But he found a friend. Friends are not such bad things after all, my dear. His friend aided in bringing him out, and after some years of obscurity, he suddenly burst forth upon the world, a star of the first magnitude. His business *rapidly increased*; he became a member of Parliament; then Solicitor General; then Attorney General; then Sir John Scott; and then"—

"Then what?"

"Lord Eldon, and Lord Chancellor of England."

"And William?"

"Was made Judge, and became Lord Stowell."

"Both Lords."

"Nothing more not less, my dear girl. And the decrees of the one were as right and irreversible as those of Minos, while the decisions of the other are splendid monuments of his genius, acuteness and wisdom."

"Well, perhaps you may succeed. You are certainly sanguine enough—and confidence is half the battle."

"'*Possunt quoi possevidentur.*' You acknowledge so much, do you, my sapient little counsellor? But you were speaking of toils, Rosalie. Now as to this matter, I would adduce the opinion of Lord Chancellor King—(I like these great names,)—whose motto was"—

"What?"

"'*Labor ipse voluuts.*" Which being interpreted, doth signify, (as my Lord Coke would say) "Labor is of itself a pleasure."

"There is no contending against such authorities."

"You give it up then, do you?" said Eugene, laughing.

"But stop," said Rosalie; "because Scott became Lord Chancellor, and Sherman Chief Justice, does it follow that you are to be—"

Lord Chancellor or Chief Justice? Not at all my dear. But it *does* follow, I apprehend, that with industry and good fortune, I may, in the "Far West," provide for myself and Rosalie a home and a livelihood. So good bye!—don't cry, now, God bless you, my dear girl."

MORE OF C. T. MITCHELL. The New York Signal of the 3d inst. has the following:—"We learn that this individual committed a forgery in the name of a gentleman of our city to the amount of about $1400, some two years ago. When the fact was discovered by the gentleman in question, he promised, out of regard to Mitchell and his connections, to keep the affair a secret—and he did so up to the time of his hearing that Mitchell was an applicant for the office of Navy Agent for New York. He then very properly communicated the circumstances to the Hon. Mr. Grinnell, who thereupon opposed and defeated Mitchell's application.

"It appears that the amount of forged cheques disposed of by Mitchell in Wall street was about $1300, and it further appears that similar checks were sold by him in Philadelphia to the amount of some $2000 more."

TROUBLE. Every day brings accounts of the most disgraceful outrages having been committed by the Canadians at the late election. The last was a general row in a procession, where several were killed.

SMALL POX. This disease is said to be very severe at present among the blacks at N. Orleans.

STATE TAXES. The tax bill recently passed by the legislature, contains sixty-four sections, and is too long for insertion in our paper. The following sections of the bill are the most important. The tax to be levied is twenty cents upon every hundred dollars, cash valuation; so that every man will be able to make a tolerably correct estimate of the amount which he will have to pay. The assessors are named in the law; and, to facilitate the assessments, the city of Baltimore and the counties are divided into districts. Baltimore is divided into six assessment districts, and the assessors are, 1st district. John W. Randolph, Henry R. Lauderman; 2d. George Grape, William Johnson, Samuel D. Legrand; 3d. Nicholas Brewer, Hugh Bolton, John Finley; 4th. Philip Muth, jr., John Patterson, Matthew Shaw; 5th. Hamlett Duvall, James Curley, James George; 6th. Rezin Wight, Abraham G. Cole, Walter Ball.

