DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This brick church has a graceful gambrel roof flaring at the base under a hip roof, or jerkin roof. Of strongly patterned Flemish bond, 5 bays by 2, one story high, windows are arched with shutters in the round arch over double hung windows 8 lights over 8.

Oblong, the entrance is in the center of the long south wall under a belfry added in 1904. Another door is in the west end wall under a gallery lighted by an oval window of Tiffany glass. The gallery now houses the organ.

The church has a lofty barrel vault. Woodwork is simply executed.

A small brick vestry lies to the west of the church, beautifully built in the 1960's of Flemish bond brick, 2 bays x 1, under a pitched roof, pedimented. A large fireplace is in the west end wall.

STATEMENT OF SIGNIFICANCE

Located on the Northeast River, this church was given its charter* by Queen Anne, and treasures its silver service donated by her at that time.

The cemetery is said to have graves of Susquehannock Indians, powerful in this region in the 1600's and early 1700's. Marked and dated gravestones date from the 1770's.

*at that time taxes were collected at the church.
