REMARKS: the variety of timber, the most of which is peculiarly adopted to the various uses to which it is applied in the operations of mining, and for which purposes it is consumed to a large extent for props ties &c &c; The Forests of timber appear to be as inexhaustible as the coal that underlies them and the production of the latter is dependent in the former in so far that the coal being very friable requires propping at intervals to prevent the roof from falling thereby endangering life and closing the workings

No. of white females 9. No. of black females 5. No. of mulatto females 1. Total female slaves 34. No. of widowed 1.

Remarks: There has been a decided improvement in the health of this District attributed to the extensive use of Lime upon the land.
This District has an abundance of Shell Marl, on the farm of Mr Alexander Laws, there is a vast quantity, 200 buckels to the Acre, being used, and has been found superior to Lime,

James Hasson

Remarks: The establishment of a Watering place at the southeastern extremity of this County, is eminently worthy of notice, "Point Lookout Pavilion". at the Confluence of the Potomac River and Chesapeake Bay; has been erected by the joint subscription of more than one hundred gentlemen, mostly Citizens of Virginia and Maryland. The peculiarity of its situation, and other advantages, must go far

~~Remarks~~: towards making it a place of resort for the refined society of the Southern States, during the summer season. The Climate of Saint Marys is delightful, and extremely healthy, as evidenced by the visits of numerous families from the neighbouring cities, in quest of a pure and healthy atmosphere, during the warm season. The surface is mostly level or slightly undulating

23

~~Remarks~~: obtain, has not been used to any great extent by our farmers. Oak, Hickory, chesnut, poplar, gum, pine & cedar are the principal groths of timber natural to the County, and are abundent in every section. The "Seventeen Year Locust" made their appearance throughout the central portion of the county and great number of hogs died from eating them in early spring.

242

SCHEDULE 3.—Persons who Died during the Year ending 1st June, 1860, in 6th & 6 District **in the County of** Saint Marys **State of** Maryland **, enumerated by me,** Jno A Camalier **Ass't Marshal.**

REMARKS: The usual healthfulness of the county, has been disturbed during a portion of the past year, by the prevalence of "measles" from which some deaths have ensued, yet the number of deaths for the year ending June 1st 1860 are about the same, as the average of the last several years. It is remarkable, that nearly one tenth of the whole number of deaths, are the result of accident or some sudden seizure.
