THE BALTIMORE WEEKLY CLIPPER, THE CHEAPEST NEWSPAPER IN THE STATE.

The undersigned would call the attention of all desirous of having a good Weekly Journal to the BALTIMORE WEEKLY CLIPPER, one of the largest and cheapest Papers published in this or any other State.

At a time like the present, when every one is anxious to be thoroughly posted as to the events of the war, and when almost every arrival from abroad brings some new and startling revelation in regard to the condition of European Governments, no person who wishes to keep up with these events should be without the means of doing so.

CHEAPNESS, when everything else almost has advanced in price more than one hundred per cent., is also a great requisite; and so it is, that notwithstanding the high price of paper and other printing materials, the undersigned proposes to furnish the WEEKLY CLIPPER at the low price of $1.50 PER YEAR.

Let those who need such a paper, remember that for this comparatively small amount, they are furnished THIRTY-TWO COLUMNS of closely printed matter per week—that this comprises DOMESTIC AND FOREIGN NEWS, LITERARY, SCIENTIFIC AND AGRICULTURAL ARTICLES, information concerning the MARKETS, the FINANCES, EDITORIALS ON CURRENT TOPICS, ETC., and all given in a clear impression and on good paper, not excelled by any issue of the same class in the whole country.

To accomplish the enterprize, however, and to do the undersigned and his subscribers full justice, he must have PROMPT PAY; and therefore no paper will be sent from the Office but what is PAID FOR IN ADVANCE, and this without respect to persons. All papers not thus paid for will have to be promptly discontinued as soon as the advance payment expires. Without the adoption, rigidly, of the CASH SYSTEM, the proprietor would be unable to carry forward the enterprize; and therefore, all will see the necessity of complying with the terms set forth who desire to see a good Union paper freely circulate in the State.

Let the friends of the paper in the country, recollect also that a WEEKLY PRICE CURRENT, accurate and reliable, will be amongst the matters furnished, something which *alone* would justify them in investing the small amount required for one year.

The aim of the new Proprietor is to furnish a First rate FAMILY AND BUSINESS PAPER, embracing whatever may be *interesting, amusing* and *instructive*; and he hopes, therefore, that the subscription list of the *Weekly Clipper* will not fall behind any.

Subscriptions must be remitted in UNITED STATES NOTES.

Postmasters and others sending ten subscriptions, will be furnished one copy gratis.

WM. WALES, Editor and Proprietor.

MEDICAL.

ARMY DYSENTERY.

THE GREAT REMEDY FOR

Army Dysentery,

CAN BE CARRIED IN THE POCKET-BOOK AND AS A TIMELY RESOURCE IN DISEASE IS UNEQUALLED.

No Officer or Soldier should go to the front to encounter the dangers of Miasma and unwholesome water without a package or two of these powders. They are put up in air-tight metallic covers, occupy little space, and can be taken in a tumbler of water. The prescription has been proved of the highest efficacy on the Chagres coast, in Mexico, Central America, and elsewhere, the haunt of these oftentimes fatal diseases of the bowels. It is the remedy of an eminent medical practitioner who has had an active experience as surgeon on the Panama Steamship line, where he had the worst cases of California fever and dysentery to deal with, and it can be relied on as a specific, when tried on the most delicate child or the adult, where the printed directions accompanying it are faithfully followed. It is known as

DR. F. J. AGRIMONT'S TROPICAL DYSENTERY REMEDY, for the prompt and decided cure of DYSENTERY AND DIARRHŒA, (either recent or chronic). Cholera, Cholera Morbus or looseness of the bowels, Summer Complaint of children, and Bilious Cholic. Put up in small air-tight packages, which will keep in all climates for any length of time.

TO THE PUBLIC

This efficacious, scientific, and curative preparation, is now for the first time, at the urgent solicitations of many personal friends who have experienced its good effects in private practice, confidently offered to the public, after having been the means of curing within the last seven years, at least 8,000 cases of these often fatal diseases, many of them on crowded passenger ships and steamships of which the discoverer was a passenger, tossed about by the Ocean's swell, which is one cause of the great fatality attending these diseases on shipboard. It has also been used more particularly in the mines of Australia as well as California, also in several parts of South America, Central America, and Mexico, and in various parts of the world, by one of the proprietors who travelled on account of his health, which was much impaired by his campaign in the American army in Mexico.

It is well known that these terrible scourge Dysentery, sweeps into hurriedly made graves many thousand annually, and that it is not confined in its ravages to any part of our globe, but ranges at large, regardless of the sex, stretching down, *in spite of the best medical aid called to relieve it*, the tender infant as well as the aged and trembling adult in all variations of climate.

In view of these facts, and the *utter failure* of the usual means used in many instances to relieve the afflicted, the attention of a Physician and Scientist in Europe, who had severely suffered from the effects of the Camp Dysentery or Army Diarrhœa, and who had previously, as well as since, unequivocal experience in Tropical climates, was called to the above complaints, and the result is, the introduction to the public of the "Tropical Dysentery Remedy," which, after one trial by those afflicted, will make itself favorably known; and if taken, and the accompanying directions strictly followed, a speedy cure will be effected.

