KAPPA CHAPTER, Iota Phi Lambda Sorors fulfilled their promise to their Business Week Popularity Contestants a couple of Sundays ago when they entertained in their honor with a beautiful reception and lavish buffet at the home of the President. Soror Gladys B. Ball, on Elsinore Ave.

The Sorority's green and white colors formed the basis for the color scheme and white roses and greenery were profuse throughout the house. The girls came at 3:00 p.m., and were met by the Sorors who had assembled earlier in order to be on hand to welcome the young ladies.

A delightful get-together hour followed in which each young woman was asked to briefly outline her ambitions and aims for the future. The vocational ambitions ran the gamut from teacher to executive secretary to secretary to child psychologist, realtor, nurses, social workers, lawyers, doctors, pharmacists.

By the time this part of the activity was over, the girls had lost any shyness they might have had and were ready for the sumptious buffet which Soror Ball, with the aid of her daughter, and niece, both of whom were contestants, had prepared.

The girls were especially happy that as a result of their participation in the popularity contest, Kappa Chapter would be able to award four scholarships to young women seniors who plan to go to college and major in business education or business administration.

The following contestants were present for this activity: Miss Arlene Bell, Miss Strelsa Gorham, Miss Althea Lee, and Miss Jacqueline Braxton, daughter and niece of the President. Miss Colleen Boston, Miss Valorie Faulcon, Miss Sylvia Stokes, winner of the contest, Miss Carrie William, Miss Essie Gross, Miss Geneva Harvin, and Miss Rita Bennett.

Now Possible To Shrink Painful Hemorrhoids
And Promptly Stop The Itching, Relieve Pain In Most Cases.

New York, N. Y. (Special): A scientific research institute has discovered a medication which has the ability in most cases — to actually shrink hemorrhoids. In case after case, the sufferer first notices prompt relief from the itching, burning and pain. Then this medication starts right in to gently reduce the swelling of inflamed, irritated hemorrhoids.

Tests conducted on hundreds of patients by leading doctors in New York City, in Washington, D.C. and at a Midwest Medical Center proved this so. And it was all accomplished without narcotics or stinging astringents of any kind.

The secret is *Preparation H®* — an exclusive formula for the treatment of hemorrhoids. There is no other formula like it! In addition to actually shrinking piles and relieving the painful distress—Preparation H lubricates, makes bowel movements less painful and soothes the irritated tissues. It also helps prevent further infection.

Preparation H comes in ointment or suppository form. No prescription is needed.

-Miss Barnes

(Continued from Page 9)

Harmans, Md. was best man, Ushers were Nelson Barnes, Jr., Paul Barnes and Larry Blackwell of this city; and Sidney Matthews and Alan Matthews of Severn, Md. Donald Barnes carried the rings.

A reception was held in the church, and a second reception at Dorsey, Md., the home of the bridegroom's grandparents.

Out-of-town guests included Mr. and Mrs. Carl Kelly of Camden, N.J., Miss Gail Davis of Philadelphia and Mr. and Mrs. Virgil Martin of Washington.

Old Taylor Presents: Ingenious Americans

#10 in a series

Lewis Latimer (1848-1928)

He helped us see the light.

Lewis Latimer took a spectacular, though impractical, invention and completely changed the lives of thousands of Americans. The invention was Thomas Edison's electric light bulb. What Latimer did was improve the lamp with an inexpensive carbon filament and a wooden socket—much like the metal ones we use today.

Latimer's improved lamp caught the attention of a young businessman, Charles Weston, who could see its unlimited possibilities. Weston raised enough money to set up a company to make the lamp. Then he sent Latimer to Canada and England to supervise production there.

A year later, the Excelsior Electric Company asked Latimer to advise its engineering and legal departments. So when the two companies decided to set up an organization to protect their patents, Latimer was asked to be chief draftsman and legal witness. He traveled all over the world gathering evidence against companies which were using Weston and Excelsior patents without permission.

Millions of dollars rested on this one man's testimony. A man who had to go out and work to support his mother at age ten, a man who had been a 15-year-old cabin boy during the Civil War, a man who had begun his amazing career as an office boy in an engineering firm, a man who was self-educated in the field to which he was now so important.

In 1918, an organization was formed for the men who were regarded as the "creators of the electric industry." It was named the Edison Pioneers. And Lewis Latimer was one of its most distinguished members. Every time someone turns on an electric light, it becomes a memorial to a truly Ingenious American.