Section 1. *Be it enacted by the General Assembly of Maryland*, That all real and personal property in this State, all chattels, real and personal, all goods, wares and merchandises, and other stock, in trade at home, or not permanently located elsewhere, the interest or proportion in all ships and other vessels, whether in or out of port, owned by persons residents of this State, all debts secured by or due on judgment, decree, mortgage, bond, bill of exchange, promissory notes from solvent debtors, except debts due for goods sold and delivered after the passage of this act, and bank notes; all stocks or shares owned by residents of this State in any bank, institution, or company, incorporated in any other state or territory, all debts due to residents of this state by solvent debtors residing out of this state, except debts due for goods sold and delivered after the passage of this act, all investments in securities, or stocks of other states, made or held by residents of this state, all public loans and stocks whatsoever, (except those created or issued by the United States,) owned or held by residents of this state, all stocks or shares in any bank, institution or company, incorporated by this state, and all other property of every description whatsoever, shall be valued agreeably to the directions of this act, and shall be chargeable according to such valuation with the public assessment; *provided*, that nothing herein contained shall be construed to authorize the assessment of or levy of, any tax upon property belonging to the United States, to this State, or to any county or city in this State, or to any incorporated literary or charitable institution, county schools, houses for public worship, burying grounds, the crop and produce of lands in the hands of the producer, or his, her or their agent, provisions for the use and consumption of the person to whom the same shall belong, and his or her family, plantation utensils, the working tools of mechanics and manufacturers moved or worked by hand, and the produce of their respective occupations whilst in their possession or the possession of their agents, wearing apparel, fish at the time fishermen may be employed in catching, salting and packing the same, or while they remain in their possession or that of their agents unsold, household manufactures, judgments, bonds, mortgages, promissory notes, or other securities belonging to any bank or other incorporated institution, the capital stock whereof is made subject to taxation by the provisions of this act, nor to any goods, wares, merchandises, or other property belonging to persons not residents of this state, in the hands of factors in this state for sale.

Sec. 9. *And be it enacted*, That it shall be the duty of the said assessors in their several counties and districts respectively, to make diligent inquiry, and inform themselves by all lawful ways and means of all the property in their respective counties and districts, of every description whatsoever which shall be liable to assessment under the provisions of this act, and to value the same in the names of the owners thereof respectively, at the full cash value thereof; and all property owned by persons residents of this State, and not permanently located elsewhere, within this State, shall be valued to the owner in the county, district and city wherein he or she may reside, and they shall specify in their returns to be made as hereinafter mentioned, as far as may be practicable—

1. The names of the tracts or parcels of land or other description thereof owned by each individual, with the quantity of acres therein, and value thereof.

2. LIEUT. HUNTER'S EXPERIMENT. A desideratum in the application of steam power to national vessels and for the navigation of canals has been effected and practically proven by the actual and entirely successful operation in our harbor of a small vessel constructed by private enterprize and at individual cost. We have seen a plan in detail of the arrangement of the machinery and the construction of the vessel designed for national purposes, which is in our opinion properly withheld by Lieut. Hunter from the general public in order that our Government may peculiarly receive all the benefits derivable from its use, and we feel that we hazard nothing in declaring that it will be found to have accomplished all that is desired for the perfection of a war steamer for harbor defence or as a cruiser, as the moving power by the ingenious construction of the vessel is protected from the effects of Paixhan or any other shot.—*Norfolk Beacon*

DAILY SOUTHERN MAIL,
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that the boats of their line consisting of the ALABAMA, Captain Sutton; GEORGIA, Captain Codey; and JEWESS, Captain Holmes, having undergone a through overhaul during the past winter, are now in complete order; therefore the daily line to the South via NORFOLK and PORTSMOUTH will be resumed on Monday the 15th of March, and run in accordance with the following schedule until changed by the Post Office Department.

Leaving Baltimore daily at 4 o'clock, P. M.
Arrive at Portsmouth, at 7 " A. M.
Leaving Portsmouth, at 8 " A. M.
Arrive at Weldon, at 4 " P. M.
Wait there until 1 o'clock, A. M. for the Petersburg train.
Leave Weldon at 1 o'clock, A. M.
Arrive at Wilmington at 1 o'clock, P. M.
Leave Wilmington immediately and arrive in Charleston next morning to breakfast.

