TREGO'S CEREAL AND PLANT FOOD AND RUST PREVENTIVE,
TESTED AND APPROVED BY DAVID STEWART, M. D.
CHEMIST
MARYLAND STATE AGRICULTURAL SOCIETY.
SOLD BY
P. MALCOM & CO., General Agents, BALTIMORE.

This Compound contains all the SEVEN ELEMENTS that enter into CEREAL and PLANT FOOD. It hastens, by ten or twelve days, the maturity of the Plant and Grain, and specifically adapted to crops requiring an early and vigorous start to bring them to perfection. For late seeding (especially upon Corn grounds) where the soil plant food has been rapidly removed by previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of Grain.
We submit the following results of the use of the "Plant Food:"
PORT PENN, Del., Sept. 7, 1861.
Messrs TREGO & SON, Baltimore—The "PLANT FOOD" spread this spring both here and at the experimental farm at St. John's College, Annapolis, doubled, and I think, trebled (as the weights will prove) my product of both grain and straw. There was no doubt about that. No mate nor stakes were required at any period, the dark green color, the *stooling* of the grain, giving the *appearance* of DOUBLE the number of plants from the same number of seed; the earlier ripening or maturity of the crop where the PLANT FOOD was applied; the stoutness and height of the plant and the straw, all told the same story, viz: that the PLANTS there had FOOD, of which the soil elsewhere was deficient. No other reason could possibly be assigned, as the crop was sown and harrowed in *before* the manure was spread as a top dressing.
Yours respectfully, DAVID STEWART, Professor of Agricultural Chemistry, St. John's College.
NORTH EAST, Md., Sept. 5, 1861.
Messrs. WM. TREGO & SON, Baltimore:
I applied the "PLANT FOOD" at the rate of one to two hundred lbs. per acre on Oats ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity in each hill, the Corn started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.
From the little experience I have had with it, I think it preferable to Guano or Bones—and shall so recommend it.
Yours respectfully, RUSSELL THOMAS.
☞ The PLANT FOOD is put up in substantial bags of 150 lbs. each. s11-tf

THE PROPERTIES OF THE DIOSMA CRENATA
were known as far back as two hundred years, and its peculiar effects on the Mental and Physical Powers are spoken of in the highest terms by the most eminent authors of the present and ancient date, among whom will be found Shakespeare, Byron and others, stating that in the nervous and prostrated system, from over-taxation of powers,
IT REMOVES ALL PAIN.
Its effects are more pleasing, and it does not depress the nerves or spirits—the
ULTIMATUM
of Narcotics and other stimulants.
From this fact it has proved eminently successful in those symptoms of a nervous temperament arising from sedentary habits and protracted application to business, literary pursuits, and confinement from the open air, and is taken by
MEN, WOMEN AND CHILDREN.
