This house, standing on the north side of West Frederick Street is a two story, three bay structure which would appear to consist of brick veneer over log construction. The surface finishes date from the late 19th or early 20th century. Windows have two over two pane double hung sashes beneath segmentally arched heads. The main entrance is located in the westernmost bay of the front or south elevation. An interior brick flue rises from the peak of the roof. A one bay modern brick extension has been added to the west end.
