# YOU MIGHT BE PERFECT FOR A JOB YOU NEVER HEARD OF.

It's out there waiting for you. A chance to prove yourself in a way you might never have thought of. In Army Aviation. Right now, the Army has hundreds of openings for women in air traffic control, aircraft maintenance, radar and avionics. You might even get a chance to earn your wings. But it takes more than a high school diploma to make it in today's modern Army. It takes someone who's ambitious enough to realize her full potential in a really challenging skill. To be somebody special.
