2d—Wm. M. Marine, 4th—H. Clay Naill,
5th—William J. Albert.

FOR CONGRESS

H. K. TORBERT,

OF CECIL COUNTY.

GRANT & COLFAX

Mass Meeting in St. Michaels.

The friends of Grant and Colfax will hold a Mass Meeting in ST. MICHAELS on SATURDAY, the 31st October, commencing at 2 o'clock, P. M.—Among the distinguished speakers who have been invited, a number of whom who have promised positively to attend, are the following:—Hon. Archibald Sterling, Gen. H. Richardson, Hon Hugh L. Bond, J. B. Askew, Esq., R. Stockett Matthews, Esq., Gen. Adam E. King, and Joseph J. Stewart, Esq.

Let every man who desires the preservation of peace, the maintenance of the public credit, the restoration of public confidence and prosperity throughout the country, turn out and hear these eloquent advocates of Republican principles.

ICE AND FROST.—On Saturday night last there was a very heavy frost and ice formed in considerable quantities. On Thursday night last there was also ice.

☞ JUDGE GOLDSBOROUGH made a lengthy and forcible speech in the Front Street Theater, Baltimore, in behalf of Grant and Colfax. He is to speak at Elkton, Md., on Monday next.

THE ST. MICHAELS MEETING.—Every Republican in the county should bear in mind the meeting that is to be held at St. Michaels on Saturday next. Able speakers will be present and a hearty reception should be given them.

MORE NEW GOODS.—Norris & Williams have just returned from the city with a large assortment of the various kinds of goods kept by them. Their stock of Groceries is equal to any ever before offered by them. Give them a call on Market Space.

☞ We have complete official majorities from Pennsylvania, footing up a Republican majority of 10,020. Many of the figures are from the official records. It is absolutely impossible to tell whether the majority will go over or under 10,000.

THE DEMOCRATIC CANDIDATES.—The *National Intelligencer* reiterates its demand for a change of candidates, and calls Frank Blair's speech at St. Louis, where he prophesied that "Grant would not leave the White House alive," a manly position, which merits the approbation of the Democracy.

BELMONT LEAVES THE COUNTRY.—The *National Intelligencer* publishes a despatch, announcing that Mr. August Belmont, the Chairman of the National Democratic Executive Committee, has sailed for Europe. The New York Sun says it cannot believe that the Generalissimo of the Democratic forces will desert the field at this awful crisis of the party's fortunes.

☞ San Francisco and other portions of California were visited by an earthquake a few days ago. The damage was considerable in the lower portion of the city, a number of buildings being thrown down and others badly damaged. Several persons were killed by the falling of buildings. Business has been suspended in San Francisco, great excitement prevailed, and the streets were thronged with people.

☞ JUDGE CARMICHAEL, one of the electors on the Seymour and Blair ticket published a lengthy letter in the Baltimore *Gazette* of Thursday, in opposition to the withdrawal of the present candidates. At the conclusion of his letter he uses the following language:

"If we must take a Radical President, for one I prefer the evil to follow in his election by the Radicals rather than by the Democrats; and between Mr. Chase and General Grant, my choice would be for the latter, without any hesitation."

"I shall not consent or submit to be transferred to Mr. Chase, and if it be the policy of the party here to accede to the measure of substituting Mr. Chase for Mr. Seymour, I shall decline the place assigned me on the electoral ticket. * *

