Plan to renew drive for civil rights law's Part 3

NEW YORK — The NAACP will join other civil rights groups in urging the second session of the 85th Congress to finish Part 3 to the civil rights bill passed by Congress last summer, Clarence Mitchell, director of the Washington bureau, reported at the 49th annual meeting Monday.

This section of the bill which would have authorized federal intervention to sustain civil rights, as in school desegregation cases and in other deprivations of rights, was stricken from the bill by the Senate after a bitter debate.

Mr. Mitchell declared that the association "never undersigned the potential good in Part 3."

HE ADDED that Rep. Emanuel Celler (D., N.Y.), chairman of the House Judiciary Committee, and Kenneth Keating (R., N.Y.), ranking minority party member of the committee, have both pledge to resume the fight to get Part 3 enacted into law when the next session of Congress begins.

Mr. Mitchell reviewed the work of the Washington bureau during 1957, reporting particularly on the bureau's efforts to secure enactment of the civil rights law.

Other activities included unsuccessful efforts to secure an antisegregation amendment to the federal aid to school construction bill, a change in the Senate cloture rule to permit limitation of debate and an amendment to prohibit the use of federal funds to build segregated hospitals.

Joe's Corner

By JOSEPHUS SIMPSON

What are our civic leaders going to do about the current practice of southern cities of selling "for a song" to some white groups public facilities to escape integration?

"A number of cities in the South last year sold swimming pools or golf courses after suits were filed to force use of these facilities by all citizens alike, without discrimination because of race or color.

Some of these facilities—paid for by ALL of the taxpayers—were sold for less than one tenth of what they cost, or their actual value, to private white organizations which would make them available to white citizens for a price.

THUS, WHITE citizens still may enjoy the use of these facilities, the sale notwithstanding. But the colored taxpayers who helped make the facilities possible are left out in the cold. They may never use the facilities again.

The fact that such sales rob completely one class of citizens while another class still may use the facilities, it seems to me, set up the element of discrimination. It does irreparable damage to one class of citizens in favor of another.

Such sales are illegal. I contend, because they, in effect, create a city subsidy of a private organization. If the purchaser pays even half of the actual value for the property, the other half is in actual cash lady out of the pockets of the taxpayers.

TAXPAYERS WHO may still use the facility after it is sold—for a nominal fee—lose little or nothing as a result of the sale because they paid a nominal fee for its use when it was owned by the city. But what about the taxpayer who is forever denied its use?

The latter taxpayer is the one who has suffered irreparable damage. It is he who must step out to prevent future sales of this type and seek to nullify those already made, if

When and where do we begin?

The answer is in your hands, legal and a taxpayer, you can supply it.

Why handpicked troops? Ollie Stewart asks solons

By OLLIE STEWART

PARIS —Attention, Congressmen Powell, Dawson and Dixon!

American Marines are used to guard the inside of the American Embassy here in Paris.

They stand in full uniform at the big iron gates between 5 and 6 every day, checking out the last persons to leave and keeping latecomers from entering unless they have important business inside.

They also stand guard on big occasions like the July 4th embassy cocktail party.

WHAT I want to know is why are all the Marines in Paris white marines? If I read correctly, the Marine Corps is integrated, but you would never know it from the guards at the gate you pass the embassy and look at the guards, as I do quite often.

I don't know about other embassies and legations throughout the world. But I do know that the Paris embassy is a showcase—a part of the United States for all to see.

In the Marine Corps is handpicking the guards, it should be brought out and explained why for what it is — discrimination. I just thought you gentlemen might like to know this little fact. It's little, but is the fact. It's little, but significant.

AMEs rap Allen U. president on firing

"We fear that the shame which will come to the AME Church at this instance will be more far-reaching than the praise you will gain from those whose dictation you now follow."

That statement was made Wednesday by ministers and laymen of the Second Episcopal District on the controversy at Allen University, Columbia, S.C.

The statement was issued by the Rt. Rev. Frank M. Reid, presiding bishop of the district, at a one-day church conference here.

• • •

IT PERTAINS to a proposal by Bishop I. H. Bonner, chairman of the Allen board of trustees of the AME college, to fire three professors and dismiss a subdivision of the 130-member board on Jan. 10.

The proposal grew out of steps taken to lift the ban on accreditation imposed on the college by South Carolina and upheld by Gov. George B. Timmerman.

Two of the professors are white. They are Drs. John G. Rideout and Edwin Hoffman. The third scheduled to be fired is Forrest O. Wiggins.

• • •

THE STATEMENT said in full:

"The ministers and laymen of the Second Episcopal District, taking note of announcement through the press that the administrators of Allen University, our church related college, has pledged the votes of its trustees to dictations of the governor, thus giving no freedom of choice either to the trustees or the AME church, do here adopt the following resolution:

"Montgomery, Ala., a Baptist preacher and many people inspired by God stood for convictions, suffered for a cause and won.

"In Little Rock, Ark., one lady and nine children refused to follow dictates and a governor, stood for conviction and are winning.

"Shall a bishop of the AME Church, AME General officers, college president lead in the surrender of the church and church school?

"We believe in the separation of church and state. We fear the same will come which will come to the AME church at this instance, when deserted by those who it has made, will be more far-reaching than the favors you will gain from those whose dictation you now follow.

The church throughout the nation watches with deep concern and pray that God will give you the courage needed to stand as others and other church people have stood on this matter. Let Allen U. offer high moral principle. It is better to serve God than man."

Report on Senate rules change due

WASHINGTON (NNPA) — Sen. Jacob K. Javits (Rep., N.Y.) said a new conference Wednesday that opposite reports will shortly be submitted by Sen. Joseph C. Merriam (Rep., Kan.) and himself on amending the Senate's cloture rule.

Talmadge and Javits constitute a subcommittee which has been studying various proposals for curbing Senate filibusters. Their reports will be submitted to the full Senate Rules and Administration Committee.

MR. JAVITS said his report on the rules change is almost complete and he has requested of Mr. Talmadge a meeting of the subcommittee. "This meeting he said, "will undoubtedly develop the fact that each of us will make separate reports."

He added that relations between him and Talmadge have been very cordial but that they thoroughly disagree. Talmadge is against changing the cloture rule, Javits favoring outlawing the filibuster.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a way to relieve piles without surgery, with the astonishing ability to shrink hemorrhoids, stop bleeding, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors. Most amazing of all:

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months.

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoidal conditions, some of 10 to 20 years' standing.

This new healing substance is offered in suppository or ointment form called *Preparation H.*® Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.