It will be seen by the above schedule that in order to render the connexion certain, it is only necessary for the Cars of the Portsmouth and Roanoke Rail Road to arrive at Weldon prior to 1 o'clock, A. M. whereas they uniformly arrive before dark—if therefore a detension should take place at any point between Baltimore and Weldon, not occupying more than NINE HOURS, the traveller can by no possibility lay over at any point north of Wilmington. RETURNING, one of the above boats will leave Norfolk every night at 10 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departure from Portsmouth. The passengers having enjoyed all the comforts of a good nights rest, and partaken of as good fare as could be provided in the very best Hotel in the Country.

Travellers bound to Richmond or Petersburg by leaving Baltimore on Monday, Wednesday or Friday, sleep on board the bay boat, are transferred to the James River boat next morning, and arrive at their place of destination the same day by 3 or 4 o'clock, P. M.

GENERAL AGENCY OFFICE,
BY GEORGE GELBACH,
N. W. Corner of Baltimore and Frederick-sts.

ALL PERSONS wanting HELP of any kind, either male or female, will find it to their advantage and convenience to apply at this office, where they will be supplied with the particular aid they may require with the utmost promptitude.

There has been a prevailing impression among some persons, that those who apply at an office of this kind are worthless and incompetent, and cannot obtain employment by any other means. This is a great misconstruction of the true merits of the case, altogether a wrong impression. Why censure them for obtaining employment by this convenient and speedy mode—which should be obviously more proper than advertising, thereby spending their money upon uncertainty, or to solicit employment from door to door. Nay, there is more certainty of obtaining worthy industrious persons through this office, than by any other possible means. No charge is made at this office, unless the object of their call is realized.

WANTED. Gardeners; Farm hands; Overseers and Managers; Coachmen; Waiters; Hostlers; Mechanics and Apprentices to various trades; Laborers; Barkeepers, Clerks, &c. to fill situations now vacant.

BOUGHT OR SOLD ON COMMISSION.

At Private Sale—Stores, Taverns, Bar Rooms, and all kinds of Business Establishments. SLAVES for life or a term of years, disposed of, and the very highest prices obtained. Those having Slaves they wish to sell, will find it greatly to their advantage to apply at this office.

TO THE INSOLVENT.

Applicants can have their Papers on the lowest terms and all other arrangements accomplished.

MONEY procured on mortgages and other security.

WINTER ARRANGEMENT.
GREAT SOUTHERN
UNITED STATES' MAIL LINE,
DAILY TO THE SOUTH.
The ONLY LINE carrying the GREAT MAIL, and the only DAILY LINE!

TRAVELLERS FOR THE SOUTH, are informed that, by taking the Cars at Baltimore for Washington at 4 P. M., they proceed, via Washington, Fredericksburg, Richmond, Petersburg, Weldon, and Wilmington, N. C. to CHARLESTON, S. C., reaching Charleston the *second morning* after leaving Baltimore, and one day in advance of the Bay Line—the Companies on the route being bound by the Postmaster General to make the following quick Schedule:

Leave Philadelphia	8 A.M.	reach	Baltimore	2 P.M.
" Baltimore	4 P.M.	"	Washington	6 P.M.
" Washington	5 A.M.	"	Fredr'ksburg	10 A.M.

" Weldon	1 A.M.	"	Wilmington	1 P.M.
" Wilmington	1 P.M.	"	Charleston	at 5 the next day.

As this Line carries the Great Mail, (which cannot be delayed,) and is almost entirely a Rail-Road Line, it will be perceived at once, that the Traveller, unless in some extraordinary contingency, is *sure of a connection throughout*, whilst it is evident that Foggs, Rocky Weather and Storms!!! must often occasion delay in a Route, more than two-thirds of which is by the Bay—the traveller being also subjected to Sea-sickness, and incurring unnecessary risk, from Boats being urged to the top of their speed, to compete with the more DIRECT ISLAND ROUTE.

