FRICK'S
CEREAL AND PLANT FOOD
AND
RUST PREVENTIVE,
TESTED AND APPROVED BY
DAVID STEWART, M. D.
CHEMIST
MARYLAND STATE AGRICULTURAL SOCIETY.
SOLD BY
P. MALCOM & CO., General Agents,
BALTIMORE.

This Compound contains all the SEVEN ELEMENTS that compose CEREAL and PLANT FOOD. It hastens, by twelve days, the maturity of the Plant and Grain, and specially adapted to crops requiring an early and vigorous start to bring them to perfection. For late seeding (especially upon Corn grounds) where the soil plant food has been rapidly removed by the previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of Grain.

We submit the following results of the use of the "Plant Food:"

FORT PENN, Del., Sept. 7, 1861.

Messrs TREGO & SON, Baltimore—The "PLANT FOOD" spread this spring both here and at the experimental farm at St. John's College, Annapolis, doubled, and I think, trebled (as the weights will prove) my product of both grain and straw. There was no doubt about that. No marks nor stakes were required at any period, the dark green color, the *stooling* of the grain, giving the *appearance* of double the number of plants from the same number of seed; the earlier ripening or maturity of the crop where the PLANT FOOD was applied; the stoutness and bright of the plant and the straw, all told the same story, viz: that the PLANTS there had room, of which the soil elsewhere was deficient. No other reason could possibly be assigned, as the crop was sown and harrowed in *before* the manure was spread as a top dressing.

Yours respectfully, DAVID STEWART,
Professor of Agricultural Chemistry,
St. John's College.

NORTH EAST, Md., Sept. 5, 1861.

Messrs. WM. TREGO & SON, Baltimore:

I applied the "PLANT FOOD" at the rate of one to two hundred lbs per acre on Oats ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity in each hill, the corn started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.

From the little experience I have had with it, I think it preferable to Guano or Bones—and shall so recommend it.

Yours respectfully, RUSSELL THOMAS.

The PLANT FOOD is put up in substantial bags of 150 lbs. each. e11-tf
