Tormenting Rectal Itch Stopped In Minutes
Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles
New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.
No matter what you've used without results — here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids — without surgery. Medical science has proved this substance produces a remarkably rapid recovery rate of healing. Its germ-killing properties also help prevent infection.
In one hemorrhoid case after another "very striking improvement" was reported and verified by a doctor's observations. This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.
The secret is this new healing substance (Bio-Dyne®) — discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H®. Ask for Preparation H Suppositories (convenient to carry if away from home), or Preparation H Ointment with applicator. Available at all drug counters.

DELTA SIGMA THETA Sorority's Baltimore Alumnae Chapter observed fifty-second anniversary on Sunday evening. Among head table guests, left to right, Soror Alice Parham and Soror Ethel Hucles, charter members; Mrs. and Dr. G. James Fleming, and Soror Joan E. Cole, chapter president. Dr. Fleming was guest speaker at the event which highlighted the theme, 'Decisive Action for Freedom.'

'Don't sell ourselves short,' Dr. Fleming tells Deltas

The poverty program was characterized as "another depression - type WPA, a short-term, government program, and I hope we don't get soft and feel we're getting achievement by it.

"This is not the way to build strength and leadership. If we get big jobs in the poverty program, that's fine.

"But we need permanent, lifetime jobs, judgeships, members on the interstate commission, and other power bodies.

"I hope we don't sell ourselves short by getting rewarded with big poverty jobs. I say help the poverty program, but let's not make it a prestige beehive. We need permanent jobs ...."

THE SPEAKER was Dr. G. James Fleming, Morgan State College professor of political science.

He was addressing the Delta Sigma Theta Sorority's 52nd Founder's Day.

Veney brothers: 'We must take bold stands against all law violators and demand protection of the law for all. The Veney brothers saved the police department from a thorough investigation ..."

Schools: "Teachers can't become miracle doers and help little Johnnie who can't read but knows about space, they haven't made the classroom as exciting as the comic books or television.

* * *

ON DELTAS: "Your sorority has maintained a full-time office in Washington, benefiting all people, across racial lines . . . a dynamic program, but no people can be strong if they depend on Deltas and others to do every thing."

At another point, Dr. Fleming explained:

"You get more rights if you're willing to share responsibility . . ask hard questions and stand up . . .

He said further, we must pay for political emancipation, and, you don't get it by praying sometime . . we must put our money to work for politics and jobs.'