☞ THE panic among the Democratic leaders and press concerning the Presidential contest still continues. The New York World of Wednesday intimates that Frank Blair's revolutionary letter was issued against the wishes of Seymour, and it reiterates its demand for his withdrawal from the ticket. The Tammany Hall General Committee on Wednesday, in view of the probable withdrawal of Seymour and Blair, says a New York despatch, adopted resolutions eulogizing their services, etc. Montgomery Blair is said to have written the World a letter, berating that journal for its recent course, and threatening terrible things in the event of a new ticket being formed. He says in that event neither he nor Frank, nor the elder Blair, will support the nominations, and that Maryland will be lost to the Democracy. Horatio Seymour is reported as having said a few days since, at Utica, New York, that he could not be held responsible for the defeat of the Democracy, as he had several times declined the nomination. Vallandigham's organ at Dayton, Ohio, is out for Chase, and reports Seymour as having withdrawn in his favor, which is rather premature. The Washington Star of Wednesday says that Montgomery Blair denounces the movement for a change of candidates as treason to the Democratic party; that it is made in the interest of Chase, Johnson and Hancock, whom he accuses of being opposed to the ticket since its formation. He thinks Secretary Seward is one of the prime movers in the proposed change, and that it is him who influences the President in opposition to the interests of Seymour and Blair. We have a curious story from Lexington, Kentucky, of an alleged desire by Southern politicians to get out of the fight, and make the best terms with Grant they can.—Our only doubt about this springs from its wisdom. Ideas so sensible have never heretofore been able to get through Democratic heads in so short a time as has intervened since the decision of last Tuesday week. The Cincinnati Gazette furnishes the important information that the New York World's late demonstration was dictated from a despatch from the Pendleton managers, calling for the withdrawal of Seymour and the substitution of Chase; and sagely adds its impression that Mr. Chase would accept.—Mr. Blair thinks the Chief Justice would accept the nomination at any time, but says there is no show for him. Altogether the squabble is a very pretty one as it stands.

ANOTHER ACT OF BENEVOLENCE.—On Saturday last Geo. W. Childs, Esq., editor of the *Public Ledger* of Philadelphia, donated to the Printer's Typographical Society of that city a lot of ground at Woodland Cemetery for the purpose of burying ground for deceased Printers. This is but one of the many acts of kindness bestowed by Mr. Childs. His purse is ever open, not only to the "craft" in which his name is so fondly cherished, but to all in need and in distress. The ceremonies of the dedication, was in the presence of the society and a number of invited spectators, among whom were Hon. Ellis Lewis, late Chief Justice of the Supreme Court of Pennsylvania, who is the oldest member of the New York Typographical Society, and one of the oldest practical printers in the United States; Hon. Morton McMichael, Mayor of Philadelphia, the oldest newspaper publisher in the city; Henry C. Carey, LL. D., the oldest book publisher; Louis A. Godey, the oldest magazine publisher; Col. John W. Forney; Wm. Prescott Smith, of Baltimore; Anthony J. Drexel, F. L. Dreer, Joseph Harrison, J. B. Lippincott, and the representatives of several of the Philadelphia journals.

Magazines.

GODEY.—Godey's Magazine for November is at hand. It has lost none of its former beauty of style nor does it lack in the amount of valuable reading. It is one of the oldest Magazines published and there is none in the country more popular with the ladies. Now is the time to club. One copy one year $3.

THE LITTLE CORPORAL.—This magnificent little work is on the advance. It comes to us this week much enlarged and otherwise improved. Little Boys and Girls could not supply themselves with a better work. It can be had for the small sum of $1 per annum. Address "Little Corporal," Chicago, Illinois.

THE LADY'S FRIEND FOR NOVEMBER.—We take pleasure in calling the attention of our readers to this "QUEEN OF THE MONTHLIES," which we can assure them has no superior among the Lady's Magazines. The sweetest domestic group we have seen for many a day, smiles out from the fine steel plate in front of the present number. The colored fashion-plate is picturesque and elegant, while it is as faithful as ladies or maidens could ask; and the wood-cuts, giving full information in all departments of dress, and useful and ornamental patterns for the work table, are beautifully executed, especially the Parisian Skating Costumes, in front. The music is the Roxborough Polka, and the literary department opens with the continuation of "Fleeing from Fate"—a striking and superior story, in Louise Chandler Moulton's highest style. "The Debarry Fortune," a very fine story, by that charming writer, Miss Amanda M. Douglas, is also continued. Then we have "Oliver Hatch—His Enemy," by Virginia F. Townsend, and fine articles by August Bell, Leslie Walters Frances Lee, &c. The Prospectus for the next year contains unexcelled inducements to new subscribers, and we advise our readers to send for a specimen number (which is furnished gratis,) and avail themselves of the Publishers' munificent offers. Published by Deacon & Peterson, 319 Walnut street, Philadelphia, at $2.50 a year, (which also includes a large steel engraving.) Four copies, $6. Eight (and one gratis,) $12. "The Lady's Friend" and "The Saturday Evening Post," $4.00.

