DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This home has three distinct sections. The newest part was built in 1908-10 and is the largest of the three. It is 2½ stories and is covered with white clapboard and stucco. There are several large rooms on the first floor with two enormous fireplaces. The largest two rooms have exposed wooden beams and look like an English home. Many old gas fixtures remain in the wall and there is a dumb waiter. A porch extendes around the north east and west sides of the house and the front has huge columns. A balcony is also found in the interior living room. Has a shed dormer in the rear.

Extending southward from this section is the original dwelling. The walls are stuccoed ~~w~~ but it used to be stone. This section is 2½ stories and is three bays long and 1 bay deep. There is a one story porch front and back which have been added. The window frames are plain and are not the original. The first floor windows have paneled shutters while the second floor shutters are louvered. There is a single end chimney which is very wide and a winding stair case to the second floor. The shutters are green. There is wide flooring on second floor.

The third section was built at the same time as the 2nd and is nearly one bay. There are two windows and a single door. Frame is peeged. Could have been slave quarters.

SEE INSTRUCTIONS

7. There is an inside end chimney, the walls are 1-1½' thick. Has a board and batten door but is not original. There are numerous old outbuildings, strap hinges.