☞ The above line will be found not only the most certain and expeditious, but the most attractive, as it passes through the Seat of Government, and in sight of Mount Vernon by daylight, and through Fredericksburg, Richmond, and Petersburg, the largest and most flourishing towns in Virginia. It is also cheaper to Richmond, and as cheap as the Bay route to Weldon, and travellers have no expense or trouble with their Baggage.

☞ This is much the nearest, quickest, and cheapest route to the interior of *Virginia, North and South Carolina*—at Petersburg, Va. commences the route by way of Raleigh, N. C.—145 miles of Rail Road from Petersburg to that city. Stage Lines branch off from Raleigh Rail Road to the old Piedmont Line, to Milton, Danville, &c., and to Knoxville, (Tenn.)

☞ *This is the only Daily Line to Richmond and Petersburg.*

THE MARYLAND ARCADE
Against the WORLD for CHEAP HATS!

THE Subscriber takes this method of informing his friends and the public generally, that he has now on hand a large and general assortment of HATS of his own make, which he is determined to sell low for cash. His prices are uncommonly low for the quality of the Hats: Splendid Russia Hats at $3.50; fine Short Nap Silk Hats, made on Russia bodies, warranted water-proof, for only $2.50; Fur Hats, from 1.50 to $3 00; Clipt Nutre Hats $4; Clipt Beaver Hats 4.50; White Russia Hats, at from 2.50 to $3.50. He would invite the public to call and examine his Hats, for he is confident there is no Hats in the city to compare to his at the above prices. All Hats purchased of me will be ironed over and put in shape free of charge.

TO THE PUBLIC.—The price of HATS again lowered. TOWSON is now selling in Eutaw street, one door north of Lexington street, his superior Hats at the following low prices—fine short Nap Mole Skin Hats at $2 50, fine Brush Hats $2 50; Fur Hats from $1.50 upwards. It may be asked how such Hats can be sold (if as represented) at such very low prices; I answer in the first place, I manufacture very extensively, and am able to purchase materials by the quantity much lower than if I bought by the small; and secondly, I sell for cash, and do not have to charge those who pay a high price, to make up for those who do not pay, as the natural result of the credit system. I think my Hats the best as now offered over sold in this market for the price. Persons will please call and look at my hats before purchasing elsewhere. Remember TOWSON, one door from Lexington street.

BALTIMORE CLIPPER.

MONDAY MORNING, April 5, 1841.

DEATH OF THE PRESIDENT.

It is with feelings of the deepest sorrow we announce the death of General WILLIAM HENRY HARRISON, President of the United States. He expired on yesterday morning, at 30 minutes before one o'clock. For several days previous the public mind was kept in a state of constant solicitude on account of his illness, and the arrival of the cars from Washington, morning and evening, was awaited with great anxiety. On Saturday evening the information was favorable, and sanguine hopes of his recovery were entertained; but the arrival of the cars yesterday morning terminated all suspense by the announciation of his death. He expired after one week's illness, precisely one month from the day of his inauguration as President. He came into power by the acclamations of the people, and gave promise of an administration of unexampled unanimity and prosperity:—the sudden termination of his life will, therefore, be received with universal lamentation. His career, as a public man, has been brilliant, patriotic and beneficial to his country. In the various public stations which he has filled, he received the sanction of his own conscience and the approbation of his country—for he administered all trusts with rigid honesty, and with an unwavering respect for the rights and interests of the people. As a private citizen his character was unimpeachable. His bereaved consort had not the satisfaction of soothing his last hours, but she will have the consolation to know, that the efforts of medical skill and the affectionate attentions of relatives and friends were unremitted to the last moment of his existence.

Since the above was in type we have received the circular from the members of the cabinet, announcing this melancholy event, which we annex.

DEATH OF THE PRESIDENT.

City of Washington, *April* 4, 1841.