Forged Naturalization Papers.

NEW YORK, Oct. 21.—Benjamin B. Rosenburg was to-day arraigned before the United States Commissioner, charged with having been engaged in making forged naturalization papers. Deputy District Attorney Allen stated that Rosenburg had been engaged in this business for several days, at No. 6 Centre street, and had sold hundreds and thousands of them. The papers being fully made out, having the seal of the competent court attached to them, a blank space being left for the insertion of any name desired, and great quantities of them have been sent up the river and into the interior of the State. These certificates were sold at one dollar a head. An examination was fixed for to-morrow at 2 o'clock in the afternoon, and the defendant held in $10,000 bail.

The above is no doubt the manner in which the city of Philadelphia was carried at the late election. Notwithstanding the numerous charges of fraud made against the Republicans by the Democracy, as yet, none have been arraigned before the courts when on the other hand Democrats have been, and Judges of their own party have been compelled to decide against them. This shows who were the instigators of fraud and corruption.

HUMORS OF THE CAMPAIGN.—Samuel J. Tilden, the Chairman of the New York Democratic State Central Committee, must be a deeply humorous individual. In an address to his fellow-Democrats of that State he gets off the following:

The results of the October elections demonstrate the fact that large accessions to the Democratic party have been made since the last Congressional election, in 1866.

* * * * * * *

Never has the indomitable spirit and heroic energy of the Democratic party been more nobly manifested.

You have driven in the Republicans to their baggage wagons. You have almost routed them.

Fellow Democrats! Is this a moment for doubt as to what you ought to do? Is it a moment in which even to be counting the chances of the struggle to which we are advancing?—We know that we will deserve victory. We will resolve to attain it.

VESUVIUS OUTDONE.

[From the New York Herald.]

The eruption in the Democratic party goes ahead of the eruption of Vesuvius and the stirring up of South America, and all the other recent shaking up wonders. The red hot lava threatens to scorch multitudes of people out of comfortable places, and the sulphurous gas is eloquent of the future, while astonishing party mummeries come into light. Tilden, who was a still mummy twenty years ago, is thrust upon us, and that other dead man Pendleton Hoffman shakes skeleton hands up and down to no purpose. The only live man left of the Democracy is Blair, who swears terribly that he won't resign and won't die, but means to live to see Grant shot. Nay, he takes an early revenge on the Radicals by putting on record his prediction that they will assassinate Grant within two years.

HOMICIDE IN ACCOMAC.—James Ames, who was for some days loafing about town two weeks since, has been killed since his departue from here. It appears he attempted to kill his wife, but was prevented and put in jail, from which he made his escape the same day. He then went to the house of Mr. John Harmon where his wife temporarily resided. After some parleying he made forcible entry into the house armed with a cudgel, with which he struck Mr. Harmon, who immediately pushed by Ames and running to his woodpile caught up an axe. Ames in the meantime pursuing, whereupon Mr. Harmon dealt him a blow with the axe which resulted in Ames' death. Mr. Harmon immediately gave himself up, but it is supposed that the case will not be prosecuted as it was clearly done in self defence. There is we understand rather a feeling of relief in the community since the terrible event, as Ames was regarded and feared as an outlaw.

