A&P

why does the fish in Cap'n John's frozen fish dinners taste fresh-cooked?

Because you cook the fish.

It takes no longer than heating pre-cooked frozen fish...only 20 minutes.

You see, we're sort of fanatics about fresh fish flavor.

So we refuse to pre-cook the fish.

Here's what we do:

We dip the fillet in milk batter.

Bread it. Top it with butter.

We blanch the peas.

Partly cook the potatoes.

So everything's done at once (in only 20 minutes) when you cook it.

The result.

A fish dinner that tastes like the fish is fresh-cooked.

It should. Because it is.

One important tip.

Be sure the oven is really pre-heated to 400° F.

Are our Cap'n John's Frozen Fish Dinners a good reason for shopping A&P?

They're one of many.