An all-wise Providence having suddenly removed from this life, WILLIAM HENRY HARRISON, late President of the United States, we have thought it our duty, in the recess of Congress, and in the absence of the Vice President from the Seat of Government, to make this afflicting bereavement known to the country, by this declaration, under our hands.

He died at the President's House, in this city, this fourth day of *April*, Anno *Domini*, 1841, at thirty minutes before one o'clock in the morning.

The people of the United States, overwhelmed, like ourselves, by an event so unexpected and so melancholy, will derive consolation from knowing that his death was calm and resigned, as his life has been patriotic, useful and distinguished; and that the last utterance of his lips expressed a fervent desire for the perpetuity of the Constitution, and the preservation of its true principles. In death, as in life, the happiness of his country was uppermost in his thoughts.

Daniel Webster, Secretary of State.
Thomas Ewing, Secretary of Treasury.
John Bell, Secretary of War.
J. J. Crittenden, Attorney General.
Francis Granger, Postmaster General.

THE FUNERAL ARRANGEMENTS.

The following official order of arrangements for the funeral of the late President was received by last night's cars.

Washington, April 4, 1841.

The circumstances in which we are placed by the death of the President, render it indispensable for us, in the recess of Congress, and in the absence of the Vice-president, to make arrangements for the funeral Solemnities. Having consulted with the family, and personal friends of the deceased, we have concluded that the funeral be solemnized on Wednesday the 7th instant, at 12 o'clock. The religious services to be performed according to the usage of the Episcopal Church, in which church the deceased most usually worshipped. The body to be taken from the President's House to the Congress burying ground, accompanied by a military and a civic procession, and deposited in the Receiving Tomb.

The military arrangements to be under the direction of Major General Macomb, the General Commanding in Chief the Army of the United States; and Major General Walter Jones, of the militia of the District of Columbia.

Commodore Morris, the senior Captain in the Navy now in the city, to have the direction of the naval arrangements.

The Marshal of the District to have the direction of the civic procession, assisted by the Mayors of Washington, Georgetown and Alexandria, the Clerk of the Supreme Court of the United States, and such other citizens as they may see fit to call to their aid.

John Quincy Adams, ex-President of the United States, members of Congress now in the city or its neighborhood, all the members of the Diplomatic body resident in Washington, and all officers of Government, and citizens generally, are invited to attend.

And it is respectfully recommended to the officers of Government that they wear the usual badge of mourning.

Daniel Webster, Secretary of State.
Thomas Ewing, Secretary of Treasury.
John Bell, Secretary of War.
J. J. Crittenden, Attorney General.
Francis Granger, Postmaster General.

Military meeting. A large meeting of the military took place at Jamart's yesterday afternoon Col. N. Hickman in the chair. The object of the meeting was to express their regret at the melancholy decease of President Harrison. It was unanimously resolved that the First Military Association of Baltimore should attend the funeral of the President, extending an invitation to the officers and non-commissioned officers of the entire Light Division to join them.

Mr. Henry Diehman presented the association with an original Funeral March, composed expressly for the occasion. It was unanimously accepted, and is to be performed by the bands engaged by the committee of arrangement.

The association is to meet again this morning at 10 o'clock.

Our City Yesterday. After the melancholy intelligence of President Harrison's death had been received in our city yesterday morning, a gloom seemed to pervade every countenance. The solemn truth was announced soon after the arrival of the Washington cars by the tolling of bells. This we have no doubt brought home the startling fact to hundreds ere they had left the couch of repose. The star spangled banner could be seen waving in various parts of our city. Its folds were drooping as if conscious that it had been forsaken by a devoted patriot, and Heaven lent tears that it might weep for the departed Hero.

The most beautiful allusions, we have been informed, were made in relation to the President's death by those officiating in the various churches—many were unable to restrain the tear of sorrow. It was indeed a day of touching melancholy.

☞ By the demise of General Harrison, John Tyler, elected Vice President, becomes President of the United States, to serve for the balance of the term for which General Harrison was elected; and the president *pro. tem.* of the Senate will act as Vice President.

