Magnavox High-Performance 4-channel Stereo System!

holiday special offer

Magnavox 4-channel sound fills your room without emptying your wallet. Whether you want your 4-channel sound from Matrix records, FM broadcasts, enhanced stereo from your present records—we've got you surrounded. With music of startlingly realistic depth and separation. From components that are prematched by Magnavox audio experts, not by chance. Stereo FM/AM receiver with built-in 4-channel Matrix decoder, four 2-way Air-Suspension speakers and an automatic record changer—all prematched to work in harmony with each other . . . to surround you with exciting sound. Model 1817 is just one of several Magnavox 4-channel stereo systems. Come in for a demonstration. Complete systems are loaded with everything you'd expect. But at prices you'd never expect.

PERFORMANCE SPECIFICATIONS:

Model 1817—gives a full 50-Watts IHF music power (0.5% THD). The tuner/amplifier boasts a Stereocast Indicator and Tuning Meter . . . and full audio controls include Stereo Balance Control, Cut/Boost Bass and Treble Controls as well as a High Cut Filter. It also has a full jack panel. The Micromatic® I Record Changer offers a magnetic cartridge, diamond stylus, cue control and auto off. The Sealed Air-Suspension Speaker System has a High Compliance 8" Bass Woofer and a 3½" Cone Speaker in *each* enclosure. It's a good-looking system, too . . . with units of sturdy metal and moulded non-wood material and speaker cabinets of grained vinyl clad hardboard. Also available as model 1816 with space saving combined tuner/amplifier/phono. Your choice.