The above circumstances occurred at X Roads, Accomac county, Va.—*Newtown Record.*

SEYMOUR ON THE STUMP.—The *World* goes into double-leaded ecstasies over the success of the Democratic managers in forcing Seymour to take the stump, in a desperate effort to rally the fortunes of his party. We think this rejoicing is premature. The public sentiment of the American people is strongly against the nominee for the Presidency going on to the hustings and taking an active part in the advocacy of his own cause. Gen. Scott, when the Whig candidate, against the judgment of the leading men of his own party, made an extended speech making tour, and thereby lost thousands of votes. This was the result when Gen. Scott went into the canvass at its commencement, and not under the stress of a special emergency, which is driving Mr. Seymour into a course no doubt in opposition to his own views of the proprieties of his position. Gen. Grant's quiet reticence and absence from Washington during the canvass has been universally approved by the people, and Mr. Seymour will find that he will lose both respect and votes by his presence on the stump.

Happy Effects of the Late Elections.

How sure the election of Gen. Grant is to bring peace and security to all parts of the country, says the New York Post, may be seen by the effects, already displayed, of the elections of last Tuesday week.

On the 13th of October, Ohio, Indiana and Pennsylvania cast Republican majorities. The news, which has comically disorganized the Democratic leaders, was telegraphed the same night to the Southern States. The next day, the 14th, only confirmed the news of the Democratic overthrow.

On the 15th, while the World was demanding that Seymour and Blair be cast aside and new men be put in their places, the Democratic leaders in Georgia and South Carolina met together, and this (Saturday) morning we hear by telegraph that, first,

"The Democratic State Central Executive Club unanimously adopted the resolution presented by Wade Hampton, endorsing Lee's letter to Rosecrans. *The sense of the Club is decidedly in favor of qualified negro suffrage.* An address to the people will doubtless be issued in a few days."

And second:

The "indomitable spirit," "heroic energy" and "baggage wagons" are good.

"The Democratic Executive Committee of Georgia published the following on Saturday:

Resolved, By the Central Committee of the Democratic party in Georgia, * * * that we acquiesce in the present state of the colored race among us, and *will protect that race to the full extent of our power in the exercise of the right of suffrage*, secured to them by the Constitution of the United States and amendments thereto, and the Constitution and laws of this State."

No better argument for supporting Grant could be found by any patriotic man, any one sincerely desirous of peace, order and the maintenance of law, than the speedy action of these Democratic committees.

BOILS.

Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its *Life Element*, IRON.

THE PERUVIAN SYRUP,

(a protected solution of the Protoxide of Iron) will do this effectually, and give *strength, vigor* and *new life* to the whole system.

Extract of a Letter from REV. RICHARD S. EDES, *of Boston, Mass.*

"For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence: finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this valuable remedy, with a few bottles, seems to reach directly to the root of the evil, and its work of purifying thoroughness worthy of its extensively diffused character."

A 32 page Pamphlet sent free. To be had of the PERUVIAN SYRUP Agents throughout the World.

☞ WOMAN.—Females, owing to the peculiar and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contribute in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but no one of those various female complaints can long be suffered to run on without impairing the general health of the individual, and ultimately producing permanent sickness and premature decline.—Nor is it pleasant to consult a physician for the relief of these various delicate distresses, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found effectual in relieving and curing almost every one of these troublesome complaints peculiar to the sex.

HELMBOLD'S EXTRACT OF BUCHU. Thousands suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all stages of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ballroom. Thus with the body half-clothed, and the mind unduly excited by pleasure, perverting the midnight revel the hours designed by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in society at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impressions, while the now important restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and return of organic health and strength, the exposure to night air, the sudden change of temperature; the complete prostration produced by excessive dancing, must of necessity produce the dreadful inate effect. At last, an early marriage, caps the climax of misery, and the unfortunate one, hitherto so utterly regardless of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is, in common with the female breast and lips, evidently under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of their victims ere nature has self-completed their development.

