DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The house has been unoccupied for many years all the windows are broken and trees and other vegetation has grown over most of the lower parts of the building (main) and the outbuildings.

The main building served as a family residence and doctor's office. It is T-shaped and the front section is 2 bays by 3 bays. It is 2½ stories and has a mansard roof. The roof has a box cornice with brackets supporting it.

The facade has a one bay end porch that has brackets supporting its roof. The shutters on the first floor are paneled while those on the second floor are louvered. The window trim is plain throughout and the windows are 4/4. The building has a field-stone foundation. There is a fireplace at the rear of the back section. The two windows located over the front door ~~are~~ have a semi-circular top to them. There is also a porch off of the rear wing facing east.

One outbuilding is nearly about to collapse while the other which is brick with a board and batten door is in good shape.
