4. NOTABLE FEATURES, HISTORICAL SIGNIFICANCE AND DESCRIPTION OPEN TO PUBLIC no

Kimbolton is a two story frame structure, which was probably built in the middle of the 18th century. On each side of the original three bay structure are two story additions which are a continuation of the original lines of the house. A small porch with "A" roof protects the paneled double doors of the original house. Each windows has 6/6 sash and paneled shutters. At each end of the original structure ~~are two large~~ is a large brick chimney; and at the end of each wing is also a brick chimney, the one on the west being entirely exposed. The north facade looks over the west fork of the Langford Bay and has a one story ~~left~~ screened porch across most of the facade.

~~The house is said to have been built by Hans Hanson, father of John Hanson, of Revolutionary fame, and who lived at Mulberry Grove, near Port Tobacco, Charles County.~~

5. PHYSICAL CONDITION OF STRUCTURE Endangered no Interior Exterior good