With the few remarks, it is now confidently offered to the public, who can rely that not one-half its merits, thus far can be known, as those relieved by it for the last seven years, were distributed of all civilized nations and climes, subjected to tropical influences on their way to the lands of gold, from the hardy mariner to the energetic travellers across the Isthmus, many of whom, as is well known, barely survived to reach their homes at the close of the war with Mexico, with himself, but who have been gratefully acknowledged its effects under its administration by him.

Throwing aside all *"old wives' whims and fables,"* and the ignorant prejudice which has always prevailed in regard to these fatal diseases, the proprietors in conclusion would charge those who would not save their loved ones, when practicable in consequence of these diseases, to give it a trial according to the *simple directions* and no physician will ever be needed in the above named dangerous and fatal cases. Small packages often relieving many sufferers.

TO MASTERS OF SHIPS.—To those who "do business on the great waters," it will especially be found invaluable, and no Shipmaster should fail to take it on leaving ports, it was on the occasion of repeated "calms and strife" of the elements, its virtues were first more thoroughly made known and abundantly tested by a Ship Surgeon, and that too, while in the Chagres coast, is usually more fatal and rapid in its course than in more temperate climates. The motion of ship adds to the observation, always aggravating the symptoms, and baffling the most well known efforts to relieve the patient, in the above diseases.

☞ Travellers will find, from its compact form in which the powders are put up, that they can be carried in the pocket, or with their wardrobe, without the slightest injury. When required, are taken in cold water. No boiled preparation, or Doctor's Shop, should be without this justly celebrated remedy, as many opportunities present themselves in the course of the summer where speedy and certain relief is required by their patrons.

TESTIMONIALS.

An examination of the following testimonials is earnestly invited, they do not purport to have been written in Missouri, Kansas, or some out of the way place, but are from some of the most influential and well known citizens of this city, and can be found and will personally testify to the extraordinary effects of the Tropical Dysentery Remedy.

BALTIMORE, ——1864.

Sir—Your remedy I do not hesitate to say, from my own experience and that of my family, surpasses in its curative effects, all medicines for Bowel Complaints, (especially at children.) I have used it in my family, and the success which has attended its exhibition in private practice, I cheerfully testify to from my own personal experience, and regret as many others have to my knowledge, that you had not earlier made the public acquainted with it, as I have often cried you to do, for I have no doubt in Dysentery many valuable lives thereby might thereby have been saved by it.

Respectfully yours,
RUFUS CHAGETT, Attorney and Counsellor at Law, No. 16 Wall street.

CROTON POINT, Westchester Co., N. Y., ——1864.

ESTEEMED FRIEND—I take pleasure in testifying to the very beneficial effects of your medicine in my family.

A case of Dysentery occurred during the summer of 1862, by which the patient was reduced very low, and although the usual well known remedies were promptly administered, continued to grow worse; but who was completely and effectually cured by the use of your remedy prepared for that complaint.

Subsequently an infant child was attacked with a similar Complaint during the hot months, which ran its course unabated, despite all medicines used by our physicians, for six or eight weeks. These same doses of recovery until your remedy was procured and administered, when an improvement was immediately noticed, and a permanent cure was effected.

Very truly yours,
RICHARD D. TALCOTT.

BROOKLYN, Sept. 1864.

While confined to my bed in consequence of a very severe attack of Dysentery, a friend administered a dose or two of your Remedy. The relief was immediate. I advise all my friends not to be without it, and I feel, while I have it, with the directions, a Physician need never be called in that usually troublesome and often fatal disease.

Respectfully yours,
JAMES ROBERTSON, 135 Court street, Brooklyn.

BROOKLYN, July 1863.

DEAR SIR—I was taken with a severe attack of Dysentery, and could get no relief from the best advice I could obtain, until accidentally I heard of your medicine. I took it and obtained immediate relief, recovering the blood, and through my own imprudence in diet, brought on a severe relapse, which was again relieved by the medicine; and I am happy to add, was permanently cured.

JOHN WILSON, Bulkhead st., near Myrtle Ave.

EAST BROOKLYN, L. I., June 1862.

DEAR SIR—The effects of your medicine, and mode of treating the Dysentery, diarrhœa, etc., I have witnessed I will say in every instance in my own family. The relief was prompt, decided, and effectual. I feel happy to add, I am happy to say, that I, in my humble opinion, if your medicine be administered, and the directions followed, that a cure would be effected in every instance, in a disease usually fatal in the hands of many able physicians. It is equally safe and as promptly relieves the infant, as well as adult. We would not be without it.

Respectfully yours,
JOHN JAY WOOD.

DEAR SIR—The small package of your "Tropical Dysentery Remedy," placed by you in the hands of a friend, a short time previous to our sailing for Australia, absolutely performed wonders; curing many of my friends as well as several members of my family, who were attacked at different times in the course of the Summer with Dysentery, Diarrhœa, etc. I can, and do most cheerfully state, for the benefit of those who may be similarly afflicted, that it surpasses in its certainty of relief, any medicine I have ever known prescribed by medical men.

Yours truly,
CLARKSON UNDERHILL, Corner Bedford and Park Avenues, Brooklyn, L. I.

NEW YORK, May 17, 1863.

Sir—The medicine called the "Tropical Dysentery Remedy," as used by the discoverer, who was for six months Physician to Tremont Hotel, I know to be all that is above enumerated, which were numerous in our house in 1861, from the number of Californians stopping with us, it in every instance at once relieved to the satisfaction of ourselves and those afflicted, saving many lives.