For Female Weakness and Debility, Whites or Leucorrhœa, Too Profuse Menstruation, Exhaustion, Too Long Continued Periods, for Prolapsus and Bearing Down, or Prolapsus Uteri, we offer the most perfect specific known: HELMBOLD'S COMPOUND EXTRACT OF BUCHU. Directions for use, diet, and advice, accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. Strength is the glory of manhood and womanhood. Helmbold's Extract of Buchu is more strengthening than any of the preparations of Bark or Iron, infinitely safer, and more pleasant. Helmbold's Extract Buchu, having received the indorsement of the most prominent physicians in the United States, is now offered to afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness at Night, Absence of Muscular efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the organs of Generation, Palpitation of the Heart, and, in fact, all the concomitants of a Nervous and Debilitated system. To insure the genuine, cut this out. Ask for HELMBOLD'S. Take no other. Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

☞ NONE are genuine unless done up in a steel-engraved wrapper, with fac-simile of my Chemical Warehouse, and signed

oct 10 H. T. HELMBOLD.

TO CONSUMPTIVES.

The Rev. Edwin A. Wilson will send (free of charge) to all who desire it, the prescription with the directions for making and using the simple remedy by which he was cured of a long affection and that dread disease Consumption. His only object is to benefit the afflicted and he hopes every sufferer will try this prescription, as it will cost them nothing, and may prove a blessing.

REV. EDWARD A. WILSON,
No. 165 South Second Street, Williamsburgh, N. Y.
sep 14-7

CONSUMPTIVES READ!

A Physician, who had consumption for several years, with frequent bleedings of the lungs, cured himself with a medicine unknown to the profession, when his case appeared hopeless. He is the only physician who has used it in his own person, or who has any knowledge of its virtues; and he can describe the degree of health he now enjoys to nothing but the use of this medicine; and nothing but utter despair and entire extinction of all hope of recovery, together with a want of confidence in all others, induced him to hazard the experiment. To those suffering with this malady he recommends a treatment he confidently believes will cure the disease.—Medicine sent by express. Send for circular or call on

Sunshine and Shadow

IN

NEW YORK;

OR

MATTHEW HALE SMITH.

(BURLEIGH.)

"To know the country to its furthest veins,
Find out its heart; there all its being tends;
The mighty mart throbs only with the pulse
Of the wide land, which pours its strength of life
And strength into its bosom."

In offering this work to the public, the Publishers gratulate themselves on having liberally supplied a want which has long been felt throughout the country.

As the Metropolitan Centre of the United States, New York City reflects all the good and evil of the land in their most intense forms. To know New York well, is in a sense to know the whole country; and there is no man, however often he visits New York, or however long he may have resided there, who cannot learn from others something valuable to know regarding the city and its mighty interests.

THIS WORK WILL BE FOUND VALUABLE:

To the old and frequent visitor to New York;

To the Merchant and Minister to any part of the country;

To the Student of Human Nature (and every one is more or less such);

To the Lover of the Marvellous, and those who would know that facts often outrival the fancies of fiction;

To the Speculator—to the good and evil disposed;

To the Ambitious Money Maker, who would know how Fortunes are there made in honest and legitimate business, as well as by chicanery;

To those who, visiting New York City, would shun its pitfalls, and study it in their own homes without cost or danger, and yet learn all;

To every Philanthropist, Christian, and lover of Missionary Enterprises;

To, in short, every citizen of America, and every newly arrived emigrant as well.

CONDITIONS.

The Book will be printed from new Electrotype Plates, on good paper, and will be handsomely illustrated with 12 Full-Page Engravings. It will contain over 700 closely printed Octavo Pages, and will be furnished to subscribers, in neat and substantial bindings, at the following low prices, payable on delivery:

In Extra Fine English Cloth, Sprinkled Edges, $3.00

In Extra Fine English Cloth, Gilt Edges, $3.50

This work can be obtained through our distributing agents, and will be sold by subscription only. [oct 17
