COL. YOUNG O

Hopes Shattered That Exam
ining Board Would Report
Him Fit and Thus in
Line for Brigadier
Generalship.

Washington, August 3.—Col. Charles Young will not have an opportunity to serve as an officer in France, his retirement with the rank of colonel having been ordered by President Wilson last Friday. His disability is given as the reason for the retirement, which is to date from June 22, 1917. He will continue on duty with the colored regiment, now being organized in Ohio. His pay will be $6,000 a year.

The news of Colonel Young's retirement has been expected ever since he was recently ordered before a new examining board at San Francisco. Protests began to pour into the War Department against any "shelving" of Colonel Young because he is a colored man. The examining board, it is said, recommended his retirement on the ground that he was suffering from high blood pressure. This was astounding news to his many friends, who believed that he was and is now in the best of physical condition, at least as much so as are many white officers who have served in the army as long as he.

FALSE HOPES LOOM

In response to an inquiry from Prof. Kelly Miller, of Howard, Secretary of War Baker replied on July 7th that Colonel Young had been surveyed by an army board and found to be suffering with a chronic disease.

"The report of the board is received," Secretary Baker stated. "It is signed by the surgeon in charge, but in view of the fact that Colonel Young's case is a long and honorable one and the government is now calling on every man and ability, it was directed that the report of the board be resubmitted for question so as to make sure that there could not be an error in the matter.

BAKER REQUESTS REPORT

"I have directed that the report of the board be returned to me personally before being acted upon, not because I find myself able to believe that any prejudice would color such a report, but because I want to be able to give the deep dishonor of a false report, but assurance to all who inquire that I have given my own personal thought and attention to this case, in which so many are interested.

"I hope that the board will find Colonel Young still able to perform active duty, in the meantime, I have directed that he be restored to active duty, and have at least the hope of being able to have his assistance for the present."

A report was sent out from Washington that a new examining board had found him physically fit and recommended that he be advanced to a colonelcy.

PRESIDENT WRITES TUSKEGEE

In response to a query from Maj. R. R. Moton, President Wilson, under date of July 9, wrote the Tuskegee principal:

"I have your letter of July 7th. You may be sure that I am no less deeply interested than yourself in the matter to which you call my attention, and I think that you are laboring under a misapprehension as to the case of Lieut. Col. Charles Young. There is no possible ground in that case for the fear that he is in any way being discriminated against, and you may be sure that he will
