Your Income Tax

The key factor in determining whether you have to file a Federal income tax return is the amount of your income, Irving Machiz, District Director of Internal Revenue for Maryland and the District of Columbia, said today.

Anyone under 65 years of age who has gross income of $600 or more for the year is required to file a return.

This requirement applies to minors, students, single and married alike.

• • •

If you are 65 or older on the last day of your tax year, no return is required unless your gross income was $1,200 or more. Even if your income is under these limits you should file a return to obtain a refund of any income tax withheld from your salaries or wages.

Businessmen, farmers, and other self-employed persons must file a return if their net earnings from self-employment were $400 or, more.

Publication 538, "Information on Filing Your Tax Return," furnishes more detailed information and may be obtained at your local IRS Office.

• • •

Income tax refunds can be processed quickly and without delay if taxpayers put the preaddressed name label that came on their 1040 tax package on the return they file, Mr. Machiz, said.

Taxpayers using the card Form 1040-A should use the preaddressed form mailed them.

Mr. Machiz said that use of the name label or preaddressed form will eliminate errors in Social Security numbers that held up refunds for 20,4642 taxpayers in Maryland and the District of Columbia last year.

• • •

Returns filed before April 1 which used the name label can be processed and the refund issued in five to six weeks.

Taxpayers who find an error in their name label should correct it and send it back with their return.

Mr. Machiz said taxpayers who have their returns prepared by someone else should remember to put the name label on the form they actually file.

These taxpayers should either give the tax preparer the form with the name label attached or attach the name label themselves when the completed form is returned to them for review.
