Justification for decision: (Use continuation sheet if necessary and attach map)

Based on a field inspection of the E. Burke Avenue area, there is a concentration of buildings dating from the late 19th through the mid-20th century (WWII era) that meets the criteria for listing in the National Register of Historic Places. Rough boundaries appear to be from York Road east to Maryland Avenue, and from Linden south to Aigburth. However, there is insufficient information to understand the development of the neighborhood. We need additional information concerning the history of the subdivision of this area, the development of Towson, and how the neighborhood development corresponds to the history and growth of Towson State.

Documentation on the property/district is presented in: review and compliance files
