IN THE CIRCUIT COURT OF BALTIMORE CITY.—JAMES S. FORBES vs. MARY C. EVING—The object of this proceeding is to obtain a decree for the sale of certain property on Gibson street, in the city of Baltimore, for payment of an unpaid balance of purchase money. The bill states that the complainant, on the 11th day of November, 1857, contracted with the defendant to lease to her a certain lot of ground, fronting 25 feet 9 inches on the south west side of Gibson, (otherwise called Eutaw) street, by 86 feet 9 inches southwest of Hoffman street, and extending back to Morris alley, in said city, for a term of ninety-nine years renewable, subject to an annual rent of $185, payable semi-annually, and extinguishable at any time for $2,000. That the defendant contracted in consideration of such lease, to pay the complainant $6,000; and paid to him $3,000 thereof in cash, and for the balance executed and delivered her four promissory notes, dated October 1, 1857, for $750 each, payable 1, 2, 3 and 4 years after date, and her eight promissory notes for the interest to accrue thereon, payable semi-annually. And that the complainant executed and delivered to the defendant a bond of conveyance in the usual form, conditioned for the performance of said contract on his part, and put her in possession of the property. That all of said purchase money notes are over due; and there remain unpaid in the hands of the complainant, three notes for $750 each, payable at 2, 3 and 4 years from October 1st, 1857, and two interest notes for $22.50 each, payable at 42 and 48 months from said date. And that the defendant has removed out of the State of Maryland, and now resides in parts unknown to the complainant. He therefore asks for a decree for the sale of said lot, for the payment of said overdue purchase money notes.
It is thereupon ordered this 23d day of December, 1861, that the complainant, by publication of this order in some daily newspaper of the city of Baltimore, once a week for four successive weeks before the 1st day of February next, give notice to said absent defendant of the object and substance of this bill, and warn her to appear in this court in person or by solicitor, on or before the 5th day of May, 1862, to answer the same, and show cause, if any she has, why a decree should not pass as prayed.

IN THE CIRCUIT COURT FOR BALTIMORE CITY, December 4th, 1861.—MARY WIGAN vs. HENRY WIGAN.—The object of this suit is to procure a divorce a vinculo matrimonii. The bill states the defendant with having deliberately abandoned the complainant more than three years ago, and with adultery; and avers that the defendant resides out of the State of Maryland.
It is therefore ordered that notice be inserted in a copy of this order in some newspaper published in said city, once in each of four successive weeks before the 6th day of January next, be given to the said defendant of the object and substance of said bill, and warning him to appear in this Court on or before the 6th day of April next, to show cause, if any he have, why a divorce ought not to be granted as prayed.

DAVID STEWART, M. D.
CHEMIST
MARYLAND STATE AGRICULTURAL SOCIETY.

P. MALCOM & CO., General Agents,
BALTIMORE.
This Compound contains all the SEVEN ELEMENTS that compose CEREAL and PLANT FOOD. It hastens, by ten to twelve days, the maturity of the Plant and Grain, and specially adapted to crops requiring an early and vigorous start to bring them to perfection, for late seeding (especially upon Corn grounds) where the soil plant food has been rapidly removed by the previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of Grain.
We submit the following results of the use of the "Plant Food."
FORT PANN, Pa., Sept. 7, 1861.
Messrs. Trego & Son, Baltimore.—The "PLANT FOOD" spread this spring both here and at the experimental farm at St. John's College, Annapolis, doubled, and I think, trebled (as the weights will prove) my product of both grain and straw. There was no doubt about that. No marks nor stakes were required at any period, the dark green color, the doubling of the grain, giving the appearance of double the number of plants from the same number of seed; the earlier ripening or maturity of the crop where the PLANT FOOD was applied; the stoutness and height of the plant and the straw, all told the same story, viz: that the PLANTS there had room, of which the soil deficient. No other reason could possibly be assigned, as the crop was sown and harrowed in before the manure was spread as a top dressing.
Yours respectfully,
DAVID STEWART,
Professor of Agricultural Chemistry,
St. John's College.
NORTH EAST, Md., Sept. 5, 1861.
Messrs. Wm. Trego & Son, Baltimore:
I applied the "PLANT FOOD" at the rate of one to two hundred lbs per acre on Corn ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity in each hill, the corn started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.
From this little experience I have had with it, I think it preferable to Guano or Bones—and shall experiment with it accordingly.
Yours respectfully,
RUSSELL THOMAS
The PLANT FOOD is put up in substantial cases of 150 lbs each.