ON THE DEATH OF WM. HENRY HARRISON, *Late President of the United States.*

(BY J. H. HEWITT.)

The wail hath gone forth o'er the land of the free,
And the heart of the patriot chills at the cry;
Our banner hangs lowly o'er land and o'er sea
And the name of the hero is breathed with a sigh.

And hark! from the distance the heavy guns boom,
They once belch'd their thunder and flame on the foe;
And the iron-tongue knells out its music of gloom,
While the sturdy heart quails at the requiem of woe.

From the confines of Maine to the Sabine's wild flood,
From Atlantic's broad waves to the peaks of the west,
Shall the wail of a nation fill valley and wood,
And the hand of the freeman smite hard on his breast.

He stood like a monarch oak breasting the storm,
Which party had raised round the spot where it grew,
Unmoved were its branches, unshaken its form,
By the lightnings that flashed or the whirlwind that blew.

The proud ship of state on a turbulent sea,
Like a feather was toss'd, while tempests o'erwhelm,
The crew look'd aghast at the rocks on her lee
But Hope beam'd again when the sage took the helm.

The old man has gone—rich in honor and years,
A long life of glory, tho' still far too brief;
His foes are now silent—his friends are in tears,
And the rancor of party is smothered in grief.

Let him rest—let him rest, for the struggle is o'er,
The Giver of all hath sent forth his decree;
His voice shall be heard in our Councils no more,
But his epitaph's writ in the hearts of the free.

Temperance Procession. The procession to-day, of the Washington and other Temperance Societies, and of deputations from other places, will be a cheering and delightful spectacle. It will exhibit the triumph of moral principle over self-indulgence; presenting an example elevating and instructive. It requires no ordinary degree of fortitude to relinquish the gratification of a propensity which, by indulgence, has been formed into a habit. The individual, therefore, who successfully makes the effort, deserves the highest commendation. The Washington Temperance Society originated with a few individuals who, convinced that total abstinence from intoxicating drinks, was not only conducive to health and the preservation of reputation, but was a duty enjoined by morality and religion, mutually pledged themselves to each other to abstain from their use. From this small beginning, the temperance cause has spread to an unexampled extent in this city; and now probably numbers thousands in its different associations.—The display of to-day will no doubt contribute to its further propagation. The object is meritorious, and the improvement of the moral and social condition the natural result. We anticipate much benefit to the community from the exertions of the friends of temperance—and we hope the day will arrive, when drunkenness will be considered so disreputable, that to be intoxicated will exclude the offender from respectable society. But we will not deliver a lecture on this subject, our only object being to express our satisfaction at the rapid progress of reformation, and to express the hope, that the procession of to-day will give it another impetus.

Interesting Lectures. Professor Aikin will deliver at the Chemical Hall of the University of Maryland, *this afternoon*, at half-past five o'clock, the first of a course of Lectures on Chemistry. From the acknowledged talents of professor Aitkin, and his intimate knowledge of the science of Chemistry, his lectures will possess great interest; and we advise all who desire to be informed on a subject so interesting and practically useful, particularly to mechanics in their daily application of chemical principles, to provide themselves with tickets.

Madame Restell. This woman, says the N. Y. Sun of the 2d inst., was yesterday brought before Judge Inglis, on a writ of habeas corpus and an application for reduction of her bail, now fixed at $3000, was made by her counsel, Messrs. Jordan and Morrill.

Letter Writers. Some of the W[illegible] political letter writers are disposing of appointments by wholesale. The correspondent of the New York Signal has the following: "Washington Irving has applied for the office of Secretary of Legation to London. And among those most spoken of for the mission to Austria, are Hoffman and Jenifer, of Maryland, Todd, of Kentucky, and Christopher, our present Charge d'Affairs at Stockholm. Cushing, of Massachusetts, is spoken of confidently for Spain. Gov. Cass will remain in France until Senator Preston's term expires. J. R. Jackson, of Philadelphia, a man of talents and elegant erudition, is talked of with much confidence, for Naples. Epes Sargent is to receive an attache to a foreign mission, for which he is eminently qualified. It is thought Philip Hone will receive the New York Post-office."

