This is the most expensively made Bourbon in Kentucky... and probably in the world.

(And this is true of both Fitzgeralds, Bonded and 86.8 proof Prime Straight)

How can we say this?

Years back, leading Kentucky distillers were asked to report their costs to our State. Final figures revealed our Fitzgerald Bourbon to be the most expensively made by a Bluegrass mile.

Year after year, the story has never changed. (Probably because in 116 years we've *never changed*, sticking to the painstaking demands of our original Sour Mash recipe.)

You'll find Old Fitz priced among premium Bourbons — but not way above them. Have just one taste. Just a taste is all we ask... it's all we've ever needed.

Coffee Brewing Tips

Every morning millions of women call to their neighbors over the back fences of America, "Come on over for coffee". And every afternoon still others cluster in groups to drink coffee from fragile cups or heavy mugs, and nibble on cake and cookies.

These get - togethers are two versions of the kaffeeklatsch — an old German word meaning coffee - gossip. Today, the "kaffeeklatsch" — meaning women gathering together over a cup of coffee — is reaching new heights of popularity.

• • •

BUT THE coffee served at these get - togethers isn't what it used to be. Old - fashioned coffee was rich, hearty and stimulating, with a fresh aroma and robust flavor.

To give your coffee that rich aroma and flavorful taste of old - fashioned coffee, here are some tips on coffee buying, brewing and serving from the makers of the Kitchen Aid Electric Coffee Mill:

• • •

WHEN YOU buy coffee, buy the brand in the bean that tastes best to you. Every brand is a blend of different coffee beans, each chosen for its distinctive flavor quality.

Coffee in the bean is usually available at leading supermarkets everywhere.

GRIND your coffee fresh, just before you brew, so that the rich volatile oils and flavor are captured in every cup.

Choose the grade of grind that is right for your coffee-maker.

When you brew, always start with a clean pot.

• • •

WHEN YOU serve, serve it immediately after brewing, if possible. If coffee must stand before serving, keep it over a simmer or very low heat. Never boil coffee after brewing.

When you clean your coffee - maker, it's wise to use hot water. Contrary to popular belief, fast rinsing does not always remove coffee oils that may cause a distasteful flavor in the next pot of coffee.

These pointers for perfect coffee will make your next kaffeeklatsch a sure success. Try them soon!
