DESCRIBE THE PRESENT AND ORIGINAL (*if known*) PHYSICAL APPEARANCE

This building is T shaped and is 2 bays by six bays (central block). The dwelling is 2½ stories with a three bay end porch. There are three chimneys. Two are located in the central block and are within the exterior walls. The other chimney is in the rear wing. These chimneys are made of brick. The windows all have plain trim. Those on the facade of the building are 6/6. The small end windows in the ½ story are 2/2. The windows did have shutters.

At one time there were porches on each side of the rear wing but over the years they have been enclosed to make more rooms. On the Eastern side of the central block two windows have been covered. There is a transom over the front door with stained glass in it. The building is covered with green shingles and the ends of the rafters are exposed. The roof is corrugated steel.

There is a basement under the central block and it has stone walls which give way to brick near the top (in some places). The cellar has a bulkhead entrance. The porch has scroll brackets. The shingles cover what once was clapboard.