Another letter writer says, that "it is believed the Post Office Department is in arrears about a million of dollars," and charges Mr. Kendall with gross negligence in the discharge of his duties whilst Postmaster General. We doubt the correctness of this; for Mr. Kendall undoubtedly possesses fine talents and has the credit of having been industrious and vigilant. The same writer makes the national debt some forty millions of dollars. It must be remembered that these letters are from opponents of the late administration, and may be tinctured by party feeling. As it is said that the new administration has opened a new set of books, it is supposed that the precise condition of things will be ascertained, and until that be done, it would be unjust to pass sentence of condemnation against any member of the late administration.

Important Decision. It has been decided in the Circuit Court of St. Louis, that the deviation of a steamboat, or other vessel, from her regular route, except to save life, vitiated the policy of insurance, and released the insurers from liability. The case before the Court was that of the steamboat Rolla, sunk a few years since in the lower Mississippi. She had stopped a day or two to render assistance to the George Collier, aground upon a bar. After getting her off, she proceeded upon her voyage, was snagged, and sunk. The boat and cargo became a total loss. The owners of part of the cargo brought suit against the Insurance office, for the recovery of the amount insured.

The decision of the Judge, (Mullanphy,) was against the right of the plaintiff to recover.

Fire. A fire broke out on Friday evening between 7 and 8 o'clock, in a stable on Market alley, between Saratoga and Mulberry streets, the property of Mrs. Jenkins. The flames were discovered in time to prevent any serious injury, through the vigilance of the police. Two colored men were arrested on suspicion of having set the stable on fire, but after undergoing an investigation on Saturday morning before Justice McDonald, were discharged.

Another. The fire yesterday morning about 3 o'clock proceeded from the burning of a frame house at the corner of Lexington street and Market Alley. The house was occupied as a grocery store and shoemaker shop. We learn that the property was insured.

Signs of Drunkenness. The Rochester Democrat, in one of its police reports, lays down the following as signs of drunkenness which can hardly be mistaken:

"A man is considered drunk when he goes to the pump to light his pipe, or when he can't see a hole through a ladder, or when he lies in the gutter and cries out for some one to come and tuck him up, or when he goes home at night and can't put the key in the door, and swears some person has stolen the key hole, or when he attempts to wind up his watch with the boot jack."

Painful. A son of the Rev. James S. Wood, of Lewistown, Mifflin county, Pennsylvania, last week accidentally fell into a creek, and was drowning, when a colored boy named Alexander Cunningham plunged in and succeeded in bringing the child to the shore. He was himself, however, so much exhausted with his efforts, that he sunk, and when recovered was a corpse.

Shipwreck—Loss of Lives. We learn by a late arrival in New York, that the brig William Tell and two English schooners, were wrecked, and driven ashore near the Gate of Magadore, and that a captain and several seamen, besides three Moors who had gone to render assistance, were drowned.

The first Ark, or river craft, says the Columbia Spy of the 3d inst., made its appearance at our port on Sunday last. It was an ark laden with clover seed, lard, &c. and hails from Lewistown. Owing to the rapid rise of the river the trade necessarily is thrown back a short time, but it will nevertheless be a brisk business in the spring.

Old Subscribers. The Hartford Courant, the oldest paper except one in New England, has a subscriber who has taken that paper for forty-nine years. The father of the same person had taken it for twenty-seven years preceding, so that the paper had been in the family *seventy-six years*.

Took up on suspicion. A Mr. W. Sanford, brought charges against a Miss Kangiving, with numerous aliases, on Saturday last. He charged her with stealing $6,50 from his pantaloons pocket, while these plurals were in one place, and himself in another. Justice Scheffer not finding sufficient evidence, released the beautiful prisoner.

