DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The house is a three bay, brick structure with a frame wing extending to the east. There are internal chimneys on the north and south gable ends; behind the fireplace itself, the north end wall is built outward to thicken it for the interior fireplace opening. Over the windows, the segmental arches are formed by a double row of headers. The brickwork is common bond with every seventh course a row of headers. A one story porch with turned posts runs across the east and south sides of the house.