The Appropriation Bill. We have been informed by a correspondence, dated Annapolis, April 3d, 3 o'clock, P. M., that the bill to appropriate two millions of dollars to complete the Chesapeake and Ohio Canal to Cumberland, Md., has passed the House, by a vote of 37 to 34.

Killed. A German named Fretter, was instantly killed in St. Louis, on the 23d ult., by being run over by the wheel of a cart.

Reducing expenses. Thirteen clerks were discharged from the United States Bank on Tuesday last.

Forgery. The New York Signal states, that *Charles F. Mitchell*, a representative in the last congress from the Niagara district, has been guilty of forgery. It seems he sold to the brokers of Wall street, "sundry checks purporting to have been drawn by the Bank of Orleans, at Albion, on the State Bank at Albany," which he forged and endorsed. This late *honorable* member of congress has decamped for Texas, leaving behind him a letter to Col. Webb, which concludes as follows:

"I shall be pursued no doubt, but it will be useless. I shall not be brought back; for if I were to be overtaken, I have provided myself with two *contingent friends*, either of which will spare me the mortification of being brought back like a felon. Death were under any circumstances preferable to *that*."

We think it likely that Mr. Mitchell has been at either the gambling table or the stock board; and now, as a consequence, has to cut and run for Texas. Had he stood his ground, he would probably have had to make the exchange from Congress Hall to Sing Sing. His threat to shoot himself is ridiculous—for he who is so unprincipled as to commit a forgery, will not quit life from the dread of shame.

Shocking Death. A most distressing death occurred in Hartford on Saturday night 27th ult. Widow Catharine Seyma, while engaged about the domestic affairs of the house, and in the act of dipping some hot water from a kettle over the fire, was suddenly taken with a fainting fit, to which she was subject, and fell directly into the fire, upsetting the kettle, and scattering the hot water and embers over her. Being alone in the room at the time, her situation was not known until she was so dreadfully burnt on the neck, hands, and face, as to cause her death at four o'clock the next morning. She was 63 years of age.

☞ Mr. Clapp, the officer who arrested Williamson the great burglar in Boston, and was instrumental in restoring the property of Messrs. Davis, Palmer & Co. received $500 reward and the present of a handsome gold watch, chain, seals, &c. valued at $150. It was through much persuasion that Mr. Clapp could be induced to accept the reward, stating as a reason that he was an officer, doing no more than a duty which he owed the community, for whose protection he was acting.

☞ The steam ship Caledonia, Capt. McKellar, sailed from Boston Thursday afternoon, at two o'clock, with 33 passengers for Liverpool, and 13 for Halifax. Among the former was Sir George Arthur, late Lieut. Governor, and Deputy Governor of Upper Canada, who arrived here on the preceding day from Montreal. The steamer took out 9,300 letters, and 5,000 packages of of newspapers.

Latest from Florida. The latest news from Florida is of the most cheering character. We have dates from Fort Armistead to the 14th ult., and from St. Augustine to the 26th ult. The intelligence is that the Indians are coming in daily, expressing their willingness to emigrate. They say they are heartily tired of war, and pray the Great Spirit that it may speedily be closed.

Further particulars. The Boston Transcript of a late date states that the notorious Williamson was arrested again to-day in this city, and committed on a charge of having broken into the office of Messrs. Gilbert & Sons, in Exchange street.

☞ The greatest temperance meeting ever witnessed in Montreal took place on the 25th ult. 250 persons took the pledge in one day, one of whom was among the most extensive dealers in various kinds of liquors.

Change of Hour. To-day the cars on the Philadelphia, Wilmington and Baltimore Railroad, will leave Philadelphia at half past seven o'clock in the morning, and at that hour daily thereafter.

Legislature. In the Senate of New York on Thursday, the further consideration of the Virginia resolutions was postponed for ten days.
